Foreword
The art on the cover and each of the section dividers of this university catalog connects the faces of sixteen current CSUMB students in a four-by-four mosaic of 16 rectangles. These mosaic faces represent CSUMB’s commitment to bringing diverse people together in a multicultural environment to pursue their educational dreams. Each brings a unique world of past experience to CSUMB. Each encounterers a CSUMB world of experiences enriched by many factors: the others who make up our student, faculty, and staff populations; the depth of the university’s commitment to service learning; the technological resources abounding on our campus; the quality of our interdisciplinary academic programs; extensive opportunities to apply learning in hands-on ways; exciting, challenging, and enlightening activities both on and off campus; and much, much more. Each leaves with an expanded mind and pallet of experiences.

Including the front cover, a total of 17 mosaic faces appear in this catalog. Interestingly, there are over 20.9 trillion other possible combinations of the 16 faces using the same 16-square grid. This staggering number parallels the endless possibilities available when diverse individuals put their heads together to work as one.

The 16 individuals were selected from among over 150 CSUMB students who answered an open photo call during the Spring 2000 semester. Each then participated in an individual photoshoot where CSUMB graphic design coordinator Steve Zmak snapped both front and back headshots.

The full front headshot of each student also appears in the catalog, one on each divider page. The position of each student’s photo on the divider page corresponds to the position of that student’s square on the front cover.

When looking at the back cover, think of it as looking at the back of the head created for the front. The back of each student’s head appears on the back cover directly opposite the position of that student’s face on the cover. Inside that back cover square, you will find the name and hometown of each student listed.

The black-and-white photos scattered throughout the catalog also feature CSUMB students, some current and a few graduated. The first set of these photos, which also appear on the CSUMB Website (www.csumb.edu) and in various other publications, were taken by freelance photographer Randy Tunnell during the spring of 1999.

Steve Zmak has since added extensively to the collection, conducting shoots once or twice each semester.
California State University, Monterey Bay (CSUMB) is envisioned as a comprehensive state university which values service through high quality education. The campus will be distinctive in serving the diverse people of California, especially the working class and historically undereducated and low-income populations. It will feature an enriched living and learning environment and year-round operation. The identity of the university will be framed by substantive commitment to multilingual, multicultural, gender-equitable learning. The university will be a collaborative, intellectual community distinguished by partnerships with existing institutions both public and private, cooperative agreements which enable students, faculty, and staff to cross institutional boundaries for innovative instruction, broadly defined scholarly and creative activity, and coordinated community service.

The university will invest in preparation for the future through integrated and experimental use of technologies as resources to people, catalysts for learning, and providers of increased access and enriched quality learning. The curriculum of CSUMB will be student and society centered and of sufficient breadth and depth to meet statewide and regional needs, specifically those involving both inner-city and isolated rural populations, and needs relevant to communities in the immediate Tri-County region (Monterey, Santa Cruz, and San Benito). The programs of instruction will strive for distinction, building on regional assets in developing specialty clusters in such areas as: the sciences (marine, atmospheric, and environmental); visual and performing arts and related humanities; languages, cultures, and international studies; education; business; studies of human behavior, information, and communication, within broad curricular areas; and professional study.

The university will develop a culture of innovation in its overall conceptual design and organization, and will utilize new and varied pedagogical and instructional approaches including distance learning. Institutional programs will value and cultivate creative and productive talents of students, faculty, and staff, and seek ways to contribute to the economy of the state, the wellbeing of our communities, and the quality of life and development of its students, faculty, and service areas.

The education programs at CSUMB will:

- Integrate the sciences, the arts and humanities, liberal studies, and professional training;
- Integrate modern learning technology and pedagogy to create liberal education adequate for the contemporary world;
- Integrate work and learning, service and reflection;
- Recognize the importance of global interdependence;
- Invest in languages and cross-cultural competence;
- Emphasize those topics most central to the local area’s economy and ecology, and California’s long-term needs;
- Offer a multicultural, gender-equitable, intergenerational, and accessible residential learning environment.

The university will provide a new model of organizing, managing, and financing higher education:

- The university will be integrated with other institutions, essentially collaborative in its orientation, and active in seeking partnerships across institutional boundaries. It will develop and implement various arrangements for sharing courses, curriculum, faculty, students, and facilities with other institutions.
- The organizational structure of the university will reflect a belief in the importance of each administrative staff and faculty member, working to integrate the university community across “staff” and “faculty” lines.
- The financial aid system will emphasize a fundamental commitment to equity and access.
- The budget and financial systems, including student fees, will provide for efficient and effective operation of the university.
- University governance will be exercised with a substantial amount of autonomy and independence within a very broad CSU systemwide policy context.
- Accountability will emphasize careful evaluation and assessment of results and outcomes.

Our vision of the goals of California State University, Monterey Bay includes: a model pluralistic academic community where all learn and teach one another in an atmosphere of mutual respect and pursuit of excellence; a faculty and staff motivated to excel in their respective fields as well as to contribute to the broadly defined university environment. Our graduates will have an understanding of interdependence and global competence, distinctive technical and educational skills, the experience and abilities to contribute to California’s high quality work force, the critical thinking abilities to be productive citizens, and the social responsibility and skills to be community builders. CSUMB will dynamically link the past, present, and future by responding to historical and changing conditions, experimenting with strategies which increase access, improve quality, and lower costs through education in a distinctive CSU environment. University students and personnel will attempt analytically and creatively to meet critical state and regional needs, and to provide California with responsible and creative leadership for the global 21st century.

—September 27, 1994
Making Contact at CSUMB

Throughout this catalog you will find contact information listed for specific campus entities. To the benefit of the general public, the listings include building numbers, office hours, direct dial information and fax numbers, email addresses, and Websites. As an added benefit for members of the campus community who have access to the FirstClass email system, FirstClass Conferences are also listed. These FirstClass Conferences serve as folders where electronic messages may be posted and read.

Mailing Address

All mail should be addressed to an individual or office followed by the general campus address listed here. When known, the building number for the individual or office may be inserted as an additional line between the name and the address.

- 100 Campus Center
  Seaside, CA 93955-8001

Email Addresses

As a general rule, if the first and last names of an individual member of the campus community are known, the person’s email address can be determined. Those using FirstClass on campus may start by typing a person’s first or last name then hitting “enter.” The person’s complete email address will either automatically be entered or a list of possible names will pop up so that a choice can be made.

When addressing email from off campus, more accuracy is required; a complete email address must be entered. Toward this end, it is helpful to know that most CSUMB email addresses for individuals are created by linking the first and last name with an underscore followed by @monterey.edu. Office email addresses are more difficult to determine. Some follow the same approach as for individuals. Others use acronyms followed by @monterey.edu. Specific email addresses for various offices and programs are listed throughout this catalog. General email inquiries may be sent to the Student Information Center:

- student_info_center@monterey.edu

Building Numbers

CSUMB Buildings are typically identified by number. A few buildings have become more commonly recognized by name, but they also have assigned numbers.

Special Note

Due to the opening of Building 47 and the new Campus Service Center currently scheduled for summer 2001, many essential campus services will relocate during the shelf life of this catalog edition. Where a relocation has been anticipated, the listed building for a program or office has been marked with a reference to this special note. In such cases, it would be advisable to call or email first to verify location.

Telephone Numbers

In 1998, the area code for CSUMB changed to 831 (from 408). The telephone exchange prefix is 582. Each phone on campus may be reached by dialing its four-digit extension number from another phone on campus. Each phone may also be directly dialed from within the 831 area code by dialing the 582 prefix followed by the extension. Those calling from outside of the area may directly dial a number by combining the area code, prefix, and extension (831-582-####).

The general CSUMB number to call for student-related information is:

- 831-582-3518

The general CSUMB number to call for other information is:

- 831-582-3330

Website

CSUMB maintains a comprehensive official Web domain (csumb.edu). Extensive unofficial pages maintained by students, staff, and faculty may also be found in the csumb.edu and monterey.edu domains. Details may be found in the IT@CSUMB.EDU chapter of this catalog, as well as on the Web itself.
Obtaining Information about CSUMB

The CSUMB Student Information Center (SIC) has been established as a one-stop shop that provides information about the university. SIC will either provide requested information or refer you to the most appropriate campus department.

Making Contact

- Student Information Center (SIC)
  - Location: Building 21
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Saturday Hours: 9:00 A.M. to 12:00 P.M.
  - Information: 831-582-3518
  - Fax: 831-582-3783
  - Email: student_info_center@monterey.edu
  - FirstClass Conference: Student Info Center
  - Website: www.csumb.edu/info

Information Available from the Student Information Center

- The following information concerning student financial assistance: student financial assistance programs, including state grants, available to students who enroll at CSUMB; the procedures and forms by which application for student financial assistance is made; the student eligibility requirements for financial assistance and the criteria used in determining how financial assistance is distributed among eligible applicants who enroll at CSUMB; and the rights and responsibilities of students receiving financial assistance including aid provided under federal Title IV student assistance programs.

- Information concerning the cost of attending CSUMB: fees and tuition (where applicable); the estimated costs of books and supplies; estimates of typical student room and board costs and typical commuting costs; and, if requested, additional costs for specific programs.

- Information concerning the refund policies of CSUMB for the return of unearned tuition and fees or other refundable portions of institutional charges.

- Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation.

- Information regarding special facilities and services available to students with disabilities.

- Information concerning CSUMB policies, procedures, and facilities for students and other to report criminal actions or other emergencies occurring on campus.

- Information concerning CSUMB annual campus security report.

- Information concerning the prevention of drug and alcohol abuse, and rehabilitation programs.

- Information regarding student retention and graduation rates at CSUMB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest.

- Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSUMB dedicates to its men’s and women’s teams.

- Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff.

Information in this Catalog

Much of the information listed above is provided in this catalog. Although every effort has been made to assure the accuracy of the information, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature or rules and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the CSUMB president or designee.

Further, it is not possible in a publication of this size to include all of the rules, policies, and other information which pertain to the student, the institution, and the California State University system. More current or complete information may be obtained from the Student Information Center or the appropriate department, school, or administrative office as identified under the Making Contact header in each catalog section.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the chancellor of the California State University, or the president of California State University, Monterey Bay. The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the trustees, the chancellor, the CSUMB president, and their duly authorized designees.

Information on the CSUMB Website

A great deal of information about CSUMB may also be found on the Web (www.csumb.edu). Users should be sure to note the distinction between official CSUMB and unofficial CSUMB pages and information on the Web as explained on the Website (www.csumb.edu/search).

Special Note

When the new Campus Service Center opens in Building 47, currently scheduled for summer 2001, it will replace the Student Information Center as the source for all information listed to the left.

Summer Session 2001

- May 1. First day to apply for May or August 2002 graduation
- May 12. ELM and EPT tests
- May 30. Last day to apply for Installment Payment Plan (IPP) for Fall 2001
- May 21. Summer session parking permits go on sale
- June 4. Summer session parking permits required
- June 4-July 27. Summer 2001 session
- June 11. ELM and EPT registration deadline for June 23 tests
- June 23. ELM and EPT tests
- July 2. Second Installment Payment Plan (IPP) payment due for Fall 2001

Fall 2001 Semester

- August 1. Third Installment Payment Plan (IPP) payment due for Fall 2001
- August 1-24. Fall 2001 semester registration reopens for continuing students
- August 13-31. Spring 2002 semester application initial filing period
- August 6. ELM and EPT registration deadline for August 21 tests
- August 20. Fall semester parking permits go on sale
- August 19-21. Residence hall move-in days
- August 20-24. Faculty orientation and planning – Academic year begins
- August 21. ELM and EPT tests
- August 22-24. New student orientation, advising, and registration
- August 24. Last day to register without $25 late registration fee
- August 24-25. Last day to apply for financial aid and have fees deferred for Fall 2001 semester
- August 24. Otter Days (orientation for freshman and new sophomores)
- August 27. Fall 2001 semester courses begin
- August 31. Last day to pay Fall 2001 registration fees without a $20 administrative late payment fee
- September 3. Labor Day holiday – Campus closed
- September 4. Fall semester parking permits required
- September 10. Last day to add/drop courses without petition and a “W” (withdraw) grade for Fall 2001 semester
- September 10. Last day to apply for refund of basic registration fees (less $.50 processing fee)
- September 11. First day to drop courses for serious and compelling reasons (“W” grade assigned)
- September 24. Enrollment census date
- September 28. ELM and EPT registration deadline for October 13 tests
- October 1. Last day to apply with a late fee and petition for December 2001 graduation
- October 1. Last day to apply for May or August 2002 graduation without a late fee and petition
- October 8-12. Fall break for students – Faculty planning week
- October 13. ELM and EPT tests
- November 1. Last day of fee deferment for financial aid students
- November 1-30. Fall 2002 semester application initial filing period
- November 1-30. Spring 2002 semester early registration for continuing students
- November 16. ELM and EPT registration deadline for December 1 tests
- November 22-23. Thanksgiving holiday – Campus closed
- November 26. Last day to drop courses for serious and compelling reasons (“W” grade assigned)
- November 26-December 7. Registration for Winter 2002 session
- December 1. ELM and EPT tests
- December 3. First day to apply for December 2002 graduation
- December 7. Last day for Spring 2002 early registration and fee payment for continuing students
- December 8. Spring 2002 semester early registration for new students
- December 8. Last day to apply for Installment Payment Plan (IPP) for Spring 2002
- December 17. Last day of Fall 2001 courses
- December 18-20. Assessment period
- December 25-31. Holidays – Campus closed
- January 3. Grades due – End of Fall 2001 semester
Winter 2002 Session

- January 1: New Year’s Day holiday – Campus closed
- January 2: Winter 2002 courses begin
- January 8: Second Installment Payment Plan (IPP) payment due for Spring 2002
- January 21: Martin Luther King Day holiday – Campus closed
- January 23: Last day of Winter 2002 courses
- January 25: Grades due – End of Winter 2002 session

Spring 2002 Semester

- January 22: Spring semester parking permits go on sale
- January 22-25: Spring 2002 semester registration reopens for continuing students
- January 22-25: Faculty planning – Pre-instructional activities
- January 23: Residence hall move-in day
- January 24-25: New student orientation, advising, and registration
- January 25: Last day to register for Spring 2002 semester without late registration fee
- January 25: Last day to apply for financial aid and have fees deferred for Spring 2002 semester
- January 28: Spring 2002 semester courses begin
- February 1: Last day to pay Spring 2002 registration fees without a $20 administrative late payment fee
- February 4: Spring semester parking permits required
- February 8: Third Installment Payment Plan (IPP) payment due for Spring 2002
- February 11: Last day to add/drop courses without petition and a “W” (withdraw) grade
- February 11: Last day to apply for refund of basic registration fees (less $5 processing fee)
- February 12: First day to drop courses for serious and compelling reasons (“W” grade assigned)
- February 22: Enrollment census date
- February 28: Last day to apply with a late fee and petition for May or August 2002 graduation
- March 4-15: Summer 2002 session registration for continuing students
- March 5: Deadline for priority filing of financial aid application
- March 15: Last day for Summer 2002 registration and fee payment
- March 15: Last day to apply for financial aid and have fees deferred for Summer 2002 session
- March 18-22: Spring break for students
- April 1: Spring 2002 semester registration reopens for continuing students
- April 1: César Chávez Day observed – Campus closed
- April 2: Last day to apply for December 2002 graduation without a late fee and petition
- April 2: Last day of fee deferment for financial aid students
- April 2-30: Registration for Summer 2002 session for continuing students
- April 29-May 31: Fall 2002 semester early registration for continuing students
- May 1: First day to apply for May or August 2003 graduation
- May 1: Open University registration for Summer 2002 session
- May 6: Last day to drop courses for serious and compelling reasons (“W” grade assigned)
- May 11: Fall 2002 semester registration for new students
- May 17: Last day of Spring 2002 semester courses
- May 20-23: Assessment period
- May 24: Capstone Festival
- May 25: Commencement
- May 27: Memorial Day holiday – Campus closed
- May 28-29: Faculty planning days – End of academic year
- May 31: Last day to apply for financial aid and have fees deferred for Fall 2002 early registration
- May 31: Last day for Fall 2002 early registration and fee payment for continuing students
- May 31: Last day to apply for Installment Payment Plan (IPP) for Fall 2002
- June 3: Grades due – End of Spring 2002 semester

(1) Enrollment census and ELM/EPT test dates are not set by the campus and may be subject to change.
From the President

Since first opening our doors to students in the fall of 1995, CSUMB has targeted a goal of creating a profound world of experience for our students. Guided by the wisdom of the best educational research that told us what does and does not work, unlimited by traditions because our university was founded in the 1990s, and committed to a forward-thinking Vision Statement written by members of our surrounding communities and the founding faculty and administrators, we have built CSUMB to provide a 21st century world of experience where students:

- Learn through service to the community—The CSUMB service learning requirement has become a model for the rest of the state.
- Thrive together as diverse individuals in a multicultural environment—Differences of self and culture are warmly welcomed as assets that expand learning opportunities for all.
- Seek global perspective—All fields of study are looked at through a worldwide lens and all CSUMB students learn a second language.
- Employ the latest technologies—Assignment exchange via the campus computer network, email and Internet access for all students, multimedia classroom instruction, spatial information systems, and ample computer lab space augment powerful learning achieved through extensive professor-student interaction.
- Interconnect several fields of study—CSUMB offers 12 dynamic, multiple-focus undergraduate degree programs, each integrating several traditional fields of study into a united whole.
- Demonstrate learning in hands-on ways—Rather than just completing predetermined coursework in order to get a degree, students design Individualized Learning Plans that may include courses, field study, internships, and verified learning from past experiences. Then, before they graduate, they are expected to demonstrate their cumulative learning through a comprehensive, publicly presented Capstone project.

To support our students in their educational pursuits, we constantly look for new opportunities to add something extra to our campus—new classrooms and labs, expanded course offerings, better student services, and more exciting activities.

This summer we will add the Campus Service Center, a one-stop shop for essential student services, to our growing list of ultra-modern campus facilities, all of which have been completely renovated from their military origins and refurbished to 21st century standards. The first completely new building, a $22.1 million state-of-the-art Science/Academic Center, is currently in the design and funding stages. All of the CSUMB buildings are surrounded by a growing landscape of native plants and indigenous trees.

We have broadened our academic offerings by adding new courses, faculty, and special learning opportunities. We recently created 29 new concentrations that allow students to focus their studies on particular areas within our interdisciplinary majors. We have expanded partnerships with area educational institutions such as Moss Landing Marine Laboratories and the Monterey Institute of International Studies, and with all of our regional community colleges through the Higher Education Learning Partnership (HELP). These collaborations enable students, faculty, and staff to cross institutional boundaries for innovative instruction, creative activity, and coordinated community service.

The number and variety of campus activities continue to increase. We have a long list of student-founded organizations, from athletic clubs to environmental and cultural groups. Our students broadcast a daily music show and various campus events via Internet-streamed audio and video connecting CSUMB with people around the world, and we host both a graduate school fair and a career day aimed at connecting students with the future of their choice. Our academic Institutes sponsor a Visiting Artists Series, Writers Series, Multicultural Speakers Series, Social Justice Colloquium, and music and dance performances. These events involve students, their families, and community members directly in learning about different cultures and ways of perceiving the world. Meanwhile, our students have become even more active in wellness and sport activities. For the outdoor-minded, right on campus we have hiking and biking trails as well as a disc golf course. Within a short drive, the Monterey Bay offers surfing, scuba, kayaking, and sailing opportunities. Meanwhile, in our Wellness Activity Center, intramural sports leagues have blossomed and our intercollegiate athletic program has established winning ways.

If you are looking for something extra in your educational experience, then we invite you to tap into the world of experience that CSUMB offers. If you do, your college years will be extraordinary!
From the Provost and Vice President for Academic Affairs

CSUMB offers a unique experience for students whether you are a first time freshman, community college transfer student, a reentry student, or a working adult. We are preparing lifelong learners for a changing world—a diverse world, a technological world, an interdependent world. We know that individuals will change careers as many as five times during their lifetime! At CSUMB we are committed to preparing individuals who can think critically and flexibly, who can apply their learning in a variety of settings. As a CSUMB graduate you will be able to talk about what you can do, not just how many courses you have completed.

At CSUMB we are proud of our core values. We are a university community that celebrates diversity. We thread technology throughout the curriculum. We provide our students opportunities to serve the community. We value multiple languages and cultures in our global community. We approach the curriculum in interdisciplinary patterns so students can understand the relationships among the disciplines.

CSUMB is a young and growing institution designed for the 21st century. We are proud of our high quality academic programs. We are proud of our outstanding faculty and staff who truly work together to make sure students are successful. Our graduates are already being recognized in the community for their unique qualities and competence. CSUMB does indeed offer something special to students. Let us welcome you into the Monterey Bay experience!
Understanding CSUMB

Vision Statement

Officially adopted on September 27, 1994, the CSUMB Vision Statement created the philosophical foundation for the university. It guides all decisions regarding programs, policies, practices, personnel, campus environment, funding, and more. What moves CSUMB closer to its Vision is considered valuable. Anything that undermines the Vision is viewed as unacceptable. To truly understand CSUMB, you should read the Vision (see page 4). If you share its core values and academic goals, then CSUMB should prove to be a perfect place for you to learn, work, and live.

Academic Goals

Seven broad academic goals have also been identified based on the Vision. These provide a common focus for CSUMB’s General Education offerings, undergraduate majors, graduate degree programs, teaching certification programs, and informal enrichment opportunities. These seven goals are:

- Effective and ethical communication in at least two languages with widely diverse audiences
- Cross-culturally competent citizenship in a pluralistic and global society
- Technological, aural, and visual literacy
- Creative expression in the service of transforming culture
- Ethics, social justice, and care for one another
- Scientific sophistication and value for the earth and earth systems
- Holistic and creative sense of self

Unique Terminology

CSUMB’s unique Vision has given rise to specialized terminology. Becoming familiar with the following terms will help students, staff members, faculty members, and visitors alike.

Assessment

The formal process of evaluating the outcomes of a learning experience.

Capstone

Public presentation of a culminating project or portfolio of work that demonstrates a student’s cumulative learning.

Center

A formally recognized grouping of related academic programs, overseen by a dean. A CSUMB Center is essentially the equivalent of a school or academic division at other universities.

Collaboration

Working together to achieve a desired outcome. At CSUMB, professors take great pride in collaborating with students to reach learning outcomes rather than just telling students what they need to know. They also create opportunities for students to collaborate with each other to achieve learning outcomes. Collaboration does not stop there. Across campus, students, staff members, faculty members, and administrators collaborate to determine desired outcomes, then collaborate to achieve them, knowing that working together produces far better results than working alone.

Course

Entered through formal enrollment, a learning experience accompanied by simultaneous assessment, or a formal assessment of a prior learning experience.

Diversity

Wide variation among individuals in terms of race, ethnicity, color, socioeconomic status, national origin, culture, religion, ability/disability, gender, sexual orientation, and other identification variables.

Individualized Learning Plan (ILP)

A detailed outline of the knowledge, skills, and abilities required for a student to reach self-identified personal, social, and professional goals. The ILP, initially drafted during the Freshman ProSeminar and later refined during the Major ProSeminar, guides a personalized CSUMB education for each student.

Institute

A formally recognized academic program, overseen by a director, that offers a specific curriculum as well as related educational programming and services for the campus and regional communities, e.g. lectures, performances, and workshops. (Note: A CSUMB Institute is essentially the equivalent of an academic department at other universities.)

Learner-centered

Focus on the student rather than the professor. A commitment by professors to engage students in the learning experience, and a commitment by students to become involved in their own learning. This typically means that professors design more hands-on and dynamic experiences that consider varying student learning styles, and that students take more responsibility for their own learning by interacting more extensively with each other and with the instructor. This process looks and feels very different than traditional lecture-style instruction where professors dispense knowledge and leave students with the burden of connecting to it.

Learning Experience

Any knowledge and ability expanding set of events, e.g. traditional coursework, online coursework, practical training, work experience, and life experience. All such events may earn CSUMB credit either through concurrent enrollment in a course that delivers the learning experience or through subsequent enrollment in a course offering formal assessment of a prior learning experience.

Learning Outcomes

The tangible results—what students know and can do—following a learning experience.

Major Learning Outcomes (MLOs)

The learning outcomes adopted by an academic major. When students demonstrate all of these through assessment and fulfill all other requirements such as the University Learning Requirements and minimum credits earned, they become eligible to graduate with a degree in the major.

Graduation Learning Outcomes (GLOs)

The learning outcomes required for all undergraduate degrees. When students demonstrate all of these through assessment and fulfill all other requirements such as the University Learning Requirements,
The CSUMB Experience through service in the community. CSUMB has both lower-division and Service Learning ProSeminar 400 (Senior Capstone) helps students prepare their Senior Majors to the requirements of the major as they refine their ILPs. Each course offered by each undergraduate degree program, orients students to CSUMB as they draft their ProSeminar orients students to CSUMB as they draft their Individualized Learning Plans (ILPs). Major ProSeminar, a junior-level course required that students take specific courses.

Individualized Learning Plans (ILPs) are designed to accommodate individualized learning outcomes through prior learning experiences rather than getting appropriate credit if students have already achieved desired learning outcomes first, then identifying or developing the means to achieve those outcomes. Outside of the educational world, outcomes-based is the norm. Example: you first decide that you want to get to the store, then you determine whether you should walk, drive, or take the bus. Few just jump on the bus then later decide to have the ride result in getting off at the store. Overall, individuals make few decisions in life without some desired outcome in mind. While the action-first approach can result in great discovery and surprises, it hardly seems efficient for people who want to move forward in life. Unfortunately, education has often focused on specific actions that produce varied results, rather than specific results that can be reached through various actions. Most notably, students are usually required to take specific courses as part of their program of study, but no one assures that various sections of those courses taught by different professors result in students learning the same things. Passing the courses becomes the objective. CSUMB identifies the desired learning outcomes first, then adopts courses that will produce those outcomes. The university also provides mechanisms for getting appropriate credit if students have already achieved designated outcomes through prior learning experiences rather than requiring that they take specific courses.

ProSeminar Three required courses that combine to develop the values, knowledge, skills, and abilities that form a foundation for lifelong learning. Each of these courses creates a community of learners. Freshman ProSeminar orients students to CSUMB as they draft their Individualized Learning Plans (ILPs). Major ProSeminar a junior-level course offered by each undergraduate degree program, orients students to the requirements of the major as they refine their ILPs. ProSeminar 400 (Senior Capstone) helps students prepare their Senior Capstones and complete their ILPs in preparation for graduation.

Service Learning Individuals learning about themselves and the world around them through service in the community. CSUMB has both lower-division and major-based service learning requirements that allow students to choose among a variety of placements in community agencies and schools. The surrounding coursework focuses on personal reflection and growth.

University Learning Requirements (ULRs) The 13 sets of learning outcomes adopted by CSUMB as its General Education (GE) program. CSUMB undergraduate students must demonstrate these outcomes through assessment in order to earn a baccalaureate degree.

Acronyms Typical of any university, CSUMB also sports a proliferation of acronyms. In fact, many programs, buildings, and other entities are more readily recognized by their acronyms than their full names. The handy acronym guide on pages 15-20 will help to decode these.

General Education

University Learning Requirements A focus on outcomes has lead CSUMB to develop a General Education (GE) program composed of 13 University Learning Requirements (ULRs) rather than a sequence of courses which students must take. The 13 ULRs are:
- Community Participation (CP)
- Creative and Artistic Expression (ARTSCOM)
- Culture and Equity (CULTURE)
- Democratic Participation (DEMPART)
- English Communication (ENSGCOM)
- Ethics (ETHICS)
- Language (LANG)
- Literature and Popular Culture (LIT)
- Mathematics Communication (MATHCOM)
- Science (SCI)
- Technology and Information (TECH)
- U.S. Histories (HIST)
- Vibrancy (VIBRANCY)

Satisfying the ULRs Students may satisfy each ULR by taking designated courses that provide built-in assessment, transferring a qualifying course from another institution, or enrolling in the appropriate alternate assessment course in order to demonstrate and get credit for prior learning. Regardless of the learning pathway taken, students must actively demonstrate an acceptable level of proficiency for each ULR. A current listing of courses offering built-in assessment for the various ULRs may be obtained from the Student Academic Advising office or on their website (http://advising.monterey.edu).

The ULR System and Title 5 General Education Requirements The ULR system represents CSUMB’s innovative approach to the General Education (GE) component common within higher education across the country and required at all California State University (CSU) institutions. Title 5 of the California Code of Regulations details the substance to be provided in the GE program at all CSU campuses. CSUMB’s ULRs were developed with explicit attention to the subject...
matter requirements contained in Title 5. Consequently, the CSUMB UIRs align with the Title 5 GE requirements, and students who satisfy the UIRs also satisfy the Title 5 GE requirements. A detailed correlation between the UIRs and the Title 5 GE requirements may be found in the Admissions and Records chapter of this catalog.

Transfer students who have completed the lower-division General Education (GE) requirements at either a California community college, another California State University, or a participating institution (Title 5, Sections 40405.1, 40405.2, and 40405.3) need only satisfy the following additional requirements (E.O. 59S Section VIII, Subsection C) in order to graduate from CSUMB:

- Language
- Culture and Equity
- Technology and Information
- At least one course with a service learning (S) designation following the course number
- Graduation writing assessment requirement [GWAR]

Undergraduate Majors and Concentrations

The names of CSUMB’s majors don’t look much like the names of majors at other universities, and this creates some initial confusion about what students can learn here. The different names result from the fact that CSUMB offers interdisciplinary academic programs. In other words, they combine several traditional fields of study into one major. This choice was made because the dynamic 21st-century world demands citizens and workers with broad and adaptable skills.

Rather than looking at the short list of 12 undergraduate majors with their unusual names to determine whether to attend CSUMB or which major to choose, students may be better served to look for the traditional fields of learning that interest them on the Major QuickFind guide on pages 18-19 to see which CSUMB majors incorporate those fields into their interdisciplinary whole. They should also look at the concentrations offered by various majors as listed below, which will look a lot more like traditional fields because they provide a narrower focus within a broader interdisciplinary major.

The 12 CSUMB majors and 29 included concentrations are:

- Collaborative Health and Human Services, B.A.
  - Concentration in Community Health
  - Concentration in Social Work
- Earth Systems Science & Policy, B.S.
  - Concentration in Marine and Coastal Ecology
  - Concentration in Science Education
  - Concentration in Watershed Systems
- Global Studies, B.A.
- Human Communication, B.A.
  - Concentration in American Multicultural Studies
  - Concentration in Chicana/o/Latina/o Studies
  - Concentration in Creative Writing and Social Action
  - Concentration in English Single Subject Waiver
  - Concentration in Journalism, Communication, and Media Studies
  - Concentration in Literary and Cultural Studies
  - Concentration in Narrative, History, and Memory
  - Concentration in Practical and Professional Ethics
  - Concentration in Pre-Law
  - Concentration in Women’s Studies
- Integrated Studies Special Major, B.A.
- Liberal Studies, B.A.

- Management and International Entrepreneurship, B.S.
  - Concentration in Accounting
  - Concentration in Electronic Commerce & Information Technology
  - Concentration in Entrepreneurship/Intrapreneurship
  - Concentration in Management & International Business
- Social and Behavioral Sciences, B.A.
  - Concentration in Anthropology
  - Concentration in Archaeology
  - Concentration in Geographic Information Systems
  - Concentration in Political Economy
  - Concentration in Sociology
  - Concentration in Social History
- Telecommunications, Multimedia, and Applied Computing, B.S.
- Teledramatic Arts and Technology, B.A.
  - Concentration in Arts Education
  - Concentration in Large Scale Painting and Murals
  - Concentration in Large Scale Sculpture and Installation
  - Concentration in Replicative Media
- World Languages and Cultures, B.A.

Major Learning Outcomes

To focus on outcomes, each of the CSUMB majors requires students to display achievement of a set of Major Learning Outcomes (MLOs) established by the program’s faculty. The Undergraduate Degree Programs chapter of this catalog lists the MLOs for each of the majors.

Other Degree Requirements

To authorize the award of the degree, the California Educational Code Title V requirements for California State University requires that students complete a specified minimum number of units in upper-division courses for General Education, in the major, and at the campus awarding the degree. CSU also requires the achievement of a minimum grade point average in specified areas, as well as completion of the Graduation Writing Assessment Requirement (GWAR).

Complete details on these requirements may be found in the Admissions and Records chapter of this catalog.

Teaching Credential and Graduate Degree Programs

CSUMB offers two master’s degree programs:

- Education, M.A.
- Marine Science, M.S.

CSUMB also offers two options for earning a CLAD/BCLAD Multiple Subject Teaching Credential, one for fulltime students and the other, the California Teacher Internship Program, for current teachers who need to obtain or upgrade their credentials. Pending approval, CSUMB’s new Special Education program will offer a —Mild/Moderate Education Specialist—Level I credential starting in Fall 2001.

**Major Quickfind Guide**

Because CSUMB places strong emphasis on preparing well-rounded students who will thrive when faced with the constantly changing demands of the 21st century workplace, we offer interdisciplinary majors that connect several traditional fields of study together in meaningful ways. As a result, we have only 12 undergraduate majors and each has a unique name that reflects the breadth of its scope. Our unique majors cover over a hundred areas of study.

Because you are likely to be more familiar with those traditional field names, we have provided this Quickfind Guide to help you locate the CSUMB major that incorporates each. To use the guide, simply locate a field of interest on the left, then look to the right to see the related CSUMB and the page number where its description starts in this catalog. If the field of study on the left appears as ALL CAPS then that is the name of the CSUMB academic program and only the page number will be listed to the right.

- Institute for Community Collaborative Studies (ICCS)

Name of Sponsoring Center
- Center for Collaborative Education and Professional Studies (CEPS)

Why is this academic field important?
As we proceed through the 21st century, our social, political, and economic environments continue to experience increasing uncertainty and rapid change. In response, public, nonprofit, and private agencies are in the process of transforming themselves into more flexible, innovative, and outcomes-based organizations to more effectively and collaboratively pursue shared service goals. To be successful in this rapidly evolving environment, professionals must be equipped with a “toolbox” of interprofessional competencies that include the knowledge, skills, and abilities for health and human service delivery, as well as the methodologies of innovation, leadership, collaboration, and organizational change.

What is the Collaborative Health and Human Services major all about?
We serve as a center promoting excellence. We study and promote integrative, multidisciplinary, interprofessional, cross-cultural, and collaborative approaches to the delivery of community-based public health and social welfare services. We believe that such approaches are essential for individuals, families, organizations, and communities to empower themselves for the creation of positive change, and for efficient and effective delivery of services in the 21st century.

What will I gain by choosing to major in CHHS at CSUMB?
Our program will equip you with the fundamental skills needed for an entry-level position in a public health or social service organization of the 21st century. In the future, agencies and their employees will be measured against standards of innovation and adaptation to changes around them. In the CHHS major, you will master the theory and practice of interagency collaboration, acquire proficiency in the use of electronic technologies, and develop sound critical thinking and analytical skills.

You will also build a foundation of values and ethics, and grow adept at serving client populations whose ethnic, racial, and cultural backgrounds are different from your own. Our major will also provide you with excellent preparation for entry into graduate programs in community health, social work, social welfare, public safety, public and nonprofit management, and related professions.

What courses should I take to prepare to major in Collaborative Health and Human Services if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, you should be sure to fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the specifics and a CSU admissions application.

What courses should I take to prepare to major in CHHS if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective CHHS major, we recommend that you include courses in the social and behavioral sciences, statistics and research methods, a second language, human development, and English communication, especially writing.
What CSUMB courses and requirements should I complete before declaring Collaborative Health and Human Services as my major?

A sound preparation for the major includes lower division courses and learning experiences within a broad range of academic disciplines, especially the social and behavioral sciences and humanities. You should have a basic understanding of the social, psychological, and biological determinants of human behavior and of diverse cultures, social conditions, and social problems. While there are no formal prerequisites to the major, the following preparation is strongly recommended and is typically part of CSUMB’s University Learning Requirements (ULRs) work:

- Technology tools
- Behavioral sciences (e.g., anthropology, psychology, sociology, social psychology)
- Political science and economics
- Participation in multicultural communities
- Second-language
- Statistics
- Human development (required for social work emphasis)

What steps must I take to declare Collaborative Health and Human Services as my major?

If you are a new student, applying to CSU for the first time, indicate CHHS as your major when you complete your application for admission to CSUMB. If you are a continuing student, complete a change of major form and submit it to the CHHS office for signature.

How is the curriculum of the Collaborative Health and Human Services major structured?

The CHHS curriculum provides for a sequential learning experience. Your first year as a major will typically include 300-level courses that orient you to the foundations of collaborative health and human services. In this phase, you will study the basic tenets of each of the fields (community health or social work), begin to focus on an area of concentration and develop a fundamental understanding of collaboration, public and nonprofit management, and leadership. CHHS courses explore conceptual frameworks, philosophical assumptions, and value systems of public health and social welfare. You will be exposed to the external environmental, political, social demographic, and economic factors that have an impact on the delivery of health and human services. As part of the first year in the major, you will begin your field practice experience with a local agency involved in collaborative service delivery.

The second phase will consist of 400-level courses that provide you with an opportunity to explore, in more depth, your concentration area, the systems within which health and human services organizations work, the practice of collaboration, and management sciences. Your fieldwork continues in the second year.

The core courses for the major include: Major ProSeminar; Introduction to Community Health; Introduction to Social Work; Collaborative Leadership; Personal and Professional Ethics; Computer Applications to Health and Human Services Delivery; Senior Capstone Seminar; Statistics and Research Methods; Conflict Resolution, Negotiation, and Mediation; Introduction to Health and Social Policy; Systems and Financial Management; and an Advanced Practice Seminar in Community Health and/or Social Work.

What will I learn as a Collaborative Health and Human Services major?

Our 11 CHHS Major Learning Outcomes (MLOs) guide you toward the acquisition of the knowledge and skills required to work in integrated health and human service delivery systems. The MLOs are achieved through intensive academic study, field practice experiences, and competency-based assessment. The CHHS MLOs were developed in collaboration with professionals from a broad range of health and human service agencies in our region (Monterey, Santa Cruz and San Benito counties) and approved by the ICCS Community Advisory Board. These professional competencies build upon CSUMB’s general University Learning Requirements (ULRs) and include the following:

- **CHHS MLO 1 Collaboration** – Demonstrate the ability to work in teams in interprofessional settings across traditional lines of programs, agencies, disciplines, and diverse communities to establish common missions and purposes and to collaborate with others in decision making, learning, completing tasks, and applying knowledge of group process and group interaction.
- **CHHS MLO 2 Conflict Resolution, Negotiation and Mediation** – Demonstrate the ability to understand the dynamics of human negotiation among conflicting interest groups and how to achieve mutual agreement.
- **CHHS MLO 3 Cross Cultural Competency** – Demonstrate the ability to be comfortable with differences between self and others, to engage in a process characterized by mutual respect and sensitivity, to assess the needs and capabilities of culturally diverse populations, and communicate effectively across cultural groups to deliver appropriate health and human services.
- **CHHS MLO 4 Financial Management** – Demonstrate the ability to understand the budgeting process and the financial management of public agencies and nonprofit organizations.
- **CHHS MLO 5 Information Management** – Demonstrate the ability to apply computer and Internet technology to health and human services practice.
- **CHHS MLO 6 Knowledge of Health and Human Services** – Demonstrate an understanding of the fundamental principles and issues common to the major fields of health and human services including community health and social welfare, and demonstrate the knowledge, skills, and abilities pertinent to the health and/or human service concentration area(s) selected.
- **CHHS MLO 7 Leadership** – Demonstrate an understanding of and begin to master the skills to motivate others by promoting a shared vision and setting clear direction for collaborative implementation of sustained change in interprofessional settings and diverse communities.
- **CHHS MLO 8 Personal and Professional Communication** – Demonstrate the ability to initiate and maintain a flow of information between sender(s) and receiver(s) through the use of critical listening, and oral and written communication skills; communicate basic and complex ideas to
a variety of groups; appreciate the organizational and cultural contexts within which communication occurs; and conduct professional quality oral and electronic presentations.

- **CHHS MLO 9 Personal and Professional Ethics**
  - Demonstrate the ability to articulate the values and ethics which are the foundation for health and human services practice, to recognize areas of conflict between the professional values and the student’s own, and to clarify conflicting values in the delivery of health and human services.

- **CHHS MLO 10 Statistics and Research Methods**
  - Demonstrate knowledge and application of basic research methodologies and statistical analysis in applied and community-based health and human services practice research.

- **CHHS MLO 11 Systems Management**
  - Demonstrate an understanding of and begin to develop the skills necessary to manage complex systems of health and human service delivery.

How do I achieve competence in the Collaborative Health and Human Services MLOs?

The multidisciplinary nature of the CHHS curriculum provides you with a variety of structured learning opportunities and multiple pathways to master the MLOs. You may select the suggested learning opportunities or propose alternative methods for acquiring these competencies. You may explore, with members of the faculty, other nontraditional learning experiences that will enhance your achievement of the MLOs.

What courses does Collaborative Health and Human Services offer?

The required core courses for the CHHS major include the following:

- **CHHS 300** 4 credits  | **CHHS 305** 1 credit  | Major ProSeminar  | Information Management for Health and Human Services
- **CHHS 310** 4 credits  | **CHHS 310S** 1 credit  | Introduction to Social Work  | Introduction to Social Work—Field Practicum

What are the unique features of the Collaborative Health and Human Services curriculum?

**Major ProSeminar**

The Major ProSeminar will help you and other majors create a community of learners and guide you as you complete an Individualized Learning Plan of your program in CHHS.

**An Integrative, Multidisciplinary Approach to Learning**

The CHHS major provides you with a solid foundation in the theory and practice of systems management and collaborative leadership, and a choice of concentration in community health and/or social work. Systems and financial management, collaboration, and conflict resolution and negotiation provide you with the core skills fundamental to all health and human service professions. You develop collaborative leadership skills as part of your preparation for the dual roles of facilitator and advocate for clients, programs, organizations, and policies in the health and human service fields.

Upon graduating from the CHHS program, you will have a critical understanding of the philosophy and values necessary for the delivery of health and human services, as well as a strong foundation in professional ethics. Among these values are the regard for individual worth and dignity, confidentiality of client communications, the right of clients to self-determination, equity, fairness, responsibility to community, and non-malfeasance.

**Field Practice (FP) Program: The Community as Classroom**

Field practice education has long been a fundamental component in the training of health and human services professionals. CHHS faculty members work collaboratively with health and human service providers throughout the Tri-County region to ensure a wide variety of field placement opportunities for students. The CHHS field practice (FP) learning objectives differ from traditional service learning (SL) experiences in their focus on the development of specific professional competencies for health and human services organizations.

Field education is an integral part of the CHHS major. You are required to complete 400 hours in self-selected field practice sites in the community. You begin the field experience in your junior year by enrolling in an “S” component of one or more of the core CHHS courses. Each course with an “S” component requires an average of six hours in the field each week throughout the semester. The senior year field placement requirement usually increases to an eight hour per week commitment.

The field practice experience provides students with opportunities to apply concepts and skills acquired in coursework, as well as to address MLOs. You and your field instructors/mentors collaboratively develop a Learning Agreement that specifies learning objectives for the field experience supporting the MLOs. This agreement specifies the respective responsibilities of the student, agency, and university associated with the field placement.

Professionals from regional health and human service agencies actively participate in educating students and evaluating their performance through classroom participation, field practice experiences, and final portfolios submitted for the university graduation requirement. Many field instructors/mentors in both the public and nonprofit sectors have indicated their enthusiasm for CHHS students as poten-
tial job applicants upon graduation. Many students find their field practice experiences to be among the most valuable and enjoyable learning opportunities in their university career. These “internship” positions also have a great potential for providing you with an initial professional network with which to develop career opportunities after graduation.

In addition, through the ICCS Community Program, faculty, students, and staff play an active and integrative role in the surrounding communities, assisting in the development and facilitation of collaborative problem solving and capacity building in local communities and in integrated health and human service systems throughout the Monterey Bay area.

Senior Capstone
Your Senior Capstone will allow you to design, produce, and present a project of your choice as a display of your cumulative learning.

Constant Development
Our program is renewed annually as feedback from students and community agencies serve to inform our evolving curriculum.

What will my learning environment be like?
The rich mix of peoples and cultures in the Monterey Bay region has given rise to a broad range of health and human service agencies near our campus. Regardless of your specific field of interest or the type of populations you hope to work with, the real world classroom around us will present exciting and challenging opportunities for your field experiences. Meanwhile, you will do your on-campus learning in small, interactive classes housed in spacious, modern facilities on our technologically advanced campus.

What must I do in order to graduate with a Collaborative Health and Human Services degree?
To graduate, you must demonstrate your competence in the eleven CHHS MLOs. You will be assessed for your progress toward the successful achievement of the MLOs through:

- The course instructor’s evaluation of your classroom performance
- The field instructor’s evaluation of your professional development and performance in a structured field-experience
- An assessment by a panel of academic faculty and professionals from your area of concentration who will evaluate your graduate portfolio of completed work during your senior year

Which careers will the Collaborative Health and Human Services major prepare me to pursue?
A CHHS degree could launch you toward a successful career as a social worker, health educator, human resources generalist, law enforcement officer, community organizer, youth services provider, parks and recreation planner, probation officer, public health official, counselor, community mediator, or nonprofit manager.

What advantages will the Collaborative Health and Human Services major provide if I decide to go on to graduate study?
The CHHS program will provide you with excellent preparation for entry into graduate-level professional educational programs that offer masters degrees in public health (MPH), social work (MSW), criminal justice (MA or MS), or public administration (MPA). Applicants to these programs are expected to be successful because of the major’s commitment to the philosophical foundations mentioned above.

Who will guide my learning experiences?

Fulltime Faculty
- Brian Simmons, Ph.D., Director
  Child welfare policy and practice – professional ethics – social work practice – social policy – juvenile justice – organization theory
- Kim Judson, Dr.P.H.
  International and multicultural women’s health – community and public health policy analysis and management – conflict resolution and negotiation
- Miguel D. Tirado, Ph.D.
  Nonprofit and public agency management – social planning – human services financing

Adjunct Faculty
- Jerry Endres, M.S.W.
  Community health – community empowerment – collaboration – leadership – conflict resolution – negotiation
- Martha Tweed, M.S.W.
  Field Practice Program – field placement – social welfare
- Jennifer Lagier, M.A., M.L.I.S.
  Applications of computer technology in health and human services settings

ICCS is deeply committed to students understanding health and human service systems from a cross-disciplinary perspective and to their developing skills to intervene in those systems on behalf of clients in an ethical and culturally appropriate manner. Field-based learning is an essential approach to acquiring this major’s learning outcomes.

—Dr. Brian Simmons, Institute Director
Earth Systems Science & Policy (ESSP)

Why should I study Earth Systems Science & Policy instead of specializing in biology, chemistry, geology, etc.?

Most of the environmental issues we are facing today are interdisciplinary in nature. Problems such as land degradation, climate change, pollution, deforestation, and loss of biodiversity cross the boundaries of classical disciplines. To educate you to address these critical problems, we combine several disciplines to form an integrated science, economics, and policy program. The innovative nature of our program allows you to select among three established concentrations or to design your own programmatic focus that fulfills the Major Learning Outcomes for ESSP. The three formally established concentrations in ESSP are:

■ Marine & Coastal Ecology
■ Watershed Systems
■ Science Education

Our ESSP program utilizes hands-on, field-based learning, as well as cutting-edge technology and multimedia tools, all of which are marketable upon graduation. Through applied learning and research, you will gain an understanding of the major components of the earth’s systems and their interactions. This perspective will enable you to analyze and solve environmental problems on local and global scales.
What do you offer for students who are interested in marine science?

CSUMB is located in an ideal region for the study of marine science. If you plan to pursue a career in this field, you may choose to participate in our Marine and Coastal Ecology concentration. In this concentration you will also have the opportunity to enroll in courses at Moss Landing Marine Laboratories (MML) at no additional cost. Moss Landing, which is only minutes away from CSUMB, offers a variety of upper-division and graduate marine science and oceanography courses (see the Masters of Science in Marine Science fact-sheet or the program description in the Graduate Programs section of the CSUMB catalog). You may also enroll in one course per semester at UC Santa Cruz for a small additional fee. In addition, you may choose to pursue marine science internship opportunities at Stanford’s Hopkins Marine Station, the Monterey Bay Aquarium, the Monterey Bay Aquarium Research Institute, or UC Santa Cruz’s Long Marine Labs.

What courses should I take to prepare to major in Earth Systems Science & Policy if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, you should fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also recommend that you take chemistry, physics, biology, precalculus, and, if available, beginning calculus.

What courses should I take to prepare to major in Earth Systems Science & Policy if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective ESSP major, we strongly recommend that you include two semesters of calculus, two semesters of chemistry with labs, and, if possible, one semester of statistics and geology. We also recommend that you complete as much of your general education requirements as possible and two semesters of a second language.

What CSUMB courses and requirements should I complete before declaring Earth Systems Science & Policy as my major?

If you intend to be an ESSP major, you should declare yourself an ESSP “pre-major” on your initial registration form. Although the university won’t consider you an official ESSP major until you complete ESSP 300 during your junior year, ESSP faculty, staff, and peer advisors will treat you as part of the ESSP family as soon as you declare yourself an ESSP pre-major and begin to complete the lower division ESSP “foundations” courses that fulfill the first two ESSP Major Learning Outcomes (MLOs), which are listed below.

What steps must I take to declare Earth Systems Science & Policy as my major?

You may declare ESSP as your major when you enter CSUMB. If you are a CSUMB student who wishes to become an ESSP student, you should visit the ESSP advising office in Building 47 and request a change of major via the “Planner Web” online advising system. Prospective ESSP majors may visit the ESSP advising office at any time (office hours for each semester are posted on the door), or communicate with peer advisors via email [essp_peeradvisor@monterey.edu].

How is the curriculum of the Earth Systems Science & Policy major structured?

ESSP offers three formal areas of concentration: 1) Marine & Coastal Ecology; 2) Watershed Systems; and 3) Science Education (with emphases in teacher preparation and informal/interpretive science education). In addition, students whose educational and professional goals are consistent with ESSP’s mission and Major Learning Outcomes (MLOs) but are not met by one of the formal ESSP concentrations may petition to design their own. Student-designed concentrations may differ from the three formal ESSP concentrations mainly in MLO 7 (Area of Concentration MLO) and MLO 8 (Scientific Inquiry MLO). The petition procedure for designing your own concentration is described in the ESSP Advising Guide.

During your freshmen and sophomore years, your ESSP courses will focus on the “foundations” of ESSP as described below in MLOs 1 and 2. These foundational learning experiences are nearly the same for all ESSP concentrations, although some concentrations require two semesters of calculus whereas others require two semesters of biology and/or physics. You do not need to complete every “foundational” lower-division course before you begin to take upper-division ESSP courses. Several lower-division courses from MLOs 1 and 2 are prerequisites for upper division ESSP courses though, so you should work with an ESSP peer advisor or faculty advisor to plan your course schedule.

At the beginning of your junior year you will enroll in ESSP 300, which will help you clarify your professional and personal goals, choose your ESSP concentration and faculty advisor, and develop an Individualized Learning Plan and schedule of courses. You will also begin your upper-division coursework. During your senior year, you will complete your upper-division coursework and your Senior Capstone project, which is described in greater detail below.

What will I learn as an Earth Systems Science & Policy major?

All ESSP students, regardless of which concentration they select, must meet high standards for competency in the core areas of science, technology, economics, and policy, as described in ESSP’s Eleven Major Learning Outcomes (MLOs). The courses that fulfill each MLO differ slightly among the different ESSP concentrations, so the required courses are listed in the descriptions of each ESSP concentration.

- **ESSP MLO 1 Quantitative Foundations** – ability to apply the fundamental mathematical and statistical constructs used to communicate quantitative information within the context of Earth Systems Science & Policy.
Undergraduate Programs

ESSP MLO 2 Earth Systems Science & Policy Foundations – ability to apply principles and methods of the major physical and life science components of the earth system, including the atmosphere, biosphere, geosphere, and hydrosphere, as well as the chemical and physical processes underlying these components; human components of the earth system including the social, economic, and political structures that shape our interactions with our environment

ESSP MLO 3 Applied Science Competency – ability to apply advanced scientific concepts and methods to solve complex earth systems problems within an integrative life and/or physical science framework

ESSP MLO 4 Applied Economics and Policy Competency – ability to examine the linkages between economics and environmental goods and services to analyze problems of resource allocation, and to apply the basic principles of environmental ethics to the analysis of environmental issues – ability to critically evaluate alternative policies in terms of the economic, political, ethical, historical, or cultural factors that influence environmental decision making

ESSP MLO 5 Data Acquisition, Analysis, and Display Competency – ability to demonstrate proficiency with an integrated set of ESSP data acquisition, analysis, and display tools – ability to use these tools as part of a holistic approach to environmental decision making

ESSP MLO 6 Systems Analysis and Interdisciplinary Interactions Competency – ability to recognize common patterns of change in real systems, build simple models that generate those behaviors, outline a process for building complex systems models, and describe potential limitations of systems models as decision-making tools

ESSP MLO 7 Area of Concentration Competency – ability to demonstrate depth in a chosen area of ESSP by completing an appropriate sequence of learning experiences that fulfill the learning outcomes of either a formal ESSP concentration or a self-designed, ESSP-approved concentration

ESSP MLO 8 Scientific Inquiry Competency – ability to design, conduct, and interpret scientific and/or social science investigations, and to understand the ethical norms that guide scientific processes and methods

ESSP MLO 9 Effective Communication Skills – ability to present clearly, in written and oral formats, analyses of complex ESSP issues

ESSP MLO 10 Systems Approach to Applied Problem Solving – ability to use a systems perspective to analyze environmental issues and evaluate the potential effects and ethical implications of alternative environmental policies or human actions

ESSP MLO 11 Service Learning – ability to combine disciplinary knowledge and community experiences to share the relevance and importance of science with culturally, linguistically, technologically, and economically diverse populations in the context of issues of social responsibility, justice, diversity and compassion

Which courses should I take to achieve each Earth Systems Science & Policy MLO?

Each of the three formal concentrations requires a slightly different sequence of learning experiences to satisfy ESSP’s 11 MLOs, because each concentration has its own specific learning outcomes that fall under the broader umbrella of ESSP’s MLOs. You must receive a grade of C or higher in all required classes to fulfill the ESSP MLOs. Most of the ESSP courses listed below must be taken with their associated laboratory course, as is noted in the course descriptions section of the catalog.

Marine & Coastal Ecology Concentration

- MLO 1: Each of the following: MATH 155, 156, STAT 250
- MLO 2: Each of the following: ESSP 110, 111, 220, 240, 260, 271, 272, 280
- MLO 3: ESSP 340
- MLO 4: One of the following: ESSP 380, 383, 384S, 385, 386, 387
- MLO 5: ESSP 350 or MLML 404
- MLO 6: ESSP 320
- MLO 7 & 8: One course from Group I, one course from Group II, and two courses from Group III:
  - Group I: ESSP 423, 330, 332
  - Group II: ESSP 342, 345
  - Group III: ESSP 433, both 434 and 436, 440, 441, 442, 443; MLML 503, 512, 513, or another appropriate course from Moss Landing Marine Labs (MLML)
- MLO 9: Each of the following: ESSP 300, 400, 403
- MLO 10: One of the following: ESSP 301, 303L, 308, 309; AND both ESSP 400 and 403
- MLO 11: One of the following: ESSP 349S, 369S, 384S, 386S, 395S, 396S, 397S, 497S

Watershed Systems Concentration

- MLO 1: Each of the following: MATH 155, 156; STAT 250
- MLO 2: Each of the following: ESSP 110, 111, 220, 240, 260, 271, 272, 280
- MLO 3: ESSP 360
- MLO 4: One of the following: ESSP 380, 383, 384, 385, 386, 387
- MLO 5: ESSP 350 or ESSP 442
- MLO 6: ESSP 320
- MLO 7 & MLO 8: Both ESSP 332 and ESSP 460; AND one course from each of the following groups:
  - Group I: ESSP 340, 342
  - Group II: ESSP 433 and 436, 440, 441, 442, 461, or a course approved by a Watershed advisor
- MLO 9: Each of the following: ESSP 300, 400, 403
- MLO 10: One of the following: ESSP 301, 303L, 309, 461 (Note: 461 cannot be counted for both MLOs 7 & 8 and MLO 10); AND both ESSP 400 and 403
- MLO 11: One of the following: ESSP 349S, 369S, 384S, 386S, 395S, 396S, 397S, 497S

[14x20]26
Science Education Concentration—Teacher Preparation Emphasis
- MLO 1: Both of the following: MATH 155 and a statistics course approved by your advisor
- MLO 2: Each of the following: ESSP 110, 111, 220, 240, 260, 271, 272, 280, 221, 241
- MLO 3: One of the following: ESSP 340 or 342 (for biological science focus) or ESSP 360 (for geoscience focus)
- MLO 4: One of the following: ESSP 380, 383, 384, 385, 386, 387
- MLO 5: One of the following: ESSP 332, 350, or 442
- MLO 6: ESSP 320
- MLO 7 & MLO 8: Students pursuing the Science Education concentration should meet with an ESSP advisor to develop a sequence of upper division concentration courses that fulfills the requirements of the California Commission on Teacher Credentialing.
  - Biological Sciences Emphasis: Each of the following: ESSP 305, 310, 311, 341
  - Geological Sciences Emphasis: Each of the following: ESSP 304, 360, 460, and a course approved by your advisor
- MLO 9: Each of the following: ESSP 300, 400, 403
- MLO 10: One of the following: ESSP 301, 303L, 308, 309; both ESSP 400 and 403
- MLO 11: One of the following: ESSP 349S, 369S, 384S, 395S, 396S, 397S, 497S

Science Education Concentration—Informal/Interpretive Science Education Emphasis
- MLO 1: Both of the following: MATH 155 and a statistics course approved by your advisor
- MLO 2: Each of the following: ESSP 110, 111, 220, 240, 260, 271, 272, 280, 241
- MLO 3: ESSP 340 or 342
- MLO 4: One of the following: ESSP 380, 383, 384S, 385, 386, 387
- MLO 5: Choose one of the following focus areas:
  - Multimedia: CST 201
  - Video: TAT 210
  - GIS/GPS: ESSP 332
- MLO 6: ESSP 320
- MLO 7 & MLO 8: One course each from the following four groups:
  - Group I: Technology Skills—Add one course to the focus chosen in MLO 5:
    - Multimedia: CST 328, 362S, 251
    - Video: TAT 337, 338, 332S
    - GIS: ESSP 434 and 436
  - Group II: Teaching Experience: ESSP 349S, 369S, 395S, 396S
  - Group III: Natural History: ESSP 304, 305, 342, 345, 360, MLML 512, 513
- MLO 9: Each of the following: ESSP 300, 400, 403
- MLO 10: One of the following: ESSP 301, 303L, 308, 309; both ESSP 400 and 403
- MLO 11: One of the following: ESSP 349S, 369S, 384S, 395S, 396S, 397S, 497S; TAT 332S

Are there other ways for me to achieve the Earth Systems Science & Policy MLOs?
Students are encouraged to discuss alternative assessment options with their advisor; however, the hands-on, integrative nature of the ESSP major necessitates a course-based path for the majority of students.

What courses does Earth Systems Science & Policy offer?
Upper division courses include: Reading, Writing, and Critical Thinking in ESSP; Ecosystems Services; California Transect; Environmental Geology; Aquaculture and Fisheries Systems; Science and Policy of Global Change; Biochemical Systems; Organic Chemistry; Intro to Systems and Systems Modeling; Electronic Projects for Environmental Measurements; Marine Robotics; Intro to GIS and GPS; Ecological Systems; Evolutionary Biology and Population Genetics; California Ecosystems; Physical Marine Ecology; Marine Science; Interpreting Monterey Bay Natural History; Quantitative Field Methods; Geomorphic Systems; Community-Based Watershed Restoration Service Learning; Environmental Ethics and Environmental Policy; Environmental Justice and Environmental Policy Service Learning; Social and Environmental History of California; Science, the Political Process, and the Environment; Science and the Political Process; Water Resources Assessment, Law, and Policy; Environment as Integrated Context for Learning; Signal Processing and Applications to Earth Systems; Applications of Marine Science Technologies; Intro to Remote Sensing and Image Processing; Advanced Remote Sensing and Image Processing; Ecological Modeling; Global Biogeochemical Cycles; Vernal Pools of Fort Ord; Physical Marine Ecology; Physical Hydrology; and Watershed Systems Restoration.

What are the unique features of the Earth Systems Science & Policy curriculum?

Senior Capstone
The ESSP major emphasizes hands-on learning and the application of science to real-world problems. Students in ESSP are expected to understand science and economics and the roles each plays in the development of environmental and resource policies. The ESSP curriculum culminates in an independent Senior Capstone project in which you design, complete, and present a project involving a systems analysis of a complex environmental issue. Your Capstone project may be an extension of an ESSP class project, service learning experience, internship, or job. In addition, some ESSP faculty members sponsor Capstone projects as an integral part of their grant-funded applied research programs. Other students work on a Capstone project in conjunction with an internship or research experience at one of the many local institutions and centers with which ESSP has formed collaborative partnerships.

Watershed Institute
CSUMB, MLML, and other local organizations have collaborated to form the Watershed Institute on the CSUMB campus as a direct action, community-based coalition of researchers, educators, students, and volunteers dedicated to restoring the watersheds of our
Monterey Bay region. The Watershed Institute provides hands-on opportunities to participate in applied watershed research, restoration projects, policy decisions, and education.

### SIVA Center

The Spatial Information Visualization and Analysis (SIVA) Center serves as a regional cooperative extension facility for students and members of local, state and federal agencies to gain hands-on experience in applying innovative spatial information technologies. SIVA, along with participating federal, state, and local governments, is developing a publicly accessible regional digital spatial library for receiving, filtering, and disseminating data about spatially variable attributes such as weather, soil, topography, land use, vegetation cover, water resources, point and non-point source pollution, ocean currents, economic development, population, and more.

### Regional Partnerships

Moss Landing Marine Laboratories, the Monterey Bay Aquarium Research Institute, UC Santa Cruz, UC Berkeley, Stanford University, Hopkins Marine Station, the Naval Postgraduate School, NASA/Ames Research Center, the Monterey Institute of International Studies, the Monterey Institute for Research in Astronomy, and many other world-class research and technology centers are located nearby. We have established partnerships and active collaborations with most of these institutions.

### What will my learning environment be like?

CSUMB’s state-of-the-art Media Learning Complex gives you unlimited access to the latest computer technology. Our Spatial Information, Visualization, and Analysis (SIVA) Center provides access to geographical information systems (GIS), Global Positioning System (GPS), remote sensing/image processing, and data acquisition and visualization technologies.

Though we enjoy these superb facilities on campus, we emphasize applied, field-oriented learning that takes full advantage of the unparalleled array of environmental resources, technologies, and world-class research institutions in our region. Biological habitats—including the largest marine sanctuary in the country, estuaries, wetlands, grasslands, woodlands, deserts, and redwood forests—are accessible just beyond our doors. Furthermore, the Monterey Peninsula and Salinas Valley are living laboratories for learning about the scientific, economic, and political dimensions of land use and water resource issues.

### What counseling and support services are provided for Earth Systems Science & Policy majors?

CSUMB offers an array of student support services, which are described elsewhere in the CSUMB catalog. In addition, ESSP students have access to tutors in chemistry, physics, biology, math, statistics, and writing, provided by the Academic Skills Achievement Program. In all ESSP courses, your instructors will facilitate the formation of formal and informal study groups. The smaller class size at CSUMB means that you can get individual help from your instructor in and out of class.

ESSP also provides expert academic advising about ESSP courses and MLOs. ESSP faculty and Peer Advisors hold several advising workshops each semester immediately prior to registration. In addition, the ESSP Peer Advising Office in Building 47 is open throughout the year to ESSP majors, pre-majors, and prospective ESSP majors. When you take ESSP 300, you will select an ESSP faculty advisor whose expertise matches your professional goals. As you prepare for your Capstone, you will select a Capstone advisor, who may be different from your academic advisor.

When it is time to find an internship or job, you can find listings on the ESSP website, on electronic bulletin boards maintained by ESSP, at the ESSP Peer Advising/Internship Office, in the Career Development Center, or at the Marine Advanced Technology and Education (MATE) Internship Office.

### What must I do in order to graduate with an Earth Systems Science & Policy degree?

To graduate with a B.S. degree in ESSP, you must fulfill the state requirement of completing 128 to 132 credits, and also meet all 11 of the ESSP Major Learning Outcomes and satisfy all of CSUMB's UJRs. As described earlier in this program description, each of the ESSP concentrations requires a slightly different sequence of courses to fulfill the MLOs. Although you do not need to complete the ESSP MLOs in numerical order, you are strongly encouraged to complete MLO 1 and MLO 2 by the middle of your junior year because many of the classes that fulfill those two MLOs are prerequisites for courses that meet the other nine MLOs. Your Senior Capstone project, which is part of the assessment for MLO 9 and MLO 10, is the culmination of your ESSP coursework and allows you to apply your ESSP learning experiences to a real-world problem.

### Which careers will the Earth Systems Science & Policy major prepare me to pursue?

An ESSP degree will prepare you for a wide range of careers including marine scientist, watershed systems scientist, ecologist, science educator, marine technician, environmental advocate, consultant, and environmental lawyer.

### What advantages will the Earth Systems Science & Policy major provide if I decide to go on to graduate study?

Many careers in natural science, economics, and policy, particularly those that involve interdisciplinary problem solving, require graduate degrees or other training beyond the bachelor’s degree. For students pursuing such careers, the ESSP Bachelor of Science represents a springboard into graduate or professional school. For example, CSUMB offers a Master of Science in Marine Science in collaboration with Moss Landing Marine Laboratories.

To meet the needs of students who plan to go to graduate school, the ESSP program focuses on rigorous interdisciplinary science, technology, economics, and policy. ESSP gives students direct experience with scientific research projects and problem solving, and with oral and written communication. The Science Education Concentration—Teacher Preparation Emphasis is designed to fulfill the subject matter standards established by the California Commission on Teacher Credentialing.
Who will guide my learning experiences?

**Faculty**

- Chris Hasegawa, Ph.D., Director
  - Science Education ~ instructional technology ~ teacher education
- Susan Alexander, Ph.D.
  - Ecology ~ math and computer modeling ~ marine science
- Sharon Anderson, Ph.D.
  - Environmental chemistry ~ water quality ~ soil chemistry ~ pesticide fate
- Michael Dalton, Ph.D.
  - Environmental and resource economics ~ ecological and economic modeling
- Daniel Fernandez, Ph.D.
  - Physics ~ electrical engineering ~ radar ~ physical oceanography
- William Head, Ph.D.
  - Aquaculture ~ economics and marketing ~ tropical and temperate marine ecology
- Henrik Kibak, Ph.D.
  - Biochemistry ~ cell biology ~ molecular biology ~ molecular evolution
- Rikk Kvitek, Ph.D.
  - Marine ecology ~ environmental science ~ GPS
- Steven Moore, Ph.D.
  - Physical biology ~ math and computer modeling ~ growth and function of biological shapes ~ engineering ~ coral reefs
- Renee R. Perry, Ph.D.
  - Population biology and ecological modeling ~ stochastic models of biological control
- Lars Pierce, Ph.D.
  - Ecology ~ global biogeochemistry ~ computer modeling ~ remote sensing
- Liese Schultz, Ph.D.
  - Chemistry ~ soil chemistry ~ environmental studies
- Daniel Shapiro, Ph.D.
  - Invertebrate zoology ~ tropical marine ecology ~ marine science field methods ~ evolutionary biology ~ environmental ethics
- Douglas Smith, Ph.D.
  - River processes and restoration ~ geology ~ sedimentology ~ tectonics
- David Takacs, Ph.D.
  - Environmental ethics ~ justice ~ history ~ literature ~ environmental policy ~ writing and critical thinking
- Swarup Wood, Ph.D.
  - Biogeochemical cycling ~ problem-based learning ~ science education
- Suzanne Worcester, Ph.D.
  - Biology ~ field ecology ~ marine biology

**Adjunct Faculty (Partial List)**

**Watershed Institute**

- Robert Curry, Ph.D.
- Laura Lee Lienk, M.S.

**Spatial Information Visualization and Analysis (SIVA) Center**

- Jack Paris, Ph.D.
- Robert Woodruff, B.A.

**Recruitment in Science Education (RISE) Program**

- Debbie Delatour, M.A.E.
- Hester Parker, Ph.D.

*The Earth Systems Science & Policy program extends learning beyond the classroom into hands-on experiences. Global processes are placed into the context of our diverse local marine, coastal, and watershed systems, and framed by economic and policy considerations.*

Why is this academic field important?
As we charge toward a new millennium, virtually every aspect of contemporary human existence is in some way affected by increasing interdependency. Traditional walls of separation are being toppled by worldly thinkers and unbounded technology. Amid the rapid change, individuals who think with global understanding and work with a “one planet” commitment will lead the way.

What is the Global Studies major all about?
CSUMB includes a strong commitment to global education in its Vision Statement. Global Studies promotes an understanding and appreciation of the peoples, natural environment, cultures, economies, and diversity of the world. The Global Studies major is a concrete expression of CSUMB’s commitment as it contributes directly to the development of cross-cultural competent citizenship in a pluralistic global society. It is also a response to the needs of the State of California as it offers students an education which prepares them for productive leadership roles in an increasingly globalized society.

Our program focuses on a broad range of global economic, political, technological, social, and environmental issues as well as basic global concerns about physical survival, health, justice, peace, and security. Since virtually every aspect of contemporary human existence is affected by the increasing interdependency of humanity, we equip you with a comprehensive awareness of the multidimensional nature of this process of globalization. You will acquire the knowledge and skills needed to pursue a successful career and perform effective roles in intercultural relations and global affairs.

Our curriculum is unique in that it involves the interdisciplinary study of all aspects of the increasing global integration of humanity. We expose you to widely diverse worldviews and ideologies. We also examine critical issues of ethnicity, race, class, gender, nationality, and citizenship as well as important questions of ethics and social justice within a global, pluralistic context.

What will I gain by choosing to major in Global Studies at CSUMB?
The number and variety of career opportunities available to graduates with broad-based learning of global issues is increasing phenomenally. Our program will give you the cognitive, behavioral, and affective competencies that are needed to qualify for entry level managerial and administrative positions in government, nonprofit service, education, business, or any other organization involved in international or transnational affairs. The program provides excellent preparation for graduate studies in international fields such as law, education, foreign relations, economics, management, political science, public administration, geography, regional planning, public health, policy studies, environmental studies, sociology, and women’s studies.

What courses should I take to prepare to major in Global Studies if I will be entering CSUMB as a freshman?
If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application.
What courses should I take to prepare to major in Global Studies if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective Global Studies major, we recommend that you include study of a second language and incorporate classes in international relations, comparative politics, western and nonwestern history, politics and government, gender studies, macroeconomics, microeconomics, and communications.

What CSUMB courses and requirements should I complete before declaring Global Studies as my major?

Most students start the major at a junior level when all or most of the University Learning Requirements (ULRs) or equivalent General Education (GE) requirements have been completed. It is possible, however, to start the program as a first-year student. If you do, we recommend that you take GS 195 Water and Humanity and GS 200S Politics of Everyday Life during your second semester. Successful completion of these two courses will assess you for seven of CSUMB’s 13 University Learning Requirements, speeding your progress to degree completion.

What steps must I take to declare Global Studies as my major?

You will officially become a Global Studies major upon successful completion of the Major ProSeminar in Global Studies, involving a detailed individual Learning Plan (ILP). This ILP must include a feasible timeline for graduation along with details on experiential learning for the program, and it should demonstrate an understanding of the major and its requirements.

How is the curriculum of the Global Studies major structured?

There are many faces to the global mosaic. Our program is designed so that you can learn about those that interest you most. A combination of core learning outcomes and learning experiences, with an individualized focus articulated through an Individualized Learning Plan (ILP), will help you prepare for a successful career. The methods of achieving competency include classroom learning and field studies, and, when possible, independent study projects.

What will I learn as a Global Studies major?

As you complete your Global Studies degree, you will be expected to demonstrate 14 Major Learning Outcomes (MLOs):

- GS MLO 1 Planning for global learning and careers
- GS MLO 2 Understanding of the genealogy of globalization
- GS MLO 3 Understanding of global history
- GS MLO 4 Understanding of global issues and the Third World
- GS MLO 5 Understanding of major worldviews
- GS MLO 6 Global media and communications skills
- GS MLO 7 Understanding of gender and violence in global life
- GS MLO 8 Intercultural communication skills
- GS MLO 9 Service learning in global affairs
- GS MLO 10 Understanding of global political economy
- GS MLO 11 Understanding of global organizations
- GS MLO 12 Understanding of earth, social systems, and global life
- GS MLO 13 Understanding of global politics
- GS MLO 14 Synthesis and evaluation of Global Studies learning

Which courses should I take to achieve each Global Studies MLO?

The following is a list of the major learning experiences that constitute the core curriculum of the Global Studies program:

- MLO 1 GS 300 Major ProSeminar and Professional Assessment Lab
- MLO 2 GS 310 Genealogy of Globalization
- MLO 3 GS 315 Global History
- MLO 4 GS 320 Global Issues and the Third World
- MLO 5 GS 330 World Views
- MLO 6 GS 340 Global Media and Communications
- MLO 7 GS 350 Gender and Violence in Global Life
- MLO 8 GS 360 Intercultural Communications
- MLO 9 GS 365 Global Studies Service Learning
- MLO 10 GS 370 Global Political Economy
- MLO 11 GS 380 Global Organizations and the Model United Nations
- MLO 12 GS 385 Earth and Social Systems
- MLO 13 GS 390 Global Politics
- MLO 14 GS 400 Senior Capstone Experience

Are there other ways for me to achieve the Global Studies MLOs?

The Global Studies program facilitates a combination of learning experiences and modes of assessment. The program is designed for students to achieve most of the required competencies for the Global Studies major in learning experiences either inside or outside the conventional classroom. Students may combine work-study experiences, overseas study, field research, and community participation with classroom learning to achieve the MLOs. Only the Major ProSeminar and Senior Capstone are required to be classroom-based experiences.
What courses does Global Studies offer?

Recent courses offered have included: Water and Humanity; Genealogy of Globalization; Global Issues and the Third World; The Politics of Everyday Life; Worldviews; Global Media and Communications; Gender and Violence in Global Life; Intercultural Communications Language Proficiency; Service Learning in Global Affairs; Global Political Economy; Global History; Global Organizations and the Model United Nations; Global Politics; and Special Topics in Global Studies.

What are the unique features of the Global Studies curriculum?

Our program is broadly interdisciplinary and learner-centered. In fact, we cross the traditional disciplinary boundaries between the “social” and “natural” sciences to integrate the study of earth systems with the study of social systems. We emphasize experiential learning. We offer opportunities for applied learning, field studies, and work study experiences that link academic learning to concrete daily practices. A number of our core requirements also fulfill CSUMB’s University Learning Requirements.

Our program allows you to achieve required competencies outside CSUMB through nonclassroom learning experiences such as work-study, overseas study, field research, and community participation.

A minor in Global Studies is being reviewed for approval during spring 2001. We anticipate this process will be completed in time for fall 2001.

Through the Model United Nations program, you may attend a California regional conference and a national conference at the UN in New York during spring semester. This program will develop your proficiency in research, aptitude for collaboration, competency in advancing and negotiating positions in public forums, and insight into the inner workings of the international political system.

We are committed to working with you to plan cross-cultural experiences (projects, work, volunteer service, and internships) that are appropriate to your learning goals and personal circumstances. These may be set up to take place in one of the many unique cultural communities of California, in a foreign country through the authorized CSU Overseas International Program, or through an overseas program approved by the Global Studies faculty. Our students have participated in programs in Brazil, China, Costa Rica, Ecuador, France, India, Italy, Israel, Madagascar, Mexico, Senegal, and Zimbabwe.

During your senior year, you may take a graduate class on the environment at the Monterey Institute of International Studies to fulfill the earth and social systems requirement for the major.

The Major ProSeminar will guide you in completing an Individualized Learning Plan. It will acquaint you with the theories, values, and models relevant to the Global Studies major and the careers possible in the field.

Your Senior Capstone will allow you to design, produce, and present a research project of your choice as a display of your cumulative learning in Global Studies.

What will my learning environment be like?

Rather than send you around the world to obtain a global perspective, we bring the world to you. CSUMB’s vision of plurality has convened a diverse combination of peoples, cultures, and interests as faculty, staff, and students. Our facilities incorporate cutting-edge telecommunications and computers so that you can connect with the broader world on a daily basis through the wonders of technology. The surrounding Monterey region presents a global community as unbounded as the Pacific Ocean to our west. Built through a variety of cultural influences and sustained by global industries such as agriculture, tourism, and technology, ours is a region where the daily view is a world panorama.

What counseling and support services are provided for Global Studies majors?

Students choose their own faculty advisor from the three fulltime faculty members in the program. As students move through the program in cohorts, they benefit from both peer advising and a peer support network.

What must I do in order to graduate with a Global Studies degree?

In order to graduate, you must fulfill all major learning outcomes, achieve intermediate proficiency in language, and fulfill all graduation requirements for CSUMB.

Which careers will the Global Studies major prepare me to pursue?

A Global Studies degree could launch you toward a successful career in an international arena such as trade, development, government and diplomacy, law and arbitration, education, media and journalism, health services, information and communications, urban and regional planning, cultural affairs, tourism and hospitality, relief services, translation and interpretation, human resources, environmental protection, cultural exchange, or research.

What advantages will the Global Studies major provide if I decide to go on to graduate study?

A Global Studies degree will provide you with broad-based preparation for graduate studies in international studies, cultural studies, economics, political science, environmental studies, policy studies and women’s studies.
Who will guide my learning experiences?

**Fulltime Faculty**
- Robina Bhatti, Ph.D., Director
  Global studies ~ international relations theory ~ global politics ~ comparative politics of the Third World and East Asia ~ global political economy ~ Majority World women ~ United Nations
- Richard Harris, Ph.D.
  Globalization ~ global media ~ world views ~ political economy ~ Latin American politics ~ African studies ~ comparative political analysis ~ organizational democracy ~ team building
- Julie Shackford-Bradley, Ph.D.
  Comparative feminist literature ~ Southeast Asian studies ~ theoretical currents in area and postcolonial studies ~ gender and sexuality ~ politics and aesthetics in Asian and “Third World” literature

**Adjunct Faculty**
- Celia Alvarez, Ph.D.
  Global studies ~ Diaspora studies ~ epistemology ~ communications studies ~ ethnic and cultural studies ~ American studies ~ bilingual/multicultural studies

Our Global Studies program grew out of an assessment of sweeping changes at the end of the century. Global in nature, these developments range from rapid demographic, technological, and environmental changes to political transformations that have radically altered the ways we think about the world. Global Studies narrows the gap between the changing world we live in and the focus and content of our educational programs.

—Dr. Robina Bhatti, Institute Director
Why is this academic field important?
In this era of multiculturalism, social transformations, and new technologies, humanists will play a more important role than ever before. They will bring cultural, creative, critical, and historical understanding to problem solving. They will model ethical and humane communication. Experts in culture, communication, and creative expression will be the pillars of this new millennium.

What is the Human Communication major all about?
Our mission is to prepare you to be an ethical, creative, and critical thinker and doer in a multicultural and increasingly interconnected global society. Toward that end, we offer a comprehensive, interdisciplinary humanities and liberal arts education for the 21st century. Our major integrates the traditional disciplines of English and American literature, history, philosophy, rhetoric, communication, journalism, and creative writing with the contemporary fields of ethnic studies (Chicana/o - Latina/o, African American, Asian American, Euro American, Native American), American studies, women’s studies, cultural studies, and media studies. Unlike other universities where these fields are offered as separate majors, we combine them in our interdisciplinary program.

Within this integrated overall curriculum, you will be able to select and achieve competency in one of the following areas of emphasis:

- Practical and professional ethics
- American multicultural studies
- Chicana/o - Latina/o studies
- Literary and cultural studies
- Creative writing and social action
- Narrative, history, and memory
- Women’s studies
- Pre-law
- Journalism, communication, and media studies (being developed)
- English Single Subject Waiver

What will I gain by choosing to major in Human Communication at CSUMB?
Majoring in HCOM will prepare you to meet the demands of career flexibility in the new century. Most graduates in the next decade are expected to change professions at least five times. Preparing yourself for professional schools, graduate programs, and the workplace of the new millennium will require broad knowledge, multicultural communication skills, creative talents, and outstanding writing and critical thinking abilities. These are what our program offers.

Our program is built on the assumptions that:
1) The will and ability to think and communicate ethically, creatively, critically, and effectively are key to meaningful human existence;
2) Multicultural and historical knowledge are key to building peace and social equality;
3) Study across various disciplines leads to an integrated understanding of world issues and problems; and
4) Knowledge is most meaningful when it is applied ethically, critically, and creatively toward concrete social goals and needs.
We encourage multiple ways of learning and knowing. As “new humanists” you will study literature and develop your own creative expression. You will hear untold stories and help create the memory of the future. You will be encouraged to learn history and to make history in the field, in the archives, and through multimedia. You will approach communication study through ethical inquiry and inclusive, invitational dialogue, prioritizing values of care, compassion, equality, respect, and mutual understanding. Moreover, you will apply your knowledge to concrete, socially engaged projects.

What courses should I take to prepare to major in Human Communication if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application.

What courses should I take to prepare to major in Human Communication if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. We recommend that you prepare for transfer to the HCOM major by taking courses in advanced composition, critical thinking, philosophy, English or American literature, U.S. history, U.S. Constitution, ethnic studies, and women’s studies.

What CSUMB courses and requirements should I complete before declaring Human Communication as my major?

To prepare for entry into the HCOM major, you are required to complete University Learning Requirements (ULRs) in English Communication. In addition, you are strongly advised to complete the ULRs in Ethics, Literature and Popular Culture, U.S. Histories, Democratic Participation, Creative and Artistic Expression, and Culture and Equity. Transfer students entering the major should have completed equivalent General Education (lower-division) courses in these areas at their former institutions.

What steps must I take to declare Human Communication as my major?

You may declare your “intended major” on your application for admission as well as the registration form. You officially become an HCOM major after successful completion of Major ProSeminar (HCOM 300). If you have declared a major other than HCOM and wish to become an HCOM major, you can do so by filling out a Degree Program Change form which can be obtained from Admissions & Records.

How is the curriculum of Human Communication major structured?

The HCOM major curriculum has three parts: 1) the basic core; 2) the breadth learning experiences; and 3) the depth emphases which allow you to focus on an area of choice. With careful planning, most students are able to complete the HCOM major in four semesters.

Core

The core includes Major ProSeminar, Ways of Knowing (this course also assesses for HCOM MLO 4), Cooperative Argumentation or Advanced Composition and Composition Theories (these courses assess for HCOM MLO 1 and fulfill the Graduation Writing Assessment Requirement), and the Senior Capstone.

Breadth Requirements

In addition to MLOs 1 and 4, which are included in the Core, the breadth requirements include achievement of HCOM MLOs 2, 3, 5, 6, 7, and 8. These may be fulfilled through course-based assessment or independent assessment. The breadth requirements are designed to give you an integrated and multidisciplinary understanding of humanistic approaches and bodies of knowledge.

Depth Emphases

In relation to your specific interests and goals, you may choose a depth emphasis from one of the ten areas listed above. The depth emphasis may be fulfilled through three learning experiences designated for a particular emphasis. The depth emphasis is also designed to help you prepare for and support your Senior Capstone.

What will I learn as a Human Communication major?

As you complete your HCOM degree, you will be guided toward achievement of eight Major Learning Outcomes (MLOs):

- **HCOM MLO 1 Critical communication skills** – ability to communicate critically and empathically in both oral and written contexts, including reading, writing, listening, and speaking

- **HCOM MLO 2 Research skills** – ability to acquire, evaluate, interpret, synthesize, apply, document, and present knowledge gained through diverse and appropriate methods of inquiry in the context of an analysis of an issue, question, or problem

- **HCOM MLO 3 Relational communication skills** – ability to interact ethically and effectively in interpersonal and group communication and decision making processes

- **HCOM MLO 4 Philosophical analysis** – ability to understand why and how beliefs, values, assumptions, and communication practices interact to shape ways of being and knowing

- **HCOM MLO 5 Critical cultural analysis** – ability to investigate and explain relationships among cultural ideologies and sociohistorical experiences, interests, identities, and actions of specific cultural groups

- **HCOM MLO 6 Comparative literary analysis** – ability to appreciate and analyze literature in a social, historical, and cultural context – ability to compare and contrast literatures of at least three different cultural traditions, including non-Eurocentric traditions
HCOM MLO 7 Historical analysis – ability to actively engage our complex multicultural pasts by integrating historical understanding with historical thinking skills

HCOM MLO 8 Creative writing and social action – ability to acquire basic competency in creative writing – ability to apply this skill to the production and presentation of an art project that actively responds to a public issue – ability to sustain the creative process throughout a given project, taking it to completion

Which courses should I take to achieve each Human Communication MLO?

The following is a general guide and is updated every semester.

MLO 1 HCOM 312 Cooperative Argumentation: Theory and Practice; HCOM 317 Advanced Composition and Composition Theories; HCOM 317S Advanced Composition and Composition Theories: Service Learning

MLO 2 HCOM 350 Oral History and Community Memory; HCOM 350S Oral History and Community Memory: Service Learning; HCOM 352 History According to the Movies; HCOM 353 California at the Crossroads; HCOM 354 Whose America? Contested Memories in Public History; HCOM 355 Women’s History of Monterey Bay; HCOM 356 Multicultural History in the New Media Classroom; HCOM 358 Law in U.S. Societies; HCOM 385 Reporting; HCOM 388 Investigative Reporting; HCOM 474 Research Methods; HCOM 437 Shakespeare and Postcolonial Interpretations

MLO 3 HCOM 304 Relational Ethics; HCOM 306 Gender and Communication; HCOM 309 Intercultural Communication: Relating to Whiteness; HCOM 310 Free Speech and Responsibility; HCOM 316 Media Ethics; HCOM 403 Ethical Issues in the Professions

MLO 4 HCOM 301 Ways of Knowing

MLO 5 HCOM 307 Social Impact of the Mass Media; HCOM 307S Social Impact of the Mass Media: Service Learning; HCOM 340S Topics in Social Movements: Leadership and Empowerment; HCOM 342 Theories and Methods in Multicultural Women’s Studies; HCOM 344 Chicana/Latina Experiences; HCOM 345 Chicana Life and History; HCOM 346 African American Life and History; HCOM 348 Race, Colonialism, and Film; HCOM 395 Women of Color in the Diaspora; HCOM 426 Travel Narratives; HCOM 440 Leadership in Multicultural Communities; HCOM 443 Womanist Theory; HCOM 455 Paradigms of the Chicano/o Community

MLO 6 HCOM 322 Asian American Literature; HCOM 324 African American Literature; HCOM 325 20th Century Narratives of American Immigration; HCOM 327 Survey of American Literature; HCOM 328 Latina Life Stories; HCOM 329 Autobiografías; HCOM 335 African American Literature and Cultures; HCOM 336 Poetry and Gender: Voices of Our Time; HCOM 337 Women’s Literature; HCOM 338 Multicultural Adolescent Literature; HCOM 427 Survey of British Literature; HCOM 437 Shakespeare and Postcolonial Interpretations

MLO 7 HCOM 321 Social History of English; HCOM 346 African American Life and History; HCOM 352 History According to the Movies; HCOM 353 California at the Crossroads; HCOM 354 Whose America? Contested Memories in Public History; HCOM 355 Women’s History of Monterey Bay; HCOM 355S Peoples and Cultures of Monterey Bay: Service Learning; HCOM 356 Multicultural History in the New Media Classroom; HCOM 357 Constitutional Law; HCOM 358 Law in U.S. Societies

MLO 8 HCOM 330 Introduction to Creative Writing; HCOM 331 Creative Writing and Visual Art; HCOM 339S HCOM Service Learning

Courses applicable to each Depth Emphasis are listed in the Advising Handbook for HCOM majors.

Are there other ways for me to achieve the Human Communication MLOs?

HCOM MLOs may be fulfilled through course-based assessment or independent assessment. In accord with outcomes-based pedagogy, students with prior experience and demonstrable expertise (e.g., personal, professional, and social experience, or coursework completed at other institutions) may petition for independent assessment in an MLO. Criteria and standards for independent assessment are defined for each MLO.

What courses does Human Communication offer?

Recent courses have included: Ways of Knowing; Cooperative Argumentation; Intercultural Communication; Free Speech and Responsibility; Sexuality and the Law; Women and the Law; Relational Ethics; Oral History and Community Memory; Travel Narratives; 20th Century Narratives of American Immigration; Asian American Literature; African American Life and History; African American Narratives; American Ethnic Literature and Cultures; Race, Colonialism, and Film; Survey of British Literature; Shakespeare and Post-Colonial Interpretations; Chicana/Latina Experiences; Chicano Life and History; Latina Life Stories; Paradigms of the Chicano Community; Leadership in Multicultural Communities; Womanist Theory; Women of Color in the Diaspora; Introduction to Creative Writing; Poetry Writing Workshop; Creative Writing and Visual Art; Women’s Literature; Social Action Writing; Women’s Studies; History According to the Movies; Whose America? Contested Memories in Public History; Women’s History of Monterey Bay; Peoples and Cultures of the Monterey Bay; Multicultural History in the New Media Classroom; Law in U.S. Societies; Social Impact of the Mass Media; Media Ethics; News Writing; and Investigative Reporting.

What are the unique features of the Human Communication curriculum?

Major ProSeminar

The Major ProSeminar will help you develop an Individualized Learning Plan, create learning communities, and explore graduate education, professional opportunities, and specific career paths.

Senior Capstone

Your Senior Capstone will give you the opportunity to design, produce, and present a project to the public to demonstrate complex and integrated learning.
Integrated Graduation Requirements
The HCOM major seeks to integrate the following graduation requirements:
- Service Learning (through any SL-designated HCOM course)
- Graduation Writing Assessment Requirement (through HCOM MLO 1)
- Culture and Equity UIR for transfer students (through an MLO 5 course officially designated for Culture and Equity)

Applied Research Programs
The HCOM major provides you with special research opportunities through these Applied Research Programs:
- The Oral History and Community Memory Institute and Archive sponsors project-based courses in local, oral, and public history. It is at the forefront of integrating New Media in Humanities Pedagogy at CSUMB. The archive includes more than 100 life history interviews on a variety of topics including the Fort Ord conversion project, first generation college students, and family histories of farmworkers.
- The Creative Writing and Social Action Program sponsors courses, workshops, projects, e-zines and the Writers Series.
- The Journalism, Communication, and Media Studies Program (currently in development) will help support the Otter Realm, the CSUMB student-run newspaper, by giving students professional training that they apply directly to production of the paper.
- The Practical and Professional Ethics Program is being developed.

Multicultural Speakers and Writers Series
- The Multicultural Speakers Series hosts culturally diverse scholars who enhance our curriculum and public culture. Speakers have included Troy Duster, Dolores Huerta, John Kuo Wei Tchen, Elizabeth Martinez, and Richard Griswold del Castillo.
- The Writers Series hosts readings and workshops by famous writers. These have included Adrienne Rich, Toi Derricotte, Lorna Dee Cervantes, Sekou Sundiata, Juan Felipe Herrera, Aurora Levins Morales, Minnie Bruce Pratt, and Jimmy Santiago Baca.
- The Institute sponsors CSUMB’s International Women’s Day Celebration on March 8. Speakers have included Bettina Aptheker and Magdalen Hsu-Li.

What will my learning environment be like?
The HCOM learning environment is collaborative and inviting. We stress interactive learning and use the latest technology resources. Above all, we strive to create a safe space where students and faculty know each other and experience “equality in terms of personal value, where students and professors respect each other as persons and where this respect affects all aspects of the interaction and learning in the class” (Cynthia Griffin and Sonja Foss). In the words of the CSUMB founding faculty, “We embrace a vision integrating mind, body and spirit into a present, fully conscious, reflective human being. Above all, we want our students to deepen their love and respect of self, their communities, and their fellow human beings who may differ greatly from themselves, but who share the common bond of humanness…”

What counseling and support services are provided for Human Communication majors?

Human Communication provides each entering major with an Advising Handbook that contains complete and highly detailed information about the major and completion of the degree. The Advising Handbook is your guide until degree completion. In the Major ProSeminar, you will prepare your Individual Learning Plan (ILP). You are then assigned a faculty advisor according to your chosen Depth Emphasis. You meet with the advisor every semester, to track progress toward the degree. All students in a depth emphasis meet as a cluster and give each other peer mentoring. Our Program Outreach and Advising Assistant is available for dropin advising and help, and faculty members are available as schedules permit. In addition, each Major ProSeminar class selects student representatives who attend Institute meetings and serve as liaisons representing student interests and concerns.

What must I do in order to graduate with a Human Communication degree?

In order to receive your HCOM degree, you must fulfill the Major ProSeminar, eight MLOs, three learning experiences in a Depth Concentration, and the Senior Capstone. You must also fulfill the Graduation Writing Assessment Requirement (GWAR) and four Graduation Learning Outcomes in Service Learning, Technology, Culture and Equity, and Language. You must file a formal graduation application with Admissions and Records two semesters before your anticipated graduation date. The graduation application must be signed by your major advisor and accompanied by an updated Individualized Learning Plan for accurate evaluation.

Which careers will the Human Communication major prepare me to pursue?

Most graduates in the next decade are expected to change professions at least five times, so HCOM prepares you to meet the demands of career flexibility in the coming century. An HCOM degree could launch you toward a successful career as a lawyer, negotiator, or mediator; a high school English teacher or counselor; a literature, ethnic studies, history, communication, or women’s studies professor; a poet, novelist, or essayist; a journalist, editor, copywriter, or publisher; a public relations or advertising professional; an oral historian, museum specialist, or librarian; or a community spokesperson, women’s advocate, or nonprofit leader.

Undergraduate Programs
What advantages will the Human Communication major provide if I decide to go on to graduate study?

HCOM’s integrated curriculum in critical thinking, writing, cultural analysis, ethics and communication, history, literature, creative writing, and ethnic and women’s studies provides you with a broad foundation for graduate study in any field of the humanities or related social sciences. Through collaborative, active, and project-based learning, you will be well equipped to handle the kind of focused and sustained research, critical thinking, and writing demands of graduate school. HCOM sponsors a career symposium every semester and a graduate application workshop every year. In the summer between your junior and senior years, you are encouraged to study for and take the Graduate Record Examination (GRE) and research graduate programs for fall/winter applications.

Who will guide my learning experiences?

Faculty

- Frances Payne Adler, M.F.A.
  Creative writing and social action — women’s studies
- Rina Benmayor, Ph.D.
  Hispanic and Latina literatures — oral history — cultural studies
- Renée Curry, Ph.D., Director
  American and British literature — postcolonial theory — film studies
- Ilene Feinman, Ph.D.
  American studies — politics — women’s studies
- Diana Garcia, M.F.A.
  English — creative writing — Chicana/o studies
- Michelle Holling, Ph.D.
  Communication studies — rhetoric — Chicana studies
- Josina Makau, Ph.D.
  Philosophy — ethics — rhetoric — legal studies
- Debian Marty, Ph.D.
  Communication studies — ethics — rhetoric — women’s studies
- Cecilia O’Leary, Ph.D.
  U.S. history — cultural studies
- Qun Wang, Ph.D.
  American literature — Asian American literature — African American literature

Adjunct Faculty

- Debra Busman, M.F.A.
  Creative writing — literature — service learning
- Linda Bynoe, Ed.D.
  American multicultural studies
- Annette March, M.A.
  Reading and composition — service learning
- Gayle McCallum, M.A.
  Reading and composition
- David Reichard, Ph.D.
  U.S. history and politics

Staff

- Natasha Kaigel-Oehlman
  Program Outreach and Advising Assistant
- Yolanda Pérez
  Administrative Analyst/Specialist
- Virginia Peterson
  Administrative Support Coordinator

Human Communication is cutting-edge humanities for the 21st century. It is the study of culture, communication, and creative expression. Our faculty members include world-renowned historians, creative writers, philosophers, journalists, literary and cultural critics, and specialists in communication, ethnic, and women’s studies. Our program gives students a broad interdisciplinary education applicable to many professions and walks of life. When in doubt, come to HCOM!

- Interdisciplinary Studies

**Degree Offered**
- Bachelor of Arts

**Name of Sponsoring Program**
- Integrated Studies Program

**Why is this academic field important?**
As we enter a new millennium, we are living in an era of phenomenal change. Many career fields that exist today are so new and unique that educational institutions have been unable to keep up with preparatory programs. This evolution will likely become more rapid. Now, more than ever, individuals must adapt their education to their own unique goals and plans for the future.

**What is the Integrated Studies program all about?**
The main purpose of our Integrated Studies Program is to facilitate the efforts of students and faculty members who wish to develop and implement interdisciplinary and integrative degree concentrations. The Integrated Studies Program offers an organizational structure within which such concentrations can be incubated and evaluated. We enable the development of three types of curricular innovation at CSUMB:
- The Integrated Studies Special Major (ISSM) for students with interdisciplinary and integrative learning goals
- Interdisciplinary degree tracks involving two or more majors designed by and for relatively small groups of students and faculty who share special interdisciplinary and integrative learning goals
- Experimental interdisciplinary and integrative degree programs which faculty and students seek to pilot on a trial basis before deciding whether or not to seek approval for a particular program as an established degree curriculum

**How does the Integrated Studies Special Major work?**
ISSM offers a limited number of highly qualified, self-directed students the opportunity to develop and pursue an individualized, interdisciplinary Bachelor of Arts degree program. Like the students in the other majors at CSUMB, if you pursue an ISSM degree, you must achieve a series of clearly defined Major Learning Outcomes in order to graduate. However, in contrast to students in the other undergraduate degree programs, as an ISSM student you must convincingly demonstrate that your academic and career goals can only be achieved through combining the learning outcomes, courses, and other learning experiences offered by two or more of the existing degree programs at CSUMB.

**How do I receive approval to pursue an Integrated Studies Special Major?**
To pursue an ISSM degree, you must submit an application, statement of purpose, and transcript of previous coursework to the coordinator of the Integrated Studies Program who determines whether you meet the minimum requirements. If your application is accepted, you will enroll in the Integrated Studies ProSeminar where you will develop both a concentration proposal and an Individualized Learning Plan that combines learning outcomes and experiences from two or more of the existing degree programs at CSUMB.
What are the guidelines for choosing my Integrated Studies concentration?
You must develop a concentration proposal and an Individualized Learning Plan that meets the following requirements:
- It must be interdisciplinary and integrative. In other words, it must integrate the learning outcomes from two or more major areas of learning and teaching represented at CSUMB.
- It cannot duplicate any existing major at CSUMB, nor can it be used to avoid some of the requirements of an existing major.
- It must be feasible. The particular combination of learning outcomes and experiences chosen must be available or accessible through CSUMB, and there must be two full-time faculty members with expertise in the areas represented by the concentration who are willing to serve as advisors.
- It must exhibit the same or a greater degree of breadth, depth, and complexity as the other approved degree programs at CSUMB.

What are the unique features of the Integrated Studies Special Major?
Integrated Studies assigns important responsibility to students in developing and executing their learning programs. You must be considerably self-directed, highly motivated, and capable of successfully undertaking an independent learning program.

The Major ProSeminar provides the environment and mentoring necessary for you and other ISSM students to develop an Individualized Learning Plan (ILP) and concentration proposal.
The Senior Capstone Seminar will allow you to design, produce, and present a project of your choice as a display of your cumulative and integrative learning.

How is the curriculum of the Integrated Studies Special Major structured?
You develop your own Individualized Learning Plan in the ISSM 300 ProSeminar. This learning plan defines the integrative focus of your special major and combines Major Learning Outcomes and learning experiences from two or more of the existing degree programs at CSUMB.

What will I learn through the Integrated Studies Special Major?
Consistent with CSUMB’s outcomes-based education approach and similar to the other majors at CSUMB, the Integrated Studies Special Major centers on the achievement of a series of learning outcomes rather than the mere completion of a prescribed sequence of courses. You will be required to design an individualized, interdisciplinary concentration that consists of at least 10 Major Learning Outcomes (MLOs). Your learning outcomes must be largely drawn from the MLOs of existing degree programs at CSUMB. Since our program is designed to encourage curricular innovation, we do not prescribe a single set of MLOs for all students who pursue an Integrated Studies degree. You must develop and pursue the combination of MLOs selected for your particular concentration.

Which courses should I take to achieve each Integrated Studies MLO?
There are only two MLOs required of all ISSM majors, and they can only be achieved by completing ISSM 300 and ISSM 400.

Are there other ways for me to achieve the Integrated Studies MLOs?
There are no other ways to achieve these MLOs.

What courses does Integrated Studies offer?
The Integrated Studies Program offers a limited number of courses. Please see below.
How do Integrated Studies Tracks work?
Some students have difficulty addressing their academic goals through any single existing degree program, and occasionally a group of such students share their unique interests and career goals. Such groups often lack the critical mass necessary to warrant establishment of a degree program to address their unique goals and interests. Consequently, these students are usually forced to gain as much relevant learning from an existing major as they can.

Integrated Studies Tracks enable us to better address such needs by drawing upon the expertise and resources from two or more academic areas on campus to formulate and deliver a program with a concentration tailored to the goals of these relatively small groups. The program of study for an Integrated Studies Track consists of the existing learning experiences of established majors and new learning experiences designed specifically for those enrolled in the track. It is the development and scheduling of these targeted learning experiences, which most likely would not exceed four or five such experiences for any single track, that distinguishes the Integrated Studies Track from the Integrated Studies Special Major.

How do Integrated Studies Experimental Majors work?
We offer Integrated Studies Experimental Majors as the third component of our Integrated Studies Program. This innovative option serves as an academic incubator in which CSUMB faculty, administrators, and students can pilot test a range of degree programs. From the knowledge and experience gained during this experimental phase, participants will be able to determine the types of revisions that would be required to warrant sending a program forward for approval as a freestanding or independent degree program.

What will my learning environment be like?
Regardless of the fields that you choose to integrate, our campus and region will help you put it all together. Wired for the 21st century since opening in 1994, our university sits on the leading edge of technology. At the same time, we are multicultural and diverse both in backgrounds and interests. We have committed ourselves to pluralistic faculty, staff, and student populations that interact in small classes conducted in spacious, modern facilities.

Our campus location is a huge asset. Monterey Bay, a scientific wonderland, is only a mile away. Silicon Valley, high-tech heaven, is a mere one hour north. San Francisco, mecca of arts and humanities, lies just two hours up the coast. We have established direct working relationships with surrounding communities, organizations, and companies to open doors to rich internship and employment opportunities for our students in a number of fields.

What counseling and support services are provided for Integrated Studies Special Majors?
The ISSM 300, ISSM 395, and ISSM 400 courses provide counseling and support to all ISSM students throughout their special major program of study at CSUMB.

What must I do in order to graduate with an Integrated Studies degree?
You must complete all the MLOs in your Individualized Learning Plan as well as all the university’s graduation requirements.

Which careers will the Integrated Studies Special Major prepare me to pursue?
Integrated Studies allows you to mold your degree to your unique career goals. To prepare yourself for the career you envision, you will build your learning experiences exactly the way that you want. Rather than fit into an existing program, you fit your program to your unique career goals and plans.

What advantages will the Integrated Studies Special Major provide if I decide to go on to graduate study?
Most interdisciplinary graduate programs and many other graduate programs are interested in recruiting students who have designed and successfully completed their own interdisciplinary special majors.

Who will guide my learning experiences?
Advisory faculty members facilitate, review, and evaluate the three forms of curricular innovation in the Integrated Studies Program. The program is guided by the Integrated Studies Program Advisory Council which is composed of the Integrated Studies Program coordinator, one fulltime faculty member from each of the main academic Centers at CSUMB, and two representatives from the student government.

As part of the planning for your Integrated Studies Special Major, you will be asked to find two appropriate CSUMB faculty members to serve as advisors. These faculty members, along with the Integrated Studies Program coordinator, serve as your faculty advisory committee. The members of this committee must represent at least two of the major fields in your concentration.

The Integrated Studies Program provides a supportive learning environment for self-directed students who want to pursue interdisciplinary and integrative programs of study at CSUMB. The program also provides an incubator for faculty and students to pilot new curricular tracks and degree programs.

—Dr. Richard Harris, Integrated Studies Program Coordinator
What is the Liberal Studies major all about?

Our outcomes-based, interdisciplinary major integrates the arts and humanities with the natural, social, and technological sciences. We emphasize breadth across a variety of disciplines with an emphasis in at least one academic area. In keeping with CSUMB’s vision, academic goals, and graduation requirements, the Liberal Studies major offers a solid professional career foundation. We provide you with choices in academic studies that prepare you for lifelong learning, professional work, graduate study, and entry into teacher education credential studies.

What will I gain by choosing to major in Liberal Studies at CSUMB?

California has made a renewed commitment to education by increasing budget allocations and mandating smaller classes in elementary schools. Consequently, the demand for teachers is greater than ever. If you intend to become an elementary school teacher like approximately 90 percent of our current Liberal Studies majors, the program is perfect for you. Our curriculum meets the State of California approved subject matter prerequisite for the fifth-year of study in a Multiple Subject Credential Program. The other 10 percent of our majors receive equally superb preparation for entry-level positions and graduate programs in other professions, such as social work, law, and business, that value well-rounded general undergraduate preparation.

What courses should I take to prepare to major in Liberal Studies if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also suggest that you include at least one class in information processing (computer operations) and three or more years of second language study.

What courses should I take to prepare to major in Liberal Studies if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or the CSUMB Liberal Studies Advising Center to get the specifics. Please contact the CSUMB Student Information Center to request a CSU admissions application. As a prospective Liberal Studies major, you should include courses in: Reading, writing, critical thinking, and oral communication; music, art, and drama; mathematics; information processing (computer operations); two or more years of a second language; natural sciences (life, physical, and earth); economics literacy; geography literacy (local and global); philosophy or ethics; history; government (U.S. and California); ethnic studies (a single ethnic group focus); literature (multicultural focus); and physical education or motor development theory and activity.
What CSUMB courses and requirements should I complete before declaring Liberal Studies as my major?

Before declaring Liberal Studies as your major, you should pass or be certified out of the following University Learning Requirements (ULRs) and outcomes: Artistic/Creative Expression (MPA, VPA, and TAT) ~ Democratic Participation ~ English Communication ~ Ethics ~ Technology, Information ~ Mathematics Communication ~ Science/Physical (ESSP 122) and Science/Life (ESSP 204 or ESSP 305) ~ U.S. Histories ~ Vibrancy Theory and Activity ~ Community Participation ~ Language (4th level) ~ ELM/EPT assessments ~ Literature/Popular Culture.

What steps must I take to declare Liberal Studies as my major?

You enter the Liberal Studies major officially upon enrollment in ProSeminar 300 at the junior level. Although you may declare Liberal Studies as your major as early as your freshman year, and may receive advisement in the Liberal Studies Advising Center, enrollment in the major is official only upon enrollment in ProSeminar 300. It is not until you have enrolled in ProSeminar 300 that you receive a major advisor and counselor. Each ProSeminar instructor becomes the official advisor to all students in that section of ProSeminar 300.

How is the curriculum of the Liberal Studies major structured?

In ProSeminar 300, you will develop an Academic Learning Plan (ALP) which guides your choices of learning experiences that meet the major outcomes. You will also develop an academic portfolio (demonstrating your best academic writing samples) that becomes the basis of partial fulfillment of the Capstone assessment criteria in the major. Full completion of assessment criteria in the major includes the ProSeminar portfolio and a Capstone research project and paper.

Most of the coursework in the Liberal Studies major is completed in other disciplines. As a multidisciplinary major, the Liberal Studies program is constituted by core courses in Liberal Studies (such as Major ProSeminar, Senior Capstone, Culture and Cultural Diversity, Nature of Language and Language Acquisition, Human Development, and Service Learning in the Schools), and subject matter coursework completed in the various disciplines (social and natural sciences, humanities, mathematics, and technology) across the academic programs at CSUMB. Outcomes in the major are assessed in ProSeminar, Capstone, and in each of the courses required or recommended for meeting the competencies in the major.

You are strongly advised to complete all of your major coursework prior to enrolling in the Capstone learning experience (LS 400). Prior completion of coursework allows you to focus your attention on refining your academic portfolio and conducting research or developing your Capstone research project.

What will I learn as a Liberal Studies major?

As you complete your Liberal Studies degree, you will be guided toward achievement of 21 Major Learning Outcomes (MLOs) within five domain areas.

Domain Area A: Orientation, Foundations, and Perspectives in the Major

- **LS MLO A1** Completion of **LS 300 Major ProSeminar** including ~ completion of academic orientation to and perspectives underlying Liberal Studies ~ basic and advanced writing across different genres ~ completion of the Academic Learning Plan and a learning portfolio
- **LS MLO A2** Understanding of social foundations of education including ~ history of education in the United States, with emphasis on multicultural education ~ issues and conditions regarding schooling in a multicultural and linguistically diverse society

Domain Area B: Diversity and Multiculturalism

- **LS MLO B1** Cross-cultural competence including ~ knowledge and understanding of one’s own ethnic or cultural heritage, power relations and equity, U.S. cross-cultural relations, and socioeconomic and cultural experiences of U.S.-based ethnic groups
- **LS MLO B2** Single ethnic/cultural group awareness including ~ cross-cultural competence contextualized by the experiences of a specific ethnic or cultural group
- **LS MLO B3** Global competence including ~ knowledge and analysis of social, economic, educational, and geopolitical conditions of peoples outside the U.S.
- **LS MLO B4** Second language communication competency including ~ ability to read, write, and speak a language other than English

Domain Area C: Liberal Learning Across the Disciplines

- **LS MLO C1** English communication foundational proficiency including ~ applied abilities in basic reading, and written and oral communication
- **LS MLO C2** English communication advanced proficiency including ~ applied abilities in advanced reading, and written and oral communication ~ scholarly reasoning, argumentation, problem solving, and research skills
- **LS MLO C3** Literary analysis and criticism in multicultural literature including ~ ability to analyze literature in cultural, social, and historical contexts
- **LS MLO C4** Technology communication abilities including ~ proficiency and ethics in technology use
- **LS MLO C5** Social science competency including ~ knowledge and analysis of human interactions and change in sociological, psychological, multicultural, and educational contexts ~ literacy in U.S. and global history, government, economics, and geography
- **LS MLO C6** Quantitative literacy including ~ knowledge and application of mathematical skills for K-8 elementary instruction ~ applied technology in elementary mathematics instruction
Undergraduate Programs

Are there other ways for me to achieve the Liberal Studies MLOs?

You may complete the Liberal Studies MLOs through recommended courses and by completing the Major ProSeminar 300, passing the Graduation Writing Assessment Requirement (GWAR), and completing the Capstone Portfolio and Research Project. By fall 2001, a substantive portion of the Liberal Studies major will be available electronically in the form of online courses required or recommended in the major. This Liberal Studies Distributed Degree Completion (LSDC) program already offers a few LS courses online.

What courses does Liberal Studies offer?

The titles of our courses paint a great picture of our curriculum. Recent classes offered have included: Integrated Physical Science; Introduction to Life Science; Environmental Geology for Teachers; Service Learning in the Schools; Expressive Arts (music and drama); Visual and Public Arts for Teachers; World Mythology Literature; Hispanic Children’s Literature; Life Span Development; Intancy and Early Childhood; Middle to Late Childhood; Adolescence: Context, Culture, and Development; Multicultural Children’s Literature; Child Development; Motor Development; Culture and Cultural Diversity; African American Narratives; Asian American Literature; Latina Life Stories; Nature of Language and Language Acquisition; Schooling in a Culturally and Linguistically Diverse Society; Computers in the Schools; and Mathematics for K-8 Instruction.

What are the unique features of the Liberal Studies curriculum?

The Major ProSeminar will help you create a community of learners, understand the culture of CSUMB, complete an Academic Learning Plan, and refine your college level written and oral communication skills. As you acquire and develop the knowledge, skills, and understanding needed to become lifelong learners, Major ProSeminar will acquaint you with the theories, perspectives, and models relevant to Liberal Studies and the career doors opened by the major. You will demonstrate completion of the Major ProSeminar learning experience by completing an academic portfolio.

Your Senior Capstone will guide you in designing, producing, and presenting a research paper and project of your choice as a display of your cumulative learning. In the Capstone, you will also refine, if necessary, your ProSeminar portfolio.

Field-based service learning will give you hands-on experience helping and learning from schools, young learners, and community institutions. You will connect with diverse social groups in the Tri-County communities surrounding CSUMB. Both the learning opportunities and your followup reports will give you the chance to link your service learning experience to your unique career objective.

What will my learning environment be like?

At CSUMB, when you major in Liberal Studies, the “liberal” does not apply to class size. Ours are small and highly interactive. Though your learning will be general in scope, your education will be highly individualized. Our vibrant, culturally diverse, and technologically advanced “21st CSU campus for the 21st century” will envelop you in a rich and rewarding undergraduate experience.

Domain Area D: Ethical Reflection and Social Responsibility

LS MLO D1 Field-based service learning including ~ ability to recognize, analyze, and resolve real-world ethical problems in communities and schools ~ contribution to development of productive university-schools partnerships

Domain Area E: Synthesis and Assessment in the Major

(Capstone assessment demonstrating cognitive achievement across disciplines through scholarly research and writing)

■ LS MLO E1 Presentation of LS 300 portfolio
■ LS MLO E2 Development of research paper and project
■ LS MLO E3 Presentation of research and project

Which courses should I take to achieve each Liberal Studies MLO?

The Liberal Studies Advising Center has created a Website (http://ls.monterey.edu/advising) which lists the relevant courses and requirements that you must complete in order to meet each of the 21 Major Learning Outcomes (MLOs). For each MLO, you may select from a list of approved courses. Specific courses required for the waiver/teaching pathway are designated as “required for credential candidates.” If this description is not attached to a specific course, then you are free to choose any of the courses listed under a particular MLO.

As a Liberal Studies major, you will be assessed for progress toward the achievement of the MLOs in the following ways:

■ Through the Major ProSeminar (LS300) and Capstone (LS 400), where considerable emphasis is placed on assessment of written and oral communication, and demonstrated competency in basic as well as research and scholarly writing.
■ Through a portfolio of your cumulative learning. Development and assessment of this academic portfolio begins in ProSeminar 300, and final assessment occurs in your Capstone experience.
■ Through course-based assessment where instructors evaluate your classroom performance according to the course competencies for the subject areas and the major.

■ LS MLO C7 Natural sciences proficiency including ~ ability to analyze complex scientific problems by applying and synthesizing concepts from the physical, earth, and life sciences
■ LS MLO C8 Visual and performing arts abilities including ~ appreciation for and ability to produce in the arts by creating and/or performing
■ LS MLO C9 Human growth and development competency including ~ understanding of the developmental needs of learners—applying psychological, sociological, physical, and multicultural theories of human development and change
■ LS MLO C10 Linguistics and language development competency including ~ knowledge of principles and theories of language and language acquisition ~ application of knowledge-base in real-world instructional settings
■ LS MLO C11 Subject area emphasis including ~ completion of a 12-semester unit upper-division emphasis in a discipline commonly taught in K-8 classrooms

Domain Area D: Ethical Reflection and Social Responsibility

LS MLO C12 Synthesis and Assessment in the Major

(Capstone assessment demonstrating cognitive achievement across disciplines through scholarly research and writing)

■ LS MLO D1 Field-based service learning including ~ ability to recognize, analyze, and resolve real-world ethical problems in communities and schools ~ contribution to development of productive university-schools partnerships

Domain Area E: Synthesis and Assessment in the Major

(Capstone assessment demonstrating cognitive achievement across disciplines through scholarly research and writing)

■ LS MLO E1 Presentation of LS 300 portfolio
■ LS MLO E2 Development of research paper and project
■ LS MLO E3 Presentation of research and project

Are there other ways for me to achieve the Liberal Studies MLOs?

You may complete the Liberal Studies MLOs through recommended courses and by completing the Major ProSeminar 300, passing the Graduation Writing Assessment Requirement (GWAR), and completing the Capstone Portfolio and Research Project. By fall 2001, a substantive portion of the Liberal Studies major will be available electronically in the form of online courses required or recommended in the major. This Liberal Studies Distributed Degree Completion (LSDC) program already offers a few LS courses online.

What courses does Liberal Studies offer?

The titles of our courses paint a great picture of our curriculum. Recent classes offered have included: Integrated Physical Science; Introduction to Life Science; Environmental Geology for Teachers; Service Learning in the Schools; Expressive Arts (music and drama); Visual and Public Arts for Teachers; World Mythology Literature; Hispanic Children’s Literature; Life Span Development; Intancy and Early Childhood; Middle to Late Childhood; Adolescence: Context, Culture, and Development; Multicultural Children’s Literature; Child Development; Motor Development; Culture and Cultural Diversity; African American Narratives; Asian American Literature; Latina Life Stories; Nature of Language and Language Acquisition; Schooling in a Culturally and Linguistically Diverse Society; Computers in the Schools; and Mathematics for K-8 Instruction.

What are the unique features of the Liberal Studies curriculum?

The Major ProSeminar will help you create a community of learners, understand the culture of CSUMB, complete an Academic Learning Plan, and refine your college level written and oral communication skills. As you acquire and develop the knowledge, skills, and understanding needed to become lifelong learners, Major ProSeminar will acquaint you with the theories, perspectives, and models relevant to Liberal Studies and the career doors opened by the major. You will demonstrate completion of the Major ProSeminar learning experience by completing an academic portfolio.

What will my learning environment be like?

At CSUMB, when you major in Liberal Studies, the “liberal” does not apply to class size. Ours are small and highly interactive. Though your learning will be general in scope, your education will be highly individualized. Our vibrant, culturally diverse, and technologically advanced “21st CSU campus for the 21st century” will envelop you in a rich and rewarding undergraduate experience.
The surrounding Monterey Bay region, with an economic base ranging from agriculture to tourism and incredible scenery including the peaceful Pacific, colorful coastal mountains, and varied valleys, is a real-world interdisciplinary classroom.

What academic advising and support services are provided for Liberal Studies majors?

In addition to a Major ProSeminar, the Institute of Liberal Studies provides one-on-one advisement through the LS Advising Center. The center is staffed by an advising specialist who coordinates the advisement process and student peer advisors trained to provide you with expert advice on completing graduation and degree requirements.

What must I do in order to graduate with a Liberal Studies degree?

To graduate with a Liberal Studies degree, you may choose one of two pathways: Teaching Waiver or non-waiver. The Liberal Studies Teaching Waiver pathway requires you to demonstrate competency in the 21 MLOs by completing learning experiences that provide not only an advanced liberal education but also content knowledge and skills appropriate for enrolling in a professional elementary education program. The Liberal Studies non-waiver pathway requires you to demonstrate competency in the 21 MLOs by completing learning experiences that will prepare you with an advanced liberal education for entering professions other than teaching. Demonstrated competency in the Graduation Writing Assessment Requirement (GWAR) is required of all students pursuing a Bachelor of Arts degree at CSUMB.

Which careers will the Liberal Studies major prepare me to pursue?

A Liberal Studies degree could launch you toward a successful career as a kindergarten teacher, computer-based trainer, human services professional, elementary school instructor, government service professional, corporate training administrator, private school operator, adult education instructor, job training specialist, or middle school instructor.

What advantages will the Liberal Studies major provide if I decide to go on to graduate study?

Liberal Studies (whether you choose the Teaching Waiver or non-waiver pathway) provides a solid academic foundation that prepares you for entry into a wide range of graduate study programs.

What is the Liberal Studies Distributed Degree Completion program?

CSU Monterey Bay offers an exciting opportunity for students to complete a bachelor’s degree in Liberal Studies (with an MSAT waiver) while they work and attend to other responsibilities.

The Liberal Studies Distributed Degree Completion Program (LSDC)—currently pending approval by the Western Association of Schools and Colleges—is designed for upper-division students who, due to location, work schedules, or other circumstances, are unable to attend regular class sessions on campus. Students in this program will meet the goals and outcomes of CSUMB's campus-based Liberal Studies program. Courses are offered using distributed learning delivery technologies including Web-based instruction and computer resources. Distributed learning courses may include classroom or field-based meetings to extend and enhance student learning.

More detailed information about the LSDC program may be found in the Distributed Learning and Extended Education section of the CSUMB catalog, or by visiting the Web (http://online.monterey.edu).

Who will guide my learning experiences?

**Fulltime Faculty**

- Betty McEady, Ed.D., Institute Director
  - Curriculum and instruction in English and literacy development
  - African American literature — multicultural pedagogy — effective schooling practices — philosophy of education
- Herbert Martin Jr., Ph.D.
  - Multicultural education — intercultural functioning
- Paoze Thao, Ph.D.
  - Historical foundations of education — linguistics — English as a second language (ESL) — interpersonal and intercultural communication

**Adjunct Faculty**

- Richard Anderson, Ph.D.
  - Linguistics — language learning
- Linda Bynoe, Ed.D.
  - International multicultural education
- David Gegeo, Ph.D.
  - Political anthropology — sociolinguistics
- Marcia Karwas, Ph.D.
  - Interdisciplinary studies
- Melvin Mason, M.A.
- Ramiro Reyes, M.A.
  - Behavioral sciences — bilingual/cross-cultural emphasis
- Terri Wheeler, M.A.
  - Behavioral sciences — cross-cultural emphasis
- Mary Witzleb, Ph.D.
  - Curriculum and instruction in school psychology
- Additional adjunct faculty who are also public school teachers or administrators

Our Liberal Studies program holds to a philosophy and an approach to teaching and learning that provide a multidisciplinary intellectual experience while simultaneously fostering support for student success from entry into the major to graduation. Through Major ProSeminar and Senior Capstone, the program forges a link between the academic and professional worlds, giving particular emphasis to building a seamless connection between subject-matter preparation and teacher credentialing studies.

Degree Offered
  Bachelor of Science

Name of Sponsoring Institute
  Institute for Management and International Entrepreneurship (IMIE)

Name of Sponsoring Center
  Center for Collaborative Education and Professional Studies (CEPS)

Why is this academic field important?
The dawn of the 21st century promises great opportunities for those with the imagination and initiative to identify and take advantage of them. Increasingly, business success will require a multicultural and international outlook, the personal instincts and abilities to make things happen, and continuous personal and organizational innovation and reinvention in the face of rapid change.

What is the Management and International Entrepreneurship major all about?
The MIE major prepares students for careers in business or in other careers where management skills are important. Many MIE majors go on to start their own businesses. Some pursue careers in international business, but all graduates leave with a global and multicultural perspective.

How does the Management and International Entrepreneurship major differ from a traditional business degree?
As an MIE major, you will gain the same business skills and knowledge as do students at traditional schools of business. In addition, you will acquire behavioral skills that contribute to superior enterprise performance. Typically you will acquire these skills through a combination of structured classroom education and hands-on field-based learning including internships and service work in community nonprofit organizations.

What will I gain by choosing to major in Management and International Entrepreneurship at CSUMB?
Having an entrepreneurial attitude—looking for opportunities to add value, to improve organizations and processes, to find a better way, and to make things happen—is key to success in virtually any field. Our graduates consistently demonstrate both the skills and the accompanying motivation and confidence to succeed. More often than not, they acquire these traits through field-based learning, case studies, and other applied learning that shows them they can make a difference. Our faculty members, most of whom have initiated and managed their own businesses or innovative nonprofit organizations, provide extensive one-on-one exchange and coordinate small group interaction with business and community leaders and your student peers. Our goal is for you to graduate not just with skills and knowledge, but with this transforming experience.

What courses should I take to prepare to major in Management and International Entrepreneurship if I will be entering CSUMB as a freshman?
If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application.
What courses should I take to prepare to major in Management and International Entrepreneurship if I will be entering CSUMB as a transfer student?

All MIE majors must complete with a “C” or better, at CSUMB or another institution, six lower-division prerequisite courses: “Introduction to Business,” macroeconomics, microeconomics, financial accounting, college algebra or precalculus, and statistics. Junior college students considering becoming MIE majors at CSUMB are encouraged but not required to complete these prerequisites before graduating from junior college.

What CSUMB courses and requirements should I complete before declaring Management and International Entrepreneurship as my major?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. You should also try to complete at least one year of a foreign language. As a prospective MIE major, you will be right on track if you complete courses in macroeconomics, microeconomics, financial accounting, college algebra or precalculus, business statistics, and an “Introduction to Business” course. If you arrive at CSUMB without these prerequisites, you can still declare MIE as your major while fulfilling them as quickly as possible.

What steps must I take to declare Management and International Entrepreneurship as my major?

To declare MIE as your major, you should fill out an Academic Program Change form which may be obtained from the CSUMB Admissions and Records department.

How is the curriculum of the Management and International Entrepreneurship major structured?

All MIE majors take a four-semester series of required courses. The Major ProSeminar introduces you to basic business concepts, helps you gain greater clarity on your life and career goals, and guides you in completing an Individualized Learning Plan. Subsequent courses integrate the principal disciplines of business: management, marketing, finance, operations management, and computer and Internet uses in business. In your Senior Capstone, you produce and present a Capstone Portfolio demonstrating that you have attained the eleven MIE Major Learning Outcomes, as well as a final project in which you apply your cumulative learning. In addition, majors take electives both in our field and in other disciplines.

The Bachelor of Science in Management and International Entrepreneurship requires a minimum of 128 units of which 56 must be upper-division units taken within the MIE major (including approved courses offered by other Institutes). You must receive a grade of “C” or better in all MIE core and upper-division elective courses required for graduation as an MIE major. As part of the 128 units, you must complete the University Learning Requirements (ULRs), MIE lower division prerequisite course requirements, MIE core courses, and approved electives.

All MIE majors must complete with a “C” or better, at CSUMB or another institution, six lower-division prerequisite courses:
- Introduction to Business
- Macroeconomics
- Microeconomics
- Financial Accounting
- College Algebra or Precalculus
- Statistics

In addition to the above prerequisites, lower-division MIE majors at CSUMB are required to complete MIE 211 Reading, Writing and Critical Thinking for Business I in satisfaction of the first half of the English Communication University Learning Requirement (ULR). Lower-division MIE majors at CSUMB and junior college transfers are required to complete MIE 200 Introduction to Business Computing to satisfy the Technology and Information ULR.

Juniors (or with prior approval second-semester sophomores) who have completed all MIE prerequisites commence an upper-division core course sequence consisting of:
- Major ProSeminar (2 credits, concurrent with Reading, Writing and Critical Thinking for Business II) – development of Individualized Learning Plan and introduction to business
- Reading, Writing and Critical Thinking for Business II (4 credits, concurrent with Major ProSeminar)
- Principles of Management (4 credits)
- Fundamentals of Marketing (4 credits)
- Finance (4 credits including 1 credit for integrated case studies and projects)
- Computer Information Systems (4 credits)
- Principles of Operations Management (4 credits)
- Senior Capstone (4 credits) – final Capstone Project and assessment of attainment of MLOs

As an integral part of the core curriculum, MIE majors also select courses that provide an opportunity both to attain competency in MIE MLOs other than those above and to satisfy Service Learning, Culture and Equity, and other University Learning Requirements (ULRs).
Areas of Emphasis

During the Major ProSeminar, you will select one of four areas of emphasis within the MIE major based on your own assessment of your strengths and weaknesses, and life and career interests:

- Accounting
- Entrepreneurship/Intrapreneurship
- Information Technology/e-Commerce
- Management and International Business

Within your area of focus, you select four to six elective courses from a menu of options intended to enable you both to attain base-level competency in all eleven MLOs and to deepen your level of competency in the identified area of specialization.

Electives

The Institute offers a wide variety of electives paralleling the MLOs. Where doing so would best further your learning, you may also complete approved courses offered by other Institutes such as Communications Science and Technology, Global Learning, Community Collaborative Studies, World Languages and Cultures, or Earth Systems Science & Policy.

Service Learning and Mentoring

Institute faculty and business mentors assist you in arranging service learning, internship, and other mentored work experiences. You apply skills acquired in the classroom and position yourself to gain a strategic career position following graduation.

Senior Capstone

A field assignment serves as the basis for your Senior Capstone project. This project and the Capstone Portfolio are the primary means by which you demonstrate attainment of each of the MIE Major Learning Outcomes.

What will I learn as a Management and International Entrepreneurship major?

As you complete your degree, you will be guided toward 11 Major Learning Outcomes (MLOs):

- **MIE MLO 1 Entrepreneurship/intrapreneurship skills and attitudes** including ability to ~ recognize and evaluate opportunities ~ envision and launch new initiatives ~ assess and continuously improve your performance
- **MIE MLO 2 Leadership and management skills** including ability to ~ contribute to organizational effectiveness ~ manage innovation and change ~ exercise leadership effectively ~ inspire, motivate, and empower others ~ use time and other personal assets productively
- **MIE MLO 3 Marketing skills** including ability to ~ analyze markets and competition ~ develop and use marketing information systems ~ produce a marketing plan ~ use the Internet to improve the value chain
- **MIE MLO 4 Finance skills** including ability to ~ prepare and analyze financial statements and projections ~ analyze a proposed project or investment ~ identify and evaluate sources of financing
- **MIE MLO 5 Operations management skills** including ability to ~ improve operational productivity of an enterprise ~ improve strategic decisions ~ consistently deliver quality products and services which satisfy customer needs
- **MIE MLO 6 Information technology skills** including ability to ~ identify and analyze an organization’s information needs ~ design and implement database systems to meet needs ~ use information technology to support effective decision making ~ recognize and use technology trends to start or expand entrepreneurial or intrapreneurial ventures ~ use the Internet to disseminate information
- **MIE MLO 7 Research and analysis skills** including ability to ~ plan and conduct primary and secondary research to support decision making ~ analyze a business issue applying quantitative analysis wherever appropriate
- **MIE MLO 8 Communication effectiveness** including ability to ~ use oral, written, and electronic communication to inform, persuade, and influence others ~ effectively employ various models of negotiation and conflict resolution ~ work effectively and empathetically with others inside and outside your primary culture
- **MIE MLO 9 Teamwork skills** including ability to ~ support multicultural team decision making and problem solving ~ direct a team to achieve its objectives
- **MIE MLO 10 Ethics and social justice perspectives** including ability to ~ develop a set of values and beliefs that incorporate personal and professional ethics and integrity ~ identify and respond to personal and organizational ethical dilemmas ~ identify social inequity and take concrete action to promote social justice ~ promote just, fair, and caring transactions between people and agencies
- **MIE MLO 11 Global, cross-cultural, and multicultural perspectives** including ability to ~ develop global market entry strategies ~ develop recommendations to improve global operations ~ analyze appropriate risks of international investments and finance ~ build global competitive advantages through interpersonal effectiveness

How do I achieve the Management and International Entrepreneurship MLOs?

You may employ a variety of means to acquire the knowledge and abilities needed to demonstrate achievement of each of the MLOs. These include prior work experience, participation in structured in-class learning experiences within the MIE program and in other CSUMB Institutes, field-based learning (internships and service learning), and coursework or field-based learning at other institutions in the U.S. or abroad. The Institute applies a variety of methods to assess attainment of each MLO but relies primarily on concrete examples of your application of knowledge (“deliverables”).
What courses does Management and International Entrepreneurship offer?

Current electives include: Participation in Community Economic Development; Electronic Commerce: Business Models and Strategies; Product Management and Marketing for Startups; Human Resources Management; Leadership in the Global Business Environment; Teamwork and Communication; Diversity and Equity in Organizations; Business Law; International Financial Management; Database Management: Methods and Applications; Global Marketing; Entrepreneurship; International Comparative Management; Geographic Information Systems for Demographic Analysis; Managerial Accounting; Intermediate Accounting I & II; Income Tax I; Accounting Theory; Audit I & II; Advanced Accounting I; Practical Applications in Entrepreneurship; Organizational Behavior; Ethics and Social Justice; Marketing Research; Management of Nonprofit Organizations; Venture Formation and Finance; Financing, Startup, and Growth of Technical Ventures; Electronic Commerce: System Management and Strategies; Decision Support Systems; Information Technology Management; Electronic Commerce: Design and Development; Visual Basic for Business Applications; Internship; and International Business Study Tour.

What will my learning environment be like?

Our campus location is a huge asset. Silicon Valley, the world’s greatest concentration of high tech startup companies, is an hour away. San Francisco, gateway to America’s international business connections with all of Asia, is two hours up the Pacific coast. To the south, Mexico provides nearby connection with a developing economy. Just minutes away from campus, the economically diverse California Central Coast presents a range of excellent opportunities in tourism, agriculture, marine ventures, and much more. Whether you are looking for the chance to make a difference for laborers or the opportunity to operate ethically among managers, you will find an appropriate challenge nearby.

Established in 1994, CSUMB has been wired for the 21st century from its start. Every student has access to the world via the campus network and the Internet. Because a central element of our CSUMB vision is to educate students from historically underrepresented groups and to become a national model for how to do this effectively, you will benefit from functioning within a diverse community much like the one you are likely to encounter in the real world of business.

What are the unique features of the Management and International Entrepreneurship curriculum?

If you have considerable work experience, we have a structured program, reviewed by national experts, to assess whether you may earn upper-division credit for prior learning associated with that experience.

We have, and deeply value, a very diverse student body which mirrors the multicultural workplace of the 21st Century.

Believing that students learn best through a combination of thinking and doing, we stress field-based learning in regional, national, and even international businesses and nonprofit organizations.

Collaboration with other majors allows you to concurrently acquire skills in computer or environmental sciences, the arts, or any of a number of other academic fields along with your MIE expertise.

Our graduates’ entrepreneurial and leadership traits, combined with their business skills and knowledge, have enabled them to launch their own businesses or to get high-potential jobs and then to move up in their respective organizations.

What counseling and support services are provided for Management and International Entrepreneurship majors?

Faculty and staff advisors and mentors from the local business community help you craft your academic program and career development strategies. MIE students also take advantage of University-wide services including the Academic Skills Achievement Program (ASAP), Migrant Student Support Services (MSSS), and the Personal Growth and Counseling Center (PGCC).

What must I do in order to graduate with a Management and International Entrepreneurship degree?

Incoming juniors with all prerequisites satisfied should be able to graduate in two years.

Which careers will the Management and International Entrepreneurship major prepare me to pursue?

An MIE degree could launch you toward a successful career as an entrepreneur, corporate executive, venture capitalist, international financier, business leader, nonprofit founder, arts director, or community action organization manager.

Close to 20 percent of MIE graduates have started their own companies. Similar numbers have joined young entrepreneurial companies in information technology or other fast-growing fields. A slightly smaller number have joined nonprofit organizations involved in education, the arts, or other fields. Some have gone on to pursue an MBA. Those remaining are pursuing careers in domestic or international marketing, finance, operations, management, accounting, human resource management, and other fields.
What advantages will the Management and International Entrepreneurship major provide if I decide to go on to graduate study? We generally advise students to work for two to three years before pursuing an MBA, but MIE majors also have gone directly to graduate school and done well there.

Who will guide my learning experiences?

**Fulltime Faculty**
- Colleen Mullery, Ph.D., Director
  Management – strategy – social environment of business
- Babita Gupta, Ph.D.
  Management information systems – decision sciences – computer sciences – computer and telecommunications technology management
- Peter H. Hackbert, Ph.D.
  Marketing – entrepreneurship – management
- Samuel (Sandy) Hale Jr., Ph.D.
  Entrepreneurship – venture capital – international finance – international business – business and public policy
- John Choon K. Kim, Ph.D.
  International business – management – organizational behavior – international trade

**Adjunct Faculty**
- Brad Barbeau, Ph.D.
  Marketing – business and corporate strategy – organization change – leadership
- Eve Connell, M.A.
  Writing and critical thinking
- Charles V. Fishel, J.D.
  Business planning – international finance – venture formation and finance – business law
- Jay A. Foss, M.B.A.
  Finance
  Accounting – venture formation and finance
- Dwight J. Goehring, Ph.D.
  Computer sciences – decision sciences
- Erika Weis McGrath, Ph.D.
  Macroeconomics – microeconomics – business planning – management
- Susan Morse, M.S.
  Writing and critical thinking – migrant education
- Robert Russell, Ph.D.
  Operations management – international business
- Clark Savage, M.S., C.P.A.
  Accounting
- Stephen G. Schmeiser, Ph.D.
  Economics
- Gary Shara, J.D.
  Business law

**Institute Staff**
- Elsa Johnson, B.A.
  Administrative Analyst-Specialist – Advisor

We seek to create an environment within which students can discover where and how they can make a difference in life, whether in business or the nonprofit sector. Most of our graduates can point to truly transforming experiences, usually through a combination of hands-on experience and faculty-assisted reflection and learning based on that experience. It works!

—Dr. Sandy Hale, IMIE FACULTY

Associated Academic Fields

Degree Offered
Bachelor of Arts

Name of Sponsoring Center
Social and Behavioral Sciences Center

Why is this academic field important?
Incredible evolution in technology and knowledge is ushering in the new millennium. It has spawned entirely new social structures and forms of human behavior. In response, it is important that we work to understand each other and ourselves in order to assure the wellbeing of our society and its members. Securing a fruitful future will require perspectives obtained from reflection on the past and insights gained from study of the evolving present.

What is the Social and Behavioral Sciences major all about?
We believe that human behavior and the social institutions framing it can be approached through diverse theories and methodologies from multiple social and behavioral science disciplines. We are committed to understanding contemporary society in its local and national dimensions, as well as its global manifestations. Our curriculum, characterized by a balanced mix of theory and applications, encourages you to explore innovative and alternative solutions to human problems. It prepares you for effective and ethical social intervention and advocacy. You will have many enriching opportunities to interact with community leaders, activists, scholars, and the CSUMB community in a variety of settings including the Annual Social Justice Colloquium, the Alta California Mission Research Project, the Querétaro Project, the Senior Capstone Festival, and the Professional Assessment Labs.

SBS can also prepare you to meet the state-mandated requirements of the single-subject credential track in history and social science. Whether you desire to undertake coursework that addresses the state-mandated fourth-grade teaching emphasis on early California history, particularly regarding California Indians and the Spanish mission system, or you wish to focus on U.S. and California history, political economy, and geography, the SBS curriculum provides one option for addressing the state-mandated requirements.

What will I gain by choosing to major in Social and Behavioral Sciences at CSUMB?
In other universities, the mountain of social and behavioral science is usually conquered by dividing it into disciplines such as political economy, psychology, sociology, anthropology, archaeology, social work, criminal justice, economics, history, geography, political science, and social science education. Rather than offer some of these outcrops as separate majors, we offer all of them and their imaginable combinations as possible specializations within an interdisciplinary whole.

Whether you are unsure of your specific plans or have clear-cut career goals in mind, we provide surefooted tracks to your loftiest objectives. Our core curriculum and each possible specialization present thoughtfully planned learning pathways. Our concerned faculty members act as your guides along the way. The difference between our field-encompassing routes and the traditional treks available at other schools is an important one. At CSUMB your educational climb will branch out into all of the interrelated social and behavioral sciences while still keeping you focused on your chosen career objective. The trip doesn’t take any longer, but you will be much richer for the experience. When you arrive at the peak of graduation, the panoramic perspective gained will pay off. Our recent graduates are proof. They have successfully transferred to top graduate schools and challenging career paths in human services, government, education, and research.
What courses should I take to prepare to major in Social and Behavioral Sciences if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system.

What courses should I take to prepare to major in Social and Behavioral Sciences if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria and include at least two introductory courses in social or behavioral science. We highly recommend introductory courses in statistics and basic computing skills including Internet use. Whether you are an incoming freshman, transfer, or reenrollment student, you should make an appointment to see your school counselor or a CSUMB academic advisor to get the details on admissions eligibility and a CSU application.

What CSUMB courses and requirements should I complete before declaring Social and Behavioral Sciences as my major?

If you are a first-year student, you should complete ProSeminar 100 (with a social science focus) which serves to introduce you to the SBS major and the unique outcomes-based approach to teaching and learning at CSUMB. As a second year student, you should complete SBSC 200 Introduction to SBS (or course equivalent), which is designed to provide an initial introduction to the interdisciplinary nature of the SBS major, and SBSC 201, the online learning community lab. Third year and junior transfer students should enroll in SBSC 308 Professional Assessment Lab I where you will develop an Individualized Learning Plan (ILP) and petition to major in SBS. SBSC 308 should be taken concurrently with SBSC 301 Major ProSeminar and by instructor arrangement, SBSC 302, the online learning community lab for the Major ProSeminar. Majors are also required to complete at least two disciplines-specific core offerings in at least two distinct and different subdisciplinary areas of SBS theory and method in order to meet the basic requirements of the core.

All SBS majors are required to complete the upper division graduation learning outcomes (or GLOs) within the context of course offerings in the SBSC. These include, the ULR/GLO requirements in the upper division areas of service learning, Culture and Equity, and Technology/Information. In addition, SBS offers many other courses meeting the lower division ULRs in Ethics, ENGC, Science Methods, Democratic Participation, Creative/Artistic Expression, Literature/Popular Culture, Culture and Equity, Mathematics Communication, U.S. Histories, and Vibrancy. It should be noted that the Major ProSeminar course (SBSC 301) fulfills the Culture and Equity graduation learning outcome as well.

Exceptions to this requirement must be approved in writing by an SBS faculty advisor. Students are similarly encouraged to complete lower division ULR requirements within the context of the SBS curriculum.

What steps must I take to declare Social and Behavioral Sciences as my major?

Interested first-year and transfer students must petition to major in the Social and Behavioral Sciences. This involves preparing an Individualized Learning Plan (ILP) which includes a tentative course of study and a statement of what you expect to gain from that planned course of study. Until a faculty mentor/advocate has been selected or assigned and an ILP filed with the Center, you are matriculated as a “candidate” for the major rather than as a “major.” The Center has a full-time assessment specialist, a member of the faculty, whose task it is to keep students informed of academic progress toward fulfillment of their respective ILPs.

- First-year students are expected to complete the Freshman ProSeminar which serves to introduce students to the SBS major and the unique outcomes-based approach to teaching and learning at CSUMB.
- Second year students should complete SBSC 200 which provides them with their initial introduction to the interdisciplinary nature of the SBS major.
- Third year, and junior transfer students are each assigned an academic advisor—who SBSC 308—who provides guidance to them as they develop their ILPs. As noted above, the ILP documents the primary learning outcomes that each student intends to achieve, which in turn serves to specify the pathway by which they will achieve competency through specified Major Learning Outcomes (MLOs) and University Learning Requirements (ULRs).

How is the curriculum of the Social and Behavioral Sciences major structured?

CSUMB’s Social and Behavioral Sciences degree program represents the unique blending of theoretical, applied, and critical approaches and methodologies widely pursued in the social and behavioral sciences. The core learning experience is designed around approximately 20 credits of study that are focused on the integrated theory and method of the social and behavioral sciences. The SBS core is taught with many of the lecture sets available by videotape. Readings and lectures focus on the central concepts, themes, methods, and theories shared by the social and behavioral sciences (i.e., culture, personality, ethnography, development, and globalization).

Upon mastery of the core, you may redesign and build upon your Individualized Learning Plan (ILP) to meet educational and professional goals. Graduate school may be such a goal. You may declare an area of competency in one of the subdisciplines—psychology, sociology, anthropology, archaeology, social work, criminal justice, history, social geography, political science, or K-12 education—and incorporate related learning goals and plans into your ILP.

Your ILP defines how MLOs have or will be achieved by pathways (i.e., coursework, field experiences, service learning, or prior learning experiences in the workplace or daily life). Your ILP is essentially a contract for graduation and will be the basis for an ongoing dialog between you and your SBS faculty advisor regarding your successful progress through the major. ILPs are developed in the SBSC 308 and 309 Assessment Labs.
If you are an entering freshman or sophomore student majoring in SBS at CSUMB, you can learn more about the ILP, the petition to major, and the social and behavioral sciences by enrolling in PROS 100 (SBS emphasis) and SBSC 200 Introduction to Social and Behavioral Sciences. Both PROS 100 (SBS emphasis) and SBSC 200 are required of all lower division majors in the social and behavioral sciences. In addition, lower division majors are required to core enroll in SBSC 201 Online Learning Community for Intro to SBS, and to successfully complete lower division introductory course offerings in one or more of any of the major subdisciplines, including, but not limited to, SBSC100 Introduction to Archaeology and Physical Anthropology, SBSC 145 Introduction to Cultural Anthropology, SBSC 105 Introduction to Psychology, and SBSC 120 Introduction to Sociology.

If you are transferring from a junior college or university with 56 credits, of which 12 to 16 credits are within the social and behavioral sciences, you will be considered upper-division and must enroll in the SBS core courses: SBSC 301, SBSC 308, SBSC 309, and at least one of the project-based learning seminars and labs. You should consult the faculty in either the SBSC 301 and or 308/309 courses to discuss which of the project-based seminars and area studies labs are most appropriate for your area of concentration. For additional information on the ILP and SBS, please refer to the SBS and Assessment Component Websites.

What will I learn as a Social and Behavioral Sciences major?

As you complete your SBS degree, you will be guided toward four Major Learning Outcomes (MLOs):

- **SBS MLO 1** Understanding of social and behavioral sciences theory including — understanding of classic and contemporary theories of society, groups, and individuals — ability to apply and interpret integrative theoretical frameworks to explain social phenomena at local and global levels — ability to assess how the primary social and behavioral sciences issues (e.g. human behaviors, community social relations, socioeconomic patterns, local and global interactions, cultural and political dynamics, race, ethnicity, class, gender, and human sexuality) are influenced by geographical and historical processes.

- **SBS MLO 2** Research methodology, information management, retrieval, and analysis competency including — ability to use appropriate quantitative and qualitative data collection and analysis methods — ability to effectively use modern electronic technologies and statistical software to collect, manage, and analyze social, cultural, economic, historical, geographical, political, and psychological data — competence in statistical analysis, cultural resources assessment, evaluation of public economic policies and programs, geospatial data management, social needs assessment, and geographical information systems (GIS).

- **SBS MLO 3** Specialized disciplinary and area studies competency including — preparation for a smooth transition into postgraduate training in schools that may not have an interdisciplinary focus — solid foundation in at least one traditional discipline such as anthropology, archaeology, cultural geography, social history, political economy, social and cross-cultural psychology, or sociology — knowledge of diverse cultures within and outside of the United States.

- **SBS MLO 4** Application of social science principles and practices in real world contexts including — ability to apply knowledge of SBS theories and methods in the assessment of real world problems — application of SBS technical and research skills in real world contexts for the purpose of identifying social issues and solutions — demonstration of problem-solving skills pertaining to issues of immediate local concern or of specific relevance to diverse cultural or underrepresented populations within or beyond the California Central Coast region — ability to identify social and behavioral science tools and applications that meet specific SBS or local community needs — demonstrated ability to identify, use, and apply such tools and applications within the guidelines and ethical standards set by the SBS disciplines.

Which courses should I take to achieve each Social and Behavioral Sciences MLO?

You should enroll in courses that are related to the four MLOs and your area of concentration as outlined in your ILP.

You may opt for alternative assessment of the SBS MLOs by enrolling SBSC 300, SBSC 303, SBSC 304, SBSC 305, and SBSC 306. These offerings permit you to have prior coursework and learning experiences assessed outside the context of the regular SBSC curriculum. This alternative assessment permits you to document and present, in portfolio format, those MLOs achieved outside of the SBSC core curriculum. The SBSC Assessment Specialist, in concert with your main faculty advisor, will evaluate your portfolio and assess the attainment of the four SBSC MLOs. Students whose portfolios and supporting documentation provide evidence of the prior attainment of the MLOs will be given credit for the work and prior study involved.

Are there other ways for me to achieve the Social and Behavioral Sciences MLOs?

Unlike traditional majors that might require only passing grades in a body of units to graduate, as a Social and Behavioral Sciences major you will submit intellectual products that are assessed against the learning outcomes stipulated in your ILP. These products are collected in a major portfolio (hard copy and or multimedia) that is assessed against your ILP requirements. Although the State of California requires that students complete 124 total credit hours of study toward graduation, the SBS Individualized Learning Plan provides more than one pathway or option for addressing this requirement.
What courses does Social and Behavioral Sciences offer?

What will my learning environment be like?

As an SBS major, you will undoubtedly thrive on a young campus that is being built on a foundation of plurality. The cross-cultural faculty, staff, and student populations place you directly into a real-life laboratory rich in social and behavioral phenomena. The surrounding Monterey Bay region also presents a broad geographical blend of cultures and social influences interfacing with each other and the natural phenomena of vast oceans, fertile farmlands, pristine beaches, and forested coastal mountains. On campus, our small interactive classes are conducted in spacious modern facilities featuring leading-edge multimedia, telecommunications, and computer technologies that allow instant access to social and behavioral information from across the globe.

What counseling and support services are provided for Social and Behavioral Sciences majors?

The online SBS Assessment Component provides an integrated set of resources, tools, and services designed to help faculty and students determine the effectiveness of academic practice at CSUMB. It is specifically designed to help you develop and follow your learning plans and pathways based on diagnostic tools and a continued evaluation of the process and outcomes of your participation in the program. Further information is available at the Assessment Component Website.

What must I do in order to graduate with a Social and Behavioral Sciences degree?

An SBS degree and emphasis are earned by way of assessed competencies as evaluated by faculty advisors using SBS assessment procedures, including consideration of transfer credits and the successful completion of the course of study specified in the ILP. The overall program includes completion of both ULRs and SBS MLOs.

To graduate with a degree in Social and Behavioral Sciences, students must:

- Petition to have the ILP reviewed and approved by faculty advisor(s).
- Assess competencies in relationship to the ILP.
- Submit a final assessment portfolio and Capstone Project.

SBS's assessment specialist reviews and directs (in tandem with the student's faculty committee) the final assessment of MLOs and achievement for graduation. Faculty committees consist of faculty members and professionals who have agreed to supervise a student's Capstone Project.

Your portfolio must clearly demonstrate competency in the four MLOs as demonstrated by prior deliverables and a Senior Capstone project. Students with unacceptable graduation portfolios will be required to resubmit their portfolios with the necessary changes or additions as indicated by their committees. In this respect, the SBS program is similar to graduate programs in that the degree is conferred through demonstrated competency and not earned strictly through the completion of academic credits.

What are the unique features of the Social and Behavioral Sciences curriculum?

Our courses incorporate advanced electronic technologies in the form of multiple-user databases, online journals and syllabi, computer conferencing, student-faculty email exchange, and computer-assisted tutorials. One National Science Foundation sponsored class involves ethnographic research in Mexican communities using interactive materials and multimedia simulations. Another course, which is taught entirely online, utilizes the latest Web-based technology and geographic information systems tools to focus on the cultural and environmental aspects of geography at global, regional, and local levels.

Our professional assessment laboratories will help you prepare and update your portfolio, Individualized Learning Plan, Capstone proposal, petition to major, and petition to graduate. In these laboratories, you will learn how to write papers, give oral reports, use electronic technologies, and obtain information on careers, graduate programs, professional schools, grants, and fellowships.

Through a research-based Senior Capstone project, you will synthesize your learning and focus within a traditional discipline, subdiscipline, area study, or cultural study. You will also have the opportunity to complement your project with community service learning, internships, and field studies that may include travel to other countries.

Our disciplinary area studies courses focus on cultures both past and present, cultural behaviors, and the global linkages between nations, communities, and societies. For example, an international exchange and field-research training program with the University of Queretaro, Mexico, is conducted each summer.

We work with local, state, federal, and global organizations to provide project-based service learning opportunities. As an example, our innovative San Juan Bautista Mission project brings students, scholars, volunteers, and minimum-security trustees together in a nationally praised archaeological undertaking and historic preservation program.

Our online assessment component provides an integrated set of resources, tools, and services designed to help students and faculty determine the effectiveness of academic practices at CSUMB.
Which careers will the Social and Behavioral Sciences major prepare me to pursue?

A Social and Behavioral Sciences degree could launch you toward a successful career as a sociologist, school counselor, anthropologist, psychologist, archaeologist, geographer, historian, archivist, social worker, political analyst, economist, criminologist, children’s rights advocate, public servant, charitable organization employee, international entrepreneur, journalist, lawyer, urban activist, civic policy maker, teacher, public health official, cultural resources manager, or community development advisor.

What advantages will the Social and Behavioral Sciences major provide if I decide to go on to graduate study?

SBS majors are prepared for graduate school training in the traditional subdisciplines of the social and behavioral sciences. Some graduates have gone on to schools of social welfare, counseling and psychology programs, and combined programs in communications and the social sciences. Still others have chosen more traditional paths in graduate programs of sociology and anthropology. SBS students have reported the unique advantages of the interdisciplinary approach found in the Center particularly as this pertains to graduate-level and other advanced studies in the social and behavioral sciences.

Who will guide my learning experiences?

**Fulltime Faculty**

- **Armando A. Arias, Jr., Ph.D., Dean**
  Social psychology ~ global networking ~ social design engineering ~ virtual learning and research
- **George Baldwin, Ph.D.**
  Sociology ~ psychology ~ manpower economics ~ social psychology of online behavior ~ contemporary American Indian affairs ~ research methodology
- **Manuel Carlos, Ph.D.**
  Chicanos and Latinos in California ~ cultural anthropology ~ contemporary Mexican society and culture ~ social sciences theory and methods ~ globalization and local communities ~ ethnographic field methods ~ multimedia applications in anthropology
- **Yong Lao, Ph.D.**
  Geographic Information Systems (GIS) ~ cultural geography ~ geography of Asia ~ spatial modeling and analysis
- **Ruben G. Mendoza, Ph.D.**
  Archaeology ~ ethnohistory ~ multimedia and distributed learning ~ museum anthropology ~ Hispanic and Native American culture and technology ~ Mesoamerican and African civilizations ~ photography and technical imaging ~ service learning
- **Gerald Shenk, Ph.D.**
  Social history ~ African American history ~ Chicano history ~ immigration ~ California ~ war and American society ~ American political institutions ~ race, ethnicity, class, gender, and sexuality
- **Angie Ngoc Tran, Ph.D.**
  Comparative political economy ~ socioeconomics and politics of Asian Pacific Rim and Socialist countries ~ Vietnamese political economy ~ research methodology ~ global-local worker and gender issues

**Adjunct Faculty**

- **Juan J. Gutierrez, Ph.D.**
  Mexican studies ~ cultural anthropology ~ rural development ~ immigration ~ qualitative methods for data collection and analysis ~ curriculum development ~ Web-based teaching and assessment
- **Ann DeJesus Riley, M.A.**
  U.S. history ~ history of California ~ ethnic history ~ social history ~ Latin American history ~ liberation theology and the church/state conflict
- **David Yamada, Ph.D.**
  Political science ~ American politics, Congress, presidency, constitutional law, foreign policy ~ Asian politics, Japan and China, Japanese American studies, political theory, and methodology

**Institute Staff**

- **Lilly Martinez**
  Administrative Analyst/Specialist
- **Myisha Washington**
  Administrative Support Coordinator

The social and behavioral sciences all share a common body of theory and method. This is so obvious that it is highly controversial!

—Dr. George Baldwin, CSUMB faculty
You will not only learn how to use the latest tech tools; you will learn how to build them. We build this marriage on the firm grounds of ethical development, collaborative problem solving, effective communication, community service, and entrepreneurial activity. The strength of our marriage is proven by the success of our graduates who are now pursuing careers in high technology and creative media.

What courses should I take to prepare to major in TMAC if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also recommend that you take as much math as possible and whatever computer classes are available at your school.

What courses should I take to prepare to major in TMAC if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. We also recommend that you take as much math as possible including discrete math and calculus, especially if you are considering the technical specialization. Finally, experience with a programming language, with networks, and with media tools would be helpful to fulfill prerequisites for upper division courses.
What CSUMB courses and requirements should I complete before declaring TMAC as my major?

If you intend to be a TMAC major, you should begin to take classes in the major while you are pursuing your General Education classes. To choose the appropriate classes, seek advice from our peer advising center or faculty who advise in the major.

What steps must I take to declare Telecommunications, Multimedia, and Applied Computing as my major?

When you register for CST 300, the Major ProSeminar, you are automatically declared a TMAC major. Prior to that time, you are urged to discuss your curriculum plans with a TMAC faculty advisor or one of the TMAC peer advisors.

How is the curriculum of the Telecommunications, Multimedia, and Applied Computing major structured?

Initially, you will complete a core curriculum that enables you to achieve the core MLOs. You will then choose a specialization—design, technology, or a combination of the two. If you specialize in design, you will focus on planning and management of design projects, interactive media, communication through a variety of both electronic and paper delivery systems, instructional technology principles, and aesthetics and design principles. If you specialize in technology, you will focus on programming, software design, operating systems, networks and telecommunications, applied mathematics, graphics and imaging, and databases.

What will I learn as a Telecommunications, Multimedia, and Applied Computing major?

TMAC majors are expected to achieve a number of Major Learning Outcomes (MLOs) that fall into four groups:

- Core outcomes (required of all graduates)
- Design outcomes (required of those graduates choosing the design specialization)
- Technology outcomes (required of those graduates choosing the technology specialization)
- Advanced outcomes (required of all graduates, primarily as part of the Capstone courses)

If you wish to integrate both technology and design in your specialization, then you must submit a written Individualized Learning Plan (ILP) incorporating MLOs from both specializations to a faculty advisor for approval.

Core MLOs

The core MLOs required for all students in the TMAC major are:

- **TMAC MLO C1** Knowledge of computers including – knowledge of how a computer represents and transmits information, its parts and peripherals, and how they are organized and interfaced – ability to install and run applications and to manage and navigate files on a variety of platforms and operating systems

Technology MLOs

The technology MLOs for students in the technology specialization of the TMAC major are:

- **TMAC MLO T1** Programming skills including – understanding of the theory and practice of key programming principles that are common to many programming languages

Design MLOs

The design MLOs required for students in the design specialization of the TMAC major are:

- **TMAC MLO D1** Competency in planning and management of design projects including – knowledge and application of project planning techniques such as critical path, resource management, budget, and use of project management tools in the development of multimedia and instructional design projects

- **TMAC MLO D2** Ability to apply principles of interactive media design to the production of projects combining digital audio, video, and imagery

- **TMAC MLO D3** Ability to produce projects using a variety of delivery systems for communication including desktop video, print, web, video teleconferencing, and multimedia

- **TMAC MLO D4** Understanding of instructional technology principles including – development of plans for training and instruction – application of instructional system design and development principles to human performance problems – evaluation and assessment of instruction – understanding of organizational behavior and psychological principles

- **TMAC MLO D5** Understanding of aesthetics and design principles including – demonstrated understanding of aesthetics through the creation of digital graphic work that employs aesthetic and design principles – understanding of design principles including form versus function, composition, balance and color theory

- **TMAC MLO C2** Design skills including – ability to use computer-based tools to demonstrate knowledge of design principles in conceiving, planning, and communicating the solutions for multimedia and instructional technology problems – ability to manipulate digital images, sound, motion, text, and interactions

- **TMAC MLO C3** Programming skills including – solid grounding in the concepts and practice of programming as displayed by competency in at least one programming language, such as C++

- **TMAC MLO C4** Telecommunications skills including – broad user-level understanding of all aspects of computer communications including analog and digital systems; switched and packet technologies; synchronous and asynchronous communications; wired and wireless systems; data-voice-video systems; examples of local networks, including the home, and wide area network technologies; and connectivity standards – understanding of the cultural, social, ethical, and economic impact of telecommunications

- **TMAC MLO C5** Mathematics skills including – fundamental understanding of at least two mathematical areas selected from probability and statistics, logic, calculus, discrete math, linear algebra, and combinatorics – ability to apply mathematical understanding to the solution of problems in a chosen area

- **TMAC MLO C6** Social and ethical dimensions including – understanding of current and future technology and its economic, social, cultural, and ethical impacts

TMAC MLO T2  Software design capabilities including – ability to analyze a problem and select the most appropriate
data structure to represent the solution – ability to construct and
implement an algorithm or set of algorithms which solves a
problem and analyze the efficiency of those algorithms – abili-
ty to describe the different System Lifecycle models and, given
an application, explain which model would be appropriate for
that application

TMAC MLO T3  Understanding of operating systems includ-
ing – ability to describe the basic components of an operating
system – ability to compare and contrast data storage hierarchy,
memory management, processor allocation strategies, and user
interface across at least 3 different operating systems – demon-
strated skill in analyzing a specific problem likely to occur in a
component of an operating system (e.g. file structures, back-
ground processes, shell programming) and creating an appropri-
ate program – ability to generate and test file system queries

TMAC MLO T4  Understanding of principles of telecommu-
nications including – understanding of basic physical and soft-
ware principles common to data and voice communications
such as modulation types, media types, packet vs. circuit
switched, in-band vs. out-of-band signaling, digital vs. analog,
the OSI model – completion of basic experiments in connect-
ing a computer via modem, as well as creating an Ethernet
network and determining its condition – demonstrated knowl-
edge of the differences between key network technologies such
as ATM, ISDN, Ethernet, and others – ability to describe, con-
trast, and compare different network solutions appropriate for a
range of practical problems

TMAC MLO T5  Mathematics skills including – fundamental
understanding of at least two mathematical areas selected from
probability and statistics, logic, calculus, discrete math, linear
algebra, and combinatorics – ability to apply mathematical
understanding to the solution of problems in a chosen area

TMAC MLO T6  Interface capabilities such as – graphics
and imaging skills – sensing and control skills

TMAC MLO T7  Computing capabilities such as – Internet
programming skills – database skills – embedded program-
ning skills – compiler and language skills

TMAC MLO T8  Networking capabilities such as –
advanced networking skills – understanding of communications
standards and industry – networking management skills –
understanding of network protocols for multimedia

TMAC MLO T9  Understanding and ability to apply
advanced mathematical concepts in areas related to TMAC,
some of which are linear algebra, statistics and probability,
and differential equations

TMAC MLO T10  Ability to develop, administer, and evalu-
ate information systems, and to describe the impact of an in-
formation system to users, organization, and society

Advanced MLOs
The advanced MLOs required for all students completing the
TMAC major are:

· TMAC MLO A1  Completion of a Senior Capstone project
· TMAC MLO A2  Professional writing skills
· TMAC MLO A3  Professional oral presentation skills
· TMAC MLO A4  Project management skills
· TMAC MLO A5  Service learning
· TMAC MLO A6  Collaboration skills

Which courses should I take to achieve each Telecommunications, Multimedia,
and Applied Computing MLO?

Core MLOs
Courses which fulfill the Core MLOs required for all students com-
pleting the TMAC major are:

· TMAC MLO C1  CST 337 Computing Architectures and
  Environments
· TMAC MLO C2  CST 201 Media Tools
· TMAC MLO C3  CST 231 Problem Solving and
  Programming, or CST 232 MS Visual Basic Programming
· TMAC MLO C4  CST 310 Telecommunications and Society
· TMAC MLO C5  Complete two of the following five areas:
  1. Logic—MATH 170
  2. Combinatorics—MATH 170
  3. Statistics—STAT 200 or STAT 250
  4. Linear Algebra—MATH 260
  5. Calculus—Math 150 and 151
· TMAC MLO C6  CST 373 Ethics in Computers and
  Technology, or CST 371 Current Issues in Communications
  and Technology

Design Emphasis MLOs
Examples of classes that could apply to each design major learning
outcome are:

· TMAC MLO D1  CST 308 Management and Design
· TMAC MLO D2 and D3  Complete one course from the
  intermediate level (CST 304 Publication Design, CST 321
  Multimedia I, CST 324 Multimedia Integration, CST 351 Web
  Design) and one course from the practicum level (CST 404
  Publication Workshop, CST 422 Multimedia II, CST 424
  Multimedia Workshop, CST 442 Advanced Instructional
  Design, CST 451 Web Production)
· TMAC MLO D4  CST 341 Instructional Design; CST 442
  Advanced Instructional Design
· TMAC MLO D5  CST 328 Digital Art and Design

Technology Emphasis MLOs
Complete MLO T1 and five additional courses from at least two
additional MLOs chosen from T2, T4, and T6 through T10.

Examples of classes that could apply to each technology major
learning outcome are:

· TMAC MLO T1  CST 231 Problem Solving Programming
· TMAC MLO T2  CST 338 Software Design Issues
· TMAC MLO T3  CST 337 Computing Architecture &
  Environment, Satisfied through TMAC MLO C1
· TMAC MLO T4  CST 311 Principles of Telecommunications
· TMAC MLO T5  Satisfied through TMAC MLO C5
· TMAC MLO T6  CST 331 Computer Graphics; CST 332
  Computer Imaging
· TMAC MLO T7  CST 336 Internet Programming; CST 436
  Advanced Internet Programming; MIE 363 DB Management:
  Methods & Applications
· TMAC MLO T8  CST 312 Telecommunication Standards;
  CST 313 Telecom Management; CST 334 UNIX X Windows;
  CST 482 Study at Sea Global Communications
· TMAC MLO T9  MATH 330 Linear Algebra & Applications;
  MATH 320 Probability and Statistics; MATH 340 Differential
  Equations
Advanced MLOs
The advanced MLO courses required for all students completing the TMAC major are:
- **TMAC MLO A1** CST 400, 401 Senior Capstone & Lab
- **TMAC MLO A2** CST 400, 401 Senior Capstone & Lab
- **TMAC MLO A3** CST 400, 401 Senior Capstone & Lab
- **TMAC MLO A4** CST 400, 401 Senior Capstone & Lab
- **TMAC MLO A5** CST 3615 Technology Tutors; CST 3625 Technology and Communities
- **TMAC MLO A6** CST 400, 401 Senior Capstone & Lab

Are there other ways for me to achieve the Telecommunications, Multimedia, and Applied Computing MLOs?
Advancement through the TMAC degree program is measured by completion of MLOs rather than traditional transcript analysis. There are a number of courses, taken individually and in combination, which provide opportunities for students to develop the skills and concepts necessary to achieve the MLOs. There is not always a one-to-one correspondence between learning experiences and outcomes, though, so the paths students will take to fulfill their outcomes will differ depending on their ILPs, career goals, and specializations. In addition to courses, MLOs may be achieved through:
- Completion of formal learning experiences
- Prior experiences captured in an outcomes portfolio for faculty evaluation according to set standards

What courses does TMAC offer?
Recent courses offered have included: Technology Tools; The Internet; Media Tools; Problem Solving and Programming; Computers in Schools; Publication Design; Telecommunications Management; Introduction to Telecommunications; Telecommunications and Society; Management and Design; Telecommunications Standards; Multimedia Integration; Digital Art and Design; Computer Imaging; UNIX and X Windows; Advanced UNIX Systems Administration; Computer Graphics; Internet Programming; Computing Architectures and Environments; Software Design; Introduction to Instructional Design; Technology in the Classroom for Trainers and Educators; Web Design; Current Issues in Communications and Technology; Technology and Communities; Database Management: Methods and Applications; Electronic Commerce Design and Development; E-Commerce: Business Models and Strategies; and Signal Processing and Applications.

What are the unique features of the Telecommunications, Multimedia, and Applied Computing curriculum?
The **Major ProSeminar** will give you an integrated view of the TMAC major and familiarize you with its requirements. With faculty guidance to help you clarify your talents and interests and see how they relate to the fields, you will identify and articulate personal, professional, and social goals and develop an Individualized Learning Plan. Meanwhile, you will use technology to explore communication skills in the workplace and start career planning.

You will follow an **Individualized Learning Plan (ILP)** developed in the ProSeminar. It will outline the course modules, collaborative projects, fieldwork, seminars, and independent work that will be included as you prepare for your Senior Capstone project. You will be responsible for documenting your completion of the ILP through presentation of a portfolio.

Your **Senior Capstone** will involve you in a year-long sequence of learning experiences that results in a creative design or technology project that showcases an achievement of professional level work in your area of specialization.

What will my learning environment be like?
Our campus location—an hour from Silicon Valley, the greatest concentration of hardware and software producers in the world, and two hours from San Francisco, home to a great number of creative designers and content developers—is a huge asset. On campus, our students enjoy small classes conducted in spacious, cutting-edge facilities. A young university established in 1994, CSUMB has been wired for the 21st century since inception. Additionally, we have established working relationships with a number of trendsetting companies such as Silicon Graphics, Sun Microsystems, Apple, and Cisco Systems. These companies provide us with the latest in hardware and software and advise us as our dynamic program evolves. They also provide internship and employment opportunities for our students.

What counseling and support services are provided for Telecommunications, Multimedia, and Applied Computing majors?
There is a peer advising program that will be helpful with studying and working toward your goals. Faculty advising is also available to assist students in reaching their academic goals in a timely manner.

What must I do in order to graduate with a TMAC degree?
Graduation is based on the demonstration of competence in the outcomes for the core, technology or design specialization, and advanced MLOs. Documentation of the ILP in the form of a portfolio of student work is the last step necessary to graduate; this documents the successful completion of the individualized work plan.

Which careers will the Telecommunications, Multimedia, and Applied Computing major prepare me to pursue?
A TMAC degree could launch you toward a successful career as a computer programmer, telecommunications manager, software developer, network analyst, systems architect, multimedia specialist, media developer, instructional designer, web-based designer, webmaster, or high tech entrepreneur. You could also pursue a career in e-commerce.
### Adjunct Faculty
- Adrian Andrade, B.A.
  - Computer literacy
- Kathleen Dorsey, M.A.
  - Computer literacy
- Jerry Giannoni, M.A.
  - Computer literacy
- Carolee Kahn, M.S.
  - Computer literacy
- Kevin Cahill, M.A.
  - Creative design ~ design management
- Arlene Krebs, M.A.
  - Distance learning/e-learning ~ new media and communications technology ~ grant writing and fundraising
- Jennifer Lagier, M.A.
  - Internet literacy ~ Web design
- Don Livermore, M.A.
  - Computer literacy
- Hal Millan, M.S.
  - Telecommunications ~ Cisco networking
- Caroline Mountford, B.S.
  - Design ~ instructional design ~ multimedia and web
- Marc Oehlman, B.A.
  - Computer literacy ~ ASAP technology coordinator
- Geri Philley, M.S.
  - Multimedia ~ technology tutors
- Steve Rubin, M.B.A.
  - Computer literacy
- Carolyn Sabin, M.A.
  - Instructional technology ~ multimedia
- George Station, B.S.
  - Computer literacy
- Rosalie Strong, Ph.D.
  - Computer literacy ~ freshman ProSeminar
- Charlie Wallace, B.A.
  - Multimedia ~ nonlinear editing ~ flash ~ motion graphics
- Ken Wanderman, M.S.
  - Computer literacy ~ multimedia
- Pat Watson, M.A.
  - Creative design ~ computer graphics
- Mike Yee, M.A.
  - Telecommunications and information management

---

**Who will guide my learning experiences?**

### Fulltime Faculty
- **Eric Yihching Tao, Ph.D., Director**
  - Electronic commerce ~ image processing ~ database ~ software engineering
- **John Ittelson, Ph.D.**
  - Multimedia ~ telecommunications ~ instructional design
- **Doug Macintire, Ph.D.**
  - Graphics programming ~ scientific visualization ~ UNIX/Linux systems administration ~ data networks ~ parallel computers
- **R. William Maule, Ph.D.**
  - Information technology ~ multimedia ~ telecommunications ~ human-computer interaction ~ systems analysis and design
- **Marsha Moroh, Ph.D.** (currently serving as Center Dean)
  - Applied computing ~ computer literacy ~ discrete mathematics ~ service learning
- **James May, Ph.D.**
  - Internet ~ computer literacy ~ telecommunications
- **Robert P. van Spyk, Ph.D.**
  - Telecommunications ~ multimedia ~ geographic information systems (GIS) ~ business computers ~ management information systems

---

**Adjunct Faculty**

The CST faculty has designed an integrated and collaborative curriculum, which prepares students to be future leaders in the fields of telecommunications, multimedia, and computing. Students work with faculty to assemble a portfolio of learning experiences that bridge traditional technology disciplines. Students combine this technological knowledge with design, communication, and management skills in the development of customized university experiences pertinent to their career interests and ambitions and to the needs of a global, multicultural society.

—Dr. Eric Y. Tao, Institute Director
Teledramatic Arts and Technology (TAT)

Making Contact
- Location: Teledramatic Arts and Technology - Building 27
- Information: 831-582-3750
- Fax: 831-582-3884
- Email: tat@monterey.edu
- Website: http://tat.monterey.edu

Associated Academic Fields
- Theater Production ~ Filmmaking ~ Video/Television Production ~ Radio/Audio Production ~ New Media Production (multimedia production, webcasting, CD-ROM production, DVD authoring, computer animation, and related cyber-technologies)

Degree Offered
- Bachelor of Arts

Name of Sponsoring Institute
- Institute for Teledramatic Arts and Technology

Name of Sponsoring Center
- Science, Technology, and Information Resources Center

Why is this academic field important?
The evolution of entertainment in the 20th century took us from stage to screen, from black and white to color, from AM to FM, and from mono to Dolby surround sound. Our 21st century promises dramatic new revolutions in worldwide communication, artistic expression, and creative storytelling that will enhance the way we, as a global society, connect with one another. Dramatic content will be at the heart, creative human performance will provide the soul, and technology will be the body. The Institute for Teledramatic Arts and Technology is a place that explores these new possibilities.

What is the Teledramatic Arts and Technology major all about?
TAT is an innovative undergraduate program offering integrated, multidisciplinary study of theater production, filmmaking, video/television production, radio/audio production and new media production (multimedia production, webcasting, CD-ROM production, DVD authoring, computer animation, and related cyber-technologies). The term “teledramatic” conceptually embraces our unique blend of the creative and technical skills essential for the development, transmission, and distribution of artistic work across the widest spectrum of storytelling mediums.

Why major in Teledramatic Arts and Technology at CSUMB?
At the root of TAT’s work is learning how to tell good stories. We offer comprehensive content-based instruction in the essential components of storytelling and merge those skills with the exciting array of today’s digital age technologies. While exploring the expanding possibilities of story creation and dissemination made possible through the fusion of old and new 21st century tools, we’ll prepare you for today’s widening opportunities in the professional fields of art and entertainment, media convergence, and global communication.

Your learning will be experiential and project-based. You will work alongside practicing professionals who will expose you to real-world realities of writing, directing, acting, filming, videotaping, broadcasting, editing, producing, and transmitting created artistic work over a variety of distribution outlets.

TAT seeks bright, self-motivated people—creators, producers, and doers—with the initiative and drive to make both careers and satisfying creative lives in our brave new digital world. If you’ve got something to say to the world that matters and you see yourself as a writer, director, actor, producer, cinematographer, editor, moviemaker, technician, broadcaster, multimedia storyteller, or storytelling innovator, we’ve created a place for you. TAT strives to nurture a socially conscious, artistically expressive, diverse, and ethical vision of humanity, fortified by our commitment to community involvement, global sophistication, and a responsible entrepreneurial spirit.
What courses should I take to prepare to major in Teledramatic Arts and Technology if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also recommend that you take any available introductory courses in theater, film, video/TV, radio broadcasting, web development, creative writing, multimedia production, and computer graphic design. In addition to coursework, participation in any of these activities will be highly beneficial.

What courses should I take to prepare to major in Teledramatic Arts and Technology if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective TAT major, we recommend that you include any available courses in acting, directing, stage production, video/TV and film production, radio broadcasting, drama or film appreciation, creative writing, computer-based editing, graphics, multimedia production, and midi/music.

What CSUMB courses and requirements should I complete before declaring Teledramatic Arts and Technology as my major?

First-year students who are interested in the TAT major should complete the prescribed University Learning Requirements (ULRs).

What steps must I take to declare Teledramatic Arts and Technology as my major?

Students must first consult with a major advisor from TAT. After approval and a signature is secured from that advisor, the student must then fill out the appropriate forms from the CSUMB Office of Admissions and Records.

How is the curriculum of the Teledramatic Arts and Technology major structured?

The curriculum and courses are designed around five phases of production which are necessary to present a live dramatic event: produce a radio or television broadcast; videotape and screen a program; shoot, edit and distribute a film; design and transmit a cyberspace production; or create a CD-ROM product. These phases are: 1) research and development, 2) preproduction, 3) production, 4) postproduction, and 5) distribution. Scheduled courses, applicable and quantifiable life and professional experiences, directed study, practicums, projects, internships and apprenticeships, and special research topics are all learning experiences considered part of the curriculum designed to help you master TAT’s Major Learning Outcomes [see below]. TAT’s broad-based and multidisciplinary education allows you to select a track or emphasis at the beginning of your junior year such as the following: writing, directing, performing, filming, editing, broadcasting, producing, and teaching.

TAT challenges you to develop meaningful stories drawn from your world, then create and produce vibrant works using teledramatic technologies. TAT courses teach you to use the multidisciplinary platforms of theater, film, video/television, radio/audio, and new media as they interlink and converge in our new digital millennium. TAT’s goal is to graduate critical thinkers, cogent storytellers, content developers, educated risk takers, proficient technicians, and savvy producers of cultural work—with an emphasis on craft and a variety of skills in multiple formats and mediums—that will define their generation.

What will I learn as a Teledramatic Arts and Technology major?

As you complete your TAT degree, you will be guided toward achievement of five Major Learning Outcomes (MLOs):

- **TAT MLO 1 Research and Development**
  Students acquire basic skills in, as well as gain basic knowledge and understanding of ~ storytelling, writing, and communication ~ critical and analytical thinking ~ the history, theories, aesthetics, practices, and past applications of various storytelling disciplines ~ visual, audio, and writing literacy ~ the values and ethics of teledramatic industries ~ tools of the teledramatic field ~ the impact of teledramatic disciplines in our world.

- **TAT MLO 2 Preproduction**
  Students practice and gain competency in ~ developing content through such processes as proposal writing, story treatments, storyboarding, and script writing ~ organizing and planning such production details as budgets, financing strategies, production schedules, technical specs, rehearsal plans, marketing and distribution plans, and crew lists.

- **TAT MLO 3 Production**
  Students produce and/or perform in created productions. Activities may include ~ filming or taping a script ~ writing, designing, and producing a live theatrical production ~ broadcasting a radio/audio production ~ producing a multimedia production ~ creating a new media work.

- **TAT MLO 4 Postproduction**
  Students refine their created work, which can include ~ editing ~ evaluation of the effectiveness of the created work ~ continued preparation for comprehensive distribution or publication of the created work ~ creating a reflective journal of one’s experiences.

- **TAT MLO 5 Distribution**
  Students connect created works with a larger, broader audience via publishing, broadcasting, Internet streaming, documentation, screening, and other distribution channels. Critical analysis and evaluation of the overall project experience also takes place.
Which courses should I take to achieve each Teledramatic Arts and Technology MLO?

In a class called the Major ProSeminar, you will receive assistance in planning an Individualized Learning Plan (ILP) that will guide you throughout your time with TAT. TAT utilizes outcomes-based and project-based education to foster mastery of MLOs. There are specific learning outcomes expected from courses. The Major ProSeminar class will help you understand and properly use them so that you can design and plan your education according to your needs.

Are there other ways for me to achieve the Teledramatic Arts and Technology MLOs?

“Assessment” tests your knowledge, skills, and prior experience and learning for the purpose of exempting you from normally required classes. A variety of methods are used to assess work in progress, past accomplishments, independent creative endeavors, coursework, and professional and life experience. These include:

- Written testing for competency and understanding
- Oral examination and interview by TAT faculty, special committee, or panel
- Course-based assessment
- Committee review of completed projects and portfolio work in the field of study
- Verification and evaluation of past record of achievements
- Portfolio presentation and committee review by faculty, other students, and professionals in the student’s selected field of focus
- Internships in teledramatic projects produced by TAT

What courses does Teledramatic Arts and Technology offer?

Recent courses TAT has offered include: Film Production; Theater Production - Acting, Technical Theater, and Producing; Introduction to Radio Programming and Internet Streaming; Video/Television Production; Directing for the Camera; Fundamentals of Video and Film Editing; Advanced Non-Linear Editing; Script Writing; Ethical Issues in Teledramatic Industries; Teledramatic Arts and Technology for Teachers; Introduction to Teledramatic Arts; World Film History; World Theater History; The Actor’s Process for Stage and the Camera; TeleDramatic Arts and Technology in the Community; and TAT Creative Lab.

What are the unique features of the Teledramatic Arts and Technology curriculum?

Creative partnerships enhance TAT’s entrepreneurial links and multiply the possibilities for creative filmmaking, radio and television programming, theater productions, film exhibitions, and new media productions.

The Major ProSeminar class will guide you in completing an Individualized Learning Plan (ILP). It will acquaint you with the theories, values, and models relevant to the TAT major and the careers possible in various teledramatic fields.

What will my learning environment be like?

You will be trained on state-of-the-art electronic and digital equipment housed in our production facilities. These include five Avid nonlinear editing suites (Xpress, Film Composer 4000, and Media Composer 1000), a Sony Select Digital Linear Editing System, a digital Beta System, 16mm cameras, and Betacam-SP equipment. TAT operates a television studio and utilizes CSUMB’s 457-seat World Theater. We regularly stream content over the Internet and on our on-campus television cable channel. All of our facilities are fiberoptic and microwave linked. We also possess satellite uplink capabilities. Many of our classes are held in “smart classrooms” with multimedia, computer, and satellite links.

What counseling and support services are provided for Teledramatic Arts and Technology majors?

Each student is assigned an advisor once the TAT major is declared. Consultation, mentoring, and support services by TAT faculty and staff are also available.

What must I do in order to graduate with a Teledramatic Arts and Technology degree?

You must complete your course curriculum established in your advisor approved and signed Individualized Learning Plan (ILP), successfully complete a Senior Capstone Project, and demonstrate your understanding, knowledge, and experience in TAT’s Major Learning Outcomes (MLOs).

Which careers will the Teledramatic Arts and Technology major prepare me to pursue?

Depending on individual focus, the TAT major can prepare you for graduate study or careers in movie and television production, acting, directing, script writing, cinematography, editing, videography, radio broadcasting, webcasting, multimedia, education, and other teledramatic industries.
What advantages will the Teledramatic Arts and Technology major provide if I decide to go on to graduate study?

A degree in Teledramatic Arts and Technology will provide you with a foundation of skills and experience in various teledramatic disciplines that can be deepened and expanded through graduate study.

Who will guide my learning experiences?

Fulltime Faculty

- Benny Sato Ambush, M.F.A., TAT Institute Director
  Producer – stage director – arts administrator – educator –
  professional consultant
- John C. Ittelson, Ph.D.
  Multimedia producer – instructor of management and design,
  distance online learning, and advanced technology
- Caitlin Manning, M.F.A.
  Award-winning filmmaker and cinematographer – instructor of
  film and video production, theory, and history
- Luis Valdez, H.D.A., TAT Founding Director
  Filmmaker – playwright – director – teledramatic artist – script
  writer – producer

Adjunct Faculty

- Marilyn Abad-Cardinalli, M.A.
  Director – playwright – video producer – teledramatic artist
- Sarah Albertson, M.F.A.
  Stage director – actor – producer – writer – film director and
  producer – instructor of acting and world theater history
- Joe Cardinalli, M.A.
  Stage producer – scenic designer – technical director –
  production and graphic designer
- Karen Davis, M.F.A.
  Cinema and video producer – writer – director – film historian
- Shannon Edwards, M.F.A.
  Instructor of expressive arts, ethics, storytelling, and TAT for
  teachers – stage director
- Phil Esparza III
  World Theater operations manager – producer –
  teledramatic artist
- Tom Humphrey, M.F.A.
  Stage director – producer – educator
- Steven Levinson, M.A.
  Instructor of video/television and radio/audio production,
  computer graphics, and nonlinear editing
- Reine-Claire Morrison, M.A.
  Film editor – filmmaker
- Jon Selover, M.F.A.
  Stage director – producer – acting instructor
- Jon Silver
  Videographer – documentary producer and director –
  media consultant

Staff

- Chris Carpenter
  Media Production Specialist – executive producer – television
  operations manager – broadcast editor
- Cherie Visosky, B.B.A.
  Administrative Analyst/Specialist

The impulse to tell stories is primal, universal, and ever-present in the social engagements of humankind. As much an art as it is a gesture for sharing and creating community, storytelling transmits culture, history, ideas, myths, dreams, and a sense of

—BENNY SATO AMBUSH, INSTITUTE DIRECTOR

**Degree Offered**
- Bachelor of Arts

**Name of Sponsoring Institute**
- Institute for Visual and Public Art

**Name of Sponsoring Center**
- Arts, Human Communication, and Creative Technologies Center (AHCCT)

**Why is this academic field important?**

As we enter the 21st century, the changing world challenges us to see ourselves in a diverse society where art is an expressive form more open to the needs of communities. Artists need to become flexible practitioners who can think, research, organize, and produce work that transforms people and places. The power of art lies in artists connecting themselves in reciprocal relationships with their publics, able to create a more humane life relevant to their time.

**What is the Visual and Public Art major all about?**

Our VPA major is the only one of its kind in California. It presents a new model for preparing artists. We believe that making art is a significant social act. As an artist, you must be prepared to tackle critical questions of self-expression, artsanship, identity, community, values, politics, and meaning. Who is an artist? Why make art? What is the role of the artist in the community? How does art communicate, and to whom?

The mission of VPA is to prepare you to be an arts practitioner with a set of skills and values that will make you an active and responsible participant in society. To assure that the curriculum is geared to your individual interests, you will have the opportunity to select among four areas of concentration:
- Large Scale Painting/Murals
- Large Scale Sculpture and Installation
- Replicative Media (in progress)
- Arts Education (in progress)

**What will I gain by choosing to major in Visual and Public Art at CSUMB?**

Recognizing that visual art is the expression of your experiences and the world that surrounds you, our program seeks to broaden your perspectives and nurture your talents. We will engage you in self-learning and expression, ethical interaction with your audiences, and contextual understanding of the meaning of visual art. You will draw, paint, and use new genre within the framework of courses in contemporary cultural theory and criticism.

Our program addresses the complex issues of working in public space creating murals, sculptures, installations, book arts, painted and electronic billboards, light sculptures, large-scale digital and cyber art, time-based work, performance and environmental art, and public ceremonial works. You will be encouraged to explore the vast array of available media from the tradition of paints to the precision of pixels.

**What courses should I take to prepare to major in Visual and Public Art if I will be entering CSUMB as a freshman?**

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also suggest that you include classes in drawing, painting, art history, and research.
What courses should I take to prepare to major in Visual and Public Art if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective VPA major, we recommend that you include basic drawing, painting or sculpture, art history, and research.

What CSUMB courses and requirements should I complete before declaring Visual and Public Art as my major?

Prior to entering the VPA major, you should complete your Creative and Artistic Expression ULR and Technology Information ULR. You should also take a beginning drawing, 2-D, or 3-D course.

What steps must I take to declare Visual and Public Art as my major?

You may informally petition to enter the major by meeting with an advisor, presenting a portfolio, and developing an Individualized Learning Plan based on the MLOs and specialization. Formal petition to the major may occur after the completion of the Major ProSeminar and the presentation of your Individualized Learning Plan. You should anticipate that at least 50 percent of your coursework must be upper division to fulfill competencies with the appropriate level of artistic maturity.

How is the curriculum of the Visual and Public Art major structured?

The Visual and Public Art program provides you with a balance of studio and theory courses organized around a combination of core concept and skill courses, Visiting Artist experiences, independent learning opportunities, and a community-based projects/service learning component. The program integrates practice and theory, individual production and collaborative processes, skills and projects, products and process, and the expressive and analytical. Students achieve breadth of learning through achievement of the Major Learning Outcomes and depth of learning through the completion of concentrations.

The Major ProSeminar serves as an introduction to both the program and to the wider vision of the Institute for Visual and Public Art. It provides the opportunity to establish the philosophy upon which the Major Learning Outcomes are based. It stands as a bookend experience with the Senior Capstone as entry and exit markers for VPA. While the Major ProSeminar acts as a bridge to the Visual and Public Art program, Senior Capstone acts as a bridge to the field of arts and to graduate school. Senior Capstone addresses the integration of all MLOs in completion of the project, the professional skills of resume and portfolio development, and the introduction to graduate programs and public art opportunities.

Concentrations

Large Scale Painting/Murals

The concentration in Large Scale Painting and Murals provides intensive learning experiences in both technical and conceptual skills in the area of painting. The particular emphasis on murals includes the historical and practical aspects of mural production. This concentration gives you the design understanding for establishing community-based projects with diverse public constituencies, preparing you for work in a variety of settings.

Large Scale Sculpture and Installation

The concentration in Large-Scale Sculpture and Installation provides you with depth and breadth in the area of sculpture and installation including technical material skills as well as conceptual image and design skills. The opportunity to develop 3-D projects from beginning to end in a project-based model is an essential component of this concentration. Both on-campus projects and community-based projects allow you to apply your media skills through active real-world planning and design processes with diverse communities. You will also enjoy the chance to observe the Design Review Planning process on campus.

Replicative Media

The concentration in Replicative Media gives you experience in advanced photography and an in-depth learning experience in digital media. The application of digital media to a community-based model of visual representation is key to this concentration. Special emphasis is placed on the analysis of media representations and the commitment to ethical approaches in socio-media.

Arts Education

The concentration in Arts Education will provide you with experience in curriculum development in the arts as well as art-making skills. Special attention is paid to the growing field of arts education in museums, and an internship project has been created with local museums. Currently in early development, this concentration will be filled out with a museum studies course and additional community arts education courses with placements in local partner organizations.

What will I learn as a Visual and Public Art major?

As you complete your VPA degree, you will be guided toward achievement of six Major Learning Outcomes (MLOs):

- **VPA MLO 1 Historical and contemporary analysis skills** including the ability to research, define, analyze, and critically formulate positions on contemporary issues in visual and public art from historical, ethical, visual, and sociopolitical perspectives

- **VPA MLO 2 Community and audience understanding** including the ability to define, investigate, and analyze community-audience issues – the ability to practice effective problem-solving, communication, and community-sensitive work – the ability to evaluate accountability

- **VPA MLO 3 Collaborative and community planning skills** including the ability to achieve interdisciplinary collaboration and display community-organizing strategies within an arts project
Which courses should I take to achieve each Visual and Public Art MLO?

Through advising support, you will design an Individualized Learning Plan that includes a combination of courses, community projects, and independent study opportunities. Various MLOs can be met through the following courses:

- **MLO 1 Historical and contemporary analysis skills**
  - VPA 300 Major ProSeminar; VPA 307 Diverse Histories in Contemporary Art and VPA 308 Ways of Seeing; VPA 313 Regional Art History; VPA 396 Field Studies; VPA 397 Independent Study

- **MLO 2 Community and audience understanding**
  - VPA 300 Major ProSeminar; VPA 317S Community Research Service Learning; VPA 306S Large-Scale Digital Mural workshop; VPA 313 Regional Art History; VPA 317S Community Research Service Learning

- **MLO 3 Collaborative and community planning skills**
  - VPA 307 Diverse Histories in Contemporary Art; VPA 301 Two-Dimensional Fundamentals of Painting and Drawing; VPA 303 Three-Dimensional Fundamentals of Sculpture; VPA 306S Large-Scale Digital Mural Workshop Service Learning; VPA 304 Advanced Painting and Mural; VPA 308 Ways of Seeing; VPA 317S Community Research Service Learning; VPA 396 Field Studies; VPA 397 Independent Study; VPA 403 Advanced Sculpture and 3-D design; VPA 401 Installation and Performance; VPA 405 Senior Capstone; VPA 495 Special Topics; VPA 497 Independent Study/Assessment Portfolio Review; VPA 497S Independent Study Service Learning

- **MLO 4 Production skills**
  - VPA 301 Two-Dimensional Fundamentals of Painting and Drawing; VPA 303 Three-Dimensional Fundamentals of Sculpture; VPA 306S Large-Scale Digital Mural Workshop Service Learning; VPA 304 Advanced Painting and Mural; VPA 401 Installation and Performance

- **MLO 5 Critical and evaluative skills**
  - VPA 301 Two-Dimensional Fundamentals of Painting and Drawing; VPA 303 Three-Dimensional Fundamental of Sculpture; VPA 304 Advanced Painting and Mural; VPA 306S Large-Scale Digital Workshop Service Learning; VPA 308 Ways of Seeing; VPA 317S Community Research Service Learning; VPA 396 Field Studies; VPA 397 Independent Studies; VPA 401 Installation and Performance; VPA 403 Advanced Sculpture and 3-D design; VPA 405 Senior Capstone; VPA 497 Independent Study/Assessment Portfolio Review; VPA 497S Independent Study Service Learning

- **MLO 6 Distribution**
  - VPA 308 Ways of Seeing; VPA 317S Community Research Service Learning; VPA 396 Field Studies; VPA 397 Independent Studies; VPA 405 Senior Capstone; VPA 49S Special Topics; VPA 497 Independent Study/Assessment Portfolio Review; VPA 497S Independent Study Service Learning

Are there other ways for me to achieve the Visual and Public Art MLOs?

Assessment of learning outcomes is based on your portfolios of coursework or prior learning. Built-in assessment is the assessment offered within a course. Alternative assessments take place outside of courses and assess a portfolio or other bodies of work. They are conducted by senior faculty members and an artist from the field.

What courses does Visual and Public Art offer?

Recent courses offered have included: California Regional Art History; Introduction to Public-Scale Sculpture, Installation, and Site-Specific Production; Ways of Seeing: Seminar on Philosophy and Ethical Thinking in Public Art; Large-Scale Digital Mural Workshop; Mixed Media Drawing; Diverse Histories in Contemporary Art; Visual Arts Education for Teachers; Three-Dimensional Fundamentals of Sculpture/Installation; Advanced Painting and Mural; Life Drawing; Community Research; Installation Art and Performance; and Advanced Sculpture and 3-D Design.

What are the unique features of the Visual and Public Art curriculum?

Our Visiting Artists Series allows you to learn in the company of masters through lectures and applied projects. The Major ProSeminar will help you and other majors create a community of learners and assist you in completing your Individualized Learning Plan. It will acquaint you with theories, values, and models relevant to the VPA program and possible careers. Your Senior Capstone will allow you to design, curate, and present your own project as a display of your cumulative learning. Your project may take place off campus in a community setting in keeping with a public art focus.

Service learning involves you in planned public art, such as mural painting on campus, and projects in several local communities. Distance learning is a critical component of our VPA curriculum. It includes technologically mediated forms, such as digital murals, and coursework presented by experts in major urban centers. A key project of our VPA program is the distance learning connection between our mural and public art studio and the UCLA studio at the Social Public Art Resource Center in Venice, California.

Our Digital Mural Lab is one example of the advanced technology found in our studios and across our cutting-edge campus. Supported by a grant from the Lila Wallace Reader’s Digest Fund, we have established the Reciprocal University for the Arts Project which enables our students, faculty members, and guest artists to produce performances, projects, and classes in the community educating youth and building capacity for our partnering organizations. The program brings community artists, youth supporters, and youth onto campus as community faculty to teach our students about their experiences and to be a part of university performances and art projects which will result in an improved community.
connection and arts curriculum. Through The Reciprocal University for the Arts Project we foster cultural citizenship, community pride, and the recognition of diverse communities’ funds of knowledge. Cultural celebrations, activities and histories of community building, cross-cultural competencies, and ethical problem-solving skills drawn from struggles for social justice are all part of this knowledge. This art and cultural exchange across communities aims toward changing the perceptions the communities have of each other.

What will my learning environment be like?

The Visual and Public Art learning environment is collaborative and engaged with community projects. You will learn in small peer groups working with nationally and internationally known faculty in the areas of public art, murals, digital media, installation, and sculpture. You will work in state-of-the-art facilities with a unique mural studio and a 3-D sculpture studio equipped with metal, woodworking, ceramics, welding, and sandblasting capacity. Facilities for darkroom and digital are growing and you will have opportunity to create public art on campus and in the nearby communities that partner with Visual and Public Art through The Reciprocal University for the Arts Project. We involve you in project-based learning through real-world projects and in the company of masters in the Visual and Public Art visiting artist’s residencies. The VPA program is dedicated to an open discourse on contemporary issues in public life, and you will be encouraged and supported in independent projects that connect self and society.

What counseling and support services are provided for Visual and Public Art majors?

Visual and Public Art provides each entering major with an Advising Handbook that contains complete and highly detailed information about the major and completion of the degree. The Advising Handbook is your guide until degree completion. In the Major ProSeminar, you will prepare your Individualized Learning Plan (ILP). You are then assigned a faculty advisor according to your chosen concentration. You meet with the advisor every semester to track progress. You are then assigned a faculty advisor according to your chosen concentration. You meet with the advisor every semester to track progress. Finally, VPA students help each other through peer mentoring.

What must I do in order to graduate with a Visual and Public Art degree?

You must achieve all Major Learning Outcomes and complete your Senior Capstone.

Which careers will the Visual and Public Art major prepare me to pursue?

A VPA degree could launch you toward a successful career in public art, fine art, arts administration, arts education, museum studies, museum administration, curatorial management, community arts organization, arts management, gallery management, or cultural and arts policy.

What advantages will the Visual and Public Art major provide if I decide to go on to graduate study?

The Institute for Visual and Public Art is rapidly establishing the model of arts preparation in a national field through consortiums and partnerships with a number of prestigious schools of arts and art departments around the country.

Who will guide my learning experiences?

Fulltime Faculty

■ Amalia Mesa-Bains, Ph.D., Director
  Artist whose installation works are primarily interpretations of traditional Chicano altars – internationally known lecturer on Latino art and culture – Mac Arthur Fellow

■ Suzanne Lacy, M.F.A.
  Conceptual artist best known for large-scale interactive public art installations and performances ~ theorist who has published over 50 articles and is an editor of a widely used public art text

Community Faculty

The community faculty consists of artists, activists, and cultural leaders from the local region who have skills related to the CSUMB VPA and Music and Performing Arts programs. They will serve for one or two semesters providing lectures, workshops, demonstrations, and residencies both in the community and on campus.

■ Judith F. Baca, M.A.
  Muralist whose works interpret the historical wisdom of Mexican American culture – arts activist who founded the first City of Los Angeles mural program and the Social and Public Art Resource Center (SPARC) in Venice, California, where she is still the artistic director

■ Amalia Mesa-Bains, Ph.D., Director
  Conceptual artist best known for large-scale interactive public art installations and performances ~ theorist who has published over 50 articles and is an editor of a widely used public art text

Staff

■ Vicky Gomez
  Program Coordinator

■ Todd Kruper
  Instructional Technologist

Our VPA program helps you integrate your individual skills with collaborative models. Our projects are hands-on and you have the opportunity to work on campus in interdisciplinary activities where you can solve problems, use technology, and apply your art. Come join us as we transform this campus and serve our neighboring communities.

—Dr. Amalia Mesa-Bains, Institute Director

Arts, Human Communication, and Creative Technologies Center (AHCCT)

Why is this academic field important?
At the dawn of the 21st century, our future promises to be much more global and international than any previous time in history. Telecommunications, world trade agreements, worldwide emergencies, and economic interdependence are quickly drawing the diverse peoples of our planet closer together. It compels us to embrace multilingualism and multiculturalism, becoming proficient in languages other than English and learning about cultures other than our own.

What is the World Languages and Cultures major all about?
In our program you will reach an advanced level of proficiency and usage in the language that you emphasize. You will also focus on two general areas from the arts, literature, history, social sciences, and philosophies of the major cultures reflected by the language that you select. As you progress toward graduation, you will design an area of concentration that may be thematic, discipline-focused, or career-oriented to acquire deeper knowledge relative to your specific interests and goals.

Driven by our location on the California Central Coast, the languages that we teach primarily represent the Pacific Rim. Thus, we have extensive offerings in Spanish and Japanese as well as a growing curriculum in Chinese. To connect with the heritages of our diverse Monterey Bay communities, we also offer courses in Italian and plan to expand our curriculum with offerings in Korean, Portuguese, Tagalog, and Vietnamese. Each semester we offer several American Sign Language (ASL) classes, and we plan to expand that program to include a certificate for ASL translation and interpretation. All of our offerings will develop rapidly in coming years as our young university continues to grow.

What will I gain by choosing to major in World Languages and Cultures at CSUMB?
Our approach to language education and instruction is outcomes-based, innovative, and technologically driven. Rather than simply learning grammar and vocabulary, you will develop the language skills and cultural proficiencies that are in high demand in business, government, and education. You will also benefit from our instructional use of new technologies and telecommunication networks to enhance language acquisition and promote language instruction for traditional and nontraditional students.

What courses should I take to prepare to major in World Languages and Cultures if I will be entering CSUMB as a freshman?
If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. We also suggest that you include as many years of study in your target language as possible.
What courses should I take to prepare to major in World Languages and Cultures if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective WLC major, we recommend that you include four semesters of your target language.

What CSUMB courses and requirements should I complete before declaring World Languages and Cultures as my major?

In order to enter the WLC major, you must have already attained intermediate-low to intermediate-mid skills in the language being emphasized. In most cases this will be done by completing the language through the fourth semester, or by demonstrating this proficiency via independent assessment.

What steps must I take to declare World Languages and Cultures as my major?

In all cases, you must apply for acceptance into the program. You officially enter the major upon enrolling in the Major ProSeminar (WLC 300).

How is the curriculum of the World Languages and Cultures major structured?

Our curriculum includes beginning through advanced courses in American Sign Language, Japanese, and Spanish. We also offer opportunities in Italian and Mandarin Chinese as enrollments permit.

The curriculum for WLC majors has three parts: 1) the general University Learning Requirements for a foundation; 2) the MLOs for breadth; and 3) an area of concentration for depth. With careful planning, students who do not seek independent pathways for learning and assessment will be able to complete all WLC major requirements in four semesters.

What will I learn as a World Languages and Cultures major?

As you complete your WLC degree, you will be guided toward achievement of eight Major Learning Outcomes (MLOs):

- **WLC MLO 1-4** Language proficiency including — advanced proficiency in speaking, listening, reading, and writing the emphasized world language (advanced level proficiency as defined by the American Council on the Teaching of Foreign Languages)
- **WLC MLO 5** Cultural knowledge including — reasonable understanding of two areas from the philosophical perspectives (ideas, beliefs, attitudes, values), the behavioral practices (patterns of social interactions), and the tangible and intangible cultural products (art, literature, music, cuisine, vestments) of the societies or major cultures represented by the emphasized language
- **WLC MLO 6** Cross-cultural competency including — general knowledge of a sociocultural group other than the one emphasized by the major — basic understanding of one area from the philosophical perspectives, the behavioral practices, and the tangible and intangible cultural products of the second culture
- **WLC MLO 7** Cultural praxis including — active participation in the culture of the emphasized language at an intermediate level
- **WLC MLO 8** Technology skills including — ability to use multimedia technology and the Internet to support interactive linkages and distance learning activities with individuals and organizations in countries where the emphasized language is primary

In addition to these Major Learning Outcomes, you will enhance the major via an area of concentration. Using MLOs 1-5 as a point of departure, you will design an area of concentration. The area of concentration may be thematic, discipline-focused, or career-oriented. In this way, you will acquire deeper level knowledge in a particular area of the WLC emphasis relative to your specific interests and goals. This area of concentration is also designed to help you prepare for and support your particular Senior Capstone project.

Which courses should I take to achieve each World Languages and Cultures MLO?

All WLC upper-division learning experiences are designed to help meet an MLO and other WLC learning requirements. MLOs may be achieved through a variety of pathways: in-class learning experiences, lab experiences, directed independent study, study abroad, involvement in a local heritage community, service learning internships, and other practicum-type projects in which the target language will be put to use and practiced.

Are there other ways for me to achieve the World Languages and Cultures MLOs?

WLC MLOs may be fulfilled through course-based assessment or independent assessment. In accordance with the outcomes-based pedagogy embraced by CSUMB, WLC majors with prior expertise (e.g. personal, professional, or social experience) may petition for an independent assessment of this previously attained knowledge. Criteria for independent assessment are defined for each MLO.
What courses does World Languages and Cultures offer?

Our broad array of cultural courses and language studies classes includes: Introduction to Japanese Culture and Civilization; Advanced Japanese; Business Japanese; Technical Japanese; The Japanese Mind; The Japanese American Experience; Japanese Cinema; Japanese Pop Culture, Anime, and Multimedia; Japanese Literature in Translation; Economic History of Japan; Business in Japan; Spanish for Spanish Speakers; Contemporary Chicano Literature; Spanish Composition and Oral Practice; History and Phonetic Structure of the Spanish Language; Advanced Spanish Grammar; Introduction to Hispanic Literatures; Cultures and Civilizations of Spanish-Speaking Latin America; History and Politics of Mexico; History and Culture of Aztlán: The Southwestern United States; History and Politics of Latin America; Hispanic Children’s Literature; U.S. Foreign Policy in the Pacific Rim and Third World Countries; Latina Life Stories in Comparative Context; Autobiografías; The Chicano Novel; The Chicana Community; La Literatura Mexicana; La Narrativa Hispanoamericana Contemporánea; Latin American Women Writers; and La Literatura Afro-Latina.

What are the unique features of the World Languages and Cultures curriculum?

In keeping with the outcomes-based education embraced by CSUMB, if you have prior expertise in your target language or any of the MLOs you may petition for credit via independent assessment.

A Major ProSeminar addressing the language and culture of your choice will introduce you to a range of career opportunities and provide faculty guidance toward development of an individual learning plan appropriate to your goals.

Through service learning you will have the opportunity to work with public and private agencies on projects that integrate your language skills with community needs.

You will have the opportunity to do a Senior Capstone project involving the world language and cultures of your major. Capstone projects, which may vary from an extended research thesis to interpretive and creative performances or the creation of webpages, must demonstrate integrated knowledge, penetrating understanding, and advanced linguistic skills.

Study abroad opportunities are available to immerse you in the language and culture of your choice.

Through the offerings of linked universities, distance and online learning opportunities allow you to study languages and cultures not taught directly on the CSUMB campus.

What will my learning environment be like?

The Monterey area is often called “the language capital of the world.” Institutions based here such as the Defense Language Institute Foreign Language Center, the Monterey Institute of International Studies, the Naval Postgraduate School, Language Services International, and the American Global Studies Institute deliver 25 percent of our nation’s post-secondary learning in languages other than English. They also play a major role in global translation and interpretation services.

What counseling and support services are provided for World Languages and Cultures majors?

All WLC fulltime faculty members function as advisors for WLC majors to insure that you are on the right pathway for completion of the general conditions, prerequisites, and MLOs required by the major. In addition, the Institute has a newly installed state-of-the-art Language Learning facility that will help you enhance your language skills and cultural knowledge.

What must I do in order to graduate with a World Languages and Cultures degree?

In order to graduate with a degree in World Languages and Cultures, you must successfully complete (with a grade of C or better) the WLC Major ProSeminar, an upper-division service learning experience, and the WLC Capstone, in addition to all requirements of the WLC Major Learning Outcomes as described above.

Which careers will the World Languages and Cultures major prepare me to pursue?

A WLC degree could launch you toward a successful career as a language and culture educator, translator, interpreter, government advisor, foreign service dignitary, world trade official, international affairs advisor, multinational corporate executive, international trade official, travel industry professional, national security advisor, international financier, or multinational marketer.

What advantages will the World Languages and Cultures major provide if I decide to go on to graduate study?

Aside from preparing you for the linguistic and culturally related content challenges that may lie ahead in graduate studies, if you opt to major in WLC, you will also be prepared to engage, communicate, and collaborate with individuals of cultures and societies very different from what is typically U.S. American. The WLC major will help you attain a global perspective and understanding of the world.

Caminante son tus huellas el camino, y nada más; caminante, no hay camino: se hace el camino al andar. Al andar se hace el camino, y al volver la vista atrás se ve la senda que nunca se ha de volver a pisar. Caminante, no hay camino, sino estelas en la mar.

Why is this academic field important?

Among the many things in life that we value, where does health fit? Health is seen as a resource for everyday life, not the objective of living. Health is a state of being: either you are healthy, or you are not. Wellness, on the other hand, is a process—a continuous moving toward a greater awareness of yourself and the way in which environment, interpersonal relationships, nutrition, fitness, stress, and other factors influence you. You work toward becoming the best you can be, without traditionally accepted limitations regarding your age, your race, or your genetic blueprint. Illness and “health” are opposite states, but you can be ill and still enjoy “wellness” if you have a purpose to life, a deep appreciation for living, and a sense of joy. “Health” is a pretty simple concept; wellness, on the other hand, is a multifaceted and complex concept that involves much more than simple physical condition. Health is not something that is available to everyone. Moreover, wellness becomes a matter of self-evaluation and self-assessment. You may continually work on learning and on making changes that will enhance your state of wellness; you can take the reins. Everyone despite physical limitations, disease, and ability can enjoy wellness. Wellness is a full integration of physical, mental, emotional, social, and spiritual wellbeing—a complex interaction of the factors that lead to a quality of life.

What is the Health and Wellness program all about?

The Health and Wellness program is about providing learning experiences that enable students to accept a definition of “health” that goes beyond mere freedom from disease and encompasses the notion of wellness. Inherent in that task is the recognition that behavior—physical, mental, emotional, social, and spiritual—plays a key role not only in the development of disease, but in our ability to resist disease and maintain optimum health. The Health and Wellness program delivers learning experiences focused on enabling students, faculty, and staff to achieve lifelong knowledge and wellness through health education, movement education, and movement studies.

What will I gain by choosing to study Health and Wellness at CSUMB?

- You will be offered a curriculum and program that provides you opportunities to develop and understand theoretical, practical, and abstract concepts related to a healthy lifestyle with emphasis given to nutrition, stress management and fitness.
- You will enhance your self-confidence, develop team and group competencies, and learn cooperation and collaboration through physical and leisure challenges.
- You will be able to apply knowledge gained through practice and experience to your personal health and wellness goals.
- You will have a chance to discover career opportunities in related fields and to begin to prepare for those career possibilities.

What will I learn as a student participating in Health and Wellness?

If you are a Liberal Studies major interested in pursuing a teaching career that includes physical education or coaching, you will be guided toward achievement of Learning Outcomes (LOs) through the Health and Wellness program. Learning experiences can also lead you to specific emphases required in Liberal Studies. Check with your Liberal Studies advisor to get information regarding specific learning outcomes and the Health and Wellness course options to satisfy each.
What courses does HWI offer?
Introduction to Strength Training; Swimming for Fitness; Wake-Up Workouts for Fitness; Adapted Physical Activity; Aquatics; Adapted Physical Activity; Dry Land; CPR/First Aid; Beginning Ballet; Step Aerobics and Fitness Lab; Step Aerobics; Taiko Drumming; Tai Chi Ch’i Kung; Self Defense for Women; Yoga, Disc Golf, Volleyball, Basketball; Softball; Golf, Soccer, Running, Surfing; InLine Skating/Roller Hockey; Sailing; Foundations of Wellness; Backpacking and Hiking; Foundations of Wellness: Psychobiology of Eating Disorders; Awaken Healing Energy; Advanced Competitive Tennis; Advanced Competitive Volleyball; Advanced Competitive Basketball; Advanced Competitive Swimming; Advanced Competitive Soccer; Advanced Competitive Cross Country; Advanced Competitive Golf, Techniques of Officiating Fall Sport; Techniques of Officiating Spring Sport; Intermediate Keelboat Sailing; Sea Kayaking; Effectively Managing Stress; Foundations of Wellness: Women’s Health Issues; Foundations of Wellness: Human Sexuality; Responding To Emergencies: Community First Aid and CPR; Foundations of Wellness: Alternative Approaches; Scuba Diving; Rock Climbing; Sport Ethics; Developing Teaching Skills in Physical Education; Leadership, Life-Skills, Citizenship; Foundations of Wellness through Community Participation; Women’s Health Issues; Human Sexuality; Marriage and Family; Sport and Marginality with Emphasis on Disability; Motor Development; Movement for Individuals with Disability; Neurological Impairment; Assessment, Evaluation and Curriculum Program Design; Wilderness Leadership; Foundations of Experiential Education; Outdoor Recreation and the Uses of the Wilderness Experience; Outdoor Education/Recreation Program Administration, Special Topics; and Independent Study.

- bobbi bonacé, Ph.D.
  - Physical education pedagogy ~ sport ethics ~ sport management ~ coaching ~ health and wellness
- JoAnn Cannon, Ph.D.
  - Health and wellness ~ stress management

Adjunct Faculty
- Robert Alexander ~ recreation studies
- Denise Castro ~ activity classes and motor development
- Ikuyo Conant ~ Taiko drumming
- Frank Degnan ~ scuba diving
- Christine Derr ~ self defense for women
- Robert Furney ~ sailing
- Noah Greenberg ~ surfing ~ sea kayaking
- Leonard Han ~ Tai Chi ~ meditation
- Marcia R. Karwas, Ph.D. ~ motor development ~ neurology ~ sensory integration/learning ~ adapted physical education ~ sport sociology ~ special education
- Yi Mao ~ cross country ~ strength training ~ adapted physical activity
- Bill McClintock ~ men’s basketball
- Greg Meyer ~ backpacking and hiking
- Jennifer Netherwood ~ women’s soccer
- Bill Paulson ~ men’s and women’s golf
- Barbara Sayad ~ health and wellness ~ human sexuality ~ women’s health issues ~ marriage and family
- Mark Tanous ~ roller hockey
- Hector Uribe ~ men’s soccer

Staff
- Amy Tomasi, faculty support

What are the unique features of the Health and Wellness curriculum?
The Health and Wellness curriculum provides experiential learning opportunities for students and embraces an active applied pedagogical learning approach.

What will my learning environment be like?
You will be exposed to a variety of physical environments (from the beaches to the mountains to the gymnasium to the classroom) where students and faculty learn from and with each other.

What counseling and support services are provided for HWI students?
Health and Wellness offers a continuum of program support services for all HWI students with trained professionals available for individuals with disabilities.

Which careers will studying Health and Wellness prepare me to pursue?
Taken in conjunction with an approved CSUMB major such as Liberal Studies, Collaborative Health and Human Services, Global Studies, Management and International Entrepreneurship (Business), Earth Systems Science & Policy, or Integrated Studies, Health and Wellness courses could help launch you toward a successful career in areas including teaching, community health, coaching, recreation, sensory motor specialities, adapted physical education, corporate health and wellness, and more.

The faculty of the Health and Wellness Institute are committed to developing well rounded individuals and professionals who possess the knowledge and skills to choose to embrace a lifestyle which enhances society as a whole, as well as each individual’s quality of life through physical, emotional, intellectual, spiritual, social, and environmental dimensions. Our goals are to offer a curriculum and a program that provides opportunities for students to develop theoretical, practical, and abstract concepts related to a healthy lifestyle, to develop opportunities for expanded knowledge about wellness through service learning in the community surrounding CSUMB, to enhance confidence, team and group competencies, and mutual support through physical and leisure challenges, to provide and promote learning opportunities in physical activity and leisure studies for all segments of the CSUMB community, to develop resources and facilities that support curricular and academic program strategies in the most cost-effective manner possible, and to begin to prepare students for careers in fields related to Health and Wellness in its entirety.

Program Overview

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs have contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue fulltime study at a host university or special study center abroad. The International Programs serve the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 16 countries, the International Programs also offer a wide selection of study locales and learning environments.

- None: This is a Nondegree Program

Name of Sponsoring Institute
Music and Performing Arts Institute

Name of Sponsoring Center
Arts, Human Communication, and Creative Technologies Center (AHCCT)

Why is this academic field important?
Over thousands of years of human history, music has proven unparalleled in its ability to communicate across cultural boundaries while simultaneously helping to define and express the uniqueness of a people. As the world is drawn closer together by rapidly advancing technology, this universal language of sound and motion is more important than ever as an expression of our synchronous pluralism and individuality.

What is the Music and Performing Arts program all about?
Our goal is to provide you with music and performing arts skills and knowledge in a rapidly changing technological world. In the process, you will have the opportunity to learn about American forms of music and the value of aesthetic expression. You may engage in critical application tied to historical and cultural events. In the context of social history, you will have the chance to gain understanding of the meaning of music. In collaboration with the CSUMB Institute for Liberal Studies, we help prepare you for careers as performing artists or music teachers. This training includes arousing awareness of your potential to connect with a broad audience.

What will I gain by choosing to study Music and Performing Arts at CSUMB?
Music and the performing arts are unique symbolic languages for communicating ideas, feelings, and different ways of knowing about oneself and the world. An extension of the spoken word and an expression of popular culture, music is a major influence in the construction of identities, values, and beliefs. It engages the whole individual in the act of creating, performing, and responding. It involves intellect, intuition, emotion, and the physical being. Music provides a record of civilization that reflects human thought, action, and experience. It connects diverse people.
Our comprehensive program addresses the complex issues of performing artists and their relationship to other arts. You will learn fundamental skills of hearing and moving by recording, self-expressing, interpreting, and relating sound and movement to the social environment. Importantly, our MPA program develops essential workplace qualities of pluralism, teamwork, collaboration, flexibility, and respect for others' ideas and personal expressions.

What courses should I take to prepare for the Music and Performing Arts curriculum if I will be entering CSUMB as a freshman?

If you are coming to CSUMB from high school, then you should be sure that you fulfill all requirements for admission to the CSU system. Check with your high school guidance counselor to get the details and a CSU admissions application. To get a head start on musicianship courses, you should also take as many theory and harmony classes as your schedule will allow.

What courses should I take to prepare for the Music and Performing Arts curriculum if I will be entering CSUMB as a transfer student?

If you are transferring to CSUMB from a community college or another four-year institution, be sure to follow the CSU transfer admissions criteria. Check with your college counselor or a CSUMB representative to get the specifics and a CSU admissions application. As a prospective performing artist or music teacher, we recommend that you include two years of musicianship, one year of harmony, and one year of music theory. If you plan on a performance concentration, you should also acquire two years of ensemble experience.

How is the Music and Performing Arts curriculum structured?

With dedication to pluralism, we have established a diverse and flexible curriculum that includes jazz as an American art form with African roots, ethnomusicology and dance as studies of sound and movement in world cultures, music technology as a form of computer literacy, vocal training as a means of self-expression, and music education as a service to local schools. We will work together to preserve the rich cultural traditions alive in your community and give you an opportunity to develop a specialization in one of five areas:

- Jazz history and performance
- Music education and teacher training
- World music and dance
- Choral and voice training
- Music technology

What will I learn as a student participating in MPA?

If you are a Liberal Studies major interested in pursuing a career as a performing artist or music teacher, you will be guided toward achievement of six Learning Outcomes (LOs) through the MPA program:

- **MPA LO 1 Historical and philosophical perspective** including – knowledge of the history and theory of jazz, vocal music, or world music and dance
- **MPA LO 2 Community issues awareness** including – ability to analyze community, societal, and pedagogical issues in teaching and the production of music and artistic presentations
- **MPA LO 3 Organizational and collaborative skills** including – planning for, collaboration toward, and development of a music or artistic project
- **MPA LO 4 Production skills** including – creation and composition of music
- **MPA LO 5 Critical and evaluative skills**
- **MPA LO 6 Presentation skills** including – production or performance of a work of art

What courses does Music and Performing Arts offer?

Recent course offerings have included: Basic Musicianship; Survey of World Music; Gospel Choir; Music for Children; Fundamentals of Digital Audio; MIDI Fundamentals; Global Percussion; Expressive Arts; Reflections on American Music; Chorale; Voice Training; Jazz Big Band; Music Production and Artistic Development; Instrumental Music; Performance Studies; Directed Experiences in Music; and Field Research Methods; Ballet Folklorico; Modern Dance; Beginning and Advanced Ballet; Theatre Design; and Jazz Dance.
What are the unique features of the Music and Performing Arts curriculum?

Our West Coast Jazz Academy and Jazz Archival Center is the cornerstone of a jazz history program that demonstrates CSUMB’s commitment to multicultural, transdisciplinary, and experiential learning. Live presentations by leading jazz musicians at our Music Hall and World Theater will augment your classroom learning. Mentorships are encouraged and you will receive firsthand knowledge of developments in the field by current practitioners.

You will have access to a duplicate collection of the Smithsonian Jazz Oral History Project that is housed here along with archival photographs, film, video footage, and audio materials.

We are establishing one of only two undergraduate institutes for the study of ethnomusicology in California to facilitate the study of world music.

We are developing an emphasis in dance and encourage interested students to participate through our Expressive Arts, Ballet Folklorico, Modern Dance, Beginning and Advanced Ballet, and Jazz Dance courses.

Our Gospel Chorus and Campus Community Chorus of amateur and professional singers reach into surrounding locales giving voice to the pluralistic vision of CSUMB.

We have established a multimedia studio to prepare you for careers in the rapidly changing technological music production industry. This studio enables development of interdisciplinary projects such as music scores and CD-ROM production.

Bringing students and community members together, our World Theater and Music Hall will provide you with onstage opportunities if you choose to perform, and hands-on technical experience if you are interested in working backstage. Computer technology is involved in every aspect of production.

The Reciprocal University for the Arts Project will enhance opportunities for local youth, their families, and their communities to develop closer relationships with the university that could result in entrance into college. In addition, CSUMB students and community youth will come to see the role arts and artists play in transforming community life. With the experience of such an art program, more students and youth will see the arts as a career opportunity and as an essential part of public life.

What will my learning environment be like?

The Monterey Bay region has long been a mecca of inspiration for musicians and performing artists. The Monterey Reggae, Carmel Bach, Monterey Bay Blues, Salinas Mariachi, and Monterey Jazz Festivals along with a multitude of other cultural events present an off-campus musical extravaganza. On campus, our small interactive classes are conducted in spacious modern facilities that exploit superb modern multimedia, telecommunications, and computer technologies. Our multimedia studio, World Theater, and Music Hall assure the finest settings for both vocal and instrumental performers.

The learning philosophy of MPA promotes pluralism, teamwork, collaboration, flexibility, and appreciation and respect for others’ ideas and personal expressions. Students are expected to learn fundamental skills of hearing and moving by recording, self-expressing, interpreting, and relating the critical understanding of sound and movement to the social environment.

—RICHARD BAINS, INSTITUTE DIRECTOR

What counseling and support services are provided for Music and Performing Arts students?

All students interested in a career in Music and Performing Arts should speak with Professor Richard Bains, Director of the MPA Institute.

Which careers will studying Music and Performing Arts prepare me to pursue?

Taken in conjunction with an approved CSUMB major such as Liberal Studies, Visual and Public Art, or Teledramatic Arts and Technology, MPA courses could help launch you toward a successful career as an arts advocate, arts presenter, audio engineer, band leader, composer, copyist, elementary school music teacher, ethnomusicologist, film scorer, music consultant, music critic, program director, recording technician, song writer, stage manager, professional musician, singer, or dancer.

Who will guide my learning experiences?

Fulltime Faculty

- Richard Bains, M.A., Institute Director – Co-Director, Reciprocal University for the Arts Project
- Ethnomusicology – jazz – interdisciplinary arts development – teacher training
- Paulette Gissendanner, M.A.
- Voice (individual and choral) – teacher training

Adjunct Faculty

- Lyn Bronson, M.A.
  Piano
- Paul Contos
  Digital and recording technology – jazz big band – expressive arts
- James Ferguson, M.A.
  Guitar – world music – beginning musicianship and theory
- Paula Haro
  Dance
- Janet Johns
  Ballet Folklorico
- Babatunde Lea
  Percussion
- Katy Moore, M.A.
  Expressive arts
- John Purcell, M.A.
  Jazz and pop music history – jazz performance
- Fran Spector-Atkins, M.F.A.
  Dance
- Walter White, M.A.
  Dance

The learning philosophy of MPA promotes pluralism, teamwork, collaboration, flexibility, and appreciation and respect for others’ ideas and personal expressions. Students are expected to learn fundamental skills of hearing and moving by recording, self-expressing, interpreting, and relating the critical understanding of sound and movement to the social environment.

Associated Academic Fields

Community Service ~ Public Service ~ Civic Engagement

Degree Offered

None: This is a nondegree program supporting CSUMB’s Community Participation University Learning Requirement (ULR), as well as major-based service learning experiences.

Name of Sponsoring Institute

Service Learning Institute

Why is this academic field important?

As a future leader, you deserve a real-world education that teaches about justice, diversity, compassion, and social responsibility. Preparation for the 21st century should include learning through civic engagement and participation in culturally diverse community settings. After all, your education is not just about you. It is also about enabling you to contribute to your community and play a part in bettering the world. Consequently, the service learning program at CSUMB offers you the opportunity to build more healthy and just communities and learn through involvement in service activities.

What is service learning?

Service learning combines service—the desire and practice of contributing to a more just and equitable society—and learning—the desire and practice of personal growth, intellectual inquiry, and skill development. Service learning is active, engaged learning. Through involvement in real-world activities, you learn citizenship, academic subjects, skills, and values. You also learn about yourself, and your relationship to the world around you. Service learning builds reciprocal relationships with community groups, furthers your understanding of community assets and needs, and prepares you for your role as an active community leader.

What is distinctive about service learning at CSUMB?

Service learning is rooted in experiential education and the belief that, through action and reflection, powerful learning can occur that draws from multiple sources of knowledge—knowledge of an academic discipline, knowledge of a community, and personal knowledge from experience. Through their self and societal reflection components, service learning courses also promote your moral and civic development and challenge you to examine issues of diversity, compassion, justice and social responsibility.
What are the benefits of service learning for students?
You will learn practical and interpersonal skills, and have the opportunity to apply information learned in the classroom to real-world situations off campus. In addition, your service learning experiences will provide you with several other personal growth opportunities.
- Learn from individuals who are different from and similar to you in age, economic means, education, physical ability, background, culture, and ethnicity.
- Examine your own values, attitudes, and beliefs about the world.
- See the surrounding communities and beyond as part of your classroom for learning.
- Gain experience in your academic or future career field while making a difference in your life and the lives of others.

What does the CSUMB Service Learning Institute do?
SLI is recognized as a national leader in the service learning field. It serves as an instructional unit and resource center for faculty members, students, and community representatives interested in service learning. You may search for community connections using SLI’s database of over 700 agencies. SLI also provides program information, resources, and training to faculty members and community agencies interested in creating service learning partnerships. These partnerships address community-identified needs, build community capacities, and facilitate the academic, personal, and civic development of CSUMB students.

How do I get involved?

**Service Learning Courses**
There are a variety of service learning experiences you can choose from to deepen your knowledge and skills in becoming a more effective community participant. Whether you’re interested in working and learning with youth, adults, seniors or the environment, there’s a service learning experience that will meet your needs and challenge you. Review the CSUMB Catalog and Course Schedule to learn more about the variety of service learning experiences offered.

**Student Leadership in Service Learning Program**
Acting upon the commitment to involve students in the planning, development, and implementation of our programs, SL developed the University Service Advocate Program (USA Program). The USA Program is a service learning leadership development and employment program sponsored by the Service Learning Institute. The USA Program employs students with prior CSUMB service learning experience as University Service Advocates (USAs) and provides them with training and development opportunities to take leadership roles implementing and supporting the CSUMB service learning program.

USAs responsibilities can include serving as coteachers/assistants with service learning faculty members or liaisons/service learner coordinators with particular community organizations. USAs also assist with the placement process and service learning workshops and special events, as well as involving the campus community in curricular service learning projects. The USA Program ensures that student voice and participation is integrated throughout the CSUMB service learning program. It increases SLI’s capacity to support and deliver a quality, transformative service learning program. Furthermore, the USA Program utilizes service learning as a vehicle for developing students’ commitment to social justice and their abilities to be effective leaders on campus and in their communities.

What is the service learning requirement?
There are two components to CSUMB’s service learning requirement:
- **Lower Division Service Learning Requirement**
  - This requirement is fulfilled through the Community Participation (CP) University Learning Requirement (ULR).
  - You must fulfill the CP ULR if you enter CSUMB as a freshman or as a transfer student who is not certified in Area D: Social, Political, and Economic Institutions.
  - You are exempt from fulfilling the CP ULR if you enter CSUMB with Area D certified or if you entered CSUMB before Fall 1999 with more than 55 transferable units.
  - To fulfill the CP ULR, you must earn a C or better in an approved course, such as any section of SL 200S: Introduction to Service in Multicultural Communities.
- **Major-Based Service Learning Requirement**
  - Every student who wishes to graduate from CSUMB needs to fulfill this requirement.
  - To fulfill the Major-Based Service Learning Requirement, you must complete a service learning course that meets the requirements of your selected major. You should consult with your major advisor to determine the appropriate course to take.

What service learning experiences are offered at CSUMB?
Over 30 different service learning experiences are offered each semester. We’re sure you’ll find one that fits with your interests as well as one that assists you in fulfilling your CSUMB service learning requirement. For the most current listing of service learning opportunities, check the CSUMB Catalog and Course Schedule. Please note, service learning courses are identified by an “S” following the course number (e.g. 15 393S).

Some examples of ongoing service learning course offerings are:
- **SL 200S: Introduction to Service in Multicultural Communities**
  - Some students participate in the America Reads Challenge in which they tutor Kindergarten through 3rd grade students in local elementary schools to enhance their reading skills.
  - Other students are involved in health outreach activities with organizations such as Natividad Medical Center and the Monterey County AIDS Project.
  - There are several sections of SL 200 offered each semester, each with a different theme area.
- **CST 361S: Technology Tutors**
  - Students in this course develop their multimedia skills by serving as technology tutors at local schools and community organizations.
  - In the past, CSUMB students have also held workshops for elementary school teachers to enhance their technology skills.
How much time will I be expected to serve with the community?

It differs among the service learning experiences offered. In Introduction to Service in Multicultural Communities, students are required to serve with the community for a minimum of 30 hours. Other service learning experiences may require more or less time depending on the learning objectives of the course and the activities that have been agreed upon by the faculty and community partner. You will want to check with the faculty member teaching the service learning course to verify the minimum time required so you can arrange your schedule accordingly.

Do I get to choose my service site?

Yes. As faculty members develop service learning experiences, they work with community organizations to find the appropriate fit between their learning objectives and the needs and resources of each organization. Usually, instructors will provide you with a list of sites to choose from and may even arrange class visits or field trips to the sites to guide you toward finding an organization that would appreciate your talents and skills. SLI houses the Service Opportunities Database which contains information on over 700 organizations interested in working with YOU!

What kinds of opportunities does the Monterey Bay area offer?

If you look at the Monterey area and all you see is the bay, look again. Our region presents an intertwined human and natural environment. Though famous worldwide for its natural history and physical beauty, our region is also home to a rich array of cultures and communities. From the agricultural communities of the Salinas Valley, to the bayside towns of Seaside and Marina, to the historic city of Monterey itself, this region is one of the most diversely populated areas of California and the United States. Our economy, primarily based on tourism and agriculture, is intimately linked to our natural environment. Consequently, our local communities are actively engaged in efforts to make the region more sustainable and improve the quality of life for all of its residents. You can be a valuable part of those efforts.

Over 700 organizations in our region have formally indicated an interest in working with YOU! Over 700 organizations in our region have formally indicated an interest in working with YOU! Opportunities Database which contains information on over 700 organizations interested in working with YOU!

Who will guide my service learning experiences?

In conjunction with the uniquely caring CSUMB faculty, the Service Learning Institute’s dedicated staff members coordinate all service learning experiences. They welcome you and will be happy to address your questions and concerns. Feel free to visit, or call for more information.

Study at Sea (S@S)

Program Overview

Study at Sea (S@S) offers a full semester of interdisciplinary CSUMB courses in collaboration with California Maritime Academy (CMA). The courses involve preparatory work on land followed by two months on board the 500-foot TS Golden Bear. The ship travels the Pacific and stops at several different locations for fieldwork. The first cruise of the year typically occurs during the spring (April-June) and the second during the summer (June-August).

The S@S faculty will work with each student to create an appropriate course of studies. Standard CSUMB courses offered by ESSP, SBS, ICST, MATH, and other programs are modified to take advantage of unique fieldwork and observation possibilities during the trip. Up-to-date information on curriculum, sailing dates, costs, etc. is available by contacting Study at Sea or navigating to the S@S Website.

  - CLAD/BCLAD Multiple Subject Teaching Credential
  - Mild/Moderate Level 1 Education Specialist Credential
Graduate Programs
Overview

California State University, Monterey Bay currently offers master’s degrees in education and in marine science, as well as two options for earning a multiple subject teaching credential. A new Special Education Program will be offered as a Mild/Moderate Level I Education Specialist Credential in Fall 2001 pending approvals.

The Master of Arts in Education and all teaching credential programs are administered within CSUMB’s Collaborative Education and Professional Studies (CEPS) Center. The Master of Science in Marine Science, offered through Moss Landing Marine Laboratories (MLML), is administered within CSUMB’s Science, Technology, and Information Resources (STIR) Center by the Institute for Earth Systems Science & Policy. Detailed information on the specific degree and credential programs may be found on the following pages.

Admissions
Procedures and Policies

Candidates for CSUMB graduate degree programs must comply with all applicable California Administrative Code requirements, as well as university requirements for admission to CSUMB’s graduate programs. An electronic version of the CSU graduate application is accessible on the CSU Mentor website (www.csumentor.edu).

Who Must Apply for Admission

With one exception, all applicants must complete the CSU Graduate Application and be formally admitted by the CSUMB Office of Admissions and Records. The exception is the teaching credential postbaccalaureate student who wants to continue enrollment immediately following completion of the credential program at CSUMB. These students must complete a modified application form available from the Office of Admissions and Records and submit a new set of recommendations. Application deadlines for graduate programs vary. Students should check with the appropriate program office for deadline dates.

Conditions of Admission

To be admitted, a student must complete the appropriate application and pay the nonrefundable application fee. Admission will be considered in one of these four categories:

- Postbaccalaureate Unclassified: By meeting the minimum admissions requirements, the applicant is eligible for admission as a postbaccalaureate unclassified student and may enroll in courses at the discretion of the respective Center. CSUMB may restrict this enrollment group. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any specific graduate degree or credential program.

- Postbaccalaureate Classified: If the applicant plans to enroll in a credential or certificate program, additional professional, personal, and scholastic standards appropriate to the credential or certificate, including qualifying examinations, must be met.

- Graduate Conditionally Classified: The applicant will be admitted to a graduate degree program in this category provided a learning plan is prepared prior to the end of the first semester of enrollment. Some Centers also may require completion of the core courses and thesis plan or special project plan.

- Graduate Fully Classified: The applicant meets all conditions outlined under conditionally classified status and fulfills all professional, personal, and scholastic standards, including qualifying examinations, prescribed by the degree program.

TOEFL Requirement

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English, must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must score at least 550 on the Test of English as a Foreign Language (TOEFL).

Graduate Test Requirements

New students applying to a CSUMB graduate degree program may be required to take one or more parts of the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). Applications, information about dates of administration for the GRE and GMAT, and the test requirements for admission to each degree program can be obtained by calling the CSUMB Office of Academic Development.
Transferring Graduate Credits from Other Institutions

Students who have completed residence coursework in graduate standing at other accredited colleges or universities may be eligible to apply credit toward master’s degree program requirements at CSUMB. Not less than 80 percent of coursework required for the master’s degree must be completed in residence unless exception is granted by petition in advance.

Graduate transfer work may be applied toward a master’s degree program provided such work is approved by the advisor, included in the program, and validated as graduate residence credit prior to advancement to candidacy. Transfer coursework must have been completed within seven years of the date of the award of the master’s degree. Credits earned through extension divisions in other institutions may not be applied toward master’s degree programs.

Advancement to Degree Candidacy

Students who have completed matriculation and received classified standing in a master’s degree curriculum must be advanced to candidacy prior to receiving the degree. A student may be advanced to candidacy after completing a minimum of 15 credits of graded work as a graduate student in courses which are acceptable to the Center in which the degree is sought.

After satisfactory completion of any required examinations and satisfaction of the criteria noted above, the student and advisor should submit the Request for Advancement to Candidacy form listing all remaining courses and other requirements which the student must fulfill to receive the degree. This must be done prior to the student’s last semester.

Official Changes in Graduate Degree Programs

To make official changes (course substitutions) on the student’s graduate degree Individual Learning Plan (ILP), the candidate must complete a Request for Course Substitutions form. The candidate enters the numbers and titles of courses to be added and those to be dropped. The master’s degree advisor then enters recommendations regarding the proposed changes. A completed course may not be dropped from an approved ILP.

Course Credit Time Limit

The California Code of Regulations (Section 40510(b)(2), Title 5, Education) requires that no more than seven years may elapse between the day a candidate completes the first course in a master’s degree program and the date the candidate actually completes all requirements for the degree. In the case of an outdated course the candidate has the following options:

- Request, through the Center advisor, that CSUMB substitute another course (one already completed or which will be completed in the future) for the one which is outdated.
- Repeat the outdated course without credit.
- Revalidate the outdated course by examination.

No more than one-third of a master’s program may be considered for revalidation. Students should obtain authorization to conduct the revalidation of coursework by examination prior to any exam. Coursework completed at other institutions is not eligible for this revalidation procedure.
What is required to earn a Master of Arts in Education?

The program consists of eight graduate courses, or the equivalent. Three courses (including completion of a thesis) are required, and five are open to choice. To graduate from the program, you will also need to demonstrate competence in a second language through fourth semester level. You may need to complete additional coursework to meet this requirement.

If you begin the program during fall semester, it will take between a year and a half (minimum) and three years to finish the program depending on how many courses you take each semester. The program is designed to begin with fall semester. If you enter during the spring, it may take you as long to finish as if you entered the following fall.

Can I earn my teaching credential through this program?

No, this program is designed as a sequel for those who have already completed a teacher credential program. It also expands horizons for those who are working as professional educators in fields that do not require a teaching credential.

Can you get your credential at CSUMB? Yes! Please contact our Center for Collaborative Education and Professional Studies to learn about credential options that we offer. They are structured for either full-time students or full-time teachers who currently have an emergency permit or substandard certificate. For more information about the credential programs, call Minerva Estassi (831-582-3639).

What is the Master of Arts in Education program all about?

Designed to help credentialed educators become effective teachers and leaders for the culturally and linguistically diverse students in the schools of our region, our graduate program encourages cultural and linguistic pluralism. We also develop your skills in applying emerging technologies to educational environments and judging the appropriate application of those technologies.

What will I gain by choosing to earn my Master of Arts in Education at CSUMB?

Our goal is to help you achieve excellence in classroom instruction. With that in mind, we carefully weave several strands into the fabric of your graduate work. At the core, we give you a conceptual and theoretical perspective for instruction. We intertwine insights on research in teaching. We wire you into all the new technological twists. We tie in advanced pedagogical skills and new curriculum materials. We liberally lace your learning with insights on connecting with culturally and linguistically diverse students, communities, and intellectual works. We sew it up with a plan for lifelong learning using applied action research.
What are the requirements for admission into the Master of Arts in Education program?

Admission into our MAE program is competitive. A limited number of applicants will be selected based on the following criteria:

- Completion of a bachelor’s degree from an accredited university
- Achievement of a grade point average of at least 2.75 at the undergraduate level and 3.00 at the post-baccalaureate level (Those who do not meet these minimum GPA requirements, but are otherwise strong candidates, may request provisional admission.)
- Submission of three letters of recommendation from individuals familiar with your academic or professional work
- Submission of a professional goal statement that matches the focus and resources of our CSUMB Master of Arts in Education program
- Possession of a valid teaching credential (Other applicants will be considered, but those holding a valid teaching credential will be given preference.)
- Completion of BTSA (if applicable to your situation) and two years of successful teaching experience. (This criterion may be waived for compelling reasons.)

How do I apply?

You will need to apply to both CSUMB and the MAE program.

University Application Process

- File a CSUMB graduate application.
- Pay a $55.00 application fee.
- Have official transcripts from each college and university attended mailed directly to CSUMB Admissions and Records. Start this process immediately as it is often a slow one.

MAE Application Process

- File your MAE program application.
- Type and submit a 2-3 page statement of purpose and professional goals.
- Send three letters of recommendation from individuals familiar with your professional or academic work.
- If desired, submit Graduate Record Examination scores. A GRE test is strongly recommended if you intend to pursue a Ph.D. elsewhere in the future.

How is the curriculum of the Master of Arts in Education structured?

As the foundation for your master’s work, you will complete three core courses: ProSeminar, a research methods course, and the Capstone Seminar. The core courses help you develop a theoretical and research base for successful teaching in pluralistic contexts. In the research course, you initiate an action research project. You complete it in the Capstone Seminar.

On top of the core, you must demonstrate competency in a second language through fourth-semester level. Coursework in a second language is available as needed, as is assistance in determining level of language competency. Students who enter the program with the requisite second language proficiency are not required to complete additional coursework. You will also need to demonstrate basic technology competence; coursework is available as part of the program.

To develop the “meat” of your graduate program, you complete five specialty area courses, each of which is organized around a learning outcome. The specialty area coursework is largely structured around curriculum and instruction in multicultural and linguistically diverse classrooms. For example, you might take Literacy for Linguistically Diverse Learners, Integrating the Arts into the Classroom, Multicultural Curriculum Design, Culture and Cognition, and Paradigms of Assessment. The specialty area courses bridge theory and practice, and include considerable modeling, preparing, sharing, and critiquing of teaching strategies, approaches, and materials. You may earn a CLAD or BCLAD certificate through specialty area coursework; CLAD courses include Applied Linguistics and Language Acquisition, Culture and Cognition, and Literacy for Linguistic Diversity.

All students are expected to complete an action thesis. This is a major project in which you use research for the purpose of transforming something specific. You begin conceptualizing your action thesis in the ProSeminar and research methods course, work on it while completing your specialty courses, and complete it in the Capstone Seminar.

What will I learn as I earn my Master of Arts in Education?

The core Learning Outcomes (LOs) all students complete include:

- **MAE LO 1** Students will express a critical, questioning perspective (i.e., identify, describe, and analyze) about diverse theoretical paradigms about teaching, learning, and school reform, including those generated by marginalized groups, which situate schooling in a larger historic and political context.
- **MAE LO 2** Students will search, navigate, and critically consume (read, analyze, and use) educational research.
- **MAE LO 3** Students will use, apply, design, and implement research to bring about change and make improvements in their own professional environment.
- **MAE LO 4** Students will demonstrate their knowledge of and ability to use the most appropriate culturally responsive practices that support complex and challenging learning.
- **MAE LO 5** Students will communicate with native speakers of a language other than English.
- **MAE LO 6** Students will use technology critically to access information, to communicate, and as a means of curricular and pedagogical support for higher level thinking.
- **MAE LO 7** Students will communicate clearly and effectively, both orally and in writing, particularly acting as effective advocates for children.

Each specialty area course is structured around one learning outcome.

Are there other ways for me to achieve the Master of Arts in Education outcomes?

You may transfer in up to six credits of graduate work, in consultation with your academic advisor. If you have extensive prior experience, you may prepare portfolio assessment based on one or two learning outcomes. This should all be done in consultation with your academic advisor.
What courses does the Master of Arts in Education program offer?

Our courses are offered in late afternoon or evening, and some are offered on the weekend. Most of the courses are offered about once every two years or in summer. Current offerings include: ProSeminar (offered every fall); Ethnographic Research for Multicultural Teaching (offered every spring); Qualitative and Quantitative Research Methods; Literacy for Linguistic Diversity; Culture, Cognition, and Development; Bilingualism; Pluralism, Politics, and School Practices; Multicultural Curriculum Design; Kaleidoscope of Latino Cultures; Emergent Literacy; Integrating Arts as Culturally Responsive Curriculum; Multicultural Literature for a Partnership World; Paradigms in Educational Assessment; Applied Linguistics and Language Acquisition; Technology as a Tool for Creativity in Multicultural Classrooms; and special topics as they arise.

Who will guide my learning experiences?

**Fulltime Faculty**

- Christine Sleeter, Ph.D., Director
  Multicultural education – teacher education
- Kani Blackwell, Ed.D.
  Culture and cognition – human development – foundations of education – arts education – constructivist teaching
- Margaret (Peggy) Laughlin, Ed.D.
  Language and literacy – bilingual methodology – children’s literature
- Herb Martin, Ph.D.
  Multicultural education – cross-cultural competence
- Claudia Peralta-Nash, Ph.D.
  Bilingual education – children’s literature
- Paoze Thao, Ph.D.
  Comparative international education – linguistics – English as a second language (ESL)
- Elaine Wangberg, Ph.D.
  Emergent literacy – language and cognitive development
- Judy Cortes, Ph.D.
  Bilingual education – language acquisition
- Patricia Whang, Ph.D.
  Culture and cognitive development – research methods
- Bob Hughes, Ed.D.
  Technology in education – research methods – families and schools
- Lou Denti, Ph.D.
  Special education

**Adjunct Faculty**

- Esteban Hernandez, M.A.
  Bilingual education – assessment
- Jane Meade-Roberts, M.A.
  Child development – constructivist pedagogy
- Lois Rolland, Ph.D.
  Qualitative and quantitative research
- Bill Jones, Ph.D.
  Linguistics and language acquisition
- Linda Turner Bynoe, Ph.D.
  Schools and community

The program is designed to empower teacher-leaders who are well grounded in teaching strategies, theory, and research related to teaching in culturally and linguistically diverse settings. The faculty has extensive experience teaching in culturally diverse settings, and is well versed in the most recent scholarly work related to teaching in culturally and linguistically diverse society. The program attempts to challenge you to think, create, reflect, examine your own work, and collaborate with colleagues in pursuit of pedagogical practices that empower the diverse children of tomorrow’s schools.

—Dr. Christine Sleeter, Institute Director

What are the unique features of the Master of Arts in Education curriculum?

Our program is **outcomes-based** rather than credit-based. Though candidates will normally complete the program with 32-36 credits of coursework, limited opportunities are available to show that outcomes have been achieved through alternative methods.

The MAE program is launching **off-campus specialty areas**. We currently have a cohort of students who have an emphasis on constructivist education, and a cohort of students in Watsonville whose focus is mainly on teaching in bilingual schools.

What will my learning environment be like?

The rich mix of peoples and cultures in the Monterey Bay area is reflected in the populations of our region's schools. Whether you are teaching in one of those schools already or will connect with one or more as part of your graduate studies, you will undoubtedly find appropriate student groups for your research and practical teaching experiences. Meanwhile, you will do your on-campus learning in small, interactive classes housed in spacious, modern facilities on our technologically advanced “21st CSU campus for the 21st century” where plurality and teaching excellence have been commitments since the university’s inception.

What advantages will the Master of Arts in Education provide if I decide to go on to doctoral study?

Students who wish to continue for doctoral study will receive guidance that helps them focus their preparation in this area. Since all students in the Master of Arts in Education complete an action thesis, you will develop research and writing skills as a normal part of proceeding through the program.
Master of Science in Marine Science

  - Website: www.mlml.calstate.edu

Associated Academic Fields
- Marine Biology – Oceanography – Marine Sciences – Marine Ecology – Marine Geology

Degree Offered
Master of Science

Name of Sponsoring Institute
Earth Systems Science & Policy (ESSP)

Name of Sponsoring Center
CSUMB Science, Technology, and Information Resources Center (STIR) in conjunction with Moss Landing Marine Laboratories (MLML)

Why is this academic field important?
Recognizing that the ocean is vital to life on earth, the United Nations declared 1998 as the International Year of the Ocean. The hoped for increase in public awareness of the seas and related issues will be vital to our survival on the planet in the new millennium. So, too, will be the work of specialists who further our understanding of the ocean’s forces and features—weather systems that deliver both crop-nourishing rains and destructive forces, life-saving medicines, nourishing fish, transportation channels, and much more.

What is the Master of Science in Marine Science major all about?
CSUMB is part of the consortium that operates Moss Landing Marine Laboratories. The MLML consortium is composed of seven California State University system members: Fresno, Hayward, Monterey Bay, Sacramento, San Francisco, San Jose, and Stanislaus. CSUMB’s Master of Science in Marine Science is administered through MLML. This graduate program provides the opportunity to acquire a practical and theoretical education in the marine sciences to prepare for a career as a marine specialist, scientist, or teacher. Graduate opportunities include both research and advanced courses in marine sciences. The MLML curriculum provides extensive field and laboratory work for advanced study.

What will I gain by choosing to earn my Master of Science in Marine Science at CSUMB?
- Of the seven consortium members, CSUMB has the distinct advantage of being the closest campus to MLML. The shore lab facility, marine operations, and the main MLML campus are within an easy half-hour’s drive of CSUMB.

What are the requirements for admission into the Master of Science in Marine Science program?
To be considered for admission to our program you must:
- Complete the CSU graduate application, available from the CSUMB Office of Admissions and Records or on the Web (csumentor.edu).
- Submit your Graduate Records Examination (GRE) scores.
- Submit copies of your transcripts.
- Submit three letters of recommendation.
- Submit a resume including a summary of your research experience.
- Complete an expanded statement of purpose.
- Complete the MLML questionnaire.

Application materials are available on the Web (www.mlml.calstate.edu). You are encouraged to contact the professor with whom you wish to study before submitting your application. More information about the professors and the program may also be found on the Web. Upon admission, you will be accepted into conditionally classified graduate status.

How will I advance to become a fully classified candidate for the Master of Science in Marine Science?
To advance to full candidacy you are required to take both of these steps:
- Obtain MLML and CSUMB thesis advisors by the third semester. As a new student, you will be assigned an advisor who may or may not be your final thesis advisor.
- Make up any coursework deficiencies as identified by your advisors. Quantitative Marine Science and three of the following five courses are prerequisites for classified graduate standing: Marine Ecology, Geological Oceanography, Physical Oceanography, Chemical Oceanography, and Biological Oceanography. These courses should be completed by the end of the third semester. They may be waived by the graduate committee upon certification that equivalent courses have been satisfactorily completed. Quantitative Marine Science cannot be counted towards the 30-credit degree requirement. Students who do not receive a grade of 3.0 or better in the listed courses, or who wish to substitute equivalent courses taken elsewhere regardless of the grades received, must petition to have the courses accepted or take an examination given by the faculty at MLML.

What courses does Moss Landing Marine Laboratories offer?
- Recent courses offered have included: Marine Ecology; Introduction to Marine Animal Behavior; Marine Birds and Mammals; Marine Ichthyology; Marine Invertebrate Zoology; Marine Botany;
Geological Oceanography; Physical Oceanography; Chemical Oceanography; Physiology of Marine Algae; Biological Oceanography; Marine Fisheries; Microscopic Techniques; Marine Instrumental Analysis; Sampling and Experimental Design; Ecology of Marine Birds and Mammals; Advanced Topics in Marine Vertebrates; Biology of the Mollusca; Biology of Seaweeds; Advanced Topics in Marine Ecology; Advanced Biological Oceanography; Paleooceanography; Plate Tectonics; Deep Sea Sedimentation; Marine Geochemistry; Ocean Circulation and Mixing; Satellite Oceanography; Applications of Computers in Oceanography; Population Biology; Subtidal Ecology; Advanced Topics in Oceanography; Scientific Writing; Graduate Seminar in Marine Biology; Graduate Seminar in Oceanography; Graduate Seminar in Marine Geology; and Research in the Marine Sciences.

What will my learning environment be like?

Moss Landing Marine Laboratories and CSU Monterey Bay are ideally situated for marine studies. The head of the Monterey Submarine Canyon, the largest such feature on the west coast of the Americas, is located a few hundred meters west of MLML. You can work conveniently in a diversity of deep-water habitats in the canyon because 1000-meter depths occur within one hour’s steaming time of the harbor. To the east of MLML and north of CSUMB is Elkhorn Slough, one of the largest, relatively unspoiled salt marshes remaining on the Pacific Coast. Sand dunes, rocky intertidal environments, and subtidal kelp forests provide further valuable areas for scientific study on the shores of the Monterey Bay. These rich features of our location facilitate your study and research in all marine science disciplines.

What is required to complete the Master of Science in Marine Science?

Your Master of Science in Marine Science will be conferred after you successfully do all of the following:

- Advance to candidacy.
- Satisfy MLML’s requirements for the degree.
- Complete a minimum total of 15 required credits of graduate-level courses. These must include two credits of Graduate Seminar in Marine Biology, Graduate Seminar in Marine Geology, or Graduate Seminar in Oceanography, as well as one to four credits of Master’s Thesis.
- Complete an additional 15 credits of upper-division and graduate-level courses as approved by your thesis committee. These may include courses taken at MLML and CSUMB.
- Submit a thesis approved by your thesis advisory committee. The thesis must conform to the rules set forth by CSUMB.
- Present an oral thesis defense including an open seminar thesis presentation and a defense before your thesis advisory committee.

Which careers will the Master of Science in Marine Science prepare me to pursue?

A Marine Science master’s degree could launch you toward a successful career in marine ecology, ichthyology, chemical oceanography, paleoceanography, marine botany, marine geochemistry, satellite oceanography, or subtidal ecology.

Who will guide my learning experiences?

**Faculty**

- William W. Broenkow, Ph.D.
  - Physical oceanography ~ satellite oceanography ~ marine optics and instrumentation
- Gregor M. Cailliet, Ph.D.
  - Ecology of marine fishes ~ deep sea ecology ~ marine fisheries
- Michael S. Foster, Ph.D.
  - Phycology ~ marine ecology ~ impact of oil on marine plants and animals
- Jonathan B. Geller, Ph.D.
  - Invertebrate zoology ~ molecular marine ecology ~ evolutionary biology
- H. Gary Greene, Ph.D.
  - Marine geophysics ~ plate boundary tectonics ~ submarine canyon and coastal processes
- James T. Harvey, Ph.D.
  - Ecology of marine birds ~ reptiles and mammals ~ statistics ~ radio telemetry
- John N. Heine, M.A.
  - Antarctic ecology ~ kelp forest and marine plant ecology ~ scientific diving training standards
- Kenneth H. Coale, Ph.D.
  - Global biochemistry ~ trace metals ~ radionuclides ~ chemical oceanography
- Robert E. Garrison, Ph.D.
  - Marine sedimentology ~ diagenesis of marine sediments ~ sedimentary tectonics ~ paleoceanography
- Valerie J. Loeb, Ph.D.
  - Ichthyoplankton ~ marine fisheries
- John S. Oliver, Ph.D.
  - Marine ecology ~ benthos ~ pollution ~ habitat restoration
- Bruce H. Robison, Ph.D.
  - Deep sea ecology ~ marine fishes ~ bioluminescence ~ undersea technology
- James W. Rote, Ph.D.
  - Marine policy ~ resource economics ~ coastal zone and ocean management

**Adjunct Faculty**

- James P. Barry, Ph.D.
  - Benthic and polar ecology ~ biological oceanography ~ chemosynthetic communities
- Kenneth H. Coale, Ph.D.
  - Global biochemistry ~ trace metals ~ radionuclides ~ chemical oceanography
- Robert E. Garrison, Ph.D.
  - Marine sedimentology ~ diagenesis of marine sediments ~ sedimentary tectonics ~ paleoceanography
- Valerie J. Loeb, Ph.D.
  - Ichthyoplankton ~ marine fisheries
- John S. Oliver, Ph.D.
  - Marine ecology ~ benthos ~ pollution ~ habitat restoration
- Bruce H. Robison, Ph.D.
  - Deep sea ecology ~ marine fishes ~ bioluminescence ~ undersea technology
- James W. Rote, Ph.D.
  - Marine policy ~ resource economics ~ coastal zone and ocean management

Associated Academic Fields

Education, Teacher Education

Credential Offered

Multiple Subject

Name of Sponsoring Institute

Institute for Field-Based Teacher Education

Name of Sponsoring Center

Center for Collaborative Education and Professional Studies (CEPS)

Why is this academic field important?

As we enter a new millennium, California’s schools face two realities. First, the student population is becoming increasingly diverse linguistically and culturally. Over 40 percent of the nation’s school age students who are English language learners reside in California—approximately 1.5 million of them. Consequently, public schools must bring children together from their various backgrounds to discover their emerging role in our pluralistic social and political democracy. Second, due in part to government mandated reductions in class size, California will need 250 to 300 thousand new teachers in the next decade. Meanwhile, to meet immediate demands, a significant percentage of current California teachers have begun their careers with less than full certification. Clearly, institutions of higher learning must develop forward-thinking teacher training programs that provide something extra.

What teaching credential options do you offer?

We offer two alternatives for earning your multiple subject credential. If your schedule permits, you can enter our fulltime program. Alternatively, if you are currently a fulltime teacher with an emergency permit or internship credential, you should enter our parttime teacher internship program (CTIP).

Both credentialing options are designed for individuals who are interested in teaching in linguistically and culturally diverse elementary schools. Consequently, in both programs you will be given a choice between a cross-cultural language and academic development (CLAD) emphasis or a bilingual cross-cultural language and academic development (BCLAD) emphasis.

Both the CLAD and BCLAD emphasis credentials will authorize you to teach school children from non-English backgrounds. The difference is that the BCLAD authorizes you to teach in bilingual settings both in your language of emphasis and in English, while the CLAD authorizes you to teach only in settings where instruction is provided primarily through English.

Why earn my CLAD/BCLAD Multiple Subject Teaching Credential at CSUMB?

We offer a teacher preparation curriculum that reflects a high degree of integration between theory and practice. Collaborative program development among public schools, the community, and CSUMB has created a hands-on learning environment that will prepare you to work with linguistically and culturally diverse student populations. That, in turn, will enhance your ability to teach all students successfully.

What are the requirements for admission into the CSUMB teaching credential programs?

- A course in U.S. Government that includes U.S. Constitution
- A course in linguistics
- A course in culture and cultural diversity
- Six semester units of a single language other than English
- Two or three letters of recommendation by those who have observed you teaching or working with culturally diverse children (mailed directly to the CSUMB Credentials Office)
How long will it take to earn my credential?

You can earn your credential in two consecutive semesters if all academic and experiential prerequisites have been completed. If you have deficiencies in these requirements, you may need more than two semesters. The part-time C-TIP alternative provides full-time teachers with classroom support and courses that are completed in fifteen months.

How is the curriculum of the CLAD/BCLAD Multiple Subject Teaching Credential structured?

If you enter the full-time program, you will be placed in student teaching settings from the start to the end. Classes are conducted for the first ten weeks of each semester in conjunction with part-time student teaching. The last five weeks of each term are dedicated to more intensive student teaching.

The part-time teaching internship program includes the same courses with additional experiences tailor-made for the internship experience. In this program, classes are distributed over 15 months of evenings and summers to accommodate your full-time teaching obligations.

What will I learn as I earn my credential?

As our program prepares you to demonstrate successful beginning practice in accordance with the California Standards for the Teaching Profession, you will be guided toward completion of the following Teacher Education Learning Outcomes (TELOs):

- **TELO 1 Understanding of teaching and learning pedagogy** including ability to demonstrate knowledge of pedagogy - ability to place students at the center of meaningful learning
- **TELO 2 Understanding of structured environments that promote student learning** including ability to create and maintain an effective physical environment for meaningful student learning
- **TELO 3 Effective interaction with students, parents, and professional colleagues** including ability to demonstrate knowledge of collaborative strategies - ability to work with students, parents, school committee members, and professional colleagues
- **TELO 4 Understanding of language and cultural diversity** including ability to demonstrate knowledge of language and culture - ability to apply this learning to plan and instruct students effectively
- **TELO 5 Language proficiency** including ability to communicate effectively - ability to adjust to the complex linguistic abilities and proficiencies of students
- **TELO 6 Subject matter knowledge** including ability to demonstrate knowledge of subject matter - ability to organize and present subject matter effectively to all students
- **TELO 7 Technology competency** including ability to demonstrate knowledge of available technologies - ability to apply this knowledge to classroom organization and instruction
- **TELO 8 Assessment competency** including ability to demonstrate knowledge of assessment - ability to apply evaluative tools to aid and improve instruction
- **TELO 9 Self-assessment and reflection competency** including ability to demonstrate self-assessment skills and reflect upon them as a developing professional educator

How do I demonstrate that I have achieved the TELOs?

You will prepare products in each of your courses that will be compiled into a professional portfolio to be presented in seminar at the conclusion of the program. Reflective comments, a personal philosophy statement about teaching, and observation reports of your teaching will be included in your portfolio as well. Your achievement of the TELO’s will be demonstrated through the portfolio.

Alternative means for achieving TELOs may be negotiated with instructors of courses to which TELOs are attributed and through the recommendation of the program director and concurrence of the dean of the Collaborative Education and Professional Studies Center. A professional portfolio will be required in all cases.

What courses does the teaching credential program offer?

The courses in our curriculum are: Teaching and Learning; Pedagogy for Culturally and Linguistically Diverse Students; Language and Literacy Development Across the Curriculum I; Language and Literacy Development Across the Curriculum II; Math Methods; Social Studies and Science Methods; Methodology for Bilingual Instruction; Student Teaching; and Student Teaching Seminar.

What are the unique features of the teaching credential curriculum?

Students are placed in schools from the beginning of the program to its conclusion. This assures maximum exposure to teaching and learning in public schools.
What will my learning environment be like?
The rich mix of peoples and cultures in the Monterey Bay region is reflected in the populations of area schools. The many area elementary schools offer superb settings for you to work with children who are diverse in every imaginable way. As a fulltime student, you will spend many hours in student teaching placements during both semesters of the program. If you are currently employed as a teacher with a substandard credential, we will provide you with support services in conjunction with your employing school district. Meanwhile, you will do your oncampus learning in small, interactive classes housed in spacious, modern facilities on our technologically advanced “21st CSU campus for the 21st century,” where plurality and teaching excellence have been commitments since the university’s inception.

What counseling and support services are provided for students in the teaching credential program?
Each student is assigned a faculty advisor. When you are placed in schools, a college supervisor will be available to guide the development of your teaching skills. Also, the Academic Skills Achievement Program (ASAP) is available to credential program students needing additional out-of-class assistance in the development of effective communication skills.

What must I do in order to earn my CLAD/BCLAD Multiple Subject Teaching Credential?
You will be expected to demonstrate your comprehensive achievement of all TELOs in a Capstone experience through the formal presentation of a professional portfolio.

Which teaching jobs will the CLAD/BCLAD Multiple Subject Teaching Credential prepare me to pursue?
The CLAD/BCLAD program prepares you to step into rewarding careers as elementary and middle school teachers. You will be particularly well prepared to work with linguistically and culturally diverse student populations. The program is site-based: you enter student teaching placements from the beginning of your enrollment in the program to program completion.

What advantages will the CLAD/BCLAD Multiple Subject Teaching Credential provide if I decide to go on to graduate study?
The program lays important groundwork if you are interested in a graduate degree in education.

Who will guide my learning experiences?

Fulltime Faculty
- Mark O’Shea, Ed.D., Director
  Science education
- Kani A. Blackwell, Ed.D.
  Teaching and learning – arts education – foundations of education
- Beverly Carter, Ph.D.
  Single subject
- Lou Denti, Ph.D.
  Lawton Love Distinguished Professor in Special Education
- Bob Hughes, Ph.D., Interim Coordinator, Multiple Subject Internship Programs
  Single subject
- Margaret (Peggy) Laughlin, Ed.D.
  Language and literacy – bilingual methodology – critical pedagogy
- Jean Mitchell, Ph.D.
  Mathematics education
- Claudia Peralta-Nash, Ph.D.
  Bilingual education – children’s literature
- Patricia Whang, Ph.D.
  Psychological foundations of teaching and learning

Adjunct Faculty
- Delberta Meyer, M.A.
  Teaching and learning – foundations of education
- Andrea Seitz, M.A.
  Literacy education

CSUMB’s teacher preparation programs reflect the Vision Statement of the university. We use a constructivist approach to the development of new teachers for pluralistic classrooms reflective of California’s diverse student population. We take pride in our emphasis on preparing teachers to meet the language learning needs of students for whom English is a second language.
—DR. MARK O’SHEA, INSTITUTE DIRECTOR
Special Education Program (SPED)

Making Contact

- Special Education Program

Associated Academic Fields
Psychology, sociology, counseling, teacher education, child development, community collaborative studies, human communication, social and behavioral sciences

Credential Offered
Mild/Moderate Level I Education Specialist Credential

Name of Sponsoring Institute
Field-Based Teacher Education

Name of Sponsoring Center
Center for Collaborative Education and Professional Studies (CEPS)

Why is this academic field important?
There continues to be a shortage of teachers prepared to serve students with mild to moderate disabilities throughout the state of California and nationwide. When teachers participate in a relevant and thoughtful course of study with well-respected faculty members and field practitioners, it increases the likelihood that they will remain teaching in the field.

Why earn my special education credential at CSUMB?
At CSUMB, you will be well prepared to meet the instructional and social needs of students with learning challenges. Small class size and individual attention characterize the program.

What are the requirements for admission into the CSUMB Special Education Program?
- B.S. or B.A. completed at an accredited university or college
- Application to the university and the Special Education Program
- Subject matter competency
- Interview with Program Coordinator and faculty
- Pre-professional experience in instruction settings with children with special needs
- A course in U.S. Government that includes U.S. Constitution
- Proof of having taken or passed the California Basic Educational Skills Test (CBEST)
- Certificate of Clearance
- Three (3) letters of recommendation
- Computer literacy
- Two official sets of transcripts from every university or college that you have attended (one set mailed to CSUMB Admissions and Records and the other to the CSUMB Special Education Program office)
- Resume and statement of purpose essay

How long will it take to earn my credential?
The Level I Mild/Moderate Education Specialist Credential is tailored to meet the needs of students pursuing their state certification requirements. You can enroll as a full or part-time student. Generally, students complete the course of study in one and a half years.

How is the curriculum of the Special Education Program structured?
The program is structured around the working classroom teacher. Courses are offered in the evenings, on weekends, during intersession, and throughout the summer. Usually students take two courses per semester. Students are also required to complete a practicum.

What will I learn as I earn my credential?
The Mild/Moderate Education Specialist Credential program accents preferred instructional practices to help students with learning challenges succeed in school and life. While pursuing your credential, you will be guided toward completion of the following Teacher Education Learning Outcomes (TELOs):

- **TELO 1 Understanding of teaching and learning pedagogy** including – ability to demonstrate knowledge of pedagogy – ability to place students at the center of meaningful learning
- **TELO 2 Understanding of structured environments that promote student learning** including – ability to create and maintain an effective physical environment for meaningful student learning
- **TELO 3 Effective interaction with students, parents, and professional colleagues** including – ability to demonstrate knowledge of collaborative strategies – ability to work with students, parents, school committee members, and professional colleagues
- **TELO 4 Understanding of language and cultural diversity** including – ability to demonstrate knowledge of language and culture – ability to apply this learning to plan and instruct students effectively
- **TELO 5 Language proficiency** including – ability to communicate effectively – ability to adjust to the complex linguistic abilities and proficiencies of students
- **TELO 6 Subject matter knowledge** including – ability to demonstrate knowledge of subject matter – ability to organize and present subject matter effectively to all students
- **TELO 7 Technology competency** including – ability to demonstrate knowledge of available technologies – ability to apply this knowledge to classroom organization and instruction
- **TELO 8 Assessment competency** including – ability to demonstrate knowledge of assessment – ability to apply evaluative tools to aid and improve instruction
- **TELO 9 Self-assessment and reflection competency** including – ability to demonstrate self-assessment skills and reflect upon them as a developing professional educator
How do I demonstrate that I have achieved the TELOs?

Course competencies are directly associated with the TELOs and are clearly articulated in each of the course syllabi. Students demonstrate that they have achieved the TELOs through portfolios, practica, course assignments, and professional readings.

What courses does the Special Education Program offer?

The courses in our curriculum are: Mainstreaming the Exceptional Child; Reading Diagnosis & Preferred Practices for Students with Learning Challenges; Curriculum Development & Preferred Practices for Students with Learning Challenges; Formal & Informal Assessment for Diverse Student Population; Supervised Field Experiences in General Education; Behavioral Intervention & Support; Practicum/Professional Induction Planning; Methodologies for Culturally & Linguistically Diverse Students with Learning Challenges; Elementary Math Methods; and Language and Literacy Across Curriculum.

What are the unique features of the Special Education Program curriculum?

- Student centered
- Practical
- Tenure track faculty members with established reputations teach the courses
- Inclusive

What will my learning environment be like?

The learning environment at CSUMB is intimate, reflective, and participatory. Reciprocal interactions between students and instructors create a positive, compassionate, and uplifting educational experience. Careful attention is paid to pedagogy that reflects the cultural and ethnic diversity of the students in the local schools.

What counseling and support services are provided for students in the Special Education Program?

The special education faculty advises students throughout their tenure in the program. The advisement is individualized, timely, and supportive. A credential analyst is available on site to answer technical questions regarding state certification. A support person responds to student requests and concerns, maintains up-to-date records, and informs students regarding all aspects of the program.

What must I do in order to earn my credential?

To earn your Mild/Moderate Education Specialist Credential you must complete the specified program courses. You must also demonstrate teaching proficiency through either student teaching or a practicum. You will be expected to demonstrate your comprehensive achievement of all TELOs through the formal presentation of a professional portfolio.

Which teaching jobs will the Mild/Moderate Education Specialist Credential prepare me to pursue?

The Mild/Moderate Education Specialist Credential allows you to teach as Resource Specialist or Special Day Class teacher in a variety of educational settings. Since students with mild to moderate disabilities participate in general education classrooms, teachers holding this credential are well-suited for collaborating with general education partners.

Who will guide my learning experiences?

**Fulltime Faculty**

- Louis Denti, Ph.D., Program Coordinator
  Inclusion – ethics in education – school restructuring – youth at risk
- Margaret (Peggy) Laughtlin, Ed.D.
  Language and literacy – bilingual methodology – critical pedagogy
- Jean Mitchell, Ph.D.
  Mathematics education
- Claudia Peralta-Nash, Ph.D.
  Bilingual education – children’s literature

**Adjunct Faculty**

- William H. Jones, Ph.D.
  Reading diagnosis – assessment
- Jennifer B. Madigan, M.A.
  Curriculum development – preferred practices

**Institute Staff**

- Jacqueline Means
  Administrative Support Assistant

Preparing teachers at CSUMB to serve students with learning challenges and their families affords the university an opportunity to realize its mission in a visible and viable way. Our teachers help students develop their potential by capitalizing on the strengths of our diverse cultural and linguistic educational community. In doing so, we embrace the true essence of service so integral to our vision as a university. For it is what you do to reach the hearts and minds of students that truly makes the teaching profession so rewarding.

—DR. LOU DENTI, COORDINATOR

Student Information Center (SIC)

Making Contact

- Student Information Center (SIC)
  - Location: Building 21 (see page 5 note)
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Saturday Hours: 9:00 A.M. to 12:00 P.M.
  - Information: 831-582-3518
  - Fax: 831-582-3783
  - FirstClass Conference: Student Info Ctr
  - Website: www.csumb.edu/info

Mission

Our CSUMB Student Information Center (SIC) staff helps you cut through the red-tape jungle. Need the right form for Admissions and Records or Financial Aid? We have it! Need to turn in paperwork for either of those offices? Turn it in here! There is “one-stop shopping” at the Student Information Center.

Look at the SIC posting board for on-campus and off-campus events. With prior approval, student information will be posted. If your family or friends would like a tour of the university, the Student Information Center will set it up Monday through Saturday.

Services

Some of the services available through the Student Information Center are:
- General information about CSUMB
- Tours of the campus
- Campus maps
- Help with completing admissions, financial aid, and loan applications
- Drop box for official documents for the Admissions and Records, Financial Aid, and Student Outreach and Recruitment offices
- Status checks on admissions and financial aid applications
- Preadmissions counseling for prospective students
- Course adds and drops
- All personal information changes (name, address, major, etc.)
- Academic year calendars
- Information on current degree programs and other educational and training programs
- Information on instructional, laboratory, and other physical plant facilities that relate to the academic programs
- Information regarding faculty and other instructional personnel
- Student retention and graduation data for CSUMB and, if available, for each academic program
- Names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its programs, and copies of accreditation, approval, and licensing documents
- Information concerning male applicants’ obligations to register in accordance with the Federal Military Selective Service Act

Student Outreach and Recruitment (SOAR)

Making Contact

- Student Outreach and Recruitment
  - Location: Building 21 (see page 5 note)
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-3518
  - Main Desk: 831-582-3738
  - Fax: 831-582-3783
  - FirstClass Conference: Student Info Ctr
  - Website: www.csumb.edu/info

Services

Student Outreach and Recruitment (SOAR) is committed to meeting your individual needs by offering a variety of services to promote enrollment at CSUMB and in higher education as a whole.

SOAR communicates extensively with high schools and community colleges, primarily in CSUMB’s tri-county region, to recruit prospective students and facilitate smooth transitions for those students from one academic institution to another. Toward this end, SOAR provides preadmissions counseling for students planning to attend CSUMB.

Prospective students and their parents are encouraged to contact SOAR to schedule a preadmissions counseling session or to inquire about when CSUMB representatives will be at a particular high school or community college campus.

Services

Educational Opportunity Program

Designed to improve access and retention support of low-income and educationally disadvantaged students, our Educational Opportunity Program (EOP) provides admission, academic, and financial assistance to EOP-eligible undergraduate students. EOP students have the potential to perform satisfactorily in the CSU environment, but have not been able to realize this potential because of economic or educational background.

Peer Mentor Program

By pairing incoming freshmen with returning students who serve as experienced advisors, our Peer Mentor Program helps new students adjust to the rigors of university studies and the CSUMB community.

Summer Bridge

A select number of prefreshmen participants are invited annually to participate in our rigorous Summer Bridge academic experience. Students enroll in ProSeminar and enriched technology, research, and math workshops. Summer Bridge students live on campus through the duration of the program. To be considered, you must apply through our Educational Opportunity Program or be recommended by our Student Outreach and Recruitment Office or Director of Admissions and Records.

Educational Talent Search

A federally funded program under the TRIO branch of the U.S. Department of Education, our Educational Talent Search program identifies and assists individuals from disadvantaged backgrounds who have the potential to succeed in higher education. ETS provides academic, career, and financial aid counseling to 1,200 participants in Monterey County encouraging them to graduate from high school and continue to the postsecondary school of their choice.

Upward Bound

Another federally funded program under the TRIO branch of the U.S. Department of Education, CSUMB’s Upward Bound program identifies and assists individuals from disadvantaged backgrounds who have the potential to succeed in higher education. UB provides academic, career, and financial aid counseling to 50 participants in southern Santa Cruz County encouraging them to graduate from high school and continue to the postsecondary school of their choice.

Student Academic Advising

Making Contact

- Student Academic Advising
  - Location: Building 12 East (see page 5 note)
  - Information: 831-582-3941
  - Director: 831-582-3940
  - Fax: 831-582-4329
  - Email: steve_brown@monterey.edu
  - Website: http://advising.monterey.edu

Services

Student Academic Advising is an academic support program that advises all CSUMB lower-division and undeclared students, and helps all CSUMB students learn more about the University Learning Requirements (ULRs), plan their general learning experiences, identify educational assets, and develop talents that they bring to the learning environment.

All students are required to go through the advising process at CSUMB, either through Student Academic Advising as a lower-division or undeclared student or through the major as an upper-division student. Student Academic Advising supports all students who are lower-division by helping plan how they will fulfill their ULRs and exploring prospective majors through workshops, group interaction, and individual peer counseling. Student Academic Advising also supports CSUMB students who have declared majors plan how to fulfill ULRs and general graduation requirements, and assists CSUMB students who become sidetracked to find ways to become more academically successful.

Student Academic Advising helps students in various important ways through multiple advisement channels:

- Selecting courses—helping students select courses to reach individual goals
- Internet-based course advising
- Residence hall advising
- Visits to the Student Academic Advising office
- Connecting to the campus—helping students become comfortable with CSUMB as their new home
- Phone calls
- Online questions and answers provided electronically
- Student Academic Advising webpage
- Eliminating confusion about college—helping students define what they expect from CSUMB and understand what the college expects from them
- ULR workshops—students learn about the ULR system and how to navigate it
- Building confidence—helping students raise their level of performance and achievement
- One-on-one peer counseling—students sit down with a peer counselor and work on personal academic advisement needs
- Providing career selection assistance—helping students develop a gameplan for the future
Accommodations

As a model, pluralistic, academic community, CSUMB supports the full integration of diverse segments of the campus community into campus life. Students with a temporary or permanent disability will find faculty and staff throughout campus who may assist them in their efforts to be reasonably accommodated. CSUMB is committed to serving students with disabilities by creating an accessible environment and responding to individual needs.

To Request Disability-Related Services

- Contact the Office for Student Disability Resources (SDR).
- Complete the SDR Needs Assessment Form.
- Provide the Office for SDR with detailed documentation of your disability from a qualified medical doctor or disability specialist. (Forms available from SDR if needed.)
- Schedule an appointment with the SDR coordinator or disability advisor.
- Contact the above offices early to ensure full consideration of student requests and needs.
Articulation

Making Contact

- Articulation
  - Location: Building 12 East (see page 5 note)
  - Information: 831-582-3841
  - Fax: 831-582-3357
  - Email: steve_brown@monterey.edu
  - Website: www.csumb.edu/academic/articulation

Services

“Articulation” is the term used to refer to written agreements between California State University, Monterey Bay and other institutions within the California Community College (CCC), University of California (UC), or California State University (CSU) systems, as well as various independent colleges and universities.

Articulation agreements are developed for the transfer of coursework toward the requirements of an academic major. These articulation agreements spell out how specific courses completed at another institution either match up with specific courses taught at CSUMB, or meet specific University Learning Requirements (ULRs) or Major Learning Outcomes (MLOs). Articulated courses are not to be construed as “equivalent,” but rather as comparable courses (i.e., the content assures similar outcomes and supports advancement to the next level of instruction).

The CSUMB Articulation Office oversees the articulation process. This office assures that appropriate CSUMB academic Institute faculty members review courses and approve all agreements involving articulation of coursework in an academic major.

CSUMB participates in the CAN (California Articulation Number) system and Assist, the statewide articulation database depository.

Career Development

Making Contact

- Career Development
  - Location: Building 44 (Sixth Avenue)
  - Weekday Hours: 8:30 A.M. to 5:00 P.M.
  - Information: 831-582-3845

  - Fax: 831-582-3093
  - Email: career_development@monterey.edu
  - FirstClass Conference: Career Services
  - Website: http://sacd.monterey.edu/career/index.html

Services

Career development services include a broad spectrum of student employment-related opportunities and career exploration services including:

- On-campus part-time job opportunities
- Off-campus job and internship positions
- Career exploration and guidance resources
- Workshops and career advising
- General graduate school information
- Standardized test packets for graduate school such as the GRE, GMAT, and LSAT
- Job fairs and on-campus interview program
- International study and work abroad information
- Computer lab with career exploration and industry database resources

Academic Skills Achievement Program

Making Contact

- Academic Skills Achievement Program (ASAP)
  - Location: Building 12 East (see page 5 note)
  - Tutoring Information and Appointments: 831-582-4104
  - Director: 831-582-3847
  - Fax: 831-582-3390
  - Email: ray_gonzales@monterey.edu
  - Website: http://asap.monterey.edu/

Services

The Academic Skills Achievement Program (ASAP), open to all students, offers peer tutoring services, one-credit tutorial workshops, and some four-credit classes to complement coursework in the areas of writing, mathematics, computer technology, science, and languages. Students access these services via ASAP Tutorial Workshops (see the course descriptions at the back of this catalog), appointments, and drop-in tutoring. ASAP facilities include a computer lab and areas for group and one-on-one study.

ASAP employs student-to-student, collaborative, and active learning experiences in its promotion of academic excellence. By offering students the opportunity to work with academically successful peers, ASAP expands the learning approaches that CSUMB offers its diverse student population. ASAP also employs professional tutors who are college graduates and credentialed teachers for the upper-division writing programs. CSUMB students get help ASAP through the following programs.

ASAP Tutorial Workshops

Students can join peer-led study groups of three to six students during the first few weeks of each semester. Each study group is organized for a specific course, such as PROS 100, HCOM 211, STAT 200, or ESSP 220 (see course listing for additional courses). Students work on assignments and materials from their class in the study group. ASAP also conducts workshops throughout the academic years on such topics as notetaking, vocabulary building, ESL, grammar, and punctuation.

Appointment and Drop-In Tutoring

ASAP encourages students who want tutorial help to make an appointment 24 hours in advance by calling 582-4104, signing up on our website, or dropping by our offices in Building 12, East Wing. Students may also visit the ASAP office during drop-in tutoring hours and get on-the-spot help with assignments, research, and study skills within reason. ASAP also offers evenings and Sunday hours.

ASAP Tutors

Every semester, ASAP recruits students who have demonstrated outstanding achievement in their areas of specialty and who have excellent communication and personal skills. ASAP offers an intensive training program which enables these students to develop teaching skills and learn how best to contribute to the academic success of their peers as student tutors. Students interested in becoming ASAP tutors should contact the ASAP office for more information.

ASAP also recruits professional tutors for upper-division writing programs to meet the GWAR requirement. These professional tutors are all graduates, many with advanced degrees and teaching credentials.
Migrant Student Support Services (MSSS) and College Assistance Migrant Program (Camp)

Making Contact
- Migrant Student Support Services (MSSS) and College Assistance Migrant Program (CAMP)
  - Location: Building 201 (see page 5 note)
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-3304
  - Fax: 831-582-3303
  - Email: migrant_support@monterey.edu
  - Director: carlos_gonzales@monterey.edu

Services
To help fulfill CSUMB’s commitment to “serving the diverse people of California, especially the working class and historically undereducated and low-income populations,” Migrant Student Support Services (MSSS) and the College Assistance Migrant Program (CAMP) provide transition and retention services to students of the migrant and seasonal agricultural population.

A federally funded program with in-house support including a counselor, academic advisor, and outreach specialist, CAMP serves freshmen students addressing their special needs including orientation; assessment; academic advising; career and personal counseling; leadership skills; language, reading and writing development; self-esteem building; cultural enrichment; and, if eligible, financial assistance.

MSSS offers services to enhance retention, graduation, and success rates to all migrant students other than those freshmen participating in CAMP. MSSS assumes the role of advocate and offers workshops in support of academic requirements and academic schedules. Development, learning, and achievement aspects are monitored to ensure academic success and personal growth. Students in need of group and individual tutoring are referred to the Academic Skills Achievement Program (ASAP) whenever necessary.

MSSS and CAMP offer services that are coordinated, efficient, and effective in helping migrant students pursue their college degrees. Students are also conditioned to become leaders who will, in turn, support and encourage education for the general migrant population. MSSS and CAMP also serve as liaisons to the Migrant Education regional offices in the Tri-County area.

Goals
- To ensure educational exposure including a knowledge and understanding of the academic environment and campus life
- To engrain study, library, research, critical thinking, and computer skills
- To develop interpersonal communication skills including how to address social and personal issues
- To gain demonstrated competency in challenging subject matter including English, mathematics, and science
- To become role models who inform other migrant students of the importance of social, emotional, and academic growth

ProSeminar (PROS)

Making Contact
- Location: Building 45 (see page 5 note)
- Information: 831-582-3806
- Fax: 831-582-3873
- Email: gwenda_plaisance@monterey.edu

Program Overview
ProSeminar is a three-stage program that orients students to CSUMB, introduces the habits of academic inquiry, and provides the opportunity to develop the values, knowledge, skills, and abilities which form a foundation for lifelong learning. It is intrinsically linked to CSUMB’s academic mission, learning goals, and core values as defined in the University Learning Requirements (ULRs) and Major Learning Outcomes (MLOs). ProSeminar seeks to infuse an appreciation of the basic values of CSUMB’s culture through an emphasis on responsible communication, multiculturalism, student-centered and applied learning, connected knowing, technological infusion, performance accountability, and ethical decision making.

In the entry-level ProSeminar, students explore one of the most important underlying themes of CSUMB: appreciation and respect for diversity of background, values, communication styles, and experience. The ProSeminar program emphasizes participation in peer-based learning communities. Relationships formed here will support and sustain students’ educational journeys at CSUMB and beyond.

ProSeminar 100
ProSeminar 100 is a first-year seminar in which students develop an Individualized Learning Plan (ILP) identifying the knowledge, skills, and abilities required to meet their personal, social, and professional goals. Students review the general learning goals and the specific ULRs and incorporate into their ILPs those courses, projects, and fieldwork experiences needed to meet their objectives.

Major ProSeminar
ProSeminar 300 (Major ProSeminar) is a junior-level seminar offered by each undergraduate degree program. It provides opportunities for students to acquire and develop the knowledge, skills, and theoretical understanding needed to fulfill MLOs for a specific major. The Major ProSeminar also allows them to rethink their academic and career objectives in light of their lower-division learning experiences. Students prepare a learning plan designed to guide the remainder of their educational experience at CSUMB, and they identify the subjects or problems which will be the focus of their research, writing, and scholarly or career-related projects. ProSeminar 300 also serves to integrate upper-division transfer students into CSUMB’s culture of interdisciplinary, learner-centered education.

ProSeminar 400 (Senior Capstone) provides the culmination of each student’s course of study. Seniors demonstrate the knowledge and skills they have acquired through scholarly and creative projects which cap their undergraduate experience and prepare them for continued personal development, graduate study, professional careers, and participation in social and civic communities.
Teaching, Learning, and Assessment

Making Contact
- Center for Teaching, Learning, and Assessment (TLA)
  - Location............................... Building 10
  - Information......................... 831-582-4539
  - Director.............................. 831-582-4517
  - Fax.................................. 831-582-4545
  - Email............................... amy_driscoll@monterey.edu

Mission
The Center for Teaching, Learning, and Assessment supports faculty and students by guiding the development of the pedagogy, curriculum, and assessment necessary to promote the University Learning Requirements (ULRs) and the Major Learning Outcomes (MLOs) of CSUMB. CSUMB faculty members commit themselves to responsive teaching and learning in pursuit of excellence through integration of technology, service and reflection, discipline-specific components, and professional preparation. TLA provides resources, workshops, individual and program consultations, and facilitated development of approaches and supportive contexts for such teaching and learning.

Assessment Options
To respond to the diversity of student learning styles and approaches, life situations and experiences, and need for alternatives in higher education pursuits, there are three learning and assessment options available to students at CSUMB. The three options require that faculty members have a broad repertoire of innovative teaching and learning approaches as well as assessment options to address varied outcomes for varied learners. These three options are:
- Formal courses with assessment
- Alternative pathways with independent assessment
- Prior learning assessment

Formal Courses with Assessment
In the most common scenario, students have not yet developed the knowledge and skills necessary to achieve the ULRs and MLOs and prefer the more traditional way to work toward the requirements through coursework. Thus, CSUMB offers formal courses designed to assist students in the achievement of the required outcomes through the teaching, learning, and assessment components of those courses.

Alternative Pathways with Independent Assessment
In some cases, students prefer an independent or alternative learning experience to work toward ULRs, MLOs, or individual educational goals. Toward this end, CSUMB policy supports student pursuit of informal learning experiences on or off campus, research or field-based projects with faculty and other students, coursework at other institutions, and individually designed learning plans. With any of the options for alternative learning, students must be able to demonstrate achievement of targeted outcomes. Students register to plan and pursue the alternative pathway and to demonstrate achievement of ULRs and MLOs through an independent assessment process.

Prior Learning Assessment
In some cases, students believe that, through prior study or life experiences, they have already achieved the knowledge and skills targeted by the ULRs or MLOs. In these cases it is not necessary for students to engage in additional learning experiences, but rather to reflect on their prior learning experiences and demonstrate their achievement. Students must register to engage in an independent assessment process to show that they have acquired the knowledge and skills specified by each ULR or MLO.

Writing Program

Making Contact
- Writing Program
  - Location............................... Building 27 (see page 5 note)
  - Information......................... 831-582-3091
  - Fax.................................. 831-582-3873
  - Email............................... susan_wyche@monterey.edu

Mission
The Writing Program draws on recent theories of language learning to implement writing instruction which responds to diverse learning styles, creates communities of learners through collaborative pedagogies, and assesses competency using methods that recognize the demonstration of proficiency developed both in courses and through independent learning experiences.

Writing is a highly complex skill that takes time and extensive experience to develop and, as recent studies point out, cannot be separated fully from the context in which it occurs. The ability to write effectively, to express feelings, report research, reflect critically on complex issues, resolve conflicts, and argue persuasively affects students academically and plays a central role in their personal, professional, and civic success.

Program Overview

Writing across the Curriculum
To promote writing skills that serve multiple contexts, communities, and purposes, CSUMB fully integrates writing across the curriculum. Students encounter writing assignments and activities not only in obvious academic areas, such as Human Communication and Liberal Studies, but throughout every academic discipline, work opportunity, service learning experience, and student activity.

Faculty Development and Student Support
Because the responsibility for developing writing abilities is shared universitywide, the Writing Program provides broad-based support to both faculty and students. Faculty support includes development workshops and individual consultation aimed toward designing, delivering, and evaluating effective writing instruction. Student support, offered in conjunction with the Academic Skills Achievement Program (ASAP), includes a variety of supplemental instruction options such as peer-led tutorial workshops and drop-in tutoring tailored to individual and course-based needs.

  - Address: 7277 Lone Pine Dr. #C202
  - Hours: Monday to Friday, 8:00 A.M. to 5:00 P.M.
  - Information: 800-853-5899 or 916-314-5500
  - Fax: 916-314-5525
  - Email: kathy@ssi-incorporated.com
  - Website: www.ssi-incorporated.com

**Policy**

All students living on campus and all international students must have medical coverage. Please note that the Campus Health Center (CHC) and Student Health Insurance are separate programs. Whether or not you are covered by the CSUMB-sponsored student health insurance, you may still use the CHC.

If you have medical insurance prior to coming to CSUMB, you must complete an insurance waiver form prior to registration and return it to the Residential Life Office.

If you do NOT have medical insurance prior to coming to CSUMB and you live on campus, you will need to purchase medical insurance. CSUMB offers student insurance through Somerton Student Insurance Inc. Somerton may be contacted directly or pamphlets are available at the Student Information Center.

---

**Student Support Services**

**Campus Health Center**

**Making Contact**
- **Campus Health Center (CHC)**
  - Location: Building 99 (see page 5 note)
  - Weekday hours: 8:00 A.M. to 5:00 P.M.
  - Information/Appointments: 831-582-3965
  - Fax: 831-582-3976
  - TTY: 831-582-4654
  - Website: http://health.monterey.edu

**Mission**

The Campus Health Center (CHC) is available to the entire campus community—students, faculty, staff, and their families. The CHC provides the highest level of urgent and primary care plus ancillary and referral services. The CHC medical professionals dedicate themselves to meeting the health needs of the campus community, promoting wellness and independence, and collaborating with local and regional resources to provide comprehensive services.

**Services and Fees**

There are generally no charges to enrolled CSUMB students for basic level medical services and some diagnostic lab tests done at the CHC. Reduced fees are charged for medications, x-rays, immunizations, allergy injections, and loaned equipment that is lost or damaged. There is a processing charge for obtaining copies of medical records. Missed appointments also result in a charge.

Faculty, staff, and their dependents as well as student dependents may receive the same services as students from the CHC, however, all care is provided on a fee-for-service basis. The CHC is a member of the Blue Cross Prudent Buyer Provider Network and can bill this carrier if a patient is covered.

A current fee schedule and detailed information regarding available medical services are available at the CHC.

**Calling to schedule appointments is recommended.**

**Medical Care When the CHC is Closed**

For medical care when the CHC is closed, students may go to the Doctors on Duty clinics listed below. (Please bring your CSUMB student ID card for discounted rates.)

- **Doctors on Duty, Marina**
  - Location: 3130 Del Monte Avenue
  - Hours: Monday to Friday, 8:00 A.M. to 6:00 P.M. Saturday, 10:00 A.M. to 3:00 P.M.
  - Information: 831-883-3330

  - CSUMB Child Development Center: 831-582-4550
  - Fax: 831-582-4384
  - Email: child_care@monterey.edu
  - Website: www.csumb.edu/student/child/

Services

CSUMB provides one child development center on campus for children ages 12 weeks to 5 years old. Enrollment is limited, so early registration is advised. Fees are based on a sliding scale according to family income. Questions about childcare services may be directed to the site supervisor of ChildCare Services. Applications for enrollment are available at the CSUMB ChildCare Services Office or at the CDC Website.

Childcare services are also available to CSUMB students through an agreement with the U.S. Army Presidio of Monterey. The Presidio offers two types of childcare: preschool and school age. Preschool childcare for children of CSUMB students ages 6 weeks to 5 years old is available on a limited basis at the U.S. Army’s Monterey Road Child Development Center. CSUMB students are also eligible for childcare provided by the Presidio of Monterey in their Family Care Centers.

Family Care Centers are homecare providers cleared, approved, and licensed by the U.S. Army’s Child Development Center. They provide a homestyle atmosphere for children who are not comfortable in a larger child center environment. Kindergarten-aged to 18-year-old children of CSUMB students, staff, and faculty are eligible for immediate placement in the Presidio’s Youth Services programs. Fees are based on a sliding scale depending on family income. Further information on these programs is available from the Presidio’s Porter Youth Center or CSUMB Childcare Services. Additional childcare resources are added periodically. Contact ChildCare Services for information on the most up-to-date childcare alternatives. Fee schedules and maps to all childcare locations are also available at the ChildCare Services office.

Personal Growth and Counseling Center

Making Contact

- **Personal Growth and Counseling Center (PGCC)**
  - Location: Building 99 (see page 5 note)
  - Hours: Monday to Friday, 8:00 A.M. to 5:00 P.M.
  - Information/Help: 831-582-3969
  - Appointments: 831-582-3969
  - Fax: 831-582-4384
  - Email: counseling_center@monterey.edu
  - Website: www.csumb.edu/student/child/

After Hours, Weekends, Holidays

- **Emergencies**
  - Phone: 9-1-1
  - Services: For life threatening emergencies or transportation

- **Community Hospital of the Monterey Peninsula (CHOWP)**
  - Phone: 831-625-4623
  - Services: Crisis Team, 24-Hour Crisis Line

- **Family Service Agency**
  - Monterey office: 831-373-4421
  - Salinas office: 831-757-7915
  - Seaside office: 831-394-4622
  - Weekday Hours: 9:00 A.M. to 5:00 P.M.

- **Peer Counseling**
  - Location: 3001 Antietam Court
  - Office Phone: 831-582-4850
  - Res Hall Phone: 831-582-4544
  - Monterey Rape Crisis Center
    - Phone: 831-375-4357
    - Hours: 24 hours/365 days
    - Services: Rape/sexual assault counseling

Mission

The mission of the Personal Growth and Counseling Center (PGCC) is to promote the mental health of CSUMB students in order to improve the quality of their lives and aid them in achieving academic success. The PGCC is committed to the development of the whole person—academically, personally, socially, spiritually, and physically.

The PGCC provides high quality crisis intervention, counseling, consultation, educational outreach programs, support groups, and referrals, all designed to help students:

- Resolve personal problems that interfere with academic success.
- Develop healthy relationships, grow personally, and enhance individual potential.
- Cope with and adjust to college life and pressures.
- Resolve life crises that threaten persistence in college.
- Deal with problems stemming from personal life experiences, trauma, and situational stress.
- Learn skills to optimize decision making, problem solving, communication, stress management, and conflict resolution.
Philosophy
The PGCC philosophy is to value the self-worth of each individual, respect and embrace human diversity, and provide services that aid the development of healthy behaviors necessary for success.

Services for Students
The PGCC helps students succeed academically and personally and is fully committed to providing students with the very best counseling. The following services are available:
- Sessions: Short-term counseling and crisis/drop-in services are offered to CSUMB students. Services are free of charge to students and the Center takes seriously its responsibility to respond to all who request services. If the counselor and student determine that more time is needed than can be provided by the Center, the staff will help the student find an appropriate professional counselor/therapist off campus. In addition, if a student cannot comfortably work with a particular counselor, it is possible to arrange to see a different counselor; the PGCC is committed to making a good fit between student and counselor.
- Groups: Groups provide a positive learning environment for many students. Both general and specialized groups, where students learn specific skills in a supportive setting, are offered based on student demand and need. Groups are scheduled at times convenient to group members.
- Training: Specific psycho-educational training workshops are provided for students and staff to promote the healthy growth and development of a campus environment.
- Peer Counseling: Peer counselors trained and supervised by the Personal Growth and Counseling Center offer support, outreach, advocacy, and referrals to students and their families in a nonjudgmental and safe environment near student residences.

Services for CSUMB Campus Community
The National Coalition Building Institute (NCBI) CSUMB Campus Affiliate works to end racism and all other forms of prejudice and mistreatment by developing leaders who take risks to end injustice. We offer training in skills that build bridges and welcome diversity.

Confidentiality
Information communicated to a counselor is confidential. The fact that a student is seeing a counselor does not appear on any academic record. Law protects the student right to confidentiality. Confidentiality may not be protected in cases involving child abuse, suicide, homicide, and individuals who are gravely disabled and unable to care for themselves. In such cases, the counselor will be legally required to make outside reports (where appropriate) of information obtained during counseling sessions. The PGCC counselor will always inform the student when confidentiality must be broken and explain why.

Spiritual Needs
Making Contact
- The Campus Ministry Council
  - Address: PO Box 1296, Carmel, CA 93921
  - Information: 831-394-1312
  - Email: aprange@juno.com
- Office of Student Activities and Career Development (SACD)
  - Location: Building 44 (Sixth Avenue)
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-3845
  - Coordinator: 831-582-3329
  - Fax: 831-582-3093
  - Email: s_activity@monterey.edu
  - Website: www.csumb.edu/student/activities

Mission
The mission of the Campus Ministry Council is to:
- Encourage respect for religious conscience and toward all faiths and spiritual traditions.
- Support religious organizations and ministries which represent and serve students, faculty, and staff in providing religious activities.
- Facilitate the provision of spiritual resources to the communities of higher learning in the Monterey Bay area.

Services
The Campus Ministry Council meets monthly to accomplish its mission. The meetings are open to all interested persons especially those representing campus student organizations and religious and spiritual communities from the area.

Students and community religious leaders work to meet the needs of CSUMB students. Local places of worship are open to students and information about them may be obtained in the Saturday edition of The Monterey County Herald newspaper or the local area yellow pages. Students interested in maintaining and developing spirituality may wish to join or form student organizations. Information about the process of student group formation and recognition may be obtained by calling the Student Activities and Career Development (SACD) Office.
Otter Card Services

Making Contact

- **Otter Card Services**
  - Location: Building 82E (see page 5 note)
  - Weekday Hours: 8:00 A.M. to 5:00 P.M.
  - Operations Manager: 831-582-3589
  - Technical Support: 831-582-4494
  - Fax: 831-582-4300
  - Email: ottercard@monterey.edu
  - Website: http://ottercard.monterey.edu

**Services**

The Otter Card serves as a student’s identification card, library card, campus shuttle and Otter Sports Center pass, discount card at participating local retailers, and electronic access card to certain campus buildings. It also may be used as a debit card for use at all dining facilities, Residence Hall laundry rooms, the campus bookstore, and select vending and copy machines. Students may purchase units called “Otter Bucks” (minimum $25.00 purchase required), which will be encoded on their Otter Card for debit card transactions. Otter Cards are available in building 82E with proof of registration fee payment. Students are issued one free Otter Card during their academic career at CSUMB. Replacement of an Otter Card due to loss, theft, name change, or damage caused by misuse or neglect is provided for a fee.

University Bookstore

Making Contact

- **University Bookstore**
  - Location: Building 29, University Center
  - Weekday Hours: 8:30 A.M. to 5:00 P.M.
  - Saturday Hours: 10:00 A.M. to 3:00 P.M. (during semesters)
  - Information: 831-883-1062
  - Fax: 831-883-1128
  - Website: http://csumonterey.bkstore.com

**Services**

The University Bookstore offers textbooks, a variety of trade publications, reference books, school supplies, and clothing. Plus, all of the latest software versions are available at low prices, and any software not regularly stocked can be special ordered.

With a receipt, textbooks can be returned for a full refund within the first two weeks of each semester. Students can sell their books back at the end of the semester or during finals week. They receive half the purchase price if the book is being used for the next semester.

The Bookstore features an array of logo items including the very popular CSUMB clothing line. There are sweatshirts, T-shirts, caps, mugs, golf balls, key chains, and other merchandise in a wide range of prices, colors, sizes, and styles.

For food and personal items, the Bookstore offers the Marketplace. The Marketplace is a convenience store that has a large selection of candy, snacks, sodas, cappuccino, ice cream, dairy products, and health and grooming aids.

Whether students are browsing or buying, looking for software or giftware, or choosing between T-shirts and golf tees, the University Bookstore offers a variety of items that will meet their needs.

University Center (UC)

Making Contact

- **University Center (UC)**
  - Location: Building 29
  - Monday-Thursday Hours: 8:00 A.M. to 9:00 P.M.
  - Friday Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-4111
  - Fax: 831-582-3343
  - Website: www.monterey.edu/universitycenter

**Services**

The University Center boasts 20,000 square feet dedicated to students, faculty, staff, and community outreach programs. It also houses the Office of Conference and Event Services. This facility includes:

- University Bookstore
- University Living Room—a lounge area for meeting, talking with friends, and doing light studying
- Commuter Lounge with lockers, Ethernet ports, and large tables for studying
- Two patios with outdoor lounge areas and fireplace
- Ballroom with 6000 square feet for conferences, speakers, dances, and performances
- Three meeting rooms which can be combined into one large meeting room
- Entry court featuring indoor and outdoor landscaping
- ATM
- Otter Bay Café and Catering Services

Student Support Services
Student Support Services

University Police Department

Making Contact
- University Police Department (UPD)
  - Location: Building 82E/F
  - Weekday Office Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-3360
  - Community Service Officers: 831-582-3573
  - Transportation and Parking: 831-582-3573
  - Dispatch Center (24-hour): 9-1-1 (emergency) 831-655-0268 (non-emergency)
  - Fax: 831-582-3384
  - Email: police_department@monterey.edu
  - FirstClass Conference: Police Department
  - Website: http://police.monterey.edu

Mission
A fully certified, state law enforcement agency, the University Police Department of CSUMB provides a complete range of services for the campus community. Police officers possess the same power, authority, and training as municipal, county, and state law enforcement officers. As the primary law enforcement agency on university property, the UPD oversees all aspects of public safety. Officers are available at any time to respond to reports of criminal activity, suspicious circumstances, traffic collisions, safety hazards, and medical and fire emergencies in conjunction with other emergency service providers.

Police Services

Crime Investigation and Emergencies
UPD personnel handle criminal complaints and other investigations from initiation to completion. When appropriate, criminal investigations will be referred to the Monterey County District Attorney’s Office for prosecution. Criminal matters and other forms of misconduct involving CSUMB students, employees, and residents may also be referred to the appropriate university administrator for corrective action.

If the station is closed, a blue light phone is available by the front door for reporting any public safety emergency.

Community Service Officer (CSO) Program
The Community Service Officer (CSO) Program is a component of the University Police Department. CSOs are student employees who perform a variety of tasks to help maintain a safe campus environment. CSOs staff the police station during business hours and on weekday evenings to provide expanded service to the campus community. Additional duties include building security, clerical support, and assistance with special events.

NightWalk Service
A major component of the CSO Program is the NightWalk Service. The NightWalk Service provides students, staff, and faculty members with an escort Monday through Friday evenings between dusk and midnight during fall and spring semesters to accompany people between on-campus locations.

Community-Oriented Policing and Problem Solving (COPPS)
Community policing involves police officers in a specific section of the community with ownership on a long-range basis. The key element is geographic ownership. University police officers work to organize the resources of the community, the police department, and other appropriate agencies to reduce crime and address the various needs of the community.

Community policing follows a philosophy of caring, working with and helping people through the utilization of a problem solving approach. This often means helping people informally when formal systems do not seem to work.

Community policing and problem solving is the dominant approach applied by the University Police Department at CSUMB. For more information on the COPPS program, please contact the University Police Department.

Transportation and Parking Services (TAPS)
CSUMB administers a comprehensive parking program as required by state law and the policy of the CSU Board of Trustees. The elements of the parking program are:
- Establishment of traffic and parking regulations for the campus
- Designation of specific parking lots and portions of parking lots for use by employees, students, and visitors
- Establishment and collection of fees for parking on campus
Traffic and parking regulations require that students parking motor vehicles on campus purchase a parking permit and display the permit in their vehicle. Vehicles parked in the Schoonover Park and Frederick Park housing areas are exempt from this regulation. The regulations also specify where parking is permitted (posted parking lots, etc.) and where parking is prohibited (on walkways, off paved surfaces, outside of marked parking lot stalls, etc.). A schedule of parking penalties (fines) has been adopted to enforce the regulations. All penalties are based on comparable CSU and local municipal penalty schedules. Students may obtain a copy of the regulations from the TAPS office, the police department conference folder on FirstClass, or the police department Website.

Parking Permits
Parking is allowed only in designated, posted parking lots. Students with valid CSUMB parking permits may park in any nondesignated space. General student parking in spaces reserved for metered parking, visitors, loading and unloading, state vehicles, service vehicles, and disabled persons is prohibited. Parking permits valid for one semester cost $54 (payable at the Cashier’s Office). One permit is issued per student and may be displayed in any vehicle the student may drive to campus. Students who elect to purchase a semester parking permit will have the $35 student transportation fee waived and will have access to both parking and shuttle service.

Students may also obtain up to two supplementary permits. Supplementary permits are intended for students who drive more than one vehicle and do not wish to transfer a permit among the vehicles or desire to provide occasional parking privileges to family members. Supplementary permits cost $10 each and are purchased at the TAPS Office.

Separate permits are issued for motorcycles, one per vehicle. Motorcycle permits cost $13.50 per semester and the cost is incor-
Emergency Preparedness

Making Contact

- Business and Support Services
  - Location: Building 84B (see page 5 note)
  - Operations Manager: 831-582-3589
  - Fax: 831-582-4300
  - Email: dino_latino@monterey.edu
  - Website: http://emergencypreparedness.monterey.edu

Services

The campus emergency plan, formulated in accordance with state guidelines, is available to guide emergency personnel should a disaster or major emergency occur. CSUMB is committed to providing a safe environment for the campus community. Plans have been developed to guide emergency personnel should a disaster or major emergency occur. An emergency preparedness handbook, distributed to campus personnel, addresses important subjects such as CPR, evacuation procedures, and critical telephone numbers which may be needed in an emergency. Questions regarding emergency preparedness should be directed to the Business and Support Services department. American Red Cross CPR and first aid instruction may also be arranged through the Emergency Preparedness Office.

Wheelchair Accessibility

Transportation and Parking Services provides paratransit service for students, faculty, and staff unable to ride the shuttle bus due to physical disability. The Office of Student Disability Resources (SDR) verifies student eligibility for this service. Faculty and staff eligibility is verified by the Equal Employment Opportunity (EEO) office.

A special shuttle that offers wheelchair accessibility is available. Service is offered from 7:00 A.M. to 11:30 P.M. Monday through Friday. The schedule may change during holidays and breaks. Passengers should contact the TAPS Office for more information.

Mission
The CSUMB Library mission is to help prepare knowledgeable, resourceful, and responsible citizens for California and the global community by facilitating active exploration, discovery, and synthesis of information.

CSUMB Collections
The CSUMB Library emphasizes electronic and digital resources in developing collections for students, faculty, and staff. While our library is small in terms of physical size, the electronic collections and the document delivery and interlibrary loan services are extensive and characteristic of those found in much larger academic institutions. For example, over 10,000 electronic journals and magazines are accessible from our website.

Access to CSUMB Collections
Voyager, the CSUMB Library catalog, provides descriptions and locations for the 50,000+ books, 450+ print journals, and 1,300+ videos in the library’s collections. Voyager may be accessed via the Web (http://library.monterey.edu).

A detailed list of all print and electronic journals, magazines, and newspapers (over 10,000 titles) is available at the CSUMB Library website (http://library.monterey.edu/serials). Electronic indexes (some include abstracts) to the articles in journals, magazines, and newspapers are also available at the library website, while coverage of older materials is available through print indexes. Easy access to electronic and digital resources is available seven days a week, 24 hours per day from any computer on campus or from home computers via modem and the CSUMB campus proxy server.

The library uses an electronic course reserve system named ERes for most faculty selected course readings. This system takes advantage of the enormous capacity the Web provides for obtaining and sharing information. ERes is accessible to all students via course password (http://eres.monterey.edu).

All currently enrolled CSU students, faculty, and staff may borrow materials from the CSUMB Library. The library is open to the public, although some services are available only to CSUMB affiliated persons. Book lending periods are:
■ CSU undergraduates ~ 3 weeks
■ CSU graduates, faculty, and staff ~ 6 weeks
Most items may be renewed by phone, via email, or in person.
Non-electronic course reserve and audio-visual materials circulate to CSUMB patrons only for a specific time period, while reference materials, periodicals, and journals are library use only and do not circulate.

Access to Other Academic Library Collections
Our Document Delivery/Interlibrary Loan Department provides services to all CSUMB students, faculty, and staff. As many as ten books and articles may be requested each week from other academic libraries in California and across the United States at no charge. Convenient request forms are located at the CSUMB Library website (http://library.monterey.edu/services/csumb/docrequest.html).

CSUMB students, faculty members, and staff members may also borrow materials from Monterey Peninsula College, Hartnell College, and the Marina and Seaside Branches of the Monterey County Public Libraries. Onsite use of materials is available at the Naval Postgraduate School and most other local libraries.
Services and Facilities

Professional academic reference librarians are available to help library users define, research, and locate information on any topic. They are available in person at the Reference Desk, by telephone (831-582-3872), by email (library_reference@monterey.edu), or through the library website (http://library.monterey.edu/services/eref/html).

The Library Instruction Webpage offers self-paced tutorials (http://library.monterey.edu/instruction/tutorials/index.html). Workshops and individualized instruction are also available for all students, in particular reentry and transfer students who would like to update their library use and research skills. Many instruction sessions are held as part of specific courses; we encourage students to request these through course instructors. To request one-on-one consultation, email us (library_instruction@monterey.edu).

The library includes open seating, group study rooms, a Listening/Viewing Room with various assistive technologies, and self-service photocopying. PC/Windows computers located near the Reference Desk are available for library research.

The CSUMB Electronic Community

CSUMB students, staff and faculty members, and administrators share a variety of information and technology resources that maximize productivity and interactivity for all. In fact, people often refer to CSUMB as an electronic community because many of the university’s social and educational interactions happen online.

Reflecting the changes in hardware and software capabilities that occur rapidly in this information age, CSUMB’s resources are updated and expanded regularly. A team of specialists works to assure that campus resources keep CSUMB on the proven edge of higher education technology. Lots of other places talk about being on the “cutting edge.” As fast as technology improves though, only top technology firms can survive on that edge, and it comes at a huge financial cost when the cutting edge doesn’t cut it at all. To assure that we get the most mileage out of the precious dollars that come out of the pockets of taxpayers and those paying fees, we operate on the “proven edge” of technology. CSUMB partners with the best in the business to give you access to technology that has proven to be educationally beneficial.

OtterNet

All campus computers are connected to each other and the Internet through OtterNet, the campus voice, video, and data local area network (LAN). To keep CSUMB on the proven edge of network technology, we have launched a multiyear upgrade project called OtterNet 2000 to support advancements in our student registration system, online coursework, campus email system, file and Web servers, audio/video streaming capabilities, and telephony.

Since CSUMB opened in 1995, students have been able to connect to OtterNet via direct Ethernet connection from the residence halls and via modem from on-campus student apartments and off-campus locations. Now we have added the convenience of anytime, anywhere wireless access on our main campus.
Wireless Network
As the first public university in California to launch a wireless campus network, CSUMB gives members of the campus community wireless access to the high-powered OtterNet campus network in meeting, eating, and gathering places, both inside and outside of buildings across the main campus.

The wireless network maximizes your opportunities to:
- Stay in touch with professors, friends, and family with email access.
- Get online course information both during class and while studying.
- Tap into valuable knowledge resources with Internet access.
- Tap into CSUMB Library resources.

Seal Server
CSUMB maintains a campus server, called the Seal Server, which you can access to store your portfolios of work, submit assignments to professors’ drop boxes, and develop and host personal websites. Every student is allotted storage space on the Seal Server, which includes private space readable only by the student, space readable by anyone on campus, and space readable by anyone on the Internet.

CourseInfo
CourseInfo is the learning management system used by professors to deliver courses online. Students can view class materials, exchange messages with the professor and other students, chat, and take quizzes. In some cases, professors use this system to create a fully online experience.

FirstClass
FirstClass serves as our campus electronic mail and collaboration system. You can use the FirstClass system to communicate with professors, fellow students, administrators, staff, and anyone on the Internet. FirstClass also has an online chat function that allows you to informally discuss ideas with other students and faculty members online in real time. You may also submit your class assignments via FirstClass by attaching them to an email message. FirstClass has an area referred to as conference space which enables special interest groups to post messages on a variety of topics. Most CSUMB student organizations post notices about upcoming events, meetings, fieldtrips, and other activities in special FirstClass Conference folders. This catalog lists many of these FirstClass Conferences in the contact information section for various programs. Other FirstClass Conferences may be discovered by perusing the Conference Fast Find! folder.

Global Electronic Community
CSUMB’s OtterNet connection to the Internet enables you to obtain information from throughout the world, send email to off-campus contacts, visit Websites, do online research, and access global databases. All students are encouraged to develop Websites for themselves. In classes and service learning experiences, students work collaboratively to develop Websites for community groups, student organizations, and academic Institutes and majors. Student projects and class assignments are frequently published on the Web where they can be accessed from all over the world. Being a member of CSUMB’s electronic community allows you to be a more active member of a global electronic community.

CSUMB.EDU Website
CSUMB maintains a comprehensive official university website designed to provide current students, faculty, staff, parents, supporters, and community members with extensive information on wide-ranging topics such as degree programs, faculty, organizations, campus events, and much more. This official CSUMB Web presence dynamically changes almost daily. Official CSUMB pages begin with either http://www.csumb.edu or http://www.monterey.edu in the Web address.

Links are also provided to CSUMB student websites and other unofficial CSUMB webpages. Any webpage that contains the word “student,” “staff,” or “faculty” in its Web address or that is hosted in another domain is considered unofficial. Responsibility for the content of unofficial websites resides solely with the authors and not with the university. The views and opinions expressed are strictly the views and opinions of the authors and do not constitute the official sanction of the university.

Information Technology Classes
CSUMB offers a variety of classes and independent learning opportunities that familiarize students with the CSUMB electronic environment and meet the Technology and Information Literacy University Learning Requirement (ULR). A Tech Tools class meets these needs for beginners and those who require a brushup. Advanced Internet, Web publishing, and a variety of major-specific courses meet the needs of students with more extensive technology backgrounds. Please turn to the Undergraduate Programs and Course Descriptions chapters of this catalog for complete information on academic offerings.

Personal Computers and Software
Though the campus provides multiple computer labs as part of an assured access commitment for all, we have discovered that students often become much more productive using their own notebook computers to complete assignments in the privacy of their residence hall rooms or apartments, the solitude of the library, or the immediacy of the classroom. Consequently, we highly recommend that you take advantage of our uLink program, detailed below, to get your own PC or Apple notebook computer with wireless card.

If you already have a personal computer, you should assure that it has the hardware features necessary to connect to the Internet (via LAN, modem, or wireless card) and can support Web browsers such as Netscape and Internet Explorer. Computer purchase, connectivity, and computability questions may be directed to the Help Desk, or you can check the IT@CSUMB.EDU website. If you do not currently have an Internet connection at home, you should be able to access the Web using a computer at school, a friend’s house, or a computer retailer to obtain this information.

uLink Program
To access the CSUMB wireless network, students may:
- Use a current notebook computer, adding a wireless card if necessary.
- Purchase a Compaq notebook computer and wireless card through special vendor agreements, buying online at discount prices and applying for financial aid if needing financial assistance with the purchase price.
- Qualify for a computer loan through the CSUMB Presidential Access Loan Program.
Financial Assistance

If you need assistance to afford a notebook computer, you should apply for financial aid. You must complete the FAFSA (Free Application for Federal Student Aid) to discover programs you qualify for. You must also notify the CSUMB Financial Aid Office that you want to use a part of your financial aid to help with the purchase of a computer so that your cost of education can be adjusted accordingly.

Stafford Student Loans provide the most common form of aid available for students to purchase a computer. Parents of dependent undergraduate students may also qualify for the Federal Parent Loan for Undergraduate Students (PLUS). You might also qualify for our CSUMB Presidential Access Loan Program.

For detailed financial aid information, please turn to the Financial Aid chapter of this catalog.

Presidential Access Loan Program

The CSUMB Presidential Access Loan (PAL) program funds notebook computers for students from low-income families. To qualify you must be admitted to CSUMB. You must also apply for financial aid by completing the FAFSA (Free Application for Federal Student Aid), and your expected family contribution must equal zero when calculated using standard federal formulas.

Awards are made on a first come, first served basis, so it’s important that you turn in both your admissions application and your FAFSA along with all supporting paperwork as early as possible. We will also ask you to confirm your intent to enroll before offering you a computer through the PAL program.

When you qualify, CSUMB provides you with a notebook computer, a full array of software, and a four-year hardware warranty. In exchange, you agree to an interest-free loan due to the university for the purchase price of the computer. Then, each semester that you attend CSUMB as a full-time student (12 units or more), we will cancel one-eighth of the loan. In other words, after four years of full-time enrollment, you will own the computer free of charge. If you leave without completing eight full-time-equivalent semesters, you will have the option of paying off the balance of the loan or returning the computer in good working order to cancel the balance.

Once you take possession, you assume ownership of the notebook and become fully responsible for its safety and care. If your notebook is lost or stolen, you will remain responsible for the full out-of-pocket cost of your Presidential Access Loan.

Compaq Notebook Computers

If you qualify for a Presidential Access Loan, your state-of-the-art Compaq notebook will feature everything you need to take full advantage of the CSUMB wireless network including speedy processor, ample hard drive, battery and AC power, wireless card, modem, carrying case, and documentation. If you purchase a Compaq notebook online, you can configure it exactly as you choose.

Buy Online

You will have access to Compaq’s e-commerce website to purchase your computer or additional notebook components such as a wired Ethernet card, additional memory, and external storage devices online. You can link to Compaq from the IT@CSUMB.EDU website.

Wireless Cards

Your Compaq notebook will come equipped with a PC card that allows you to establish a wireless connection to OtterNet 2000. If you use another manufacturer’s notebook, you may use any standards-compliant wireless PC card—including Apple’s AirPort—to make your wireless connection.

Your Compaq notebook will also feature a built-in dialup modem for those times that you are off the main campus and would still like to connect to OtterNet 2000. Because the wireless feature makes it unnecessary, the standard Compaq notebook package does not include wired Ethernet connectivity. You can add that option at additional expense, or use your existing PC Ethernet card.

Software Loadset

If you qualify for a Presidential Access Loan, we will reimagine your Compaq notebook’s hard drive to the standard CSUMB loadset—software applications that have been grouped for quick and trouble-free installation by IT@CSUMB.EDU’s Technology Support Services. Your hard drive will be partitioned into two volumes: drive C will hold the standard operating system and applications image, and drive D will hold your file data. This configuration will allow IT@CSUMB.EDU to reimagine your C drive if necessary without affecting your data on the D drive. You will be responsible for the integrity of your data files, including backups.

If you purchase a Compaq notebook, you will have the option of having IT@CSUMB.EDU create the same hard drive partition. For those owning other notebooks, either PC or Mac, a CD will be made available to you so that you can install the standard CSUMB software yourself.

In addition to the standard loadset, CSUMB students may check-out CDs to install certain Microsoft products on their personal computers free of charge. The cost of the license has been paid through our Campus Enterprise Agreement with Microsoft.

IT@CSUMB.EDU Service Groups

Office of the Chief Technology Officer

The Office of the CTO provides CSUMB with leadership and coordination in the development of policy and implementation strategies for the improvement of the teaching and learning environment, and the administrative practices of the university through the effective and appropriate use of technologies.

Technology Support Services

Technology Support Services is IT@CSUMB.EDU’s one-stop shop for all your technology support needs. It’s simple. If you’ve got questions or need any services concerning your computer, hardware, software, cable television, telephone, wireless cellular phone, wireless notebook, or any of the CSUMB.EDU webpages, you are in the right place. It’s simple, convenient, and customer-friendly.

If you need computer service or have a question, you should contact Technology Support Services by phone or via the Web.

If you purchase a Compaq notebook or qualify for a Presidential Access Loan, you may bring your computer to the IT@CSUMB.EDU Help Desk for repair covered by the vendor’s hardware warranty. The Help Desk will box and ship the computer to Compaq, then return it to you when the work has been completed. We provide this pass-through depot service for your convenience. If you need hardware repairs not covered by the vendor’s warranty, you should take your computer directly to a local computer repair facility.

You may also bring your Compaq notebook to the IT@CSUMB.EDU Help Desk for software repair services. The Help Desk will provide limited analysis and repair. Major software problems will be addressed by reimaging the hard drive with the standard software loadset.
Information Systems and Network Services

Information Systems and Network Services blends primary responsibility for the university’s key information and database systems with the technical architecture and support for IT@CSUMB.EDU’s state-of-the-art network environments. In other words, they are building CSUMB’s information highway of data, voice, and video networks, and have primary responsibility for timely, accurate, and consistent access to key information of vital importance to faculty, staff, and students.

Academic Technology & Media Services

From online instruction support and faculty development to classroom technology support and lab supervision, from print and digital video editing to campuswide audiovisual support, Academic Technology & Media Services is the IT@CSUMB.EDU service group dedicated to the needs of faculty and students engaged in technology-enhanced learning and teaching.

ATMS exists to:
- Assist faculty in planning and providing the richest possible learning experiences for students
- Create powerful, technology-enabled learning environments in both physical and “virtual” classrooms
- Provide facilities and assistance for students to use up-to-date technologies in their learning experiences
- Provide leadership in the identification, evaluation, and integration of emerging instructional technologies
- Facilitate excellence in the teaching/learning and outreach functions of the university

The IDEA Lab

The Interactive Design and Educational Applications (IDEA) Lab is IT@CSUMB.EDU’s research and development unit. The IDEA lab assists faculty in locating and integrating technological innovations within their pedagogy to improve teaching and learning at CSUMB. The IDEA Lab researches and tests new hardware and software tools to determine their potential for enhancing and transforming education. The Lab seeks methods to assist educators in “connecting” with students despite barriers of geography, time, and diverse learning styles. The IDEA Lab is also a prototyping space for technologies, applications, programmatic initiatives, and scholarly research design. Finally, the IDEA Lab provides training in new technologies and assists faculty in incorporating innovative tools within their teaching.

Information Technology Planning and Advisory Committee (ITPAC)

As outlined in the IT@CSUMB.EDU Strategic Planning Framework, the Information Technology Planning and Advisory Committee (ITPAC) advises the Chief Technology Officer on standards, policies and practices related to the selection, funding, deployment, management and assessment of information technology used in support of systemwide and campus-based academic and administrative programs.

Technology Facilities on Campus

Making Contact

- **Media Learning Complex (MLC)**
  - Location: Building 18
  - Monday Hours: 8:00 A.M. to 10:00 P.M.
  - Tuesday Hours: 8:00 A.M. to 10:00 P.M.
  - Wednesday Hours: 8:00 A.M. to midnight
  - Thursday Hours: Midnight to 10:00 P.M.
  - Friday Hours: 8:00 A.M. to 10:00 P.M.
  - Saturday Hours: 8:00 A.M. to midnight
  - Sunday Hours: Midnight to 10:00 P.M.
  - *Open 24 hours Saturday through Thursday after midterm break*

- **Spatial Information, Visualization, and Analysis (SIVA) Resources Center**
  - Location: Building 46
  - Hours: 8:00 A.M. to 5:00 P.M.
  - Information: 831-582-3072
  - Fax: 831-582-3073

Media Learning Complex (MLC)

CSUMB’s Media Learning Complex (MLC) is a full-service, multimedia, telecommunications, and applied computing education and production facility. It provides specialized tools, facilities, and services needed by individuals, businesses, and organizations to effectively communicate in an electronic age.

Students, faculty, and staff are given priority in the use of CSUMB’s state-of-the-art media production and telecommunications resources. When scheduling permits, local businesses, community associations, corporate trainers, media professionals, and educators may arrange to utilize the meeting and presentation resources for their workshops, training, distributed learning, and teleconferencing needs by contacting the CSUMB Office of Conference and Event Services.

The MLC offers specialized labs, each with 12 to 16 workstations, several conference and product demonstration rooms, a video conferencing room, and a 74-seat Distance Learning Theater with complete facilities for connecting to remote classrooms or business conferences.

Technology-Enhanced Classrooms

Technology-enhanced classrooms, also called smart classrooms, have been equipped with a permanently installed projection system, VCR, instructor workstation with either a PC or Mac (many have both), and full network access. The larger rooms have PA systems. Most rooms have telephones for campus calls. Twenty-five of the 38 centrally scheduled CSUMB classrooms are technology-enhanced, a rather high percentage among small universities.

Spatial Information, Visualization, and Analysis (SIVA) Resources Center

SIVA provides a wide range of state-of-the-art computer resources designed to address campuswide needs for handling, visualizing, and analyzing spatial information. Geoinformation technologies and data are available in the SIVA Resources Center for CSUMB students, facul-
ty, and staff, as well as for members of the Monterey Bay community.

The SIVA Resources Center offers several learning activities including classes in geographic information systems (GIS), remote sensing (from aerial photography to satellite imagery), mapping with the Global Positioning System (GPS), spatial modeling and analysis, and scientific data visualization.

The SIVA Center also supports additional activities including: grant-supported project work by students, faculty, and staff; workshops and short courses for a wide range of professionals who desire continuing education in geoinformation technologies; and the development of value-added spatial information products. Through such entrepreneurial activities, the SIVA Resources Center strives to be largely self-sustaining in terms of annual operational costs, equipment replacement, and software maintenance.

Currently, the SIVA Resources Center houses the following specific resources:

- A Silicon Graphics (SGI) lab containing 18 SGI Indy systems served by an SGI Challenge L, an SGI Onyx, and a Sunsparc2000
- An NT Pentium Multimedia Geospatial Information Technology lab containing 19 Pentium Pros
- Four projects rooms containing Trimble GPS base-station and mobile field units, supporting computers, and workstations for fulltime and parttime grant-funded projects staff
- A growing set of geographic information systems (GIS) files for the Monterey Bay area and the State of California
- Software resources that support: remotely sensed data handling; image processing; collection, management, manipulation, editing, analysis, and presentation of GIS data; surveying; and visualization of data through animated, three-dimensional display techniques including flythroughs supported by modeling scenarios

Technology Service Learning

CSUMB students involved in service learning projects working under the supervision of faculty and the Service Learning Institute (SLI) assist small businesses, startup groups, and community and educational organizations on specific projects including technology tutoring, Website construction, local area network (LAN) setup, and multimedia creation and presentation.

New Media Centers

CSUMB is a member of New Media Centers (NMC), a nonprofit organization empowering educators to change the way people learn. NMC helps institutions of higher education enhance teaching and learning through the use of media. Bringing together pioneers in the new media field from academia and industry, NMC creates a collaborative network of institutions and corporations that serves as a catalyst to integration of new media into education and to development of new models for innovation.

Acceptable Use of Computing and Information Technology Resources

When using university computing resources, CSUMB community members must abide by the working draft of the Acceptable Use of Computing and Information Resources Policy and the Student Code of Conduct. In addition, they must abide by all local, state and federal laws that pertain to communication and to publishing. This includes libel and copyright laws, including all published material such as cartoons, pictures, graphics, text, song lyrics and sounds. Users are fully responsible for the content they place on personal Webpages, and for what they say to people on email.

The working draft of the Acceptable Use of Computing and Information Resources Policy may be found on the IT@CSUMB.EDU website (http://it.csumb.edu/governance). The Student Code of Conduct is addressed in the Policies and Regulations chapter of this catalog and copies may be obtained from the Office of Student Conduct. Please read both documents.

Violation of certain of these provisions may subject the user to disciplinary action as defined in the Student Code of Conduct.

Mission

Through the celebration of diversity, Residential Life collaboratively builds living and learning communities that promote academic success, ethical leadership, and social responsibility.

Philosophy

On-campus housing is a vital part of the educational experience at CSUMB. Indeed, living on-campus provides a special and unique opportunity. For many individuals, it becomes one of the only times when they live with others who are very different from themselves, especially when it comes to issues like study habits, music, sleep, religion, or politics. Residential Life has become very much a part of the “education” of students on the CSUMB campus.

Residential Life educators help create a multicultural community in which all members are valued: helping residents explore their values, feelings, and thoughts in a way that is not judgmental or dehumanizing; using knowledge and information to inform others about basic human courtesy; asking residents to consider how a multicultural audience may perceive their words or actions; taking advantage of “teachable moments” to stimulate discussion of such topics for all students and staff to learn from; reporting acts of intolerance and incidents intended to harm or make individuals feel lessened or dehumanized because of who they are; helping educate community participants through information, conversations, programs, presentations, leadership training days, and conferences.

It is truly an exciting experience to live independently in our community where strong neighbors and roommates build strong relationships. Residential Life provides opportunities to meet people of different lifestyles and cultures. Through relationships in their community, students learn from each other and share responsibility with each other.

Students’ willingness to build skills in the areas of communication, cooperation, and compromise enrich this community living experience. Living in residence at CSUMB creates the greatest opportunities for students to become full, contributing member of our campus community. Their active participation in support of our community ideals allows them to make the most of their living experience, for themselves and for others.

Successful adaptation to CSUMB’s community requires a flexible attitude and willingness to assume personal responsibility within a household and living community. Consideration for others is a priority. Whether students live in apartments or residence halls, they get to know their roommates very well; however, a special effort is needed to meet neighbors.

Housing

CSUMB provides university housing for the majority of its students, as well as many faculty and staff members.

CSUMB offers students two types of on-campus housing: (1) apartment-style living located east of the main campus facilities; and (2) residence halls within walking distance of most campus facilities that offer studio-style living and double or triple occupancy rooms with shared bath. Both residential communities are convenient to the main campus area and provide spacious accommodations at a very economical price.

Residence Halls

Adjacent to the center of campus and convenient to classrooms and the Dining Commons, the residence halls offer ready access to many campus facilities such as computer labs, the Library, and the University Bookstore. All traditionally aged freshmen and sophomores are required to live in the residence halls unless they have a local family residence.

Residence Hall 201 accommodates students in suites that include four furnished double bedrooms, a living room, and a bathroom. A limited number of single rooms may be available at a higher rate. Additionally, each floor of Residence Hall 201 offers kitchenette and laundry facilities. This residence hall also has a community room with a computer lab, study lounge, and television lounge. Each room features contemporary standard furnishings, individual hookups for Internet access, cable television, and telephone services.

Residence Halls 202, 203, 204, 205, 206, 208, and 210 house between 86 and 156 students in double and triple-occupancy rooms, the majority of which have their own private bathroom with shower. Each of these rooms also features contemporary standard furnishings, individual hookups for Internet access, cable television, and telephone services. Each hall has a community laundry room, kitchen, and mailroom.

The Residential Life staff members coordinate a variety of academic, success, leadership, cultural, and community development events throughout the academic year to create experiences that build lifetime friendships and teach valuable life skills.

Apartments

The Frederick Park apartments form a residential community on CSUMB’s east campus. This community primarily serves upper-division students and students with families. The spacious two-bedroom, one-bath unfurnished apartments offer comfortable accommodations, picturesque views, and a convenient commute to university classes and campus activities. Students may commute by car, campus shuttle service, or bicycle.

Each 1,300 square-foot apartment features basic kitchen appliances, hookups for individual washer and dryer units, one full bath, a one-car garage, and either a small fenced backyard or an enclosed walkout balcony. Upstairs units are carpeted and ground-level units have tile flooring. Selected apartment units are configured for wheelchair accessibility.

Residents will find playgrounds, athletic fields, hiking trails, jogging routes, and bikepaths throughout the neighborhoods.
Community Centers
Three residence hall community centers and service desk operations are located in Residence Halls 201, 206, and 208. Also, two community centers serve the Frederick Park apartment community, one located at 2802 Saratoga Court and the other at 3001 Antietam Court. All five community centers offer valuable resources and services for on-campus residents. Each houses a small computer lab, recreation and cleaning equipment for resident checkout, community space available for study or special events, widescreen TV and VCR, and gameroom. The Saratoga Community Center also offers a children’s playroom stocked with books, toys, and play equipment.

Mail
The campus mail center distributes residence hall mail to student mailboxes Monday through Friday. Mail should be addressed as follows:

Name
Residence Hall ### (corresponding hall number)
Room ### (corresponding room number)
CSU Monterey Bay
100 Campus Center
Seaside, CA 93955-8025

Students living in the Frederick Park apartments need to contact the Marina Post Office for service. Mail will be delivered directly to mailboxes located in the cul-de-sac of each apartment area. Mail should be addressed as follows:

Name
Street Address
Marina, CA 93933-5055

Housing Policies
All housing policies are designed for student safety and cooperative community living. Students should review the license agreement booklet and Community Handbook to familiarize themselves with these policies. If students have questions or desire a copy of the policies, they may contact the Residential Life Office.

Dining Services

Making Contact
- Dining Commons
  - Location: Building 16
  - Hours: See schedule below
  - Information: 831-582-3838
  - Email: ray_lee@monterey.edu
  - FirstClass Conference: Dining Commons
- Otter Bay Café
  - Location: Building 29
  - Hours: See schedule below
  - Information: 831-582-5020
  - Catering: 831-582-5029
  - Fax: 831-582-5021
  - Email: ray_lee@monterey.edu

Dining Commons
The Dining Commons, conveniently located in the center of campus, offers a variety of food services designed to meet the unique needs of the CSUMB campus community. The Dining Commons consists of a main grill area and the Food Court. Food service is offered throughout the day. All community members are welcome to come in, relax, take a study break, and have a meal or snack. The CSUMB Dining Commons is available to everyone. Special event and catering services are also available.

Hours

Cafeteria
- Monday to Friday: 7:00 A.M. to 7:00 P.M.
- Breakfast: 7:00 A.M. to 9:30 A.M.
- Lunch: 11:30 A.M. to 2:00 P.M.
- Dinner: 5:00 P.M. to 7:00 P.M.
- Weekends: Open only during meal times
- Brunch: 11:30 A.M. to 2:00 P.M.
- Dinner: 5:00 P.M. to 7:00 P.M.

Food Courts
- Monday to Thursday: 11:30 A.M. to 2:00 P.M.
  5:00 P.M. to 7:00 P.M.
- Friday: 11:30 A.M. to 2:00 P.M.
  5:00 P.M. to 9:00 P.M.
- Weekends: 5:00 P.M. to 7:00 P.M.

Otter Bay Café
A new food service venue, the Otter Bay Café, opened in the fall of 2000. Located in the University Center and featuring a full-service dining experience in a café style setting, the Otter Bay has become a favorite for lunch and dinner. Students can also use their meal card at the Otter Bay.

Hours
- Weekdays: 11:30 A.M. to 9:00 P.M.

Meal Cards
Students in residence halls are required to purchase a minimum declining balance meal card for the academic year. A declining balance meal program and cash purchases are also available for all students, faculty, and staff.
Student Activities and Career Development

Making Contact
- Office of Student Activities and Career Development (SACD)

- Student Voice (SV), Associated Students (AS) of CSUMB
  - Location: Building 14
  - Administrative Office: 831-582-4725
  - Executive Board: 831-582-4073
  - Events WorkGroup: 831-582-4722
  - Senators: 831-582-4067
  - Fax: 831-582-4336
  - FirstClass Conference: Student Activities

Mission
In support of the CSUMB Vision, the Office of Student Activities and Career Development (SACD) provides out-of-classroom experiences that challenge students to work collaboratively in a pluralistic environment. Through these experiential learning opportunities, students develop self-leadership, team orientation, critical thinking, adaptability to change, and the ability to live and work in diverse cultures. These opportunities take many forms including career exploration, student clubs and organizations, leadership development, campus planning and administration involvement, and a broad range of special events and programs.

Services
SACD services include:
- Coordination of all recognized student organizations
- New student orientation
- Leadership development
- Activities, events, and programs promoting social, physical, and intellectual growth
- Career development opportunities and information
- Student employment services
- Open computer lab
- Club offices
- Challenge course

Student Organizations
Joining or creating a new student group provides students with the opportunity to expand on their existing interests, experiment with new activities, and enhance their academic experience. Student participation in campus life beyond the classroom allows practical applications of learning and acquisition of valuable workforce and organizational skills. Beyond improving professional development, participation in student organizations provides an avenue to meet new people, develop friendships, and have fun!

Currently CSUMB has approximately 50 recognized student organizations. These include various special interest groups as well as recreational and competitive sport clubs. The sport clubs are coordinated jointly by SACD and Athletics, Sports Recreation & Health (ASRH). If students don’t find an existing organization which fits their needs, SACD will enthusiastically help them get a new group started.

Special Interest Organizations
- Action! (Theater Arts Club)
- All in the “Family” (gay, lesbian, bisexual and allies organization)
- American Sign Language (ASL) Club
- Amnesty International
- Angler’s Anonymous
- Anime Club
- Black Students United
- Broadcasting and Digital Audio Streaming
- Campus Freethought Association
- Chat The Movies
- Chicano Latino Graduation Association
- CSUMB Film Club
- Electric Eels (Computer Science)
- Electronic Music Club
- Global Village People
- Inter-Club Council
- Japan Club
- Jewish Student Union
- Latin Language Club
- Law Club
- Monterey Bay for a Sustainable Environment (M.B.A.S.E.)
- MEChA (Movimiento Estudiantil Chicano de Aztlan)
- Mujeres de Maiz
- Multicultural Club
- Multicultural Feminist Group
- Newman Catholic Community
- Ollin Folklorico
- Otter Christian Fellowship
- Otter Realm (Student Newspaper)
- Photography Club
- Road Runners Club
- Rotaract
- Social and Behavioral Sciences Association
- Student Voice (associated student government)
- Study at Sea
- Teachers of Tomorrow
- Vietnamese Club
- “Wet & Soggies” Dive Club
Leadership Development

Many students hold leadership roles in their various positions across campus such as club officers, Service Learning Advocates, Resident Advisors, tutors, Orientation Leaders, peer counselors, Student Voice officers, and Residence Hall Association leaders. To assist students in these roles and those they fill beyond CSUMB such as parent, coworker, and community member, SACD offers skill-building opportunities in a variety of formats including workshops, seminar series, and retreats. Topics covered include communication, decision making, goal setting, value clarification, and group dynamics.

CSUMB also has its own Challenge Course that is often used to enhance experiential learning opportunities in leadership development programs for students and off-campus clients. Students may be trained to become facilitators in addition to participating in the leadership programs that use the Challenge Course.

New Student Orientation

The Student Activities office coordinates a comprehensive program to welcome, advise, and facilitate the transition of new students into the CSUMB campus community. Each spring, continuing students are selected and engaged in leadership training for their roles in the planning and delivery of orientation programs and activities as leaders of new student groups. Orientation activities include campus tours, new student social events, off-campus outings, and a variety of student success workshops, along with academic advising and course registration.

Recreational and Competitive Sport Clubs

- Baseball Club
- CSUMB Cheerleading Squad
- Dance Team
- Disc Golf
- Otter Outdoor Adventure Club
- Otter Roller Hockey
- Rugby Club
- Sailing Club
- Wrestling Club

Student Voice

At CSUMB, student government is known as Student Voice (SV), the Associated Students (AS) of CSU Monterey Bay. Student Voice consists of a Board of Directors (BOD), the 11 elected officers and representatives to the students, and numerous committees for students to get involved in shared university governance. Student Voice contributes to student organizations through the Inter Club Council (ICC) and provides funding to a planning committee known as the Events WorkGroup for events and programs such as speakers, films, concerts, and dances. Student Voice serves as the representative group for student advocacy and university policy formation.

The Associated Students hold Board of Director meetings Mondays at 12:15 p.m. in the University Center. Meetings are advertised at least one week in advance and all students are encouraged to attend. Advertisements are posted on FirstClass and in bulletin board cases in Building 14.

Each spring semester, elections are held to select the next year’s Associated Students Board of Directors. Students must be registered in at least six credits as undergraduates or three graduate credits, have a 2.5 or higher GPA, and be in good academic standing to hold student government office.

Inter Club Council

The purpose of the Inter Club Council is to serve as a central force bringing together all of the student organizations for resource appropriation, advocacy, and networking. The Council is comprised of representatives from each recognized club or student organization and meets twice per month on Wednesday evenings in the University Center. The council representatives select officers each semester.

Events and Programs

With the assistance of SACD, student organizations and Student Voice offer many activities. Some of these events include bands on the quad, cultural celebrations, poetry and performance nights, environmental awareness programs, electronic music, dance and concert events, and a film series. Additionally, SACD coordinates a number of other special events such as Spring Break activities, New Student Orientation, Club Showcase and Recognition Reception, and GradFest for graduating seniors.

Career Development

Career development services include a broad spectrum of student employment-related opportunities and career exploration services. For complete details, please see the Student Support Services chapter.

Making Contact

- Office of Student Activities and Career Development (SACD)
  - Location: Building 14
  - Monday to Sunday Hours: 12:00 p.m. to 12:00 a.m.
  - Information: 831-582-4630
  - Fax: 831-582-4631
  - Email: student_center@monterey.edu

Amenities

Located adjacent to the main campus quad between the Dining Commons and Library, the Student Center includes a student lounge, recreation room, student conference room and the Student Voice Associated Students offices.

Recreation Amenities

- 6-foot rear-projection TV with VCR/DVD & Sony Playstation
- 3 regulation pool tables
- 2 airhockey tables
- 2 fooseball tables
- 1 ping pong table
- Chess table
- Board games

Other Amenities

- Microwave oven
- Food and drink vending
- TDD phone for hearing disabled
- House sound and TV system
- Magazines, used book library, and newspapers

Why is this program important?

As we charge forward into the new millennium surrounded by mind-boggling technologies and staggering amounts of information, it seems more important than ever to educate individuals in an environment that fosters balance and development of the whole person—intellectual, spiritual, ethical, social, and physical. As you obtain the college education necessary to meet the demands of the 21st century, you should also invest in your physical fitness, social growth, character development, and overall health.

What is the mission of ASRH?

We deliver comprehensive programs that enable students, faculty, and staff to achieve lifelong health through athletics, recreation, and sports. Believing that individuals will be more successful when working with others toward common goals, we embrace teamwork. At the same time, ASRH celebrates each unique individual with varying abilities and differing cultures, values, and lifestyles.

We assist you in developing and maintaining a healthy lifestyle. We promote character development and provide leadership training through team and group activities, physical challenges, and sports activities. These activities complement other campus leadership development opportunities, and they embrace the multicultural nature of CSUMB and the varying abilities of its community members.

What programs does ASRH offer?

ASRH offers a wide range of sports recreation and health opportunities. All are designed to incorporate fitness into college and lifelong learning plans. We work in collaboration with a variety of community agencies, schools, and organizations, as well as with other CSUMB programs. We also provide educational opportunities for the general Monterey Bay area communities.
Intercollegiate Athletics

Why compete in intercollegiate athletics at CSUMB?
When you join one of our Otter teams, our coaches and staff dedicate themselves to providing you with an environment where you can achieve excellence both academically and athletically. We strive to foster your intellectual, social, moral, emotional, ethical, cultural, vocational, and physical growth. With an eye toward maximizing your potential, we help you refine skills, strategies, and competitive abilities. We aid in developing good sportsmanship and character including respect, cooperation, teamwork, honesty, fair play, and individual responsibility.

In which sports do the Otters compete?
The nine sports teams that we sponsor at the varsity intercollegiate level are men’s basketball, women’s basketball, men’s cross country, women’s cross country, men’s golf, women’s golf, men’s soccer, women’s soccer, and women’s volleyball.

Who do the Otters compete against intercollegiately?
We compete in Region 2 of the National Association of Intercollegiate Athletics (NAIA) as members of the California Pacific Conference. The twelve Cal Pac member institutions are Bethany College, College of Notre Dame, CSU Hayward, CSU Monterey Bay, Dominican College, Holy Names College, Menlo College, Mills College, Pacific Union College, Patten College, and Simpson College.

What are the goals of the CSUMB intercollegiate athletics program?
- Recruit student-athletes who are committed to their educational success and who have shown themselves to be outstanding prospects in sport and in life.
- Make academic counseling available to all student-athletes who require it so that they maintain normal progress toward a degree, while encouraging them to strive for academic excellence and the achievement of their degrees.
- Offer our student-athletes the opportunity to grow and excel in their sports by participating on teams where the goal is achieving individual and team maximum potential.
- Create an environment in which every student-athlete’s development is guided by values of respect, honesty, responsibility, and service to others.
- Provide coaches who are intensely concerned with the total academic, athletic, physical, social, and moral welfare of their student-athletes.
- Stress the importance of fair play in all competition and to avoid any practice, procedure, or policy that would lead to an unfair competitive advantage or would reflect poorly on CSUMB.
- Strive to see that all coaches and student-athletes understand and work within the regulations and guidelines set for intercollegiate athletics by CSUMB, the Cal Pac Conference, and the NAIA.
- Work to develop the support of the CSUMB community—student, faculty, staff, alumni, and friends—for our teams and to experience that support in the form of attendance at games and matches.
- Promote in the media, in the community, and in the public eye the best image of CSUMB—its academic stature, its athletic goals, its teams, and its success.

CSUMB Athletics: “A place where character counts”

Intramural Sports
We offer intramural sport leagues and tournaments each semester. Featured sports include basketball, soccer, volleyball, softball, wallyball, and ultimate Frisbee. Leagues begin around the third week of the semester and are typically coeducational with an emphasis on friendly competition. Intramurals provide a great way to meet people, relieve stress, stay fit, and have fun.

Sport and Recreation Clubs
Competitive sport clubs provide the opportunity to compete extramurally without the eligibility restrictions of intercollegiate athletics. Recreational sport clubs offer the opportunity to become more active in activities and meet people with like interests. CSUMB offers several recreational and competitive sport clubs including:
- Cheerleading
- Club Yoga
- Dance Team
- Disc Golf Club
- Ollin Folklorico Dance
- Otter Baseball Club
- Otter Outdoor Adventures Club
- Otter Roller Hockey
- Sailing Club
- Tennis Club
- Wet and Soggies Dive Club
- Women’s Rugby Club

Boating Recreation and Outdoor Recreation
Boating Recreation and Outdoor Recreation are on-campus programs conducting most of their activities off campus. These programs offer for-credit classes, non-credit classes, and organized outings from the on-campus Boating and Outdoor Recreation Center. Through multiple partnerships with external organizations, these programs serve CSUMB students, staff, faculty, partnered groups, and the larger community.

Boating Recreation
Boating Recreation features four components:
- Recreation Education: a full certification range from basic sailing to ocean passage following the internationally accepted standards of the American Sailing Association (ASA) for 20-70 ft. sailing vessels
- Sport: sailing for CSUMB students in 13 ft. Flying Juniors and 20-25 ft. keel boats
- Community Outreach: boating safety classes and sailing education programs for local, middle, and high schools; youth at risk; community youth organizations; battered women’s groups; and those interested in marine safety
- Professional Education and Research: boating programs for boating professionals, educators, and marine researchers
Outdoor Venues

CSUMB also offers great venues for outdoor activities. Facilities located near the Sports Center include four tennis courts, a lighted football stadium with an all-weather track, and the CSUMB Soccer complex. Miles of mountain biking and hiking trails and several grassy fields and park areas make our 1,365-acre campus a recreational wonderland. Meanwhile, the surrounding Monterey Bay region offers breathtaking ocean, beach, and coastal mountain playgrounds within minutes of campus.

Who will guide my athletics and sports recreation experiences?

- Director, ASRH – William "Bill" Trumbo
- Certified Athletic Trainer – Ken Howat
- Head Coach, men’s and women’s cross country – Yi Mao
- Head Coach, men’s basketball – Bill McClintock
- Head Coach, women’s basketball – Open
- Head Coach, women’s volleyball – Open
- Head Coach, men’s and women’s golf – Bill Paulson
- Head Coach, women’s soccer – Jen Netherwood
- Head Coach, men’s soccer – Hector Uribe
- Outdoor Recreation Coordinator – Robert Alexander
- Boating Recreation Coordinator – Cynthia d’Vincent

If you pursue your dreams and goals with passion and commitment… If you are willing to stretch yourself to reach the highest step… If you are never too “big” to stoop to help someone less fortunate than yourself… If you are willing to sacrifice yourself and your own interests to be part of something bigger than yourself—then you will find success in all of life’s endeavors and be a “champion in the truest sense.”

—Bill Trumbo, Director of Athletics, Sports Recreation & Health
A Brief History of the CSUMB Campus Land

The Army Years

1917 Land was purchased just north of the city of Monterey for use as an artillery training field for the army. The area was variously known as Gigling Reservations, U.S. Field Artillery Area—Presidio of Monterey, and Gigling Field Artillery Range.

1933 The artillery field became Camp Ord. Primarily, horse cavalry units trained on the camp until the military began to mechanize and train mobile combat units.

1941 Camp Ord became Fort Ord. For the next thirty years, the fort became the primary facility for basic training for the Army. At 28,000 acres—approximately 44 square miles—the fort was larger than the county of San Francisco.

1976 Fort Ord ceased activity as the nation’s primary basic training site. Approximately 1.5 million men and women, including such luminaries as Clark Gable and Elvis Presley, had received their basic training at Fort Ord. At its peak, more than 35,000 people lived and worked on the base.

1988 Base Realignment and Closure (BRAC) legislation was passed by Congress. Perhaps because of the Gulf War and “Operation Desert Storm,” Fort Ord was not immediately put on the closure list although civilian workers did begin to lose their jobs. Cleanup of the base’s former landfill, firing ranges, and artillery practice “impact zone” began.

1990 Fort Ord was placed on the Environmental Protection Agency (EPA) National Priority List which enabled the Army to access the EPA “Superfund” Trust Fund to increase the speed and extent of the cleanup.

1991 The decision to close Fort Ord was made. Of the hundreds of bases targeted for closure across the country, Fort Ord was one of four selected by the Federal Government to be a model for conversion to peacetime use.

1994 Fort Ord officially closed. The fort was the largest U.S. military base to be closed at the time.

The CSUMB Years

1994 Approximately 1,365 acres and 4.4 million square feet of facilities and accompanying infrastructure including 106 buildings and 1,253 housing units, were sold to the State of California for one dollar and subsequently given to the California State University (CSU) system. Though one of the largest university campuses in California, CSUMB only occupies 5 percent of the former Fort and 20 percent of its usable land.

1994 The Fort Ord redevelopment effort includes upgrading and rebuilding water systems, improving roads, and cleaning the land for civilian use. The properties conveyed to the CSU were thoroughly inspected for health and environmental hazards and certified “clean” and safe for occupancy by all applicable state and federal standards.

1998 The landfill, which is not located on CSUMB property, was capped. Periodic testing and monitoring of the land, water, and air in the areas adjacent to the CSUMB campus have consistently been found safe by EPA monitors. The cleanup continues on various parts of the base and includes controlled burns, and periodic detonation of unexploded ordnance on land which is not part of the CSUMB campus.

Environmental Summary

All properties which have been and will be conveyed to CSU have been thoroughly inspected for health and environmental hazards by federal, state, and regional environmental regulatory agencies, and they are certified as “clean” and safe for occupancy. Adjacent to CSUMB’s boundary, the Fort Ord installation’s landfill has been thoroughly cleaned and capped, pursuant to all applicable local, state, and federal standards. The campus property does not include the base’s former landfill, the firing ranges, or the “impact zone” used for artillery practice.

Water for campus use comes from the same community water company which serves Seaside, Marina, and other Monterey County communities. Domestic water for CSUMB does not come from local wells or aquifers.

More information about the CSUMB campus land and the reuse of Fort Ord may be found on the CSUMB Website (www.csumb.edu).

Important Notes

- Policies
  - This chapter summarizes CSU and CSUMB policies relative to student admissions and records. For the complete language of relevant CSUMB policies, please refer to the campus policy website (http://policy.monterey.edu/).

- Applications
  - Applications are available at every California high school, community college, and California State University.
  - You may also obtain an application by contacting the CSUMB Student Information Center.
  - Electronic versions of the CSU undergraduate and graduate applications are accessible on the Web (www.csumentor.edu).

- Eligibility
  - See the index table.

- SAT I and ACT
  - Registration forms and dates for the SAT I and ACT are available from high school and college counselors or from the CSUMB Student Information Center.

- Impacted Programs
  - There are currently no impacted programs at CSUMB.

Admissions and Records Services

CSUMB’s Student Information Center assists students with any questions regarding admissions and records, financial aid, and pre-admissions counseling. As a "one-stop shop," the Student Information Center offers campus maps, tours, academic calendars, status checks for admissions and financial aid, and help completing all CSUMB application forms.

CSUMB’s Office of Admissions and Records is responsible for processing admissions applications, determining admissions eligibility, evaluating transfer credits, administering the Entry-Level Mathematics (ELM) and English Placement Test (EPT) examinations, registering students, posting grades, processing graduation applications, and providing official transcripts. The Office of Admissions and Records has official signatory power as the campus Registrar for domestic and international student documentation.

Admissions Procedures and Policies

As one of the 23 member campuses in the California State University (CSU) system, CSUMB follows standardized admissions policies, procedures, and requirements adopted at the CSU system level. All of these are explained below and in the CSU undergraduate and graduate application packets.

Requirements for admission to California State University, Monterey Bay are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. If you are not sure of these requirements you should consult a high school or community college counselor or the Office of Admissions and Records. Applications may be obtained from the admissions office at any of the CSU campuses or at any California high school or community college.

Electronic versions of the CSU undergraduate and graduate applications are accessible on the Web (www.csumentor.edu). The CSU Mentor system allows students to browse through general information about the CSU campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

Applications

Importance of Filing Complete, Accurate, and Authentic Application Documents

The CSU advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Undergraduate Application Procedures

Prospective students, applying for part-time or full-time undergraduate programs of study, in day or evening classes, must file a complete undergraduate application as described in the undergraduate admission booklet. The $55 nonrefundable application fee should be in the form of a check or money order payable to “The California State University” and may not be transferred or used to apply to another term. An alternate campus and major may be indicated on the application, but applicants should list as an alternate campus only a CSU campus that also offers the major. Generally, an alternate major will be considered at the first choice campus before an application is redirected to an alternate choice campus.

Selection of Major and Concentration

The majors and concentrations offered at CSUMB are listed in the academic programs section of this catalog. Prospective students should review these descriptions before filing an application. CSUMB accepts students who are undecided about their major. These students should use the undeclared category on the application form. The CSUMB Student Academic Advising Office provides advising and information resources to help undeclared students select an appropriate major.
Impacted Programs

There are currently no impacted programs at CSUMB.

The CSU designates programs as impacted when more applications are received in the first month of the filing period than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at some campuses. You must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce with the opening of the fall filing period which programs are impacted and the supplementary criteria campuses will use. That announcement will be published in the CSU Review, distributed to high school and college counselors. Information about the supplementary criteria is also sent to program applicants.

You must file your application for admission to an impacted program during the first month of the filing period. Further, if you wish to be considered in impacted programs at two or more campuses, you must file an application to each.

Supplementary Admissions Criteria

Each campus with impacted programs uses supplementary admissions criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. If you are required to submit scores on either the SAT I or the ACT, you should take the test no later than November if applying for fall admission.

The supplementary admissions criteria used by the individual campuses to screen applicants appear periodically in the CSU Review and are sent by the campuses to all applicants seeking admission to an impacted program.

Unlike unaccommodated applicants to locally impacted programs who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major but may choose an alternate major either at the first choice campus or another campus.

CSUMB currently has no supplementary admissions criteria because it has no impacted programs.

Graduate and Postbaccalaureate Application Procedures

All graduate and postbaccalaureate applicants (e.g., master’s degree applicants, those seeking credentials, and those interested in taking graduate level courses for personal or professional growth) must file a complete graduate application as described in the graduate and postbaccalaureate admission booklet. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternate campuses or later changes of campus choice will be minimal. To be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the graduate studies office or the admissions office of any California State University campus. An electronic version of the CSU graduate application is available on the Web (www.csumentor.edu).

Application Filing Periods

<table>
<thead>
<tr>
<th>Term</th>
<th>Applications First Accepted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>November 1</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>August 1</td>
</tr>
</tbody>
</table>

Filing Period Duration: CSUMB accepts applications until capacities are reached. If applying after the initial filing period, consult the CSUMB Student Information Center for current information.

Application Acknowledgment

You may expect to receive an acknowledgment from your first choice campus within two to four weeks of filing the application. The notice will also include a request that you submit the records necessary for the campus to evaluate your qualifications. You may be assured of admission if the evaluation of your qualifications indicates that you meet CSU admission requirements and campus requirements for admission to an impacted program. Such a notice is not transferable to another term or to another campus.

Hardship Petitions

CSUMB has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write to the Office of Admissions and Records, in care of the Exceptional Admission Committee, regarding specific policies governing hardship admission.
Undergraduate Admissions Requirements

Freshman Requirements

You will qualify for regular admission as a first-time freshman if you:
1. Are a high school graduate, and
2. Have a qualifiable eligibility index (see section on Eligibility Index), and
3. Have completed with grades of C or better each of the courses in the comprehensive pattern of college preparatory subject requirements (see “Subject Requirements”).

Eligibility Index

The eligibility index is the combination of your high school grade point average and your score on either the ACT or SAT. Your grade point average is based on grades earned during your final three years of high school (excluding physical education and military science) and bonus points for approved honors courses.

Up to eight semesters of honors courses taken in the last two years of high school can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

You can calculate the index by multiplying your grade point average by 800 and adding your total score on the SAT I. Or, if you took the ACT, multiply your grade point average by 200 and add ten times the ACT composite score. If you are a California high school graduate (or a resident of California for tuition purposes), you need a minimum index of 2900 using the SAT I or 694 using the ACT; the Eligibility Index Table illustrates several combinations of required test scores and averages.

Provisional Admission

CSUMB may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the senior year of study to ensure that those so admitted complete their senior year of studies satisfactorily, including the required college preparatory subjects, and graduate from high school.

Foreign Graduates

Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

Subject requirements

The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school. Within the 15 units completed, up to one unit (one year) in visual and performing arts or foreign language may be missing and offset by a college preparatory course(s) in other areas. The miss-

Below 2.00 does not qualify for regular admission
ing unit of visual and performing arts or foreign language must be com-
pleted either prior to or by the end of the first year, of CSU enrollment.
This provision is effective through the 2002-2003 academic year.
- English, 4 years
- Mathematics, 3 years: algebra, geometry, and intermediate algebra
- U.S. history or U.S. history and government, 1 year
- Science, 1 year with laboratory: biology, chemistry, physics, or other acceptable laboratory science
- Foreign language, 2 years in the same language (subject to waiver for applicants demonstrating equivalent competence)
- Visual and performing arts, 1 year: art, dance, drama/theater, or music
- Electives, 3 years: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts, and agriculture

Applicants seeking admission as first-time freshmen for the fall 2003 or later terms will have the same preparatory course requirements for admis-
sion to both the California State University and the University of California. The preparatory course admission requirements for both systems will be the completion of the following courses with a grade of C or better:
- English, 4 years
- Mathematics, 3 years: algebra, geometry, and intermediate algebra
- U.S. history or social science, 2 years
- Laboratory Science, 2 years
- Foreign language, 2 years in the same language
- Visual and performing arts, 1 year
- Electives, 1 year chosen from one of the areas above

Waiver of Foreign Language Subject Requirement
The foreign language subject requirement may be waived for applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who com-
plete two years of foreign language study. For further information, students should consult with a school counselor or any CSU campus admissions or school relations office.

Subject Requirement Substitution for Students with Disabilities
Applicants with disabilities are encouraged to complete college preparatory course requirements. In certain circumstances, if an appli-
cant is judged unable to fulfill a specific course requirement because of a disability, alternate college preparatory courses may be substitut-
ed for specific subject requirements. Substitutions may be authorized on a case-by-case basis after review of disability documentation and academic records and recommendation by the applicant’s academic advisor or guidance counselor in consultation with the director of a CSU disabled student services program. Students should be aware that failure to complete the courses required for admission may limit later enrollment in certain majors, particularly those involving math-
ematics. For further information and substitution forms, please contact the CSUMB Office of Student Disability Resources.

High School Students
Students still enrolled in high school will be considered for enroll-
ment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school gradu-
ates. Such admission is only for a given program and does not con-
stitute the right to continued enrollment.

Transfer Requirements
Students who have completed 55 or fewer transferable semester college units (83 or fewer quarter units) are considered lower division transfer students. Student who have completed 56 or more transfer-
able semester college units (84 or more quarter units) are considered upper division transfer students. Students who complete college units during high school or through the summer between high school grad-
uation and fall enrollment in the California State University are consid-
ered first-time freshmen and must meet those admission requirements. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses.

Lower-Division Transfer Requirements
You will qualify for admission as a lower-division transfer student if you have a grade point average of 2.0 (C or better) in all transfer-
able units attempted, are in good standing at the last college or uni-
versity attended, and meet any of the following standards:
- You will meet the freshman admission requirements in effect for the term to which you are applying (see “Freshman Requirements” section); or
- You were eligible as a freshman at the time of high school graduation except for the subject requirements, have been in continuous attendance in an accredited college since high school graduation, and
  - have made up the missing subjects, or
  - have completed at least 30 semester units of college coursework with a grade of C or better in each course to be selected from courses in English, arts and humanities, social science, science, and mathematics at a level at least equivalent to courses that meet general education requirements. The 30 units must include all the general education requirements in communication in the English language and critical thinking (at least 9 semester credits) and the requirement in mathematics/quantitative reasoning (usually 3 semester credits) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communica-
tion and mathematical concepts and quantitative reasoning.

Applicants who graduated from high school prior to 1988 should contact the Office of Admissions and Records to inquire about alter-
native admission programs.

Upper-Division Transfer Requirements
You will qualify for admission as an upper-division transfer student if:
- You have a grade point average of 2.0 (C or better) in all transferable units attempted; and
- You are in good standing at the last college or university attended; and
- You have completed at least 30 semester units of college coursework with a grade of C or better in each course to be selected from courses in English, arts and humanities, social science, science, and mathematics at a level at least equiva-
 lent to courses that meet general education requirements. The 30 units must include all of the general education requirements in communication in the English language and critical thinking (at least 9 semester credits) and the requirement in mathematics/quantitative reasoning (usually 3 semester credits) OR the Intersegmental General Education Transfer Curriculum (IGETC)
requirements in English communication and mathematical concepts and quantitative reasoning.

Provisional Admission

CSUMB may provisionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily.

Making Up Missing College Preparatory Subject Requirements

Lower-division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways.

- Complete appropriate courses with a C or better in adult school or high school summer sessions.
- Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
- Earn acceptable scores on specified examinations. Please consult with any CSU admissions office for further information about alternative ways to satisfy the subject requirements.

Test Requirements

Freshman and transfer applicants who have fewer than 56 semester or 84 quarter units of transferable college credit must submit scores, unless exempt (see “Eligibility Index”), from either the ACT or the SAT I. If you are applying to an impacted program on campus and are required to submit test scores, you should take the test no later than November or early December. Test scores are also used for advising and placement purposes. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Or you may write to or call:

- The College Board (SAT II) ACT
  Registration Unit, Box 6200 Registration Unit, P.O. Box 414
  Princeton, New Jersey 08541 Iowa City, Iowa 52243
  609-771-7588 319-337-1270

TOEFL Requirement

All CSU undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years fulltime where English is the principal language of instruction must present a score of 500 or above on the Test of English as a Foreign Language (TOEFL). Some CSU campuses require a score higher than 500; CSUMB requires a minimum TOEFL score of 525 for undergraduate applicants.

All CSU undergraduate applicants taking the Computer Based Test of English as a Foreign Language must present a score of 173 or above. Some CSU campuses require a score higher than 173; CSUMB requires a minimum score of 193 for undergraduate applicants.

Systemwide Placement Test Requirements

The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) after admission and prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment.

Students register for the EPT and ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to the Office of Admissions and Records.

English Placement Test (EPT)

The EPT is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of 550 or above on the verbal section of the College Board SAT I Reasoning Test taken April 1995 or later.
- A score of 24 or above on the enhanced ACT English Test taken October 1989 or later.
- A score of 680 or above on the recentered and adjusted College Board SAT II: Writing Test taken May 1998 or later.
- A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Scholastic Advanced Placement program.
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) written communication requirement, provided such course was completed with a grade of C or better.

Entry Level Mathematics (ELM) Placement Examination

The ELM examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of 550 or above on the mathematics section of the College Board SAT I Reasoning Test or on the College Board SAT II Mathematics Tests Level I, IC (Calculator), II, or IIC (Calculator).
- A score of 23 or above on the American College Testing Mathematics Test.
- A score of 3 or above on the College Board Advanced Placement mathematics examination (AB or BC).
- A score of 3 or above on the College Board Advanced Placement Statistics examination.
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement, provided such course was completed with a grade of C or better.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if all of the following conditions are met:

- Possesses a high school diploma (or has established equivalence through either the Tests of General Educational Development or the California High School Proficiency Examination).
Graduate and Postbaccalaureate Admissions

General Requirements

The minimum requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. Specifically, a student shall: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; (3) have attained a grade point average of at least 2.67 (A=4.0) in the last 60 semester (90 quarter) units attempted; and (4) satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

If you meet the minimum requirements for graduate and postbaccalaureate studies, you will be considered for admission in one of the four following categories:

- Postbaccalaureate Unclassified—To enroll in graduate courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the general requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments may restrict enrollment of unclassified students because of heavy enrollment pressure. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program.

- Postbaccalaureate Classified—If you wish to enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

- Graduate Conditionally Classified—You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation.

- Graduate Classified—To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

Graduate-Postbaccalaureate TOEFL Requirement

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some campuses require a higher score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Some campuses may require a higher score.

Returning Students

Postbaccalaureate students (i.e., those students who already hold a bachelor’s degree) may pursue a program leading to an additional baccalaureate degree or undergraduate major. Students are urged to consult with a faculty advisor within the selected academic program to determine whether a second baccalaureate or graduate program best meets their needs.

To earn an additional undergraduate degree students must complete the following requirements:

- A minimum of 30 credits in residence at CSUMB since completion of the most recent degree, including 24 upper-division credits
- At least 12 credits in the major in residence at CSUMB since the last baccalaureate degree
- All state and university requirements for that degree
- 40 upper-division credits taken since the most recent degree was granted
- All credits required in the major (No credit may be applied from courses taken for an earlier degree. If required major courses were previously taken, the student must substitute, with the approval of the department, additional major courses. Graduate-level (500 or 600 series) courses may not be applied toward the requirements for a second baccalaureate degree.)
- Filing of an undergraduate degree application and payment of application fee

Postbaccalaureate students seeking an additional undergraduate major must complete the following requirements:

- At least 12 credits in the major in residence at CSUMB since the last baccalaureate degree
- All credits required in the major (No credit may be applied from courses taken for an earlier degree. If required major courses were previously taken, the student must substitute, with the approval of the department, additional major courses. Graduate-level (500 or 600 series) courses may not be applied toward the requirements for an additional major.)

The transcript will indicate that the coursework for the additional major has been completed. Students pursuing a second baccalaureate degree or additional undergraduate major cannot select the catalog used for the initial undergraduate degree. If students do not remain in continuous attendance, the requirements will be those in effect at the time they reenter CSUMB or complete their programs.

Postbaccalaureate students may not earn a minor or a second minor. Second baccalaureate students are not considered for university honors. Students cannot concurrently pursue a graduate degree objective and a second baccalaureate degree at CSUMB.
International (Foreign) Student Admissions Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on TOEFL Requirement for undergraduate applicants), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least eight weeks before registration for the first term and, if not in English, must be accompanied by certified English translations.

Priority in admission is given to residents of California.

Insurance Requirement for International Students

Effective August 1, 1995, as a condition of receiving an I-20 or IAP-66 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the CSU. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFSA: Association of International Educators.

Financial Verification for International Students

CSUMB is required to verify that funds are available to support a foreign student’s CSUMB enrollment before issue of the I-20 Certificate of Eligibility of Nonimmigrant (F-1) Student Status. Applicants will be required to provide bank statements and other pertinent supporting documentation verifying that at least one year’s funds (approximately $16,000) are available. After application to CSUMB, applicants will receive the financial statement form used to verify financial support.

Other Applicants

Summer Session Applicants

Although CSUMB is not on year-round operation, the campus does offer distinctive summer programs. Information regarding summer session offerings is available from CSUMB’s Student Information Center.

Over-60 Program

The CSU has established a program which allows California residents 60 years of age or older to enroll in regular session courses without payment of certain specified fees and with reduction in the amounts of others. Applicants interested in this program must be admissible as stipulated in Title 5 of the California Code of Regulations and shall, at time of enrollment, register after regular students. Further information is available from the Student Information Center.

Intrasytem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of Admissions and Records.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is automatically reported to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported automatically to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Health Screening

All new and readmitted students born after January 1, 1957 will be notified of the requirement to present proof of measles and rubella immunizations. All students 18 years of age or younger shall be required to present proof of immunization against hepatitis B. These are not admission requirements, but shall be required of students as conditions of CSU enrollment. Proof of measles and rubella immunizations shall also be required for certain groups of enrolled students who have increased exposure to these diseases.

Immunization documentation should be mailed or brought to the CSUMB Campus Health Center (CHC).
Assessment of Prior Learning

CSUMB grants credit for learning, knowledge, or skills-based experience that has been documented and evaluated via the assessment process. Complete information is available from the Student Academic Advising Office. Students should be aware, however, that policies for earning credit for prior learning vary from campus to campus in the CSU.

Immigration Requirements for Licensure

On August 27, 1996, Governor Pete Wilson issued Executive Order W-135-96 which requested that the CSU and other state agencies implement “as expeditiously as reasonably practicable” the provisions of The Personal Responsibility and Work Opportunity Reconciliation Act (PRAWORA) of 1996 (PL 104-193). The Act, also known as the Welfare Reform Act, included provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation is available from the Student Information Center.

Determination of Residence for Nonresident Tuition Purposes

The CSUMB Office of Admissions and Records determines the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by the California State University is found in Education Code Sections 68000-68090, 68120-68134, and 89705-89707.5, and in Title 5 of the California Code of Regulations, Section 41900-41912.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Physical presence in the state combined with steps taken at least one year prior to the residence determination date to show an intent to make California the permanent home is required to establish a California residence for tuition purposes. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax returns; ownership of residential property or continuous occupancy or

Advanced Placement

CSUMB grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement program of the College Board. Students who present scores of three or better will be granted up to six semester units of college credit.

Credit by Examination

CSUMB grants credit to those students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement (AP) Examinations and some CLEP examinations. Students may challenge courses by taking examinations developed at the campus. Credit shall be awarded to those who pass them successfully. Contact the Office of Admissions and Records for complete information.

Credit for Noncollegiate Instruction

CSUMB grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

General Information about Admissions and Evaluation of Academic Records

Transfer Credit from Other Colleges and Universities

California Community Colleges will certify to the CSU those courses which are of baccalaureate level and therefore transferable for at least elective credit. Credits earned in accredited community colleges will be evaluated by the Office of Admissions and Records in accordance with Title 5 of the California Code of Regulations, Section 40409: “A maximum of 70 semester credits earned in a community college may be applied toward the undergraduate degree, with the following limitations:

- No upper-division credit may be allowed for courses taken at a community college.
- No credit may be allowed for professional courses in education taken in a community college, other than an introduction to education course.”

Credits earned in regionally accredited colleges will be evaluated by CSUMB’s Office of Admissions and Records and advanced standing allowed on the basis of the evidence submitted. Credit toward the fulfillment of graduation requirements will be allowed only insofar as the courses satisfactorily completed meet the standards and the requirements of the basic course pattern of the college.

Credits earned in nonaccredited colleges may be accepted as a basis for advanced standing only to the extent that the applicant can demonstrate for CSUMB’s approval that a satisfactory degree of proficiency has been attained in the course in question.

Credit for Noncollegiate Instruction

CSUMB grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Assessment of Prior Learning

CSUMB grants credit for learning, knowledge, or skills-based experience that has been documented and evaluated via the assessment process. Complete information is available from the Student Academic Advising Office. Students should be aware, however, that policies for earning credit for prior learning vary from campus to campus in the CSU.

Immigration Requirements for Licensure

On August 27, 1996, Governor Pete Wilson issued Executive Order W-135-96 which requested that the CSU and other state agencies implement “as expeditiously as reasonably practicable” the provisions of The Personal Responsibility and Work Opportunity Reconciliation Act (PRAWORA) of 1996 (PL 104-193). The Act, also known as the Welfare Reform Act, included provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation is available from the Student Information Center.

Determination of Residence for Nonresident Tuition Purposes

The CSUMB Office of Admissions and Records determines the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by the California State University is found in Education Code Sections 68000-68090, 68120-68134, and 89705-89707.5, and in Title 5 of the California Code of Regulations, Sections 41900-41912.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Physical presence in the state combined with steps taken at least one year prior to the residence determination date to show an intent to make California the permanent home is required to establish a California residence for tuition purposes. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax returns; ownership of residential property or continuous occupancy or
renting of an apartment on a lease basis where one’s permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator’s license; maintaining active savings and checking accounts in California banks; and maintaining permanent military address and home of record in California if one is in the military service.

The student who is in the state for educational purposes only does not gain the status of resident regardless of the length of the student’s stay in California.

In general, the unmarried minor citizen or noncitizen (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of a minor cannot be changed by the minor or the appointment of a guardian for the minor, so long as the minor’s parents are living.

A married person may establish his or her residence independent of his or her spouse.

A noncitizen may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning their financial dependence status.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a “resident student” for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are:

- Fall: September 20
- Spring: January 25

There are exceptions from nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues until the student has resided in the state the minimum time necessary to become a resident.

2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and have been entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident.

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student has resided in the state the minimum time necessary to become a resident.

4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. There is no limitation on this exception unless the military person transfers out of California or retires from military service. If either of those events happen, the student’s eligibility for the exception continues until he or she resides in the state the minimum time necessary to become a resident.

5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception continues until the military personnel has resided in the state the minimum time necessary to become a resident.

6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in the state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

9. Certain credentialed, fulltime employees of California school districts.

10. Fulltime CSU employees and their children and spouses; state employees assigned to work outside the state and their children and spouses. This exception continues until the student has resided in the state the minimum time necessary to become a California resident.

11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties.

12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of a least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.

Any student, following a final campus decision on his or her residence classification only, may, within 120 calendar days of notification of the final decision by the campus of the classification, make written appeal to:

The California State University
Office of General Counsel
401 Golden Shore
Long Beach, California 90802-4210

The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for further review. Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Office of Admissions and Records. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residence determination is by no means a complete explanation of their
Transcripts

Final official transcripts must be submitted prior to enrollment to verify that all required coursework has been completed successfully. CSUMB will either delay admission or not permit registration or attendance until receipt of final transcripts and admission eligibility can be verified.

All transcripts submitted for admission and transfer credit purposes must be official and sent directly from the originating school or college to the Office of Admissions and Records. Transcripts submitted by the student are not acceptable unless submitted in a sealed envelope. All records submitted become the property of CSUMB, part of the student’s file, and will not be released. If a student does not complete the admission application or enroll, the records will be kept on file for two years only.

It is suggested that students order a set of transcripts for themselves at the same time that they order them for admission so that transcripts are available for advising purposes.

Undergraduate Transfer Applicants

Transfer applicants who have earned fewer than 56 transferable semester credits must file one complete official transcript from the high school of graduation and the ACT or SAT results in addition to a transcript of the college credits attempted.

Transfer applicants who have completed 56 or more semester credits of transferable courses and who are applying to CSUMB need not file the high school transcript. However, applicants are cautioned that if, during the evaluation process, it is determined that fewer than 56 semester credits of transferable courses were earned, processing will stop. The applicants will be notified that the high school transcript and ACT or SAT scores are required and admission consideration will again be given only at the time these documents are received and the record is complete.

All undergraduate transfer applicants must file one official transcript from each college in which they have enrolled. This includes special sessions, correspondence, and audited courses, as well as any college in which the student was enrolled and withdrew without earning credit.

Applicants to postbaccalaureate and credential programs are required to file one official transcript from each and every college in which they have enrolled. Transcripts must be sent directly from the originating institution to the Office of Admissions and Records. Transcripts submitted by the student are not acceptable unless submitted in a sealed envelope. All college work must be reported.

Selective Service Signup

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at (www.sss.gov).

Registration

CSUMB strives to make the registration experience as smooth as possible. The registration process includes fee payment, academic advising, and class enrollment. All academic and financial holds must be reconciled to be eligible for registration.

Fee Payment

Registration fees must be paid prior to registering for classes. Students receiving financial aid may receive fee deferment if aid is pending.

Academic Advising

To complete the academic advising process, students should:

■ Review this catalog and the course schedule which contain important information regarding CSUMB’s outcomes-based curriculum, University Learning Requirements (ULRs), Major Learning Outcomes (MLOs), assessment, and other key components of academic life at CSUMB.

■ Review the descriptions of courses and other learning experiences as listed in this catalog and online (csumb.edu/student) and cross-reference them with current offerings as listed in each semester’s course schedule, available in print at the University Bookstore and online (csumb.edu/schedule).

■ Go to the online CSUMB Student Information System (http://infoserver.monterey.edu), select Planner Web, and follow the instructions to check UIR status, submit a proposed schedule of classes, gain advisor approval, and obtain instructor approvals if required.

Class Enrollment

Students receive a registration notification letter indicating eligibility to register, residency status, registration holds, and assigned registration time. Eligible students may register online via BANNER Web (http://infoserver.monterey.edu) at or after their assigned registration time.

Late Registration

Students are permitted to register late with approval of individual instructors through the second week of the semester. A late fee charge will apply. Forms are available at the Student Information Center.

Adds and Drops

The responsibility for adding and dropping any course rests solely with the student. CSUMB shall determine and publish the course adjustment periods available to students. These periods may vary based on the time of year a course is offered, the format in which a course is offered, or other appropriate variables. Course adjustment periods shall be published in each Course Schedule. Students may add courses within the course adjustment period with the approval of the instructor. Beyond the course adjustment period the student may petition the appropriate instructor to add a course. Students
may drop courses during the course adjustment period without approval of the instructor. During the Late Add/Drop Period, students may drop courses for serious and compelling reasons with the approval of the instructor. A “W” will appear on the student’s transcript for courses dropped during or after the Late Add/Drop Period.

Instructors may give up a student’s place in class if the student does not attend or contact the instructor by the second meeting of the course. A “WU” will appear on the student’s transcript for the course when the instructor drops the student for nonattendance.

**Withdrawning from the Institution**

Students who find it necessary to withdraw from CSUMB after enrolling for any academic term are required to follow the official withdrawal procedures. Failure to follow formal withdrawal procedures may result in the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term.

Students needing to withdraw begin the process by contacting the Student Information Center. The date of contact will be used to determine the withdrawal initiation date. The Financial Aid Office will use this date to determine if any repayment of financial aid will be required. To formally withdraw from the institution students must complete the withdrawal process by submitting the Withdrawal form, with all required signatures and clearances, to the Student Information Center.

Students wishing to withdraw from CSUMB after the course adjustment period may do so for serious and compelling reasons; a grade of “W” will appear on the transcript for all courses dropped after the course adjustment period.

Students who are receiving financial aid funds must consult with the CSUMB Financial Aid Office prior to withdrawing from the university regarding any refunds or repayments of grant or loan assistance received for that academic term. If a recipient of financial assistance under federal Title IV financial aid programs withdraws from the institution during a payment period the amount of grant or loan assistance received is subject to refund provisions governed by federal law.

Requests for refunds after the first two weeks of the semester are subject to Title V regulations (copy available at the Cashier’s Office).

**Classification of Students**

- **Lower-division students are:**
  - Freshmen who have earned a total of fewer than 30 semester credits
  - Sophomores who have earned a total of 30 through 59 semester credits

- **Upper-division students are:**
  - Juniors who have earned from 60 through 89 semester credits
  - Seniors who have earned 90 semester credits or more
  - Second baccalaureate students who possess a recognized baccalaureate degree and are enrolled in an undergraduate degree program
  - Students with graduate standing who possess a recognized baccalaureate degree and are enrolled in graduate studies or in school credential programs

**Course Numbering System**

- Precollegiate: 01-99
- Lower Division: 100-299
- Upper Division: 300-499
- Upper Division/Graduate*: 300-499
- Post Baccalaureate/Graduate: 500-699

* Upper division courses may earn graduate credit for graduate students or for last semester seniors upon approval.

**Grading Policy**

The grading policy of the university permits either letter grades A, B, C, D, F, with ‘plus’ or ‘minus’ designations or **CR/NC** (Credit/No Credit) grades to be assigned to any course offered by the university, unless the course has specifically been designated as a Credit/No Credit or graded learning experience. Students may request either graded or Credit/No Credit grading, unless the course has a specific designation. There is no limitation regarding the number of courses that may be graded in either manner.

**Grade Point Average**

The grade point average (GPA) is based on learning experiences in which letter grades are earned. The grade point average is calculated by dividing the total number of grade points earned by the total number of credits in letter-graded learning experiences.

The following grade points are associated with each letter grade:

- A+ 4.0
- A 4.0
- A- 3.7
- B+ 3.3
- B 3.0
- B- 2.7
- C+ 2.3
- C 2.0
- C- 1.7
- D+ 1.3
- D 1.0
- D- 0.7
- F 0.0

**Other Grade Marks**

**I (Incomplete)**

A grade of “incomplete” signifies that a portion of the required coursework has not been completed and that there is still the possibility of earning credit. An incomplete will not be assigned when a major portion of the course work needs to be completed.

An “incomplete” is a temporary assessment that may be assigned only with the approval of the instructor and only when all of these criteria apply:

- The student has completed a majority of the course requirements as determined by the instructor.
- The student has experienced unforeseen and extenuating circumstances that prevent fulfillment of the remaining course requirements by the end of the term.
- The student is making satisfactory progress toward achieving course outcomes.

Students shall be responsible for providing the instructor with evidence to support the request for an “I” no later than the published “Last Day of Instruction” for that term.

Student and instructor shall agree on how and when the remaining course requirements will be completed and enter into a written contract describing those requirements. Completion of the course requirements and evaluation shall take place no later than one academic year from the date of the approved “I.” A final grade shall be given when the work agreed upon has been completed and evaluated in a timely manner.
If the conditions of the written contract have not been satisfied by the deadline, the incomplete will automatically change to a grade of “NC” and be recorded on the student’s transcript.

The Institute or unit responsible for the course shall maintain an official record of the written contract. If the instructor of record is no longer available, the Institute director shall ensure that the instructor’s obligations are fulfilled.

**AU (Audit)**

Enrollment as an auditor requires that the student obtain the permission of the instructor and submit a Change of Program at the Office of Admissions and Records during the Add/Drop period. Auditors are subject to the same fee structure, but the grade of Audit does not indicate completion of the learning experience.

**W (Withdrawal)**

The symbol indicates that the student dropped the course after the Add/Drop period. It carries no connotation of quality of student performance and is not used in calculating the grade point average.

**UW (Unofficial Withdrawal)**

The symbol indicates that a faculty member dropped the student from the course after the Add/Drop period due to nonattendance. It carries no connotation of quality of student performance and is not used in calculating the grade point average.

**Change of Grade**

A change of grade may be made only in the case of a clerical or other administrative grading error. An appeal for a change of grade must be initiated by the student and must be approved by the instructor. An appeal for a change of grade should be initiated as soon as possible, normally within one semester, in order to ensure that proper documentation is available.

**Repeated Courses**

Undergraduate students may repeat courses in order to fulfill degree requirements, enhance previously acquired learning, or both. Students shall seek academic advisement before deciding to repeat any course.

The higher grade shall be counted in the student’s grade point average. Once a student elects to count a higher grade, lower grades are not counted in the grade point average computation. Each grade appears on the student’s permanent academic record.

Students may not improve grades for courses taken at other institutions by repeating them at CSUMB, nor may they improve grades earned in courses taken at CSUMB by repeating them elsewhere.

**Academic Standards**

Undergraduate students are expected to maintain a cumulative and a CSUMB grade point average of at least a 2.0 (C average).

**Academic Probation**

An undergraduate student is placed on Academic Probation if at any time the cumulative grade point average in all college work or a cumulative grade point average at CSUMB falls below a 2.0 (C average). Students on Academic Probation will be notified by the Office of Admissions and Records. Students will remain on Academic Probation until the cumulative and CSUMB grade point average is a 2.0 (C average) or until the student has been Academically Disqualified.

**Academic Disqualification**

Disqualification means that the undergraduate student has not maintained satisfactory academic standards and is involuntarily separated from the university. Undergraduates are disqualified if they fall a certain number of grade points below a 2.0 (C average) grade point average as follows:

- 15 point deficiency for freshmen and sophomores (fewer than 60 units).
- 9 point deficiency for juniors (60 to 89 units).
- 6 point deficiency for seniors and second baccalaureates (90 or more units).

Students who have been academically disqualified will be notified by the Office of Admissions and Records.

**Standards of Progress for Veterans**

A veteran or eligible person who remains on probation for grade point deficiency below a 2.0 cumulative GPA beyond two semesters will have veteran’s benefits discontinued and any further certification of benefits terminated.

**Graduation**

**Application to Graduate**

Students planning to graduate must file an application to graduate within the Graduation Application Filing Period. The application filing period is established to allow students to receive information regarding outstanding requirements prior to registration for their final term of enrollment. Students who file an application after the filing deadline or who change their expected graduation date are subject to a $20.00 late fee. Graduation Applications are available in the Office of Admissions and Records. Completing this application requires a meeting with the academic advisor to finalize the Individualized Learning Plan (ILP). Following submission of all the necessary materials, students receive a summary of the requirements which need to be fulfilled prior to the awarding of the degree.

**Graduation Application Filing Period**

Graduate May or August 2002

- Filing Period . . . . . . . . . . . May 1 - September 30, 2001
- Late Filing Period with Petition and Late Fee . October 1, 2001 - February 28, 2002
- Graduate December 2002
  - Filing Period . . . . . December 1, 2001 - March 31, 2002
  - Late Filing Period with Petition and Late Fee . . . . . April 1 - August 31, 2002

**Diplomas**

Diplomas are mailed to graduates via certified mail, once final grades have been recorded and all requirements have been verified. Diplomas are not issued during the Commencement Ceremony.

**Commencement Ceremony**

CSUMB holds its annual commencement ceremony during the month of May. Participation in the commencement ceremony is voluntary. Students earning baccalaureate or graduate degrees are eligible to participate in one commencement ceremony when the degree was
earned either the fall semester before the ceremony, the spring semester of the ceremony, or the summer semester after the ceremony. Students whose degrees may be earned during the fall semester may not participate in commencement the spring before the degree is earned.

Students earning a teacher credential may participate in the Teacher Credential Ceremony and be recognized according to a program developed and sponsored by the Center for Collaborative Education and Professional Studies (CEPS).

Requirements for a Bachelor of Arts or a Bachelor of Science Degree

The requirements for the B.A. and B.S. degree programs at CSUMB include:
1. University Learning Requirements (ULRs)
2. Graduation Learning Outcomes (GLOs)
3. Major Learning Outcomes (MLOs)
4. Title V California Education Code Requirements

University Learning Requirements

The ULRs represent CSUMB’s General Education requirements. The philosophy of the ULR system and the brief outcomes of each requirement are posted on the CSUMB Advising webpage (csumb.edu/academic/advising). There are 13 ULRs expected of all students who complete their General Education requirements at CSUMB:
- Community Participation (CP)
- Creative and Artistic Expression (ARTSCOM)
- Culture and Equity (CULTURE)
- Democratic Participation (DEMPART)
- English Communication (ENGCOM)
- Ethics (ETHICS)
- Language (LANG)
- Literature and Popular Culture (LIT)
- Mathematics Communication (MATHCOM)
- Science (SCI)
- Technology and Information (TECH)
- U.S. Histories (HIST)
- Vibrancy (VIBRANCY)

Fulfilling the ULRs

CSUMB native students—those who enter CSUMB as freshmen—are required to meet all of the ULRs. Students who transfer from another educational institution may meet ULRs in the following ways:
- Students who transfer from another California institution with their General Education (GE) fully certified will have fulfilled all of the ULR areas.
- Transfer students without full GE Certification must fulfill each of the corresponding ULRs that they have not previously completed. Before a student matriculates at CSUMB, the ULRs may be fulfilled by completing General Education course requirements (with a grade of C or better as follows):
  - Creative/Artistic Expression
  - Democratic Participation
  - Area A1*
  - Area A2*
  - Area B1*
  - Area B2*
  - Area C1*
  - Area C2*
  - Area D* and/or F1*: U.S. History
  - Area E* (Completed, usually two courses)

ULR exceptions for students with 56 or more semester units at the time of transfer

- Community Participation: Lower division course waived; required to participate in one service learning experience in the major
- Language: Demonstrate competence at the fourth level, rather than the fourth level, as required of students that enter CSUMB as freshmen or lower division transfers.

Graduation Learning Outcomes

For transfer students who have already completed their General Education requirements, CSUMB requires that they fulfill four learning requirements, informally referred to as Graduation Learning Outcomes (GLOs), in addition to (or nested within) their Major Learning Outcomes:
- Culture and Equity
- Upper Division Service Learning
- Language: Students who enter CSUMB as freshmen or with less than 56 transferable units must demonstrate language competence at the fourth level. Students with 56 or more transferable units at the time of admission must demonstrate competence at the third level.
- Technology/Information
Major Learning Outcomes

The Major Learning Outcomes (MLOs) of each degree program are defined by the Institute offering the major. The MLOs for most of the majors are described on the Web (www.monterey.edu/academic/centers/index). Within the context of the Major ProSeminar, students develop their own Individualized Learning Plans which describe the pathways that they plan to follow to achieve their Major Learning Outcomes.

California State University Title V Requirements

To authorize the award of the degree, the California Educational Code Title V requirements for California State University requires that students complete a specified minimum number of units in upper division courses for General Education, in the major, and at the campus awarding the degree. CSU also requires the achievement of a minimum grade point average in specified areas and completion of the Graduation Writing Assessment Requirement (GWAR). The requirements are as follows:

Semester Unit Minimum Requirements

Grade Point Average Minimum Requirements

Grade Point Average minimum requirement is a 2.00 in the following:

- Cumulative total units attempted, including all transfer courses.
- All units attempted in the major.
- All units attempted at CSUMB.

Graduation Requirement in Writing Proficiency

All students must demonstrate competency in writing skills as a requirement for graduation. Information regarding available ways to meet this graduation requirement may be obtained from the CSUMB Writing Program Director or the Office of Admissions and Records.

Additional Degree Program Requirements

- Freshman ProSeminar: Students who enter CSUMB with less than 30 units are required to enroll in Freshman ProSeminar during their first term of enrollment.
- Major ProSeminar: All students are required to take Major ProSeminar. Successful completion of the Major ProSeminar constitutes official acceptance into the major program.
- Major Capstone: All students complete a Senior Capstone project culminating their degree programs.

University Honors

University Honors is based on the cumulative grade point average, with a minimum of three semesters of enrollment at CSUMB:

- Summa Cum Laude 3.90 or better
- Magna Cum Laude 3.75 to 3.89
- Cum Laude 3.5 to 3.74

Admissions and Records Policies and Procedures

The information presented within this section is based on programs and policies approved by appropriate university or regulatory agencies. Where further program development continues or where existing conditions allow for flexibility or modification, CSUMB will explore every opportunity to improve its programs and methodologies.

Use of Social Security Number

Applicants are required to include their correct social security numbers (taxpayer identification numbers) in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The university uses the social security number to identify records pertaining to the student as well as to identify the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the university to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Other Policies and Procedures

Some of the policies and procedures governing the operations of CSUMB’s Office of Admissions and Records include:

- Privacy Rights of Students’ Education Records
- Nondiscrimination Policy
- Student Discipline
- Changes in Rules and Policies

For more information on these policies, please refer to the Policies and Procedures chapter of this catalog and the campus policy website (http://policy.monterey.edu/).
Tuition & Fees
Section Contents

- Registration Fees
- Nonresident Tuition
- Other Fees and Charges
- Student Health Insurance
- State University Fee Installment Payment Plan (IPP)
- Fee Collection
- Financial Aid Fee Deferrals
- Late Registration Fee
- Late Payment Fee
- Refund of Fees
- Debts Owed to CSUMB
- Tuition and Fee Payment Deadlines

Important Notes

- Most fees are waived for those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act (Ed Code, Section 68120).
- Systemwide mandatory fees are waived for those individuals who qualify for such exemption under the provision of Ed Code, Section 32320 (Children of deceased disabled veterans).
- All fees and expenses are those in effect at the time this publication was printed. Fees are subject to change by the Trustees of the California State University without advance notice.

  - Website: www.ssi-incorporated.com

Registration Fees

All Students
Registration fees must be paid prior to registering for classes. Students who register after the registration period for new students (August 24, 2001, for the fall semester and January 25, 2002, for the spring semester) will be charged a $25.00 late registration fee. A $20.00 administrative late payment fee will be charged for fee payments received after the last day of the first week of classes (August 31, 2001 for the fall semester and February 1, 2002 for the spring semester). All fees and expenses are those in effect at the time this publication was printed. Fees are subject to change by the trustees of the California State University without advance notice.

Fee Allocation
A fee advisory committee comprised of a student majority provides advice to the campus president about charging student fees and allocating campus-based fee revenue. Resources from the materials, services, and facilities fee are used to support a variety of services, and currently are allocated to support health services, instructional related activities, transportation, childcare, and university services (includes ID card, transcripts, campus catalog, graduation/diploma). The allocation to transportation supports alternative modes of transportation, including the shuttle service, but does not include a parking permit. Students who elect to pay the parking user fee ($54.00 per semester) have the transportation portion of the materials, services, and facilities fee waived and have access to both parking and the shuttle service. Under this option, fees for the semester total $646.50 (up to 6 credits) and $946.50 (more than 6 credits) for undergraduate students and $670.50 (up to 6 credits) and $985.50 (more than 6 credits) for graduate students.

Graduate Fees

Up to 6 Credits
- State University Fee: $414.00
- Materials, Services, and Facilities Fee: $145.50
- Associated Student Body Fee: $48.00
- Student Union Fee: $20.00
- Total: $627.50

More than 6 Credits
- State University Fee: $714.00
- Materials, Services, and Facilities Fee: $145.50
- Associated Student Body Fee: $48.00
- Student Union Fee: $20.00
- Total: $927.50

Nonresident Tuition
All nonresidents (out-of-state and foreign visa students) are required to pay tuition fees in addition to registration fees. Nonresident tuition is charged on a per-credit basis with no maximum credit limit. The current charge is $246.00 per credit. Authority for this fee is found in the California Education Code, Section 89705.

Determination of Residence for Nonresident Tuition Purposes
For more information about how nonresident status is determined, refer to the Admissions and Records chapter of this catalog.
Other Fees and Charges

- Parking Fee (per semester) $54.00
  Note: Students who elect to pay the parking user fee will have the transportation portion of the materials, services, and facilities fee waived.
- Replacement of Lost Parking Permit $10.00
- Admission Application Fee (nonrefundable) $55.00
- Late Registration Fee (nonrefundable) $25.00
- Administrative Late Payment Fee (nonrefundable) $20.00
- Installment Payment Plan (IPP) Fee $33.00
- Refund Processing Fee $5.00
- Transcript Fee
  - Note: Waived for enrolled, matriculated students; CSUMB alumni receive 4 free transcripts.
  - First Transcript $4.00
  - Each Additional Transcript, up to 10 (ordered at the same time) $2.00
  - Each Transcript over 10, ordered at the same time $1.00
  - Rush Fee (for shipping via FedEx next day delivery) $15.00
- Returned Check Fee
  - First Check $25.00
  - Subsequent Checks $35.00
- Replacement of Photo ID Card Fee $10.00
- Library Fees
  - Overdue Books and Materials Fines vary
  - Lost or Damaged Books and Materials Cost plus $20.00

Student Health Insurance

All students living on campus and all foreign visa students (whether or not they are residing on the CSUMB campus) must have health insurance coverage. Students who already have medical insurance must provide evidence of coverage by completing an insurance waiver form and returning it to the Office of Residential Life when they move on campus (or at the time of registration for foreign visa students not living on campus). Students living on campus and all foreign visa students who do NOT have medical insurance prior to coming to CSUMB must purchase medical insurance. CSUMB sponsors student health insurance through Somerton Student Insurance Company. Somerton may be contacted directly, or pamphlets are available at the Student Information Center, the Office of Residential Life, or the Campus Health Center.

Please note that the Campus Health Center (CHC) and Student Health Insurance are separate programs. Whether or not students are covered by CSUMB sponsored student health insurance, they may still use the CHC.

State University Fee Installment Payment Plan (IPP)

Under guidelines issued by the CSU Chancellor’s Office, a fee installment payment plan (IPP) enables students to defer payment of a portion of the state university fee only. However, students who have financial aid, waivers, or other deferments are not eligible to participate. To defer state university fees, students must complete and sign the CSUMB state university fee installment payment plan contract which is available at the Cashier’s Office. A $33.00 nonrefundable administrative fee (dictated by legislation) will be assessed to cover costs associated with the IPP including, but not limited to, interest income lost to the state of California.

Students selecting the IPP option must submit the completed and signed contract along with the first payment by May 30, 2001 for the fall semester and by December 8, 2001 for the spring semester. The schedule of IPP payment deadlines and amounts are shown below.

A $20.00 administrative late payment fee will be assessed if the second IPP payment is not received by 4:00 P.M. on the due date. Notices for the deferred state university fee balance will not be sent to students, and it is each student’s responsibility to make payments by July 2 and August 1, 2001 for the fall semester, and by January 8, 2002 and February 8, 2002 for the spring semester.

</table>
Fee Collection

Students are expected to pay all fees by the established deadlines. Payments may be made by cash, check, money order, or credit card at the Cashier’s Office. Credit card payments can be made over the WEB starting in Fall 2001. Please refer to the CSUMB.EDU website for instructions. A drop box is also available at the front of Building 84C for deposits at any time (please do not use the drop box for cash payments). VISA, MasterCard, American Express, or Discover credit cards may be used for payment of student fees. Payments made by check will be accepted by mail (please do not mail cash or money orders), the cancelled check serves as receipt.

Nonpayment of registration fees may result in cancellation of a student’s registration. Fees assessed at the time of registration are subject to audit and correction at a later date. Any additional fees owed will be billed and overpaid fees refunded to the student.

Financial Aid Fee Deferrals

Fees will be deferred for students who have applied for financial aid prior to registering for classes and prior to the first day of classes, and whose financial aid has not been received prior to the payment deadlines. Fees will be deferred until the financial aid is received or until November 1, 2001, for the fall semester and until April 1, 2002, for the spring semester, whichever is earlier. If the financial aid is insufficient to cover the fees that are due, the student is responsible for payment of the fee balance within 10 days from the date the financial aid is disbursed. A $20.00 late fee will be charged and collection proceedings initiated for students with account balances after the fee deferment deadline. A financial administrative hold will be placed on the student’s academic record until payment is received.

Financial aid recipients wanting to purchase a parking permit must submit a personal check or cash for the parking permit or complete an Authorization for Deductions from Financial Aid Awards form if the student wishes to have the fee deducted from financial aid. The authorization forms are available at the Cashier’s Office and the Transportation and Parking Services [TAPS] Office.

Late Registration Fee

Students who register after the registration period for new students (August 24, 2001, for the fall semester and January 25, 2002, for the spring semester) will be charged a $25.00 late registration fee.

Late Payment Fee

A $20.00 administrative late payment fee will be charged for each fee payment that is not received by the due date.

Refund of Fees

Details concerning fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained by consulting Section 42201 (parking fees), 41913 (nonresident tuition), and 41802 (all other fees) of Title 5, California Code of Regulations. Refunds are not automatic. In all cases, it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be obtained from the Cashier’s Office.

Refund of Registration Fees

To be eligible for a refund of registration fees, a student withdrawing or reducing credits (from 6.1 or more credits to 6.0 credits or less) must file an Application for Refund of Student Fees form at the Office of Admissions and Records by the refund deadline. Registration fees are refunded (less a $5.00 processing charge) to students who withdraw or reduce credits by September 10, 2001, for the fall semester and February 11, 2002, for the spring semester. Requests for refunds after this date are subject to Title 5 of the California Code of Regulations, which provides for late application of refunds only in the case of compulsory military service, death, or disability. Students may apply for late refunds through the Office of Admissions and Records. The Administration and Finance Office reviews all refund requests for eligibility. Refunds may be applied against other amounts due to CSUMB.

Refund of Nonresident Tuition

Nonresident tuition fees are refunded to eligible students who withdraw from classes resulting in a credit reduction. The day the class is dropped will be used in determining the refund amount according to the following table:

Fall 2001 Semester Nonresident Tuition Refund Schedule

■ Before or during the first week of the semester (August 27 – August 31) ................. 100% of fee
■ September 3 - September 7 .................. 90% of fee
■ September 10 - September 14 .......... 70% of fee
■ September 17 - September 21 .......... 50% of fee
■ September 24 - September 28 ............. 30% of fee
■ October 1 - October 5 .................... 20% of fee
■ After October 5 ......................... No refund

Refund of Registration Fees to Title 4 Financial Aid Recipients

Students awarded financial aid, who are withdrawing, must see a Financial Aid Office representative so that eligibility can be assessed, rights and responsibilities can be explained, reasonable academic progress requirements can be articulated, and future aid eligibility discussed. Financial aid students who fail to officially withdraw may be subject to total aid cancellation. In addition, financial aid monies allocated to students may need to be refunded to Title 4 programs, or students may need to repay a portion of the funds received if they withdraw, drop out, are expelled, or otherwise become ineligible during the payment period. A copy of this policy is available at the Financial Aid Office and the Administration and Finance Office.

Veteran Refund Policy

For veteran students, California State University, Monterey Bay maintains a policy for the refund of the unused portion of tuition, fees, and other charges in the event the veteran or eligible person fails to enter the course, withdraws, or is discontinued therefrom at any time prior to the completion of the course. The policy provides that the amount charged to the student for tuition, fees, and other charges for a portion of the course does not exceed the approximate pro rata portion of the total charges for tuition, fees, and other charges that the length of the completed portion of the course bears to its total length, except that $5.00 of the registration fee is not subject to proration.

Debts Owed to CSUMB

Should a student or former student fail to pay a debt owed to CSUMB, the university may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food, or merchandise, or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381). For example, CSUMB may withhold permission for future registration with the university and permission to receive official transcripts of grades from any person owing a debt. Debts owed to the university will be referred to a third-party collection agency at the discretion of the university.

If students believe that they do not owe all or part of an unpaid obligation, they should contact the Cashier’s Office. The Cashier’s Office, or another office on campus to which students may be referred by the Cashier’s Office, will review the pertinent information, including information students may wish to present, and will advise each student of its conclusions with respect to the debt. If a financial hold is placed on a student’s record for nonpayment of a debt, the hold must be cleared prior to registration. Payments to clear financial holds must be made by cash, money order, cashier’s check, or credit card. Personal checks will not be accepted.

Students may use current semester student loan checks to pay prior balances provided that each student signs an Authorization for Deductions from Financial Aid Award form. These forms are available at the Cashier’s Office.

Returned Checks

Students paying by personal check for any university-related fees or services will be assessed a $25.00 service charge if the bank dishonors a check for any reason. The amount of the original dishonored check plus the $25.00 fee becomes a financial obligation of the student to CSUMB. A $20.00 late fee may also apply. Subsequent bad checks will be assessed a $35.00 processing charge. CSUMB has no control over whether a bank sends checks through a second time for clearing.

Individuals paying registration fees by personal check are hereby given notice that if a check is dishonored from the bank for any reason, registration is subject to cancellation. Once canceled, registration will not be reinstated. All dishonored checks must be redeemed immediately with a cashier’s check, money order, credit card, or cash. A hold will be placed on all academic records until payment is received. CSUMB reserves the right to refuse payment by personal check from individuals who have previously had checks returned unpaid by their bank.

Tuition and Fee Payment Deadlines

Fall 2001 Semester

- May 30: Last day to apply for Installment Payment Plan (IPP)
- July 2: Second IPP payment deadline
- August 1: Third IPP payment deadline
- August 24: Last day to register without a $25.00 late registration fee, last day to apply for financial aid and have fees deferred
- August 31: Last day to pay Fall 2001 registration fees without a $20.00 administrative late payment fee
- September 10: Last day to apply for a refund of basic registration fees
- November 1: Last day of fee deferment for financial aid students

Spring 2002 Semester

- December 8: Last day to apply for Installment Payment Plan (IPP)
- January 8: Second IPP payment deadline
- January 25: Last day to register without a $25.00 late registration fee, last day to apply for financial aid and have fees deferred
- February 1: Last day to pay Spring 2002 registration fees without a $20.00 administrative late payment fee
- February 8: Third IPP payment deadline
- February 11: Last day to apply for a refund of basic registration fees
- April 1: Last day of fee deferment for financial aid students

Important Notes

- The priority financial aid application deadline date is March 2.
- The completed forms cannot be mailed before January 1.
Deadlines

It is important to file applications as soon as possible after January 1. Those who have not yet filed taxes may provide estimated information. Students must apply before March 2 in order to qualify for Cal Grants. Other grants are limited and are awarded on a first come, first served basis. Applications will be accepted after March 2, but students applying after this date are more likely to rely on student loans to meet their educational expenses. Students may also be asked to submit supporting documents before their financial aid eligibility will be determined. This could include copies of federal income tax returns or an income verification form if no tax return was filed. Students will receive a letter from the CSUMB Financial Aid Office if additional forms are required.

Financial Need

Students must have financial need to qualify for most forms of financial aid at CSUMB. Need is defined as the cost of education at CSUMB less expected family contribution. The Unsubsidized Stafford and parent loans are the only exceptions.

Costs of Education

The costs of attending CSUMB for 2000-2001 are listed below. These costs are based on average student expenses for the nine-month academic year. They will be adjusted for 2001-2002.

* Students who are not California residents pay an additional $246 per credit in tuition charges. Postbaccalaureate student fees are $1,894.

Computer Allowance

The cost of education can be increased to reflect the cost of purchasing a computer. The amount allowed is $1,500. This is a one time only allowance.

Study Abroad

The cost of education may be adjusted to reflect expenses for approved programs for studying abroad. Check with the Financial Aid Office before enrolling.

Summer Session and Intersession

Summer Session and Winter Session enrollment periods have separate registration costs. Students’ cost of education may be adjusted if they choose to enroll for these sessions.

Loan Fees

If a student’s award offer includes a student loan, the cost of education may be adjusted to reflect the average expense of origination fees charged under the program guidelines.
Cost of Education Changes
Students must notify the Financial Aid Office if their living arrangements have changed, which may cause changes to their cost of education. If students have additional costs (e.g. childcare costs or medical expenses not covered by insurance) and feel they need an adjustment in their award to reflect these expenses, they should contact the Financial Aid Office.

Expected Family Contribution
The student/parent contribution is based on a family contribution formula mandated by federal and state regulations. The income and asset information provided on the FAFSA and verified in the review process is used in this computation. If students feel that they have unusual circumstances that affect the family’s ability to contribute, they should contact CSUMB’s Financial Aid Office.

Award Notification
After students have turned in all required documents and have been admitted to CSUMB, their applications will be reviewed. They may be asked for additional information if corrections are needed or if any information on their application is not clear. It is important that students respond to all requests from CSUMB’s Financial Aid Office as soon as possible.

Once applications have been reviewed, students will receive written notification from the Financial Aid Office describing the kinds of financial aid for which they qualify. Students should read this award letter carefully and call CSUMB’s Financial Aid Office if they have questions.

Grants
Grants are awards based on financial need and do not have to be repaid.

Federal Pell Grant
The Federal Pell Grant is available to students pursuing their first undergraduate degree, and to students enrolled at CSUMB in the Teacher Credential Program. Award amounts range from $400 to $3,750 and are prorated for students enrolled less than fulltime.

Federal Supplemental Educational Opportunity Grant
The FSEOG is for undergraduate students who have exceptional financial need, are pursuing their first degree, and demonstrate eligibility for the Federal Pell Grant. The amount of FSEOG at CSUMB ranges from $100 to $400.

Educational Opportunity Program Grant
The EOP grant is available to undergraduate students admitted to CSUMB through EOP. Due to limited state funds, not all EOP students will receive EOP grants. Awards range from $200 to $1,000, and are prorated for students attending less than fulltime.

California Grants A, B, and T
The State of California provides grants to undergraduate and teacher credential candidates who are California residents for payment of registration fees. Initial awards are based on financial need, grade point average, and year in school. Renewal awards are based on financial need and satisfactory academic progress.

Cal Grant A
Initial awards are available to first bachelor’s degree students with both need and academic merit. The maximum award is $1,428. Grants are renewable through the fourth year of college, and for the teacher credential program.

Cal Grant B
Initial awards provide a stipend of $1,548 for first bachelor’s degree students demonstrating high financial need and academic merit. Renewal Cal B awards include both a fee payment and the stipend.

Cal Grant T
Awards may be provided to students who will be enrolled in the teacher credential program. The maximum award is $1,506 and is not renewable. Students with renewable Cal A or B awards are not eligible for Cal T. As a condition of receiving a Cal Grant T, a recipient must teach for one year at a low-performing school. Any recipient not meeting the teaching obligation will be required to repay the award.

Out-of-state students should check with their state higher education agency to find out if any state grants or scholarships are offered.

State University Grant
State University Grants (SUG) are intended for students who are residents of California. Students must have an expected family contribution of less than $4,000. Students receiving a fee payment from other programs, such as Vocational Rehabilitation, California Veterans, Over 60s, and Cal Grant (A, B, and T), cannot receive this grant. The maximum SUG amount for the 2000-2001 academic year was $1,506.
Financial Aid

CSUMB Housing Grant
CSUMB’s housing grant provides assistance to students living on campus in the residence halls or Frederick Park apartments. Recipients must demonstrate high financial need. Due to limited funding, not all students who are qualified will receive this grant, so FAFSAs should be filed as soon after January 1 as possible.

Scholarships
Scholarships are usually, but not always, financial aid that does not have to be repaid.

General Scholarship Form
A General Scholarship Form is available to those students who wish to be considered as an applicant for all of the scholarships that are offered through CSUMB. As funds become available the financial aid office will notify the student if supplemental information is needed and will then forward the student’s application for consideration and selection to the scholarship committee.

Alan Pattee Scholarships
Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged mandatory systemwide fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, Education Code Section 68120. Students qualifying for these benefits need to contact the CSUMB Office of Admissions and Records, which determines eligibility.

Work-Study
Work-study is financial aid that is earned through part-time employment.

Federal Work-Study
Federal Work-Study is a federal employment program, which places students in campus jobs. Students may work up to 20 hours per week. Priority for FWVS is given to students demonstrating the highest financial need. Employment opportunities include community service. Due to limited funding, students must apply as soon after January 1 as possible.

State Work-Study
State Work-Study is employment funded by the State of California. Students will be placed in jobs that will help them explore their career goals. Students must demonstrate financial need to qualify for this program. Funding is limited.

Student Assistant Employment
The Student Assistant Employment program funded by CSUMB places students in part-time campus employment. For details students should call CSUMB Student Activities and Career Development (831-582-4070) for an employment application or visit the SACD webpage (www.csumb.edu/student/activities).

Student Loan Programs
Loan programs provide aid that must be repaid.

Federal Government Loans
CSUMB participates in two federal loan programs: the Federal Perkins and the Federal Family Education Loan Program (FFELP).

Federal Perkins Loan
The Federal Perkins Loan is a low interest, long term loan made through the CSUMB Financial Aid Office. It is available to undergraduate students. The current interest rate is five percent. The average Perkins loan award is $1,500 per year.

Federal Family Education Loan Program
FFELP makes federal government loans available through participating banks and financial institutions. There are three federal loans in the program: the Subsidized Stafford Loan, the Unsubsidized Stafford Loan, and the Parent Loan for Undergraduate Students (PLUS). The Financial Aid Office determines which loans are available to students.

Federal Stafford Loan Program
The Federal Stafford Loan is available to students whose cost of attendance has not been fully met through other aid. The interest rate is variable, with a cap of 8.25 percent. The rate is subject to change every July 1. Payments on the loan may be deferred during the time students are in school and are enrolled at least half time. To retain deferred status, students must enroll each semester in at least six credits of undergraduate or four credits of master’s degree coursework. Loan funds cannot be released if the student has dropped below halftime status, has not made satisfactory progress, or has any university holds. The minimum monthly payment is $50 with a maximum repayment period of ten years.

The Subsidized Stafford Loan is available only to students with financial need. During the time recipients are in school (enrolled half time or more), the federal government will pay the interest. Students begin payment of interest and principle six months after they are no longer enrolled at least half time.

The Unsubsidized Stafford Loan has the same terms and interest rate as the Subsidized Stafford Loan, but the federal government does not pay the interest while students are in school. Consequently, interest is charged on the loan, from the date they receive the loan. Payments may be deferred, but the interest accrued while students are in school is added to the amount borrowed.

Federal Family Education Loan Program
CSUMB participates in two federal loan programs: the Federal Perkins and the Federal Family Education Loan Program (FFELP).

Standing Annual Limit
■ Freshman (0-29 earned credits) ....................... $2,625
■ Sophomore (30-59 earned credits) ..................... $3,500
■ Junior, Senior, and Teaching Credential (60+ earned credits) .................. $5,500
■ Master’s Student .............................................. $8,500

These are the legal loan limits; however, students may receive less, depending on their cost of education and other aid. Undergraduate students who are graduating in December will not be eligible for the amounts stated above. Loans must be prorated based on the number of credits taken during the fall semester.
In addition to the loan amounts above, students who qualify as independent may also borrow an **Additional Unsubsidized Stafford Loan**. Eligibility is limited by the amount of the student's cost of education and is determined by subtracting any financial aid resources received from the student cost of education. Undergraduate students graduating in December are also limited to prorated amounts based on the number of credits for which they are enrolled.

The annual loan limits for the Additional Unsubsidized Stafford Loan are:

<table>
<thead>
<tr>
<th>Standing</th>
<th>Annual Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>■ Freshman (0-29 earned credits)</td>
<td>$4,000</td>
</tr>
<tr>
<td>■ Sophomore (30-59 earned credits)</td>
<td>$4,000</td>
</tr>
<tr>
<td>■ Junior, Senior (60+ earned credits)</td>
<td>$5,000</td>
</tr>
<tr>
<td>■ Second Bachelor’s Degree and Teaching Credential</td>
<td>$5,000</td>
</tr>
<tr>
<td>■ Master’s Student</td>
<td>$10,000</td>
</tr>
</tbody>
</table>

The aggregate limits for the Additional Unsubsidized Stafford are $23,000 for undergraduate, second bachelors, and teaching credential programs, and $73,000 for Masters degrees (includes amounts borrowed for undergraduate study.)

Dependent students are not eligible for additional unsubsidized loans, but parents of dependent students may borrow the PLUS (see below).

**Stafford Loan Administration**

If an award includes a loan that the student wishes to accept, the student must complete the loan acceptance section on the award letter. The federal government also requires that entrance loan counseling be provided to all borrowers before they receive their first Stafford Loan check. Students who have never attended a loan counseling session at CSUMB will be required to attend. A schedule of available dates is included with each Award Letter. **Loan checks will not be released to students who fail to attend loan counseling.**

Exit loan counseling is also required for all Stafford Loan borrowers. Students must contact the Financial Aid Office within 60 days from the date that they graduate, withdraw, or drop below halftime status.

All loans are issued in two installments, even if recipient students are attending for only one semester. For academic-year loans, the second disbursement will be released at the beginning of the spring semester; for one-semester loans it will arrive in the middle of the term. For freshmen in their first term of college enrollment, the first loan check cannot be released until the 30th day of the semester.

All funds are transferred from the lender to CSUMB. Once funds have been received at CSUMB, they must be negotiated within 30 days. If there is a hold on a student's record that prevents CSUMB from releasing it, CSUMB will send the student a letter. The student must respond before the date designated in that letter, or the funds will be returned to the lender.

Stafford loan funds must be used to pay any outstanding charges owed to the university including registration fees, tuition, housing, and miscellaneous charges.

**Presidential Access Loan**

The Presidential Access Loan (PAL) assists students who have no other means to obtain a computer, which is an important component of their academic program. Selected students receive a computer, the value of which must be repaid; however for each fulltime semester of attendance at CSUMB, one-eighth of the loan amount will be canceled. If the student leaves CSUMB before completing eight full-time equivalent semesters, the student must pay the balance of the loan or return the computer to CSUMB. Priority will be given to students who confirm their enrollment.

**Other Financial Aid**

**Veteran Benefits**

Students who are eligible for educational benefits through the Veterans Administration may receive payment for enrollment at CSUMB. All students must be admitted to CSUMB and file Veterans Administration payment requests through the CSUMB Financial Aid Office. In addition, The State of California offers a fee waiver program for dependents of service-connected disabled and deceased veterans. More information may be obtained by contacting a local veteran’s services office (in the phone book under County Government).

**Other Awards**

A student's award letter may also include other awards which have been reported to CSUMB's Financial Aid Office. Examples include scholarships from private donors, California Veteran fee waivers, and Vocational Rehabilitation compensation. A minimum self-help component will also be listed for students enrolled less than fulltime.
Financial Aid Qualification

Federal and state regulations require that students make good progress toward their degree objectives in order to receive financial aid. Their entire academic history must be considered, including periods they were attending school while not receiving financial aid.

Their enrollment will be reviewed every semester after grades are received. Progress is defined using three standards: credits completed per semester, credits completed toward degree, and academic standing.

Credits Per Semester

Students must inform the Financial Aid Office of the number of credits they will take each semester. Their aid status and award will be based on the credits they indicate.

- Undergraduate
  - Fulltime ~ 12 or more undergraduate credits
  - Three-quarter time ~ 9 to 11 undergraduate credits
  - Half time ~ 6 to 8 undergraduate credits
  - Less than half time ~ 1 to 5 undergraduate credits

- Graduate
  - Fulltime ~ 8 or more credits
  - Three-quarter time ~ 6 to 7 credits
  - Half time ~ 4 to 5 credits
  - Less than half time ~ 1 to 3 credits

Once financial aid has been released, a student is expected to complete all credits of enrollment. Grades will be reviewed at the end of each semester.

Passing grades are A, B, C, D, and CR. Grades of F, I, W, NC, SP, RD, UV, and Audit are not passing and will place students in a credit-shortage status.

Students who have completed fewer than the number of credits required for satisfactory academic progress will be placed in one of the two classifications: financial aid probation or financial aid disqualification.

Financial Aid Probation

Students with a shortage of 1 to 12 credits will be placed on probation. They are still eligible to receive financial aid; however, CSUMB encourages students to see a financial aid advisor to discuss ways to make up the credit shortage.

Financial Aid Disqualification

Students will be disqualified from receiving financial aid when their total credit shortage exceeds 12 credits. They will be responsible to pay their own costs of education until reinstated.

Credits toward Degree

All credits attempted at CSUMB will be added to all credits attempted at other colleges, even if students did not receive aid while enrolled. The credit limits are as follows:

- Bachelor’s degree ~ 150 credits
- Second bachelor’s degree ~ 50 credits
- Teaching credential ~ 50 credits
- Master’s degree ~ 50 credits

Students who exceed these limits will be disqualified from receiving further aid.

Academic Standing

The Office of Admissions and Records monitors grade point average requirements. Information on grade point average requirements is provided in this catalog. Students who are academically disqualified by CSUMB will not be eligible for further financial aid until the disqualification status has been cleared and the student has been reinstated.

Reinstatement

Students often ask: Can my aid ever be reinstated if I become disqualified? In cases of credit shortages, students may attend school without financial aid and use the credits they complete to make up their credit shortage. After students have made up enough credits to reach the range that would place them on financial aid probation, their aid can be reinstated. They may take these credits at another school, but the credits they take must transfer to CSUMB and they must have completed the credits without financial aid.

In the case of excessive credits toward degree, students will not be eligible until they complete their degree and begin a new program of study.

In all cases, if students had extenuating circumstances which prevented them from making satisfactory academic progress, they may petition the Financial Aid Committee for a waiver of their status. Extenuating circumstances are generally defined as situations that are unexpected and outside of their control, such as medical or family emergencies. Documentation is required. Petition forms are available in the Financial Aid Office.

Financial Aid Revision

Financial aid revisions will be made in the following cases:

- If students receive additional resources such as scholarships, Cal Grants, or stipends.
- If students reduce their credit enrollment.
- If students withdraw from all of their courses.
- If a student appeal for revision is granted.

Withdrawal from Courses

CSUMB has policies for the refund of student fees and repayment of aid in the case of withdrawals.

Registration fees are refunded only for withdrawals during the first two weeks of the semester. Students receiving financial aid are not eligible for a refund of fees, as the amount must be returned to the applicable financial aid program.

Financial aid students who withdraw from CSUMB must repay any unearned portion of aid received for that term. The amount of financial aid earned is calculated by determining the percentage of the term completed. After determining the amounts of aid to be refunded or repaid, the funds must be distributed back to financial aid according to a specific order of priority prescribed in federal regulations. The order of distribution is federal loans, federal grants, then other federal, state, or institutional aid.

Additional information is available upon request from the CSUMB Financial Aid Office.

Student Appeal for Revision

If students feel that they have extenuating financial circumstances which warrant a review of their financial aid, they may choose to appeal. They should contact the Financial Aid Office to obtain the appropriate forms.
Financial Aid Renewal

In order to be reconsidered for financial aid each year, students must do all of the following:

■ Reapply using the FAFSA or Renewal FAFSA.
■ Continue to demonstrate financial need.
■ Make academic progress toward a degree at CSUMB.
■ Enroll at least half time each semester at CSUMB.
Section Contents

Important Note

It is not possible in a publication of this size to include all of the rules, policies, and other information which pertain to the student, the institution, and the California State University system. More current or complete information may be obtained from the appropriate department, school, or administrative office.
Nondiscrimination Policy

Sex

The California State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination on the basis of sex in education programs and activities operated by CSUMB. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of CSUMB may be referred to the Director of Student Conduct or the Director of Equal Employment Opportunity, the campus officers assigned the administrative responsibility of reviewing such matters or to the Regional Director of the Office of Civil Rights, Region IX, 50 United Nations Plaza, Room 239, San Francisco, California 94102.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.
Disability

The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder and the Americans with Disabilities Act prohibit such discrimination. The Director of Student Disability Resources has been designated to coordinate the efforts of CSUMB to comply with these Acts pertaining to student access. Inquiries concerning compliance may be addressed to this person or to the Equal Employment Opportunity/ADA Compliance Office at the campus address and phone number listed at the beginning of this catalog section.

Race, Color, National Origin, or Disability

The California State University complies with the requirements of Title VII of the Civil Rights Act of 1964 as amended by the Americans with Disabilities Act and the regulations adopted thereunder. No person shall, on the grounds of race, color, national origin, or disability, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program of the California State University.

Sexual Orientation

By CSU Board of Trustees policy, the California State University does not discriminate on the basis of sexual orientation.

Sexual Harassment and Sexual Assault

Nontolerance Policy

CSUMB and its auxiliary organizations are committed to maintaining a working and learning environment which is free from sexual harassment. Sexual harassment may range from sexual innuendo, whether made at inappropriate times, perhaps in the guise of humor, to coerced sexual relations. One form of harassment occurs when a person in a position to control, influence, or affect another person's job, salary, career, or grades uses that authority to coerce the other person into sexual relations or to act in a punitive manner should the sexual advances be rejected. Another form of sexual harassment occurs when a person or group is treated adversely or subjected to offensive behavior on the basis of sex that, because it is sufficiently severe or pervasive, creates a hostile environment. For example, all of the following are considered discriminatory:

- Verbal harassment or abuse
- Subtle pressure for sexual activity
- Persistent remarks about another person's clothing, body, or sexual activities
- Unnecessary touching, patting, pinching, or brushing against another person's body
- Requesting sexual favors accompanied by implied or overt threats concerning one's job, grades, or letters of recommendation
- Disparaging comments about either gender as a group
- Use of sexist humor or demeaning sexual allusions
- Calling on students of either gender more or less frequently or being more critical of their comments

- Giving employees of either gender more difficult assignments and being more critical of their work
- Making statements which communicate to students or employees limiting preconceptions about appropriate and expected behaviors, abilities, career directions, and personal goals which are based on gender rather than individual interest or ability
- CSUMB and its auxiliary organizations will not tolerate sexual assault in any form. CSUMB has adopted the state of California’s definition of sexual assault to mean any involuntary sexual act in which a person is threatened, coerced, or forced to comply against will and includes rape, acquaintance rape, date rape, and sexual battery. Sexual assault, which is a form of sexual harassment, is included in the definition of sex discrimination which is prohibited in Title VII of the Civil Rights Act of 1964 as amended and Title IX of the Educational Amendments of 1972 as amended. It is also governed by the California Penal Code (Sections 261 and 243.4) and Assembly Concurrent Resolution No. 46 (Resolution Chapter 105, passed into law on September 14, 1987).

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act (FERPA) of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect the privacy of students concerning their records maintained by the campus.

Specifically, the statute and regulations govern access to student records maintained by CSUMB, and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor.

The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions. CSUMB has adopted a set of policies and procedures concerning implementation of the statutes and the regulations on the campus. Copies of these policies and procedures may be obtained at the Office of Admissions and Records.

Among the types of information included in the campus statement of policies and procedures are: 1) the types of student records and the information contained therein, 2) the official responsible for the maintenance of each type of record, 3) the location of access lists that indicate persons requesting or receiving information from the record, 4) policies for reviewing and expunging records, 5) the access rights of students, 6) the procedures for challenging the content of student records, 7) the cost which will be charged for reproducing copies of records, and 8) the right of the student to file a complaint with the U.S. Department of Education.

An office and review board have been established by the Department of Education to investigate and adjudicate violations and complaints: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under FERPA to release “directory information” concerning students. “Directory information” includes the stu-
Policies and Regulations

which must be campus related:

section or given a lesser sanction for one or more of the following causes:

- Student of a campus may be expelled, suspended, placed on probation pursuant to Section 41304 of the California Code of Regulations, any student who has been given prior to such violation and during the academic term in which the violation occurred, whether by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.

- The term “behavior” includes conduct and expression.

(2) The term “campus property” includes:

(A) real or personal property in the possession of, or under the control of, the Board of Trustees of the California State University, and

(B) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.

(3) The term “deadly weapons” includes any instrument or weapon of deadly force as defined in California statutes.

(a) Cheating or plagiarism in connection with an academic program at a campus.

(b) Forging, alteration, or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.

(c) Misrepresentation of oneself or of an organization to be an agent of the campus.

(d) Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.

(e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.

(f) Theft of, or non-accidental damage to, campus property, or property in the possession of, or owned by, a member of the campus community.

(g) Unauthorized entry into, unauthorized use of, or misuse of campus property.

(h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction, or analysis.

(i) Knowing possession or use of explosives, dangerous chemicals, or deadly weapons on campus property or at a campus function without prior authorization of the campus president.

(j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.

(k) Abusive behavior directed toward, or hazing of, a member of the campus community.

(l) Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurred, whether by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.

(m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension, or probation pursuant to this Section.

(n) For purposes of this Article, the following terms are defined:

- The term “member of the campus community” is defined as meaning California State University Trustees, academic, non-academic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.

- The term “campus property” includes:

(A) real or personal property in the possession of, or under the control of, the Board of Trustees of the California State University, and

(B) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.

- The term “deadly weapons” includes any instrument or weapon of the kind commonly known as blackjack, sling shot, billy, sandclub, sandbag, metal knuckles, any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an ungarded blade, and any metal pipe or bar used or intended to be used as a club.

- The term “behavior” includes conduct and expression.

Career Placement

CSUMB may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either CSUMB graduates or graduates of all CSU campuses.

Student Conduct

Philosophy

As members of the university community, every student has a unique opportunity to help create, sustain, and nurture an environment that fosters the realization of the goals articulated in CSUMB’s Vision Statement. Students enrolling at CSUMB assume an obligation to conduct themselves in a manner compatible with this vision.

California Code of Regulations

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

41301. Expulsion, Suspension, and Probation of Students

Following procedures consonant with due process established pursuant to Section 41304 of the California Code of Regulations, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

(a) Cheating or plagiarism in connection with an academic program at a campus.

(b) Forging, alteration, or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
41302. Disposition of Fees: Campus Emergency; Interim Suspension

The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to assure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission

Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were that person enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.
Wildlife

University property and the surrounding area are home to an abundance of wildlife including mountain lions, deer, foxes, skunks, opossums, raccoons, squirrels, birds, and reptiles. Wildlife should not be approached or fed. Wild animals are unpredictable and can be dangerous. Hunting or intentionally harming wildlife is illegal and may result in criminal prosecution.

Housing Policies

There are specific housing policies in effect for all on-campus residents of CSUMB. These policies assure safety, legal compliance, and effective community living. A complete listing of these policies can be found in the housing contract. Copies of the housing contract and additional information are available from the Residential Life Office.

Interim Policy for Library Services to the General Public

For purposes of this policy, “general public” refers to all persons who are not members of any of the following CSUMB or CSU affiliated groups: currently enrolled students; current faculty and staff; retired faculty and staff; alumni association members; or current students, faculty, and staff at local institutions which have cooperative borrowing agreements with the CSUMB Library.

The general public may consult or photocopy library materials. At present, library materials may not be checked out to the general public. Library materials include books, periodicals, microforms, reference materials, audiovisual equipment, and course reserve items. The CSUMB Library is currently exploring options for a fee-based borrowing program for the general public.

Interlibrary loan and document delivery services are available only to CSUMB students, faculty, and staff. The general public may print or download items from the Internet and from commercial databases licensed by the Library (except Lexis-Nexis) using computers in the library reference area; however, priority access to these computers will be given to CSUMB students, faculty, and staff. Use of CSUMB computer labs (including Library 125 and Library 152) is limited to CSUMB students, faculty, and staff.

Access to commercial databases licensed by the CSUMB Library via off-campus computers with Internet capabilities is limited to CSUMB students, faculty, and staff. CSUMB neither provides nor sells dialup access to CSUMB library resources to the general public. The general public may access the CSUMB Website by using computers in the Library reference area or by using off-campus computers with Internet access.

Public Safety Policies

Boundary Observance

CSUMB is surrounded by federal land and is located within a former U.S. Army facility. Federal police have complete jurisdiction on federal property and persons entering onto federal lands are subject to all attendant laws and regulations. Trespassing in posted federal areas is strictly prohibited. Unexploded ordnance is a serious hazard in the wilderness areas on federal land. These areas are off limits.

Firearms

Possession of a loaded or unloaded firearm by a student on university property is a felony and a violation of university policy. Violators are subject to criminal prosecution and disciplinary action. [See subsection (l) of Student Discipline.]

Bicycles

Every person riding a bicycle on university grounds is afforded all the rights and is subject to all the responsibilities of a driver of a motor vehicle. The riding or parking of bicycles inside any university building is prohibited with the exception of the Schoonover Park and Frederick Park housing areas. Bicycle riding is prohibited within the campus quad and on any landscaped or lawn areas.

Skateboards, Rollerskates, and Rollerblades

Rollerblading, skating, and skateboarding are prohibited on university grounds with the exception of the Schoonover Park and Frederick Park housing areas.

No-Smoking Policy

Smoking is prohibited in state-owned buildings and leased space including atriums, balconies, stairwells, and other similar building features. Smoking is also prohibited in state-owned vehicles.

Smoking is permitted outdoors in areas that are at least 15 feet away from doorways and ground-level air intake structures. Smoking is not permitted anywhere in the residence halls. This includes individual rooms.
Procedure for the Establishment or Abolishment of a Student Body Fee

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). The campus president may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947 including but not limited to Education Code, Sections 90012, 90027, and 90068. Student body fees support a variety of cultural and recreational programs, childcare centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee. A student referendum also is required. The campus president may use alternate consultation mechanisms if it is determined that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The president may request the chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus fee advisory committee and the completion of a student referendum is delegated to the president.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature or rules and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the CSUMB president or designee.

Further, it is not possible in a publication of this size to include all of the rules, policies, and other information which pertain to the student, the institution, and the California State University system. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the chancellor of the California State University, or the president of California State University, Monterey Bay. The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the trustees, the chancellor, the CSUMB president, and their duly authorized designees.

About the CSU
The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became the California State University and Colleges, and in 1982 the system became the California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The most recently opened campus—California State University, Monterey Bay—began admitting students in the fall of 1995. A new site has been conveyed and a 23rd campus, CSU Channel Islands, is being formally established in Ventura County with plans to open in 2002.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the governor. The trustees appoint the chancellor, who is the chief executive officer of the system, and the presidents, who are the chief executive officers of the respective campuses.

The trustees, the chancellor, and the presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All the campuses require for graduation a basic program of "General Education Requirements" regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,600 bachelor's and master's degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 1999 totaled 359,719 students, who were taught by over 20,600 faculty. The system awards more than half of the bachelor's degrees and 30 percent of the master's degrees granted in California. Some 1.94 million persons have been graduated from CSU campuses since 1960.

Average Annual Cost of Education and Sources of Funds per Fulltime Equivalent Student

The 23 campuses and the Chancellor’s Office of the California State University are financed primarily through funding provided by the taxpayers of California. The total state appropriation to the CSU for 2000-2001 (not including capital outlay funding in the amount of $260,033,000) is $2,252,941,000. However, the total cost of education for CSU is $3,015,710,000, which must provide support for a projected 279,403 full-time equivalent students (FTES). The number of fulltime equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a fulltime student’s academic load).

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to the students in the form of financial aid, and all fully reimbursed programs contained in state appropriations, but excluding capital outlay appropriations and lottery funds. The average cost of education is determined by dividing the total cost by the total FTES. The average cost is further differentiated into three categories: State Support (the state appropriation, excluding capital outlay), Student Fee Support, and Support from Other Sources (including federal funds).

Thus, excluding costs that relate to capital outlay, the average cost of education per FTE student is $10,793. Of this amount, the average student fee support per FTE is $1,831. (The State University Fee, application fee, and nonresident tuition are included in the average costs paid by the students; individual students may pay less or more than $1,830, depending on whether they are part-time, fulltime, resident, or nonresident students.)

Academic Organization

California State University, Monterey Bay's academic programs are organized into four Centers. Each of these Centers coordinates the contributions of several academic Institutes. The university offers a total of 12 undergraduate degree programs, 2 graduate degree programs, and 3 teacher certification options, each administered by an Institute, Center, or program office. The alignment of Centers, Institutes, and academic programs may be seen in the chart on pages 174-175 and in the following list:

- Arts, Human Communication, and Creative Technologies Center (AHCCCT)
  - Institute for Human Communication (HCOM)
  - Bachelor of Arts in Human Communication (HCOM)
  - Institute for Oral History and Community Memory and Archives (OHCM)
  - Music and Performing Arts Institute (WPA)
  - Nondegree curriculum in Music and Performing Arts
  - Institute for Visual and Public Art (VPA)
  - Bachelor of Arts in Visual and Public Art (VPA)
  - Institute for World Languages and Cultures (WLC)
  - Bachelor of Arts in World Languages and Cultures (WLC)

- Collaborative Education and Professional Studies Center (CEPS)
  - Institute for Advanced Studies in Education
    - Master of Arts in Education (MAE)
  - Institute for Community Collaborative Studies (ICCS)
    - Bachelor of Arts in Collaborative Human Services (CHS)
  - Institute for Field-Based Teacher Education
    - CLAD/BCLAD Multiple Subject Teaching Certification (CLAD)
    - California Teacher Internship Program (CTIP)
    - Mild/Moderate Education Specialist—Level I
  - Health and Wellness Institute (HWI)
    - Nondegree curriculum in Health and Wellness
  - Institute for Liberal Studies
    - Bachelor of Arts in Liberal Studies (LS)
  - Institute for Management and International Entrepreneurship (IME)
    - Bachelor of Science in Management and International Entrepreneurship (IME)
  - Institute for Professional Development

- Social and Behavioral Sciences Center (SBSC)
  - Bachelor of Arts in Social and Behavioral Sciences
  - Institute for Archaeology
  - Institute for Community Networking
  - Institute of GIS and Spatial Analysis
  - Institute for Global Learning
    - Bachelor of Arts in Global Studies (GS)
  - Institute for Pacific Rim Studies
  - Institute for Social History

- Science, Technology, and Information Resources Center (STIR)
  - Institute for Communications Science and Technology (ICST)
    - Bachelor of Science in Telecommunications, Multimedia, and Applied Computing (TMAC)
  - Earth Systems Science & Policy Institute (ESSP)
    - Bachelor of Science in Earth Systems Science & Policy
  - Watershed Institute
  - Institute for Mathematical Sciences and Applications (IMSA)
  - Institute for Teledramatic Arts and Technology (TAT)
    - Bachelor of Arts in Teledramatic Arts and Technology
  - Study at Sea (S@S)

Academic Programs and Learning Support
- Academic Skills Achievement Program (ASAP)

Accreditation

Making Contact
- Western Association of Schools and Colleges (WASC)
  - Address . . . . . . . . . . . . 985 Atlantic Avenue, Suite 100
    Alameda, CA 94501
  - Information . . . . . . . . . . 510-748-9001
  - Website . . . . . . . . . . . . . . . . . . . www.wascweb.org

Status

The Western Association of Schools and Colleges (WASC) provides educational institutions an opportunity to participate in a voluntary, multiyear process that is designed to lead to Accreditation or reaffirmation of Accreditation.

This process allows for peer review through WASC ensuring the continual improvement of education and cooperation among educational institutions and agencies. While no institution in the United States is required to seek Accreditation, most do. CSUMB has chosen to participate in this voluntary review process and has successfully completed the first two phases on schedule.

CSUMB began the accreditation process in 1994 when it was granted Eligibility status. In 1998, CSUMB was recognized as a Candidate for Accreditation by the Accrediting Commission for Senior Colleges and Universities of WASC. This status is a preliminary affiliation with the Commission awarded for a maximum period of four years. Candidacy is an indication that the institution is progressing toward Accreditation. Candidacy is not Accreditation and does not ensure eventual Accreditation.

The final review visits for initial Accreditation will take place in Fall 2002 and Spring 2003, and the WASC commission review and decision will be made in June 2003.

Degree Approval

CSUMB currently offers 12 undergraduate and 2 graduate degrees. Each of these degree programs has been approved by the CSU and endorsed by the California Postsecondary Education Commission (CPEC) as required by law. Any student graduating from CSUMB has been awarded a CSU and CPEC approved degree.
Arts, Human Communication, and Creative Technologies Center (AHCCT)

Making Contact
- Arts, Human Communication, and Creative Technologies Center
  - Location: 831-582-4133
  - Information: 831-582-4132
  - Fax: marilyn_cope@monterey.edu
  - Website: www.csumb.edu/academic/centers/#ahcct

Academic Programs
- The Arts, Human Communication, and Creative Technologies Center offers three distinctive interdisciplinary programs that lead to the Bachelor of Arts degree:
  - Human Communication (HCOM)
  - Visual and Public Art (VPA)
  - World Languages and Cultures (WLC)

- A fourth program, Music and Performing Arts (MPA), provides an expansive curriculum in support of other degree programs such as Liberal Arts (undergraduate teacher education). The process of creating an approved MPA Bachelor of Arts program is also underway.

- These four academic programs contribute significantly to CSUMB’s curriculum by offering courses authorized to certify fulfillment of the Artistic and Creative Expression, Culture and Equity, Democratic Participation, English Communication, Ethics, Language, Literature and Popular Culture, and U.S. Histories University Learning Requirements (ULRs). The programs also collaborate with other CSUMB academic programs to meet diverse upper-division learning needs and objectives.

Program Overview

Mission

The mission of the Institute for Human Communication is to prepare students to be critical, ethical, and creative thinkers and actors in a multicultural and increasingly interconnected global society.

In this era of multiculturalism, social transformations, and new technologies, humanists will play a more important role than ever. They will bring critical, cultural, creative, and historical understanding to problem solving. They will model ethical and humane communication.

Professional life and the workplace of the next millennium will require broad knowledge, multicultural communication, ethical and compassionate decision making, critical thinking, creative talent, and outstanding written and oral communication skills. The interdisciplinary program in Human Communication is designed to provide students with this humanistic and liberal arts foundation for the 21st century.

The Human Communication program encourages multiple ways of learning and knowing the world. Students learn to critique literature and develop their own creative expression; to hear untold stories and help create the memory of the future; to know history and public history.

The Human Communication program encourages active, constructive learning in humanities and arts classrooms. The interdisciplinary program in Human Communication is designed to provide students with this humanistic and liberal arts foundation for the 21st century.

The Human Communication program encourages multiple ways of learning and knowing the world. Students learn to critique literature and develop their own creative expression; to hear untold stories and help create the memory of the future; to know history and public history.

The program is built on the assumptions that:

- Self-learning and expression
- Critical and creative thought, interpretation, and expression
- Ethical and effective interaction with others within and outside one’s culture(s)
- Understanding multiple and new ways of knowing the world
- Understanding the meaning of human communication in its social context

The program is built on the assumptions that:

- The will and ability to think and communicate ethically, creatively, critically, and effectively are key to meaningful human existence.
- Multicultural and historical knowledge are key to building peace and social equality.
- Study across various disciplines leads to a more integrated understanding of world issues and problems.
- Knowledge is most meaningful when it is applied ethically, critically, and creatively towards concrete social goals and needs.

Academic Philosophy

The Human Communication program is learning-centered, collaborative, interdisciplinary, reflective, problem solving, and diversity-oriented. It engages students in:

- Self-learning and expression
- Critical and creative thought, interpretation, and expression
- Ethical and effective interaction with others within and outside one’s culture(s)
- Understanding multiple and new ways of knowing the world
- Understanding the meaning of human communication in its social context

The program is built on the assumptions that:

- The will and ability to think and communicate ethically, creatively, critically, and effectively are key to meaningful human existence.
- Multicultural and historical knowledge are key to building peace and social equality.
- Study across various disciplines leads to a more integrated understanding of world issues and problems.
- Knowledge is most meaningful when it is applied ethically, critically, and creatively towards concrete social goals and needs.

Bachelor of Arts Curriculum

The Institute for Human Communication offers a Bachelor of Arts in Human Communication.

Academic Minor

HCOM also offers a minor in Human Communication. The minor complements a student’s major by accentuating fundamental communication, analytical, and critical thinking skills. Students must complete Ways of Knowing (MO 4) and 3 other HCOM MOs of choice.

University Learning Requirements (ULRs)

The Institute for Human Communication offers courses that satisfy various ULRs including English Communication, Ethics, Literature and Popular Culture, U.S. Histories, Creative and Artistic Expression, Culture and Equity, and Democratic Participation.

Support of Other University Programs

HCOM courses meet Liberal Studies (LS) general requirements and emphases in communication, literature, and social studies.

HCOM collaborates with other Institutes, such as Visual and Public Art (VPA), World Languages and Cultures (WLC), Music and Performing Arts (MPA), Tele dramatic Arts and Technology (TAT), and Management and International Entrepreneurship (MIE).

Applied Research Programs

HCOM provides the following applied research opportunities:

- The Oral History and Community Memory Institute and Archive sponsors project-based courses and research in community oral history and public history.
- The New Media Technology in the Humanities Pedagogy workshops train faculty to use new media resources, enhancing interactive, constructive learning in humanities and arts classrooms.
- The Creative Writing and Social Action Program sponsors courses, workshops, publication projects, and e-zines.
- The Journalism, Communication, and Media Studies Program supports the production of the Otter Realm (the University newspaper) and sponsors an elementary school based media literacy project.
- The Practical and Professional Ethics Program will begin in 2000.

Multicultural Writers and Speakers Series

HCOM also sponsors the Writers Series, which brings nationally renowned writers to campus, and the Multicultural Speakers Series, which hosts lectures by diverse scholars.

  - Email: rina_benmayor@monterey.edu
Program Overview

Mission
A research, pedagogy, and archival program within the Institute for Human Communication and the AHCCCT Center, OHCM’s mission is to:
- Promote and offer a wide array of project-based, archival, multimedia, and field-oriented courses in oral history, life history, public and community history, collective memory, and multimedia applications and presentations.
- Support and help develop oral history and community history components of other CSUMB courses and special projects.
- Promote the integration of teaching and research involving students, faculty, and community.
- Provide students with hands-on archival research experience.
- Sponsor new media classroom pedagogy workshops for faculty.
- Build a public Oral History and Community Memory Archive at CSUMB that draws upon and serves the diverse cultural communities in the tri-county area.
- Design and produce curricular materials and documentaries in CD-ROM, audio, video, and other multimedia formats.

Institute Contributions
The Oral History and Community Memory Institute and Archive does not offer a separate major, but rather sponsors courses that contribute directly to:
- University Learning Requirements
- Majors in Human Communication (HCOM), Visual and Public Art (VPA), and Social and Behavioral Sciences (SBS)
- General education requirements in Liberal Studies (LS)
- Projects and curricula throughout the university
- OHCM activities explicitly engage students and faculty in research and projects that:
  - Have personal historical meaning
  - Directly involve them in community field and service learning experiences
  - Promote a multicultural understanding of diverse community histories, especially those which have been underrepresented in historical and cultural research
  - Emphasize teamwork as well as individual interests
  - Situate oral history investigation as a partnership among students and community
  - Return investigation results to the communities and individuals involved in ethical and collaborative ways
  - Promote critical analysis and reflection, drawing on a range of disciplinary traditions and addressing real social issues and problems in any field
  - Encourage acquiring proficiency in a range of technologies including audio, video, and multimedia
- Contribute to the CSUMB Oral History and Community Memory Archive

The OHCM Archive
Courses and special research projects are feeding a rapidly growing OHCM Archive. The goal of this public repository on the CSUMB campus is to provide a resource for community-based learning and service, and to build primary sources that can be integrated into courses and syllabi. The Oral History and Community Memory Archive also provides the opportunity for students to have hands-on experience in archival studies. The OHCM Archive is open to the public.

Currently, the OHCM Archive contains oral history collections on:
- The Fort Ord Conversion Project
- CSUMB History
- Veterans of Fort Ord
- Chicano Veterans of Fort Ord
- Monterey Bay Ethnic History
- First-Generation College Students
- Pioneer Student Leaders at CSUMB

Music and Performing Arts Institute (MPA)

- FirstClass Conference: Music & Performing Arts
- Website: http://music.monterey.edu

Program Overview

Mission
The goal of the CSUMB Music and Performing Arts Institute is to provide students with music and performing arts skills and knowledge in a rapidly changing technological world. In the process, students have the opportunity to learn about American forms of music and the value of aesthetic expression. They engage in critical application tied to historical and cultural events. In the context of social history, they have the chance to gain understanding of the meaning of music. In collaboration with the CSUMB Institute for Liberal Studies, the Music and Performing Arts Institute helps prepare students for careers as performing artists and music teachers. This training includes stimulating awareness of the potential to connect with a broad audience.

The Institute’s comprehensive program addresses the complex issues of performing artists and their relationship to other arts. Students learn fundamental skills of hearing and moving by recording, self-expressing, interpreting, and relating sound and movement to the social environment. Importantly, the MPA program develops essential workplace qualities of pluralism, teamwork, collaboration, flexibility, and respect for others’ ideas and personal expressions.

Academic Philosophy
Over thousands of years of human history, music has proven unparalleled in its ability to communicate across cultural boundaries while simultaneously helping to define and express the uniqueness of a people. As the world is drawn closer together by rapidly advancing technology, this universal language of sound and motion is more important than ever as an expression of synchronous pluralism and individuality.

Music and the performing arts are unique symbolic languages for communicating ideas, feelings, and different ways of knowing about oneself and the world. An extension of the spoken word and an expression of popular culture, music significantly influences the construction of identities, values, and beliefs. It engages the whole individual in the act of creating, performing, and responding. It involves intellect, intuition, emotion, and the physical being. Music provides a record of civilization that reflects human thought, action, and experience. It connects diverse people.
Institute Contributions

Curriculum in Support of Liberal Studies

MPA offers a nondegree curriculum that supports fulfillment of the requirements for the Bachelor of Arts in Liberal Studies and various teaching credentials.

University Learning Requirements (ULRs)

The Music and Performing Arts Institute offers several courses that satisfy various ULRs including Community Participation, Creative and Artistic Expression, Culture and Equity, and Literature and Popular Culture.

West Coast Jazz Academy and Jazz Archival Center

The West Coast Jazz Academy and Jazz Archival Center is the cornerstone of a jazz history program that demonstrates CSUMB’s commitment to multicultural, transdisciplinary, and experiential learning. Live presentations by leading jazz musicians at the CSUMB Music Hall and World Theater augment classroom learning. Mentorships are encouraged and students receive firsthand knowledge of developments in the field from current practitioners.

Smithsonian Jazz Oral History Project

As part of the West Coast Jazz Academy’s offerings, and in collaboration with the Museum of American History in Washington, D.C., a duplicate collection of the Smithsonian Jazz Oral History Project is housed by the Music and Performing Arts Institute. This oral history collection includes over 900 hours of interviews with jazz greats such as Harry Edison, Jon Hendricks, and Billy Taylor. This collection provides the cornerstone of the CSUMB Jazz Archival Center that includes archival photographs, film, video footage, and audio materials.

Ethnomusicology

To facilitate the study of world music, the Music and Performing Arts Institute is moving toward the development of one of only two undergraduate programs in California focusing on the study of ethnomusicology.

Vocal and Choral Training

MPA sponsors the training and development of a campus community chorus of amateur and professional singers that reaches into surrounding locales giving voice to the pluralistic vision of CSUMB.

Music Technology

A key Institute goal is the development of technological sophistication. With this in mind, MPA has established a multimedia studio to develop knowledge, skills, and abilities students will need for careers in the rapidly changing technological music production industry. Also, the entrepreneurial product potential inherent in this type of facility creates an unlimited potential for revenue generation. This technological level of production is also necessary in the development of interdisciplinary projects such as music scores for film projects and CD-ROM production with the Teledramatic Arts and Technology (TAT) and Visual and Public Art (VPA) programs.

Performing Arts Capacity

Bringing students and community members together, the CSUMB performing arts facilities provide opportunities for students who choose to perform and hands-on technical experience for those interested in working backstage. Computer technology is involved in every aspect of production.

Institute for Visual and Public Art (VPA)

Making Contact

- Institute for Visual and Public Art
  - Degree offered: Bachelor of Arts
  - Location: Buildings 71-73
  - Information: 831-582-3005
  - Fax: 831-582-3310
  - Email: amalia_mesa-bains@monterey.edu
  - Website: http://vpa.monterey.edu

Program Overview

Mission

Recognizing that visual art is the expression of personal experiences and reaction to the surrounding world, the Institute for Visual and Public Art seeks to broaden student perspectives and nurture their talents. VPA engages students in self-learning and expression, ethical interaction with audiences, and contextual understanding of the meaning of visual art.

VPA addresses the complex issues of working in public space creating murals, sculptures, installations, book arts, painted and electronic billboards, light sculptures, large-scale digital and cyber art, time-based work, performance and environmental art, and public ceremony works. Students are encouraged to explore the vast array of available media from the tradition of paints to the precision of pixels.

Academic Philosophy

As the 21st century approaches, the changing world challenges artists to see themselves in a diverse society where art is an expressive form more open to the needs of communities. Artists need to become flexible practitioners who can think, research, organize, and produce work that transforms people and places. The power of art lies in artists connecting themselves in reciprocal relationships with their publics, able to create a more humane life relevant to their time.

The VPA major presents a new model for preparing artists based on the belief that making art is a significant social act and that artists must be prepared to tackle critical questions of self-expression, artisanship, identity, community, values, politics, and meaning. Who is an artist? Why make art? What is the role of the artist in the community? How does art communicate, and to whom?

Institute Contributions

Bachelor of Arts Curriculum

The Institute for Visual and Public Art offers a Bachelor of Arts in Visual and Public Art.

University Learning Requirements (ULRs)

The Institute for Visual and Public Art offers several courses that satisfy various ULRs including Creative and Artistic Expression, Ethics, and Literature and Popular Culture.

Campus Leadership

The Institute for Visual and Public Art oversees facilities and equipment development to support the VPA major, develops and implements public art projects and public cultural events on and off campus, and advises CSUMB on the development of public space and art acquisition and installation on the campus.
Scholarly Activity
The Institute for Visual and Public Art generates written theory for publication and supports the development of practice in visual and public art by both faculty and students. The Institute convenes conferences, symposia, and thinktanks on subjects of importance to the theory of visual and public art. It hosts artists, exhibitions, installations, and sociomedia that further the development of the Institute and CSUMB as a major center of public art teaching and learning.

Visiting Artists Series
The Visiting Artists Series allows students to learn in the company of masters through lectures, residencies, and applied projects.

Institute for World Languages and Cultures (WLC)

Making Contact
- Institute for World Languages and Cultures
  - Degree offered: Bachelor of Arts
  - Location: Building 49
  - Information: 831-582-3863
  - Senior Secretary: 831-582-4370
  - Fax: 831-582-3885
  - Email: wlc@monterey.edu
  - FirstClass Conference: World Languages
  - Website: http://wlc.monterey.edu

Program Overview

Mission
The approach to language education and instruction taken by the Institute for World Languages and Cultures is outcomes-based, innovative, and technologically driven. Rather than simply learning grammar and vocabulary, students develop the language skills and cultural proficiencies that are in high demand in business, government, and education. They also benefit from instructional use of new technologies and telecommunication networks to enhance language acquisition and promote language instruction for both traditional and nontraditional students.

Driven by CSUMB’s location on the California Central Coast, the languages taught by the Institute for World Languages and Cultures primarily represent the Pacific Rim. This equates to extensive offerings in Spanish and Japanese as well as a growing curriculum in Chinese and Italian. Each semester several American Sign Language (ASL) classes are offered, and planned expansion of that program will include a certificate for ASL translation and interpretation. WLC offerings will develop rapidly in coming years as CSUMB continues to grow.

Academic Philosophy
At the dawn of the 21st century, the future promises to be much more global and international than any previous time in history. Telecommunications, world trade agreements, worldwide emergencies, and economic interdependence are quickly drawing the diverse peoples of the planet closer together. This compels the development of proficiencies in languages other than English and the understanding of and involvement in multiple cultures.

Institute Contributions

Bachelor of Arts Curriculum
The Institute for World Languages and Cultures offers a Bachelor of Arts in World Languages and Cultures.

University Learning Requirements (ULRs)
The Institute for World Languages and Cultures provides an extensive number of courses that provide pathways for all CSUMB students to satisfy the Language ULR. In addition, WLC offers several courses that satisfy the Literature and Popular Culture ULR, the Culture and Equity ULR, the Ethics ULR, and the History ULR.

Distance Learning
The Institute for World Languages and Cultures collaborates with CSUMB’s Distributed Learning and Extended Education (DLEE) program to provide distance learning and online opportunities that allow students to study languages and cultures not taught directly on the CSUMB campus through the offerings of linked universities.

Study Abroad
CSUMB benefits from the size and strength of the 23 campus CSU system when it comes to immersing students in their language and culture of choice. Under the direction of the CSU Office of International Programs (OIP), students are offered extensive opportunities to enroll simultaneously at CSUMB (or one of the other CSU campuses), where they earn academic credit and maintain campus residency, and in a host university or special study program center abroad. Students typically study abroad for a full academic year.

OIP’s primary objective is to enable participants to gain firsthand knowledge and understanding of other areas of the world. Students have the opportunity to increase their communication skills through participation in the language and culture of other countries. For more information refer to the OIP section of this catalog or the California State University International Programs Bulletin.

CSUMB also has a working Exchange Program with Obirin University in Japan. As an exchange program, we send students to Obirin University for a year of study and receive an equal number of students from Obirin University to study at CSUMB.

- Center for Collaborative Education and Professional Studies
  - Location: Building 3
  - Information: 831-582-3724
  - Fax: 831-582-4568
  - Email: gayle_roper@monterey.edu
  - Website: www.csumb.edu/academic/centers/#ceps

Mission
The Center for Collaborative Education and Professional Studies provides access to excellence in undergraduate, teaching credential, and graduate programs that are learning-centered, interdisciplinary, collaborative, and diversity-oriented. In keeping with CSUMB’s Vision Statement, the programs equip students with knowledge, skills, and values that are indispensable to professional competence and quality of personal life in an ever-changing, pluralistic, and technological society. To ensure the attainment of this goal, students engage in active learning experiences in an array of school, community, and business contexts.

The Center’s commitment to internal and external collaboration is intended to ensure both quality and excellence in the Academic Programs. The collaboration among CSUMB faculty and professionals from K-12 schools, community organizations and agencies, and businesses throughout our Tri-County service area brings together the knowledge and experience necessary to offer high quality, state-of-the-art programs that meet the educational needs of the region, the state, and the nation.

Academic Programs
The Center for Collaborative Education and Professional Studies reflects the university vision and supports the commitment to service learning, diversity, and technology. Undergraduate preservice and graduate education programs and projects are housed in six academic Institutes which, in turn, offer three undergraduate degree programs, a Master of Arts degree, and the Multiple Subject CLAD/BCLAD Teaching Credential. The Single Subject and Special Education (mild/moderate) Teaching Credentials are projected to begin in Fall 2001 (if granted Commission on Teacher Credentialing approval by June 2001).

The Institutes housed in the Center are:
- Institute for Advanced Studies in Education
- Institute for Community Collaborative Studies
- Institute for Field-Based Teacher Education
- Health and Wellness Institute
- Institute for Liberal Studies
- Institute for Management and International Entrepreneurship (Business)
- Institute for Professional Development

Institute for Advanced Studies in Education

Making Contact
- Institute for Advanced Studies in Education
  - Degree offered: Master of Arts
  - Location: Building 3
  - Information: 831-582-3641
  - Email: christine_sleeter@monterey.edu
  - Website: www.csumb.edu/academic/graduate/education

Program Overview

Mission
The Institute for Advanced Studies in Education sponsors the Master of Arts in Education program, which is designed to help credentialed educators become effective teachers and leaders for the culturally and linguistically diverse students in the region.

Within the Institute of Advanced Studies, additional workshops and professional development opportunities are offered throughout winter session and summer. The workshops are centered around improving and demonstrating “best practices” in teaching in a variety of curricular areas and interests, and focus specifically on teaching diverse populations.

Academic Philosophy
The MAE program targets the goal of helping teachers achieve excellence in classroom instruction. With that in mind, the program carefully weaves several strands into the fabric of graduate work. At the core, students gain a conceptual and theoretical perspective for instruction. Insights on research in teaching are intertwined. Students are also wired into all the new technological twists. Advanced pedagogical skills and new curriculum materials are tied in, and learning is liberally laced with insights on connecting with culturally and linguistically diverse students, communities, and intellectual works. The MAE curriculum is then sewn together with a plan for lifelong learning using applied action research.

Institute for Community Collaborative Studies (ICCS)

Making Contact
- Institute for Community Collaborative Studies
  - Degree offered: Bachelor of Arts in Collaborative Health and Human Services
  - Location: Building 86D
  - Information: 831-582-3565
  - Fax: 831-582-3899
  - Email: iccs@monterey.edu
  - Website: http://iccs.monterey.edu

Program Overview

Mission
ICCS focuses on the study of integrated health and human services delivery systems and the collaborative processes essential to individuals, families, and communities empowering themselves to make positive change. ICCS introduces students to the foundations of the management sciences and the major health and human services professions of social work, community health, and public administration.
ICCS is recognized as a unique and innovative program that offers an integrative and multidisciplinary approach to the study and practice of community health and social work practice and promotes the collaborative processes essential to empowering individuals, families, organizations, and communities seeking to create positive change.

Through academic study and field practice in community health and social work fields, collaborative leadership, professional ethics, and management sciences, ICCS uniquely prepares graduates for successful careers as 21st century health and human service professionals working in integrated delivery systems. Students are also given the opportunity to develop an understanding of and sensitivity to culturally, economically, ethnically, geographically, and racially diverse communities through a multicultural curriculum and applied field practice experiences.

Academic Philosophy
As we proceed through the 21st century, our social, political, and economic environments continue to experience increasing uncertainty and rapid change. In response, public, nonprofit, and private agencies are in the process of transforming themselves into more flexible, innovative, and outcomes-based organizations to more effectively and collaboratively pursue shared service goals. To be successful in this rapidly evolving environment, professionals must be equipped with a “toolbox” of interprofessional competencies that include the knowledge, skills, and abilities for health and human services delivery and the methodologies of innovation, leadership, collaboration, and organizational change. The CHHS curriculum provides students with excellent classroom and community-based learning opportunities that allow them to:

- Develop sound critical thinking, professional writing, and oral communication skills.
- Develop competence in the theories and practice of community health, social work, interprofessional collaboration, leadership, management sciences, policy analysis, and research methods.
- Develop a set of values and ethics applied to health and human services practice.
- Develop proficiency in the use of electronic technologies.
- Develop the ability to serve individuals, families, communities, and populations whose backgrounds may be different from their own.

Institute Contributions

Bachelor of Arts Curriculum
ICCS’s interprofessional educational program offers a Bachelor of Arts in Collaborative Health and Human Services.

University Learning Requirements (ULRs)
The Institute offers several courses that satisfy various ULRs including Culture and Equity and Democratic Participation.

ICCS Community Program
ICCS’ Community Program provides faculty, students, and staff opportunities to play an active and integrative role in the surrounding communities, assisting in the development and facilitation of collaborative problem solving and capacity building in local communities and in integrated health and human service systems throughout the Monterey Bay area. The ICCS Advisory Board which is composed of leaders from Tri-County public and nonprofit health and human services agencies, guides the Institute’s Community and Academic Programs. Through grant-funded and contractual projects, ICCS faculty and staff provide students with multiple learning opportunities to become involved in important community leadership, community development, and evaluation projects.

Institute for Field-Based Teacher Education

Institute for Field-Based Teacher Education
- Credential offered: CLAD/BCLAD Multiple Subject Specialist—Level I
- Location: Building 3
- Information: 831-582-3737
- Fax: 831-582-3737
- Email: minerva_estassi@monterey.edu

Special Education Program
- Credential offered: Mild/Moderate Education Specialist—Level I
- Location: Building 3
- Information: 831-582-4568
- Fax: 831-582-4568
- Email: jacqueline_mears@monterey.edu

Program Overview
The Institute for Field-Based Teacher Education offers a curriculum that reflects a high degree of integration between theory and practice. Collaborative program development among public schools, the community, and CSUMB has created a hands-on learning environment that prepares students to teach linguistically and culturally diverse student populations. That, in turn, enhances the ability to teach all students successfully.

Institute Contributions

CLAD/BCLAD Multiple Subject Credential Curriculum
The Institute offers two alternatives for earning a multiple subject credential.

Seminars and Presentations
Students are invited to attend occasional special seminars and presentations offered by the Institute. These events may include symposia by visiting scholars and regional education leaders.

Special Education Program
A Special Education credential (mild to moderate) is projected to begin in Fall 2001. The Mild/Moderate Education Specialist Program emanates from an established vision of excellence at CSUMB, as indicated in the Center for Collaborative Education and Professional Studies and Field-Based Teacher Education mission statements. The conceptual framework for the program combines preferred pedagogical practices for students with learning challenges with equity issues for students from different cultural and linguistic backgrounds. The course series and program coordination centers around preparing teachers to serve students with learning disabilities and their families in the Tri-County service area.

Health and Wellness Institute (HWI)
- Health and Wellness Institute
  - Location: Building 82D
  - Information: 831-582-4568
  - Fax: 831-582-4568
  - Email: amytomas@monterey.edu
Institute for Liberal Studies (LS)

Mission
Health and wellbeing do not occur in a vacuum, nor are they necessarily determined by genes, age, gender, or ability. Rather, and to a large degree, they are influenced by the decisions we make about how to live our lives and interact with others. Optimizing our health can occur by increasing our knowledge and improving our practices in six interrelated dimensions of wellness: physical, emotional, intellectual, spiritual, social, and environmental.

The Institute for Liberal Studies (LS) provides a nondegree curriculum in support of the Liberal Studies major and the Collaborative Human Services major.

In addition, HWI provides learning experiences designed to allow students to learn and explore new health habits, skills, and leisure opportunities. Central to our holistic approach are academic learning experiences and activities which focus on nutrition, stress management, growth, development, physical activity, leadership, and leisure. Promoting a healthy lifestyle and a creative sense of self with confidence are concepts which are integrated into a variety of venues and learning experiences, all of which seek to embrace a global perspective and the diverse and multicultural nature of CSUMB.

Institute Contributions

Nondegree Curriculum
The Health and Wellness Institute offers a nondegree curriculum in support of the Liberal Studies major and the Collaborative Human Services major.

In addition, HWI provides learning experiences designed to allow students to learn and explore new health habits, skills, and leisure opportunities. Foundations for Wellness is the core course for the CSUMB Vibrancy University Learning Requirement (ULR) and is housed in the Health and Wellness Institute.

Additionally, the Health and Wellness Institute offers learning experiences that satisfy requirements for the Community Participation and Ethics ULRs.

University Learning Requirements (ULRs)
HWI provides learning experiences designed to allow students to learn and explore new health habits, skills, and leisure opportunities. Foundations for Wellness is the core course for the CSUMB Vibrancy University Learning Requirement (ULR) and is housed in the Health and Wellness Institute.

In addition, HWI provides learning experiences designed to allow students to learn and explore new health habits, skills, and leisure opportunities. Foundations for Wellness is the core course for the CSUMB Vibrancy University Learning Requirement (ULR) and is housed in the Health and Wellness Institute.

Program Overview

Mission
California has made a renewed commitment to education by increasing budget allocations and mandating smaller classes in elementary schools. Consequently, the demand for teachers is greater than ever. The primary mission of the Institute for Liberal Studies is to provide undergraduate education that will prepare students to fill that need. Consequently, approximately 90 percent of CSUMB’s Liberal Studies majors are future teachers who take advantage of the fact that the curriculum meets the State of California approved subject matter prerequisite for the fifth-year of study in a Multiple Subject Credential Program. The remaining 10 percent of Liberal Studies majors receive equally superb preparation for entry-level positions and graduate programs in other professions such as social work, law, and business that value well-rounded general undergraduate preparation.

Academic Philosophy
The Institute for Liberal Studies is committed to developing well-rounded and broadly prepared professionals who possess bilingual skills, cross-cultural awareness, technological competence, expert work skills, ethical principles, and sensitivity to the lives they touch.

Institute Contributions

Bachelor of Arts Curriculum
The Institute offers a Bachelor of Arts in Liberal Studies.

University Learning Requirements (ULRs)
The Institute offers several courses that satisfy CSUMB’s Culture and Equity ULR as well as the Literature and Popular Culture ULR.

Institute for Management and International Entrepreneurship (IMIE)

Science, Technology, and Information Resources Center (STIR)

Making Contact

- Science, Technology, and Information Resources Center
  - Location: Building 18 Room 159
  - Information: 831-582-3524
  - Fax: 831-582-3311
  - Email: stir@monterey.edu
  - Website: www.csumb.edu/academic/centers/#stir

Academic Philosophy

The Science, Technology, and Information Resources (STIR) Center mission is to empower the CSUMB learning community by providing:

- A broad-based, integrated approach to the study of science, technology, and applied mathematics
- The application of technology in the study of digital design and teledramatics
- A framework for making informed and ethical choices in the information age

Academic Programs

The Science, Technology, and Information Resources (STIR) Center is organized around four Institutes from which four academic degree programs are administered. They are the Institute for Communication Science and Technology, the Earth Systems Science & Policy Institute, the Institute for Mathematical Sciences and Applications, and the Institute for Teledramatic Arts and Technology. Within these Institutes, learning experiences are organized thematically and topically with an emphasis on finding workable and creative solutions to important local, regional, national, and global problems. Through their studies, students gain the knowledge and practical skills necessary to adapt and succeed while making useful contributions in a rapidly changing world.

Institute for Communications Science and Technology (ICST)

Making Contact

- Institute for Communications Science and Technology
  - Degree offered: Bachelor of Science in Telecommunications, Multimedia, and Applied Computing (TMAC)
  - Location: Building 18, Room 150
  - Information: 831-582-3621
  - Fax: 831-582-4484
  - Email: icst@monterey.edu
  - Website: http://icst.monterey.edu

Program Overview

Mission

The “cyberworld” of the year 2000 and beyond requires individuals who have a unique blend of creativity and the technical understanding of computers and networks. In response, ICST provides students with the knowledge and skills to participate in the ethical development and use of new technologies.

Institute Contributions

Bachelor of Science Curriculum

The Institute for Management and International Entrepreneurship offers a Bachelor of Science degree in Management and International Entrepreneurship.

University Learning Requirements (ULRs)

The Institute offers several courses that satisfy various ULRs including Culture and Equity, English Communication, Ethics, and Technology and Information, as well as the upper-division service learning requirement.

Support of Other University Programs

The Institute offers some courses for students in other majors and is seeking university approval to offer an MIE minor.

Institute for Professional Development

Making Contact

- Institute for Professional Development
  - Location: Building 3
  - Information: 831-582-3517

Program Overview

The Institute for Professional Development offers professional development opportunities in the form of training and workshops for educators and other professionals that include the areas of business and human services. The professional development opportunities may be designed in collaboration with other campus Institutes and external entities such as K-12 schools, other Universities, businesses, and community organizations.

Institute Overview

Personal attention: Small class size, a low student/teacher ratio, and personalized mentoring by faculty and business advisors enable the Institute to respond to each MIE student's unique needs.
Making Contact

Institute (ESSP) also provide rich internship and employment opportunities for students. CSUMB and ICST as the campus and Institute dynamically evolve. They not only learn how to use the latest tech tools; they learn how to build them. This marriage of technology and design is built on the firm grounds of ethical development, collaborative problem solving, effective communication, community service, and entrepreneurial activity.

The ICST curriculum allows students to learn through hands-on experience. They gain solid insights into computers and their information processing design, the transmission of information between machines and people, the design and development of software, the mathematical tools used to organize and interpret information, the media tools and design principles for developing informative and thought-provoking aesthetic products, and the new media’s representation of information.

Institute Contributions

Bachelor of Science Curriculum

ICST offers a Bachelor of Science in Telecommunications, Multimedia, and Applied Computing. A Master of Science in Management and Information Technology program is under development.

University Learning Requirements (ULRs)

The Institute offers Tech Tools (CST 101), the primary course taken by students on most major tracks to satisfy the Technology and Information UIR. In addition, several upper-division ICST courses satisfy other ULRs [see www.monterey.edu/academic/advising/].

Industry Relationships

ICST takes its cues not only from traditional academic programs, but also from relationships with industry. CSUMB’s campus location—an hour from Silicon Valley, the greatest concentration of hardware and software producers in the world, and two hours from San Francisco, home to a great number of creative designers and content developers—is a huge asset. ICST has established direct working relationships with a number of trendsetting companies such as Silicon Graphics, Sun Microsystems, Alcatel and Cisco Systems. These companies advise CSUMB and ICST as the campus and Institute dynamically evolve. They also provide rich internship and employment opportunities for students.

Earth Systems Science & Policy Institute (ESSP)

Making Contact

- Earth Systems Science & Policy Institute
- Degrees offered: Bachelor of Science, Master of Science in Marine Science
  - In conjunction with Moss Landing Marine Lab
- Location: Building 46
- Fax: 831-582-4122
- Information: 831-582-4110
- Email: essp_comments@monterey.edu
- Website: http://essp.monterey.edu
- Moss Landing Marine Laboratories (MLML)
- Address: P.O. Box 450, Moss Landing, CA 95039
- Information: 408-755-8650
- Website: http://color.mlml.calstate.edu/www

Mission

The mission of the Earth Systems Science & Policy Institute is to explore the interactions of earth’s physical and biological environments through active learning and applied research in marine, coastal, and watershed systems. Three overarching goals unite the program:

- To enable students to apply an earth systems perspective to evaluate and solve environmental problems using scientific, technical, and analytical skills.
- To prepare students for leadership roles in which they will devise effective policy solutions by integrating biological, physical, and social dimensions.
- To educate students who will be qualified to pursue ethical and rewarding career pathways.

Institute Contributions

Bachelor of Science Curriculum

The ESSP Institute offers a Bachelor of Science in Earth Systems Science & Policy, with concentrations in Watershed Systems, Marine and Coastal Ecology, and Science Education.

Master of Science in Marine Science Curriculum

A Master of Science degree program in Marine Science is administered through Moss Landing Marine Laboratories (MLML) and CSUMB.

University Learning Requirements (ULRs)

The Institute offers several courses that satisfy the Science ULR. In addition, several upper-division ESSP courses satisfy other ULRs [see http://www.monterey.edu/academic/advising/].

Partnerships and Collaborations

The ESSP Institute has established formal partnerships with the Watershed Institute and with the Spatial Information Visualization and Analysis Center, both of which are research and public outreach organizations that share facilities with ESSP faculty and students. In addition to these on-campus partnerships, ESSP has established active collaboration or formal partnerships with Moss Landing Marine Laboratories (MLML), the Monterey Bay Aquarium Research Institute (MBARI), UC Santa Cruz, Hopkins Marine Station, the Naval Postgraduate School, NASA/Ames Research Center, and the Monterey Institute of International Studies (MIIS). With the approval of an advisor, qualified ESSP students may enroll in selected courses at MIIS and MLML for no additional fee.

Institute for Mathematical Sciences and Applications (IMSA)

Making Contact

- Institute for Mathematical Sciences and Applications
- Location: Building 82C
- Information: 831-582-4118
- Fax: 831-582-4201
- Email: imsa@monterey.edu
- Website: http://math.monterey.edu

Program Overview

Mission

The Institute for Mathematical Sciences and Applications (IMSA) supports the study, teaching, and application of mathematics within...
Academic Overview

IMSAs courses and programs are designed to engage students in critical thinking, problem-solving, and creative expression. The Institute for Teledramatic Arts and Technology (TAT) offers courses in mathematics and statistics in support of the Institutes academic philosophy, which emphasizes critical thinking and problem-solving skills. The Institute seeks to establish an atmosphere of creative endeavor that supports interdisciplinary collaborations, innovative projects, interesting courses, and informal discussions that mutually benefit students and faculty. The faculty members of the institute are committed to educating undergraduate students with diverse backgrounds and goals, and to making their expertise as professional mathematicians and educators available to the larger community.

Academic Philosophy

Courses offered by IMSA strive to develop students’ quantitative skills. Numerical data is available on virtually all aspects of our lives, but without quantitative skills, we have no way of evaluating the personal relevance of such information, or of using it to make informed choices. The ability to reason with numbers is needed not only to deal with issues of personal finance and risk assessment, but also with issues of citizenship such as the economy, public health, and the environment. Nearly all careers today require the ability to reason with quantitative information and to discuss quantitative issues clearly and cogently. Individuals must be able to use numerical and graphical summaries, identify assumptions and potential sources of bias, apply deductive and inductive thinking, make and test conjectures, distinguish fact from belief, identify cause and effect, and respond to multiple perspectives.

Institute Contributions

University Learning Requirements (ULRs)

The Institute offers several courses that satisfy the Mathematics Communication ULR.

Support of Other University Programs

IMSAs offers courses in mathematics and statistics in support of the instructional objectives of other Institutes campuswide. The goal is to enhance the mathematical literacy of all students and to provide the basic mathematical skills needed to tackle the intellectual challenges of the 21st century. IMSAs courses teach students deductive and quantitative reasoning skills used in solving complex real-life problems.

IMSAs provides an extensive curriculum in support of the Institutes of Earth Systems Science & Policy (ESSP) and Communications, Science, and Technology (ICST). IMSAs also provides basic mathematics courses for programs across campus, including Liberal Studies (teacher education), Management and International Entrepreneurship (MIE), Social and Behavioral Sciences (SBS), and Collaborative Health and Human Services (CHHS).

IMSAs offers each student an opportunity for individual mathematics assessment and course placement. IMSAs also works closely with the ASAP Program and Student Disability Resources (SDR) to assist students with special needs.

Liberal Studies Mathematics Emphasis and Supplementary Authorization

The Liberal Studies mathematics emphasis and supplementary authorization have been designed in accordance with the guidelines of the National Council of Teachers of Mathematics Curriculum and Evaluation Standards and the California Mathematics Frameworks. The supplementary authorization allows teachers with an elementary (multiple-subjects) credential to teach mathematics courses in the middle grades.

Programs Under Development

Both a minor in mathematics and a single subject credential program in mathematics are currently under development.

Institute for Teledramatic Arts and Technology (TAT)

  - Information: 831-582-3750
  - Fax: 831-582-3884
  - Email: tat@monterey.edu
  - FirstClass Conference

Program Overview

Mission

The Institute for Teledramatic Arts and Technology is an innovative undergraduate program offering integrated, multidisciplinary study of theater production, filmmaking, video/TV production, radio/audio broadcasting and new media production (multimedia production, Webcasting, CD-ROM production, DVD authoring, computer animation and related cyber-technologies). The term “teledramatic” conceptually embraces our unique blend of the creative and technical skills essential for the development, transmission and distribution of artistic work across the widest spectrum of storytelling mediums.

At the root of TAT’s work is learning how to tell good stories. We offer comprehensive content-based instruction in the essential components of storytelling and merge those skills with the exciting array of today’s digital-age technologies. While exploring the expanding possibilities of story creation and dissemination made possible through the fusion of old and new 21st century tools, we’ll prepare you for today’s widening opportunities in the professional fields of art and entertainment, media convergence, and global communication.

TAT seeks bright, self-motivated people—creators, producers and doers—with the initiative and drive to make both careers and satisfying creative lives in our brave new digital world. If you see yourself as a writer, director, actor, producer, designer, editor, actor, technician, and/or innovator, we’ve created a place for you. TAT strives to nurture a socially conscious, artistically expressive, diverse, and ethical vision of humanity, fortified by our commitment to community involvement, global sophistication, and a responsible entrepreneurial spirit.

Academic Philosophy

TAT learning experiences are project-based and emphasize experience working with practicing professionals. TAT challenges its students to develop meaningful stories drawn from their worlds, then create and produce vibrant work using teledramatic technologies. TAT courses teach students to use the multidisciplinary platforms of theater, film, television, radio/audio, and video as they converge in the digital arena. TAT targets the goal of graduating critical thinkers, cogent storytellers, content developers, educated risk takers, and savvy producers of cultural work who will define their generation.
Institute Contributions

Bachelor of Arts Curriculum

The Institute offers a Bachelor of Arts in Teledramatic Arts and Technology.

Facilities

TAT students are trained on state-of-the-art electronic and digital equipment housed in our production facilities. They include five Avid non-linear editing suites (Xpress, Film Composer 4000 and Media Composer 1000), a Sony Select Digital Linear Editing System, a digital Beta System, 16mm cameras and Betacam-SP equipment. We operate a television studio and have access to the 456-seat World Theater. We regularly stream content over the Internet and on our on-campus television cable channel. All our facilities are fiber optically and microwave linked. We also possess satellite uplink capabilities. Many of our classes are held in “smart classrooms” with multimedia, computer, and satellite links.

University Learning Requirements (ULRs)

The Institute offers several courses that satisfy various ULRs including Creative and Artistic Expression, Culture and Equity, Ethics, Literature and Popular Culture, and Vibrancy.

Social and Behavioral Sciences Center (SBSC)

  - Fax: 831-582-3566
  - Website: http://villa.monterey.edu

Program Overview

Mission

The faculty members of the Social and Behavioral Sciences Center (SBS) believe that there is a common body of theories, methods, and data management systems underlying all of the social and behavioral sciences. They share a common interest in interdisciplinary study of the entire range of human behavior and the social institutions that mold such behavior. SBS is committed to promoting scientific and critical understanding of contemporary society in its global manifestations and local and national dimensions. The SBS curriculum encourages students to explore innovative, alternative solutions to human problems and prepares them for effective and ethical social intervention and advocacy.

Unlike other universities where the mountain of social and behavioral science is usually conquered by dividing it into disciplines such as psychology, sociology, anthropology, archaeology, social work, criminal justice, history, geography, political science, and social studies education, SBS offers all of these fields and their imaginable combinations as possible concentrations within an interdisciplinary whole. SBS also offers a Bachelor of Arts degree in Global Studies that integrates the study of earth systems with the study of social systems, thereby crossing the traditional boundary between social and natural sciences.

Academic Philosophy

The format of the Social and Behavioral Sciences program at CSUMB is outcomes-based in that it assesses students on the basis of demonstrated competencies. An SBS major is expected to demonstrate competency in the core body of theory, research methods, area studies, disciplinary concentrations, and information technologies that SBS faculty have defined as necessary for all professional social and behavioral scientists and students planning to pursue postgraduate studies. Students participate in learning experiences that are project-based, service-oriented, and facilitated by the Center's interdisciplinary faculty. The projects, reports, and demonstrations that result from such a practice-based approach are the basis for the assessment of student progress toward graduation in SBS.

There is hardly an aspect of contemporary human existence that is not, in some way, affected by the increasing global interdependency of humanity. The B.A. degree program in Global Studies, in turn, focuses on a broad range of global, economic, political, tech-
Academic Overview

Institute explores and engages the development of:

- Sciences
- Technology
- Visualization

This Institute’s curriculum encompasses a fully integrated curriculum centered on archaeological science, technology, and visualization. The Institute provisions project-based learning opportunities for students, an important component of achieving CSUMB’s unique educational mission. Institutes exist as resource centers as well, and Institute directors actively seek external funding to assist in realizing the CSUMB Vision and SBS’s educational objectives.

Institutes

Eight Institutes housed within SBS provide collaborative, interdisciplinary, and educational opportunities for students. These Institutes work with local, state, federal, and global organizations to provide service and project-based learning opportunities for students, an important component of achieving CSUMB’s unique educational mission. Institutes exist as resource centers as well, and Institute directors actively seek external funding to assist in realizing the CSUMB Vision and SBS’s educational objectives.

Institute for Archaeology

Making Contact

- Institute for Archaeology: Archaeological Science, Technology, and Visualization
  - Office Location: Building 17
  - Lab Location: Building 110
  - Information: 831-582-3890
  - Director R. Mendoza: 831-582-3760
  - Fax: 831-582-3566
  - Email: archaeology-institute@monterey.edu
  - Website: http://archaeology.monterey.edu

Program Overview

Mission

The primary initiative of the Institute for Archaeology is to develop a fully integrated curriculum centered on archaeological science, technology, and visualization. This Institute’s curriculum encompasses the social, geospatial, virtual, environmental, and archaeological sciences. Project-based and both lab and fieldwork oriented, the Institute explores and engages the development of:

- Online and multimedia instructional courseware in archaeology and the social sciences
- Archaeology and museum collections database applications
- Virtual museum development and virtual reality (VR) modeling of archaeological sites and materials
- An ongoing program of archaeological research and material culture studies

Academic Contributions

Bachelor of Arts Curriculum

The Social and Behavioral Sciences Center offers a Bachelor of Arts in Social and Behavioral Sciences and a Bachelor of Arts in Global Studies.

University Learning Requirements (ULRs)

The Center offers several courses that satisfy various ULRs including Creative and Artistic Expression, Community Participation, Culture and Equity, Democratic Participation, English Communication, Ethics, Literature and Popular Culture, Mathematics Communication, Science Methods, Technology and Information, U.S. Histories, and Vibrancy.

Institute Contributions

Academic Philosophy

Virtual archaeology intersects archaeology and museum studies with the realms of electronic information technology, multimedia, and Geographic Information Systems (GIS). It brings these powerful new technologies to the forefront of scientific interpretation, reconstruction, and the modeling of past worlds. The Institute for Archaeology is committed to the development of an innovative interdisciplinary curriculum that includes project-based learning, instructional technology development, and service learning.

Projects and Programs

The Institute for Archaeology provisions project-based learning experiences, applied research, laboratory and field-based opportunities, and training in the art and science of archaeology and museum studies. The Institute is home to several ongoing projects and lab programs that include:

- Alta California Mission Research Project
- Museum Education Project
- Community Futures Lab
- Ancient Technologies and Cultures Lab
- Modern Material Cultures Lab
- Virtual Museums Lab

Institute for Community Networking (ICN)

- Virtual Museums Lab
Program Overview

The Institute for Community Networking (ICN) promotes the academic study of civic networking: the use of telecommunications by the general public for local community and economic development, nonprofit service delivery, and civic participation in government. Various names have been used to describe such systems: community computer networks, civic networks, public access networks, freenets, public information utilities, electronic town halls, telecommunities, community communication centers, and telecottages. Others have defined public access networks as “an electronic system of information bases and/or person-to-person communications, structured around defined public interest goals in a particular geographical area or jurisdiction.”

Institute Contributions

Learning Laboratory

Using a Silicon Graphics Indy computer and Netscape server software, ICN has developed an online, project-based learning laboratory for CSUMB students and community members who are interested in the social, behavioral, and policy dimensions of community information systems. The principles of human behavior are experimentally tested within the virtual communities of the Internet. Students study topics as diverse as child pornography, gender differences in conversation, online hate crimes, and the most effective interface for supporting live chat. Telecommunication policy, especially as it is related to constitutional rights in the digital age, provides the framework for developing and testing the new communication technologies that build capacity in the community.

Curriculum

ICN is dedicated to the study of “virtual communities,” “virtual identities,” and the emerging global community of the Internet. The social psychology of online behavior and how such behavior is shaped by telecommunication policy is explored through project-based learning labs, simulations, and real-life activities on the Internet. Students are encouraged to work closely with their own community to develop such a system then publish and present their findings at regional and national community networking conferences.

Projects

Specific projects and research supported by ICN include:

- Native American Public Telecommunications prototype Website
- The DLA Financial Journal, a multiethnic financial journal
- American Indian Alaskan Native Census Information Center
- National Museum of the American Indian’s strategic plan for information technology
- Tri-county nonprofit and government agency community information sites

Institute of GIS and Spatial Analysis

Making Contact

- Website . . . . . . . . . . . . . . . . . . . http://global.monterey.edu

Program Overview

Geographic Information Systems (GIS) is an emerging computer technology that manages georeferenced information. GIS integrates digital maps with any kind of attribute data that have important spatial significance such as land use, population, housing, road network, natural resources, crime rates, and diseases. As GIS develops further and its applications multiply, GIS education is becoming very popular in colleges and universities around the country. Most recently, the term Geographic Information Science has emerged to represent the science of spatial data processing which includes the theory and method of spatial data acquisition, storage, analysis, and visualization.

CSUMB’s Institute of GIS and Spatial Analysis is dedicated to research, instruction, and deployment of geographic information technologies as they are applied to the social and behavioral sciences. GIS technology provides unique and powerful approaches to the study of complex social, economic, cultural, and environmental issues.

Institute Contributions

Curriculum

The study of Geographic Information Systems (GIS) requires a basic core of knowledge, an in-depth understanding of state-of-the-art technology, computer proficiency, and demonstrated ability to conduct complex spatial analysis. This Institute offers nationally certified GIS training courses both at introductory and advanced level. Service learning opportunities are also offered, giving students experiences in real world GIS applications. CSUMB has developed cooperative arrangements with the Census Bureau and serves as an electronic repository and collection point for U.S. Census Tiger Files and general socioeconomic statistics (SES) information shared on CDROM with the American Indian and Alaskan Native Census Information Center of CSUMB (http://indian.monterey.edu).

Projects

By its very nature, GIS programs must be interdisciplinary. GIS-related teaching, research, and community services facilitate integration of pedagogical effort at the university level and promote collaboration among faculty, staff, students, and members of the community. Some of the projects supported by the Institute of GIS and Spatial Analysis include:

- Enrollment analysis using GIS
- Spatial assessment of childcare priorities in Monterey county
- GIS supported mapping and visualization of the Tellus project
- Retail site selection and market analysis using GIS
- Wildfire mapping and simulation
- Digital spatial database for the Monterey Bay National Marine Sanctuary

- Website . . . . . . . . . . . . . . . . . . . http://global.monterey.edu
Program Overview

Mission
The Institute for Global Learning’s program is interdisciplinary and learner-centered. It integrates the study of earth systems with the study of social systems, thereby crossing the traditional boundaries between the social sciences and natural sciences. The Institute also offers opportunities for applied learning, field studies, and work-study experiences that link academic learning to concrete and daily practices.

Due to CSUMB’s geographic location and the nature of current and future global employment opportunities, the Institute for Global Learning provides a specific emphasis on the peoples, relations, issues, and problems of the Pacific Rim region. This does not mean that the program fails to focus on other regions of the world. In fact, it would be impossible to understand the current phase of globalization without understanding the political, economic, technological, and cultural activities of the other regions of the world that have shaped global life in the last 500 years, especially Europe and North America.

Academic Philosophy
There is hardly any aspect of contemporary human existence that is not, in some way, affected by the increasing global interdependence of humanity, so the Institute for Global Learning program focuses on a broad range of global economic, political, technological, social, and environmental issues, as well as basic global concerns about physical survival, health, justice, peace, and security. The program seeks to equip graduates with a comprehensive awareness of the multidimensional nature of the process of globalization and with the knowledge and skills needed to pursue successful careers and perform effective roles in intercultural relations and global affairs.

The Institute relies upon a variety of teaching and learning strategies that involve, empower, and challenge underrepresented students.

Institute Contributions

Bachelor of Arts Curriculum
The Institute for Global Learning offers a Bachelor of Arts in Global Studies.

University Learning Requirements (ULRs)
The Institute offers several courses that satisfy various ULRs including Community Participation, Culture and Equity, Democratic Participation, Ethics, Literature and Popular Culture, Science, Technology and Information, and U.S. Histories.

Model United Nations
The Institute of Global Learning offers the Model United Nations Program that takes students to a regional conference in California and a national conference at the United Nations in New York every spring semester. The Model United Nations experience gives students an opportunity to learn research skills, to advance and negotiate positions in a public forum, to collaborate effectively with others, and to gain insight into the inner workings of the international political system.

Cross-Cultural Experiences
The Institute for Global Learning is committed to working with students to plan cross-cultural experiences that are appropriate to the student’s learning goals and personal circumstances. The program facilitates student participation in the authorized California State University International Overseas Programs (see the CSU IOP section of this catalog for a complete discussion) and through other study abroad programs. Recently, Global Learning students have been able to study in Brazil, China, France, India, Israel, Italy, Madagascar, Mexico, Senegal, and Spain.

Institute for Mexico and U.S./Mexican Studies (IMUSMS)

Making Contact
- Location: Building 17
- Information: 831-582-3890
- Director M. Carlos: 831-582-3513
- Fax: 831-582-3566
- Email: manuel_carlos@monterey.edu
- Website: www.monterey.edu/academic/
centers/sbsc/institute_mexico

Program Overview
The Institute for Mexico and U.S./Mexican Studies (IMUSMS) promotes the teaching of subjects related to Mexican society, culture, and history. It also seeks to advance and disseminate knowledge about the economic, political, and cultural relations between the United States and Mexico, especially ties between California and Mexico. Other activities include the fostering of academic exchanges with Mexican universities, and promoting electronic communications between CSUMB students and faculty and their counterparts in Mexican universities.

Institute Contributions

Curriculum
The Institute offers learning opportunities in Mexico for SBS and other CSUMB students. All of these teaching initiatives feature project-based learning including experiential learning and internships. The cornerstone of the curriculum is a four-week summer exchange program in Mexico. During that time students work with Mexican and Institute faculty to conduct directed field studies. To ready themselves, students are expected to participate in a field research preparation course in the semester prior to leaving for Mexico. Students live in Mexican rural communities.

Programs and Projects
Activities and Courses sponsored by IMUSMS include:
- Analysis and project-based training in the demography, international dimensions, and cultural dynamics of Mexican-Californian migratory networks and transnational communities.
- Crisis and Development in Mexican Society—an international course, involving students and faculty from the Institute with Internet-linked Mexican colleagues to analyze leading issues in contemporary Mexico.
- Virtual field research in Mexico using a simulated multimedia, electronic learning environment.
- The Querétaro Research Project (QRP)—a long term research and student training program which is now in its fourth year. QRP focuses on a variety of topics within the larger framework of macro-micro analysis of interrelations between individuals, extended social and political networks, communities, and larger (regional, national, and international) social, economic, and political structures in the state of Querétaro, Mexico.

Institute for Mexico and U.S./Mexican Studies (IMUSMS)
Institute for Pacific Rim Studies (PRS)

Making Contact

- Institute for Pacific Rim Studies
  - Location: Building 17
  - Information: 831-582-3890
  - Director A. Tran: 831-582-3753
  - Fax: 831-582-3366
  - Email: angie_tran@monterey.edu
  - Website: www.csumb.edu/academic/institutes/prs/

Program Overview

The Institute for Pacific Rim Studies promotes greater understanding about peoples and societies in East and Southeast Asia, Vietnam, Japan, South Korea, and Taiwan, and their interconnections with American lives. The Institute explores social justice and sustainable development issues, and brings out perspectives of these peoples—especially workers and peasants—with special attention to differential impacts of global processes on gender in their daily lives. Through learning experiences, service learning, group projects, Capstones, Colloquium Series, roundtable discussions, seminars, and workshops, the Institute facilitates collaboration with other CSUMB Institutes and Centers in program planning and implementation. Moreover, PRS invites participation from students, faculty, staff, guest experts, and members from the larger community.

The objectives of the Institute for Pacific Rim Studies include:

- Promoting the principles of the CSUMB Vision, especially global connections and understanding
- Promoting interdisciplinary collaborations with faculty from other Centers and Institutes as well as students, staff, and the administration
- Linking learning experiences with the interconnections of local and global issues
- Fostering the understanding of connections between economic and political processes
- Inviting the participation of local and international experts in ongoing dialogues
- Facilitating scholarly and cultural exchange programs by inviting international scholars to interact with the CSUMB community, and conducting field research/studies in Vietnam
- Supporting publication of joint works and research as a result of collaborative efforts
- Encouraging students to apply what they have learned in classrooms to explain real-life issues in the communities of their choice.

Institute Contributions

Social Justice Colloquium Series

The Social Justice Colloquium Series annually hosts invited scholars, experts, and community leaders who explore social justice and sustainable development issues of importance to the region such as housing, employment and environment, sweatshops, etc. with an audience of Monterey Bay region community members and CSUMB students, faculty, and administrators. The goal is to connect the local with the global, the personal with the political, and the academic with the practical. CSUMB’s Institute for Social History cosponsors the series.

Institute for Research and Instructional Technologies for the Social And Behavioral Sciences (RIT)

Making Contact

- Institute for Research and Instructional Technologies for the Social And Behavioral Sciences
  - Office Location: Building 17
  - Information: 831-582-3520
  - Director J. Gutierrez: 831-582-3578
  - Fax: 831-582-3566
  - Email: juan_gutierrez@monterey.edu

Program Overview

Mission

The Institute for Research and Instructional Technologies (RIT) for the Social and Behavioral Sciences promotes the use of collaborative innovative new technologies for research and instruction (teaching, learning, and assessment). The Institute fosters collaborative research and the development of new instructional technologies to advance the social and behavioral sciences discipline. The Institute works with faculty, staff, and students, as well as the local community to achieve these goals.

Academic Philosophy

The changing nature of research and higher education effects new pedagogical approaches and instructional technologies. The Institute was created in response to this demand and is committed to a multilingual, multicultural, and intellectual community to enable students, faculty, and staff in the Social and Behavioral Sciences to develop an innovative curriculum and new instructional tools to advance education as a whole.

Institute Contributions

Curriculum

The Institute promotes the development of new pedagogical approaches and use of new media and technology in research and higher education. The Institute critically examines and reflects upon the use of instructionally related technological advances in the social and behavioral sciences discipline and educational institutions.

Projects and Programs

The Institute provisions project-based learning experiences, applied research, and exchange opportunities. It provides services to faculty, students, and staff at SBS as well as collaborative projects within CSUMB. The Institute is home to several ongoing projects and lab programs that include:

- University of Akureyri, Iceland
- Instructional Technologies at SBSC
- Object Oriented Modeling Research
- Research and Community Development New Media Support
Institute for Social History

- Website: www.monterey.edu/academic/centers/sbsc/institute_hist.html

Program Overview
The Institute for Social History fosters innovative teaching and research in social history and the practical application of historical knowledge in contemporary society.

Institute Contributions
The Institute for Social History seeks to achieve these goals at CSUMB, through the social history curriculum in the Social and Behavioral Sciences Center, and as sponsor of the following projects.

Fort Ord Historic Documents Project
The Fort Ord Historic Documents Project is being conducted by the Institute for Social History in conjunction with the Fort Ord Alumni Association and the CSUMB Library. The purpose is to identify, inventory, accession, catalog, and digitize documents relating to the history of Fort Ord. A large collection of documents has already been donated and additional materials are expected as awareness of the project spreads. This will result in valuable work and learning opportunities for interested students over the next several years. The accumulated materials will become a special collection within the CSUMB Library and will be available to students and professional scholars for historical research. An upper-level independent study course of 1-4 units is available each semester to students working on the Fort Ord Historic Documents Project. In addition, each year several students work on the project as part of their Senior Capstone.

Social Justice Colloquium Series
The Social Justice Colloquium Series annually hosts invited scholars, students, and community representatives who explore social justice issues of importance to the region with an audience of Monterey Bay region community members and CSUMB students, faculty, and administrators. The goal is to connect the local with the global, the personal with the political, and the academic with the practical. CSUMB’s Institute for Pacific Rim Studies cosponsors the series.

Distributed Learning and Extended Education (DLEE)

Making Contact
- Distributed Learning and Extended Education
- Location: Building 18, Lobby C
- Information: 831-582-4500
- Fax: 831-582-4502
- Email: ExtendedEd@monterey.edu
- Website: http://ExtendedEd.monterey.edu
- Liberal Studies Distributed Degree Completion Program (LSDC)
- Email: ls_online@monterey.edu
- Website: http://online.monterey.edu

Program Overview
Mission
Distributed Learning and Extended Education (DLEE) provides distributed educational programs and experiences to matriculated and non-matriculated students on and off campus. With a focus on CSUMB’s unique values and methods, DLEE offers courses in technology, business, teacher education, humanities, and the sciences. These courses can be taken for professional development, or some course sequences lead to certificates. Courses are offered on-campus, at community locations such as the Monterey County Office of Education (MCOE), and via technologies such as the Internet. DLEE coordinates Extended Education sessions (summer, fall, winter, and spring) and Open University (summer, fall, and spring) at CSUMB, offering credit and noncredit courses both on and off the main campus.
Academic Philosophy
As a 21st century institution, CSUMB provides its programs in distributed formats, mixing class meetings, nonclassroom activities, assessment of and credit for experiential learning, and fully off-campus learning opportunities. This enables students to pursue studies either oncampus or off according to their needs. In all cases, CSUMB courses and programs are outcomes-based and reflect the institution’s core values of learner-centeredness, collaboration, diversity and multiculturalism, ethical reflection, and service learning.

Courses and Programs
The curriculum of each distributed program focuses on the learning outcomes determined by the university faculty. Faculty members also develop assessment pathways to enable off-campus learners to meet designated outcomes in ways appropriate to their own circumstances.

Programs are designed to complement and build from the circumstances of off-campus students in order to meet identified outcomes. For instance, courses may include the opportunity to incorporate work-related problems or community situations for the application of theories studied in the course.

Distributed learning opportunities—courses and programs—are highlighted as such in course catalogs and special brochures. As CSUMB further incorporates learning technologies, distributed course opportunities will increase. Students may discuss with Institute directors and faculty the distributed offering of specific courses.

Liberal Studies Distributed Degree Completion (LSDC) Program
CSU Monterey Bay offers an exciting opportunity for students to complete a bachelor’s degree in Liberal Studies (with an MSAT waiver) while they work and attend to other responsibilities.

The Liberal Studies Distributed Degree Completion Program (LSDC)—currently pending approval by the Western Association of Schools and Colleges—is designed for upper-division students who, due to location, work schedules, or other circumstances, are unable to attend regular class sessions on campus. Students in this program will meet the goals and outcomes of CSUMB’s campus-based Liberal Studies program. Courses are offered using distributed learning delivery technologies including Web-based instruction and computer resources. Distributed learning courses may include classroom or field-based meetings to extend and enhance student learning.

LSDC courses for Fall 2001
- CST 101 Tech Tools
  This course will teach you (or refresh) skills with the computer and the Internet.
- CST 303 Computers in Schools
  Discusses processes to use computers effectively, creatively, and ethically in educational settings. Uses and evaluates software.
- GS 310 Genealogy of Globalization
  Examines globalization in three historical forms: colonization, internationalization, and transnationalization.
- HWI 375 Motor Development
  Emphasizes physical activity and programmatic organization in the gymnasium as it relates to academic and social success of K – 8 children.
- LS 300 Major ProSeminar
  Orientation to the Liberal Studies Major; development of Individualized Learning Plan; career investigation.

  - LS 360 Child Development
    Surveys theory and research on various aspects of child development with a focus on multicultural, cross-cultural, and social policy issues.
  - LS 391 Culture and Cultural Diversity
    Introduces the concepts and understanding of cross-cultural relations, and socioeconomic and cultural experiences of U.S.-based ethnic groups.
  - LS 393S Schooling in a Culturally and Linguistically Diverse Society: Service Learning
    Examines the issues, problems, and solutions to schooling in a pluralistic society; focuses on the history, politics, theories and approaches to the schooling of culturally and diverse student population.
  - LS 394S Multicultural Children’s Literature
    Examines literature within historical, sociopolitical, cultural and psychological contexts. Requires completion of an approved service project.
  - SBSM 327 Introduction to Geographic Information Systems
    Introduces basic concepts and applications of GIS.
  - SPAN 201 Intermediate Spanish I
    Reviews and develops the fundamentals of Spanish grammar.

Note: These are prospective courses subject to change.

LSDC Entry Requirements
Candidates need:
1. A computer (Pentium or equivalent) with Internet access
2. Availability for some scheduled meetings on campus or at field sites (late afternoon or Saturday)
3. Completed lower division courses. Transfer students must have at least 56 transferable units, including at least 30 general education units (with grades of C or better) that include written communication, oral communication, quantitative reasoning, and critical thinking.
4. Good time management skills and self-motivation

Application Process
Applications will be accepted beginning May 1, 2001.

Step 1
Visit www.csumentor.edu to complete your application to CSUMB. Select “Liberal Studies Online B.A.” as your major.

Step 2
Send us an email (ls_online@monterey.edu)
This email should state that you are applying to the Liberal Studies Distributed Degree Completion Program.

Career Benefits
Distributed learning allows students to integrate the pursuit of education and degrees with other parts of their lives including work and family. This benefits working adults, place-bound students, and those with physical challenges, permitting them to gain the knowledge and skills for new or advancing career opportunities. Relating issues in one’s own environment with educational study often provides not only motivation for the student but innovative solutions for community and workplace issues.

Lloyd, Dorothy M.
Dean, Center for Collaborative Education and Professional Studies
Ed.D. α Curriculum and Instruction α UC Los Angeles
M.S. α Education Administration and Educational Psychology α USC
B.A. α Elementary Education α CSU Los Angeles

Larkin, Joe
Dean, Arts, Human Communication, and Creative Technologies Center
Ph.D. α Urban Education α University of Wisconsin-Milwaukee
M.S. α Urban Affairs α University of Wisconsin-Milwaukee
B.A. α Philosophy α Marquette University

Moroh, Marsha
Dean, Science, Technology, and Information Resources Center
Ph.D. α Computer Science α Polytechnic Institute of New York
M.S. α Operations Research α New York University
B.S. α Mathematics α Dickinson College

Fulltime Faculty

Adler, Frances Payne
M.F.A. α Creative Writing and Poetry α Arizona State University
M.A. α English α San Diego State University
B.A. α Journalism α San Diego State University

Alexander, Susan
Ph.D. α Ecology and Evolutionary Biology α Stanford University
M.S. α Biological Sciences α Stanford University
B.A. α Biology and Mathematics α Vanderbilt University

Anderson, Sharon J.
Ph.D. α Soil Physical Chemistry α UC Riverside
M.S. α Soil Science α UC Riverside
B.A. α Geology α Chemistry α Carleton College

Bains, Richard
M.A. α Education α San Francisco State University
B.M. α Ethnomusicology α San Francisco Conservatory of Music

Baldwin, George D.
Ph.D. α Sociology α Oklahoma State University
M.A. α Indian Manpower Economics α Oklahoma State University
B.A. α Psychology α Northeastern Oklahoma State University

Benmayor, Rita
Director, Institute for Human Communication
Ph.D. α Romance Languages and Literature α UC Berkeley
M.A. α Spanish Literature α UC Berkeley
B.A. α Political Science and Spanish α UC Berkeley

Bhatti, Robina
Ph.D. α Political Science α University of Hawai‘i
M.A. α International Relations α University of Karachi, Pakistan
B.A. α Division 1 α St. Joseph's College for Women, Pakistan

Blackwell, Conni A.
Ed.D. α Curriculum and Instruction α United States International University
M.Ed. α Human Development α University of Maryland
B.S. α Fine Arts α University of Maryland

bonace, Bobbi
Ph.D. α Sport Administration and Higher Education α University of Kansas
M.A. α Ergonomics and Physical Education α UC Santa Barbara
B.S. α Physical Education and Recreation Health α Ohio University

Cannon, Jo Ann
Dr.PH. (with distinction) α Health Education and Behavioral Science α UC Los Angeles
M.P.H. α Community Health Education α UC Los Angeles
M.A. α Speech α Baylor University
B.A. α Education and Speech α Baylor University

Carlos, Manuel Luis
Ph.D. α Anthropology α UC Santa Barbara
M.A. α Latin American Studies α Stanford University
B.A. α Anthropology α CSU Los Angeles

Curry, Renée
Ph.D. α English α University of Maryland
M.A. α English α University of Maine
B.A. α English α Frostburg State University, Maryland

Dalton, Michael
Ph.D. α Economics α University of Minnesota
B.S. α Economics and Mathematics α University of Minnesota

Feinman, Ilene Rose
Ph.D. α History of Consciousness α UC Santa Cruz
B.A. α Integrative Change (honors) α UC Santa Cruz

Fernandez, Daniel Martin
Ph.D. α Electrical Engineering α Stanford University
M.S. α Electrical Engineering α Stanford University
B.S. α Electrical Engineering α Purdue University

Garcia, Diana
M.F.A. α Creative Writing α San Diego State University
B.A. α English α San Diego State University

Gissendanner, Paulette
M.M. α Vocal Performance and Vocal Pedagogy α Indiana University, School of Music
B.A. α Elementary Education and Applied Music α SUNY Genesco
Administrators and Faculty

Pardis, Cyrus Jason
Ph.D. in Mathematics @ UC Berkeley
B.A. in Mathematics @ UC Berkeley

Perry, Renee
Ph.D. in Ecology and Evolutionary Biology @ Cornell University
B.S. (cum laude) in Biology @ University of Washington

Pierce, Lars
Ph.D. in Forest Ecology @ University of Montana
M.S. in Wildland Resource Science @ UC Berkeley
B.S. in Geography and Environmental Studies @ UC Santa Barbara

Poethig, Johanna
M.F.A. in Fine Arts @ Mills College
B.F.A. in Fine Arts and Anthropology @ UC Santa Cruz

Pollack, Seth S.
Ph.D. in International Development Education @ Stanford University
M.A. in Organizational Sociology @ Stanford University
B.A. in International Relations @ University of Colorado

Rahman, Mezbahur
Ph.D. in Applied Statistics @ UC Riverside
M.S. in Probability and Statistics @ Michigan State University
M.S. in Statistics @ Dhaka University, Bangladesh
B.S. in Statistics @ Dhaka University, Bangladesh

Reis, Raul
Ph.D. in Communication and Society @ University of Oregon
M.S. in Journalism and Mass Communication @ Kansas State University
B.A. in Mass Communication (Journalism) @ Universidade Federal do Pará

Saito-Abbott, Yoshiko
Ph.D. in Foreign Language Education and Instructional Design and Technology @ Ohio State University
M.A. in Foreign Language Education @ Ohio State University
B.A. in Teaching English to Speakers of Other Languages (TESOL) @ Ohio Dominican College

Shapiro, Daniel
Ph.D. in Ecology and Evolutionary Biology @ Cornell University
B.A. in Biology @ UC Los Angeles

Shenk, Gerald E.
Ph.D. in U.S. and Latin American History @ UC San Diego
M.A. in U.S. and Latin American History @ San Francisco State University
B.A. in History @ Eastern Mennonite College

Silveria, Janie B.
M.L.S. in Library Science @ UC Berkeley
B.A. (magna cum laude) in English @ Rice University

Simcox, Schelle
M.I.S. in Information and Library Studies @ University of Michigan
B.A. in English @ George Mason University

Simmons, Brian P.
Ph.D. in Social Welfare @ UC Berkeley
M.S.W. in Social Welfare @ UC Berkeley
B.A. in Social Welfare @ UC Berkeley
A.A. in Political Science @ Bakersfield College

Sleeter, Christine E.
Ph.D. in Curriculum and Instruction @ University of Wisconsin-Madison
M.A. in Curriculum and Instruction @ Seattle University
B.A. in Secondary Education @ Central Washington State University
B.A. in Political Science @ Willamette University

Tokacs, David
Ph.D. in Science and Technology Studies @ Cornell University
M.A. in History and Philosophy of Sciences @ Cornell University
B.S. in Biology @ Cornell University

Tao, Eric Yihcheng
Ph.D. in Electrical and Computer Engineering @ University of California, Irvine
M.S. in Computer and Information Science @ New Jersey Institute of Technology
B.S. in Electrical Engineering @ National Sun Yat Sen University, Taiwan, ROC

Thao, Paoze
Ph.D. in Historical Foundations of Education @ Loyola University of Chicago
M.A. in Applied Linguistics @ Northeastern Illinois University
B.Ed. in English as a Second Language @ Chulalongkorn University, Thailand

Tirado, Miguel D.
Ph.D. in Political Science/Public Administration @ Claremont Graduate School
M.A. in International Studies @ Johns Hopkins University
M.A. in Hispanic Studies @ Middlebury Graduate School
B.A. in Languages and International Relations @ USC

Tran, Angie Ngoc
Ph.D. in Political Economy and Public Policy @ USC
M.A. in Developmental Economics @ USC
B.S. in Management Information Systems @ CSU Long Beach

Urioste, Donald W.
Ph.D. in Latin American Literature @ University of New Mexico
M.A. in Hispanic Literature @ University of Colorado, Boulder
B.A. in Spanish @ University of Colorado, Boulder

Valdez, Luis
Honorary Doctorate of Arts @ San Jose State University, University of Santa Clara, Columbia College-Chicago, and California Institute of the Arts
B.A. in English @ San Jose State University

van Spyk, Robert P.
Ph.D. in Geography @ University of Oregon
M.A. in Geography @ University of Toronto
B.A. (honors) in Geography @ University of Toronto

Wang, Qun
Ph.D. in American Literature @ University of Oregon
M.A. in English @ East China Normal University, Shanghai
B.A. in English @ East China Normal University, Shanghai

Wangberg, Elaine
Ph.D. in Psycholinguistics and Reading @ University of Michigan
M.A. in Education and Reading @ University of Michigan
B.S. in Education @ University of Minnesota

Watkins, Steven G.
M.L.S. in Library Science @ UC Berkeley
B.S. in Biology @ Stanford University

Whang, Patricia
Ph.D. in Educational Psychology @ UC Berkeley
M.A. in Educational Psychology @ UC Berkeley
B.A. in Psychology @ Indiana University, Bloomington

White, Judith Anne
Ph.D. in Organizational Behavior @ Case Western Reserve University
M.A. in Social Science in Education @ Stanford University
M.S. in Rehabilitation Counseling @ San Francisco State University
B.A. in Cultural Anthropology @ San Francisco State University

Wood, Swarup
Ph.D. in Biology @ UC Santa Cruz
B.S. in Biology @ UC Santa Cruz

Worcester, Suzanne
Ph.D. in Integrative Biology @ UC Berkeley
B.S. (with honors) in Biology @ University of Utah

Wyches, Susan
Universitywide Director of Writing
Ph.D. in Rhetoric and Composition @ University of Washington
M.A. in American Literature @ University of Washington
B.A. in English @ Pomona College

Zielina, María Carmen
Ph.D. in Hispanic Literature and Language @ UC Santa Barbara
M.A. in Spanish Language and Literature @ UC Santa Barbara
B.A. (magna cum laude) in Spanish @ California Lutheran University
Course Descriptions
### Course Description

#### Abbreviations

- ASAP  Academic Skills Achievement Program
- ASL   American Sign Language
- ASMT  Assessment
- CHHS  Collaborative Health and Human Services
- CHIN  Chinese
- CST   Communications Science and Technology
- ED    Education
- EDI   Education Internship Program
- ESSP  Earth Systems Science & Policy
- GS    Global Studies
- HCOM  Human Communication
- HWI   Health and Wellness
- ID    Interdisciplinary Studies
- ISSM  Integrated Studies Special Major
- ITAL  Italian
- JAPN  Japanese
- KOR   Korean
- LS    Liberal Studies
- MAE   Master of Arts in Education
- MATH  Mathematics
- MIE   Management and International Entrepreneurship
- MMLM  Moss Landing Marine Laboratories
- MPA   Music and Performing Arts
- PORT  Portuguese
- PROS  ProSeminar
- SBSC  Social and Behavioral Sciences Center
- SL    Service Learning
- SPAN  Spanish
- SPED  Special Education
- STAT  Statistics
- TAT   Teledramatic Arts and Technology
- VPA   Visual and Public Art
- WLAC  World Languages and Cultures

#### Other Terms

- GE    General Education
- MLO   Major Learning Outcome
- TBA   To be announced
- TBD   To be determined
- ULR   University Learning Requirement
Academic Skills Achievement Program

**ASAP 95 ~ Tutorial Workshop: Special Topics ~ 1 ~ 6 credits**
Provides additional and/or focused supplemental instruction for specific courses and subjects. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on topics and subjects as defined by faculty. Meeting times scheduled as needed, up to six hours per week. Credit/no credit only. Enrollment may be recommended or required by an instructor, program, or as part of the university assessment.

**ASAP 98 ~ Tutorial Workshop: MATH 98 ~ 1 credit**
Provides supplemental instruction for MATH 98 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): MATH 98.

**ASAP 99 ~ Tutorial Workshop: MATH 99 ~ 1 credit**
Provides supplemental instruction for MATH 99 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): MATH 99.

**ASAP 100 ~ Tutorial Workshop: ProSeminar 100: Foundations for Lifelong Learning ~ 1 credit**
Provides supplemental instruction for ProSeminar 100 course. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university writing assessment. Corequisite(s): ProSeminar 100.

**ASAP 101 ~ Tutorial Workshop: HCOM 211 ~ 1 credit**
Provides supplemental instruction for HCOM 211 course. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university writing assessment. Corequisite(s): HCOM 211.

**ASAP 102 ~ Tutorial Workshop: HCOM 212 ~ 1 credit**
Provides supplemental instruction for HCOM 212 course. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university writing assessment. Corequisite(s): HCOM 212.

**ASAP 103 ~ Tutorial Workshop: Language Development ~ 1 credit**
Provides supplemental instruction for lower-division courses. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments focusing on sentence, paragraph, and essay structure. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university assessment. Prerequisite(s): instructor consent.

**ASAP 104 ~ Tutorial Workshop ~ 1 credit**
Provides supplemental instruction for lower-division courses. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university assessment. Prerequisite(s): instructor consent.

**ASAP 105 ~ Tutorial Workshop: Language Development ~ 1 credit**
Provides supplemental instruction for lower-division courses. Students work in writing groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university writing assessment. Corequisite(s): any EngCom B and ASAP 102.

**ASAP 110 ~ Tutorial Workshop: MATH 100 ~ 1 credit**
Provides supplemental instruction for MATH 100 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): MATH 100.

**ASAP 111 ~ Tutorial Workshop: MATH 130 ~ 1 credit**
Provides supplemental instruction for MATH 130 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): MATH 130.

**ASAP 112 ~ Tutorial Workshop: STAT 200 ~ 1 credit**
Provides supplemental instruction for STAT 200 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): STAT 200.

**ASAP 113 ~ Tutorial Workshop: STAT 201 ~ 1 credit**
Provides supplemental instruction for STAT 201 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): STAT 201.

**ASAP 114 ~ Tutorial Workshop: STAT 204 ~ 1 credit**
Provides supplemental instruction for STAT 204 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Corequisite(s): MATH 155.

**ASAP 115 ~ Tutorial Workshop: MATH 155 ~ 1 credit**
Provides supplemental instruction for MATH 155 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Corequisite(s): MATH 156.

**ASAP 116 ~ Tutorial Workshop: MATH 156 ~ 1 credit**
Provides supplemental instruction for MATH 156 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Corequisite(s): MATH 156.

**ASAP 117 ~ Tutorial Workshop: MATH 150 ~ 1 credit**
Provides supplemental instruction for lower-division mathematics or statistics courses. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university assessment. Corequisite(s): lower division mathematics or statistics course.

**ASAP 118 ~ Tutorial Workshop: MATH 151 ~ 1 credit**
Provides supplemental instruction for lower-division mathematics or statistics courses. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematic assessment. Corequisite(s): lower division mathematics or statistics course.

**ASAP 119 ~ Tutorial Workshop: MATH 110 ~ 1 credit**
Provides supplemental instruction for MATH 110 course. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the ELM university mathematics assessment. Corequisite(s): MATH 110.

**ASAP 120 ~ Tutorial Workshop: ESSP 110 Chemistry I ~ 1 credit**
Provides supplemental instruction for ESSP 110 Chemistry I. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, laboratory writeups, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Corequisite(s): ESSP 110.

**ASAP 121 ~ Tutorial Workshop: ESSP 111 ~ 1 credit**
Provides supplemental instruction for ESSP 111 Chemistry II. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP) and receive assistance on course assignments, laboratory writeups, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Corequisite(s): ESSP 111.
ASL 101 ~ Beginning American Sign Language I ~ 4 credits
Teaches basic signs and hand parameters in American Sign Language (ASL). Practices visual comprehension, signing, and basic expressive and receptive skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Prerequisite(s): ASL 100 or equivalent.

ASL 102 ~ Beginning American Sign Language II ~ 4 credits
Continues study and practice of basic skills initiated in ASL 101. Emphasizes comprehension, developing receptive skills, and using the glossing system for written ASL. Interactive and extracurricular activities increase understanding of ASL and the deaf culture. Prerequisite(s): ASL 101 or equivalent.

ASL 103 ~ Tutorial Workshop: Language Development ~ 1 credit
Provides supplemental instruction for upper-division courses. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP), and receive assistance on course assignments, readings, and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Prerequisite(s): ASL 101 or equivalent.

ASL 104 ~ Tutorial Workshop: Senior Capstone ~ 1-3 credits
Provides supplemental instruction for senior capstone course(s). Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP), and receive assistance on writing and editing their capstone projects. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of university writing assessment. Prerequisite(s): ASL 104 000

ASL 105 ~ Advanced American Sign Language I ~ 4 credits
Continues the study of American Sign Language (ASL). Practices developing visual comprehension, signing, writing with gloss system, and using basic expressive and receptive skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor or program. Prerequisite(s): ASL 100 or equivalent.

ASL 106 ~ Intermediate American Sign Language II ~ 4 credits
A continuation of ASL 101. Prerequisite(s): ASL 101 or equivalent.

ASL 201 ~ Intermediate American Sign Language I ~ 4 credits
Continues the study of American Sign Language (ASL). Practices developing visual comprehension, signing, writing with gloss system, and using basic expressive and receptive skills in laboratory setting. Studies readings and videos. Classes and extracurricular activities teach the aspects of ASL and the deaf culture. Prerequisite(s): ASL 102 or equivalent.

ASL 202 ~ Intermediate American Sign Language II ~ 4 credits
A continuation of ASL 201. Prerequisite(s): ASL 201 or equivalent.

ASL 300 ~ Tutorial Workshop ~ 1-6 credits
Provides additional and/or focused supplemental instruction for specific courses and subjects. Students work in small groups with a tutor from the Academic Skills Achievement Program (ASAP), and receive assistance on course assignments and study skills. Groups meet one hour per week. Credit/no credit only. Enrollment may be required by an instructor, program, or as part of the university assessment. Prerequisite(s): instructor consent.

ASL 301 ~ Advanced American Sign Language I ~ 4 credits
A continuation of ASL 201. Prerequisite(s): ASL 201 or equivalent.

ASL 302 ~ Advanced American Sign Language II ~ 4 credits
A continuation of ASL 301. Prerequisite(s): ASL 301 or equivalent.

ASL 497 ~ Independent Study ~ 2 credits
Students design unique learning sequences that are pertinent to their learning plans and not covered in current courses. Students design a study proposal with appropriate faculty and obtain authorization from their academic center. Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

ASMT 421 ~ Creative and Artistic Expression ~ 1 credit

ASMT 422 ~ Culture and Equity ~ 1 credit
Independent assessment of the Culture and Equity (CULTURE) University Learning Requirement.

ASMT 423 ~ Democratic Participation ~ 1 credit
Independent assessment of the Democratic Participation (DEMPART) University Learning Requirement.

ASMT 424 ~ English Communication ~ 1 credit
Independent assessment of the English Communication (ENGCOM) University Learning Requirement.

ASMT 425 ~ Ethics ~ 1 credit
Independent assessment of the Ethics (ETHICS) University Learning Requirement. Prerequisite(s): instructor consent.

ASMT 426 ~ Language ~ 1 credit

ASMT 427 ~ Literature/Popular Culture ~ 1 credit
Independent assessment of the Literature/Popular Culture [LIT] University Learning Requirement.

ASMT 428 ~ Mathematics Communication ~ 1 credit
Independent assessment of the Mathematics Communication (MATHCOM) University Learning Requirement.

ASMT 429 ~ Science ~ 1 credit
Independent assessment of the Science (SCI) University Learning Requirement.

ASMT 430 ~ Technology and Information ~ 1 credit
Independent assessment of the Technology and Information [TECH] University Learning Requirement.

ASMT 431 ~ U.S. Histories ~ 1 credit
Independent assessment of the U.S. Histories (HIST) University Learning Requirement.

ASMT 432 ~ Vibrancy ~ 1 credit
Independent assessment of the Vibrancy (VIBRANCY) University Learning Requirement.
ASMT 433 ~ Community Participation ~ 1 credit
Independent assessment of the Community Participation University Learning Requirement.

CHHS 210 ~ Introduction to Social Work ~ 4 credits
Provides students with an introduction to the history, mission, values and ethics, practice set-
tings, and knowledge base of the social work profession. Emphasis is on social work prac-
tice skills with diverse individuals, families, and populations at risk.
Corequisite(s): CHHS 210S.

CHHS 210S ~ Introduction to Social Work—Field Practicum ~ 1 credit
Provides individualized student placement for in-depth field study related to social work prac-
tices. Core course for Knowledge of Health and Human Services Practice MLO.
Credit/no credit only.
Corequisite(s): CHHS 210.

CHHS 215 ~ Writing Skills for the Health and Human Services Professions ~ 2-4 credits
Provides students with an opportunity to receive assistance in improving their writing skills. Basic sentence structure and writing fundamentals will be covered, as well as other specific areas indicated by students’ concerns. All majors are invited to attend this course to work on writing assignments from other courses. This course does NOT fulfill ULRs or MLOs, but will equip students with needed skills to achieve those outcomes.

CHHS 220 ~ Introduction to Community Health ~ 4 credits
Provides students with an introduction to the principles and practices of community health including multicultural definitions of health and illness, models and goals of health educa-
tion and health promotion programs, demography, epidemiology, environmental health, nutrition, and the health of diverse populations throughout the lifespan. Methods of assess-
ing the health status of populations are emphasized.
Prerequisite(s): STAT 200 or equivalent; can be taken concurrently.
Corequisite(s): CHHS 220S.

CHHS 220S ~ Introduction to Community Health—Field Practicum ~ 1 credit
Provides individualized student placement for in-depth field study as related to the introduc-
tion to community health. Credit/no credit only. Core course for Knowledge of Health and Human Services Practice, and Cross-Cultural Competency MLOs.
Corequisite(s): CHHS 220.

CHHS 225 ~ Social Policies for Children ~ 4 credits
Provides students with an introduction to the governmental structures and processes that cre-
ate and implement policy in the United States and California. Using a variety of social poli-
cies affecting children, e.g. welfare, foster care, child support, childcare, and juvenile jus-
tice, students will examine these policies from historical and political perspectives and think critically about alternative approaches.

CHHS 230 ~ Collaborative Community Leadership ~ 4 credits
Provides students with an opportunity to develop competency in collaborative practice and leadership. Theory and methodology of collaboration in health and human services settings, and of building coalition models are presented. Students learn how to facilitate groups, and will gain an understanding of the foundations of government and citizenship. Formerly CHS 206.

CHHS 250 ~ Personal and Professional Ethics ~ 4 credits
Introduces students to the fundamental tools necessary for considering ethical questions from a relational perspective. Students will be able to articulate the values and ethics that are the foundation for all health and human services practice, recognize areas of conflict between professional values and their own, and develop skills to analyze and respond to ethical problems they will face in professional settings.

CHHS 260 ~ International and Multicultural Women’s Health and Social Issues ~ 4 credits
Provides students with an opportunity to understand the dimensions of women’s health through a comparative and historical analysis of women’s health status throughout the develop-
ing world and in the US. Readings and interactive discussion emphasize cross-cultural similarities and differences in women’s health and social conditions, and issues related to social justice and health. Formerly CHS 214.
Prerequisite(s): CHHS 220 or a Global Studies course or equivalent recommended.

CHHS 270 ~ Alternative and Multicultural Health Practices ~ 4 credits
Introduces students to the current and historic forms of healthcare practice. Lecture, discus-
sion, guest speakers, and extensive Web-based investigation provide students with an opportunity to develop an understanding of the varied forms of folk medicine practiced by many different cultures globally and in the US, as well as to critically compare the eastern and western models of health care.

CHHS 280 ~ Community and School Health Promotion ~ 2-4 credits
Provides students with an opportunity to develop an understanding of the field of health pro-
motion with an emphasis on community partnerships and linking schools with health and human service programs. Students will develop a basic understanding of community health education, social marketing, policy and advocacy, community norm setting, and the ele-
ments of a comprehensive school health program.

CHHS 300 ~ Major ProSeminar ~ 4 credits
Introduces students to the CHHS academic and field programs, CSUMB upper division graduation requirements [UR], and the core competencies for the major learning outcomes [MLOs] of the health and human service fields [community health and social work]. Students will also prepare their Individualized Learning Plans [ILPs].
Corequisite(s) must be taken with CHHS 396 during fall semester.

CHHS 305 ~ Information Management for the Health and Human Services ~ 1-2 credits
Provides students with an opportunity to learn and apply computer skills to health and human service delivery. Emphasis is on improving skills in the use of database manage-
ment, financial spreadsheet, and presentation software. State-of-the-art health and human service software will be introduced. Formerly CHS 303.

CHHS 310 ~ Introduction to Social Work ~ 4 credits
Provides students with an introduction to the history, mission, values and ethics, practice set-
tings, and knowledge base of the social work profession. Emphasis is on social work prac-
tice skills with diverse individuals, families, and populations at risk. Formerly CHS 301.
Corequisite(s): CHHS 310S and 396.

CHHS 310S ~ Introduction to Social Work—Field Practicum ~ 1 credit
Provides individualized student placement for in-depth field study related to social work prac-
tices. Meets upper division service learning requirement. Credit/no credit only. Formerly CHS 301S.
Corequisite(s): CHHS 310.

CHHS 315 ~ Writing Skills for the Health and Human Services Professions ~ 2-4 credits
Provides students with an opportunity to receive assistance in improving their writing skills. Basic sentence structure and writing fundamentals will be covered, as well as other specific areas indicated by students’ concerns. All majors are invited to attend this course to work on writing assignments from other courses. This course does NOT fulfill ULRs or MLOs, but will equip students with needed skills to achieve those outcomes.

CHHS 320 ~ Introduction to Community Health ~ 4 credits
Provides students with an opportunity to receive assistance in improving their writing skills. Basic sentence structure and writing fundamentals will be covered, as well as other specific areas indicated by students’ concerns. All majors are invited to attend this course to work on writing assignments from other courses. This course does NOT fulfill ULRs or MLOs, but will equip students with needed skills to achieve those outcomes.

CHHS 320S ~ Introduction to Community Health—Field Practicum ~ 1 credit
Provides individualized student placement for in-depth field study as related to the introduc-
tion to community health. Meets upper division service learning requirement. Credit/no credit only. Formerly CHS 302.
Corequisite(s): CHHS 396.

CHHS 320S ~ Introduction to Community Health—Field Practicum ~ 1 credit
Provides individualized student placement for in-depth field study related to social work prac-
tices. Meets upper division service learning requirement. Credit/no credit only. Formerly CHS 301.
Corequisite(s): CHHS 396.

CHHS 330 ~ Collaborative Community Leadership ~ 4 credits
Provides students with an opportunity to develop competency in collaborative practice and leadership. Theory and methodology of collaboration in health and human services settings, and of building coalition models are presented. Students learn how to facilitate groups, and gain an understanding of the foundations of government and citizenship. Formerly CHS 313.
Corequisite(s): CHHS 320S and 396.

CHHS 330S ~ Collaborative Community Leadership ~ 4 credits
Provides students with an opportunity to develop competency in collaborative practice and leadership. Theory and methodology of collaboration in health and human services settings, and of building coalition models are presented. Students learn how to facilitate groups, and gain an understanding of the foundations of government and citizenship. Formerly CHS 302 and 306.

CHHS 340 ~ Conflict Resolution and Collaborative Negotiation ~ 4 credits
Provides students with an opportunity to develop basic skills and knowledge in interpersonal and interorganizational conflict resolution, negotiation, and mediation techniques, through readings, extensive role playing and scenario development, and discussion with speakers from the field. Students will participate in experiential exercises, learning how to facilitate collaborative negotiations. Formerly CHS 309.

CHHS 350 ~ Personal and Professional Ethics ~ 4 credits
Introduces students to the fundamental tools necessary for considering ethical questions from a relational perspective. Students will be able to articulate the values and ethics that are the foundation for all health and human services practice, recognize areas of conflict between professional values and the their own, and develop skills to analyze and respond to ethical problems they will face in professional settings.
CHHS 450 ~ Health and Social Policy Analysis ~ 4 credits
Provides students with an opportunity to develop advanced policy analysis knowledge and skills through intensive case study and hands-on experience in formulating policy for specific health and human service issues.
Prerequisite(s): CHHS 314. Preferred: CHHS 313 or a Global Studies course or equivalent recommended.

CHHS 460 ~ Advanced Health Care Systems Management ~ 4 credits
Provides students with an opportunity to develop management skills in public and private healthcare settings. Topics will include advanced healthcare organizational analysis, design, evaluation, and leadership.
Prerequisite(s): CHHS 420 or instructor consent.

CHHS 470 ~ Children’s Health and Social Policy ~ 4 credits
Introduces students to a variety of social problems, e.g., poverty, ill health, child abuse and neglect, and juvenile crime, facing children, youth, and their families, in the U.S. today. Examines the social and health policies created to address identified problems and the programs established to implement selected policies. Provides students with a conceptual framework to critically analyze all public policies. Formerly CHS 408.

CHHS 480 ~ Law and Social Welfare ~ 2-4 credits
Introduces the nexus of the rule and practice of law with that of human services, including an examination of collaborative responses to social problems. Students experience the overlap between the two systems by preparing a report of a client situation to a court having jurisdiction over the client. Formerly CHS 401.

CHHS 485 ~ Applied Statistics and Research Methods ~ 5 credits
Introduces students to the fundamentals of research methods and applies basic data analysis skills in health and human service case studies. Appropriate software programs and their application in health and human service delivery will be introduced and utilized in designing student projects. Formerly CHS 308.
Prerequisite(s): STAT 200 or equivalent, may be taken concurrently.

CHHS 490 ~ Advanced Evaluation Design ~ 1-4 credits
Provides students with an opportunity to apply the concepts, methods, and rationale of evaluation theory. Students will conduct an evaluation of a public or nonprofit health or human service agency or delivery system, and develop specific techniques in designing a formal evaluation strategy. Formerly CHS 405.
Prerequisite(s): CHHS 380 or equivalent.

CHHS 495 ~ Special Topics in Collaborative Health and Human Services ~ 1-4 credits
Explores a particular topic in collaborative health and human services. May be repeated for credit when topics vary.
Prerequisite(s): instructor consent.

CHHS 496 ~ Senior Field Practice Seminar ~ 3 credits
Provides students with an opportunity to continue developing knowledge and skills in their senior field placement as work is completed on the Senior Capstone project. Students will conduct an in-depth analysis of the systems where they work, the relationships they have developed within the organization, and the populations they serve, and discuss their future roles as health and human service professionals. Credit/no credit only. Formerly CHS 499.
Corequisite(s): must be taken both semesters of senior year with CHHS 496.

CHCH 497 ~ Independent Study ~ 1-4 credits
Omits students independent learning opportunities in a selected specialty area. May include fieldwork to meet the required number of hours.
Prerequisite(s): instructor consent.

CHHS 498 ~ Graduate Field Practice Seminar ~ 1-6 credits
Provides students with an opportunity to develop management skills in public and private healthcare settings. Topics will include advanced healthcare organizational analysis, design, evaluation, and leadership.
Prerequisite(s): instructor consent and graduate standing.

CHHS 499 ~ Graduate Independent Study ~ 1-4 credits
Omits students independent learning opportunities in a selected specialty area. May include fieldwork to meet the required number of hours.
Prerequisite(s): instructor consent.

CHHS 500 ~ Graduate Professional Seminar ~ 1 credit
Introduces new students in the CHHS major to the field practice process. Discussion will include the application of academic work and NIO competencies in field practice settings, self-reflection, the roles and responsibilities between the student and field mentor, and the relationships in a field practice setting. Credit/no credit only.
Corequisite(s): must be taken with CHHS 300 during fall semester.

CHHS 595 ~ Special Topics in Collaborative Health and Human Services ~ 1-6 credits
Explores a particular topic in collaborative health and human services. May be repeated for credit when topics vary.
Prerequisite(s): instructor consent.

CHHS 596 ~ Graduate Field Practice Seminar ~ 1-6 credits
Provides students with an opportunity to develop management skills in public and private healthcare settings. Topics will include advanced healthcare organizational analysis, design, evaluation, and leadership.
Prerequisite(s): instructor consent and graduate standing.

CHHS 597 ~ Independent Study ~ 1-6 credits
Omits students independent learning opportunities in a selected specialty area. May include fieldwork.
Prerequisite(s): instructor consent.

CHIN 101 ~ Beginning Chinese I (Mandarin) ~ 4 credits
Covers the basic skills of conversing, reading, and writing Mandarin Chinese. Includes conceptual structures which underlie Chinese discourse, sentence structure, and the cultural and social conventions that characterize daily use. Emphasizes Chinese sound system with attention to tone system, mastery of Pininyin Romanization system, and Chinese characters.
Corequisite(s): CHIN 103.

</tr>
<tr>
<td>CST 101</td>
<td>Technology Tools</td>
<td>4</td>
<td>Learn to use computers creatively, effectively, and ethically. Provides hands-on experiences using computer for electronic communication and presentations, and to design and create documents using word processing, spreadsheets, and image manipulation. Students will also become competent in information literacy including Internet searching, research process, and the correct citation of reference material.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 102</td>
<td>The Internet</td>
<td>4</td>
<td>Online laboratory course that examines the management and organizational structure of the Internet, its topography, transmission media, and participants. Covers Web authoring, FTP, Telnet, newsgroups, electronic mail, Netiquette, online research, evaluating information resources, correctly citing Internet resources, and weekly online discussions.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 196</td>
<td>Field Studies</td>
<td>1-6</td>
<td>Field study opportunities. Topics of study and credits arranged between student and faculty.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 197</td>
<td>Independent Study</td>
<td>1-6</td>
<td>Student and faculty member select topic of study and number of credits.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 201</td>
<td>Media Tools</td>
<td>4</td>
<td>Explores computer-based tools used in the design and creation of electronic media. Includes designing, creating, and editing electronic images, sounds, videos, text, and motion. Integrates multimedia authoring to design, manage, and execute a multimedia project.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 231</td>
<td>Problem Solving and Programming</td>
<td>4</td>
<td>Laboratory course that develops problem solving techniques while examining numerical and non-numerical problems from various disciplines. Students design solutions and learn to program in the C++ language.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 232</td>
<td>MS Visual Basic Programming</td>
<td>4</td>
<td>Learn the fundamentals of Microsoft Visual Basic (VB)—an easy-to-learn programming environment for Microsoft Windows. Learn how to develop simple standalone Windows applications. This course includes PC laboratory time for a hands-on learning experience.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 233</td>
<td>Intermediate Programming in MS Visual Basic</td>
<td>4</td>
<td>Focus on more advanced Microsoft Windows programming with Visual Basic in this hands-on, practical course. Students also explore the use of Visual Basic for work with databases and for interfacing with other applications.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 251</td>
<td>Basic Web Design</td>
<td>4</td>
<td>Focuses on Web-based design emphasizing color, bandwidth, layout, type, and creative design. Introduces GIF animation and JavaScript. Reviews multimedia publishing on the Web.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 300</td>
<td>Major ProSeminar</td>
<td>4</td>
<td>Help students identify and articulate personal, professional, and social goals. Provides an integrated view of the telecommunications, multimedia, and applied computing major and its requirements. Students develop a plan for their learning goals. Note: required for entry into the major.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
<tr>
<td>CST 303</td>
<td>Computers in Schools</td>
<td>4</td>
<td>Presents an overview of computer technology and its applications. Discusses processes to use computers effectively, creatively, and ethically in educational settings. Uses and evaluates software for teaching, learning, and managing classrooms in collaboration with the Monterey Bay Technology Education Center (MBTEC). This course meets liberal studies and teaching credential competencies.</td>
<td>CHIN 101 or equivalent.</td>
</tr>
</tbody>
</table>
CST 304 ~ Publication Design ~ 4 credits
Project-based course introduces page layout design for print and screen. Students work in QuarkXpress and Adobe Acrobat, but competency in Adobe Illustrator and Photoshop is essential. Emphasizes use of type, typography techniques, legibility, and design composition. Covers scanning, importing files, and mastering digital prepress production. Some field trips. Prerequisite(s): CST 328 or instructor consent.

CST 308 ~ Management and Design ~ 4 credits
Focuses on the design process and management tools to facilitate the creation of multimedia and Web-based video communications projects. Students demonstrate proficiency in project management and project design using formal and informal design processes. Covers multimedia production, project management, budgets, and legal and contractual issues. Prerequisite(s): CST 201 or instructor consent.

CST 310 ~ Telecommunications and Society ~ 4 credits
Overview of Telecommunications and Data communications technology for the non-specialist. Includes basic communications technology principles and types of networks, historical trends, existing and emerging technologies, social and economic impact, future trends. Prerequisite(s): CST 101 or completion of the Tech/Info ULR, or instructor consent.

CST 311 ~ Introduction to Telecommunications ~ 4 credits
Survey of Telecommunication and Data communications technology fundamentals, local Area Networks, Wide Area Networks, Internet and internetworking protocols including TCP/IP, network security and performance, emerging industry trends such as voice over the network and high speed networking. Designed as a foundation for students who wish to pursue more advanced telecommunications studies including certificate programs. Includes hands-on networking labs that incorporate Cisco CCNA module 1 as a lab component. Prerequisite(s): CST 311 or completion of the Tech/Info ULR, or instructor consent.

CST 312 ~ Telecommunications Standards ~ 4 credits
Covers national and international organizations and mechanisms for creating telecommunications standards using the OSI model, TCP/IP Internet standards. Focuses on the theory, technology and operation of OSI layer 3 (routing). Includes hands-on labs that incorporate Cisco CCNA module 2 as a lab component. Prerequisite(s): CST 311; C/C++, Visual Basic, or equivalent programming experience recommended, or instructor consent.

CST 313 ~ Telecommunications Management ~ 4 credits
Introduces management tools, skills, and information to design, implement, and manage telecommunication and data communications networks. Includes network design, monitoring, and security. Prerequisite(s): CST 311 or concurrent enrollment in CST 311, or instructor consent.

CST 314 ~ Telecommunications Regulations, Policy, and Social Issues ~ 4 credits
Covers global changes in telecommunications, regulatory policies, and the integration of telecommunications with wireless systems, video distribution, and the Internet. Addresses the global and ethical impact of telecommunications on individuals, societies, and cultures. Prerequisite(s): CST 311 or instructor consent.

CST 315 ~ Internetworking Protocols ~ 4 credits
Explores TCP/IP, security, firewalls, bridging, routing, and other aspects of Internetworking. Prerequisite(s): CST 312 or CST 313, or instructor consent.

CST 321 ~ Multimedia I ~ 4 credits
Introduces the UNIX operating system, X Windows environment, and its interface layers. Prerequisite(s): C/C++, CST 231 or equivalent, or instructor consent.

CST 322 ~ Multimedia II ~ 4 credits
Introduces the UNIX operating system, X Windows environment, and its interface layers. Prerequisite(s): CST 201 or instructor consent.

CST 324 ~ Multimedia Integration ~ 4 credits
Focuses on written critical reviews, debate, public presentations, and collaborative work.

CST 326 ~ Technology and Communities ~ 4 credits
A service learning course in which students apply computer literacy, multimedia design, and technology to assist schools, nonprofit organizations, and community agencies. The theme for the course is “ Bridging the Digital Divide.” Note: students must participate in required service placements with hours to be arranged. Prerequisite(s): CST 101 or completion of the Tech/Info ULR, or instructor consent; junior or senior standing.

CST 327 ~ Current Issues in Communications and Technology I ~ 4 credits
Studies the political, social, and economic issues of communication and new technology. Focuses on written critical reviews, debate, public presentations, and collaborative work.

CST 328 ~ Digital Art and Design ~ 4 credits
Project-based approach to creating graphics in digital format and exploring the aesthetics of electronic publishing. Includes typography, layout, proportion, and color. Prerequisite(s): CST 201 or instructor consent.

CST 331 ~ Computer Graphics ~ 4 credits
Laboratory-based course that presents tools for designing and developing computer graphic scenes and systems to create computer graphics programs. Prerequisite(s): C/C++, CST 231 or equivalent, or instructor consent.

CST 332 ~ Computer Imaging ~ 4 credits
Project-based course explores imaging applications, vision systems, and video equipment. Prerequisite(s): C/C++, CST 231 or equivalent, or instructor consent.

CST 334 ~ UNIX and X Windows ~ 4 credits
Introduces the UNIX operating system, X Windows environment, and its interface layers. Prerequisite(s): C/C++, CST 231 or equivalent, or instructor consent.

CST 336 ~ Internet Programming ~ 4 credits
Introduces topics of Internet programming. Covers Java and PERL languages. Prerequisite(s): UNM, C/C++, CST 321 or equivalent, or instructor consent.

CST 337 ~ Computing Architectures and Environments ~ 4 credits
Studies computer architectures, operating systems, and computer systems management. Includes data representation, memory, registers, and internal common computers and user system interfaces. Knowledge of C/C++ programming helpful but not mandatory. Prerequisite(s): CST 101 or completion of the Tech/Info ULR, or instructor consent.

CST 338 ~ Software Design ~ 4 credits
Focuses on written critical reviews, debate, public presentations, and collaborative work.

CST 341 ~ Introduction to Instructional Design ~ 4 credits
Introduces instructional design to create training and educational materials in business and education. Includes the principles of design for job aids, videos, programming, and computer-based training. Prerequisite(s): instructor consent.

CST 351 ~ Web Design ~ 4 credits
Focuses on Web-based design and project management emphasizing color, bandwidth, layout, type, creative design, and multimedia publishing on the Web. Introduces GIF animation and JavaScript. Prerequisite(s): CST 308 and CST 328, or instructor consent.

CST 361S ~ Technology Tutors ~ 4 credits
A service learning course in which students apply computer literacy, multimedia design, and technology to assist schools, nonprofit organizations, and community agencies. The theme for the course is “ Bridging the Digital Divide.” Note: students must participate in required service placements with hours to be arranged. Prerequisite(s): CST 201 or instructor consent.

CST 362S ~ Technology and Communities ~ 4 credits
A service learning course in which students apply design, network, database or programming skills to assist nonprofit organizations and community agencies. Past projects include: Websites, CDROMs, and print graphics; database development; network design and development; and video programming projects. Note: students must also participate in required service placements with hours to be arranged. Prerequisite(s): CST 201 or instructor consent.

CST 371 ~ Ethics in Communication and Technology ~ 4 credits
Investigates through an ethical perspective how communication technology affects our lives. Discusses both the technological and social dimensions of technological change. Using case studies and current events, explores such issues as intellectual property rights, information access and privacy, and the digital divide. Listed as CST 371 prior to Fall 2000. Prerequisite(s): instructor consent.

CST 372 ~ Study at Sea Current Issues ~ 4 credits
Examines how progress in science and technology has affected the cultural, economic and physical ecology of the Pacific Region. Special focus on ethical and social dimensions of technology-based change. Includes classroom instruction and two-month study voyage on board the TS Golden Bear. Also see ESSP 272, CST 482. Prerequisite(s): instructor consent.

CST 377 ~ Internship ~ 1 to 4 credits
Students work with practicing professionals in the community in a volunteer or paid internship that requires critical thinking and specialized telecommunication, multimedia, or applied computing skills. The amount of academic work done, not total hours of internship commitment, determines the amount of academic credit. Prerequisite(s): instructor consent.
CST 395 ~ Special Topics ~ 1-6 credits
Specialized study of a particular topic within the Institute of Communications Science and Technology. May be repeated for additional credit when topics vary and as subjects permit. Prerequisite(s): instructor consent.

CST 395 ~ Special Topics: 3D Animation ~ 4 credits
Teaches students to model, animate, and render using Maya animation tools and techniques. Includes a foundation for developing character animation and special effects sequences. May be repeated for more advanced study. Prerequisite(s): instructor consent.

CST 396 ~ Field Studies ~ 1-6 credits
Student and faculty member select topic of field study and number of credits. Prerequisite(s): instructor consent.

CST 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

CST 397S ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

CST 400 ~ Senior Capstone Project Planning ~ 4 credits
Students create and execute a detailed ICST Capstone project plan with the approval of the student's advising committee. Meets two hours per week for discussion and advisement. Credit/no credit only. Formerly Senior Capstone Project. Prerequisite(s): senior standing in the TAMC major.

CST 401 ~ Capstone Lab ~ 4 credits
Laboratory course supports students during the creation of their Capstone projects and assessment for Capstone outcomes. Meets two hours per week for discussion and advisement. Credit/no credit only. Prerequisite(s): CST 400.

CST 404 ~ Publication Workshop ~ 4 credits
This is an advanced design class dealing with principles of visual hierarchy and the sequencing of information as part of an overall systems approach. The course also focuses on the practical issues of traditional print and emerging electronic production skills. Prerequisite(s): CST 304 or instructor consent.

CST 415 ~ Multimedia Networking ~ 4 credits
Covers design, management, and characteristics of multimedia traffic and its delivery over the Internet, LAN, and WAN. Prerequisite(s): CST 315 or instructor consent.

CST 416 ~ Advanced Networking ~ 4 credits
Focuses on wireless, ATM, personal satellite communications, high-speed Ethernet, and new versions and applications of Internet protocols. Includes hands-on experience with telecommunications equipment. Prerequisite(s): CST 311 or instructor consent.

CST 424 ~ Multimedia Workshop ~ 4 credits
Advanced course covering complex issues brought about through integrated multimedia, Web, print, and video projects. Students explore specialized software used in integrating multimedia applications for complex interactive presentations. May be associated with capstone or service learning projects. Prerequisite(s): CST 324 or instructor consent.

CST 431 ~ Advanced Computer Graphics: Selected Topics and Projects ~ 4 credits
Project-based course discusses ray tracing and modeling with splines and nurbs and includes a semester-long project which can evolve into a senior capstone project. Prerequisite(s): some calculus and algebra, CST 331, or instructor consent.

CST 432 ~ Advanced Computer Imaging: Selected Topics and Projects ~ 4 credits
Discusses areas of image understanding and frequency domain analysis of images. Focuses on the analysis, design, and implementation of imaging tools. Prerequisite(s): some calculus and algebra, CST 331 or CST 332, or instructor consent.

CST 434 ~ Advanced Systems Administration ~ 4 credits
Focuses on UNIX Systems Administration and is designed to be a sequel to the CST334 Unix and X-Windows course. Covers advanced topics related to setup, configuration, and maintenance of UNIX servers, including system security, Perl scripts, and server backups. Prerequisite(s): CST 334 or instructor consent.

CST 442 ~ Advanced Instructional Design ~ 4 credits
Application of systematic instructional design and development techniques. Student functions as an instructional planner and performs key instructional design/product development tasks; assessing instructional needs and developing detailed design specifications, prototypes, and final instructional products. Emphasis on developing products for incorporation into an instructional design portfolio. Prerequisite(s): CST 342 or instructor consent.

CST 443 ~ Multimedia Instruction Practicum ~ 4 credits
Applies computer-based delivery systems, multimedia tools, and resources to develop interactive, multimedia solutions specific to communications problems. Prerequisite(s): CST 341 or instructor consent.

CST 451 ~ Web Production ~ 4 credits
Web-based design and project management continuing the development of skills and techniques introduced in CST 351. Includes integration of GIF animation, JavaScript, Acrobat, Shockwave, audio, and video. Prerequisite(s): CST 351 or equivalent, or instructor consent.

CST 472 ~ Video and Teleconferencing Practicum ~ 4 credits
Students manage and produce multimedia presentations and video conferencing solutions to communications problems. Prerequisite(s): CST 321 or CST 324 or CST 351, instructor consent.

CST 482 ~ Study at Sea Global Communications ~ 4 credits
Overview of global communications technologies with special emphasis on satellite and wireless communications including marine and amateur applications. Examines technologies and issues in developing regions. Prepares students to receive a General Radio License. Includes two-month study voyage on board the TS Golden Bear. Also see ESSP 272, CST 372. Prerequisite(s): instructor consent.

CST 596 ~ Field Studies ~ 1-6 credits
Student and faculty member select advanced topic of field study and number of credits. Prerequisite(s): instructor consent.

CST 597 ~ Independent Study ~ 1-6 credits
Student and faculty member select advanced topic of study and number of credits. Prerequisite(s): instructor consent.

CST 597S ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

CST 600 ~ Graduate ProSeminar ~ 4 credits
Introduction to e-commerce, information technology, and research methodology. Prerequisite(s): instructor consent.

CST 610 ~ Web-based System Analysis and Design ~ 4 credits
Focuses on analysis of the acquisition, development, and evaluation of a web-based information system. Formal methodologies are introduced to improve the system planning, analysis, and architecture design. Usability test of the system and human-computer interaction issues are examined. Prerequisite(s): CST 251 or CST 351, or instructor consent.

CST 640 ~ Electronic Commerce: System Management and Strategy ~ 4 credits
Analysis of electronic commerce systems and technologies with the strategic needs of system administrator and management. Focuses on e-commerce, information technology, and research methodology. Prerequisite(s): instructor consent.

CST 650 ~ Electronic Commerce: Web-based System Analysis and Design ~ 4 credits
Focuses on analysis of the acquisition, development, and evaluation of a web-based information system. Formal methodologies are introduced to improve the system planning, analysis, and architecture design. Usability test of the system and human-computer interaction issues are examined. Prerequisite(s): CST 251 or CST 351, or instructor consent.

CST 651 ~ Venture Formation and Financial Strategy ~ 4 credits
Examines venture formation and growth following completion of a business plan. Focuses on ongoing marketing, decision making, and accounting and financial management. Students examine startup and growth management issues faced by real-life ventures and meet with entrepreneurs, small business lawyers, andaccountants, and investors. Students also receive assistance in approaching potential sources of capital and other resources. Prerequisite(s): either MIE 307 for non-MIE majors, or instructor consent.
CST 655 ~ Electronic Commerce: Design and Development ~ 4 credits
Electronic commerce (e-commerce) has emerged as a crucial business medium allowing a business to expand markets, offer instant service, and forge close links with customers, partners, and vendors. Course provides both the strategic and technical essentials of developing an e-commerce initiative. Students gain hands-on experience using hardware and system software, and learn various technology and design issues by building a prototype of an e-commerce site. Prerequisite(s): MIE 308, MIE 363 for concurrent enrollment, or instructor consent.

CST 660 ~ Organizational Behavior in Knowledge-Based Organizations ~ 4 credits
Explores individual and organizational behavior in the context of the knowledge-based company environment, including structures, processes, and systems. Knowledge areas include: communication, group dynamics, organization change and development, conflict and conflict resolution, multicultural diversity, ethics, leadership, and decision making. Abilities to apply include communication skills, decision making, problem solving, and teamwork, including understanding of cross-cultural differences. Prerequisite(s): MIE 305 or instructor consent.

CST 670 ~ Database Management: Methods and Applications ~ 4 credits
Examines database design and implementation using microcomputer database tools. Discusses data management concepts and terminology currently in practice in the business world, including data and database administration, fundamentals of database management system and models (network, hierarchical and relational), data sharing, retrieval, data dictionaries, data proliferation, data integrity, and queries using SQL. Prerequisite(s): MIE 308 and MIE 363, or instructor consent.

CST 690 ~ Strategic Management ~ 4 credits
Examines issues and cases in business leadership and strategy, critical and systems thinking and learning, and leadership in facilitating strategic change. Describes the strategic-management process; explains the need for integrating analysis and intuition in strategic management; discusses the nature of strategy formulation, implementation, and evaluation activities; explores why good ethics is good business in strategic management. Prerequisite(s): instructor consent.

CST 700 ~ Graduate Capstone ~ 4 credits
A capstone contributes to the disciplines or the professions by adding to technical/professional knowledge or by providing an original application of technical/professional knowledge in the professional field. Examples include a field study, a project, applied research, or a professional article of publishable quality. Prerequisite(s): instructor consent.

ED 550 ~ Health Education for the Classroom Teacher ~ 2 credits
Focus is on health topics as they relate to the teaching and learning environments (preschool to adult). Current issues and problems of individual, family, and community health concerns are identified in the social and school context. Theories, organization, methods, and materials for the understanding and the teaching of health education are explored. This course fulfills the California health education requirement for the clear credential. The state CPR requirement is not part of this course.

ED 560 ~ Mainstreaming the Exceptional Child ~ 3 credits
Provides participants with the required competences to assist in teaching exceptional students and information needed to meet federal and state mandates for serving children and youth with disabilities in schools. The course includes exploration of educational laws, IEP, service delivery systems, modification of instructional methods, and assessment processes to support inclusion and mainstreaming of students with exceptionalities in regular education environments. Fulfills state requirement for clear credential.

ED 575 ~ Teacher's Academy ~ 2 credits
Practical applications of teaching theory, methodology, and pedagogy of learning. This course is taught by university professor(s), local classroom teachers, and specialists in the field of K-12 teaching. Content covers classroom management, lesson plans, ED law, and instructional strategies in curriculum content areas with a special emphasis on SDAIE and EDIE tactics for teaching in our diverse population.

ED 590 ~ Remedies for Reading Disability ~ 2 credits
An in-depth study of remedies for reading disability including students of dyslexia. Strategies for building phonemic awareness and analytic language instruction for students with reading disabilities. (Off campus—Chartwell School, Monterey.)

ED 591 ~ Phonics and Beyond ~ 2 credits
An in-depth study of the importance of explicit, multisensory phonics instruction in developing literacy skills. Both phonics theory and practical suggestions will be covered in this class. The final day will address derivational morphology as another important language structure in reading and spelling development. (Off campus—Chartwell School, Monterey.)

ED 592 ~ Reading Academy ~ 3 credits
Focus will be on examining the different reading models for best practices in teaching reading to K-8 students based upon the new reading standards and the reading/language arts framework.

ED 593 ~ Math Academy ~ 3 credits
Focus will be on examining best practices for the teaching of math to K-8 students. Participants will address and correlate the new curriculum math standards through teaching for concept understanding, problem solving, and critical thinking.

ED 594 ~ Science Academy ~ 3 credits
Focus will be on examining best practices for the teaching of science to K-8 students. Participants will address the new curriculum science standards through teaching science as a hands-on, experiential learning experience. Science programs that promote learning through a constructivist approach will be explored.

ED 595 ~ Special Topics ~ 1-8 credits
Studies a particular topic in education. May be repeated for credit when topics vary. Prerequisite(s): admission to CIAD/BCIAD credential program and instructor consent.

ED 596 ~ Seminar on Transformative Literacy ~ 4 credits
An invitation to build cross-cultural linguistic experiences with Zapotec traditions in Teotitlan del Valle, Oaxaca, Mexico. Participants will explore the many dimensions of transformative Education with seminar focus on teachers as researchers, co-teaching in local schools, and indigenous/family knowledge. (Off campus—Mexico.) Prerequisite(s): Completed application packet and instructor approval.

ED 597 ~ Independent Study ~ 1-6 credits
Student and faculty member select advanced topic of study and number of credits. Prerequisite(s): admission to CIAD/BCIAD credential program and instructor consent.

ED 598 ~ Instructional Strategies Through MI for English Language ~ 3 credits
This course will strengthen the practicing classroom teacher’s expertise in teaching various instructional strategies (bilingual methodology, SDAIE, ELD, reciprocal teaching) through Integrated Thematic Instruction (ITI) in multiple curricular areas for English language learners.

ED 601 ~ Stage I Student Teaching ~ 3 credits
Includes observation, participation, planning, and practice teaching in public school classrooms. Discusses issues, concerns, and solutions to problems encountered in practice teaching. Requires a minimum of 160 hours of collaborative work in school classrooms. Prerequisite(s): admission to CIAD/BCIAD credential program or director’s consent. Corequisite(s): ED 602.

ED 602 ~ Stage I Student Teaching Seminar ~ 1 credit
Discusses issues, concerns, and problems arising from student teaching for analysis and problem solving. Links theory to practice. Prerequisite(s): admission to CIAD/BCIAD credential program or director’s consent. Corequisite(s): ED 601.

ED 603 ~ Stage II Student Teaching ~ 8 credits
Continuation of Student Teachers’ field-based experience in their own classroom. The Student Teacher will have full responsibility for planning and instruction in all subject areas at their grade level. The cooperating teachers and university supervisor will support the Student Teacher. Includes a minimum of 280 contact hours in school classrooms. Prerequisite(s): admission to CIAD/BCIAD credential program or director’s consent. Corequisite(s): ED 604.

ED 604 ~ Stage II Student Teaching Seminar ~ 1 credit
Discuss issues, concerns, and problems arising from student teaching for analysis and problem solving. Links theory to practice. Prerequisite(s): admission to CIAD/BCIAD credential program or instructor consent. Corequisite(s): ED 603.

ED 605 ~ Social Studies and Science Methods ~ 4 credits
Introduces students to theory and practice for teaching science and social studies. Students identify appropriate methods and resources for each subject area, and also learn how they may be integrated in elementary classrooms.

ED 609 ~ Math Methods ~ 3 credits
Introduces students to theory and practice for teaching mathematics in elementary classrooms. Helps students further their understanding of the mathematics they will be teaching as well as how to teach it. Includes four hours of coursework and two hours of fieldwork weekly for the first ten weeks of an academic semester.

ED 611 ~ Teaching and Learning ~ 3 credits
Introduces the learning process in public schools. Examines the connection between human development learning strategies and cultural context, and the psychological principles underlying culturally congruent pedagogy. Includes four hours of coursework and two hours of fieldwork weekly for the first ten weeks of an academic semester. Prerequisite(s): admission to CIAD/BCIAD credential program or instructor consent.
ED 612 ~ Pedagogy for Linguistic Diversity ~ 3 credits
Examines the issues and solutions involved in the education of students from diverse language backgrounds. Develops an understanding of the historical, social, legal, and political foundations of language minority education. Explores the theoretical foundations of language acquisition and develops strategies and approaches for working effectively with English learners. Includes four hours of coursework and two hours of fieldwork weekly for the first ten weeks of an academic semester. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent.

ED 615 ~ Methodology for Bilingual Instruction ~ 3 credits
Examines the philosophical assumption of the models and organization of bilingual instruction and their effectiveness with students of diverse backgrounds. Discusses research in dual-language instruction and the application of research in instructional planning. Includes four hours of classroom experience and two hours of fieldwork weekly for the first ten weeks of an academic semester. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent.

ED 616 ~ Language and Literacy Across the Curriculum I ~ 3 credits
Introduces approaches to the development of language and literacy in an elementary school. Develops the theoretical foundations of literacy development and the skills and strategies for teaching reading and writing school across the curriculum. Includes four hours of classroom experience weekly and two hours of fieldwork for the first ten weeks of an academic semester. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent.

ED 617 ~ Language and Literacy Across the Curriculum II ~ 3 credits
Introduces approaches to the development of language and literacy in an elementary school. Develops the theoretical foundations of literacy development and the skills and strategies for teaching reading and writing to students. Includes four hours of classroom experience weekly and two hours of fieldwork for the first ten weeks of an academic semester. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent.

EDI 601 ~ Stage I Student Teaching ~ 3 credits
Includes observation, participation planning, and practice teaching in public school classrooms. Discusses issues, concerns, and solutions to problems encountered in practice teaching. Class contact time and attendance differs substantially from general patterns of class attendance. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent; enrollment is restricted to candidates admitted to CSUMB Teaching Internship Program (CTIP). Corequisite(s): EDI 602.

EDI 602 ~ Student Teaching/Seminar ~ 1-2 credits
The course is for the continuation of Intern Teachers' field-based experiences in their own classroom. The Intern Teacher will have full responsibility for planning and instruction in all subject areas at their grade level. A district support provider, university supervisor, and site administrator (principal) will support Intern Teacher during this experience. Seminar sessions are held throughout the semester to discuss issues, address concerns, and problem-solve solutions relevant to a new teacher. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent; enrollment is restricted to candidates admitted to CSUMB Teaching Internship Program (CTIP).

EDI 603 ~ Student Teaching/Internship ~ 8 credits
For the continuation of the Intern Teachers' field-based experience in their own classrooms. Intern Teacher will have full responsibility for planning and instruction in all subject areas at their grade level. A district support provider, university supervisor, and site administrator (principal) will support Intern Teacher during this experience. As part of this course, students are to engage in classroom simulations and in the field. Includes three hours of classroom experience weekly. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent; enrollment is restricted to candidates admitted to CSUMB Teaching Internship Program (CTIP).

EDI 604 ~ Student Seminar ~ 1 credit
Discuss issues, concerns, and problems arising from student teaching for analysis and problem-solving. Links theory to practice and practice to theory. Class contact time differs substantially from general patterns of class attendance.

EDI 609 ~ Math Methods ~ 3 credits
Introduces students to theory and practice for teaching mathematics in elementary classrooms. Helps students further understand the teaching of mathematics they will be teaching as well as how to teach it.

ED 611 ~ Teaching and Learning ~ 3 credits
Introduces the learning process in public schools. Examines the connection between learning strategies and cultural context and the psychological principles underlying culturally congruent pedagogy. Includes three credit hours of coursework and two hours of fieldwork weekly. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent; enrollment is restricted to candidates admitted to CSUMB Teaching Internship Program (CTIP).

EDI 616 ~ Language and Literacy Across the Curriculum I ~ 3 credits
This course introduces approaches to the development of language and literacy in an elementary school. Develops the theoretical foundations of literacy development and the skills and strategies for teaching reading and writing across the school curriculum. Prerequisite(s): admission to CLAD/BCLAD credential program or instructor consent; enrollment is restricted to candidates admitted to CSUMB Teaching Internship Program (CTIP).

EDI 617 ~ Language/Literacy Curriculum ~ 3 credits
Course description not available; contact program office.

ESSP 110 ~ Chemistry I ~ 3 credits
Develops problem-solving skills related to the nature of matter, chemical reactions, stoichiometry, gases, energy transformations, atomic and molecular structure, and chemical bonding. Fall and spring semesters. Prerequisite(s): MATH 99 or equivalent. Corequisite(s): ESSP 110L.

ESSP 110L ~ Chemistry I Laboratory ~ 1 credit
Required lab course for ESSP 110. Corequisite(s): ESSP 110.

ESSP 111 ~ Chemistry II ~ 3 credits
Develops problem-solving skills related to solutions, thermodynamics, kinetics, chemical equilibrium, acids and bases, organic chemistry, electrochemistry, metal complexation, and nuclear chemistry. Required of all ESSP majors. Fall and spring semesters. Prerequisite(s): ESSP 110 and ESSP 110L or equivalents. Corequisite(s): ESSP 111L.

ESSP 111L ~ Chemistry II Laboratory ~ 1 credit
Required laboratory course for ESSP 111. Corequisite(s): ESSP 111.

ESSP 122 ~ Integrated Physical Science ~ 4 credits
Introduction to the basic principles of physical science and application of these principles in modern society. Specific topics include: nature, properties, and reactions of matter; objects at rest and in motion; energy and power; fluids, heat, light, sound; electricity, and magnetism. Course will emphasize conceptual understanding and the scientific process in an active learning environment. For non-science majors. Fall and spring semesters. Prerequisite(s): MATH 99 or equivalent.

ESSP 197 ~ Independent Study ~ 1-6 credits
Independent Study for first-year students. Students must obtain the signature/approval of their independent study supervisor before enrolling in ESSP 197. Prerequisite(s): instructor consent.

ESSP 200 ~ Nature Photography ~ 4 credits
How to photograph animals, plants, and other natural subjects. Explores images of nature as tools for communicating with diverse audiences. Students must supply camera with manual exposure and film/processing (or disks). Spring semester.
ESSP 201 ~ The Nature of Science ~ 3 credits
Introduces science as a method of studying and understanding the manifest universe. Promotes critical thinking, problem solving, and scientific literacy through an understanding of the process and product of scientific inquiry. For non-science majors. Fall and spring semesters.
Prerequisite(s): ENGLCOM URF part A and completion of MATH 95 or MATH 99, or equivalents.
Corequisite(s): ESSP 201.

ESSP 201L ~ The Nature of Science Laboratory ~ 1 credit
Required lab course for ESSP 201.
Corequisite(s): ESSP 201.

ESSP 202 ~ Human Interactions with the Environment ~ 4 credits
Surveys local and global environmental problems and solutions including water resources, human population growth, biodiversity, pollution, and recycling. For non-science majors.
Spring semester.
Prerequisite(s): ENGLCOM URF part A and completion of or concurrent enrollment in MATH 100 or MATH 130, or equivalents. Completion of ESSP 201 strongly recommended.

ESSP 204 ~ Introduction to Life Sciences ~ 4 credits
Emphasizes life sciences using hands-on activities to learn about cells, biological evolution, molecular and ecological interdependence of organisms, energy and organization in living systems, and molecular biology. For non-science majors. Fall and spring semester.
Prerequisite(s): MATH 100 or MATH 130, and CST 101, or equivalents.

ESSP 220 ~ Physics I ~ 3 credits
Emphasizes computer-based applications, active and experiential learning, and laboratory exercises. Topics covered include motion, mechanics, energy, fluids. Fall and spring semesters.
Prerequisite(s): MATH 155 and ESSP 110 and ESSP 110L, or equivalents, or instructor consent.
Corequisite(s): ESSP 220L.

ESSP 220L ~ Physics I Lab ~ 1 credit
Required lab course for ESSP 220.
Corequisite(s): ESSP 220.

ESSP 221 ~ Physics II ~ 3 credits
Covers topics in electricity, magnetism, and optics. Emphasizes active and experiential learning, lab-based activities, and practical applications. Spring semester of even years.
Prerequisite(s): ESSP 220 or equivalent.
Corequisite(s): ESSP 221L.

ESSP 221L ~ Physics II Lab ~ 1 credit
Required laboratory course for ESSP 221.
Prerequisite(s) ESSP 220 and ESSP 220L, or equivalents.
Corequisite(s): ESSP 221.

ESSP 230 ~ Electronic Projects for MATE ~ 4 credits
An introduction to practical electronics and environmental measurement for students enrolling through the Marine Advanced Technology and Education (MATE) Center. Students design, build, and test their own electronic instruments to record environmental variables. Fall semester of even years.
Prerequisite(s): ESSP 221 and MATH 156, or equivalents; instructor consent.
Corequisite(s): ESSP 230L.

ESSP 230L ~ Electronic Projects for MATE Lab ~ 1 credit
Required laboratory course for ESSP 230. Fall semester of even years.
Corequisite(s): ESSP 230.

ESSP 231 ~ Marine Robotics for MATE ~ 4 credits
An introduction to practical marine electronics for students enrolling through the Marine Advanced Technology and Education (MATE) Center. Students design, build, and test small remotely operated underwater vehicles (ROV's). Fall semester of odd years.
Prerequisite(s): ESSP 221 and MATH 156, or equivalents; instructor consent.
Corequisite(s): ESSP 231L.

ESSP 231L ~ Marine Robotics for MATE Lab ~ 1 credit
Required laboratory course for ESSP 231. Fall semester of odd years.
Corequisite(s): ESSP 231.

ESSP 240 ~ Biology 1: Ecology, Evolution, and Biodiversity ~ 3 credits
Examines the evolutionary and ecological relationships of organisms with their environment, as well as the breadth of biologically diversity. Applies biological principles to earth systems science and policy. Fall and spring semesters.
Prerequisite(s): ESSP 110 and ESSP 110L, or equivalent.
Corequisite(s): ESSP 240L.

ESSP 240L ~ Biology 1 Laboratory ~ 1 credit
Required lab course for ESSP 240. Focus is on doing scientific experiments and writing in the scientific style.
Corequisite(s): ESSP 240.

ESSP 241 ~ Biology II: Cells, Genetics, and Organisms ~ 3 credits
Introduces cellular and molecular biology, plant and animal physiology and development, and principles of genetics. Fall semester of odd years.
Prerequisite(s): ESSP 111 and ESSP 111L, or equivalents.

ESSP 241L ~ Biology II: Cells, Genetics, and Organisms ~ 1 credit
Laboratory course for ESSP 241. Required of students in biological science teacher preparation concentration. Fall semester of odd years.
Corequisite(s): ESSP 241.

ESSP 260 ~ Geology and Hydrology ~ 3 credits
Introduction to geology and hydrology in the Monterey Bay area. Includes the rock cycle, weathering and erosion, soil formation, mass wasting (landslides), the hydrologic cycle, and plate tectonics. May include one or more weekend field trips. Fall and spring semesters.
Prerequisite(s): ESSP 110 and ESSP 110L, or equivalents.
Corequisite(s): ESSP 260L.

ESSP 260L ~ Geology and Hydrology ~ 1 credit
Required lab course for ESSP 260.
Corequisite(s): ESSP 260.

ESSP 271 ~ The Oceans ~ 2 credits
Physical, chemical, biological, and geological features of the earth's oceans. Greater emphasis will be placed upon regional oceanic characteristics. Fall and spring semesters.
Prerequisite(s): ESSP 110 and MATH 130, or equivalents.

ESSP 272 ~ The Atmosphere ~ 2 credits
Introduction to the chemical and physical nature of the atmosphere. Topics include weather and climate, storms, general air circulation, descriptive meteorology, clouds, and atmosphere-ocean interactions. Fall and spring semesters.
Prerequisite(s): ESSP 110 and MATH 130, or equivalents.

ESSP 280 ~ Economics, Policy, and Management: Earth Systems Applications ~ 4 credits
Examines the principles of economics, natural resource limitations and management, and the role of science in public policy decision making with a focus on environmental stewardship and sustainability. Students apply economic theory and analysis to evaluate environmental problems and policies, particularly in marine and coastal ecosystems. Fall and spring semesters.
Prerequisite(s): MATH 155 or equivalent.

ESSP 282 ~ Monterey Bay: A Case Study in Environmental Science and Policy ~ 4 credits
Introduces the physical, biological, and geological sciences of the Monterey Bay area. Discusses human impacts on the region and the state and federal policies established to protect the Monterey Bay region. For nonscience majors. Fall semester.

ESSP 285 ~ Harvesting Our Food: Fisheries and Agriculture ~ 4 credits
This writing-intensive course looks at the environmental and human effects of marine fisheries and agriculture. Students reflect on their own connections to these food industries while reading and discussing work written by environmentalists and those who labor to bring food to our tables. Spring semester.
Prerequisite(s): PROS 100.

ESSP 294 ~ Lower-Division Internship ~ 1 or 4 credits
Students work with practicing professionals in the community in a volunteer or paid internship that does not require specialized science, policy, or technical skills. The amount of academic work done, not total hours of internship commitment, determines the amount of academic credit.

ESSP 295 ~ Special Topics in Earth Systems Science & Policy ~ 2-4 credits
Studies a particular topic in Earth Systems Science & Policy. May be repeated for credit when topics vary.
Prerequisite(s): varies with different topics.

ESSP 297 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

ESSP 300 ~ Reading, Writing, and Critical Thinking in Earth Systems Science & Policy ~ 4 credits
Introduces students to the modes and methods of scientific written discourse and library research skills that they will need to complete their senior capstone project. Students develop a learning plan that integrates their ESSP concentration, capstone interests, and personal and professional goals. Fall and spring semesters.
Prerequisite(s): Part 1 of ENGCOM URF.
ESSP 301 ~ Ecosystem Services: Scientific and Economic Analyses ~ 4 credits
Analyzes the services and goods provided by natural ecosystems in Monterey Bay. Explores the scientific framework of ecosystem services, their disruption or disturbance, economic and ecological values, methods of analyzing these values, and policy implications. Fall semester. Prerequisite(s): MATH 155, ESSP 240, ESSP 260, and ESSP 280, or equivalents; STAT 250 recommended.

ESSP 303 ~ California Transect Orientation ~ 2 credits
Mandatory orientation for ESSP 303L. This classroom component of California Transect prepares students for the summer field course (ESSP 303L) by introducing topics and issues in California ecology, geology, resources, and policy that will be examined in detail during the summer field course (ESSP 303L). Spring semester. May require one weekend fieldtrip. Prerequisite(s): ESSP 240, ESSP 260, and ESSP 280, or equivalents.

ESSP 303L ~ California Transect ~ 3 credits
Two-week summer field course. This course will be taught in a case-studies framework emphasizing the interaction between natural processes and human impacts. Summer course involves camping and hiking. Fee charged for food, transportation, and camping fees. Prerequisite(s): ESSP 303 and instructor consent.

ESSP 304 ~ Environmental Geology for Teachers ~ 3 credits
Inquiry-driven study of California geology and geologic hazards such as earthquakes, landslides, floods, and volcanoes. Includes focus on water resources and contamination and the development of science projects suitable for K-12 science classes. Fall and spring semesters. Prerequisite(s): MATH 99 or equivalent. Corequisite(s): ESSP 304L.

ESSP 304L ~ Environmental Geology for Teachers Lab ~ 1 credit
Required lab course for ESSP 304. Corequisite(s): ESSP 304.

ESSP 305 ~ Inquiry-Based Life Science for Teachers ~ 3 credits
Focuses on the methodology of science appropriate to K-12 education. Familiarizes future teachers with observing, questioning, testing and interpreting by using the neighborhood as a laboratory. Engages in problem-solving activities and the design of experiments children will understand. Uses current technology to develop bicultural/bilingual instructional materials. Prerequisite(s): CST 101 and MATH 99, or equivalents; Part 2 of SCI LIR. Corequisite(s): ESSP 305L.

ESSP 305L ~ Inquiry-Based Life Science for Teachers Lab ~ 1 credit
Required lab course for ESSP 305. Corequisite(s): ESSP 305.

ESSP 308 ~ Aquaculture and Fisheries Systems ~ 4 credits
Case study examination of the ecological, economic, and regulatory aspects of aquaculture and fishing. Analyzes the linkages between fisheries and aquaculture systems and applies statistical and modeling methodologies to examine environmental and economic interactions. Spring semester of odd years. Prerequisite(s): ESSP 111, ESSP 240, ESSP 280, MATH 155, or equivalents; STAT 250 recommended.

ESSP 309 ~ Science and Policy of Global Change ~ 4 credits
Examines the scientific, economic, and political dimensions of global climate change. Focuses on the "greenhouse effect," global climate change, and the implementation of the Kyoto Protocol in reducing human-induced greenhouse gas emissions. Spring semester of even years. Prerequisite(s): ESSP 240, ESSP 260, and ESSP 280, or equivalents.

ESSP 310 ~ Biochemical Systems ~ 3 credits
Introduces the molecular interactions between organisms and the environment. Models energy and information pathways within and between cells and surroundings. Covers photosynthesis, respiration, biological electron transfer, membrane transport, and biomolecular structure. Assesses the toxicity of aquatic ecosystems through biosassays. Spring semester of odd years if sufficient demand. Prerequisite(s): ESSP 111 and ESSP 240, or equivalents; ESSP 241 recommended. Corequisite(s): ESSP 310L.

ESSP 310L ~ Biochemical Systems Lab ~ 1 credit
Required lab course for ESSP 310. Corequisite(s): ESSP 310.

ESSP 311 ~ Organic Chemistry I ~ 3 credits
Nomenclature, structure, bonding, and reactivity of saturated and unsaturated hydrocarbons, halogenated compounds, and alcohols. Fall semester of even years if sufficient demand. Prerequisite(s): ESSP 111 and ESSP 111L, or equivalents. Corequisite(s): ESSP 311L.

ESSP 311L ~ Organic Chemistry I Lab ~ 1 credit
Required lab course for ESSP 311. Corequisite(s): ESSP 311.

ESSP 312 ~ Organic Chemistry II ~ 3 credits
Examines the analysis and synthesis of organic compounds, with applications to medicine, biochemistry, and environmental science. Spring semester of odd years if sufficient demand. Prerequisite(s): ESSP 311 or equivalent.

ESSP 312L ~ Organic Chemistry II Lab ~ 1 credit
Lab course for ESSP 312. Corequisite(s): ESSP 312.

ESSP 320 ~ Introduction to Systems and Systems Modeling ~ 4 credits
Introduces general systems theory and system dynamics modeling as tools for understanding and predicting causes and patterns of change in biological, physical, economic, political, and other systems. May be taken as an asynchronous online course. Fall and spring semesters. Prerequisite(s): MATH 155, CST 101, ESSP 240, and ESSP 280.

ESSP 330 ~ Electronic Projects for Environmental Measurement ~ 4 credits
An introduction to practical electronics and environmental measurement. Students design, build, and test their own electronic instruments to record environmental variables. Fall semester of even years. Prerequisite(s): ESSP 221 and MATH 156, or equivalents. Corequisite(s): ESSP 330L.

ESSP 330L ~ Electronic Projects for Environmental Measurement Lab ~ 1 credit
Required lab course for ESSP 330. Fall semester of even years. Corequisite(s): ESSP 330.

ESSP 331 ~ Marine Robotics ~ 4 credits
An introduction to practical marine electronics. Students design, build, and test small remotely operated underwater vehicles (ROVs). Fall semester of odd years. Prerequisite(s): ESSP 221 and MATH 156, or equivalents. Corequisite(s): ESSP 331L.

ESSP 331L ~ Marine Robotics Lab ~ 1 credit
Laboratory course for ESSP 331. Fall semester of odd years. Corequisite(s): ESSP 331.

ESSP 332 ~ Introduction to Geographic Information Systems (GIS) and Global Positioning Systems (GPS) ~ 3 credits
Theory and application of spatial data acquisition, analysis, and display using an integrated, hand-on, project-based approach. Covers geographic information systems (ArcView) and Global Positioning System (GPS). Course completion results in ArcView certification from ESRI and GPS Mapping certification from Trimble Navigation (GeoExplorer). Fall and spring semesters. Prerequisite(s): CST 101 or equivalent. Corequisite(s): ESSP 332L.

ESSP 332L ~ Intro to GIS and GPS Laboratory ~ 1 credit
Required lab course for ESSP 332. Corequisite(s): ESSP 332.

ESSP 340 ~ Ecological Systems ~ 3 credits
Introduces ecological concepts and theory by exploring the marine and terrestrial ecosytems of Monterey Bay. A systems approach teaches how organisms interact with one another and with the natural world around them. Course emphasizes population, community, and ecosystem level ecology. Prerequisite(s): ESSP 155 and ESSP 240, or equivalents. Corequisite(s): ESSP 340L.

ESSP 340L ~ Ecological Systems Lab ~ 1 credit
Required lab course for ESSP 340. Corequisite(s): ESSP 340.

ESSP 341 ~ Evolutionary Biology and Population Genetics ~ 3 credits
Introduces ecological concepts and theory by exploring the marine and terrestrial ecosystems of Monterey Bay. A systems approach teaches how organisms interact with one another and with the natural world around them. Course emphasizes population, community, and ecosystem level ecology. Prerequisite(s): ESSP 155 and ESSP 240, or equivalents.
Course Descriptions: Earth Systems Science & Policy

ESSP 342 ~ California Ecosystems ~ 3 credits
Surveys terrestrial and nearshore ecosystems across California. Emphasizes the biotic and abiotic factors that determine the extent of these ecosystems. Plant identification and distribution in ecosystems of the Monterey Bay area. May include one or more weekend field trips. Spring semester of even years.
Prerequisite(s): ESSP 240 and ESSP 260, or equivalents.
Corequisite(s): ESSP 342L.

ESSP 342L ~ California Ecosystems Lab ~ 1 credit
Required laboratory course for ESSP 342. Spring semester.
Corequisite(s): ESSP 342.

ESSP 343 ~ Physical Marine Ecology ~ 4 credits
Replaced by ESSP 443 and 443L.

ESSP 345 ~ Marine Science ~ 3 credits
Introduces marine research topics and environmental issues by exploring the natural history of local marine habitats. Fall semester.
Prerequisite(s): CST 101, ESSP 111, and ESSP 240 or equivalent.
Corequisite(s): ESSP 345L.

ESSP 345L ~ Marine Science ~ 1 credit
Required laboratory course for ESSP 345. Fall semester.
Corequisite(s): ESSP 345.

ESSP 349S ~ Interpreting Monterey Bay Natural History for the Community ~ 4 credits
Focuses on techniques for teaching the natural and cultural history of the Monterey Bay area to different age and cultural groups. Students develop and/or present interpretive products from organizations such as CA State Parks, Bureau of Land Management, and Return of the Natives for school groups.
Prerequisite(s): instructor consent.

ESSP 350 ~ Quantitative Field Methods ~ 3 credits
Project-oriented course covers techniques in statistics, experimental design, and field methodology to characterize the ecological patterns in marine and terrestrial ecosystems. May include one or more weekend field trips. Spring semester.
Prerequisite(s): ESSP 240 and ESSP 260, or equivalents; completion of or concurrent enrollment in STAT 250 or equivalent.
Corequisite(s): ESSP 350L.

ESSP 350L ~ Quantitative Field Methods Lab ~ 1 credit
Required lab course for ESSP 350. Spring semester.
Corequisite(s): ESSP 350.

ESSP 360 ~ Geomorphic Systems ~ 3 credits
Examines past and current geologic processes as reflected in the shape of landforms. Focuses on weathering and erosion, soil formation and classification, river processes, coastal processes, landslides, tectonics, and how landforms reflect changes in climate. May include one or more weekend field trips. Fall semester.
Prerequisite(s): ESSP 240, MATH 155 or equivalent, or instructor consent.
Corequisite(s): ESSP 360L.

ESSP 360L ~ Geomorphic Systems Lab ~ 1 credit
Required lab course for ESSP 360. Spring semester.
Corequisite(s): ESSP 360.

ESSP 369S ~ Community Based Watershed Restoration Service Learning ~ 4 credits
Hands-on watershed restoration, landscape planning and implementation with native plants. Community service experience through projects with schools and community agencies. Spring semester.
Prerequisite(s): SCI UIR.

ESSP 383 ~ Environmental Ethics and Environmental Policy ~ 4 credits
Studies the intellectual framework for thinking about environmental ethics. Develops personal statements of environmental ethics combining analysis with introspection. Applies developing environmental ethics to case studies of environmental problems. Includes collaborative exercises in reading, writing, and critical thinking. Fall semester.
Prerequisite(s): ENGCCOM A UIR, and either ESSP 280 or SCI UIR, and instructor consent.

ESSP 384S ~ Environmental Justice and Environmental Policy Service Learning ~ 5 credits
Analyzes case studies in environmental justice reflecting on students’ personal connection to the issues considered. Questions the identity of those empowered (or not) to control environmental decision making, how power is gained and lost, the burdens of inequitable distribution of resources, and the price of environmental pollution. Service learning placements help students understand course material. Spring semester.
Prerequisite(s): ENGCCOM A UIR, and either ESSP 280 or SCI UIR, instructor consent.

ESSP 385 ~ Social and Environmental History of California ~ 4 credits
Studies past and present human societies and their relationships with the land. Analyses how history can aid in understanding present-day policy issues and political involvement. Fall semester.
Prerequisite(s): Completion of ENGCCOM UIR, instructor consent.

ESSP 386 ~ Science, the Political Process, and the Environment ~ 4 credits
Through case studies, guest speakers, and personal experience, studies how science does or does not inform environmental policymaking. Students will choose either an upper division service learning placement or an internship so that they may deepen their understanding of the issues. Spring semester.
Prerequisite(s): ENGCCOM A UIR and SCI UIR.

ESSP 387 ~ Water Resources Assessment, Law and Policy ~ 4 credits
Explores issues of water resources in western United States as a fundamental factor in economic development and policy. Geologic environments of surface and ground water, quantitative view of the hydrologic balance in the Monterey Peninsula, the development and changing interpretations of water law, policy, and economics. Spring semester.
Prerequisite(s): ENGCCOM A UIR, and SCI UIR or ESSP 260 and 280.

ESSP 394 ~ Junior Internship ~ 1 or 4 credits
Students work with practicing professionals in the community in a volunteer or paid internship that requires critical thinking and specialized science, policy, or technical skills. The amount of academic work done, not total hours of internship commitment, determines the amount of academic credit. Fall and spring semesters.
Prerequisite(s): instructor consent.

ESSP 395 ~ Special Topics in Earth Systems Science & Policy ~ 1-4 credits
Studies a particular topic in Earth Systems Science & Policy. May be repeated for credit when topics vary.
Prerequisite(s): varies with different topics, instructor consent.

ESSP 395S ~ Practicum in Science Education Service Learning ~ 3 credits
Students will adapt or design hands-on science activities for multicultural and multilingual students with diverse learning styles. Addresses fundamental issues about inclusive science curriculum design and pedagogy for multicultural, multilingual student populations.
Prerequisite(s): SCI UIR.

ESSP 396S ~ Environment as Integrated Context for Service and Learning ~ 3 credits
Students will develop the scientific knowledge base and teaching skills to implement environmental education activities and address issues of compassion, diversity, justice, and social responsibility through learning and serving in after-school science programs. Fall semester.
Prerequisite(s): SCI UIR.

ESSP 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

ESSP 397S ~ Independent Study: Earth Systems Service Learning ~ 1-6 credits
Students work with public and private organizations on projects that integrate scientific skills with needs of multicultural communities.
Prerequisite(s): instructor consent.

ESSP 400 ~ Capstone Seminar I ~ 2 credits
Students work with the instructor, their faculty Capstone adviser, and other students to develop a proposal for their Senior Capstone project. Capstone projects must demonstrate an ability to use a systems approach to analyze and/or solve problems in Earth Systems Science & Policy. Fall and spring semesters.
Prerequisite(s): ESSP 300.

ESSP 403 ~ Capstone Seminar II ~ 2 credits
Assists students in completing the Capstone project developed in ESSP 400, including a written Capstone report and an oral presentation to ESSP faculty and students. Fall and spring semesters.
Prerequisite(s): instructor consent.

ESSP 423 ~ Signal Processing ~ 4 credits
Introduces the analysis and applications of signals, systems, and time-series data. Applies signal processing and the location, analysis, interpretation, and enhancement of signals in communications, geophysics, biology, speech, and acoustics using Matlab. Covers fast Fourier transform, digital filters, convolution, sampling and reconstruction, and spectral estimation. Spring semester of odd years.
Prerequisite(s): MATH 156 or equivalent, one course in statistics, or instructor consent.
Course Descriptions: Earth Systems Science & Policy

ESSP 433 ~ Applications of Marine Science Technologies ~ 3 credits
Project-based course applies advanced technologies for data acquisition, analysis and display to current marine research initiatives and environmental issues. Hands-on application of sidescan and multibeam sonar; Geodetic Information Systems (GIS); quantitative video; habitat mapping, computer modeling, remote sensing, image processing, hydrographic mapping, and Global Positioning System (GPS). Prerequisite(s): ESSP 220 and ESSP 332, or equivalents; ESSP 345 strongly recommended. Corequisite(s): ESSP 433.

ESSP 433L ~ Applications of Marine Science Technologies ~ 1 credit
Required lab course for ESSP 433
Corequisite(s): ESSP 433.

ESSP 434 ~ Introduction to Remote Sensing and Image Processing ~ 2 credits
Introductory applications of geospatial information technology and geodata manipulation and analysis, including remote sensing, aerial photography, image processing, georeferencing, and georecertification. Course completion results in remote sensing and image processing certification from Microlmage Technologies (ITM) and/or equivalents.

ESSP 440 ~ Ecological Modeling ~ 4 credits
Covers the fundamentals of dynamic ecosystem modeling including the uses and limitations of modeling, fundamentals of model building, and analytic and computer modeling methods. Autumn semester of even years. Prerequisite(s): ESSP 156, ESSP 320, and either ESSP 340 or 342, or equivalents.

ESSP 442 ~ Vernal Pools of Fort Ord ~ 2 credits
This field-oriented course is an in-depth exploration of a local, threatened ecosystem. Students gain experience doing science research projects and becoming primary scientific literature on vernal pool organisms, ecology, chemistry, and soils. Focuses on organismal taxonomy. May include weekend or odd-hour field trips. Spring semester of odd years. Prerequisite(s): ESSP 350 or equivalent; recommended completion of ESSP 340, ESSP 342, or ESSP 360. Corequisite(s): ESSP 442L.

ESSP 442L ~ Vernal Pools of Fort Ord Lab ~ 2 credits
Required lab course for ESSP 442
Corequisite(s): ESSP 442.

ESSP 443 ~ Physical Marine Ecology ~ 3 credits
Examines how differences in the physical properties of water and air have produced differences in the shape, behavior, physiology, and ecology of animals and plants living in the oceans compared to those living on land. Fall semester of odd years. Prerequisite(s): MATH 156, ESSP 220, ESSP 240, and ESSP 340, or equivalents.

ESSP 443L ~ Physical Marine Ecology Lab ~ 1 credit
Required lab course for ESSP 443
Corequisite(s): ESSP 443.

ESSP 460 ~ River Hydrology, Assessment, and Monitoring ~ 3 credits
Applied topics in watershed, stream and hillslope hydrology within the context of river management. Covers physical river assessment and monitoring, and the physical equations and field measurement of surface and subsurface flow, hydrodynamics, flood frequency, landscape erosion, and sediment transport.

ESSP 460L ~ River Hydrology Lab ~ 1 credit
Required lab course for ESSP 460
Corequisite(s): ESSP 460.

ESSP 461 ~ Watershed Systems Restoration ~ 3 credits
Explores the rehabilitation and management of damaged ecosystems focusing on rivers, estuaries, and wetlands. Covers the systems approach, ecological principles, hydrologic processes, soils, erosion, and improvement structures. Emphasizes real situations using case studies and experimental restoration work. Includes several weekend field trips. Spring semester of odd years.

ESSP 461L ~ Watershed Systems Restoration Lab ~ 1 credit
Required lab course for ESSP 461
Corequisite(s): ESSP 461.

ESSP 494 ~ Capstone Internship ~ 1 or 4 credits
Students work with professionals in the community in a volunteer or paid internship that culminates in an ESSP capstone project. The amount of academic work done, not total hours of internship commitment, determines the amount of academic credit.

ESSP 495 ~ Special Topics in Earth Systems Science & Policy ~ 2-6 credits
Studies a particular topic in Earth Systems Science & Policy. May be repeated for credit when topics vary.

ESSP 497 ~ Capstone Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.

ESSP 497S ~ Capstone Independent Study: Earth Systems Service Learning ~ 2-4 credits
Enables students to integrate citizenship, academic subjects, skills, and values into their Senior Capstone projects. Students work with public and private organizations on projects that integrate scientific skills with needs of multicultural communities. Students maintain weekly journals covering self, community, public education, and professional community responsibility.

ESSP 532 ~ Introduction to Geographic Information Systems (GIS) and Global Positioning Systems (GPS) ~ 3 credits
Theory and application of spatial data acquisition, analysis, and display using an integrated, hard-on, project-based approach. Covers Geographic Information Systems (ArcView) and Global Positioning Systems (GPS). Course completion results in ArcView certification from ESRI and GPS Mapping certification from Trimble Navigation. Requires advanced research project. Students who have completed ESSP 332 may not enroll for credit. Fall and spring semesters.

ESSP 532L ~ Intro to GIS and GPS Laboratory ~ 1 credit
Required lab course for ESSP 532
Corequisite(s): ESSP 532.

ESSP 534 ~ Introduction to Remote Sensing and Image Processing ~ 2 credits
Introduction to remote sensing and image processing. Examines the reconstruction of real-world features from remotely acquired images. Prerequisite(s): ESSP 416 or equivalent.

ESSP 534L ~ Introduction to Remote Sensing and Image Processing Lab ~ 1 credit
Corequisite(s): ESSP 534.

ESSP 536 ~ Advanced Remote Sensing and Image Processing ~ 2 credits
Advanced applications of geospatial information technology and geodata manipulation and analysis, optical and radar remote sensing, image processing, and quantitative information extraction from multispectral and/or multiparameter radar image data. Requires advanced research project. Students who have completed ESSP 434 may not enroll for credit.

ESSP 561 ~ Watershed Systems Restoration ~ 3 credits
Explores the rehabilitation and management of damaged ecosystems focusing on rivers, estuaries, and wetlands. Covers the systems approach, ecological principles, hydrologic processes, soils, erosion, and improvement structures. Emphasizes real situations using case studies and experimental restoration work. Includes several weekend field trips. Focuses on individual research required. Spring semester of even years.

ESSP 561L ~ Watershed Systems Restoration Lab ~ 1 credit
Required lab course for ESSP 561
Corequisite(s): ESSP 561.

ESSP 595 ~ Special Topics in Earth Systems Science & Policy ~ 1-6 credits
Studies a particular topic in Earth Systems Science & Policy. May be repeated for credit when topics vary.

Prerequisite(s): varies with different topics; instructor consent.
Course Descriptions:

GS 195 ~ Water and Humanity ~ 8 credits
Learning community on water and humanity. Examines the scientific, ecological, social, cultural, economic, political & ethical issues related to water usage, access, pollution, and conservation. Examines water-related issues at local, state, regional, national and global levels. Combines classroom learning with field studies on how to prevent further degradation of water sources and how to promote water resources management, biodiversity, environmental justice and equitable access to clean water. Corequisite(s): GS 195.

GS 195L ~ Water and Humanity Lab ~ 1 credit
Laboratory on technology and information aspects of GS 195 Learning Community. Corequisite(s): GS 195.

GS 196 ~ Field Studies ~ 1-6 credits
Individualizes student placement for field study as related to global studies. Prerequisite(s): instructor consent and global studies faculty approval.

GS 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

GS 200S ~ The Politics of Everyday Life ~ 6 credits
Looks at contemporary political life by recognizing the public, historical, and political dimensions of daily life. Examines American government and politics by analyzing historical and political events which affect people’s daily lives. Focuses on power, control, alienation, decision making, and obedience to the laws and structures that govern people’s lives. Course completion meets the Title V requirements of U.S. history. U.S. Constitution, and California government.

GS 300 ~ Major ProSeminar and Professional Assessment Lab ~ 4 credits
Introduces students to the global studies major, its requirements, outcomes, activities, and how these are assessed and assessed. Helps students acquire and develop the knowledge, skills, and understanding needed to fulfill Major Learning Outcomes. Assesses students' prior learning, special skills, learning styles, career, and goals to create a global studies faculty-approved learning plan. Also introduces students to research methods for Global Studies. Required for global studies majors.

GS 305 ~ Practicum/Assessment ~ 1-6 credits
Practicum for assessment of prior learning and all independent assessments in the major. Prerequisite(s): instructor consent.

GS 310 ~ Genealogy of Globalization ~ 4 credits
Introduces students to various global processes in today’s world. Examines globalization in three historical forms: colonization, internationalization, and transnationalization. Students gain an understanding of the archaeology of globalization by learning the difference among the historical processes. Analyzes issues of globalization in relation to the particular geohistorical contexts.

GS 314 ~ Global History: The Past 5000 Years ~ 4 credits
Examines the past 5000 years of history from a global perspective. Adopts a comparative, historical, and global perspective of ancient to early modern societies. Designed for students who need preparation and background in the Comparative History and Philosophy sections of the History/Social Science Content Standards for K-12.

GS 315 ~ Global History ~ 4 credits
Examines the history of the twentieth century from a global perspective. It focuses on a broad range of global economic, political, technological, social and environmental concerns and events of the past 100 years. The twentieth century is also known as the “American Century” and reasons for this will be examined. Required as a follow-up to the Major ProSeminar for Majors.

GS 320 ~ Global Issues and the Third World ~ 4 credits
Identifies and critiques various understandings of the Third World as they relate to the categories of first world, second world, and third world. Students learn to analyze global issues as they relate to the third world especially the existing discourse of development.

GS 330 ~ World Views ~ 4 credits
Introduces diverse philosophical, ideological, religious, spiritual, scientific, technological, and gender views or perspectives. Focuses on the similarities and differences between worldviews and how these people interact with the world. Students study the adverse effects of ethnocentrism, reflect on their own worldview, and empathize with people with differing worldviews.

GS 335 ~ Global Governments ~ 4 credits
Engages a comparative study of government and politics from around the world to understand the forms of government that have endured to the 21st century. Designed for students who need preparation and background in the Comparative Government and Politics sections of the History/Social Science Content Standards for K-12.

GS 340 ~ Global Media and Communications ~ 4 credits
Develops skills to analyze and evaluate the role and importance of global technologies and communications media. Engages appropriate technological tools in global communications and information gathering. Students learn how to research, analyze, and evaluate the influence of the communications and information media on human events, issues, identities, opinions, and behavior. Focuses on the global effects of the information and communications media and its role in global economic, political, and cultural affairs.

GS 345 ~ Global Political Theory and Philosophy ~ 4 credits
Introduces students to various political theories and philosophies that underpin the thinking, culture, and societies in the 21st century. Explores political thinking from all parts of the world. Designed for students who need preparation and background in Political Theory and Philosophy sections of the History/Social Science Content Standards for K-12.

GS 350 ~ Gender and Violence in Global Life ~ 4 credits
Introduces students to comprehend, analyze, and evaluate the role of women and gender violence in global life. Examines gender, race, class, and culture related to issues of security, power, production, reproduction, and activation in global life and related forms of violence.

GS 360 ~ Intercultural Communications ~ 4 credits
Teaches noncoercive and cross-cultural skills of interpersonal communications for interacting with diverse cultures. Helps students comprehend the subtle, intercultural issues that are crucial for engaging in effective global citizenship and transnational relations. Examines student culture-bound behavior and communications. Develops effective communication tools for situations where people speak other languages and have differing cultural norms in various cultural and intercultural settings.

GS 365S ~ Service Learning in Global Affairs ~ 4 credits
Students provide community service to learn about the nature and effects of actions undertaken to increase citizen awareness of, and involvement in, global affairs. Prepares students for effective global citizenship in the 21st century and for responsible and effective civic participation in multicultural communities.

GS 370 ~ Global Political Economy ~ 4 credits
Examines origins of global economy. Analyzes and evaluates the relationship among global, political, and economic conditions. Studies global economy through: 1) historical development; 2) current patterns of changes; 3) effects of globalization on the quality of life; 4) solutions and alternatives to inequity, and 5) the students’ place in the global economy. Imparts comprehension, analysis, and evaluation of major structures, processes, and effects of evolving global economy.

GS 380 ~ Global Organizations and the Model United Nations ~ 4 credits
Examines formal and informal global organizations. Introduces the structure, workings, and politics of the United Nations and the role of such organizations in world affairs. Students participate in two model United Nations conferences to achieve an experiential understanding of how global realities are shaped by the structure, functioning, and politics of global organizations.

GS 385 ~ Earth & Social Systems ~ 4 credits
This course integrates the study of earth systems with social systems by examining natural and human systems that are global. It combines the perspectives, concepts and methods of the physical, biological, and social sciences in a holistic analysis and evaluation of the biological, social, cultural, economic, political, and ethical issues related to resource access, use, pollution, and conservation by human communities in the local and global regions.

GS 390 ~ Global Politics ~ 4 credits
Examines the pluralistic realm of: 1) interstate relations; 2) Western and non-Western schools of thinking and speaking about international politics; 3) gendered discourses of international relations including contributions from women, especially Third World women, and 4) ecological perspectives. Introduces political concepts and ideologies that constitute the discursive practices of global politics.

GS 395 ~ Special Topics in Global Studies ~ 1-6 credits
Studies a particular topic in global studies. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

GS 396 ~ Field Studies ~ 1-6 credits
Individualizes student placement for field study as related to global studies. Prerequisite(s): instructor consent and global studies faculty approval.

GS 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.
GS 400 ~ Senior Capstone ~ 4 credits
Students synthesize, research, and write a Capstone project that integrates: 1) course-based and experiential learning completed for the major; 2) a major research paper that demonstrates knowledge of theoretical, methodological, and philosophical underpinnings of intellectual production in Global Studies.

GS 595 ~ Special Topics ~ 1-6 credits
Studies a particular topic in global studies. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

GS 596 ~ Field Studies ~ 1-6 credits
Individualizes student placement for field study as related to global studies. Prerequisite(s): instructor consent; global studies faculty approval.

GS 597 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 195 ~ Special Topics ~ 1-6 credits
Studies a particular topic in Human Communication. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

HCOM 196 ~ Field Studies ~ 1-6 credits
Opportunities for independent field research projects involving oral history, social action writing, archival research, or investigative journalism. Prerequisite(s): instructor consent.

HCOM 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 213 ~ Introduction to Communication Ethics ~ 4 credits
Introduction to the ethics of communication practices. Students identify and evaluate communication dilemmas in interpersonal, small group, intercultural, organizational or mass media contexts; they assess communicative options from different ethical frameworks and apply ethical and effective alternatives in written, oral or visual communication modes, they generate a personal and communal ethic to guide communication conduct. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 214 ~ Interpersonal Communication and Conflict ~ 4 credits
Introduction to the dynamics of interpersonal communication and conflict resolution. Students identify and evaluate interpersonal conflicts; assess communicative options from different ethical frameworks and apply ethical and effective alternatives in written, oral or visual communication modes; they generate a personal and communal ethic to guide communication conduct. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 211 ~ Reading, Writing, and Critical Thinking ~ 4 credits
Through portfolio assessment, introduces students to college-level reading, writing, speaking, and listening skills. Further develops reading skills through a focus on divergent perspectives. Emphasizes the writing process to develop written and a research paper. Develops empathic and critical listening skills through class discussion, peer workshops, interviews, and group presentations within a collaborative, interactive, and intercultural environment. Prerequisite(s): PROS 100.

HCOM 212 ~ Reasoning and Communication ~ 4 credits
Introduction to practical reasoning and argumentation. Students develop empathic and critical listening, reading, writing, and speaking skills for cooperative deliberation and problem solving practices; they anticipate and assess various perspectives, alternatives, and their consequences for all who are affected by the decision making process. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 221 ~ Global Narratives ~ 4 credits
Examines unique and transnational cultural values represented in literary and artistic works by writers from Africa, Asia, Australia, Oceania, Europe, Latin America, the Middle East, and North America. Develops the capability to understand, analyze, interpret, and appreciate literature and diverse forms of popular culture as artistic and cultural representation. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 225 ~ Literature, Film, and Culture ~ 4 credits
Introduces literary analysis through readings of selected African American, Asian American, and European American writers by examining their cultural heritage and traditions. Develops analytical and critical reading ability of literature through discussion of themes, characters, techniques, images, and structures. Explores the symbiotic relationship between literature and film in transmitting cultural values. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 227 ~ Multicultural Poetry ~ 4 credits
A literature course that focuses on poetry as artistic and cultural representation. Students read works by poets of many cultures, watch poets read their work or video, and talk about how and why they write. Students develop the tools to do literary and cultural analysis of poetry. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 230 ~ Environmental Creative Writing Workshop ~ 4 credits
Introduces the craft of writing poetry and fiction. Students learn the basic tools to write about the environment. Cross-cultural readings and workshop format. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 231 ~ The Chicana/o Creative Writing Workshop ~ 4 credits
An introduction to the craft of writing fiction, creative nonfiction, and poetry through studies, discussions, and exercises using models of Chicana/o creative writing. Students produce works in English and/or Spanish and discuss problems and issues present in Chicana/o creative production within a mutually supportive workshop environment. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 232 ~ Creativity and Social Action ~ 4 credits
Examines the creative process and its application to social action. Uses guest writers and artists from local communities, visited field trips, and cross-cultural readings to understand and analyze creativity and social action. Students produce collaborative creative projects. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 240 ~ American Cultural Heritages ~ 4 credits
This learning experience traces the formation and evolution of United States-American cultures and identities from the colonial period to the present. Students will explore these formations through histories, literature, cultural studies, and sociological frameworks to develop an interdisciplinary picture of United States multicultural heritages. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 242 ~ Introduction to Multicultural Women’s Studies ~ 4 credits
Introduces the basic concepts and perspectives in multicultural feminisms with special emphasis on the changing status of women in relationship to the US and California Constitutions and political life. This learning experience provides the opportunity for students to develop analyses of the current political conditions for women and to strategize their own political participation in relation to these conditions. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 243 ~ Out of Many: Histories of the United States ~ 4 credits
Explores the complex histories of the diverse peoples of the United States from the U.S.-Mexican War to the present. Examines the past through the eyes of people often excluded from national narratives. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 250 ~ Politics and Participation: Struggles for Justice ~ 4 credits
Explores the impact of movements for social and political justice on the interpretation and content of the U.S. Constitution. Students will develop their ethical understandings of democratic participation throughout historical and contemporary texts and then apply these new understandings through the creation of collective political projects. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 260 ~ U.S. Political Histories ~ 4 credits
Historical view of the United States through analysis of the political process from the Revolutionary War and drafting of the Constitution to the social movements of the 20th century, with emphasis on the Bill of Rights and the guarantees won by the citizens through courts, political participation, and “civil disobedience.” Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 267 ~ News Writing ~ 4 credits
Prepares students to write news articles for the mass media. Covers concepts of journalistic interviewing, information gathering, critical understanding of news sources, ethical decision making, and the process of writing news, editorial, and feature articles for print and electronic media. Other Realms students are strongly encouraged to enroll. Prerequisite(s): satisfactory completion of the English Communication ULR Level A.

HCOM 300 ~ Major ProSeminar ~ 2 credits
Major ProSeminar is a learning community in which students are introduced to interdisciplinary study in the humanities. Students develop an Individualized Learning Plan, create learning communities, and explore graduate education, professional opportunities, and specific career paths. Prerequisites: satisfactory completion of the English Communication, Ethics, U.S. Histories, Democratic Participation, and Literature and Popular Culture ULRs (or equivalent General Education courses for junior transfers).

HCOM 301 ~ Ways of Knowing ~ 4 credits
Students survey the changing relationships among knowledge, truth, and reality in different cultural and historical contexts; they investigate, evaluate, and apply different ways of knowing such as analytic, rational, creative, spiritual, emotional, and intersubjective to substantive topics or themes. Required of HCOM majors and minors. Offers bursar assessment in HCOM MID 4 or emphasis in Prelaw or Practical and Professional Ethics. Corequisite(s): HCOM 300. Prerequisite(s): satisfactory completion of the English Communication ULR.
Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 306 ~ Gender and Communication ~ 4 credits
Explores theoretical explorations for the construction of gender. Students may identify and examine the ways individuals communicate their gender identity to themselves and to others, they may identify, examine, and analyze the construction and communication of gender in media, interpersonal, intercultural, or rhetorical contexts in order to ethically and effectively interact with others. Offers built-in assessment in HCOM MLO 3 or emphasis in Women’s Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 307 ~ The Social Impact of the Mass Media ~ 4 credits
Explores the relationship between the mass media and contemporary social problems. Issues such as media violence are explored from the perspective of consumers. Outcomes include raising awareness of the impact of media messages, developing effective media literacy tools, and preparing to critically analyze the cultural products we consume. Offers built-in assessment in HCOM MLO 5 or emphasis in Journalism, Communication, and Media Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 307S ~ The Social Impact of the Mass Media Service Learning ~ 6 credits
Explores the relationship between the mass media and contemporary social problems. Issues such as media violence will be explored from the consumer’s perspective. Outcomes include raising awareness of the impact of media messages, developing effective media literacy tools, and critically analyzing the cultural products we consume. Involves student in media literacy programs in local schools and community organizations. Offers built-in assessment in HCOM MLO 5 or emphasis in Journalism, Communication and Media Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 309 ~ Intercultural Communication: Relating to Whiteness ~ 4 credits
Students study the historical construction of white identity, and racial privilege in the United States and its impact on contemporary intercultural communication dynamics; they investigate and evaluate communicative options for relating to whiteness and their implications for moral and relational conduct; and they develop ethical guidelines for intercultural communication practices. Offers built-in assessment in HCOM MLO 3 or emphasis in American Multicultural Studies or Practical and Professional Ethics.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 310 ~ Free Speech and Responsibility ~ 4 credits
Students study the history of free speech in the United States; they examine past and present controversies such as obscenity, hate speech, and media sensationalism; they identify, evaluate, and assess human rights and responsibilities surrounding the freedom of expression from various philosophical perspectives. Offers built-in assessment in HCOM MLO 3 or emphasis in Pre-Law; Practical and Professional Ethics; Journalism, Communication, and Media Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 312 ~ Cooperative Argumentation ~ 4 credits
Introduction to cooperative argumentation. Students develop empathic and critical listening, reading, writing, and speaking skills for cooperative deliberation and problem solving practices; apply and assess reasoning and argumentative skills in oral and written communication contexts on various topics. Offers built-in assessment in HCOM MLO 1 or emphasis in Pre-Law or Practical and Professional Ethics.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 316 ~ Media Ethics ~ 4 credits
Develops media literacy and related knowledge, skills, and abilities. Explores implications of globalization on media production, distribution, and access, as well as on the content, context, consumption, and meaning of media messages. Topics include media violence, truthfulness, stereotyping, and the relationship between media and moral development. Offers built-in assessment in HCOM MLO 3 or emphasis in Journalism, Communication, and Media Studies, or Practical and Professional Ethics.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 317 ~ Advanced Composition and Composition Theories ~ 4 credits
Introduces students to writing conventions, contemporary composition theories, and major forms of written expression such as expressive, interpretive, technical, rhetorical, argumentative, invitational, and creative. Offers built-in assessment in HCOM MLO 1 and meets the English Single Subject Waiver Communication Skills Requirement.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 317S ~ Advanced Composition and Composition Theories: Service Learning ~ 6 credits
Introduces students in a service learning context to writing conventions, contemporary composition theories, and major forms of written expression such as expressive, interpretive, technical, rhetorical, argumentative, invitational, and creative. Offers built-in assessment in HCOM MLO and meets the English Single Subject Waiver Communication Skills Requirement.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 320 ~ Structure of English ~ 4 credits
Examines the usage and rules of the English language. Focuses on the four skills: speaking, listening, reading, and writing. Offers built-in assessment in HCOM MLO 7 and meets the English Single Subject Waiver Language and Linguistic Theories and Praxis Requirement.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 321 ~ Social History of English ~ 4 credits
Examines the history of English in the context of European and American cultural history. It takes a chronological approach in the development of the English language in Britain and the colonized countries in the Americas. It introduces students to the major periods of English language development.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 322 ~ Asian American Literature ~ 4 credits
Examines the history of American drama. Explores the diverse cultures that have contributed to the shaping of the American drama. Introduces students to literary analysis through the study of the dramatic relationship between the “logical core” and the “non-logical core.” Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 324 ~ African American Narratives ~ 4 credits
Examines the development of African American literature from the colonial period to the present. Explores the quintessential role African American literature and culture have played in the development of American mainstream literature, culture, and identity. It looks at vernacular tradition, the call and response practice, and the lyrics of the blues-infused, African American literary expression. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 325 ~ 20th Century Narratives of American Immigration ~ 4 credits
Explores the quintessential role African American literature and culture have played in the development of the United States from different cultural perspectives. Integrates a historiographic approach as the primary method for reading and critically interpreting immigrant narratives; historical events such as The Great Depression, World War I and II, and the Civil Rights Movement are used as markers for analyzing the texts. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies; American Multicultural Studies; Narrative, History, and Memory; or Chicana/o - Latina/o Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 327 ~ Survey of American Literature ~ 4 credits
Examines American literature through different historical periods, literary genres, and cultural movements. Develops ability to compare and contrast social, historical, and cultural experiences represented in literature. Students gain cross-cultural knowledge of American literary history, an introduction to literary theory, and further development of literary analysis skills.
Prerequisite(s): satisfactory completion of the English Communication UIR, a literature course from the Literature and Popular Culture UIR is highly recommended.

HCOM 328 ~ Latina Life Stories ~ 4 credits
Students study the historical construction of white identity, and racial privilege in the United States and its impact on contemporary intercultural communication dynamics; they investigate and evaluate communicative options for relating to whiteness and their implications for moral and relational conduct; and they develop ethical guidelines for intercultural communication practices. Offers built-in assessment in HCOM MLO 3 or emphasis in American Multicultural Studies or Practical and Professional Ethics. The course is required for the HCOM English Single Subject Waiver.
Prerequisite(s): satisfactory completion of the English Communication UIR.

Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 329 ~ 20th Century Narrative of American Immigration Service Learning ~ 6 Credits
Explores the history of American drama. Explores the diverse cultures that have contributed to the shaping of the American drama. Introduces students to literary analysis through the study of the dramatic relationship between the “logical core” and the “non-logical core.” Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 330 ~ History of English ~ 4 credits
Examines the usage and rules of the English language. Focuses on the four skills: speaking, listening, reading, and writing. Offers built-in assessment in HCOM MLO 7 and meets the English Single Subject Waiver Language and Linguistic Theories and Praxis Requirement.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 331 ~ Social History of English ~ 4 credits
Examines the history of English in the context of European and American cultural history. It takes a chronological approach in the development of the English language in Britain and the colonized countries in the Americas. It introduces students to the major periods of English language development.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 332 ~ Asian American Literature ~ 4 credits
Examines the history of American drama. Explores the diverse cultures that have contributed to the shaping of the American drama. Introduces students to literary analysis through the study of the dramatic relationship between the “logical core” and the “non-logical core.” Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 334 ~ African American Narratives ~ 4 credits
Examines the development of African American literature from the colonial period to the present. Explores the quintessential role African American literature and culture have played in the development of the United States from different cultural perspectives. Integrates a historiographic approach as the primary method for reading and critically interpreting immigrant narratives; historical events such as The Great Depression, World War I and II, and the Civil Rights Movement are used as markers for analyzing the texts. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies; American Multicultural Studies; Narrative, History, and Memory; or Chicana/o - Latina/o Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 335 ~ 20th Century Narrative of American Immigration ~ 4 credits
Explores the history of American drama. Explores the diverse cultures that have contributed to the shaping of the American drama. Introduces students to literary analysis through the study of the dramatic relationship between the “logical core” and the “non-logical core.” Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies or American Multicultural Studies.
Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 337 ~ Survey of American Literature ~ 4 credits
Examines American literature through different historical periods, literary genres, and cultural movements. Develops ability to compare and contrast social, historical, and cultural experiences represented in literature. Students gain cross-cultural knowledge of American literary history, an introduction to literary theory, and further development of literary analysis skills.
Prerequisite(s): satisfactory completion of the English Communication UIR, a literature course from the Literature and Popular Culture UIR is highly recommended.
HCOM 329 ~ Autobiografías ~ 4 credits
Emphasizes life writing and conversation through autobiography, testimonials, life history, and testimonio. Students analyze texts in all these genres, keep journals, and do life writing. The class is conducted in Spanish. Offers built-in assessment in HCOM MLO 6 or emphasis in American Multicultural Studies; Literary and Cultural Studies; or Chicana/o - Latina/o Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 330 ~ Introduction to Creative Writing ~ 4 credits
An introductory creative writing course that focuses on ethnicity, gender, and “witness” writing. Examination of the writing process, what roadblocks create silence, how to remove them. Cross-cultural readings in multicultural poetry, fiction, and nonfiction. Offers built-in assessment in HCOM MLO 8. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 331 ~ Creative Writing and Visual Art ~ 4 credits
An introductory creative writing course focusing on ethnicity, gender and social change, in relationship to visual arts. Cross-cultural readings in poetry, fiction, and nonfiction. No previous art experience necessary. Offers built-in assessment in HCOM MLO 8. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 332 ~ Poetry Writing Workshop ~ 4 credits
Poems with “duende”—as Federico García Lorca says—are poems that “burn the blood like powdered glass.” An intermediate level course that explores forms of poetry, both traditional and contemporary. Students analyze the creative process; move toward publishing poems. Offers built-in assessment in the emphasis in Creative Writing and Social Action or emphasis in Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR and HCOM MLO 8, or instructor consent.

HCOM 333 ~ Women’s Writing Workshop ~ 4 credits
An intermediate level creative writing workshop that peels away the layers shaping women’s lives, and examines their relationship to the writing process. Includes in-class writing exercises, cross-cultural readings, discussions of the writing process, and creative writing. For women and men honing their craft of writing poetry, fiction, and memoirs. Offers built-in assessment in the emphasis in Creative Writing and Social Action; Women’s Studies; or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR and HCOM MLO 8, or instructor consent.

HCOM 334 ~ Fiction Writing Workshop ~ 4 credits
An intermediate level creative writing workshop that focuses on fiction writing. Students explore forms of fiction, both traditional and contemporary; move toward publishing fiction. Offers built-in assessment in the emphasis in Creative Writing and Social Action or emphasis in Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR and HCOM MLO 8, or instructor consent.

HCOM 335 ~ American Ethnic Literature and Cultures ~ 4 credits
Examines American ethnic literature and cultures, including selected works from African American, Asian American, Chicano/a and Latino/a, European American, and Native American literature. Offers built-in assessment in HCOM MLO 6 or emphasis in American Multicultural Studies or Literary and Cultural Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 336 ~ Poetry and Gender: Voices of Our Time ~ 4 credits
A literature course in contemporary multicultural poetry, with a focus on gender issues. “A new kind of man / a new kind of woman.” In the words of poet Muriel Rukeyser names a central theme of 20th century American literature and life—the re-mapping of women’s and men’s lives. Students examine poets’ perspectives of gender shifts. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies at Women’s Studies. Prerequisite(s): satisfactory completion of the English Communication ULR, and a literature course from the literature/popular culture ULR.

HCOM 337 ~ Women’s Literature ~ 4 credits
Examines, through literature, how women writers are rewriting the myths and scripts of their/our lives, and how writing is a way of taking action. Explores how women have moved from repression to resistance, from silence to voice, from socially constructed divisiveness toward community. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies; Women’s Studies; or Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR, and a literature course from the literature/popular culture ULR.

HCOM 338 ~ Multicultural Adolescent Literature ~ 4 credits
Examines multicultural adolescent literature through the study of issues related to identity, race, culture, equity, and social justice/injustice over time. In particular, the course will provide opportunities to discuss the difficulties that young people have in coming to terms with these complicated issues. Required course for the English Single Subject Waiver emphasis. Offers built-in assessment in HCOM MLO 6. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 339S ~ HCOM Service Learning ~ 6 credits
An HCOM service learning course that provides students the opportunity to be actively involved in the community. Students research and examine a particular public issue, and gain hands-on experience, knowledge, and skills about community sites. Students enter and exit community sensitively, and participate in a multicultural community setting. Offers built-in assessment in HCOM MLO 8. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 340S Topics in Social Movements: Leadership and Empowerment ~ 6 credits
Students will have the opportunity to serve multicultural community organizations in the development of learning partnerships and projects. Focuses on various modes of community building and dynamics of leadership in these organizations while exploring scholarship on the dynamics of power and empowerment, and practices of community citizenship. Offers built-in assessment in HCOM MLO 5. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 341 ~ Theories and Methods in Multicultural Women’s Studies ~ 4 credits
Explores modes of analysis that engage critical thinking about the intersectionality of gender, sexuality, race/ethnicity, economic class, and ability. Readings and activities will ponder the ways that different theoretical paradigms work to advance social justice. Offers built-in assessment in HCOM MLO 5 or emphasis in Women’s Studies or American Multicultural Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 342 ~ Race, Colonialism, and Film ~ 4 credits
Provides an opportunity to analyze and discuss the ways that film has portrayed issues of colonialism, race, culture, equity, power relationships, and identity over the past 100 years. We view films from various countries around the world, and we examine the historical, social, political, and artistic background of each film. Offers built-in assessment for HCOM MLO 5, and satisfies the Liberal Studies requirement in Multicultural Literature(s). Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 343 ~ Chicana/Latina Experiences ~ 4 credits
Explores the impact of Chicana/Latina feminist discourse on the formation of Chicana/Latina identities. Presents critical and theoretical analyses of historical and contemporary issues facing Chicanas and other Latinas. Offers built-in assessment in HCOM MLO 5 or emphasis in Chicana/o - Latina/o Studies, American Multicultural Studies, or Women’s Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 344 ~ Chicano Life and History ~ 4 credits
Explores the impact of Chicano/Latina feminist discourse on the formation of Chicana/Latina identities. Presents critical and theoretical analyses of historical and contemporary issues facing Chicanas and other Latinas. Offers built-in assessment in HCOM MLO 5 or emphasis in Chicano/Latina Studies, American Multicultural Studies, or Women’s Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 345 ~ African American Life and History ~ 4 credits
An introduction to the historical and cultural narratives that shape African American identities and experiences. Offers built-in assessment in HCOM MLO 5 or MLO 7 or emphasis in American Multicultural Studies or Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 346 ~ Race, Colonialism, and Film ~ 4 credits
An introduction to the historical and cultural narratives that shape African American identities and experiences. Offers built-in assessment in HCOM MLO 5 or MLO 7 or emphasis in American Multicultural Studies or Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 347 ~ Oral History and Community Memory: Service Learning ~ 4 credits
Provides an opportunity to analyze and discuss the ways that film has portrayed issues of colonialism, race, culture, equity, power relationships, and identity over the past 100 years. We view films from various countries around the world, and we examine the historical, social, political, and artistic background of each film. Offers built-in assessment for HCOM MLO 5, and satisfies the Liberal Studies requirement in Multicultural Literature(s). Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 350 ~ Oral History and Community Memory: Service Learning ~ 6 credits
Working in local communities, students design and conduct oral history projects in surrounding communities. Projects address social issues of significance to the student and the community involved. Interviews may become part of the CSUMB Oral History and Community Memory Archive. Offers built-in assessment in HCOM MLO 2 or emphasis in Narrative, History and Memory or Literary and Cultural Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 350S ~ Oral History and Community Memory: Service Learning ~ 6 credits
Working in local communities, students design and conduct a collaborative oral history project on an issue of significance to students and community alike. Interviews may become part of the CSUMB Oral History and Community Memory Archive. Offers built-in assessment in HCOM MLO 2 or emphasis in Narrative, History and Memory or Literary and Cultural Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 352 ~ History According to the Movies ~ 4 credits
“History can be a great shock to see Gary Cooper killing off the Indians and, although you are rooting for Gary Cooper, that the Indians are you” (James Baldwin, African American writer, 1965). We learn a good deal about the past by watching movies. This course explores how film shapes and reflects U.S. history. Offers built-in assessment in HCOM MLO 2 and MLO 7 or emphasis in American Multicultural Studies; Narrative, History and Memory; or Journalism, Communication, and Media Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.
HCOM 353 ~ California at the Crossroads ~ 4 credits
Brings a historical perspective to contemporary issues facing California, from immigration and racism to the future of public culture and the environment. Students explore the cross-cultural history of California and participate in hands-on research into California’s past. Offers built-in assessment in HCOM MLO 2 and MLO 7 or emphasis in American Multicultural Studies or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 354 ~ Whose America? Contested Memories in Public History ~ 4 credits
Explores struggles over who and what will be remembered in national and local history by involving students in hands-on research into the past. Covers the culture wars taking place in politics, the media, museums, and state parks across the country. Offers built-in assessment in HCOM MLO 2 and MLO 7 or emphasis in American Multicultural Studies or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 355 ~ Women’s History of Monterey Bay ~ 4 Credits
Explores women’s migration, settlement, assimilation, and resistance to the Monterey Peninsula from the first settlement by Spain and Mexico to the nineteenth-century labor migrations of Japanese, Filipino, Mexican, Sicilian, and Portuguese. Examines how women adapted to the new environment and exercised power as they altered the cultural, social, and political landscape of Monterey. Offers built-in assessment in HCOM MLO 2 and MLO 7 or emphasis in Women’s Studies, American Multicultural Studies, or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 355S ~ Peoples and Cultures of the Monterey Bay: Service Learning ~ 6 credits
Chronicles the waves of immigration and adaptation of Old World cultures. Compares the recurring cycles of racism and prejudice (1850s lynchings of Californios, anti-Filipino race riots, the Kaw in the 1920s, and removal of the Japanese during WWII) to contemporary anti-immigrant sentiments. Offers built-in assessment in HCOM MLO 7 or emphasis in American Multicultural Studies or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 356 ~ Multicultural History in the New Media Classroom ~ 4 credits
Explores the complex experiences of African Americans, Asian Americans, Chicana/os, European Americans, and Native Americans in U.S. history. Combines the use of traditional written sources, such as autobiographies, with new media technologies, such as the Internet, and multimedia presentations. Requires basic computer experience. Offers built-in assessment in HCOM MLO 2 and MLO 7 or emphasis in American Multicultural Studies, Literary and Cultural Studies, or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 357 ~ Constitutional Law ~ 4 credits
Introduction to constitutional law through an in-depth examination of select U.S. Supreme Court cases. Close attention to how constitutional law has shaped and been shaped by the experience of ordinary people and the impact of the court’s decisions on the social, political, and economic histories of the United States from a multicultural perspective. Offers built-in assessment in MLO 7 or emphasis in Pre-Law or American Multicultural Studies. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 358 ~ Law in U.S. Societies ~ 4 credits
Examines how the law has shaped U.S. history from a multicultural perspective. Topics include shifting popular understandings of the U.S. constitution, the politics of “rights” discourse, an introduction to legal research methods; race, class, gender, and the definition of “crime”; representations of the law in the news, popular music, film and television; and how one’s posturality (especially race, ethnicity, class, gender and sexual orientation) has shaped the ability to negotiate the legal system in the United States. Offers built-in assessment in MLO 7 or emphasis in Pre-Law, American Multicultural Studies, or Practical and Professional Ethics. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 385 ~ Reporting ~ 4 credits
Prepares students to conduct journalistic interviewing and reporting. Outcomes include learning basic and advanced journalistic interviewing techniques, information gathering, and critical understanding of news sources, as well as journalistic writing and independent research. The course focuses on the exploration of current social, economic, political and environmental issues. Offers built-in assessment in HCOM MLO 2 or the emphasis in Journalism, Communication, and Media Studies. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 386 ~ News Writing ~ 4 credits
Prepares students to write news articles for the mass media. Outcomes include learning basic concepts of journalistic interviewing, information gathering, critical understanding of new sources, ethical decision making, as well as writing news, editorial, and feature articles for print and electronic media. Students working on the Otter Realm are strongly encouraged to enroll. Offers built-in assessment in the emphasis in Journalism, Communication, and Media Studies. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 387 ~ Media Production Lab ~ 4 credits
Prepares students to successfully design, layout, and publish journalistic products. Outcomes include learning the basic concepts of visual communication and journalistic production, including magazine and newspaper publishing, as well as desktop publishing techniques and software. Students working on the Otter Realm are strongly encouraged to enroll. Offers built-in assessment in the emphasis in Journalism, Communication, and Media Studies. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 388 ~ Investigative Reporting ~ 4 credits
Prepares students to conduct in-depth and investigative reporting. Outcomes include learning advanced journalistic interviewing techniques, information gathering, and critical understanding of news sources. The course focuses on the journalistic exploration of current social, economic, political, and environmental issues. Offers built-in assessment in HCOM MLO 2 or the emphasis in Journalism, Communication, and Media Studies. Prerequisite(s): satisfactory completion of the English Communication UIR.

HCOM 395 ~ Special Topics ~ 1-6 credits
Studies a particular topic in Human Communication, including the Otter Realm Newspaper and the oral history of the Fort Ord Conversion Project. Prerequisite(s): instructor consent.

HCOM 395S ~ Student-Directed Teaching Experience ~ 4 credits
With faculty sponsorship and oversight, students design, develop, and teach a particular topic in Human Communication. Prerequisite(s): instructor consent.

HCOM 396 ~ Field Studies ~ 1-6 credits
Opportunities for independent field research projects involving oral history, social action writing, archival research, or investigative journalism. Prerequisite(s): instructor consent.

HCOM 396S ~ Field Studies: Service Learning ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 397S ~ Independent Study: Service Learning ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 403 ~ Ethical Issues in the Professions ~ 4 credits
Through exploration and application of diverse moral frameworks, students acquire knowledge, skills, and abilities needed to identify and ethically resolve complex moral issues commonly associated with a variety of professions. Participants will also gain insight into how to help establish and sustain environments conducive to ethical reflection and practice. Offers built-in assessment in HCOM MLO 3 or emphasis in Pre-Law or Practical and Professional Ethics.

HCOM 426 ~ Travel Narratives ~ 4 credits
Travel narratives relate journeys to home audiences, portray the “other,” and reveal the culture and “self” of the traveler. Examines the historical, literary, and cultural significance of narratives of discovery, conquest, colonization, exploration, and tourism. Offers built-in assessment in HCOM MLO 5 or emphasis in American Multicultural Studies, Literary and Cultural Studies, or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication, and U.S. Histories UIRs, a literature course from the Literature/Popular Culture UIR is recommended.

HCOM 427 ~ Survey of British Literature ~ 4 credits
Examines representative works by British writers from different periods: Medieval, Renaissance, Neo-Classic, Romantic, Realist, Modern and Post/Modern. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies, and meets the English Single Subject Waiver Literary Histories, Theories, and Praxis Requirement. Prerequisite(s): satisfactory completion of the English Communication UIR; a literature course from the Literature/Popular Culture UIR is recommended.

HCOM 432 ~ Social Action Writing ~ 4 credits
An intermediate level creative writing course in which students apply their craft to a particular public issue. Students do collaborative research and interviews in the community. They produce poetry, fiction, and creative nonfiction, and visual representations of their writings. End-of-semester project is used to educate the community. Offers built-in assessment in the emphasis in Creative Writing and Social Action or Narrative, History and Memory. Prerequisite(s): satisfactory completion of the English Communication UIR and HCOM MLO 8, or instructor consent.
HCOM 432S ~ Social Action Writing ~ 6 credits
An intermediate level creative writing course in which students apply their craft to a particular public issue. Students do collaborative research and interviews in the community. They produce poetry, fiction, and creative nonfiction, and visual representations of their writings. End-of-semester project is used to educate the community. Offers built-in assessment in the emphasis in Creative Writing and Social Action or Narrative, History, and Memory. Prerequisite(s): satisfactory completion of the English Communication ULR and HCOM MLO B, or instructor consent.

HCOM 437 ~ Shakespeare and Postcolonial Interpretations ~ 4 credits
Analyzes Shakespeare’s plays from classical, modern, postmodern, and postcolonial perspectives, and meanings in the colonial and postcolonial world. Covers Shakespeare’s plays from comedies and histories to tragedies and romances. Explores the symbolic relationship between literature and film. Offers built-in assessment in HCOM MLO 6 or emphasis in Literary and Cultural Studies, and meets the English Single Subject Waiver Literacy Histories, Theories, and Praxis Requirement. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 440 ~ Leadership in Multicultural Communities ~ 4 credits
Explores the dynamics of American social and political structures and the relationship to culture. Examines the roots of racism, sexism, and classism with a special emphasis on leadership development and community participation. Offers built-in assessment in HCOM MLO 5 or emphasis in American Multicultural Studies, Chicana/o - Latina/o Studies, Practical and Professional Ethics; Women’s Studies, or Prelaw. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 443 ~ Womanist Theory ~ 4 credits
Students survey the history of womanist (black feminist) philosophy and practice in the United States. They identify, analyze, and evaluate past and present issues of identity, empowerment, community, and alliances utilizing womanist political, literary, theological or other disciplinary frameworks. Offers built-in assessment in HCOM MLO 3 or emphasis in American Multicultural Studies; Literary and Cultural Studies; or Women’s Studies. Prerequisite(s): satisfactory completion of the English Communication ULR.

HCOM 446 ~ Cultural Citizenship in Latina/o Communities ~ 4 credits
Theory and practice of cultural citizenship. How Latina/o and other marginalized or excluded communities claim rights to human, social, and cultural equality through cultural difference. Concrete applications in areas of education, welfare, housing, and other social arenas. Offers built-in assessment in emphasis in Chicana/o - Latina/o Studies, American Multicultural Studies, or Narrative, Memory, and History. Prerequisite(s): Satisfactory completion of the English Communication ULR and prior instructor consent.

HCOM 455 ~ Paradigms of the Chicano Community ~ 4 credits
Explores emerging intellectual paradigms in the Chicano community and traces their antecedents and relationships. Provides an intensive foundation in Chicano studies theory and emergent issues. Offers built-in assessment in HCOM MLO 3 or emphasis in Chicana/o - Latina/o Studies, American Multicultural Studies; or Narrative, Memory, and History. Prerequisite(s): satisfactory completion of the English Communication ULR and prior instructor consent.

HCOM 474 ~ Research Methods ~ 4 credits
An optional HCOM pre-Capstone research seminar designed to help students carry out the complex research necessary for their Senior Capstone projects. Students should have their Capstone project defined prior to taking the seminar. Offers built-in assessment in HCOM MLO 2. Offered in the fall semester only. Recommended prior to HCOM 475 Senior Capstone.

HCOM 475 ~ Senior Capstone ~ 4 credits
Students produce a senior project related to an issue within the Human Communication major by meeting with the Capstone instructor and producing a Capstone prospectus. Students present their project in a public senior Capstone Festival. Required for all HCOM majors applying for graduation. Prerequisite(s): Application for graduation; instructor consent; completion of all but one MLOs to be integrated in the Capstone project must have been completed prior to enrolling in Senior Capstone.

HCOM 495 ~ Special Topics ~ 1-6 credits
Studies a particular topic in Human Communication. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

HCOM 495S ~ Special Topics: Service Learning ~ 1-6 credits
Studies a particular topic in Human Communication. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

HCOM 496 ~ Field Studies ~ 1-6 credits
Opportunities for independent field research projects involving oral history, social action writing, archival research, or investigative journalism. Prerequisite(s): instructor consent.

HCOM 496S ~ Field Studies: Service Learning ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 497 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 497S ~ Independent Study: Service Learning ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

HCOM 546 ~ Cultural Citizenship in Latina/o Communities ~ 4 credits
A graduate-level course designed for students in the Critical Multicultural Education Masters Program. Explores emerging intellectual paradigms in the Chicano community and traces their antecedents and relationships. Provides an intensive foundation in Chicano studies theory and emergent issues. Offers built-in assessment in HCOM MLO 5 or emphasis in Chicana/o - Latina/o Studies, American Multicultural Studies; or Narrative, Memory, and History. Prerequisite(s): graduate standing or instructor consent.

HCOM 555 ~ Special Topics: Fort Ord Conversion Project ~ 1-4 credits
For students interested in the oral history of the Fort Ord Conversion Project. Prerequisite(s): graduate standing and instructor consent.

HCOM 596 ~ Field Studies ~ 1-6 credits
Opportunities for independent field research projects involving oral history, social action writing, archival research, or investigative journalism. Prerequisite(s): graduate standing and instructor consent.

HWI 100 ~ Otter Days Experience ~ 1 credit
Designed for freshmen and sophomore students through participation in the extended new student orientation outdoor retreat called “Otter Days.” Includes introduction to overnight camping, introduction to hiking in the Ventana Wilderness and Los Padres National Forest, introduction to boating, introduction to cooperative group initiatives, and community drum circle activity. Credit/no credit only. Formerly WRSI 110.

HWI 110 ~ Introduction to Strength Training ~ 1 credit
Introduces the use of weight training equipment as a means of improving and maintaining muscular strength and endurance. Includes the physiological responses and adaptations of the human body to strength training, safety, risks, and benefits of strength training, muscle structure and function, and nutritional considerations. Measures progress with written self-assessment. Credit/no credit only. Formerly WRSI 111.

HWI 111 ~ Swimming for Fitness ~ 1 credit
Instructs on swim conditioning as a lifelong wellness activity. Emphasizes cardiovascular endurance and stroke efficiency. Credit/no credit only. Formerly WRSI 111. Prerequisite(s): basic swimming proficiency.

HWI 112A ~ Weight Management/Exercise ~ 1 credit
Introduces the concept of weight management and exercise from a viewpoint that presents a holistic program focusing on nutrition and eating patterns, exercise and physical activity, stress management, and psychological social relationships and communication with yourself and others that reflects on self-responsibility and readiness.

HWI 112B ~ Weight Management/Step Aerobics ~ 2 credits
An expanded, in-depth study of the concept of weight management through a heightened step aerobics endurance program. Instruction focuses on nutrition and eating patterns, specific exercise through step aerobics, and expanded stress management techniques.

HWI 113 ~ Wake-Up Workouts for Fitness ~ 1 credit
Students learn about and practice developing customized personal fitness programs using an eclectic approach to fitness. Emphasizes cardiovascular endurance through aerobic training and some strength training. Formerly WRSI 113.
HWI 116 - Adapted Physical Activity, Aquatics ~ 1 credit
Instructs on adapting Physical Activity for each individual’s unique needs through the use of the pool to enhance one’s overall health and wellbeing. Course content is decided upon between instructor and student. Formerly WRSI 116.

HWI 117 - Adapted Physical Activity, Dry Land ~ 1 credit
This learning experience is designed for individuals who would like to select a physical activity program with adaptations to meet their individual needs. Course content is decided upon between instructor and student, resulting in many program options and variety. This experience, in conjunction with adapted aquatic (HWI 116) can provide daily activity for individuals who are temporarily or permanently in need of physical activity. Formerly WRSI 117.

HWI 120 - CPR/First Aid ~ 1 credit
Covers instruction and practice in the immediate and temporary care of injuries and sudden illnesses. Includes emergency response, rescue breathing, cardiopulmonary resuscitation (CPR), and first aid for adults only. Conforms to American Red Cross standards. Course completion encompasses written exams and skills tests for first aid and CPR certifications. Formerly WRSI 120.

HWI 123 - Step Aerobics & Fitness Lab ~ 2 credits
A daily combination of step aerobic exercise and practical information regarding health issues including fitness, nutrition and weight management, and stress reduction techniques. The course will empower students to design their own health program and monitor their progress throughout the semester. Formerly WRSI 123.

HWI 124 - Step Aerobics ~ 1 credit
Focuses on cardiovascular fitness training through step aerobic activity. Instructs in designing personal step aerobic program including theory and techniques of training. Formerly WRSI 124.

HWI 125 ~ Taiko Drumming Class ~ 1 credit
Intensive instruction in Japanese Taiko drumming. The class introduces various aspects of Taiko drumming to create awareness of body and mind. The class helps develop rhythm and the power of mind/body integration by having students learn basic stands, forms, breathing, and full body movements. Formerly WRSI 125.

HWI 131 ~ Tai Chi Chi Kung I ~ 2 credits
Development of Internal Power – a short Yang style energy form. A simple but yet powerful form of Yang style Tai Chi. Tai Chi Chi Kung I teaches the principles of body mechanics through the alignment of the bone structure with the force of gravity. This course will present the Taoist principles and deep, internal work necessary for the effective practice of any form of Tai Chi. Formerly WRSI 131.
Priorquisite(s): HWI 139 suggested but not required.

HWI 132 Tai Chi Chi Kung II ~ 2 credits
Development of Internal Power – a fast Yang style discharge form. Tai Chi Chi Kung II is a fast discharge form which comprises the Inner Structure of Tai Chi. In this course students will learn how to move fast in five directions. While learning to move the entire body structure as one piece, they will also learn how to discharge the energy from the earth through the body structure. Formerly WRSI 132.
Priorquisite(s): instructor consent, HWI 139 suggested but not required; HWI 131 highly suggested.

HWI 134 ~ Self-Defense for Women ~ 1 credit
A hands-on class that incorporates the four components of self-defense: awareness, avoidance, and verbal and physical techniques. Teaches verbal and physical self-defense skills from a standing position and from the ground. Includes defense grapples, chokes, and smothering. Formerly WRSI 34.

HWI 135 ~ Advanced Women’s Self Defense ~ 1 credit
This advanced class is designed for students who have completed Self Defense for Women or equivalent. The class will begin with a review of all skills and advanced practice of the verbal, psychological and physical skills covered in the introductory class. Students will practice self defense in situations ranging from verbal confrontations to attacks with weapons or by multiple attackers. Formerly WRSI 135.
Priorquisite(s): HWI 134 or equivalent, or instructor consent.

HWI 139 ~ Yoga ~ 2 credits
Stretch and relax with a technique of gentle yoga and tai chi movements to improve strength and sense of well-being. Learn how to use energy to the fullest for health and immune system improvement. This class offers yoga and tai chi movements along with creative visualization, relaxation, and meditation techniques. Learn how to manage stress and increase endurance, balance, and general wellness. Learn about the mind/body connection and how to manage energy for longevity and rejuvenation. Formerly WRSI 139.

HWI 141 ~ Disc Golf ~ 1 credit
Introduces women and men to disc golf. Students develop techniques, skills, scoring, and team strategies. Formerly WRSI 141.

HWI 143 ~ Volleyball ~ 1 credit
Introduces women and men to court/indoor volleyball. Students develop passing, blocking, and hitting skills. They learn the rules, scoring, and team strategies and tactics. Formerly WRSI 143.

HWI 144 ~ Basketball ~ 1 credit
Introduces women and men to basketball. Students develop dribbling, passing, and shooting skills, and learn the rules, scoring, and team strategies and tactics. Formerly WRSI 144.

HWI 145 ~ Softball ~ 1 credit
Introduces women and men to softball. Students develop throwing, catching, fielding, hitting, and baserunning skills while learning rules, scoring, and team strategies for offensive and defensive fastpitch and slowpitch softball. Covers the history of softball. Formerly WRSI 145.

HWI 146 ~ Golf ~ 1 credit
Introduces women and men to golf. Students develop driving, putting, chipping, and pitching a golf ball while learning rules, scoring, and the etiquette involved in the game. Covers the history of golf. Formerly WRSI 146.

HWI 147 ~ Soccer ~ 1 credit
Introduces women and men to soccer. Students develop dribbling, passing, heading, and trapping skills while learning the rules, scoring, and offensive and defensive team strategies. Covers the history of soccer. Formerly WRSI 146.

HWI 148 ~ Running ~ 1 credit
Introduces women and men to efficient running technique, basic nutrition for runners, and various training methods. Formerly WRSI 148.

HWI 149 ~ Surfing ~ 1 credit
Covers surfing from beginning to advanced. Includes hydrodynamics, history of surfing, overview of equipment, and orientation to the local surf spots. Requires surfboard and wet suit. Priorquisite(s): must be a competent swimmer. Formerly WRSI 149.

HWI 150 ~ In-Line Skating/Roller Hockey ~ 1 credit
Covers inline skating and roller hockey from beginning to advanced. Students develop skills in inline skating and begin to develop a conceptual understanding of hockey strategy, tactics, and techniques. Formerly WRSI 150.

HWI 151 ~ Sailing I ~ 2 credits
Students apply theory to practice in a small boat. Includes maneuvering and driving a boat, developing teamwork, training to race, and practicing water safety. A U.S. Sailing certificate course that includes lecture and on-the-water experience. Formerly WRSI 151.

HWI 152 ~ Sailing II ~ 2 credits
Covers rules of the road, language, knots, and water safety. Includes skipper skills such as anchoring, docking, and navigating. American Sailing Association and U.S. Sailing certificate course that includes lecture and on-the-water experience. Formerly WRSI 152.
Priorquisite(s): WRSI 151 or instructor consent.

HWI 161 ~ Foundations of Wellness ~ 3 credits
A theory and practical based course which addresses core concepts of both health and wellness, the interrelationship and benefits of physical fitness, proper nutrition, and effective stress management levels for young adults in college. The course places emphasis on self-assessments, development and implementation of personal wellness goals/plans/actions, and self-reflection on consequences of lifestyle choices. Formerly WRSI 161.

HWI 180 ~ Backpacking and Hiking ~ 1 credit
Introduces the basics of backpacking. Requires one weekend trip into Big Sur. Formerly WRSI 180.

HWI 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Formerly WRSI 197.
Priorquisite(s): instructor consent.

HWI 201 ~ Foundations of Wellness: Psychobiology of Eating Disorders ~ 3 credits
An overview of health and theoretical perspectives of the eating disorder illnesses. Current theories and therapeutic treatments involved in the recovery from the human eating disorders: (1) obesity, (2) AN, and (3) BN will be present in terms of a health psychology and wellness perspective. Priorquisite(s): a 3-credit course in introductory psychology and general biology recommended.
Course Descriptions: Health and Wellness

HWI 230 ~ Leadership: Mini-Corps ~ 4 credits
This learning experience is designed to provide leadership and mentoring opportunities and develop related leadership skills for California Mini-Corps students as they work in the classrooms and in the homes of migrant students in K-12.
Prerequisite(s): instructor consent.

HWI 238 ~ Awaken Healing Energy ~ 2 credits
The foundation of Channeling Energy and Self-Empowerment. Students learn short, powerful, basic practices that can be done daily to increase balance and enhance their life force energy. Explores theory and guides students through the practices, sharing a “map” of how to enhance inner Chi Flow. In this way, students learn to tap into their own energy in order to heal and detoxify their organs, and to reduce emotional and physical stress.
Prerequisite(s): HWI 131 suggested but not required. Formerly WRSI 138.

HWI 241 ~ Advanced Competitive Tennis ~ 1 credit
Students develop personal skills and learn advanced strategy and tactics. Focuses on the quality of participation and competitive outcomes. For students who wish to participate in competitive team sports. Formerly WRSI 241.
Prerequisite(s): instructor consent.

HWI 243 ~ Advanced Competitive Volleyball ~ 1 credit
Students develop personal skills and learn advanced strategy and tactics. Focuses on the quality of participation and competitive outcomes. For students who wish to participate on the competitive volleyball team. Formerly WRSI 243.
Prerequisite(s): instructor consent.

HWI 244 ~ Advanced Competitive Basketball ~ 1 credit
Students develop personal skills and learn advanced strategy and tactics. Focuses on the quality of participation and competitive outcomes. For students who wish to participate in competitive team sports. Formerly WRSI 244.
Prerequisite(s): instructor consent.

HWI 246 ~ Advanced Competitive Swimming ~ 1 credit
Students develop personal skills and learn advanced training and coaching. Focuses on the quality of participation and competitive outcomes. For students who wish to participate in a competitive sport activity. Formerly WRSI 246.
Prerequisite(s): instructor consent.

HWI 247 ~ Advanced Competitive Soccer ~ 1 credit
Students develop personal skills and learn advanced strategy and tactics. Focuses on the quality of participation and competitive outcomes. For students who wish to participate in competitive team sports. Formerly WRSI 247.
Prerequisite(s): instructor consent.

HWI 248 ~ Advanced Competitive Cross Country ~ 1 credit
Students develop and refine their running skills and technique and focus on advanced strategy and race tactics. Focuses on the quality of participation and competitive outcomes. For students who wish to participate on the competitive cross country team. Formerly WRSI 248.
Prerequisite(s): instructor consent.

HWI 249 ~ Advanced Competitive Golf ~ 1 credit
Students develop personal skills and learn advanced training and coaching. Focuses on the quality of participation and competitive outcomes. For students who wish to participate in a competitive sport activity. Formerly WRSI 249.
Prerequisite(s): instructor consent.

HWI 250 ~ Techniques of Officiating Fall Sport ~ 2 credits
Presents a current, understandable, and practical framework beneficial to prospective and experienced sports officials. Focuses on the techniques, rules, and mechanics of officiating basketball, field hockey, football, soccer, volleyball, and wrestling. Offers students an opportunity to become a certified official. For individuals who might want to enter the sports officiating field. Formerly WRSI 250.

HWI 251 ~ Techniques of Officiating Spring Sport ~ 2 credits
Focuses on the techniques, rules, and mechanics of officiating baseball, lacrosse, rugby, softball, swimming, and track and field. Formerly WRSI 251.

HWI 252 ~ Intermediate Keelboat Sailing ~ 2 credits
Develops skipper and crew skills to manage a vessel on a bare boat charter. Devotes 30 percent to lecture and 70 percent to on-water experiences. Course completion satisfies ASA certification to bare boat allowing vessel charter.
Prerequisite(s): WRSI 152 or equivalent, or instructor consent. Formerly WRSI 252.

HWI 254 ~ Kayaking ~ 2 credits
Introduces skills for covering equipment, technique, navigation, weather, hydrology, surf zone, and rescue. Includes the fundamentals of paddling. Requires field trips. Formerly WRSI 254.
Prerequisite(s): must be a competent swimmer.

HWI 257 ~ Fundamentals of Eco-Tourism ~ 3 credits
This course examines the parameters of the environmental tourism industry, including practical methodology, social, legal, and political implications. Students develop interpretive skills and gain experience through frequent field trips.

HWI 260 ~ Foundations of Wellness/Student-Athletes ~ 4 credits
A theory and practical based course [including Advanced Competitive Lab] addressing the core concepts of health and wellness, and the interrelationship and benefits of physical fitness, proper nutrition, and effective stress management. The course places emphasis on self-assessments in training, development, and implementation of personal wellness goals/plans/actions as they relate to the highly competitive collegiate student-athletes.

HWI 261 ~ Developing Ability to Cope with Stress ~ 2 credits
Stress management lab that combines theory with practice and support group sessions. Uses stress management research, individual inventories, and self-monitoring to increase personal ability to cope with difficult situations by utilizing and practicing a variety of stress-reduction techniques. Students participate in a supportive course to address personal and societal stresses. Formerly WRSI 261.

HWI 262 ~ Foundations of Wellness: Women’s Health Issues ~ 3 credits
Explores the health concerns, options, and roles of women as consumers and providers of health care. Focuses on nutrition, stress management, and physical fitness. Formerly WRSI 162.

HWI 263 ~ Foundations of Wellness: Human Sexuality ~ 3 credits
Explores the personal and intellectual understanding of human sexuality. Knowledge, decision-making, responsibility, and diversity related to sexuality are integrated into all aspects of the course. Formerly WRSI 163.

HWI 264 ~ Foundations of Wellness: Marriage and Family ~ 3 credits
Provides the theoretical and contemporary framework for consulting relationships that are satisfying. Highlights the diversity of family structure while addressing dating, courtship, marriage, and family living.

HWI 266 ~ Foundations of Wellness: Alternative Approaches ~ 3 credits
This course will focus on scientific information about nutrition, exercise/fitness, and stress management. Students will be required as in all the Foundation classes to produce a personal wellness plan in these three areas. Additionally, a specialized focus for a portion of the course will be on yoga science and multicultural theories of wellness and health practices, especially eastern approaches. Formerly WRSI 166.

HWI 280 ~ Scuba Diving ~ 2 credits
Introduces equipment, dive physiology, and techniques, and culminates in receiving PADI certification. Requires classroom, pool, and field trips. Formerly WRSI 280.
Prerequisite(s): must be a competent swimmer.

HWI 281 ~ Rock Climbing ~ 2 credits
Covers equipment, techniques, training, and history of the craft. Includes knots, anchor systems, belaying, rappelling, and risk assessment. Classes are held at outdoor crags and the local indoor climbing gym. Requires weekend trips to the Pinnacles and other local places. Formerly WRSI 281.

HWI 345 ~ Sports Ethics ~ 4 credits
Looks at issues in youth sport, intercollegiate sport, and professional sport. Discusses ethical questions, arguments, theories, and workable solutions for returning amateur sport to its proper place in society. Discusses the power of sport, the value of sport, and the place of sport in society. Formerly WRSI 345.

HWI 347 ~ Leadership, Life-Skills, Citizenship ~ 4 credits
The purpose of the Leadership, Life-Skills and Citizenship class is to examine the social change model of leadership while building a strong repertoire of personal skills that allows the student to engage in positive change within the community. The three primary goals of this class are (1) the enhancement of the student’s self-knowledge, (2) the development of leadership competence, and (3) the facilitation of social change in the community/institution that leads to functioning that is more effective and humane.

HWI 361SL ~ Foundations of Wellness Through Community Participation ~ 6 credits
Provides an overview of factors that contribute to health and wellness while engaging in self-reflective, culturally aware and responsive community participation with community organizations. Formerly WRSI 361SL.

HWI 362 ~ Fundamentals of Nutrition ~ 4 credits
A lecture course with usage of videos and learning team discussions, nutritional experiential labs combined with student-driven practical project. Developed to not only present content, but to have students seriously look at nutrition and endeavor to set action steps to improve eating choices. A baseline medical lab screen will be required of all students enrolling in the course with another baseline screen at the end of the course.
Course Descriptions:

**HWI 363 ~ Human Sexuality.** ~ 4 credits
Addresses the physical, social, and emotional issues related to human sexuality. The goal of this course is to familiarize students with a broad spectrum of concepts so that they might better understand the nature of their own sexuality, the decisions they make, the importance of sexuality in their lives, the responsibility it involves, and the compassion which is necessary for the wellbeing of all people.

**HWI 372 ~ Sport and Marginality w/ Emphasis on Disability.** ~ 4 credits
Examines sports from a sociohistorical perspective. Explores legislation and hierarchies of power from disenfranchised groups and individuals with special emphasis on disability. Formerly WRSI 372.

**HWI 375 ~ Motor Development.** ~ 4 credits
Focuses on motor development in kindergarten through eighth-grade children. Emphasizes physical activity and programmatic organization in the gymnasium as it relates to academic and social success. Formerly WRSI 375.

**HWI 376 ~ Movement: Individuals with Disability.** ~ 4 credits
Includes programming in physical education for neurologically and physically impaired individuals in the psychomotor, affective, and in cognitive domains. Provides a knowledge of disabilities, an understanding of indicators and contraindicators related to skill development [including academics], and the ability to teach integrated movement activities to individuals with disabilities. Formerly known as WRSI 276. 
Prerequisite(s): WRSI 375/LS 375.

**HWI 377 ~ Neurological Impairment.** ~ 4 credits
An in-depth examination of the central nervous system in typical development and atypical development related to academic and motor success. Provides students with an understanding of the typical and atypical neurological bases underlying sensory motor development and performance, as well as the typical and atypical neurological mechanisms and processes for academic success. 
Prerequisite(s): HWI 375 and HWI 376.

**HWI 378 ~ Assessment, Evaluation and Curriculum Program Design.** ~ 4 credits
Introduces and analyzes various theoretical perspectives related to assessment in the psychomotor, cognitive, and affective domains for individuals with disabilities. Provides the basis for program and curriculum design and implementation. Includes addictions, phobias, and depression as disabilities.

**HWI 382 ~ Wilderness Leadership.** ~ 4 credits
Surveys the theoretical and philosophical concepts of experiential education as they relate to outdoor recreation. Topics include group facilitation skills, logistics, leadership skills, risk management, and safety. Requires a weeklong intensive field expedition to the Sierra Nevada Mountains. Formerly WRSI 182.
Prerequisite(s): Back packing or instructor consent.

**HWI 383 ~ Foundations of Experiential Education.** ~ 4 credits
Course covers the theoretical and philosophical concepts of Experiential Education with practical hands on lessons in team building & leadership.

**HWI 384 ~ Outdoor Recreation and the Uses of the Wilderness Experience.** ~ 4 credits
Focuses on social, personal, and professional transformation via adventure. Examines adventure and exploration, and their influences on society. Explores the ritual of the “hero’s journey” and the vision quest concept. Requires a weeklong intensive field expedition to the Mojave Desert. Formerly WRSI 183.
Prerequisite(s): Back packing or instructor consent.

**HWI 385 ~ Outdoor Education/Recreation Program Administration.** ~ 4 credits
Focuses on program design, safety and risk management, land use agency guidelines, and the permitting process.

**HWI 397 ~ Independent Study.** ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Formerly WRSI 397. 
Prerequisite(s): Instructor consent.

**HWI 461 ~ Effectively Managing Stress.** ~ 4 credits
A theory-based and learning lab that combines content, practice labs, and support sessions. Uses stress research, individual inventories, perception analysis, and self-monitoring techniques to increase personal ability to cope with difficult situations by utilizing a variety of stress-reduction techniques. Focus also addresses special issues related to college and modern life.

**HWI 464 ~ Patterns and Dynamics in Relationships.** ~ 4 credits
Provides information and experiences to help students reflect upon and make decisions about what constitutes wellbeing between partners and among families. While highlighting the diversity structures in relationships, the course provides information and tools in such areas as communication and conflict resolution, lifespan issues, sexuality, parenting, separation, and wellness.

**HWI 465 ~ Special Topics: Nutrition, Body Image, and Addiction.** ~ 4 credits
Examines three major issues affecting individual health and wellbeing: nutrition, body image, and addictions. Designed to help students gain knowledge and awareness regarding these topics so that they can make healthy decisions about each of them. Students will have an opportunity to establish personal goals and a wellness plan that takes into consideration the interrelationship between self-esteem and positive outcomes.

**HWI 476 ~ Physical Education Pedagogy and Theory.** ~ 4 credits
The delivery of effective physical education to diverse students, with the goal of helping them sustain it, requires teachers to have knowledge, instructional skills, and creative energy to link school programs to opportunities outside the school. This class provides the knowledge base for becoming effective in teaching physical education through a focus on curriculum, assessment, planning, and skills and strategies for delivery in a K-12 interdisciplinary teaching model.

**HWI 595 ~ Special Topics.** ~ 1-6 credits
Studies a particular topic in wellness, recreation, and sport. Formerly WRSI 595. 
Prerequisite(s): instructor consent.

**HWI 597 ~ Independent Study.** ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Formerly WRSI 597. 
Prerequisite(s): instructor consent.

**ID 500 ~ Graduate ProSeminar.** ~ 2 credits
Required graduate level ProSeminar for students entering the interdisciplinary studies graduate program. This learning experience introduces students to the Master of Arts Program in Interdisciplinary Studies. It provides an overview of history, theory, and practice in interdisciplinary studies, introduces students to graduate faculty, their teaching expertise and research interests, discusses courses and alternative learning experiences which will facilitate students’ study in the program, and helps students design graduate learning outcomes and develop individual learning plans.
Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

**ID 501 ~ Research Methodology.** ~ 4 credits
The seminar introduces Interdisciplinary Studies students to methodologies used in ethnographic as well as critical and cultural studies. Both practical application and theoretical discussions will animate this seminar in which students are expected to conduct an independent research project of their own design. The course will cover scientific research design (hypothesis building and testing) and research methods emanating from humanities.
Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

**ID 560 ~ Truth and Method in History: A Social History Learning Lab.** ~ 4 credits
This course is a handson practicum in advanced qualitative and quantitative methods for research and analysis in social history. Students work both collaboratively and individually on a major research project in social history. Topics vary according to student interest.
Classes are conducted in seminar style and emphasize the collaborative development of critical thinking in framing effective research questions and choosing the research methods that are most appropriate to the questions asked.
Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

**ID 595 ~ Special Topics.** ~ 1-6 credits
This course enables graduate students to enroll in 300 or 400 level courses to satisfy graduate level requirements. Prior to enrolling in this course, students must seek instructor’s permission, provide a description of the course content and submit a proposal to explain how additional and enriched graduate level assignments will be implemented. The course needs to be approved by the faculty advisor, the instructor of the course, the Center Dean and the Program Coordinator.
Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

**ID 597 ~ Independent Study.** ~ 1-6 credits
This course can fulfill individualized Graduate Learning Outcomes and IDS graduation requirements. Prior to enrolling in the course, students need to develop a detailed proposal outlining the content of the proposed study and submit a description of how the course can meet Graduate Learning Outcomes, specific measurable objectives and specific enabling assignments. The course need to be approved by the faculty advisor, the instructor of the course and the Center Dean.
Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.
ID 598 ~ Graduate Seminar Series ~ 2 credits
This course provides graduate students with a forum to develop and present seminars on selected interdisciplinary topics. Seminars will be presented by graduate students focusing on the discussion of research interests, progress in the program, and Capstone projects. It will aid students in planning research, carrying out fieldwork, and writing up and presenting research outcomes such as course papers, conference papers and Capstone projects. Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

ID 599 ~ Graduate Capstone Seminar ~ 1 credit
This is a supervised course designed to assist graduate students in completing their graduate Capstone project. It introduces guidelines for structuring the project and offers guidance in preparation with graduate faculty advisors. This course is required. Prerequisite(s): graduate admission to interdisciplinary studies and instructor consent.

ISSM 300 ~ Major ProSeminar ~ 2 credits
Develops the integrative focus of each student’s special major and an Individualized Learning Plan including a path toward fulfillment of their Major Learning Outcomes and the university’s graduation requirements. Completion of this course is required to continue in the Integrated Studies program. Prerequisite(s): instructor consent.

ISSM 395 ~ ISSM Learning Community Special Topics ~ 2 credits
The ISSM Learning Community is required of all ISSM students every semester after completion of the ProSeminar and until enrollment in the Capstone Seminar. Prerequisite(s): ISSM 300 and instructor consent.

ISSM 396 ~ Field Studies ~ 1-6 credits
Provides students with the option of pursuing an independent field studies learning experience consistent with the focus of their special major. Prerequisite(s): ISSM 300 and instructor consent.

ISSM 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): ISSM 300 and instructor consent.

ISSM 398S ~ Integrated Service Learning SL ~ 4 credits
Provides students with the option of pursuing an independent service learning experience consistent with the focus of their special major. Prerequisite(s): ISSM 300 and instructor consent.

ISSM 400 ~ Senior Capstone Seminar ~ 2 credits
Capstone experience for seniors in the Integrated Studies Special Major. Students produce a capstone project and compile a portfolio that integrates their course-based and experiential learning as well as internships, field studies, and/or volunteer service. Required of all ISSM students in their final semester. Prerequisite(s): senior standing in the integrated studies program and instructor consent.

ISSM 496 ~ Field Studies ~ 1-6 credits
Provides students with the option of pursuing an independent field studies learning experience consistent with the focus of their special major. Prerequisite(s): ISSM 300 and instructor consent.

ISSM 597 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

ITAL 101 ~ Beginning Italian I ~ 4 credits
Introduces the Italian language emphasizing the mastery of oral communication and use of the written language. Includes the fundamentals of grammar, speaking, reading, and pronunciation, supported by regular laboratory-type practice.

ITAL 102 ~ Beginning Italian II ~ 4 credits
Continues the study of the Italian language emphasizing the mastery of oral communication and use of the written language. Includes the fundamentals of grammar, speaking, reading, and pronunciation, supported by regular laboratory-type practice. Prerequisite(s): ITAL 101.

ITAL 201 ~ Intermediate Italian I ~ 4 credits
Offers a review of the fundamentals of Italian grammar and continues the development of speaking, listening, reading, and writing skills through the study and discussion of short reading selections. Prerequisite(s): ITAL 102 or equivalent.

ITAL 202 ~ Intermediate Italian II ~ 4 credits
Continues instruction on the fundamentals of Italian grammar and continues the development of speaking, listening, reading, and writing skills through the study and discussion of short reading selections. Prerequisite(s): ITAL 201 or equivalent.

ITAL 305 ~ Introduction to Italian Culture and Civilization ~ 4 units
Introduction to Italian culture, history, and geography, including art forms, literature, customs, traditions, economy, politics, music, fashion, food, and lifestyles. Challenges stereotypes of Italy, fosters cultural understanding, and strengthens ability to analyze, criticize, and discuss specific cultural topics. Encourages a comparative perspective reflecting the Italian social context, while contrasting cultural issues with comparable US issues.

JAPN 100 ~ Introduction to Japanese Language and Culture ~ 2 credits
Introduces the language and culture of Japan. Includes movies, guest speakers, and field trips. Involves mastering the Japanese phonetic alphabet and basic Kana. Covers word processing and Internet access in Japanese. Provides Japanese-oriented career information.

JAPN 101 ~ Beginning Japanese I ~ 4 credits
Introduces the Japanese language for students with no prior Japanese by developing listening, speaking, reading, and writing (Hiragana, Katakana, and Kanji). Looks at Japanese society and the features of Japanese culture that influence the use of the language in daily life. Students learn useful expressions for communicating with native speakers.

JAPN 102 ~ Beginning Japanese II ~ 4 credits
Continues to teach the Japanese language by developing listening, speaking, reading, and writing (Hiragana, Katakana, and Kanji). Looks at Japanese society and the features of Japanese culture that influence the use of the language in daily life. Students learn useful expressions for communicating with native speakers.

JAPN 103 ~ Elementary Japanese Reading I ~ 2 credits
Introduces contemporary Japanese through reading and writing Kanji. Corequisite(s): JAPN 101.

JAPN 104 ~ Elementary Japanese Reading II ~ 2 credits
Continues to teach contemporary Japanese through reading and writing Kanji. Corequisite(s): JAPN 102.

JAPN 195 ~ Special Topics ~ 1-6 credits
Studies a particular topic in the Japanese language and/or culture. Prerequisite(s): instructor consent.

JAPN 197 ~ Independent Study ~ 1-6 credits
Allows lower-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Prerequisite(s): instructor consent.

JAPN 201 ~ Intermediate Japanese I ~ 4 credits
Develops proficiency in listening, speaking, reading, writing, and developing cultural awareness. Students learn useful expressions and communication strategies for everyday situations in Japanese. Integrates the use of technology for Japanese word processing and Internet access. Corequisite(s): JAPN 102 or equivalent, or instructor consent. Corequisite(s): JAPN 203 when offered.

JAPN 202 ~ Intermediate Japanese II ~ 4 credits
Continues to develop proficiency in listening, speaking, reading, writing, and developing cultural awareness. Students learn useful expressions and communication strategies for everyday situations in Japanese. Integrates the use of technology for Japanese word processing and Internet access. For students with one year of Japanese. Prerequisite(s): JAPN 201 or equivalent, or instructor consent. Corequisite(s): JAPN 204 when offered.

JAPN 203 ~ Intermediate Japanese Reading I ~ 2 credits
Continuation of JAPN 103-104. Intermediate courses in the reading and writing of Kana and KANJI of contemporary Japanese. Required, must be taken concurrently with JAPN 201-202. Prerequisite(s): JAPN 102 or instructor consent. Corequisite(s): JAPN 201-202.

JAPN 204 ~ Intermediate Japanese Reading II ~ 2 credits
Continuation of JAPN 103-104. Intermediate courses in the reading and writing of Kana and KANJI of contemporary Japanese. Required, must be taken concurrently with JAPN 201-202. Prerequisite(s): JAPN 201 or instructor consent. Corequisite(s): JAPN 202.

JAPN 205 ~ Introduction to Japanese Culture and Civilization ~ 4 credits
Introduces Japanese culture, history, and geography, including art forms, literature, philosophy, customs and traditions, economy, and politics. Covers family life, education, occupations, and work. Includes the infrastructure of modern Japan, the cities, homes, transportation, and rural Japan. Explores traditional cultural arts such as the tea ceremony, flower arrangements, Noh drama, music, and Matsuri. Examines contemporary culture including cinema, music, literature, and pop culture topics such as Manga and Anime.
JAPN 301 ~ Advanced Japanese I ~ 4 credits
Continues to build proficiency as defined by the ACTFL Proficiency Guidelines. Develops listening, speaking, reading, and writing using context-based instruction on Japanese geography, climate, transportation, communication systems, agriculture, fisheries, and trading. Integrates Japanese word processing and Internet activities. For students with two or more years of proficiency. Prerequisite(s): JAPN 202 or equivalent.

JAPN 301S ~ Advanced Japanese I: Service Learning ~ 4 credits
Expands upon JAPN 301 content with an experience that enhances the students’ language skills through extensive aural, reading, writing, and cultural presentation experience in Japanese. Prerequisite(s): JAPN 202 or equivalent.

JAPN 302 ~ Advanced Japanese II ~ 4 credits
Continuation of JAPN 301. Prerequisite(s): JAPN 301 or instructor consent.

JAPN 303 ~ Business Japanese ~ 4 credits
Advanced conversation course that focuses on the situations and events that occur in the daily business environment including formal introductions, interviewing, telephone skills, making appointments, and requesting or refusing requests. Presents and expands on cultural concepts as they impact the business world using Internet business culture and videos from Japan. Prerequisite(s): JAPN 202 or equivalent.

JAPN 304 ~ Technical Japanese ~ 4 credits
Develops reading and writing skills by introducing frequently used technical vocabulary related to computers and science. Emphasizes KANJI and Katakana technical words along with grammar for reading technical reports, documents, and journals. Covers acquisition of: 1) technical Japanese grammar, 2) reading skills and strategies, 3) speaking and listening skills, and 4) writing skills. Includes roleplaying activities, developing presentation skills, and writing activities for faxes, letters, and resumes. Prerequisite(s): JAPN 201 or equivalent.

JAPN 305 ~ Introduction to Japanese Culture and Civilization ~ 4 credits
For world languages and cultures majors emphasizing Japanese language and culture. See course description for JAPN 205.

JAPN 306 ~ The Japanese Mind ~ 4 credits
Project-based course that looks behind the social mask the Japanese present to the outside world by examining the people, their life, and their “inner culture.” Covers modes of thinking and communicating, negotiating, and decision making, ethical systems, the central role of social status and consequent hierarchical relationships, patterns of making friends and influencing others; psychological factors such as dependence and duty; and the Japanese addiction to perfection.

JAPN 307 ~ The Japanese American Experience ~ 4 credits
Focuses on the Japanese American experience from the 1860s to the present day as an ongoing study in ethnographic assimilation. Includes early immigration and the U.S. response; immigration and labor laws; property rights; and WWII internment. Students identify issues of the ethics of assimilation, racial and ethnic discrimination, educational opportunity, social justice, and cultural identity. Students evaluate these issues according to when they occurred, by contemporary standards, and their own values.

JAPN 308 ~ Japanese Pop Culture, Anime, and Multimedia ~ 4 credits
Explores post WWII Japanese music, literature, artistic media, and hi-tech products. Investigates social themes ranging from post-Holocaust Japan to adult hedonism to childhood by looking at adult comic books (Manga) and animated movies (Anime). Includes popular music from Enka to Rock to Karaoke, fashion and style, popular technology, consumerism, and environmental issues. Explores the evolution of pop culture and its impact on society. Examines the development of multimedia technology in Japan and America.

JAPN 309 ~ Japanese Literature in Translation ~ 4 credits
Taught in English and covers Japanese literature translated into English including The Tale of Genji, the works of Yukio Mishima, Yasunari Kawabata, the legend of Miyamoto Musashi, and others.

JAPN 310 ~ Japanese Cinema ~ 4 Credits
An introductory scrutiny of major Japanese directors and genres with attention to film composition, choices of subject and character, ideas of the cinematic, and the relationship of cinema to Japanese culture and society. Students will analyze and critique films. Discussion of films will deal with the production of their historical, social, and cultural context, as well as issues dealing with popular culture and equity. Prerequisite(s): instructor consent.

JAPN 395 ~ Special Topics ~ 1-6 credits
Prerequisite(s): instructor consent.

JAPN 397 ~ Independent Study ~ 1-6 credits
Students design unique learning sequences that are pertinent to their learning plans and obtain authorization from their academic center. Prerequisite(s): instructor consent.

JAPN 401 ~ Advanced Japanese III ~ 4 credits
Develops advanced proficiency in listening, speaking, reading, and writing, using realistic and authentic materials. Prerequisite(s): upper-level course(s) or equivalent.

JAPN 402 ~ Advanced Japanese IV ~ 4 credits
Project-based course continues to develop advanced proficiency in listening, speaking, reading, and writing, using authentic materials. Prerequisite(s): JAPN 401 or instructor consent.

JAPN 405 ~ Economic History of Japan ~ 4 credits
Examines the evolution of Japanese economic institutions emphasizing the foundations of institutions necessary to the sequential stages of economic development. Includes the emergence of merchant families and banking houses during the Edo and Meiji eras. Explores the development of currency systems, institutions of public finance, transportation, international trade, the economic structure and institutions of modern Japan, and Japan’s role as a leading industrial nation.

JAPN 408 ~ Business in Japan ~ 4 credits
Focuses on the Japanese business world from the rebirth of Japan after WWII into a modern industrial, technological, and economic super power. Includes the development of technology, trade strategies and policies, and Japan in the 21st century.

JAPN 497 ~ Independent Study ~ 2-6 credits
Students design unique learning sequences that are pertinent to their learning plans and not covered in current courses. Students design a study proposal with appropriate faculty and obtain authorization from their academic center. Prerequisite(s): instructor consent.

JAPN 595 ~ Special Topics ~ 1-6 credits
Students design unique learning sequences that are pertinent to their learning plans and not covered in current courses. Students design a study proposal with appropriate faculty and obtain authorization from their academic center. Prerequisite(s): instructor consent.

KOR 101 ~ Beginning Korean I ~ 4 credits
Introduces basic spoken and written structures of standard Korean, and develops basic aural and oral skills emphasizing cultural context. Uses videotapes and audiotapes inside and outside of class.

KOR 102 ~ Beginning Korean II ~ 4 credits
Continues introducing basic spoken and written structures of “standard” Korean, and develops basic aural/oral skills emphasizing cultural context. Uses videotapes and audiotapes inside and outside of class. Prerequisite(s): KOR 101 or equivalent, or instructor consent.

KOR 197 ~ Independent Study ~ 1-6 credits
Allows lower-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Prerequisite(s): instructor consent.

KOR 395 ~ Special Topics: Korean History ~ 2 credits
This course provides a general and comprehensive knowledge of Korea for students interested in Korean studies. It provides to military and civilian personnel a convenient compilation of basic facts about social, economic, political, and military institutions and practices of North and South Korea.

LS 196 ~ Field Studies ~ 1-6 credits
Student and faculty member select topic of field study and number of credits. Prerequisite(s): instructor consent.
Course Descriptions: Liberal Studies

LS 197 ~ Independent Study ~ 1-6 credits
Allows low-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research.
Prerequisite(s): instructor consent.

LS 298S ~ Introduction to Teaching and Learning in a Culturally and Linguistically Diverse Society ~ 2 credits
Introduces students to the teaching profession and classroom work by examining the daily work of classroom teachers in multicultural schools. Explores student/youth issues and schooling, literacy development strategies, the dynamics of school/parent/community relationships, and the effects of educational policies and practices on culturally and linguistically diverse populations. Prerequisite to LS 398 and 398S.

LS 300 ~ Major ProSeminar: Orientation, Perspectives & Lifelong Learning ~ 4 credits
Focuses on academic orientation and lifelong learning skills that are applicable in academic and professional contexts: basic and advanced writing skills, critical thinking, collaborative learning, academic self-development, research, and multicultural education. In consultation with the ProSeminar instructor, students develop an Academic Learning Plan and an outcomes-based portfolio.

LS 323 ~ World Mythological Literature ~ 4 credits
Surveys world mythology and global mythologies including Hindu, Norse, Celtic, and American Indian. Examines the universal motifs which make cross-cultural stories similar in light of scholarly theory. Compares mythic literature from around the world.

LS 324 ~ World Mythology: The Return of the Great Goddess ~ 4 credits
Explores the historical existence, patriarchal suppression of, and the burgeoning rebirth of this ancient, anthropological tradition and its significance for gender equity, ecological awareness, Earth stewardship, and a cross-cultural appreciation for the important role women have played in all aspects of human history.

LS 351 ~ Human Development Across the Life Span ~ 4 credits
Surveys various theoretical perspectives on the biological and environmental determinants of human growth and development across the life span and draws from current social science research in examining the complex array of social, political, and cultural forces that combine to determine each individual's life course. Emphasizes applications to real world settings and provides opportunities for self-reflection as well as for field observation as a basis for integrative reflection. Liberal Arts requirement.

LS 356 ~ Infancy and Early Childhood ~ 4 credits
Focuses on psychoanalytic, behavioral, and other psychological theories in providing a rigorous introduction to the various biological, social, and cultural factors known to contribute to human growth and development, during the initial phases of life (infancy to preschool). Readings emphasize research and application, and field sites are designated for ongoing observation of children in preschool settings. (Child Development Concentration Course).

LS 360 ~ Child Development ~ 4 credits
Surveys theory and research on various aspects of child growth and development with a focus on multicultural, cross-cultural, and social policy issues. Addresses the current conditions of children in the United States and globally, and emphasizes the need for diverse and culturally competent policies and practices. Liberal Studies Major Requirement.

LS 360S ~ Child Development: Service Learning ~ 4 credits
Surveys theory and research on various aspects of child growth and development with a focus on multicultural, cross-cultural, and social policy issues. Addresses the current conditions of children in the United States and globally, and emphasizes the need for diverse and culturally competent policies and practices. Requires completion of a community service project. Liberal Studies Major Requirement.

LS 361 ~ Middle—Late Childhood ~ 4 credits
Focuses on behavioral and social learning theories as applied to such developmental issues of elementary school aged children, as individual differences in coping, adjustment, and achievement. Explores the ways children learn to negotiate the often-competing demands of the home and schooling cultures. Readings emphasize research and application, and field sites are designated for ongoing observation of children in schools and other community settings. (Child Development Concentration Course).

LS 361S ~ Middle-Late Childhood: Service Learning ~ 4 credits
Focuses on behavioral and social learning theories as applied to such developmental issues of elementary school aged children, as individual differences in coping, adjustment, and achievement. Explores the ways children learn to negotiate the often-competing demands of the home and schooling cultures. Readings emphasize research and application, and field sites are designated for ongoing observation of children in schools and other community settings. Requires completion of approved community service project. (Child Development Concentration Course).

LS 362 ~ Southeast Asian History and Culture ~ 4 credits
Introduces the history and culture of the Southeast Asians (SEA) who have migrated to the United States since 1975. Students develop the knowledge and skills of crosscultural competencies in a pluralistic and global society.

LS 365 ~ Adolescence: Context, Culture, and Development ~ 4 credits
Focuses on cognitive, ecological, and other psychological theories in examining the impact of culture and context on adolescent development. Devotes particular attention to the relationship between identity development, moral development, and motivation for achievement. Readings emphasize research and application, and field sites are designated for ongoing observation of teens in schools and other community settings. (Child Development Concentration Course).

LS 365S ~ Adolescence: Context, Culture, and Development- Service Learning ~ 4 credits
Focuses on cognitive, ecological, and other psychological theories in examining the impact of culture and context on adolescent development. Devotes particular attention to the relationship between identity development, moral development, and motivation for achievement. Readings emphasize research and application, and field sites are designated for ongoing observation of teens in schools and other community settings. Requires completion of a community service project. (Child Development Concentration Course).

LS 371 ~ Adulthood & Aging ~ 4 credits
Focuses on the consolidation of personal identity, the primary factors of adulthood, including career exploration and healthy intimacy. Draws readings from diverse sources, including psychological and sociological research and media.

LS 377 ~ Geriatrics and Gerontology ~ 4 credits
Examines the key issues, complexities and challenges all persons encounter in coming to terms with their mortality. Addresses the etiology of life altering events, quality of life for the elderly, and end of life choices. Issues are addressed from multicultural and universal perspectives.

LS 391 ~ Culture and Cultural Diversity ~ 4 credits
This learning experience develops competency in crosscultural analysis, involving a working knowledge of one's own ethnic heritage and the ability to make constructive comparisons with at least one other ethnic group. Addresses a conceptual understanding of culture, methodologies for studying and understanding culture, knowledge of cross-cultural relations in the United States, sociocultural experiences of U.S.-based social/ethnic groups, power relations and equity, and sociopolitical systems and effects on status of a cultural group.

LS 391S ~ Culture and Cultural Diversity: Service Learning ~ 4 credits
Same description as LS 391. Requires completion of an approved community service project.

LS 392 ~ Nature of Language and Language Acquisition ~ 4 credits
Examines basic elements of language, universals and differences. Includes theory and research in first- and second-language development, models of language analysis for understanding language acquisition and reading development. Includes an overview of language systems in terms of phonetics, phonology, morphology, syntax, semantics, and pragmatics.

LS 392S ~ Nature of Language and Language Acquisition: Service Learning ~ 1 credit
Examines basic elements of language, universals and differences. Includes theory and research in first- and second-language development, models of language analysis for understanding language acquisition and reading development. Includes an overview of language systems in terms of phonetics, phonology, morphology, syntax, semantics, and pragmatics. Requires completion of an approved community service project. Prerequisite(s): concurrent or previous enrollment in LS 392.

LS 394 ~ Multicultural Children's Literature ~ 4 credits
Familiarizes students with diverse and award-winning children's literature from various cultural groups. Engages students in identifying bias-free literature, shared readings, reading aloud activities, and opportunities to learn effective storytelling techniques. Examines literature within historical, sociopolitical, cultural, and psychological contexts with emphasis on differential power relationships.

LS 394S ~ Multicultural Children's Literature: Service Learning ~ 4 credits
Familiarizes students with diverse and award-winning children's literature and poetry from various cultural groups. Engages students in identifying bias-free literature, shared readings, reading aloud activities, and opportunities to learn effective storytelling techniques. Examines literature within historical, sociopolitical, cultural and psychological contexts with emphasis on differential power relationships. Requires completion of an approved community service project.

LS 395 ~ Special Topics ~ 1-8 credits
Studies a particular topic in the liberal studies major. May be repeated for credit when topics vary.
Prerequisite(s): upper-division class standing and instructor consent.
LS 396 ~ Field Studies ~ 1-8 credits
Upper-division students and faculty member select advanced topic of field study and number of credits. Prerequisite(s): instructor consent.

LS 397 ~ Independent Study ~ 1-8 credits
Allows upper-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Prerequisite(s): instructor consent.

LS 397s ~ Independent Study in Service Learning ~ 1-8 credits
Allows upper-division students to complete independent service learning experiences in the major. Students follow LS guidelines and requirements for service learning reflections, portfolio development, and assessment. Prerequisite(s): instructor and program director consent

LS 398s ~ Social Foundations of Multicultural/Multilingual Education ~ 2 credits
Examines issues, problems, and solutions to equitable schooling in a pluralistic society. Viewing schools as social institutions that reflect the values, and sociocultural and sociopolitical dynamics of society, the course focuses on history, politics, and theories of and approaches to the schooling of culturally and linguistically diverse populations. Requires completion of approved service learning hours and community projects. Formerly LS 393s, 4 credits. Prerequisite(s): LS 298s.

MAE 622 ~ Ethnographic Research Methods for Multicultural Education ~ 4 credits
Designed to give students a conceptual overview of qualitative research using ethnographic methods, and to help students understand and be able to describe the points of view of individuals who live and work in multicultural school settings. Gives an overview of traditional qualitative research methods leading to ethnography. Students use ethnographic and/or historical research skills to learn about students and schools in their own contexts, then further define the design for their action thesis and complete their proposal. Prerequisite(s): admission to Master of Arts in Education program, and successful completion of MAE 600.

MAE 625 ~ Professional Literature Seminar ~ 4 credits
This course helps students develop the literature review component of their action thesis. Students will engage in an in-depth and critical analysis of professional literature focused on the thesis topic.

MAE 630 ~ Emergent Literacy ~ 4 credits
Students will gain an advanced understanding of emergent literacy, for any age, from a psycholinguistic perspective. They will also develop an advanced understanding of language and language cueing systems, philosophies of reading and writing, assessment tools, current research into emergent literacy, and evaluation of appropriate learning materials and activities. Fieldwork will be included; students who are classroom teachers may use their own class for fieldwork.

MAE 632 ~ Arts as Culturally Responsive Curriculum ~ 4 credits
Takes an interdisciplinary approach to the integration of the visual and performing arts within the context of curriculum. Through examination of the Visual and Performing Arts Framework, readings, and in-depth study of culturally responsive material, students identify the unique elements of each of the arts [dance, drama, music, and visual arts] and apply the elements of each to a various curricular areas. Focuses on understanding the arts as a way of knowing.

MAE 633 ~ Multicultural Literature for a Partnership World ~ 4 credits
Examines issues, problems, and solutions to equitable schooling in a pluralistic society. Viewing schools as social institutions that reflect the values, and sociocultural and sociopolitical dynamics of society, the course focuses on history, politics, and theories of and approaches to the schooling of culturally and linguistically diverse populations. Formerly LS 393, 4 credits. Prerequisite(s): LS 298s.

MAE 634 ~ Literacy for Linguistically Diverse Learners ~ 4 credits
Students will examine teaching and learning theories within a sociocultural and politically conscious framework, trends in literacy instruction, instructional strategies for linguistically mixed classrooms, and literacy assessment. Students assess the literacy skills of first and second-language learners, develop applications for literacy based on culturally relevant pedagogical frameworks, and apply strategies for English language development and SDAE instruction. Contributes toward CLAD certification.

MAE 635 ~ Biliteracy for Spanish/English Learners ~ 4 credits
This course is designed for teachers in designated Spanish/English bilingual classrooms. Students will learn the processes and effective strategies for teaching reading and writing to bilingual students as well as assessment of literacy. This class will be taught in Spanish.

MAE 636 ~ Culture, Cognition, and Development ~ 4 credits
Students will examine relationships between culture, child development, cognition, and experiential learning of children in diverse cultural contexts. They will examine culturally different communities and families as contexts for learning, and apply theoretical principles of psychosocioemotional development to their teaching. They will develop their expertise in constructing and using culturally congruent instructional strategies in their own classrooms. This course contributes toward CLAD certification.

MAE 637 ~ Multicultural Curriculum Design ~ 4 credits
Students will analyze curriculum frameworks and materials that are recommended for multicultural teaching. They will develop a collection of good, useful multicultural and bilingual teaching resources, and networks for finding resources. They will practice constructing and teaching multicultural curriculum using different models of multicultural curriculum construction, and analyze the impact of their teaching on students.

MAE 638 ~ Multicultural Bilingual Education ~ 2 credits
Examines issues, problems, and solutions to equitable schooling in a pluralistic society. Viewing schools as social institutions that reflect the values, and sociocultural and sociopolitical dynamics of society, the course focuses on history, politics, and theories of and approaches to the schooling of culturally and linguistically diverse populations. Requires completion of approved service learning hours and community projects. Formerly LS 393s, 4 credits. Prerequisite(s): LS 298s.

MAE 639 ~ Multilingual Acquisition of Language ~ 4 credits
Required introductory seminar that examines cultural and political context of learning. Students contrast differing perspectives and ways of knowing regarding the school experience of students from diverse sociocultural groups. These perspectives are connected with various research traditions. In this course, students practice some simple action research strategies, and develop library skills for graduate work. Prerequisite(s): admission to Master of Arts in Education program.

MAE 640 ~ ProSeminar in Multicultural Bilingual Education ~ 4 credits
Required introductory seminar that examines cultural and political context of learning. Students contrast differing perspectives and ways of knowing regarding the school experience of students from diverse sociocultural groups. These perspectives are connected with various research traditions. In this course, students practice some simple action research strategies, and develop library skills for graduate work. Prerequisite(s): admission to Master of Arts in Education program.

LS 400 ~ Senior Capstone: Integration and Synthesis ~ 2 credits
The culminating learning experience in the major, the Capstone course requires students to demonstrate depth of knowledge, and integration and synthesis of their learning across the disciplines through a well-defined research paper and project. It is also the final point of revision and presentation of the Learning Portfolio that was developed initially in LS 300 Major ProSeminar. Prerequisites: completion of LS 300, remaining units at point of Capstone must be no more than 14 semester units (including the 2 units Capstone).

LS 595 ~ Special Topics ~ 1-8 credits
Studies a particular topic in the liberal studies major. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

LS 596 ~ Field Studies ~ 1-8 credits
Graduate students and faculty member select advanced topic of field study and number of credits. Prerequisite(s): instructor consent.

LS 597 ~ Independent Study ~ 1-8 credits
Allows graduate students and practitioners to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Prerequisite(s): instructor consent.

MAE 600 ~ ProSeminar in Multicultural Bilingual Education ~ 4 credits
Required introductory seminar that examines cultural and political context of learning. Students contrast differing perspectives and ways of knowing regarding the school experience of students from diverse sociocultural groups. These perspectives are connected with various research traditions. In this course, students practice some simple action research strategies, and develop library skills for graduate work. Prerequisite(s): admission to Master of Arts in Education program.

MAE 619 ~ Kaleidoscope of Latino Cultures ~ 4 credits
Students will explore the various significant historical periods and events in Latino cultures, with an emphasis on Mexico. Students will gain a better understanding of the Latino cultures and societies, and their relationship to students in the classroom. This course contributes toward the BCLA/D certificate.

MAE 621 ~ Qualitative and Quantitative Research Methods in Education ~ 4 credits
Students will examine frameworks, processes, and compositional approaches to designing qualitative and quantitative research studies in the field of education. They will experience an action research process which includes the context, purpose, questions, objectives, hypotheses, theoretical perspectives, definitions, delimitations, significance, a literature review, and various research methodologies. Students will further define the design for their action thesis and complete their proposal. Prerequisite(s): admission to Master of Arts in Education program, and successful completion of MAE 600.
MAE 638 ~ Technology as a Tool for Creativity in Multicultural Classrooms ~ 4 credits
Covers basic skills in computer use for effective instruction in various content areas (literacy, math, or science). Focuses on technology for capitalizing on children's creativity, helping children create knowledge, and taking responsibility for learning. Emphasizes new uses of technology for effective instruction in culturally diverse and inclusive classrooms. Uses a variety of technologies including computers, the Internet, and video.
Prerequisite(s): admission to Master of Arts in Education program or instructor consent.

MAE 639 ~ Reflective Teaching Practicum ~ 4 credits
Students will analyze classroom practice and the underlying theories in the context of principles of constructivism, multicultural, and critical pedagogy and classroom reform. Critical inquiry will be undertaken to examine the role of standards, assessment, and environments in an effective and emancipatory classroom. This practicum will entail analysis of one's own teaching, it offers candidates for National Board Certification opportunities to develop their NBPTS portfolio.

MAE 640 ~ Pluralism, Politics, and School Practices ~ 4 credits
Students will examine politics surrounding educational policies and instructional practices addressing cultural, linguistic, and gender diversity. They will examine their own schools and communities as political institutions, and develop strategies for negotiating and advocating for change in a politically astute manner.
Prerequisite(s): admission to Master of Arts in Education program or instructor consent.

MAE 641 ~ Paradigms in Assessment ~ 4 credits
Students will describe, interpret, and use multiple paradigms for student assessment (such as standardized assessment, authentic/portfolio assessment). This course will help to situate the development and use of various forms of assessment in a historic and political context.
Prerequisite(s): admission to Master of Arts in Education program or instructor consent.

MAE 670 ~ Capstone Seminar ~ 4 credits
This is the culminating learning experience for the MA in Education. By the time students begin this seminar, they should have collected data or completed at least half of the project. In the seminar, students will share their projects with each other for feedback, and polish the final version of their projects. Students will also complete the professional portfolio. Prerequisite(s): MAE 620, MAE 622, and MA thesis action proposal approved.

MAE 690 ~ Action Thesis Advising ~ 1 credit
Students should register for one credit of this course every semester between completion of research methods and capstone.

MAE 695 ~ Special Topics ~ 1-4 credits
Courses that are offered on a trial basis, or courses that may only appear once, are offered as special topics. Anytime a special topics course is offered, it will have a title clarifying its general focus.

MAE 697 ~ Independent Study ~ 1-6 credits
Student and faculty members select topic of study and number of credits.
Prerequisite(s): admission to Master of Arts in Education program or instructor consent.

MATH 98 ~ Mathematics Review I ~ 1-4 credits
Review of basic algebra skills intended primarily to prepare students for MATH 99. Focuses on topics from basic algebra and on effective communication of quantitative concepts and results. Not for baccalaureate credit.
Prerequisite(s): two years high school algebra and appropriate score on the ELM examination.

MATH 99 ~ Mathematics Review II ~ 4 credits
Refreshes algebra skills required for college-level math courses. Focuses on applications of linear, quadratic, exponential, and logarithmic equations stressing graphical, numerical, symbolic, and verbal techniques to describe and explore real-world data and phenomena. Not for baccalaureate credit.
Prerequisite(s): MATH 98 or consent of instructor.

MATH 100 ~ Quantitative Literacy ~ 4 credits
Covers linear, quadratic, exponential, and logarithmic functions; systems of equations and inequalities; simple and compound interest; annuities; loan, discrete probability; counting principles, frequency distributions, measures of central tendency, measures of dispersion, confidence intervals; areas, and volumes. Draws examples from applications in the social sciences, biological sciences, and business. Uses technology as a tool to acquire, visualize, and analyze data.
Prerequisite(s): passing grade on ELM test, or completion of MATH 99.

MATH 110 ~ Mathematics for Business ~ 4 credits
This college algebra level course covers essential mathematics for business students. Topics covered include product pricing, commercial discounts, depreciation and valuation, profits and payroll, interest, credit, bank discounts, and annuities. The course is taught in a computer lab using spreadsheet software.
Prerequisite(s): passing score on ELM test.

MATH 112 ~ Mathematical Modeling ~ 3 credits
Students use a variety of representations, tools, and technologies to link modeling techniques and purely mathematical concepts, and to solve applied problems. Prerequisite: instructor consent.

MATH 120 ~ Introductory Comparative Geometry ~ 3 credits
This course will develop student understanding of geometry by comparing and contrasting selected structures and theorems in Euclidean geometry with analogous or contrasting structures and theorems from at least two non-Euclidean geometries. Students will emerge with greater insight into Euclidean geometry, increased spatial understanding, appreciation of geometry as an abstract system, and knowledge of applications of both Euclidean and non-Euclidean geometrical concepts. Prerequisite(s): instructor consent.

MATH 121 ~ Precalculus for Teachers ~ 3 credits
This course will develop students' understanding of concepts needed in preparation for calculus. Intended for teachers of mathematics in grades 6-12. Students will study linear, exponential, polynomial, and rational relations. General functional notation, graphing, data analysis, and modeling will be emphasized. Students will complete projects involving a hands-on approach. Prerequisite(s): instructor consent.

MATH 122 ~ Mathematical Modeling ~ 3 credits
Introduces precalculus using an applications-based approach to discuss functions, exponential, logarithmic, trigonometric, and linear functions; data analysis; and mathematical modeling. (CAN Math 16)
Prerequisite(s): passing grade on ELM test.

MATH 130 ~ Calculus I ~ 4 credits
Includes limits, continuity, derivatives including trigonometric functions, chain rule, curve sketching, extremum problems, implicit differentiation, related rates, Mean Value Theorem, logarithmic and trigonometric functions, introduction to integration, fundamental theorem of calculus, substitution, and applications. (CAN MATH 18)
Corequisite(s): MATH 150L
Prerequisite(s): MATH 130 or equivalent, or a satisfactory score on the Mathematics Advisory Test.

MATH 150L ~ Calculus I ~ 1 credit
Meets two hours per week in a computer lab. The lab emphasizes the use of inductive reasoning, placing student teams in the role of researchers, as the carefully designed Mathematics activities guide them from specific real-world problems to rediscover the fundamental principals and formula of differential and integral calculus. Corequisite(s): MATH 150.

MATH 151 ~ Calculus II ~ 3 credits
Includes the calculus of exponential and logarithmic functions, trigonometric and inverse trigonometric functions, techniques of integration, separable differential equations, Taylor polynomials, L'Hôpital's rule, improper integrals, series, and introduction to partial derivatives. (CAN Math 20)
Corequisite(s): MATH 151L
Prerequisite(s): MATH 150 or equivalent.

MATH 151L ~ Calculus II ~ 1 credit
Meets two hours per week in a computer lab. The lab emphasizes the use of inductive reasoning, placing student teams in the role of researchers, as the carefully designed Mathematics activities guide them from specific real-world problems to rediscover the fundamental principals and formula of differential and integral calculus. Corequisite(s): MATH 151.

MATH 155 ~ Calculus I: Earth Systems Applications ~ 4 credits
The first half of a two-semester sequence, primarily for students intending to major in Earth Systems Science & Policy. Topics covered include continuity, differentiation, trigonometric, exponential, and logarithmic functions; inverse functions, and optimization problems in physical and life sciences. Students learn the basics of mathematical modeling, and how to interpret the results. Students use computer labs as part of the course.
Prerequisite(s): MATH 130 or equivalent, or a satisfactory score on the Mathematics Advisory Test, satisfaction of ELM requirement.

MATH 156 ~ Calculus II: Earth Systems Applications ~ 3 credits
The second half of a two-semester course, primarily intended for students intending to major in Earth Systems Science & Policy. Topics covered include integration, numerical integration, first and second order differential equations with applications to physical and life sciences. The instructor may cover additional topics such as vector notation. Students learn basic concepts of mathematical modeling, and how to interpret the results.
Corequisite(s): MATH 156L
Prerequisite(s): MATH 155 or equivalent, or instructor consent, satisfaction of ELM requirement.
MATH 156L ~ Calculus II : Earth Systems Applications Lab ~ 1 credit
The computer-laboratory component of Calculus II Earth Systems Applications. 
Prerequisite(s): MATH 156.

MATH 170 ~ Discrete Mathematics ~ 4 credits
Includes sets and sequences, elementary logic, relations, induction, counting principles, disrete
probability, Boolean algebra, logic networks, matrices, graph theory, and trees.
Prerequisite(s): passing grade on EVM test, MATH 130 or instructor consent.

MATH 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. 
Prerequisite(s): instructor consent.

MATH 250 ~ Multivariate Calculus ~ 4 credits
Vectors in three dimensions, solid analytic geometry, partial differentiation, multiple integra-
tion, differentiation under the integral sign, vector field theory. [CAN MATH 22]
Prerequisite(s): MATH 151 with C or better.

MATH 260 ~ Introductory Linear Algebra ~ 4 credits
Introduces matrices and systems of linear equations and covers topics such as determinants,
vectors in two and three dimensions, vector spaces, linear transformations, and eigenvector
eigenvalue decompositions. Emphasizes applications to real-world issues. Students use com-
puting technology for the course. [CAN Math 26]
Prerequisite(s): MATH 130 or equivalent, with a C or better.

MATH 304 ~ Modern Algebra ~ 4 credits
This course develops student understanding of the power of mathematical abstraction and
symbolism through the study of advanced algebraic structures. Matrices, groups, integral
domains, rings, and fields are studied and their relationship to the pre-college algebra cur-
riculum is discussed. The course emphasizes problem solving and requires students to use a
variety of algebraic representations and techniques to model and analyze problem situa-
tions and solutions.
Prerequisite(s): MATH 100 or equivalent, and instructor consent.

MATH 305 ~ Modern Geometry ~ 4 credits
This course introduces Euclidean and non-Euclidean geometries as vehicles for studying
axiomatic systems, for representing real world phenomena, and for visualizing mathemati-
cal ideas. The course emphasizes aesthetic and practical applications of geometry and
methods of proof. Students are required to do formal constructions and proofs using com-
pass, straightedge, and computer software.
Prerequisite(s): MATH 100 or equivalent, and instructor consent.

MATH 306 ~ Logic and Foundations ~ 4 credits
A careful analysis of methods of proof, axiomatic systems, consistency, the elaboration of
mathematical structures from a minimal set of axioms and basic principals of symbolic
logic. Students gain an understanding of the nature and purpose of axiomatic systems, and
the ability to prove fundamental theorems utilizing various mathematical systems.
Prerequisite(s): MATH 100 or equivalent, and instructor consent.

MATH 308 ~ Elementary Mathematics from an Advanced
Viewpoint A ~ 4 credits
Intended for future elementary teachers. Students in this course will develop an indepth
understanding of key concepts in K-8 mathematics and utilize learning of K-8 mathe-
matics concepts including: the base 10 number system, models and algorithms for whole-
number operations, basic concepts and operations of fractions, problem solving, and math-
etical inquiry.
Prerequisite(s): MATH 100 or equivalent.

MATH 390 ~ Advanced Topics in Applied Mathematics ~ 4 credits
An advanced study of logic and discrete structures that have application in computer sci-
ence. Topics include: logic, propositional and predicate calculus, proof structures, algo-
rithms, and complexity. The course emphasizes applications to core areas of computer sci-
ence, such as computer architecture, programming languages, the theory of computation,
artificial intelligence, software engineering, and relational databases.
Prerequisite(s): MATH 151 with C or better, or MATH 170 with C or better.

MATH 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. 
Prerequisite(s): instructor consent.

MATH 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. 
Prerequisite(s): instructor consent.

MIE 190 ~ Introduction to Business ~ 4 credits
For students with relatively little business management experience. Understanding roles of
business, issues of social responsibility and forms of business ownership. Roles of manage-
ment in specialized fields of human resources, finance, production and marketing. Students
explore opportunities and requirements in several business positions as well as assess per-
sonal interests and capabilities.
Prerequisite(s): MATH 110 (or concurrent enrollment).

MIE 200 ~ Introduction to Business Computing ~ 4 credits
Students demonstrate proficiency in business computing and problem solving skills. Topics to
be covered: Basic characteristics of PC hardware and software; Seal Server for file/infor-
mation exchange; Internet/Library resources; MS Word as a tool for effective writing; for-
mulating simple algebraic equations, understand the basic quantitative concepts and use
MS Excel as a tool to create effective spreadsheets capable of what-if analysis.
Prerequisite(s): MATH 110 (or concurrent enrollment).

MIE 201 ~ Macro Economics ~ 3 credits
Introduction to economics; analysis and theory of national income; money and banking;
public finance and taxation; and international trade. Primary concentration on marketbased
systems and the United States economy.
Prerequisite(s): MATH 110 (or concurrent enrollment).

MIE 202 ~ Micro Economics ~ 3 credits
Theory of prices and markets; industrial organization; public policy; income distribution;
and contemporary problems of labor and business.
Prerequisite(s): MATH 110 (or concurrent enrollment). MIE 201 recommended.

MIE 203 ~ Financial Accounting ~ 4 credits
Accounting principles and concepts essential to an understanding of the role of accounting
in the collection, interpretation and use of business data. While attention is given to the
uses of accounting data by investors, emphasis is on the needs of management and the lim-
rations and usefulness of accounting data for purposes of planning and controlling business
activities.
Prerequisite(s): MIE 200 (or concurrent enrollment).

MIE 204 ~ Business Mathematics and Statistics ~ 4 credits
Provides an overview of the basic mathematics skills and elementary statistical procedures
used in business applications and applied research settings. Places special preparatory
emphasis on the quantitative reasoning skills for entry to MIE 300 Major ProSeminar.
Prerequisite(s): MATH 151 with C or better.

MIE 309 ~ Elementary Mathematics from an Advanced
Viewpoint B ~ 4 credits
Second in a sequence of courses intended for future elementary and middle school teach-
ers. Students in this course will develop an in-depth understanding of additional key con-
cepts in K-8 mathematics and further develop their understanding of children's learning
processes in mathematics in general. This course will focus on rational numbers (decimals,
ration and proportion, percent), integers, variables and functions, and topics in geometry.
Prerequisite(s): MATH 308 or instructor consent.

MATH 320 ~ Probability and Statistics ~ 4 credits
Concepts of sample space, probability, random variable, expectation, moment, elementary
combinatorial analysis, moment generating function, distribution, density function, estimation the-
ory, hypothesis testing, regression, correlation, and an introduction to nonparametric statistics.
Prerequisite(s): MATH 151 with C or better.

MATH 330 ~ Linear Algebra & Applications ~ 4 credits
Linear equations and matrices, vector spaces, dual spaces and inner product spaces, linear
transformations, determinants, eigenvalues and eigenvectors, systems of linear differential
equations, and applications.
Prerequisite(s): MATH 250 with a C or better.
MIE 211 ~ Reading, Writing and Critical Thinking for Business I ~ 4 credits
This course, to be taken prior to or concurrently with the MIE ProSeminar, develops students’
empathetic and critical listening, speaking, reading and writing abilities. Students will be
exposed to the fundamental issues of business and society. They will develop ability in busi-
ness writing including letters, emails, memos and informal reports. In addition, students will
develop critical thinking skills through the objective analysis of one business issue.
Prerequisite(s): Freshman ProSeminar.

MIE 300 ~ Major ProSeminar ~ 2 credits
Students explore course option in various fields of business and entrepreneurship.
Additionally, students complete an assessment of their learning style strengths and weak-
nesses, life/career interests, and current level of competency in each of the Major Learning Outcomes. With this data, students develop a Learning Plan that will guide their learning experiences at CSUN and their continuing professional development.
Prerequisite(s): MATH 110, MIE 190, 200, 201, 202, 203, 204, 211; second-semester sophomore or junior standing in the MIE major.
Corequisite(s): This course must be taken concurrently with MIE 304.

MIE 303S ~ Participation in Community Economic Development ~ 4 credits
This course explores the role of community building and development in empowering
groups historically excluded from the economic mainstream and reflect on that experience.
Prerequisite(s): MIE 300.

MIE 304 ~ Reading, Writing, and Critical Thinking for Business II ~ 4 credits
Students refine their critical thinking skills through the analysis of several case studies. They
apply diverse approaches to practical reasoning and gain ability in listening, reading, writ-
ing, and responsible and effective advocacy. Students also develop resumes as they pre-
tapre to proceed through the MIE major.
Prerequisite(s): MIE 211 or an approved lower-division course on reading, writing and criti-
cal thinking; second-semester sophomore or junior standing in the MIE major.
Corequisite(s): This course must be taken concurrently with MIE 300.

MIE 305 ~ Principles of Management ~ 4 credits
Concepts of management including managerial roles, organizational and team dynamics,
leadership and motivation, decision making, ethical and legal issues, and communication.
Individually and in teams, students explore how organizations do or do not function effect-
tively in international and multicultural contexts. Students also develop management plans as part of their course business planning process.
Prerequisite(s): all lower division MIE prerequisites; MIE 300 and 304 (or concurrent enrollment).

MIE 306 ~ Fundamentals of Marketing ~ 4 credits
Identification of market opportunities, market and competitive analysis, consumer behavior
and demographics, marketing tools, development of marketing plans and programs, man-
gagement of the marketing and distribution value chain, product management, ethical and
legal aspects of marketing. Applications of Internet marketing are illustrated. Independently, in
teams, or in case studies, students perform market analysis and develop marketing plans as part of their course business planning process.
Prerequisite(s): all lower division MIE prerequisites; MIE 300 and 304 (or concurrent enrollment).

MIE 307 ~ Finance ~ 4 credits
Overview of financial markets and institutions. Financial planning and analysis, acquisition
and allocation of financial resources, risk management, and other aspects of building share-
holder value. Relationship to other aspects of enterprise management. International aspects of
financial management. Individually and in teams, students develop a business plan for a
new or expanding enterprise and defend the plan before real-world financial officers.
Prerequisite(s): all lower division MIE prerequisites; MIE 300 and 304 (or concurrent enrollment).

MIE 308 ~ Computer Information Systems ~ 4 credits
Understanding the importance of computers in our lives and in business; discuss the various
elements of computer hardware and software in use today; understand the various types of
operating systems; understand the use of spreadsheets as a problem solving tool, what-if
analysis and decision making tool; understand the use of list management for information
search and collation; use of Internet telecommunication; and use information as a tool for
marketing competitive advantage.
Prerequisite(s): all lower division MIE prerequisites; MIE 300 and 304.

MIE 309 ~ Principles of Operations Management ~ 4 credits
Overview of the transformation process, from materials to distribution of goods and ser-
VICES, in domestic and international enterprises. Examines principles and real-life applica-
tion of operations management tools such as total quality management, continuous produc-
tivity improvement, just-in-time inventory management, supply chain management, and enter-
prise resource management. Students use PC-based operations analysis and management tools to analyze case studies and to develop operations management components of multi-
disciplinary business plans.
Prerequisite(s): all lower division MIE prerequisites; MIE 300 and 304.

MIE 310 ~ Entrepreneurship ~ 4 credits
Focuses on the entrepreneurial process, opportunity recognition, entry strategies, market
opportunities and marketing, creation of a successful business plan, financial projections,
venture capital, debt and other forms of financing, external assistance for start-ups and small
businesses, legal and tax issues, intellectual property, franchising, and entrepreneurship eco-
nomics. Internet and eCommerce examples are provided.
Prerequisite(s): MIE 305, 306, and 307; instructor consent for non-MIE majors.

MIE 321 ~ Electronic Commerce: Business Models and Strategies ~ 4 credits
As businesses invest in the commercialization of the World Wide Web, firms are beginning
to experience dramatic shifts in standard business practices caused by the emergence of a
global electronic marketplace. What sorts of business and marketing models are firms
applying in this new environment? This hands-on course will focus on the marketing issues
surrounding commercialization of computer-mediated environments (CMEs) like the World
Wide Web and other emerging electronic media. MIE 321 may be taken concurrently with
MIE 306; for non-MIE majors, instructor consent.

MIE 322 ~ Product Management and Marketing for Startups ~ 4 credits
Two million new enterprises are launched each year, but 70 percent fail. Success requires
not only effective personal skills but also effective managerial and marketing skills. This
course will focus on the necessary characteristics to understand the wants and needs of cus-
tomers and tools/techniques to be successful, such as trade shows, online marketing, going
global, advertising, sales, public relations, publicity, customer relations and financing.
Prerequisite(s): MIE 306; instructor consent for non-MIE majors.

MIE 330 ~ Human Resources Management ~ 4 credits
Examines human resource management challenges confronting decision makers in a rapidly
changing global environment. Knowledge areas include: motivation, cross-cultural com-
munication, recruitment, selection, compensation, benefits, health and safety in the work-
place, legal requirements and limitations, affirmative action, and career development.
Prerequisite(s): MIE 305.

MIE 331 ~ Organizational Behavior ~ 4 credits
Explores individual and organizational behavior in the context of the environment, including
structures, processes, and systems. Knowledge areas include: communication, personality,
group dynamics, organization change and development, conflict and conflict resolution,
multiculturalism, ethics, leadership, decision making, and motivation. Abilities to apply
include: communication skills, decision making, problem solving, teamwork, handling ambi-
guity, taking initiative, and interpersonal sensitivity, including understanding of cross-cultural differences.
Prerequisite(s): MIE 305.

MIE 340 ~ Teamwork and Communication ~ 4 credits
Examines models of team development, group dynamics, and communication within a mul-
ticultural and cross-cultural organizational environment. Knowledge areas include: theories of
group dynamics and development, communication, conflict resolution, problem solving,
decision making, barriers to effective communication, cultural perspectives to teamwork
and communication. Abilities include development of empathy, social objectivity, verbal
and nonverbal communication, interpersonal sensitivity, and handling ambiguity.
Prerequisite(s): MIE 300; instructor consent for non-MIE majors.

MIE 342S ~ Diversity and Equity in Organizations ~ 4 credits
Students develop a critical awareness of issues of race, ethnicity, culture, age, gender, sex-
ual orientation, and disability in the context of interpersonal, intragroup, and intergroup
power relationships within organizations. Students identify the dominant cultural characteris-
tics in organizations and society and their impact on individuals and groups in organiza-
ations; learn to communicate across cultures; and learn how to create a multicultural organi-
ization.
Prerequisite(s): MIE 305.

MIE 351 ~ Business Law ~ 4 credits
Examines aspects of domestic and international commercial law which include selection of
a form of organization and legal creation of that type of organization; powers, responsibili-
ties, and potential liabilities of corporate shareholders, board directors, and officers;
accounting requirements; contracts, joint ventures and other agreements; mergers and
acquisitions; issuance of securities; and taxation. Aspects of international commercial law
include international accounting standards, international tax planning and management,
and legal aspects of international and capital markets.
Prerequisite(s): MIE 300; instructor consent for non-MIE majors.

MIE 354 ~ Geographic Information Systems for Demographic Analysis ~ 4 credits
The business community is rapidly becoming one of the largest users of Geographic
Information Systems (GIS) technology. Industry analysts predict that GIS will be a commonly
used application in business. This learning experience introduces the fundamentals of GIS
and its business applications and provides students with hands-on experience of solving a
variety of common business problems with GIS. Some examples are: creating and analyzing
markets; locating retail outlets; identifying target markets; conducting drive time analysis.
Prerequisite(s): MIE 308 (or concurrent enrollment) or instructor consent.
MIE 355 ~ International Financial Management ~ 4 credits
Examines financial management and accounting aspects of doing business in global markets. Applies international financial management techniques to practical problems of trade finance, evaluation of direct foreign investment, international project finance, reduction of political and other risks unique to international investment or lending, foreign exchange management, working capital management, and international tax planning. Also examines roles of major international financial markets and institutions. Emphasis is on real-life problems faced by small or medium-size enterprises.
Prerequisite(s): MIE 307, instructor consent for non-MIE majors.

MIE 356 ~ Personal Financial Management ~ 2-4 credits
Student will explore savings and investment strategies, costs, and other terms of borrowing alternatives, tax planning, self-employment options, and estate planning.
Prerequisite(s): MATH 110, MIE 190, 200, 201, 202, 203, 204, 211.

MIE 363 ~ Database Management: Methods and Applications ~ 4 credits
Examines database design and implementation using microcomputer database tools. Data management concepts and terminology currently in practice in the business world are discussed, including data and database administration, fundamentals of database management systems and models (network, hierarchical and relational), data sharing, retrieval, data dictionary, data proliferation, data integrity, and queries using SQL. Students will apply database software to create and administer databases to solve real-world problems.
Prerequisite(s): MIE 308 or instructor consent.

MIE 3715 ~ Ethics and Social Justice ~ 4 credits
Explores foundations of ethical reasoning, including cross-cultural and transactional implications. Knowledge areas include corporate social responsibility, impact of technology, economics, law, politics, and culture on ethical behavior, environmental issues, and employer-employee relations. Abilities to apply include development of ethical norms and ways to act consistent with them, positive regard for multiple perspectives; and awareness of one's beliefs and ability to communicate them. Students engage in 30 service hours. This course satisfies upper-division service learning requirement.
Prerequisite(s): MIE 300, 304, and 305.

MIE 382 ~ Managerial Accounting ~ 3 credits
Managerial uses of accounting data. Topics covered include budgeting and profit planning, cost-volume-profit relationships, principles and purposes of accounting information systems, designing and using internal cost control systems, identifying and tracking product costs, cost standards and variance analysis, and management reporting and decision making.
Prerequisite(s): MIE 203.

MIE 383 ~ Intermediate Accounting I ~ 3 credits
Prerequisite(s): MIE 382.

MIE 384 ~ Intermediate Accounting II ~ 3 credits
Prerequisite(s): MIE 383.

MIE 385 ~ Income Tax I ~ 3 credits
This course will focus on the Federal tax laws for individuals and most small businesses. The Federal tax form "1040" with its supporting schedules and forms will be analyzed. The course will also teach students how to make tax planning decisions for themselves, their families, their businesses, or perhaps, their clients.
Prerequisite(s): MIE 351 or instructor consent.

MIE 4125 ~ Practical Applications in Entrepreneurship ~ 4 credits
Uses examples of growing enterprises to examine how concepts of new venture strategy development and formation, financial management, and market development are applied in practice. Explores approaches to individual and corporate social responsibility in the context of both for-profit and nonprofit organizations. In addition to class assignments, students help a local nonprofit organization launch or sustain a new initiative serving an important community need. This course satisfies the upper-division service learning requirement.
Prerequisite(s): MIE 300 and 304; instructor consent for non-MIE majors.

MIE 421 ~ Marketing Research ~ 4 credits
A practical, comprehensive, applied, and managerial approach to both quantitative and qualitative marketing research. A step-by-step framework to defining problems, preparing a research design and sampling, information gathering, interpretation, and analysis and report preparation in a domestic and international context are explored.
Prerequisite(s): MIE 306, 320, and 321 or 322; instructor consent for non-MIE majors.

MIE 425 ~ Global Marketing ~ 4 credits
Examines the global marketing imperative, global marketing environment, developing global readiness, and global marketing strategies. Each student will also be engaged in a specific country’s market analysis, developing marketing strategies and marketing of a specific product or service.
Prerequisite(s): MIE 306 and instructor consent.

MIE 431 ~ Leadership in the Global Business Environment ~ 4 credits
This course focuses on (1) different theories and models of leadership effectiveness, and the various global business and cultural contexts appropriate to different leadership styles by examining leader-follower interaction, effective use of power, politics and influence, and understanding what motivates followers; (2) process of mobilizing and sustaining organizational vision, mission, core values, and ethical practices; and (3) development of organizational culture and change through effective communication.
Prerequisite(s): MIE 305 and instructor consent.

MIE 4335 ~ Management of Nonprofit Organizations ~ 4 credits
Covers the principles and practices of managing a nonprofit organization. Knowledge areas include strategic planning, human resource management, ethics and social responsibility, volunteer development, and influences of multiple stakeholders. In addition to reflecting on these topics, students examine actual practices of community organizations in education, health care, social services, and the arts and will engage in service learning in a designated community organization. This course satisfies the upper-division service learning requirement.
Prerequisite(s): MIE 305; instructor consent for non-MIE majors.

MIE 451 ~ Venture Formation and Finance ~ 4 credits
Examines venture formation and growth following completion of a business plan. Focuses on ongoing marketing, decision making, and accounting and financial management. Students examine startup and growth management issues faced by real life ventures and meet with entrepreneurs, small business lawyers and accountants, and investors. Students will also receive assistance in approaching potential sources of capital and other resources.
Prerequisite(s): MIE 307; instructor consent for non-MIE majors.

MIE 453 ~ Financing, Startup and Growth of Technical Ventures ~ 4 credits
Prepares students from MIE or other Institutes to pursue technology-based new venture opportunities. Topics include opportunity recognition and evaluation, new venture strategies and formation, marketing, financial management, entrepreneurial finance, and the process of sustaining organizational vision. Students will prepare and defend a business plan and identify sources of financing. If they have a promising opportunity, students will receive assistance in approaching potential sources of capital and other resources.
Prerequisite(s): MIE 307; instructor consent for non-MIE majors.

MIE 460 ~ Electronic Commerce: System Management and Strategies ~ 4 credits
Advanced level course that provides an understanding of the new business models and technological concepts for management of end-to-end e-business solutions. Designed as a selective, interdisciplinary survey of e-business topics at the intersection of strategy, marketing, operations, and technology. Students learn about current practices and opportunities in electronic commerce by developing real-world projects. Also explores other topics such as security-authentication, privacy-encryption, privacy rights, and ethical issues.
Prerequisite(s): MIE 308; instructor consent for non-MIE majors.

MIE 461 ~ Decision Support Systems ~ 4 credits
Examines the structure and applications of decision support systems for entrepreneurial or managerial problem solving and decision making. Theory, methodology, and implementation of computer-based decision support models are presented. Computer-based decision models involve an integration of quantitative tools and concepts and computing. Emphasis is on the structure and development of such models for managerial decision making. Students will apply the DSS software to develop these models and implement those in real-world systems.
Prerequisite(s): MIE 308 and 309.

MIE 462 ~ Information Technology Management ~ 4 credits
This course focuses on the technological innovation and entrepreneurial processes within business organizations. Students examine the interaction among markets, technology, and organization which fosters innovation as the basis for commercially viable, sustainable new market initiatives. Primary emphasis is on information technology.
Prerequisite(s): MIE 308 (or concurrent enrollment).

MIE 463 ~ Electronic Commerce: Design and Development ~ 4 credits
Electronic Commerce has emerged as a crucial channel allowing a business to expand markets, offer instant service, and forge close links with customers, partners, and vendors. This course provides essentials of developing and managing an electronic commerce initiative. Students will gain hands-on experience using the hardware, software, and applications in establishing and developing an ecommerce site. The course focuses on learning various technology and design issues and building a prototype of an ecommerce site.
Prerequisite(s): MIE 308; MIE 363 (or concurrent enrollment).
MIE 464 ~ Visual Basic for Business Applications ~ 4 credits
Computer technology makes it possible to combine computer programming and development of user-interactive screens with minimal effort and limited knowledge of programming techniques and languages. Microsoft Visual Basic is used to develop a complete application, including buttons, menus, and other objects on the screen that prompt the user for feedback and facilitate user interaction. Course covers fundamentals of systems analysis and program development using top-down design, structured programming, debugging/testing/implementation, and elementary data structures. Prerequisite(s): MIE 308; for non-MIE majors, instructor consent.

MIE 481 ~ Accounting Theory ~ 3 credits
Interpretation of the two major accounting boards of this country—the Financial Accounting Standards Board and the Government Accounting Standards Board. Students learn why and how accounting decisions are made, including discussion of “generally accepted accounting principles.” Prerequisite(s): MIE 384.

MIE 482 ~ Audit I (Financial Auditing) ~ 3 credits
Roles and responsibilities of independent auditor. Generally accepted auditing practices and standards; professional ethics. Auditing procedures, planning the audit, work paper preparation, report writing, rendering an opinion on financial statements. Requires use of spreadsheet software. Prerequisite(s): MIE 384.

MIE 483 ~ Audit II (Operational Auditing) ~ 3 credits
Technical, ethical, and policy aspects of operational auditing. Effectiveness of audits in the for-profit and not-for-profit sectors. Issues in operational auditing and case studies of how these issues have been addressed. Prerequisite(s): MIE 482.

MIE 484 ~ Advanced Accounting I ~ 3 credits
Principles and applications of accounting for Partnerships and Corporations, including purchase, pooling, mergers, and acquisition. Prerequisite(s): MIE 384.

MIE 490 ~ Portfolio Assessment and Review ~ 2 credits
Assesses and provides guidance to students in the development of learning plans through individual coaching, mentoring, and roundtable discussions with faculty. Formerly MIE 490/490A. Prerequisite(s): MIE 305-307 and consent of instructor.

MIE 493 ~ International Comparative Management ~ 4 credits
This course focuses on differences and similarities between management concepts and practices across the cultures and geographic boundaries; the role and impact of multinational corporations (MNCs) on global economy; cultural influences and impacts on global management practices; comparative leadership studies; global competitive strategies; international communication; political risks analyses; negotiations; human resources development across the cultures; labor relations; and ethics and social responsibility. Prerequisite(s): MIE 305; two MIE upper-division electives, and instructor consent.

MIE 494 ~ International Business Study Tour ~ 4 credits
Tours focus on one of the following regions: Pacific Basin, Latin America and Canada, Europe or the Middle East. The learning experience consists of one or more orientation sessions prior to travel and visits to foreign port facilities, customs officials, U.S. council or offices, banking officials, cultural sites, educational institutions, and various industrial sites. After the travel, students conclude the learning experience by developing a deliverable for the portfolio, which synthesizes their learning. Prerequisite(s): MIE 305-309 and instructor consent.

MIE 495 ~ Special Topics: Practicum in Managerial and International Entrepreneurship ~ 1-4 credits
The Practicum provides students a practical opportunity to apply—as a team with faculty members—the entrepreneurial concepts, principles and practices they have learned in the classroom in a real-world organizational context. Prerequisite(s): MIE 305-309 and instructor consent.

MIE 498 ~ Internship ~ 4 credits
Internship under the direction of a faculty member. Faculty will assist students in clarifying internship objectives, identifying candidate organizations within which to conduct an internship, and structuring and negotiating internship agreements. They will also act as handson mentors throughout the internship. As a matter of Institute policy, except in highly unusual situations, only paid internships are accepted. The student must prepare an internship proposal approved by the appropriate faculty member prior to registration. Prerequisite(s): MIE 305-309 and instructor consent.

MIE 499 ~ MIE Senior Capstone ~ 4 credits
Senior capstone bridges the gap between theory and practice by developing an understanding of when and how to apply concepts and techniques learned in earlier courses in marketing, accounting, finance, management, production, and information systems. Strategic management concepts, research, and theories provide the analytical framework resulting in a capstone project and a portfolio that demonstrates that students have attained each MLO. Prerequisites: MIE 490, 304-309; eight units of MIE upper-division electives; candidate for graduation by end of semester in which enrolled in this course.

MIE 595 ~ Special Topics: Graduate ~ 1-6 credits
Contact the academic program office for further information. Prerequisite(s): bachelor degree and instructor consent.

MIE 597 ~ Independent Study—Graduate Level ~ 4 credits
Graduate level independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member and graduate advisor prior to registration. Prerequisite(s): bachelor degree and instructor consent.

MLML 404 ~ Quantitative Marine Science (MLML Catalog: MLML 104) ~ 4 credits
Covers mathematical methods for analysis of biological, chemical, and physical marine environment data; experimental design, and parametric and nonparametric statistics. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 405 ~ Marine Science Diving (MLML Catalog: MLML 105) ~ 3 credits
Scientific SCUBA diving course. Lecture topics include diving physics, physiology, dive planning, research diving techniques, marine life identification, and diver rescue. Open water diving training includes navigation, search and light salvage, scientific methods, small boat diving, photography and videography, and night diving. Successful completion gives NAUI and MLML/CSUH diving certification. Not for major credit. Offered every semester. Prerequisite(s): Certified SCUBA diver (or equivalency as determined by instructor); upper division science major status, thorough physical examination, ability to pass swimming test, instructor consent.

MLML 473 ~ Topics in Marine Biology (MLML Catalog: MLML 173) ~ 1-4 credits
Studies a selected area in marine biology such as morphology, physiology, or ecology. Subjects vary depending on student demand and availability of instructors. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 474 ~ Topics in Oceanography (MLML Catalog: MLML 174) ~ 1-4 credits
Studies a selected area in oceanography. Subjects vary depending on student demand and availability of instructors. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 475 ~ Topics in Marine Sciences (MLML Catalog: MLML 175) ~ 1-4 credits
Studies a selected area in the marine sciences. Subjects vary depending on student demand and availability of instructors. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 480 ~ Moss Landing Marine Laboratories Independent Study (MLML Catalog: MLML 180) ~ 1-4 credits
Faculty-directed study of selected problems, open to undergraduate students with adequate preparation. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Note: SFSU and CSUH students must file a petition with their home campus department before admission to class. Prerequisite(s): instructor consent.

MLML 503 ~ Marine Ecology (MLML Catalog: MLML 103) ~ 4 credits
Introduces the interactions between marine and estuarine organisms and their environment emphasizing quantitative data collection and analysis. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 510 ~ Introduction to Marine Animal Behavior (MLML Catalog: MLML 110) ~ 4 credits
Introduces basic theoretical concepts of animal behavior, stressing the causation, development, and evolution of behavior. Emphasizes the marine environment. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 503 or instructor consent.
MLML 512 ~ Marine Birds and Mammals (MLML Catalog: MLML 112) ~ 4 credits
Covers systematics, morphology, ecology, and biology of marine birds and mammals. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): vertebrate zoology and instructor consent.

MLML 513 ~ Marine Ichthyology (MLML Catalog: MLML 113) ~ 4 credits
Describes the taxonomy, morphology, and ecology of marine fishes. Field and laboratory work concentrate on the structure, function, and habits of marine fishes and the ecological interactions of these fishes with their abiotic and biotic surroundings. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): college zoology and instructor consent.

MLML 524 ~ Marine Invertebrate Zoology I (MLML Catalog: MLML 124) ~ 4 credits
Field-oriented introduction to the structure, systematics, evolution, and life histories of the major marine phyla. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): college zoology and instructor consent.

MLML 525 ~ Marine Invertebrate Zoology II (MLML Catalog: MLML 125) ~ 3-4 credits
Field-oriented introduction to the structure, systematics, evolution, and life histories of the minor invertebrate phyla. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): college zoology and instructor consent.

MLML 531 ~ Marine Botany (Moss Landing Catalog: MLML 131) ~ 4 credits
Covers plants of the sea, marshes, and dunes emphasizing the morphology, taxonomy, and natural history of seaweeds and vascular plants. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 535 ~ Physiology of Marine Algae (MLML Catalog: MLML 135) ~ 4 credits
Students gain an understanding of the adaptations of marine algae to their environment. Requires field trips for specimen collection and shipboard experiments. Focuses on the biology of seaweeds and phytoplankton. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 541 ~ Geological Oceanography (MLML Catalog: MLML 141) ~ 4 credits
Presents structures, physiography, and sediments of the sea bottom and shoreline. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 542 ~ Physical Oceanography (MLML Catalog: MLML 142) ~ 4 credits
Covers the nature and causes of various oceanic motions, including currents, waves, tides, and mixing. Includes the properties of seawater including transmission of sound and light. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): instructor consent.

MLML 543 ~ Chemical Oceanography (MLML Catalog: MLML 143) ~ 4 credits
Introduces the theoretical and practical aspects of the chemistry of the oceans including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): college chemistry and instructor consent.

MLML 544 ~ Biological Oceanography (MLML Catalog: MLML 144) ~ 4 credits
Presents the ocean as an ecological system by emphasizing the complexity of environmental influences on plankton, the transfer of organic matter among trophic levels, and nutrient cycles. Laboratory sessions include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): general biology, general chemistry, and instructor consent.

MLML 561 ~ Marine Fisheries (MLML Catalog: MLML 161) ~ 4 credits
Introduces fishery biology including the concepts of stock, recruitment, and yield emphasizing the parameters of abundance, age, growth, and mortality. Offered through Moss Landing Marine Laboratories (MLML); contact the ESSP program office for MLML registration procedures. Prerequisite(s): college mathematics, statistics, and instructor consent.

MLML 574 ~ Topics in Oceanography ~ 1 credit
Course description not available, contact ESSP program office.

MLML 577 ~ Microscopic Techniques (MLML Catalog: MLML 177) ~ 3 credits
Covers the principles and techniques of light microscopy. Considers brightfield, darkfield, phase contrast, and interference contrast light microscopy, episcopic and diascopic illumination systems, photomicrography, and video microscopy. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Listed as ESSP 393 prior to Fall 1996. Prerequisite(s): ESSP 120, 121, or equivalent, and instructor consent.

MLML 580 ~ Independent Study ~ 1-4 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): Instructor consent.

MLML 602 ~ Marine Instrumental Analysis (MLML Catalog: MLML 202) ~ 4 credits
Theory and use of advanced instrumentation; advanced field and laboratory techniques for the interpretation of data collected in marine science research. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 405, MLML 542 or equivalent, and instructor consent.

MLML 604 ~ Sampling and Experimental Design (MLML Catalog: MLML 204) ~ 4 credits
Covers the basic design of experiments and field sampling, including random and systematic sampling, subsampling, survey techniques, single and multifactor experiments using randomized, nested, and blocked experimental designs, and data analyses. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 404, MLML 503, and instructor consent.

MLML 608 ~ Molecular Ecology: Concepts and Methods ~ 4 credits
Molecular ecology is the use of genetic information to address questions concerning the interactions of organisms with their environment. Lectures; molecular markers can be used to assess diversity in communities, to characterize spatial and temporal variation in species composition, discriminate individuals, reveal kinship among individuals, expression of genes that are important in organismal responses to environmental fluctuation. Laboratory, basic molecular methods such as DNA and RNA isolation, amplification, cloning, and DNA sequencing will be taught. Enrollment limited. Prerequisite(s): Basic course in cellular/molecular biology, consent of instructor.

MLML 611 ~ Ecology of Marine Birds and Mammals (MLML Catalog: MLML 211) ~ 4 credits
Community approach to the ecology of marine birds and mammals using experimental sampling methodology. Examines the distribution, abundance, trophic ecology, and behavior of birds and mammals in Elkhorn Slough and Monterey Bay. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 405, 503 and 512, and instructor consent.

MLML 612 ~ Advanced Topics in Marine Vertebrates (MLML Catalog: MLML 212) ~ 4 credits
Advanced consideration of the ecology, physiology, and phylogeny of fishes, birds, or mammals, emphasizing current literature and research. May be repeated for credit when topics change. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 512, MLML 513 and instructor consent.

MLML 613 ~ Advanced Topics—"Advance Ichthyology" ~ 4 credits
Course description not available, contact ESSP program office.

MLML 621 ~ Advanced Topics in Marine Invertebrates (MLML Catalog: MLML 221) ~ 4 credits
Advanced consideration of the ecology, physiology, and phylogeny of the various invertebrate phyla emphasizing current literature and research. May be repeated for credit when topics vary. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML registration procedures. Prerequisite(s): MLML 524 or instructor consent.
MLML 622 ~ Biology of the Mollusca (MLML Catalog: MLML 222) ~ 4 credits
Systematic, functional morphology, ecology, and physiology of the mollusca with emphasis on
the marine forms. Offered through Moss Landing Marine Laboratories (MLML); contact
ESSP program office for MLML registration procedures.
Prerequisite(s): MLML 524 or instructor consent.

MLML 631 ~ Biology of Seaweeds (MLML Catalog: MLML 231) ~ 4 credits
Discussions on marine macroalgal biology with extensive reading of original literature.
Involves ecologically oriented individual research projects using laboratory culture and field
experimentation. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP
program office for MLML registration procedures.
Prerequisite(s): MLML 531 or instructor consent.

MLML 633 ~ Advanced Topics in Marine Ecology (MLML Catalog: MLML 233) ~ 1-4 credits
Covers selected topics and current issues in marine ecology. May be repeated for credit
when topics vary. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP
program office for MLML registration procedures.
Prerequisite(s): MLML 503 and instructor consent.

MLML 634 ~ Advanced Biological Oceanography (MLML Catalog: MLML 234) ~ 4 credits
Presents experimental techniques in biological oceanography emphasizing problems in
plankton ecology. Includes lectures, labs, and discussions of current research problems.
Requires an individual research project involving the use of one or more modern analytical
tools. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program
office for MLML registration procedures.
Prerequisite(s): MLML 544 or instructor consent.

MLML 642 ~ Plate Tectonics (MLML Catalog: MLML 242) ~ 3 credits
Covers the historical background, modern theory, and geophysical evidence of continental
drift, sea floor spreading, and plate tectonics. Examines the impact of the recent revolution
in historical geology. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP
program office for MLML registration procedures.
Prerequisite(s): MLML 541 or instructor consent.

MLML 644 ~ Paleooceanography (MLML Catalog: MLML 244) ~ 4 credits
Studies the provenance, biological and geologic composition of marine sediments, organ-
isms contributing to their formation, and sedimentary processes affecting these sediments.
Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office
for MLML registration procedures.
Prerequisite(s): MLML 541 or instructor consent.

MLML 645 ~ Deep Sea Sedimentation (MLML Catalog: MLML 245) ~ 4 credits
Studies the types of marine sediment found in the deepest part of all oceans, and the sedi-
mentary processes responsible for the deposition, preservation, and redeposition of these
sediments. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP pro-
gram office for MLML registration procedures.
Prerequisite(s): MLML 541 or instructor consent.

MLML 651 ~ Marine Geochemistry (MLML Catalog: MLML 251) ~ 4 credits
Studies geochemical processes in the oceans: thermodynamics of low-temperature aqueous
reactors, weathering, oxidation reduction, biologically mediated reactions, and processes
occurring at the sea floor and air-sea interface. Offered through Moss Landing Marine
Laboratories (MLML); contact ESSP program office for MLML registration procedures.
Prerequisite(s): MLML 404, MLML 543, and one year of calculus, or instructor consent.

MLML 661 ~ Ocean Circulation and Mixing (MLML Catalog: MLML 261) ~ 4 credits
Explores the mathematical description of the distribution of properties in the oceans relating
to physical and biochemical processes. Equations of motion, geostrophic method, and the-
ory of distribution of variables. Offered through Moss Landing Marine Laboratories (MLML);
contact ESSP program office for MLML registration procedures.
Prerequisite(s): MLML 542 and college physics strongly recommended, or instructor consent.

MLML 662 ~ Satellite Oceanography (MLML Catalog: MLML 262) ~ 4 credits
Studies the physical principles of remote sensing of Earth’s oceans, including satellite systems,
geographic applications of satellite imagery, and image processing methods. Labs involve use of
PC and UNIX workstation image processing. Offered through Moss Landing Marine
Laboratories (MLML); contact ESSP program office for MLML registration procedures.
Prerequisite(s): MLML 542 and MLML 544, or instructor consent; MLML 653 and computer
literacy recommended.

MLML 663 ~ Applications of Computers in Oceanography (MLML Catalog: MLML 263) ~ 4 credits
Offers lecture, discussion, and practical experience with a multiuser computer for marine
science applications including existing programs and subroutine libraries, computer commu-
nications, and scientific programming for data input/output and output. Requires a semes-
ter project. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP pro-
gram office for MLML registration procedures.
Prerequisite(s): MLML 404, college math, and instructor consent.

MLML 671 ~ Population Biology (MLML Catalog: MLML 271) ~ 3 credits
Covers the interaction among marine organisms which result in the alteration of population
structures. Presents techniques for assessment and management of populations. Offered
through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML
registration procedures.
Prerequisite(s): MLML 503, or instructor consent.

MLML 672 ~ Subtidal Ecology (MLML Catalog: MLML 272) ~ 4 credits
Studies the ecology of near-shore rocky subtidal populations and communities emphasizing
kelp forests. Offers lectures and discussions of original literature. Includes fieldwork with
scuba diving, group projects on underwater research techniques, community analysis, and
individual research on ecological questions. Offered through Moss Landing Marine
Laboratories (MLML); contact ESSP program office for MLML registration procedures.
Prerequisite(s): MLML 541, diver certification, MLML 503, instructor consent, and knowledge of
marine algae, invertebrates, and statistics recommended.

MLML 674 ~ Advanced Topics in Oceanography (MLML Catalog: MLML 274B) ~ 1-4 credits
Studies a selected area in oceanography. Subjects vary depending on student demands
and availability of instructors. May be repeated for credit when topics vary. Offered
through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML
registration procedures.
Prerequisite(s): instructor consent.

MLML 680 ~ Scientific Writing (MLML Catalog: MLML 280) ~ 2 credits
Presents techniques and strategies of scientific writing used for proposals, journal submis-
sions, and abstracts for meetings. Students develop writing skills by preparing, editing, and
rewriting manuscripts. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP
program office for MLML registration procedures.
Prerequisite(s): graduate standing and instructor consent.

MLML 685 ~ Graduate Seminar in Marine Biology (MLML Catalog: MLML 285) ~ 2 credits
Requires students to give at least one seminar. May be repeated once for credit. Offered
through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML
registration procedures.
Prerequisite(s): graduate standing and instructor consent.

MLML 686 ~ Graduate Seminar in Marine Geology (MLML Catalog: MLML 286) ~ 2 credits
Requires students to give at least one seminar. May be repeated once for credit. Offered
through Moss Landing Marine Laboratories (MLML); contact ESSP program office for MLML
registration procedures.
Prerequisite(s): graduate standing and instructor consent.

MLML 687 ~ Graduate Seminar in Oceanography (MLML Catalog: MLML 287) ~ 2 credits
Requires students to give at least one seminar. Offered through Moss Landing Marine
Laboratories (MLML); contact ESSP program office for MLML registration procedures.
Prerequisite(s): graduate standing and instructor consent.

MLML 698 ~ Research in the Marine Sciences (MLML Catalog: MLML 298) ~ 1-4 credits
Graduate students conduct advanced, independent investigations with adequate prepa-
ration. Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program
office for MLML registration procedures.
Prerequisite(s): graduate standing and instructor consent.

MLML 699 ~ Masters Thesis (MLML Catalog: MLML 299) ~ 1-4 credits
Offered through Moss Landing Marine Laboratories (MLML); contact ESSP program office
for MLML registration procedures.
Prerequisite(s): graduate standing and instructor consent.
MPA 100 ~ Introduction to Music ~ 1 ~ 4 credits
Introduces the student to music terminology and fundamental concepts in music theory. Course is highly recommended for students wishing to further their studies in music (this course is taught only during fall semesters).

MPA 101 ~ Musicianship and Theory ~ 1 ~ 4 credits
Fundamentals of music and notation. Major, minor scales, intervals, triads, and inversions, rootposition 7th chords, and the beginning harmonic analysis. Emphasis on the development of the ear and exercises of pulse, rhythm, pitch, and coordination. Dictation and sight singing. Formerly known as Basic Musicianship I.

MPA 102 ~ Musicianship and Theory ~ 2 ~ 4 credits
Triads and 7th chords and their inversions. Introduces modes, melodic and harmonic analysis, four-part harmony, and keyboard harmony. Sight singing, ear training, and dictation. Knowledge of musical notation and scales required. Formerly known as Basic Musicianship II. Prerequisite(s): MPA 101; students who wish to take this course and have not taken MPA 101 should consult the instructor.

MPA 121 ~ Introduction to Modern Dance ~ 1 credit
Explores modern dance based on Laban Movement Analysis. Focuses on principles of movement, personal expression, and creative exploration. Includes floor work to build inner awareness and fundamental understanding of body mechanics, standing technique to build strength, range of motion, and a vocabulary for movement to build coordination, musicality, use of space, and phrasing. Formerly HWI 122.

MPA 122 ~ Beginning Ballet ~ 1 credit
This class assumes that the student has no prior knowledge of ballet. Explores the fundamentals of ballet including alignment, turn out, breathing, and balancing of strength and flexibility. Ballet vocabulary will be introduced and there will be a focus on coordination, movement quality, and self-expression. Formerly HWI 122.

MPA 123 ~ Advanced Beginning Ballet ~ 1 credit
This class assumes that the student has some knowledge of ballet. Classes will continue to practice the fundamentals of ballet including alignment, turn out, breathing and balancing of strength and flexibility. A methodical progression of ballet vocabulary will continue to be developed. There will be an increased focus on coordination, movement quality, and musicality and self-expression. Formerly HWI 122.

MPA 196 ~ Field Studies ~ 1-6 credits
Individualizes student placement for field study as related to music and performing arts. Prerequisite(s): Instructor consent.

MPA 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

MPA 225 ~ Ballet Folklorico ~ 1 credits
Inspires, motivates, and challenges students to expand their cultural world creatively through movement. Teaches the historical and cultural roots, traditions, and basic techniques and styles of different Mexican dances. Formerly HWI 225.

MPA 226 ~ Beginning Movement and Theatre Design ~ 3 credits
Designed for students interested in an introductory study in movement with emphasis in integrating relating arts. Combines movement learning with studio experiences in the integration of dance, music, drama and literature. The projects resulting from this course provide learning experiences in the arts and humanities. Formerly HWI 226.

MPA 227 ~ Jazz Dance I ~ 1 credit
Offers students the skills and movement at the high-energy caliber of the jazz flavor. Incorporates the cultural perspective of movement and dance. Formerly HWI 227.

MPA 228 ~ Jazz Dance II ~ 1 credit
Continues the study of jazz dance techniques at an advanced level. Formerly HWI 228. Prerequisite(s): MPA 227 or equivalent, or instructor consent.

MPA 233 ~ Expressive Arts ~ 4 credits
Lecture and lab course explores the expressive nature of the human being through the study of public visual art, music, dance, and/or drama. Examines myth and ritual through history as it relates to today.

MPA 295 ~ Special Topics ~ 1-6 credits
Studies a particular topic in the Music and Performing Arts academic program. May be repeated for credit when topics vary.

MPA 301 ~ Music for Children ~ 4 credits
Provides an overview of musical materials, concepts, and skills appropriate for teaching music in elementary school classrooms. Teaches music fundamentals with the applied development of basic skills on such instruments as guitar and piano. Prerequisite(s): upper-division students preparing for a career in elementary education.

MPA 306 ~ MIDI Fundamentals ~ 4 credits
Introduction to MIDI and MIDI sequencing using Macintosh and PC systems. Creative application of synthesizers and controllers. MIDI software applications, sound design, effects, and mixing in a MIDI environment. Use of computer-based hardware sequences, MIDI orchestrating, SMPTE, and sync to video and film. Music notation scoring software and computer assisted composition. General MIDI standard and current trends/system exclusive.

MPA 307 ~ Fundamentals of Digital Audio ~ 4 credits

MPA 308 ~ Audio Production ~ 4 credits
This course combines elements of MIDI and digital audio, using the computer as the virtual recording studio model. Fundamentals of MIDI music and sound production, using software multitrack sequences for creation of original works, including scoring to picture are rendered. Web-based audio and current developments are applied and creative content is encouraged.

MPA 309 ~ Global Percussion ~ 1 credit
Studies percussion rhythms from around the globe. Students learn handson, African, Afro Cuban, Latino, and Caribbean rhythms. Introduces the rhythms of India, Japan, and Pacific Islands through guest artists and lecturers.

MPA 310 ~ Gospel Choir ~ 2 credits
Studies the performance, practice, and historical evolution of contemporary Gospel music in America via the performance medium.

MPA 317S ~ Community Involvement Service Learning ~ 4 credits
This course seeks to foster the development of arts education programs in the local community. Students will employ a combination of skills in learning strategies to facilitate arts education programs at specific sites. Students will provide one-on-one and/or group tutoring to sites and will utilize a variety of learned skills to facilitate arts education in our surrounding communities.

MPA 320 ~ Chorale ~ 2 credits
Studies and performs vocal repertoire for small ensembles including solo song, oratorio, opera, and ensemble music. Emphasizes the development of effective performance skills culminating in public performance. May be repeated for credit up to four semesters.

MPA 330 ~ Voice Training ~ 2 credits
Studies the basic techniques of tone production, breathing, and related skills in interpreting vocal music of various periods and styles. May be repeated for up to four semesters. Prerequisite(s): instructor consent.

MPA 335 ~ Reflections on American Music ~ 4 credits
This course projects an insight on sound, listening, and experiencing by taking a journey through the sights, sound, and historical study of music through the American social, political, and economic arenas.

MPA 340 ~ Music Production and Artistic Development ~ 2 credits
To provide band and solo artists an opportunity to develop their sound, song writing, production skills, stage presence and other assets required to be successful in the music business. Students will be required to record and produce.

MPA 350 ~ Performing Big Band ~ 1 credit
Emphasizes the study, rehearsal, and preparation of professional level materials for performance for the large jazz ensemble. Includes classic pieces from historical jazz to contemporary developments in the jazz form. Includes performances at collegiate jazz festivals throughout California. May be repeated for credit. Formerly known as MPA 410; Section 10. Prerequisite(s): instructor consent.

MPA 360 ~ Survey of World Music ~ 4 credits
Introduces non-Western music and arts within their sociocultural context. Focuses on indigenous, folk, and classical music in their societal context as art forms. Requires complementary concert attendance and field trips. Formerly known as MPA 200.

MPA 390 ~ Musical Theater Production ~ 4 credits
This is a course where students will be a part of and participate in a fullscale musical production. There will be open auditions for all roles and technical crew. Prerequisite(s): instructor consent.
MPA 395 ~ Special Topics ~ 1-6 credits
Studies a particular topic in the music and performing arts major. May be repeated for credit when topics vary.
Prerequisite(s): instructor consent.

MPA 397 ~ Independent Study: Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

MPA 399S ~ Service Learning ~ 2 credits
Focuses on the development of performance and/or administrative skills while working with community organizations. Students work on community projects geared to the production of a live performance.
Prerequisite(s): instructor consent.

MPA 410 ~ Instrumental Music ~ 1 credit
Studies the fundamentals in the playing of a musical instrument such as guitar, piano, saxophone, or flute. Note: May be required to provide an audition or tape of performance.
Prerequisite(s): ability to read music or knowledge of fundamentals of music and instructor consent.

MPA 420 ~ Performance Studies ~ 1 credit
Studies the playing of a musical instrument or voice. Requires an audition or tape of a performance to determine placement.
Prerequisite(s): ability to read music or knowledge of music and consent of advisor or director of institute for MPA.

MPA 497 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

MPA 498 ~ American Musical Theatre ~ 4 credits
The study of American musical theatre from the early 1900s to the present. Scene performance required.
Prerequisite(s): Instructor consent.

MPA 499 ~ Directed Experiences in Music ~ 1-3 credits
Students conduct directed research, observation, or experience in a specific area of music concentration. May be repeated for a total of six credits.
Prerequisite(s): advisor and supervising instructor consent.

MPA 595 ~ Special Topics ~ 4 credits
Studies a particular topic in the music and performing arts major. May be repeated for credit when topics vary.
Prerequisite(s): instructor consent.

MPA 596 ~ Field Research Methods ~ 1-6 credits
Focuses on the basic techniques of oral history collection and preservation. Includes instruction in developing research plans, interview techniques, operation of recording equipment, and archival procedures.
Prerequisite(s): upper-division or graduate standing, and instructor consent.

MPA 597 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

MPA 632 ~ Integrating the Arts into the Classroom ~ 4 credits
This course is designed to be taught by specialists such as a musician, an artist, and a dramatist with special focus on an interdisciplinary approach to extending arts across the curriculum. Students will learn to use and develop theater, mime, roleplaying, dramatics, music, visual art, and movement as vehicles for the development of instruction. They will integrate the arts as a natural base for instruction and develop public presentation skills which focus on diverse audiences.
Prerequisite(s): instructor consent.

PORT 101 ~ Beginning Portuguese 1 ~ 4 credits
Introduces Portuguese emphasizing the development of oral and aural skills, and the fundamentals of grammar, speaking, reading, and pronunciation using laboratory practice.

PROS 100 ~ ProSeminar 1: Foundations for Lifelong Learning ~ 4 credits
Provides an introduction to academic life at CSUMB and a foundation to learning as a lifelong process. Students develop an individualized learning plan by identifying the knowledge, skills, and abilities they will need to meet their personal, social, academic, and professional goals. The course establishes learning communities for ongoing advising and academic support. Required for all entering first-year students and transfers with 29 or fewer semester units.

SBSC 100 ~ Introduction to Archaeology and Physical Anthropology ~ 4 credits
Explores the fascinating scientific contributions of archaeology and physical anthropology to the study and understanding of human biological and cultural origins and evolution. This survey examines the evidence and theories that serve to explain the earliest hominids of Africa and Asia, and the earliest migrations and settlements of early humans into Southwest Asia, Europe, Australia, and the Americas. Formerly known as SBST 100.

SBSC 105 ~ Introduction to Psychology ~ 4 credits
Designed to provide students with an introductory level understanding and appreciation of the psychological approach to human behavior, thought, and action, and to provide the basic conceptual framework necessary for studying the cognitive, emotional, and social aspects of human activity. Formerly known as SBST 105.

SBSC 120 ~ Introduction to Sociology ~ 4 credits
Online course designed to stimulate the interest of students in using the scientific principles of the discipline to improve understanding of one's self and the social behavior and interactions of others. "Outcomes based" course requires that students demonstrate an adequate grasp of the content knowledge of the discipline, and demonstrate the ability to use sociological methods and strategies. Formerly known as SBST 120.

SBSC 145 ~ Introduction to Cultural Anthropology I ~ 4 credits
Examines the concept of culture as key to an understanding of the diversity and depth of the human experience. Emphasizes the comparative approach as a method to understanding cultural identity and the underpinnings of the relationships of power, equity, and social justice. The connections between informal and formal relations of power are in turn reviewed. Students recognize and compare diverse approaches to ethical making in the context of the understanding of culture. Formerly known as SBST 101.

SBSC 195 ~ Special Topics ~ 1-6 credits
Student and faculty member select lower division topics of study and the total number of credit hours. Formerly known as SBSD 195.
Prerequisite(s): instructor consent.

SBSC 197 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and total number of credit hours. Formerly known as SBST 197.
Prerequisite(s): instructor consent.

SBSC 200 ~ Introduction to Social and Behavioral Sciences ~ 4 credits
Introduces the basic principles, theory, and methods shared in common by the traditional sciences of anthropology, archaeology, sociology, psychology, political economy, and allied fields of inquiry. Required core course for all lower-division students majoring in Social and Behavioral Sciences. Formerly known as SBST 200.
Corequisite(s): SBSC 201.

SBSC 201 ~ On Line Learning Community for Intro to SBS ~ 1-2 credits
Complementary lab for SBSC 200. Addresses Major Learning Outcomes 1, 2, and 3. Participants engage in structured and collaborative online interactions that enhance critical thinking skills and the ability to describe and analyze problems of theoretical relevance in the social and behavioral sciences.
Corequisite(s): SBSC 200.

SBSC 212 ~ Social and Political Histories of the United States ~ 4 credits
A collaborative exploration of the social and political histories of the United States. Students explore the intersections of race/ethnicity, gender, sexuality, class, and environment in the evolution of U.S. politics and social life. Meets the Title V and California Commission on Teacher Credentialing requirements for U.S. Constitution and California Government. Formerly known as SBSD 212.
Prerequisite(s): PRGC 100.

SBSC 218 ~ Computing Skills for the Social Sciences ~ 4 credits
Covers fundamentals of computer and electronic applications necessary for success in both academia and industry. Students attain competency in the use of software and electronic communication tools to analyze and manipulate data, and present research findings. Emphasizes using multimedia technologies in the context of the social and behavioral sciences, including Web page development and design, photographic image manipulation, and web-based portfolios. Formerly known as SBSM 218.

SBSC 222 ~ World Regional Geography: Culture, Society, and Space ~ 4 credits
Applies a geographical perspective to the study of environment, culture, human societies, and their interactions. Examines world regions using a thematic approach to population, language, religion, economic development, social customs, urbanization, and resource problems. Focuses on spatial concepts, principles, and contemporary issues. Meets the standards and content specifications in 20th century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.
SBSC 224S ~ Archaeology: Map to Museum ~ 4 credits
Introduces the methods, practices, and principles of field archaeology using exercises that stress strategy, interpretation, description, information management, archaeological technology, and the role of scientific inquiry. Introduces the handprint manufacture and use of stone tools and the interpretation of ancient and modern material cultures. Lab options include on-site field excavations and analysis of Hispanic colonial artifacts at the Old Mission of San Juan Bautista, or a stone tools "geology" lab. Formerly known as SBSA 224s.

SBSC 225 ~ Art of the Aztec Empire ~ 4 credits
The Aztec, or Atlantea Mexica, took to capturing and collecting the art and culture of all those domains that they conquered and subjugated. As a result, Aztec art, thought, and culture reflect an eclectic mixture of the many peoples and cultures of the empire. Explores the origins, art, language, and culture of a Mesamerican civilization that was unique for its emphasis on human heart excision, but exclusively Mesamerican in its art, architecture, and ideology.

SBSC 227s ~ Introduction to Geographic Information Systems (GIS) ~ 4 credits
Introduces basic concepts and applications of Geographic Information Systems (GIS) such as GIS data input, raster and vector data management, spatial relationships, analysis, and Web-based GIS. Students apply GIS technology in real-world projects and complete a contractued number of off-campus service hours with the sponsoring agency. Upon successful completion of the course, students will earn a National Geographically Information System certificate in ArcView software. Formerly known as SBESW 227.

SBSC 230 ~ Crime and Violence ~ 4 credits
Examines the social and psychological foundations of violence and aggression in the context of cross-cultural perceptions of violence explored by way of a variety of martial arts styles and programs. Reviews the interrelationships obtaining between intellectual, psychological, spiritual, aesthetic, and physical health as it applies to one's life through the philosophy of the martial arts. Provides an interdisciplinary review of the sources of social and interpersonal violence. Formerly known as SBST 230.

SBSC 231 ~ Crime and Violence Defense Lab ~ 1-2 credits
Introduces students to a holistic, interdisciplinary approach to dealing with interpersonal violence and crime. Students learn a body of techniques and philosophies in martial arts styles, including Tai Kwon Do, Karate, Aikido, Ju-Jitsu, Tai Kick Boxing, and Greco Roman Olympic Wrestling. "High vulnerability" situations are described through behavioral science studies. Participants are introduced to the social psychology of interpersonal violence through mental imagery and relaxation. Formerly known as SBST 231.

SBSC 235s ~ The Multicultural Heritage of an Early California Community ~ 4 credits
Explores the multicultural heritage of an early California community using primary resource documents, secondary sources, and service-based community oral history collections and narrative traditions. Using existing resources and project-based discoveries and collected works, students recover and rediscover the multicultural heritage of the early California communities of the Central Coast. Current projects include the historic photograph and documents collections of the Lick Library and Museum of San Juan Bautista. Formerly known as SBSC 230.

SBSC 248 ~ Ancient Maya Civilization ~ 4 credits
Examines the social, cultural, economic, political, and religious underpinnings of the Maya dynastic tradition in comparative and cross-cultural terms and form the perspective of the outlook of archaeological and historical projects and historical interpretations. Studies their respective significance in deciphering the larger Maya life. Uses virtual software-based glyphic translation and astronomical and calendrical correlation programs to probe the literary, artistic, and historical traditions of texts and monuments.

SBSC 256 ~ Introduction to Geography: People, Places, and Environment (Online) ~ 4 credits
Using the latest instructional technology, introduces scientific principles of modern geography. Features both the cultural and environmental aspects of geography at global, regional, and local levels. Teaches geographic perspectives that go beyond a concern with "where things are," providing discussion and analysis of basic geographical theories and methods in the context of case studies. Includes the standards and content specifications in 20th-century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBST 256.

SBSC 260s ~ Archaeology of a California Mission ~ 4 credits
An archaeological field school and project-based learning lab in archaeology, history, and archival research methods. Participants explore the archaeology and history of an early California mission located on the Central Coast and the handprint study of archaeological and historical collections pertaining to San Juan Bautista. In addition, participants conduct archaeological excavations within the 200-year-old mission and community of San Juan Bautista. Formerly known as SBSC 350s.

SBSC 261 ~ Archaeology Projects Lab ~ 2-4 units
Required for all students participating in the SBSC 260s/350s or other field archaeology projects offered through the CSUMB Institute of Archaeology. Consists of hands-on study of artifacts recovered through ongoing archaeological excavations. Specific projects vary. Current analysis is centered on American Indian and Spanish colonial specimens—including bone, stone tools, ceramics, glassware, metal works, and military hardware—recovered from the early California mission of San Juan Bautista.

SBSC 265 ~ American Popular Cultures ~ 4 credits
Examines modern American social institutions through the cultural histories and artifacts produced by a diverse array of American cultural and social groupings, including countercultures and fringe groups. Introduces students to popular cultural materials used by diverse ethnic, cultural, and United States social groups, such as custom automobiles, buildings, clothing, trash samples, paraphernalia, mural art, fetishes, graffiti, and tattoos.

SBSC 281 ~ Vietnam and the United States: Political Economy and Social History since 1880 ~ 4 units
Provides comparative analysis of society, political economy, and culture in the United States since 1880. Explores how those cultures shaped the course of the American/Vietnam war and subsequent relations between the two countries. Students interact with Vietnamese scholars/activists who lived through the war, Vietnam veterans, and former anti-war/peace activists. Meets the standards and content specifications in 20th-century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.

SBSC 284s ~ Cultural Contexts of Bilingual Education: An Overview of Values, Contents, and Experiences on Education in Mexico and the United States ~ 4 credits
Introduces students to the diverse Mexican peoples and cultures that have emigrated to the United States. Explores the cultural similarities and differences within such immigrant groups and compares the learning experiences of U.S. and Mexican teachers and their students. Also reviews current standards and materials used in Mexican public schools. Meets the standards and content specifications in 20th-century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBSC 284s.

SBSC 300 ~ Major Learning Outcomes: Alternative Assessment for the Core Curriculum ~ 1-4 credits
Provides alternative assessment for students working on outcomes related to the core curriculum of the Social and Behavioral Sciences major. Content and structure determined by the instructor of record in concert with enrolled students.

SBSC 301 ~ Major ProSeminar: Theory & Method in the Social and Behavioral Sciences ~ 4 credits
Required for Social and Behavioral Sciences majors. Introduces students to the interdisciplinary approach of the major. Also offered in videotape format. Corequisite(s): senior major students must enroll in SBSC 303 by instructor arrangement, and SBSC 308 and a 300-level project-based lab or discipline-specific theory and method seminar.

SBSC 302 ~ On Line Learning Community for Major ProSem 1 ~ 1-2 Credits
Complementary lab for SBSC 301. Addresses Major Learning Outcomes 1, 2, and 3. Participants engage in structured and collaborative online interactions that enhance their critical thinking skills and their ability to describe and analyze problems of theoretical relevance in the social and behavioral sciences. Formerly known as SBSC 302.

SBSC 303 ~ Major Learning Outcome I: Alternative Assessment for Theory ~ 1-4 credits
Provides alternative assessment for SBSC Major Learning Outcome 1—Theory. Content and structure determined by the instructor of record in concert with enrolled students. Formerly known as SBSC 303.

SBSC 304 ~ Major Learning Outcome II: Alternative Assessment for Research Methodology ~ 1-4 credits
Provides alternative assessment for SBSC Major Learning Outcome 2—Research Methodology, Information Management, Retrieval, and Analysis. Content and structure determined by the instructor of record in concert with enrolled students. Formerly known as SBESW 300.

SBSC 305 ~ Major Learning Outcome III: Alternative Assessment for Area / Discipline Concentration ~ 1-4 credits
Provides alternative assessment for SBSC Major Learning Outcome 2—Area/Discipline Concentration. Content and structure determined by the instructor of record in concert with enrolled students. Formerly known as SBSC 305.
SBSC 306 – Major Learning Outcome IV: Alternative Assessment for Application ~ 1-4 credits
Provides alternative assessment for SBSC Major Learning Outcome 4 – Application. Content and structure determined by the instructor of record in concert with enrolled students. Formerly known as SBSM 300.

SBSC 308 – Professional Assessment Lab I ~ 2 credits
First semester of a two-semester core course sequence that focuses on the mediated development of academic, technical, and communications skills for professional success in the social and behavioral sciences. Students prepare the petition to major and the Individualized Learning Plan. Corequisite(s): SBSC 301.

SBSC 309 – Professional Assessment Lab II ~ 2 credits
Second semester of a two-semester core course sequence that continues the mediated development of academic, technical, and communications skills for professional success in the social and behavioral sciences. Focuses on development of a Senior Capstone proposal.

SBSC 310 – On Line Learning Community for Professional Assessment Lab I ~ 1-2 credits
Complementary lab for SBSC 308. Addresses Major learning Outcomes 1, 2, and 3. Participants engage in structured and collaborative online interactions that enhance their critical thinking skills and their ability to describe and analyze problems of theoretical relevance in the social and behavioral sciences.

SBSC 311 – On Line Learning Community for Professional Assessment Lab II ~ 1-2 credits
Complementary lab for SBSC 309. Addresses Major learning Outcomes 1, 2, and 3. Participants engage in structured and collaborative online interactions that enhance their critical thinking skills and their ability to describe and analyze problems of theoretical relevance in the social and behavioral sciences.

SBSC 315 – Growth and Conflict in the U.S. 1776-1919 ~ 4 credits
Examines the development of government institutions and U.S. economic expansion up to the end of World War I from the perspectives of people of color, immigrants, women, and the working class. Students read slave narratives, immigrant memoirs, women’s diaries, American Indian accounts of U.S. expansion, and testimony from industrial workers. Emphasizes using these histories to understand pressing 21st-century issues. Meets content specifications in U.S. History, and Standard 3, established by the California Commission on Teacher Credentialing for Subject Matter Programs leading to a single subject credential in history and social science.

SBSC 318 – Computing Skills for the Social Sciences ~ 4 credits
Covers fundamentals of computer and electronic applications necessary for success in both academic and industrial settings. Students gain and practice competency in the use of software and electronic communication tools to analyze and manipulate data, and present research findings. Emphasizes using multimedia technologies in the context of the social and behavioral sciences, including Web page development and design, photographic image manipulation, and web-based portfolios. Formerly known as SBSC 318.

SBSC 322 – World Regional Geography: Culture, Society, and Space ~ 4 credits
Applies a geographical perspective to the study of environment, culture, human societies, and their interactions. Examines world regions using a thematic approach to population, language, religion, economic development, social customs, urbanization, and resource problems. Focuses on spatial concepts, principles, and contemporary issues. Meets the standards and content specifications in 20th-century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.

SBSC 324s – Archaeology: Map to Museum ~ 4 credits
Introduces the methods, principles, and practices of field archaeology using exercises that stress strategy, interpretation, description, information management, archival technologies, and the role of scientific inquiry. Introduces the handson manufacture and use of stone tools and the interpretation of ancient and modern material cultures. Lab options include onsite field excavations and analysis of Hispanic colonial artifacts at the Old Mission of San Juan Bautista or a stone tools or “geology” lab. Formerly known as SBSC 324s.

SBSC 325 – Art of the Aztec Empire ~ 4 credits
The Aztec, or Azteca Mexico, took to capturing and collecting the art and culture of all those domains that they conquered and subjugated. As a result, Aztec art, thought, and culture reflect an eclectic mixture of the many peoples and cultures of the empire. Explores the origins, art, language, and culture of a Mesoamerican civilization that was unique for its emphasis on human heart excision, but exclusively Mesoamerican in its art, architecture, and ideology.

SBSC 327S – Introduction to Geographic Information Systems (GIS) ~ 4 credits
Introduces basic concepts and applications of Geographic Information Systems (GIS) such as GIS data input, raster and vector data management, spatial relationships, analysis, and Web-based GIS. Students will apply GIS technology in real-world projects and complete a contracted number of off-campus service hours with the sponsoring agency. Upon successful completion of the course, students will earn a nationally recognized GIS certificate in ArcView software. Formerly known as SBSC 327.

SBSC 330 – Crime and Violence ~ 4 credits
Examines the social and psychological foundations of violence and aggression in the context of cross-cultural perceptions of violence explored by way of a variety of martial arts styles and programs. Reviews the interrelationships obtaining between intellectual, psychological, spiritual, aesthetic, and physical health as it applies to one’s life through the philosophy of the martial arts. Provides an interdisciplinary review of the sources of social and interpersonal violence. Formerly known as SBST 330.

SBSC 331 – Crime and Violence Defense Lab ~ 1-2 credits
Introduces students to a holistic, interdisciplinary approach to dealing with interpersonal violence and crime. Students learn a body of techniques and philosophies in martial arts styles, including Tae Kwon Do, Karate, Aikido, Jujitsu, Tai Kick Boxing, and Greco Roman Olympic Wrestling. “High vulnerability” situations are described through behavioral science studies. Participants are introduced to the social psychology of interpersonal violence through mental imagery and relaxation. Formerly known as SBST 331.

SBSC 332 – World Prehistory ~ 4 credits
Explores the origins and consequences of the Paleolithic through Neolithic periods of human cultural development that underlie the rise of civilization and the origins of the modern state. The domestication of plants and animals, early village life, the development of metallurgy and the arts, the origins of writing and the earliest dynamic traditions, and the rise of urbanism and the state serve as the primary cultural backdrop. Meets the standards and content specifications in 20th-century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.

SBSC 333 – Economic Thought: History and Contemporary Interpretations and Critique ~ 4 credits
Examines major ideas of earlier and contemporary political economists. Emphasizes concepts for gender equity in both public and private spheres. Examines contemporary feminist economic perspectives which evaluate the underlying constructs and assumptions of neoclassical economics, provide insights into the relationships between gender and power relations in the economy, and inquire into economic issues affecting the lives of children, women, and men. Meets the standards and content specifications in economics established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.

SBSC 335s~ – The Multicultural Heritage of an Early California Community ~ 4 credits
Explores the multicultural heritage of an early California community using primary resource documents, secondary sources, and service-based community oral history collections and narrative traditions. Using existing resources and project-based discoveries and collected works, students recover and rediscover the multicultural heritage of the early California communities of the Central Coast. Current projects include the historic photograph and documents collection of the Luck Library and Museum of San Juan Bautista. Formerly known as SBSC 336.

SBSC 337 – Applied Teaching Techniques for the Social Sciences ~ 1-4 credits
Explores the diverse pedagogies and assessment methods used within and beyond the social sciences. Students are expected to be seniors or second semester juniors and be recommended by a member of the faculty in order to register for this course. Formerly known as SBSC 325. Prerequisite(s): instructor consent.

SBSC 338 – Ancient Maya Civilization ~ 4 credits
Examines the concept of culture as key to an understanding of the diversity and depth of the human experience. Emphasizes the comparative approach as a method to understanding cultural identity and the underpinnings of the relationships of power, equity, and social justice. The connections between informal and formal relations of power are in turn reviewed. Students will recognize and compare diverse approaches to ethical decision making in the context of the understanding of culture. Formerly known as SBST 301.

SBSC 348 – Ancient Maya Civilization ~ 4 credits
Examines the concept of culture as key to an understanding of the diversity and depth of the human experience. Emphasizes the comparative approach as a method to understanding cultural identity and the underpinnings of the relationships of power, equity, and social justice. The connections between informal and formal relations of power are in turn reviewed. Students will recognize and compare diverse approaches to ethical decision making in the context of the understanding of culture. Formerly known as SBST 301.

SBSC 350 – Domination and Resistance in the Americas: Social Histories ~ 4 credits
Applies Critical Race Theory, Critical Ecological Feminism, Queer Theory, and Subaltern Studies to the study of legal traditions and systems of social power in the Americas since European contact. Explores conquest, Indians as power, imperialism, and resistance to domination emphasizing struggles over land and resources. Meets the Title V and California Commission on Teacher Credentialing requirements for U.S. Constitution and California Government. Formerly known as SBST 350. Prerequisite(s): HCOM 211 or equivalent.
SBSC 351 ~ Introduction to Global Economics: Ethical and Scientific Decision Making Processes ~ 5 credits
Examines principles of economics through social science, gender, and global studies perspectives. Explores prices and markets, trade and industrial policies, income distribution, poverty, sustainable development, work, and gender to determine the usefulness of theory in explaining real-life events, and their implications in developed and developing countries. Integrates scientific method with ethical considerations and case studies to analyze how everyday economic decisions impact lives. Meets the standards and content specifications in economics established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBST 380.

SBSC 354 ~ GIS for Demographic Analysis in Business and Social Sciences ~ 2-4 credits
The business community is rapidly becoming one of the largest users of Geographic Information Systems (GIS) technology. This course introduces the fundamentals of GIS and its business applications and provides students with hands-on experience of solving a variety of common business problems like creating and analyzing markets, locating retail outlets, identifying target markets, and conducting drive time analyses. Formerly known as SBSM 354.

SBSC 356 ~ Introduction to Geography: People, Places, and Environment (Online) ~ 4 credits
Using the latest instructional technology, introduces scientific principles of modern geography. Features both the cultural and environmental aspects of geography at global, regional, and local levels. Teaches perspectives that go beyond a concern with “where things are,” providing discussion and analysis of basic geographical theories and methods in the context of case studies. Meets the standards and content specifications in 20th century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBST 380.

SBSC 359S: Global Dimension of Political Economy: Asian Linkages with American Lives ~ 4 credits
Presents theories on global production processes, gender division of labor, and income distribution. Explores the impacts of political-economic, social, historical, and cultural factors on the lives of Americans and Pacific Rim peoples. Through service learning projects, students connect with local communities by focusing on contemporary issues such as farm and factory workers, “sweatshops,” in big U.S. cities, and the maquiladoras industries. Examines theories on power relations between different cultures and gender. Meets the standards and content specifications in economics established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBSC 359.

SBSC 360S ~ Archaeology of a California Mission ~ 4 credits
An archaeological field school and project-based learning lab in archaeology, history, and archival research methods. Participants explore the archaeology and history of an early California mission community of the Central Coast by way of the hand-on study of archaeological and historical collections pertaining to San Juan Bautista. In addition, participants conduct archaeological excavations within the 200-year-old mission and community of San Juan Bautista. Formerly known as SBSM 350S.

SBSC 361 ~ Archaeology Projects Lab ~ 2-4 units
Required for all students participating in the SBSC 260s/360s or other field archaeology projects offered through the CSUWB Institute of Archaeology. Consists of hand-on study of artifacts recovered through ongoing archaeological excavations. Specific projects vary. Current analysis is centered on American Indian and Spanish Colonial specimens— including bone, stone tools, ceramics, glassware, metal works, and military hardware—recovered from the early California mission of San Juan Bautista.

SBSC 362 ~ Ethnographic Research: Methods and Analysis ~ 4 credits
Introduces students to data collection strategies and methodologies for ethnographic field research. Uses electronically simulated field exercises in a multimedia-based interactive learning package called an Ethnographic Research Simulator (ERS). Covers cultural navigation; observational and interview data; participant data; and field notes, diaries, and reports. Exercises may be carried out in Spanish or English. Formerly known as SBSM 362.

SBSC 364 ~ Ethnographic Research Lab ~ 1-2 credits
Entails ethnographic field research experiments in a “virtual” or computer-based field research site that simulates a Mexican village. Gives students a “virtual” experience conducting international research in another culture. Students conduct field research exercises, prepare notes of their findings, and submit ethnographic reports. Features the use of a user-friendly “virtual ethnographic field research” simulation. Formerly known as SBSM 364.

SBSC 365 ~ The Black Civil Rights Movement in the South: 1954-1968 ~ 4 credits
Examines the Black Civil Rights Movement of the South during the 1950s and 1960s, placing it into the larger context of Black struggles for justice throughout the 20th century. Students focus on the importance of unique junctures of time, and participate in a 12-day tour of places in the Civil Rights Movement in Arkansas, Louisiana, Mississippi, and Alabama. Participants see social movements in their historical, social, and geographical contexts. Formerly known as SBSD 365.

SBSC 366 ~ Research Methods and Data Analysis ~ 5 credits
Covers quantitative and qualitative research methods including research design, data collection, analysis, and the communication of findings. Examines both strengths and weaknesses of different research methods. Directly engages students in the design and implementation of research projects. Students learn to use SPSS to analyze and present data. Formerly known as SBDM 366.

SBSC 369 ~ Education for Leadership and Public Service ~ 4 credits
Surveys student leaders from each of the 23 California State University campuses on public service as a profession. Explores theories and strategies to attract thoughtful men and women to lives of public service in politics, to inspire them to a high standard of conduct, and to equip them with the practical skills of self-government. Formerly known as SBST 360.

SBSC 370 ~ Applied Research and Writing In the Social Sciences ~ 2 credits
Prepares students to apply social science theories and research methods to the writing and presentation of research papers in the social sciences. Students prepare written projects for presentation in an undergraduate research conference and/or for publication in an undergraduate research journal. Formerly known as SBSM 370. Prerequisite(s): instructor consent.

SBSC 381 ~ Vietnam and the United States: Political Economy and Social History since 1880 ~ 4 units
Provides comparative analysis of society, political economy, and culture in the U.S. and Vietnam since 1880. Explores ways that these cultures shaped the course of the American/Vietnam war and subsequent relations between the two countries. Students interact with Vietnamese scholars/activists who lived through the war, Vietnam veterans, and former anti-war/peace activists. Meets the standards and content specifications in twentieth century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science.

SBSC 383 ~ Ancient African Civilizations ~ 4 credits
Examines the rise and fall of the spectacular indigenous states and civilizations of Sub-Saharan or Black Africa. Reviews the comparative development and ancient contributions of pre-Colonial or Black Africa and Africa’s relations with Southwest Asia and the Mediterranean. Explores case studies and ancient cultures, kingdoms, and states from across Africa, including those of dynastic Egypt; Kush, Meroe, Axum, Jenne, Zimbabwe, the Swahili complex, and Benin and West Africa. Formerly known as SBSD 383.

SBSC 384S ~ Cultural Contexts of Bilingual Education: An Overview of Values, Contents and Experiences on Education in Mexico and the United States ~ 4 credits
Introduces students to the diverse Mexican peoples and cultures that have emigrated to the U.S. Explores the cultural similarities and differences within such immigrant groups and compares the learning experiences of U.S. and Mexican teachers and their students. Also reviews current standards and materials used in Mexican public schools. Meets the standards and content specifications in twentieth century U.S. history established by the California Commission on Teacher Credentialing for subject matter programs leading to a single subject credential in history and social science. Formerly known as SBSA 384S.

SBSC 385 ~ Social and Environmental History of California ~ 4 credits
Explores the ways in which history can aid in understanding present-day policy issues. Meets the Title V and California Commission on Teacher Credentialing requirements for U.S. Constitution and California Government. Formerly known as SBSD 385. Prerequisite(s): instructor consent.

SBSC 395 ~ Special Topics ~ 1-6 credits
Student and faculty member select upper-division topics of study and total number of credit hours. Formerly known as SBSD 395. Prerequisite(s): instructor consent.

SBSC 397 ~ Independent Study ~ 1-6 credits
Student and faculty member select topic of study and total number of credit hours. Formerly known as SBST 397. Prerequisite(s): instructor consent.

SBSC 397S ~ Independent Study/Service Learning ~ 1-6 credits
Student and faculty member select topic of study and number of credit hours. Prerequisite(s): instructor consent.

SBSC 400 ~ Senior Capstone Seminar: Social and Behavioral Sciences I ~ 2 credits
Intended for students seeking specialty tracks in the individual disciplines and allied fields that comprise the social and behavioral sciences. Prerequisite(s): SBSC 301, SBSC 308, and SBSC 309. Corequisite(s): SBSC 402.
SBSC 401S ~ Senior Capstone Seminar: Social and Behavioral Sciences/Service Learning I ~ 2 credits

Students meet with faculty and community partners in supervised learning activities related to their Capstone topic and complete a contracted number of off-campus service hours with the sponsoring agency. Geared to students interested in action-oriented research. Formerly known as SBSA 401S.
Pre-requisite(s): pre-approved Individualized Learning Plan and/or Capstone proposal.
Corequisite(s): SBSC 301, SBSC 308, SBSC 309.

SBSC 402 ~ Senior Capstone Directed Reading I ~ 2 credits

Emphasizes the theory, method, and scope of the social and behavioral sciences. Involves the implementation of a yearlong project to familiarize students with a specific subdiscipline of the social and behavioral sciences as well as the appropriate contemporary and historical literature of the subdiscipline under study. Formerly known as SBSC 403.
Corequisite(s): SBSC 401S or SBSC 401.

SBSC 403 ~ Capstone Analysis and Writing ~ 1-4 units

Teaches methodologies and strategies for organizing, writing, and editing Capstone research findings.

SBSC 405 ~ Assessment Lab for Graduating Seniors ~ 1 credit

Students assemble a Senior Capstone committee that includes the selection of a Capstone supervisor from within their area of specialty as determined by the approved Individualized Learning Plan. Participants meet with the academic advisor for directed research and mentorship. SBSC majors entering the second semester of the Senior Capstone curriculum must enroll in the section supervised by their respective academic advisor.
Pre-requisite(s): SBSC 301, SBSC 302, SBSC 308, and SBSC 309; pre-approved Individualized Learning Plan and Senior Capstone project proposal on file.

SBSC 406 ~ Senior Capstone Seminar: Social and Behavioral Sciences II ~ 2 credits

Intended for students seeking specialty tracks in the individual disciplines and allied fields that comprise the social and behavioral sciences. Formerly known as SBSC 402.
Pre-requisite(s): SBSC 301, SBSC 308, and SBSC 309.
Corequisite(s): SBSC 408.

SBSC 407S ~ Senior Capstone Seminar: Social and Behavioral Sciences/Service Learning II ~ 2 credits

Students meet with faculty and community partners in supervised learning activities related to their Capstone topic and complete a contracted number of off-campus service hours with the sponsoring agency. Geared to students interested in action-oriented research. Formerly known as SBSA 402S.
Pre-requisite(s): SBSC 301, SBSC 308, and SBSC 309; pre-approved Individualized Learning Plan and/or Capstone proposal.
Corequisite(s): SBSC 408.

SBSC 408 ~ Senior Capstone Directed Reading II ~ 2 credits

Emphasizes the theory, method, and scope of the social and behavioral sciences. Involves the implementation of a yearlong project to familiarize students with a specific subdiscipline of the social and behavioral sciences as well as the appropriate contemporary and historical literature of the subdiscipline under study. Formerly known as SBSC 404.
Corequisite(s): SBSC 406 or SBSC 407S.

SBSC 436 ~ Advanced Geographic Information Systems (GIS) ~ 2-4 credits

Teaches advanced GIS skills and spatial modeling techniques. Emphasizes problems that are best solved in a raster environment, such as surface analysis and distance measurement. Upon successful completion of the course, students earn a nationally recognized GIS certificate in ArcView Spatial Analyst software. Formerly known as SBSS 436.
Pre-requisite(s): SBSC 327.

SBSC 450 ~ White House Internship: Administrative and Legislative Operations ~ 3 credits

Students are assigned to a national officeholder’s staff office at the White House and spend a semester participating firsthand in American government. Participants examine administrative organization, methods, systems and procedures, problem solving, and systems analysis. Formerly known as National Government Internship. Formerly known as SBSA 450.

SBSC 451 ~ White House Internship: Communications and Politics ~ 3 credits

Students are assigned to a national officeholder’s staff office at the White House and spend a semester participating firsthand in American government. Students examine political processes by which public policy is formulated, adopted, and implemented; political activity, election of public officials, and the political organization of government. Formerly known as Congressional Internship: Political Public Services Processes. Formerly known as SBSA 451.

SBSC 452 ~ White House Internship: Leadership and Committee Structure of the House ~ 3 credits

Students are assigned to a national officeholder’s staff office at the White House and spend a semester participating firsthand in American government. Participants examine the leadership of congressional committee operations and processes. Formerly known as Congressional Internship in Applied Public Policy Processes. Formerly known as SBSA 452.

SBSC 453 ~ White House Internship: Budget and Appropriations Process ~ 3 credits

Students are assigned to a national officeholder’s staff office at the White House and spend a semester participating firsthand in American government. Participants examine government budgets, budgetary process and analysis, intergovernmental fiscal relations, and monetary and fiscal policy. Formerly known as Congressional Internship: Democracy in Action. Formerly known as SBSA 453.

SBSC 454 ~ White House Internship: The Role of the Press and its Relationship to the White House ~ 3 credits

Students are assigned to a national officeholder’s staff office at the White House and spend a semester participating firsthand in American government. Participants examine the nature, extent, and influence of the press on the nation’s governmental process. Formerly known as Leadership in Public Service. Formerly known as SBSA 454.

SBSC 473 ~ Congress & the Presidency: Panetta’s Perspective on 30 Years in Washington ~ 2 credits

Taught by Leon Panetta—former California Congressman, House Budget Committee Chairman, CMB Director, and Chief of Staff to the President of the United States. Examines the relationships between the legislative and executive branches of government, the development and implementation of the federal budget, domestic and foreign policy, media issues, and political campaigns. Meets Trifecta V and California Commission on Teacher Credentialing requirements for U.S. Constitution and California Government. Formerly known as SBSC 473.

SBSC 475 ~ Fort Ord Historic Documents Project ~ 1-4 credits

A project-based exploration of the social history of Fort Ord. Students participate in the creation of an archive and virtual museum housed in the CSUMB Library. Activities include gathering letters, diaries, oral histories, photographs, and other documents and memorabilia from people who once lived on Fort Ord. Participants also inventory, catalog, and digitize the collected documents, and assist in building an online archive and museum. Formerly known as SBSA 475.

SBSC 480 ~ Project Based Learning Lab: Ethnography in Mexico—The Querétaro Project ~ 4 credits

Focuses on the history, culture, and economy of Mexican peasant society, and mestizo-Indian interaction in Querétaro, Mexico. Complements the study opportunities in Querétaro, Mexico program for SBSC students. Formerly known as SBSA 480.

SBSC 485 ~ Applied Research in Mexican Peasant Communities ~ 1-4 credits

Focuses on the field study of peasant communities in Mexico. Explores a variety of areas that are critical to peasant communities in the global age, including the impact of globalization on local economies, the formation of transnational cultural identities, and the revitalization and decline of local cultures. Students reside in at least one local community in the state of Querétaro and collect firsthand ethnographic field data, meeting as a group on a weekly basis to discuss their progress.

SBSC 495 ~ Special Topics in Geographic Information Systems ~ 2-4 credits

Covers specialized GIS techniques and applications. Possible topics include but not limited to GIS programming (ArcView, AVI), Internet GIS, 3-D GIS, GPS, remote sensing and image processing.
Pre-requisite(s): SBSC 327S or SBSC 436.

SBSC 597 ~ Independent Study ~ 1-6 credits

Student and faculty member select topic of study and total number of credit hours. Pre-requisite(s): instructor consent.

SBSC 600 ~ Continuing Education Assessment ~ 1-6 credits

Alternative assessment for graduate or undergraduate students continuing their education in this major. Content and structure determined by the instructor of record in concert with the individual students enrolled.

SL 200S ~ Introduction to Service in Multicultural Communities ~ 4 credits

Seeks to foster the development of self-reflective, culturally aware, and responsive community participants. Students gain hands-on experience, knowledge, and skills about local communities and community organizations. Students learn how to work with communities sensitively, and to participate in multicultural community service settings. Requires a minimum of 30 hours of community service work, in addition to class time, during the semester. Each section has a specific service theme. See current course schedule for details.
SL 295S ~ Special Topics: Staff America Reads ~ 2 credits
Provides a structured opportunity for CSUMB staff and faculty to tutor elementary school children in reading as part of the America Reads Challenge. All participants are involved in direct one-on-one tutoring at local elementary schools and participate in a weekly class meeting to reflect on their experiences as tutors with regard to issues of diversity, justice, compassion, and social responsibility.

SL 300S ~ Service Learning Leadership Development ~ 4 credits
Develops students’ leadership capacities as community builders and effective service learning practitioners by deepening their understanding of themselves, the surrounding community, and service learning pedagogy. Requires completion of a service learning action project and commitment to serve as a University Service Advocate for at least one semester.
Prerequisite(s): successful completion of at least one service learning experience, and instructor consent.

SL 390S ~ Effective Tutoring ~ 2 credits
Prepares students to tutor and mentor middle and high school youth in local schools. Students receive instruction on effective tutoring techniques to assist them in providing math and writing support on a one-on-one basis. Involves students in classroom observation and after-school tutoring. Course requires 3-5 hours of community service each week.
Prerequisite(s): participation in the Precollegiate Academic Development (PAD) Program, or PAD coordinator consent.

SL 394S ~ Service Learning Pedagogy & Partnership Support ~ 1-4 credits
Provides hands-on experience in practicing skills developed in SL 300S (or Summer of Service Leadership Academy). Students work closely with service learning faculty members, community partners, other students, and staff to develop and facilitate meaningful service learning experiences. Students meet weekly to receive support, training, and development opportunities regarding best practices in service learning. Course requires a community service placement or project.
Prerequisite(s): successful completion of the Summer of Service Leadership Academy or SL 300, and instructor consent.

SL 497S ~ Independent Study ~ 1-4 credits
Student and faculty member select topic of study and number of credits. Course requires 3-5 hours of community service each week.
Prerequisite(s): instructor consent.

SPAN 101 ~ Beginning Spanish I ~ 4 credits
Introduces Spanish emphasizing the development of oral and aural skills, and the fundamentals of grammar, speaking, reading, and pronunciation using laboratory practice.

SPAN 102 ~ Beginning Spanish II ~ 4 credits
Continues the study of Spanish emphasizing the development of oral and aural skills, and the fundamentals of grammar, speaking, reading, and pronunciation using laboratory practice.
Prerequisite(s): SPAN 101 or equivalent, or instructor consent.

SPAN 103 ~ Beginning Intensive Spanish I & II ~ 8 Units
Intensive course designed for beginning students. Meets two hours per day for fifteen weeks. During the first hour, new material is presented and explained and skills practiced and assessed. During the second hour, students watch an episode of Destinos, and practice skills using CD-ROM and technology-mediated exercises. Two additional hours per week are required for working with video and audio tapes in the language labs.

SPAN 195 ~ Special Topics ~ 1-6 credits
Studies a particular topic in Hispanic language and/or culture.
Prerequisite(s): instructor consent.

SPAN 196 ~ Field Studies ~ 1-6 credits
Opportunity for independent field studies.
Prerequisite(s): instructor consent.

SPAN 197 ~ Independent Study ~ 1-6 credits
Allows lower-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research.
Student and faculty member select topic of study and number of credits.
Prerequisite(s): instructor consent.

SPAN 200 ~ Beginning Spanish Conversation ~ 4 credits
Introduces Spanish conversation to support, develop, and strengthen skills in Spanish oral communication. Implements extensive speaking practice using everyday experiences.
Prerequisite(s): SPAN 102.

SPAN 200S ~ Beginning Spanish Conversation ~ 4 credits
Students work on off-campus activities to develop Spanish conversation supporting, developing, and strengthening skills in Spanish oral communication. Implements extensive speaking practice using everyday experiences.
Prerequisite(s): SPAN 102.

SPAN 201 ~ Intermediate Spanish I ~ 4 credits
Reviews and develops the fundamentals of Spanish grammar. Emphasizes the development of speaking, listening, reading, and writing skills by studying and discussing short reading selections.
Prerequisite(s): SPAN 102 or equivalent, or instructor consent.

SPAN 202 ~ Intermediate Spanish II ~ 4 credits
Continues to develop the fundamentals of Spanish grammar. Emphasizes the development of speaking, listening, reading, and writing skills by studying and discussing short reading selections.
Prerequisite(s): SPAN 201 or equivalent, or instructor consent.

SPAN 212 ~ Spanish for Spanish Speakers I ~ 4 credits
For heritage speakers who have an oral/aural knowledge of the Spanish language. Conducted in Spanish, the course emphasizes the enhancement of Spanish grammar, reading, and writing skills via intensive reading, written, and oral presentations on Latino culture and literature.
Prerequisite(s): oral/aural fluency in Spanish or instructor consent.

SPAN 213 ~ Spanish for Spanish Speakers II ~ 4 credits
Continues to focus on developing the heritage speaker’s reading, writing, and grammar skills. Conducted in Spanish, the course emphasizes the enhancement of advanced grammar and language skills via intensive reading and oral presentations on Latino culture and literature.
Prerequisite(s): SPAN 212 or instructor consent.

SPAN 261 ~ Contemporary Chicano Literature: A Survey ~ 4 credits
Survey of Chicano literature by introducing the principal genres of poetry, theater, the novel, the short story, and the essay. Introduces students to such writers as Rudolfo Anaya, Tomás Rivera, Sandra Cisneros, Ana Castillo, Ron Arias, José Antonio Burciaga, Luis Valdez, and Alurista. Prior knowledge of Spanish not required. Requires Spanish majors to do assignments in Spanish.

SPAN 301 ~ Spanish Composition and Oral Practice ~ 4 credits
Continues to build proficiency as defined by the ACTFL Proficiency Guidelines. Content-based instruction develops communicative language skills in listening, speaking, reading, and writing through readings and discussions of authentic Hispanic cultural and literary texts. For students with two or more years of Spanish or an intermediate level of Spanish language proficiency.
Prerequisite(s): SPAN 202 or equivalent.

SPAN 301S ~ Spanish Composition and Oral Practice (Service Learning) ~ 4 credits
Builds on the content of SPAN 301 where students enhance skills via extensive oral, reading, writing, and cultural presentation experience in Spanish.
Prerequisite(s): SPAN 202 or equivalent.

SPAN 302 ~ History and Phonetic Structure of the Spanish Language ~ 4 credits
Surveys the development of modern Castilian and Latin American Spanish, its evolution as a Romance language, the Roman period, Visigoth and Arab influences, Native American contributions, and its modern language diversity. Describes the phonology and morphology of modern Spanish. Recommended for students interested in teaching Spanish.
Prerequisite(s): SPAN 202 or instructor consent.

SPAN 303 ~ Advanced Spanish Grammar ~ 4 credits
Reviews all phases of communication skills with practice in understanding, speaking, and writing grammatically correct Spanish. Teaches specific components of Spanish grammar: the Spanish verbal system, the subjunctive, ser versus estar, and other problematic aspects of grammar. For students planning to teach Spanish.
Prerequisite(s): SPAN 202 or 213 or instructor consent.

SPAN 304 ~ Introduction to Hispanic Literatures ~ 4 credits
Conducted in Spanish, the course introduces the principles of literary analysis, based on reading and discussion of Hispanic literary texts. Includes fiction, drama, essay, and poetry from Spain and Spanish America.
Corequisite(s): SPAN 301 or instructor consent.

SPAN 305 ~ Spanish for the Professions ~ 4 units
Designed for students interested in developing a functional use of Spanish for the professions (business, education, law, medicine, social work, etc.), from a Hispanic cultural perspective. Students will have an opportunity to practice and develop their listening, speaking, reading, and writing skills. The Spanish speaking world will provide the cultural context, and the area of business the content area.

SPAN 306 ~ Cultures and Civilizations of Spanish-Speaking Latin America ~ 4 credits
Taught in Spanish, presents an historical and cultural overview of Hispanic Latin America from its pre-Columbian origins to the present through works of literature, art, music, and video. Taught in Spanish.
Prerequisite(s): SPAN 202, SPAN 213, or instructor consent.
SPAN 307 ~ History and Politics of Mexico ~ 4 credits
Examines Mexico’s history and its peoples from indigenous periods to the arrival of Europeans and Spanish colonization including the mission system and rancherias of California, New Mexico, and Colorado. Focuses on the independence movement and Mexico’s relationship with the United States during westward expansion. Examines the 20th century by focusing on the Mexican Revolution and the factors which have resulted in continuous northern migration. Taught in English with Spanish readings for Spanish majors.

SPAN 308 ~ History and Culture of Aztlán: The Southwestern United States ~ 4 credits
Covers the story of indigenous peoples of the southwestern United States: Aztlán, the Spanish colonial period, the Mexican period, and the acquisition and settlement by the United States. Seeks the exposition of indigenous and Hispanic historical and cultural foundations of the region and the confluence with other Asian and European influences. Taught in English with Spanish readings for Spanish majors.

SPAN 309 ~ History and Politics of Latin America ~ 4 credits
Surveys Latin American history focusing on the development of political and social structures since the independence movements of the 19th century. Emphasizes Latin phenomenon as caudillismo, indigenismo, the Church and liberation theology, and the revolutionary movements in the 20th century. Prerequisite(s): upper-division status recommended or instructor consent.

SPAN 310 ~ Hispanic Children’s Literature ~ 4 credits
Introduces Hispanic children’s literature using fairy tales, poetry, essays, and drama. Presents the elements of children’s narrative: characterization, setting, narrative structure and pictures, and drawings. Students practice working these basic elements in individual and collaborative group writing and reading exercises. Includes brief, written analytic responses. Prerequisite(s): SPAN 202 or equivalent, or instructor consent.

SPAN 311 ~ U.S. Foreign Policy in the Pacific Rim and Third World Countries ~ 4 credits
Focuses on the success and/or failure of U.S. diplomatic and military interventions in such regions of the world as Central America, The Caribbean, and the Asia/Pacific region. Analyzes U.S. economic and diplomatic relations with Japan, Korea, China, Vietnam, from a postcolonial perspective. Examines the U.S. role during the 20th century revolutionary movements in Cuba, El Salvador, Nicaragua, and Guatemala. Taught in English. Prerequisite(s): upper-division status or instructor consent recommended.

SPAN 321 ~ Masterpieces in Hispanic Literature ~ 4 units
Reading and discussion of selected masterworks of literature as they reflect the historical, political, and social context of the Peninsula Spanish experience. Students will be introduced to reading and writing critically, and discussing both form and content within these works. All discussions will be carried out in Spanish.

SPAN 328 ~ Latina Life Stories in Comparative Context ~ 4 credits
Explores the themes of memory, migration, place, childhood, education, commitments to family and community, and the crossroads of identities in Latin life. Compares Latina autobiographies to life, writing by other women of color. Examines the life stories of Latinas, in written or oral form, as they speak to experiences of being Chicana, Puerto rican, Cuban, Dominicana, and Central/South American in the United States.

SPAN 329 ~ Auto/biografías ~ 4 credits
Taught in Spanish, emphasizes life writing and conversation through auto/biography, testimonial, life history, and telenovelas. Students read contemporary auto/biographical writings by Latina/o and Latin American authors, analyze popular TV soap operas, analyze and collect life stories, keep journals, do life writing, and discuss all these activities and genres in class. Formerly known as SPAN 315.

SPAN 365 ~ The Chicano Novel ~ 4 credits
Focuses on the reading and analysis of selected Chicano writers whose novels have left a distinctive mark on Chicano Literature. Emphasizes the understanding of Chicano cosmol ogy (society, culture, behavior, valued) through the literary texts. No prior knowledge of Spanish required. Requires Spanish majors to do assignments in Spanish.

SPAN 370 ~ The Chicano Community ~ 4 credits
Examines the cultural, social, economic, and political aspects of the Chicano community in an historical and contemporary context. Incorporates field observation and community studies. Prerequisite(s): upper-division status recommended.

SPAN 395 ~ Special Topics ~ 1-6 credits
Students design unique learning sequences that are pertinent to their learning plans and not covered in current courses. Students design a study proposal with appropriate faculty and obtain authorization from their academic center. May be repeated for credit when topics vary. Optional grading. Prerequisite(s): SPAN major and upper-division standing.

SPAN 396 ~ Field Studies ~ 1-6 credits
Individualizes student placement for in-depth field study. Prerequisite(s): WVC major and instructor consent.

SPAN 397 ~ Independent Study ~ 1-6 credits
Allows upperdivision students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

SPAN 397S ~ Independent Study: Service Learning ~ 1-4 credits
Allows upperdivision students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

SPAN 425 ~ La Literatura Mexicana ~ 4 credits
Exposes students to Mexican literature from its indigenous and Hispanic origins to its more contemporary expressions. Examines and discusses representative authors from all literary periods. Prerequisite(s): SPAN 304 or instructor consent.

SPAN 426 ~ La Narrativa Hispanoamericana Contemporánea ~ 4 credits
Taught in Spanish, the course studies Spanish American writers of the 20th century by emphasizing short stories and novels from the last 50 years. Uses literary texts to gain an understanding of Latino cultures, societies, and values. Prerequisite(s): SPAN 304 or instructor consent.

SPAN 427 ~ Latin American Women Writers ~ 4 credits
Taught in Spanish, the course focuses on reading and analyzing works from Latin American women writers. Examines fiction by and about women from varied sociocultural backgrounds to discover the diversity and the commonality of female experience in different geographical regions. Students examine the narrative strategies employed by these writers in interpreting social, political, cultural, and religious forces that create gender, class, and ethnic barriers in Latin American society. Prerequisite(s): SPAN 304 or instructor consent.

SPAN 428 ~ La Literatura Afro-Latina ~ 4 credits
Examines the fundamental structure of the English language and how to diagnose reading and writing difficulties across the grades. Content covers how to analyze and assess reading problems for students with learning challenges and how to determine preferred practices using evidence-based programs and approaches.

SPAN 451 ~ Reading Diagnoses & Preferred Practices for Students with Learning Challenges ~ 2 credits
Examines the six major groups of students with dyslexia. Identifies the most effective instructional programs and teaching methods for these students. Content covers how to analyze and assess reading problems for students with learning challenges and how to determine preferred practices using evidence-based programs and approaches.

SPAN 452 ~ Curriculum Development & Preferred Practices for Students with Learning Challenges ~ 3 credits
Based on current research, which introduces important contemporary issues, such as the relationship between identification, assessment, and program planning for students with mild/moderate disabilities. Covers formal and informal assessment, instructional strategies, curriculum design, and modifications which are relevant, age-appropriate and structured to ensure student success and independence in general education and other learner-centered environments.
SPED 564 ~ Formal & Informal Assessment for Diverse Student Population ~ 3 credits
Examines the role of formal and informal assessment in planning and implementing curricula and instruction. Students learn how to interpret and use assessment information taking into consideration the unique personal, cultural, linguistic, educational, and environmental background of the individual. The course tests assessment to preferred instructional practices in order to meet the educational goals of the individual to ensure success at school, at home, and in the marketplace.

SPED 565 ~ Supervised Field Experiences in General Education ~ 2 credits
Provides prospective special educators with opportunities to investigate how general educators plan, implement, modify, and monitor instruction. Students reflect on preferred practices, presentation skills appropriate to the core curriculum, and responsiveness to student needs and characteristics.

SPED 566 ~ Behavioral Intervention & Support ~ 3 credits
Analyzes the policies and practices that assist teachers to develop and maintain positive learning environments for all students. Students learn about effective management approaches for students with learning and behavioral challenges.

SPED 567 ~ Practicum/Professional Induction Planning ~ 5 credits
Emphasizes effective teaching practices, grouping strategies, behavioral planning, subject matter competency, curricular and instructional modifications, and collaboration. Student evaluations are based on an ability to develop individualized instructional plans based on assessments, teaching competency, including lesson design and implementation, management of the learning environment, and active collaboration with faculty peers.

SPED 568 ~ Methodologies for Culturally & Linguistically Diverse Students with Learning Challenges ~ 3 credits
Emphasizes a practical approach to the teaching and learning of listening, speaking, reading, and writing skills of students from culturally and linguistically diverse backgrounds.

STAT 200 ~ Introduction to Statistics ~ 4 credits
Includes organization and classification of data, graphic representation, measures of central tendency and variability, percentiles, normal curves, standard scores, correlation and regression, introduction to statistical inference, and the use of microcomputers for statistical calculations. Prerequisite(s): satisfaction of the ELM requirement.

STAT 201 ~ Elementary Statistics: Descriptive Statistics ~ 1 credit
This is the first course in the modular series for elementary statistics (STAT 201, 202, 203). This beginning course introduces the elementary statistical procedures used by researchers in the behavioral, health and social science professions and other related disciplines. This course emphasizes the use of tables, graphs and elementary descriptive statistical applications. The course also introduces the student to the basic skills for using computers in statistical analyses. Prerequisite(s): satisfaction of the ELM requirement.

STAT 202 ~ Elementary Statistics: Probability Distributions and Inference ~ 2 credits
This is the second course in the modular series for elementary statistics. The course is designed to extend the student's depth of knowledge in elementary descriptive statistical analysis and introduce the student to concepts of variation, probability theory, and probability distributions, and hypothesis testing and statistical inference. Presentations explaining the theory and concepts of elementary statistical inference procedures are accompanied by intensive instruction in the applications of computer statistical software. Prerequisite(s): satisfaction of the ELM requirement; STAT 201 or an elementary statistics preparatory course.

STAT 203 ~ Elementary Statistics: Hypothesis Testing ~ 1 credit
This is the third course in the modular series for elementary statistics. The course is designed to extend the student's breadth and depth in parametric and nonparametric hypothesis testing methods. The course will emphasize hypothesis testing theory and strategy for one- and two-sample designs as well as introductory presentations in analysis of variance. Presentation of commonly used experimental models is accomplished by intensive instruction in the applications of advanced computer statistical software. Prerequisite(s): completion of STAT 201 and 202 or an elementary statistics course that is equivalent to the CSU General Education Breadth Area B4: Mathematics/Quantitative Reasoning requirement.

STAT 204 ~ Business Mathematics and Statistics ~ 4 credits
Designed to provide an overview of the basic mathematics skills and elementary statistical procedures used in business applications and applied research settings. Places special preparatory emphasis on the quantitative reasoning skills for entry to MSE 300 Major ProSeminar. Develops proficiency in the use of data in tables, graphs, and elementary descriptive statistical applications, linear correlation and regression models, probability theory and probability distributions, hypothesis testing and statistical inference, and computer techniques using software packages. Prerequisite(s): college algebra or MATH 110.

STAT 250 ~ Applied Statistics for Science and Technology ~ 4 credits
Provides the models and methods used in a career in technology, engineering, and natural and biological sciences. Emphasizes the use of tables, graphs, and elementary descriptive statistical applications. Introduces statistical inferences through parameter estimation and regression modeling. Introduces students to the basic skills for using computers in statistical analyses. This is the first course in statistics for CST and ESPP majors. Prerequisite(s): Calculus I or instructor consent.

STAT 300 ~ Intermediate Statistics ~ 4 credits
Includes statistical analysis at the intermediate level, chi-square, analysis of variance, correlation and regression, and topics in experimental design, use of microcomputers for statistical calculations. Prerequisite(s): elementary statistics or instructor consent.

STAT 301 ~ Mathematical Statistics ~ 4 credits
Probability models and statistical methods for analyzing data have become common practice. This class will attempt to provide a comprehensive introduction to these models and methods along with their theoretical backgrounds most likely to be encountered and used by students in their career in Science and Technology. This course will review introductory statistics and extend the scope of statistics into deeper theoretical aspects using mathematical statistics. Prerequisite(s): Elementary Statistics, Calculus I, and Calculus II, or instructor consent.

STAT 302 ~ Statistical Literacy ~ 4 credits
This course is designed to promote statistical literacy across campus.

STAT 310S ~ Statistics in Applied Learning Environments ~ 2-6 credits
Instructs students in advanced statistical procedures and research analyses that are related to their work at service learning sites. Students must have a currently approved CSUMB community field study placement. Prerequisite(s): SL 200; STAT 300 or equivalent, or instructor consent; concurrent or previous enrollment in intermediate statistics.

STAT 397 ~ Independent Study Undergraduate Level ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

STAT 400 ~ Applied Statistical Methods: Regression Analysis ~ 4 credits
Includes simple linear regression, multiple linear regression, variable selection techniques, stepwise regression, analysis of variance (one way and two way), multiple comparisons, random and fixed effects models, residual analysis, and computing packages. Prerequisite(s): STAT 200 and STAT 301, or instructor consent.

STAT 597 ~ Independent Study Graduate Level ~ 1-6 credits
Student and faculty member select topic of study and number of credits. Prerequisite(s): instructor consent.

TAT 222 ~ Fun Busineess! Animation for the TV Generation ~ 4 credits
Introduces the origins, history, production techniques, art, and commerce of animation, from the earliest motion picture cartoons to 21st century digital graphics, special effects, Webtions, and virtual reality environments. Explores historical and international perspectives, as well as the social, cultural, and political utilizations of the medium as a serious— and often hilarious—means of creative expression. Outcomes focus on the development of critical thinking skills as well as oral and written expression.

TAT 231 ~ Movie Mania! ~ 4 credits
Repeatable survey course. Explores film genres by theme that changes each semester, e.g. rock ’n roll cinema, film noir, gangster movies, spaghetti westerns (check BAN-NER) each semester for specific topics. Classic films screened in large-screen 35mm format, 16mm, DVD, laserdisc, or VHS. Course outcomes foster independent, critical perspectives on the films viewed, and develop a deepened understanding and appreciation of the art and craft of filmmaking.

TAT 300 ~ Teledramatic Major ProSeminar/Ethics ~ 4 credits
Foundation course for all TAT majors assisting them in acquiring the understanding of and requirements in the TAT major needed for successful graduation. Also focuses on the ethical implications of various teledramatic fields, including future career courses and their implications, advertising, fundraising, intellectual property rights, morality/sexuality, privacy, free expression, and the power of teledramatic work on audiences. Emphasizes writing, reading, and critical thinking in the field of teledramatics.

TAT 302 ~ Fundamentals of Film and Video Editing ~ 4 credits
Teaches the fundamentals of film and video editing. Examines the principles and art of editing techniques as they are used to advance story development. Included in training in offline linear video editing systems, Adobe Premiere, and other nonlinear desktop editing systems. Prerequisite(s): CST 101 and TAT 337, or instructor consent.

Course Descriptions: Teledramatic Arts and Technology

TAT 380 ~ TAT Creative Lab ~ 4 credits
Project-driven course develops and researches programming based on teledramatic concepts, and investigates the integration of cross-disciplinary media: theater, film, broadcast television, radio, drama, and Internet video. Prerequisite(s): audition and instructor permission.

TAT 384S ~ Radio Production and Streaming Audio ~ 4 credits
Radio/audio production, as well as broadcast and Internet distribution. Students work on live music and talk shows, and do field recording and nonlinear postproduction editing. Students learn the technicalities of both broadcast radio and Internet streaming, and work with local community organizations in the development and distribution of their radio/audio productions. Prerequisite(s): TAT 338 or instructor consent.

TAT 388 ~ Advanced Radio Production and Internet Streaming ~ 4 credits
Hands-on course involving students in audio production that are broadcast and/or cyber-cast. These include live studio talk shows, live music programs, radio theater, and weekly programs that the students DJ. Students learn field and studio production, nonlinear editing, on-air vocal techniques, and radio administration. Prerequisite(s): TAT 338.

TAT 390 ~ Introduction to Theater Production—Acting ~ 4 credits
For actors performing in full-scale, professionally directed plays on the World Theater stage, student theatrical productions, staged readings, and smaller teledramatic projects. Prerequisite(s): audition.

TAT 391 ~ Introduction to Technical Theater Production and Producing ~ 4 credits
Provides the technical and production support for the professionally directed plays, student productions, staged readings, and smaller teledramatic projects produced by the TAT Institute. Involves hands-on experience in set design and construction, lighting design, props, makeup, sound design, crewing shows as stage hands, stage management, production assisting, production organization, PR, marketing and audience development, and related technical support areas.

TAT 392 ~ Advanced Theater Production—Acting ~ 4 credits
For experienced students of acting, performing in professionally directed plays, student theatrical projects, staged readings, and teledramatic projects. Prerequisite(s): TAT 390 or audition.

TAT 393 ~ Advanced Theater Production—Technical ~ 4 Credits
Provides the technical and production support for the professionally directed full-scale plays, student productions, staged readings, and smaller teledramatic projects performed by the TAT Institute. Prerequisite(s): TAT 391 or instructor consent.

TAT 395 ~ Special Topics Study ~ 1-6 credits
A select group of students choose specialized study of a particular topic in Teledramatic Arts and Technology. Prerequisite(s): instructor consent.

TAT 396 ~ TAT Internship ~ 4 credits
Provides students with internship opportunities in teledramatic fields. By interview.

TAT 397 ~ Independent Study ~ 1-6 credits
Student researches, develops, writes, and completes a proposed project in a chosen topic in Teledramatic Arts and Technology, as part of an approved Individualized Learning Plan. Prerequisite(s): advisor and instructor consent.

TAT 397S ~ Advanced Video/TV Production and Broadcast ~ 4 credits
Focuses on the production and broadcast of teledramatic programs. Students write, produce, crew, and edit selected teledramatic programs. Prerequisite(s): TAT 337 and TAT 339, or instructor consent.

TAT 398 ~ The Art of Producing/Presenting ~ 4 credits
Primary focus of this survey course is to exhibit films. Students receive hands-on experience in the basics of presenting high-profile film events. Students required to produce at least two film selections, and coordinate, supervise, and facilitate all aspects necessary to the presentation of the films, including leading a lecture and discussion. Also discusses, compares, and analyzes other teledramatic presentations. Prerequisite(s): TAT 391 or instructor consent.

TAT 399S ~ TAT Internship ~ 4 credits
Integrates theater production, film production, video/television production, radio production, and/or new media production with community-based organizations. Students participate in service activities or projects with external communities and integrate the experience with specific outcomes through written reflections, discussion, and evaluation.

TAT 395 ~ Digital Studio Production ~ 4 credits
Focuses on the production, broadcast, and streaming of digital studio productions. Students are assigned positions to write, produce, direct, edit, and/or crew selected teledramatic studio broadcasts. Students learn advanced skills in camera operation, lighting, audio, linear editing, and distribution. Prerequisite(s): TAT 337 and TAT 339, or instructor consent.

TAT 440 ~ Intermediate Scriptcraft ~ 4 credits
Provides intensive editorial review and revision techniques for original scripts or teledramatic adaptations which are already in first draft form. Students learn the rewrite process and work to develop their drafts into finished scripts, ready for production. Prerequisite(s): TAT 340.

TAT 455 ~ Advanced Acting ~ 4 credits
Provides advanced study of and practice in the actor’s process and includes such elements as style, movement, advanced text work, and acting for the camera. Prerequisite(s): TAT 355 or audition.

TAT 461 ~ Advanced Non-Linear Editing ~ 4 credits
Involves continued practice in advanced editing. Students practice digitizing media from a scene provided to them on Avid Xpress, edit from rough cut to fine cut, work with effects and titles, and output in different formats. Prerequisite(s): TAT 361.

TAT 490 ~ Capstone Preproduction and Portfolio Development ~ 4 credits
Students conceive, research, develop, plan, coordinate, schedule, and budget the preproduction phases of their Senior Capstone projects. TAT Senior Capstone projects are artistic/technical storytelling projects that demonstrate the culmination of their learning while studying at TAT and their mastery of TAT’s five Major Learning Outcomes (MLOs).

TAT 491 ~ Capstone Completion and Portfolio Assessment ~ 4 credits
Graduate students implement and produce their Capstone projects that were conceived and planned in their TAT 490 Capstone Preproduction and Portfolio Development class, completing the TAT MLO processes of production, postproduction, and distribution. Students present their completed projects to the public at the annual TAT Capstone Festival. Prerequisite(s): TAT 490.

TAT 499 ~ Directed Study for Seniors ~ 4 credits
Permits graduating seniors to design unique learning sequences that are pertinent to their learning plans and not covered in current course offerings. Students design an independent study proposal with the facilitation of an appropriate faculty member, and obtain authorization for the proposal. Prerequisite(s): senior standing and instructor consent.

TAT 590 ~ Graduate Capstone Preproduction and Portfolio Development ~ 4 credits
Graduate students conceive, research, develop, plan, coordinate, schedule, and budget the preproduction phases of their graduate Capstone projects. TAT graduate Capstone projects are artistic/technical storytelling projects that demonstrate the culmination of students’ learning while studying at TAT and their mastery of TAT’s five Major Learning Outcomes (MLOs). Prerequisite: instructor consent.

TAT 591 ~ Graduate Capstone Completion and Portfolio Assessment ~ 4 credits
Graduate students implement and produce their graduate Capstone projects that were conceived and planned in their TAT 590 Graduate Capstone Preproduction and Portfolio Development class, completing the TAT MLO processes of production, postproduction, and distribution. Students present their completed projects to the public at the annual TAT Capstone Festival. Prerequisite(s): TAT 590.

TAT 595 ~ Special Topics ~ 1-6 credits
Graduate students choose specialized study of a particular topic in Teledramatic Arts and Technology. Prerequisite: instructor consent.

TAT 597 ~ Independent Study ~ 1-6 credits
Graduate students implement and produce their graduate Capstone projects that were conceived and planned in the TAT 590 Graduate Capstone Preproduction and Portfolio Development class, completing the TAT MLO processes of production, postproduction, and distribution. Students present their completed projects to the public at the annual TAT Capstone Festival. Prerequisite(s): TAT 590.

TAT 599 ~ Independent Study ~ 1-6 credits
Graduate students choose specialized study of a particular topic in Teledramatic Arts and Technology. Prerequisite: advisor and instructor consent.
VPA 195 ~ Special Topics ~ 1-4 credits
Studies a particular topic in the visual and public art major. May be repeated for credit when topics vary.
Prerequisite(s): instructor consent.

VPA 196 ~ Field Studies ~ 1-4 credits
Field Studies opportunities. Topics of study, as well as number of credits, arranged between student and faculty member.
Prerequisite(s): instructor consent.

VPA 197 ~ Independent Study ~ 1-4 credits
Independent study opportunities. Topics of study, as well as number of credits, arranged between student and faculty member.
Prerequisite(s): instructor consent.

VPA 300 ~ Visual and Public Art Major ProSeminar ~ 4 credits
Helps students acquire and develop knowledge, skills, and understanding needed to fulfill major-specific learning outcomes. Acquaints students with the theories, values, and models relevant to the visual and public art program. Provides students insight to possible careers. Students develop a community of learners which assist them in completing their individual learning plan.
Prerequisite(s): course restricted to majors only.

VPA 301 ~ Two-Dimensional Fundamentals of Painting and Drawing ~ 4 credits
Students learn fundamentals of drawing and painting including line, perspective, color theory, and beginning drawing skills. Students work individually and in collaboration on a special campus project.

VPA 302 ~ Visual and Public Art Visiting Artists Series ~ 2 credits
Students have opportunities to meet with visiting artists. Requires attending a minimum of three evening artist lectures, and developing artists’ profiles and written summary essays.

VPA 303 ~ Three-Dimensional Fundamentals of Sculpture/Installation ~ 4 credits
Presents the fundamentals of construction using basic sculpture methods and materials. Introduces the concepts of installation. Students work individually toward a class-developed collaboration on a specific campus project. Formerly known as VPA 303, Home-Based Studio three-dimensional and four-dimensional. Introduction to Public-Scale Sculpture, Installation, and Site-Specific Production.

VPA 304 ~ Advanced Painting and Mural ~ 6 credits
Provides students opportunities to develop individual portfolio, team, and large-scale collaborative class projects on or off campus. Students work with a variety of materials in public scale and on special projects with visiting artists.
Prerequisite(s): two semesters of Fundamentals and Home-Based Studio; instructor consent.

VPA 305 ~ Media Analysis ~ 4 credits
Students develop skills of media analysis. Emphasis placed on the analysis of media representations and ethical approaches to sociocultural issues. Media include digital advertising, Internet, music videos, and popular culture materials influencing perception and identity. Provides theoretical approaches to a hands-on model of analysis and media intervention.

VPA 305S ~ Large Scale Digital Mural Workshop Service Learning ~ 4 credits
Students work with a digital approach to mural and public art project development including analysis of sites, conceptualization and collaboration using current imaging software. Students work in collaboration with specific communities to develop digital images.

VPA 307 ~ Diverse Histories in Contemporary Art ~ 4 credits
Surveys contemporary art and cultural production reflective of diverse U.S. communities. Emphasizes issues of race, culture, gender, and sexuality in the production of contemporary visual and public art. Helps students develop the knowledge, skills, and abilities applicable to the understanding of culture and history.

VPA 308 ~ Ways of Seeing: Seminar on Philosophy and Ethical Thinking in Public Art ~ 4 credits
Surveys the field of contemporary ethical theory in visual and public arts. Students follow controversial cases in public art. Uses guest artists, slide lectures, videos, and field trips as resources to understand and analyze cases.

VPA 309 ~ Media and Materials ~ 2 credits
Offers students a chance to learn skills in a variety of media including in welding, lighting, ceramics and woodworking. Guest artists give demonstrations as well.

VPA 310 ~ Mixed Media Drawing ~ 4 credits
Provides beginning and intermediate drawing skills using media. Students work from models, still life, landscape/outrigger fields, photographs, and mixed media collage. Students study techniques, proportion, composition, light/shadow, perspective, color, and scale, and do collaborative drawing projects.

VPA 312 ~ Visual Arts for Teaching ~ 4 credits
Helps prepare teachers and others in the visual arts education field with lesson plans developed in conjunction with VPA projects, visiting artists, and museum arts education models. Formerly known as Visual Arts Education for Teachers.

VPA 313 ~ Regional Art History ~ 4 credits
Traces the arts and culture development of the Monterey Bay region. Emphasis on cultural groups, artists, and arts groups as well as popular cultures that are unique to the natural and human landscape of the region. Hands-on research, guest lectures, films, fieldtrips and guest artists.

VPA 314 ~ Modernism-Postmodernism ~ 4 credits
Examines visual culture and its manifestations in art, architecture, media, and popular culture. Students work with text and visual materials applying theories of race and postcolonialism, semiotics, anthropology, gender construction, and feminism. Identity politics and cultural hybridity. Topics include histories of urban development, industrialization, world fairs and expositions, cultural appropriation, deconstructionism and the media. Students have opportunities to meet with visiting artists.

VPA 315 ~ Life Drawing ~ 4 credits
Provides beginning and intermediate drawing skills development using media that focuses on the human figure. Students work from models to explore a range of techniques studying proportion, composition, light/shadow, anatomy, and use of color. Includes class critiques and student presentations.

VPA 317S ~ Museum Foundation Studies Service Learning I ~ 4 credits
Critical Theory in Museum Studies, Arts Education, and Social Community and Service. Guest lectures from the field, collaborative peer group activities, and related readings. Students work in a lab setting through hands-on learning in the field of museum studies. Collaborating with the Monterey History & Art Association, instruction offers basic knowledge of operations, conservation application, exhibit content and interpretation, design, installation, collections management, and oral history interviewing. Two semesters required.

VPA 318 ~ Museum Studies ~ 4 credits
Studies a particular topic in the visual and public art major. May be repeated for credit when topics vary.
Prerequisite(s): instructor’s consent.

VPA 319 ~ Chicano/o Art History: Image, Ideology and Iconography ~ 4 credits
Provides students with a critical view of the history of Chicano/o art focusing on El Movimiento and its contemporary manifestations in art and culture. Addresses issues of cultural reclamation, public space, gender and sexuality, and rural/urban migration. Students apply strategies of iconographic and media analysis to visual materials.

VPA 3205 ~ Museum Foundation Studies Service Learning I ~ 4 credits
Critical Theory in Museum Studies, Arts Education, and Social Community and Service. Guest lectures from the field, collaborative peer group activities, and related readings. Students work in a lab setting through hands-on learning in the field of museum studies. Collaborating with the Monterey History & Art Association, instruction offers basic knowledge of operations, conservation application, exhibit content and interpretation, design, installation, collections management, and oral history interviewing. Two semesters required.

VPA 3215 ~ Museum Studies ~ 4 credits
Critical Theory in Museum Studies, Arts Education, and Social Community and Service. Guest lectures from the field, collaborative peer group activities, and related readings. Students work in a lab setting through hands-on learning in the field of museum studies. Collaborating with the Monterey History & Art Association, instruction offers basic knowledge of operations, conservation application, exhibit content and interpretation, design, installation, collections management, and oral history interviewing. Two semesters required.

VPA 396 ~ Field Studies ~ 1-4 credits
Provides students opportunities for independent work in the field with professional artists and includes visiting artist projects.
Prerequisite(s): instructor’s consent.

VPA 397 ~ Independent Study ~ 1-4 credits
Students pursue work in forms of public art including murals, installations, and performances, under the tutelage of practitioners in the field. Offers longterm project advisement and offsite project involvement. Note: students may enroll by faculty appointment for critique or consultation on specific projects.
Prerequisite(s): instructor consent.

VPA 401 ~ Installation Art and Performance ~ 4 credits
Students create and exhibit works at on- and off-campus sites. Draws upon the artistic genres of environmental art, performance art, light and projection art, sacred art, and mixed media collage. Students take field trips to studios of working professionals. Visiting artists come to the VPA studios to talk about their own work and to give critiques.
VPA 403 ~ Advanced Sculpture and Three Dimensional Design ~ 6 credits
Students pursue individual and team projects in large-scale, public sculpture and mixed media installation using a variety of materials including work construction, metal work, stove, and ceramic. Students develop individual work and the class takes on a large-scale project on or off campus.

VPA 405 ~ Senior Capstone ~ 4 credits
Allows students to design, curate, and present their own senior exhibition/project as a display of their cumulative learning in the major. Exhibitions may take place in a community setting within their public art focus; two semesters’ required in major. Formerly known as VPA 405 Special Project Senior Capstone. Prerequisite(s): course restricted to majors only.

VPA 495 ~ Special Topics ~ 1-4 credits
Specialized study of a particular topic in visual and public arts. May be repeated for credit when topics vary. Prerequisite(s): instructor consent.

VPA 497 ~ Independent Study/Assessment Portfolio Review ~ 4-6 credits
Assessment study for student portfolio review, please contact the academic program office for further information. Prerequisite(s): instructor consent.

VPA 497S ~ Independent Study/Service Learning ~ 4 credits
Independent study in the service learning to be determined by student in collaboration with the Institute of Visual and Public Art. Contact the academic program office for further information. Prerequisite(s): instructor consent.

VPA 595 ~ Special Topics ~ 1-6 credits
Independent studies in upper division level; focus is determined by student in collaboration with the Institute of Visual and Public Art. Contact the academic program office for further information. Prerequisite(s): course is open to Graduate Students only; instructor consent required.

VPA 596 ~ Field Studies ~ 1-6 credits
Student and faculty member select advanced topic of field study and number of credits. Contact the academic program office for instructor signature, registration code, and schedule number. Prerequisite(s): course is open to Graduate Students only; instructor consent required.

VPA 597 ~ Independent Study ~ 1-6 credits
Students pursue work in forms of public art including murals, installations, and performances, under the tutelage of practitioners in the field. Offers longterm project advisement and offsite project involvement. Note: students may enroll by faculty arrangement for critique or consultation on specific projects. Prerequisite(s): course is open to Graduate Students only; instructor consent required.

WLC 300 ~ World Languages and Cultures Major ProSeminar ~ 4 credits
Orients potential students to the WLC major. Students acquire the knowledge to fulfill the WLC Major Learning Outcomes. Students develop individual learning plans. Required for WLC majors. Prerequisite(s): junior standing.

WLC 395 ~ Special Topics ~ 1-6 credits
Students design unique learning sequences that are pertinent to their learning plans and not covered in current courses. Students design a study proposal with appropriate faculty and obtain authorization from their academic center. May be repeated for credit when topics vary. Optional grading. Prerequisite(s): upper-division standing and instructor consent.

WLC 397 ~ Independent Study ~ 1-6 credits
Allows upper-division students to pursue courses on special topics. May involve such activities as readings and reaction papers, term papers, reports on life experiences, and action research. Student and faculty member select topic of study and number of credits. Prerequisite(s): upper-division standing and instructor consent.

WLC 400 ~ World Languages and Cultures Major Capstone ~ 4 credits
Students work with the instructor, other students, and WLC faculty mentors to assemble their final Capstone projects. For world languages and cultures majors. Prerequisite(s): senior standing in WLC major and instructor consent.
